TORONTO, Ont., Feb. 24. (By Geo. Maguire, C. P. Sports Writer).—Two international fixtures headline to-night's National hockey league program. In both matches teams struggling for a firm grip on the third rung of the Canadian section are pitted against squads of higher ranking.

At the Forum, Montreal Maroons, fourth place holders in the northern loop, entertain the Chicago Blackhawks, occupants of the second place perch behind Boston Bruins, leaders of the American group derby. The Munromen are two points in the rear of New York Americans, who are at home to the erratic performing Toronto Maple Leafs.

Judging them by their records the visiting teams would be expected to skate to victory tonight. But, peculiar enough the Maroons and Americans have always managed to give their opponents of to-night more than ordinary opposition.

The Montrealers have met the Windy City hockeyists on three previous occasions and have always skated off the ice with the scalp of victory tucked to their belts. The Hawks, possessed of an abundance of speed and all-round cleverness, have found in the Maroon huskies, one team they simply cannot down.

Should the Forum representatives register their fourth triumph against the Chicagoans it is quite likely they will find themselves in a tie once more for third place.

Toronto Leafs and the Americans will be meeting for the sixth time, the Canadian group second place holders have won two, tied two and lost one and following their splendid game against Boston last Saturday are expected to down the Amazing Amerks. They are far from consistent, however, as their defeat at the hands of Ottawa Senators last Thursday indicates, and it is possible the hot pace maintained against the Bruins will show its effect in Madison Square Garden.

In the third scheduled tilt Boston travels to Philadelphia for their fifth engagement of the season with the tail-end Quakers. The Bruins won easily from the pupils of Cooper Smeaton in the first three tests but were rudely halted in the fourth when the humble basement occupants held them to a tie right in the Hub.

Little interest attaches to the game however, as the Bruins hold a commanding lead over their nearest rivals while the Quakers were counted out of the race long since.

THE RING.

Toronto—Billy Shaw, Detroit, outpointed Billy Kowalik, Buffalo (8); Tony Tozzo, Buffalo, outpointed Chuch Long, Detroit, (8).

Laqredo, Tex.—George Godfrey, Leiperville, Pa., knocked out Dick Russell, Texas (1).

New York.—Ted Sandwina, Sioux City, Ia., knocked out Umberto Torriani, Italy (2).

Philadelphia—Harry Blitman, New York, outpointed Lew Massey, Philadelphia, (1).

Holyoke, Mass.—Midget Wolgast, Philadelphia, outpointed Ruby Bradley, Holyoke (10).

New Orleans—Johnny Farr, Cleveland, outpointed Ervin Berlier, New Orleans, (10).

POSTPONED GAME TO BE PLAYED FEB. 26

Hoard's Claiming Glen Ross Game by Default, Date Set if Decision Not Favorable.

BURNBRAE, February 24 (Examiner Correspondence). — The faithful fans who attended Thursday evening's hockey tilt at Stirling were disappointed when Glen Ross team failed to put in an appearance for the game with Hoard's.

First place in the league was at stake and with a player on the sick list, Glen Ross sent word at the last minute that they could not put a team on the ice, failing however, to notify all their own players, with the result that some were at the rink ready to play.

Hoards are claiming the game by default but if the decision is not favorable, the game will be played on Thursday, February 26, along with the Menie-River Valley encounter. Menie was very lucky to stay in the running with a 3 to 2 win over Springbrook.

The northerners started with Mason in goal and a sub forward line. Menie reaped two soft goals in the first five minutes and it looked like a walk-over. However, Springbrook defense tightened up and with the arrival of the regulars, forced the play in the second and third periods to keep Menie almost completely behind the centre ice area and tie up the score. During this time Eagleson was the salvation of the Menie team, saving them from certain defeat time after time.

Ward spent a large share of the final period in the cooler for too-efficient bumping, but redeemed himself by barging through to score the winning counter, when Knocker failed to clear the rebound of his hard shot.

The Springbrook forwards, Ketcheson, McGee, Alexander and Kirley are hard fast skaters and their persistent backchecking broke up whatever efforts the hard worked Menie players made toward scoring. Shillinglaw made several nice rushes but was hampered by the heavy ice.

The line-up was as follows:

Springbrook — Goal, Mason and Knocker; defense, J. Wellman and Hazlett; centre, McGee; wings, Ketcheson and Kirley; subs, Alexander W. Heath, Bateman and G. Wellman.

Menie—Goal, Eagleson; defence, Shillinglaw and Hall; centre, Rannie; wings, W. Whitton and Ward; subs, E. Whitton, Little, Milne.

The feature of the last annual fair in Java was a baseball game between an American and Japanese team.

BATTLE LOCAL INTRMEDIATES TO 2-2 DRAW AND WIN ROUND IN HABOCO CUP SERIES 7-6

Petes Not Playing Up to Usual Form Drop Opportunities to Score.

LINDSAY DESERVES WIN.

Miller and Calladine Play Stellar Game For Locals—Maudsley Off Form.

"Sandy" Sandercock's Lindsay Vics stepped into town last night with a one-goal margin over the Petes, and waltzed out a few hours later with the same margin and a silver cup. The one-goal lead is a result of the 2-2 draw to which they held the local intermediates, and the cup is the Haboco trophy presented the winners of the Lindsay-Peterborough post-season series by the H. J. Boyle Company of this town.

On the night's play Lindsay deserved the win, playing faster and passing the puck more all the way through. The Petes didn't rightly get going till the last period. The boys weren't putting much pep into the game, and as it was, they missed several opportunities to score through not following in fast.

The game was fairly fast and quite exciting in spots. A medium crowd turned out to see the old rivals. The ice was fast to begin with and held up pretty well through out. The whole Lindsay outfit deserves credit for their victory, their goalie stopping a flock of shots especially in the last five minutes. Reeves and Fever worked well on the defense, the former being particularly dangerous on lone rushes. The three regular forwards had a nice combination going and they backchecked persistently. The alternates did nothing to weaken the line when they were on. Miller in goal and Norm Calladine on the wing were the best for the Petes. Jarvis, Dallin and Creighton worked hard when they were on. Maudsley was a little off his usual form, and the defense did their best work in the third go.

After the game, Harry Boyle congratulated the Vics in a short speech in their dressing room and Charlie Boyle presented the cup, a very classy trophy with blue and white ribbons attached. Manager Sandercock thanked him and intimated it would never see Peterborough again.

Summary of the game:

The teams:

Lindsay—Goal, McClory; right defence, Reeves; left defence, Fever; centre, Martin; right wing, Williams; left wing, Rich; alternates, Danes, Crafton and Forbert.

Peterborough—Goal, Miller; defence, Lackey and Lebarr; centre, Maudsley; right wing, N. Calladine; left wing, Dallin; alternates, P. Calladine, Jarvis and Creighton.

Referee—"Shrimp" McDougall.

First Period.

No score.

Second Period.

Peterborough—Lackey (Dallin), 16 minutes.

Peterborough—Maudsley, 1 min.

Lindsay—Rich (Reeves, 2 mins.

Third Period.

Lindsay—Crafton (Reeves), 7 mins.

The Play.

Dallin grabbed the puck from the face-off but lost it right away and Rich brought it to the defence where he was checked. Play was slow at the start. Lebarr passed to Dallin who got the first shot of the game. Rich came back and tried a shot from the corner. Calladine went up, and Martin brought it back, only to lose to Maudsley who in turn lost it to Fever. Play was back and forth and a little faster for a space. Several smart rushes were broken up at either defence line. Williams and Martin nearly got through, and then Creighton and Pat Calladine went up together, but Pat missed the net. Lindsay forwards were going nice now and getting in often. Miller had to step lively to keep the rubber out. Creighton went up but was blocked. Williams, Rich and Martin came down together and got right in but Miller came out for a great save. Nor Calladine worked in close several times and had the Vics worried but McClory was hard to beat. Play was slowing and marked with considerable backchecking. Jarvis and Creighton went through but "Red" hit the goalie. Fever came down and lost to Lackey who skated into the corner on his try just as the period ended. Petes drew the only penalty of the frame.

Play Becomes Speedier.

Rich rushed to start the middle canto, and Lebarr went back for a hard shot at McClory. Williams and Miller tried it together and were checked at the blue line. Maudsley went through for a shot and Reeves came down the right boards fast. His shot was slightly off. Dallin took it up and leaned one on the Lindsay cage and then Pat Calladine did it again. Jarvis made them step to keep him out. The Petes were holding the play in Lindsay territory for the time being but they couldn't counter. The play was speeded up and the puck was chased from end to end on rapid thrusts. Lindsay forwards were backchecking effectively for several minutes and the Redshirts couldn't get going. Three quarters way through, Reeves came down for a shot, and Dallin and Lackey grabbed it and knocked it out from behind the goal to Lackey who slapped it in. Play was very fast from then on, and it was just one minute later when Dallin took a long shot and Mandsley batted in the rebound when the puck caromed off the boards. Two minutes later, Reeves came through fast and passed to Rich who notched the first for Lindsay and the round was even afain. The bell found both outfits travelling at top speed. Each team drew one penalty in this frame.

Petes Lead Play.

The last stanza started slow with several individual attempts and long shots. Calladine took the puck up and lost to Reeves who passed to Fever, but the shot was picked off. Jarvis drew a long bead on the Vics citadel and it nearly fooled McClory. Lindsay had four men up and finally pushed in another counter when Crafton took a pass from Reeves close in.. It looked as if the puck went in off Crafton's arm instead of his stick, but the referee counted it. Then the Petes snapped out of it and began to hit their stride. Jarvis made McClory come out to save. Reeves came down the boards for a crack at Miller. Lackey tore through several times but couldn't fool the goalie. Play was fast and somewhat rougher as the boys checked hard and took the odd cut at each other. The Petes were threatening steadily for several minutes. They had four men up and Lindsay began shooting the puck down the ice for relief. Lackey went up, then Lebarr, and then Creighton and McClory had to fall on the rubber to keep it out. Rich brought it down to the defence, and Lackey took it right back. The Vics' forwards were backchecking their heads off. Creighton took a pass from Jarvis and missed an almost open net. Forbert brought it down on a nice bit of work and passed to Dane, but Miller saved. Maudsley worked in close but his shot was blocked. Creighton tried again. The Petes were aggressive and held a big edge on the play toward the last. Lindsay kept shooting the puck down and checking hard and then the final gong went. Each team drew one penalty during this session.

BAILIEBORO BOYS WIN CLOSE GAME

Gore's Landing Outfit Are Defeated at Bewdley 3 to 0.

HOLD SKATING PARTY

BAILIEBORO, Feb. 24 (Examiner Correspondence).—An excellent game of hockey was played on the Bewdley ice on Friday evening, when the local hockey team played the Gore's Landing boys.

The Bailieboro boys proved too much for the visitors and at the end of the third period the score stood 3 to 0 in favor of the local squad.

The goals were scored by Dawson, Deyell and Earnshaw. No penalties were given throughout the game, but off-side passes had to be frequently checked up.

The teams lined up as follows:

Gore's Landing.—Goal, G. Harris; wings, McDonald and McDonald; centre, P. Harris; defense, L. Wallace and L. Harris; subs., F. Harris and C. Harris.

Bailieboro. — Goal, I. Musprat; wings, Watt and Earnshaw; centre, A. Dawson; defence, Deyell and L. Dawson; subs., Barnard, Brown.

Referee.—Keith Barnard.

Skating Party

A splendid skating party was enjoyed on the Bewdley rink on Saturday evening, when about fifty of the young people gathered and did full justice to the excellent ice furnished by the villagers of Bewdley.

The local bus took a load from the village and almost all the young folk of the district attended the party.

TERRIERS FALL FROM TOP PLACE

Stratford Nationals Establish Two Records in Defeating Galt.

TWO OVERTIME TILTS.

TORONTO, Ont., February 24 (C. P.). — Two overtime contests and toppling of the erstwhile leaders marked the three matches played in the Ontario Hockey League last night.

Galt Terriers, leaders of the pack for months, were smacked from their lofty pedestal by Stratford Nationals, who unleashed a smashing offensive which netted them eight goals, the season's high scoring record, to vanquish the Terriers.

The teams also established a new high scoring mark for 20 minutes by notching nine markers in the second frame. The Nationals chalked up six of them.

While the Nationals were skidding the Galt hockeyists down to a tie for third place with themselves. Kitchener Silverwoods and Guelph Maple Leafs took advantage of the twists of hockey fates by winning over Oshawa and Niagara Falls respectively, to climb into a tie for possession of the driver's seat.

Oshawa Pats, cellar occupants, forced the Silverwoods into overtime, before conceding victory to their Western Ontario rivals, 4 to 3, while Niagara Falls fought equally as long before going down to a 2 to 1 defeat which knocked them all the way from second to next to last place.

The standing to date:

	P	W	L	T	F	A	P.
Kitchener	24	12	11	1	60	76	25
Guelph	24	12	11	1	71	67	25
Galt	24	11	11	2	71	84	24
Stratford	22	12	10	0	74	61	24
Niagara Falls	24	10	11	3	63	55	23
Oshawa	22	9	12	1	64	60	19

GROVE SCHOOL BEATS OLD BOYS

Annual Hockey Match Played on Lakefield Rink Successful Affair.

CLOSE CHECKING

LAKEFIELD, Feb. 24 (Examiner Correspondence)—The annual hockey match of The Grove and the Old Boys was played on Saturday evening with a large crowd of very ardent fans present. Like the annual football game, played on the morning of Thanksgiving Day, the hockey match has features which no other game has. The school likes to show its prowess and to show the Old Boys that teams are as good now as they were in the old days, which the latter are apt to idealize as "the best days." Saturday's game began so early in the evening that many fans did not arrive till the first period was well under way.

It was a good game, fast and clean, and handled efficiently by Louis Sabatino. The score was 9 to 5 for the School.

The 1st period saw very hard fought play with both teams fresh and with close checking and a good deal of speed. The score was 2—1 at the end with its being really anybody's game.

The second period saw the score evened by Loosemore, who was playing a good game in spite of lack of practice this season; then Elmsley, who was the little busy bee of The Grove outfit, shot one which put the school once more in the lead. Smith, on a pass from Mackenzie, scored, but Stuart and Bagg each got past the goalie and added their two to the School counters. Gray, who played his usual brilliant game, scored, but Burgers added another to the already swelling score.

The Old Boys felt the pace in the third and realized that Old Boys get a bit tired after a while. Gray scored early in the period, which was the last for the Old Boys, but Elmsley, who was as fresh as a daisy, shot in three in quick succession and the game wound up with the School well in the lead, after a fine game entirely free of penalties.

Gray, Mackenzie, Loosemore and Smith starred for the Old Boys, while Harris in goal, Macrae, Elmsley and Burgess were probably the best and most effective for the School. The Grove have a well-balanced team this year and each man is well placed and plays his position with effect so that comparisons are really out of order. The following is the line-up:

Old Boys.—Goal, Underwood; r. defence, Gray; l. defence, Langley; centre, Loosemore; r. wing, Mackenzie; l. wing, Smith; subs., Tate and Strickland.

Grove.—Goal, Harris; r. defence, Burgess; l. defence, Carson 1; centre, Macrae; r. wing, Stuart; l. wing, Elmsley; subs., Beardmore, Bagg, Carson II.

Carnival Prizes

The prizes for the carnival which is being held on Friday evening next are displayed in the window of The News office and are attractive enough to make dressing for the carnival a real pleasure. The carnival is an annual event which is enjoyed by all ages and the Citizens' Band will be present to provide music.

BECKETT RINK WINS ROYAL BANK TROPHY

Curling Schedule at Norwood Brought to Successful Close.

NORWOOD, Feb. 24 (Examiner Correspondence). — The Curling Club schedule came to a brilliant close on Friday evening, when William Beckett's rink was chosen winners and presented with the Royal Bank Cup. Percy Kempt's rink was a close second.

After the games, Mr. Dean catered to a splendid banquet in the rink gallery. After supper, Charles Pearce and Nelson Wellman were called forward and a presentation made, the former receiving a sweater and the latter a beautiful gold watch in recognition of their splendid services in helping to keep the rinks in good shape and numerous other kindly acts.

Although taken by surprise, these two gentlemen thanked their fellow curlers for their thoughtfulness, following which everyone joined in singing, "For They Are Jolly Good Fellows" and the entertainment brought to a close.

Large Fields Entered N.A.A. Championships

NEW YORK, Feb. 24. —(CP)— So large are the fields in the 600 and 1,000 yards events of the National A. A. U. championships to be held in Madison Square Garden tomorrow night, that each race has been split into three heats, first two in each heat to qualify for the final.

In the 600, Paul Keller of France has been drawn in the same heat with Phil Edwards, Hamilton, Ont., Negro, and Eddie Roll, while Sera Martin, French holder of the 800 meter record, was drawn against Milton Sandler and Eddie Blake. The third heat is topped by Eddie McCafferty of Holy Cross and Alex Wilson, Notre Dame.

VICTORY FOR TECUMSEHS WILL PLACE THEM IN THIRD PLACE

Shuffle Depends Upon Result of Indians-Detroit Olympia Fixture.

LONDON AT WINDSOR.

TORONTO, Ont., Feb. 24 (C.P.)—Three of the four teams striving so mightily for possession of a play-off berth in the International Hockey League return to the ice battles tonight in games which may cause considerable shuffling among the third place aspirants.

Windsor Bulldogs, holders of second place by a three-point margin over their nearest opponents, Pittsburg Yellow Jackets, are at home to their ancient rivals, London Tecumsehs, who are deadlocked in fourth place with Cleveland Indians, one point behind the Smoky City puck chasers. Victory for the Tecumsehs will hoist them into third place, two points behind the Windsorites, should the Indians fail to down the Detroit Olympic, who visit the Ohio city.

The Windsor-London clashes generally prove outstanding attractions and with both outfits striving desperately to secure a hold on the dividend paying positions, to-night's match should surpass any of the previous engagements.

Neither team has accomplished anything notable in the last two weeks and realize they will have to snap out of their slump to keep in the van of last season's champion Indians and the fast travelling Yellow Jackets.

The Indians beat the Olympics in the two previous tussles and should add another valuable brace of points at the expense of the slipping Detroiters.

In the third scheduled fixture the league leading Buffalo Bisons are at home to the tail-end Syracuse Stars, but as Mickey Roach's clever team has an eight-point lead over the Bulldogs the result is almost devoid of interest.

HOOPER-HARVEY IN CUP FINAL

Defeat Pratten and Wood in Semi-finals of Dobbin Trophy Play.

MEET TO-NIGHT.

T. Hooper and W. Harvey wound up in the semi-finals for the Ross L. Dobbin leads and seconds trophy in last night's resumed play at the local curling rink. For a week the game had been held up owing to the mildness of the weather, but yesterday, with a return to colder temperatures, the ice tightened up. To-night these two rinks will joust in the finals for the trophy, commencing at eight o'clock, after which three postponed schedule games will also be played.

The results of last night's contests were:

Wood 11 vs. Bowes 4.
Taylor 6 vs. Harvey 14.
Blewett 7 vs. Hooper 11.
Adams 7 vs. Pratten 11.

Semi-Finals.

Wood 2 vs. Harvey 11.
Hooper 9 vs. Pratten 4.

The personnel of the finalists' rinks is:

Rev. David Wren, G. Braund, R. Hutchison, W. Harvey (skip).
P. Hooper, C. Thompson, G. Robertson, Jr., T. Hooper (skip).

The three postponed schedule games to be fought out to-night are: Chenhall vs. Moore; Seymour vs. Skinner; Oke vs. Downey. The schedule playdowns will commence to-morrow night.

NATIONALS BEATEN ON GAME AND ROUND

Sea Fleas Eliminated By Hamilton Seniors With 3-0 Score on Round.

HAMILTON, Ont., Feb. 24.—Hamilton increased their lead to three goals on the round over Nationals here last night, when they defeated the Toronto contingent 1 to 0, the only counter of the game being scored in the first ten minutes of play when Ralph Farrell, Hamilton defense star, split the Nationals' defense wide open to skate in on top of Mueller for a goal. For the first two periods, Hamilton had a decided margin and it was only clever work on the part of Mueller that prevented them from increasing their margin, but in the last twenty minutes of play it was Nationals who held the upper hand and Marsh was called on repeatedly to make saves in order to hold them goalless.

In the early stages Nationals met with considerable difficulty in trying to penetrate the Hamilton defense. McKay and Farrel presented a veritable stone wall all through the first forty minutes of play and it was only on rare occasions that the invaders proved troublesome, but when they applied the pressure in the last frame the entire Hamilton team experienced difficulty in breaking through the five-man guard that they presented.

TRURO CAPTURES HONORS

HALIFAX, N. S., Feb. 24.—(CP)—Led by the veteran Sammy Murdock, Truro Bearcats matched to the Eastern Hockey League championship, by defeating the New Glasgow Tigers here last night 1-0, in the second game of the play-off series. Truro took the first game from New Glasgow Friday night by the same score.

"Vancouver Given Raw Deal," Says Delegate

VANCOUVER, B.C., Feb. 24.—(C.P.)—Expressing disgust with the vote of various branches of the Canadian Amateur Hockey Association which yesterday named Winnipeg the venue of this year's Allan Cup finals in preference to Vancouver, President Art Jefferd, of the B.C. Amateur Hockey Association said he thought his association and Vancouver had been shabbily treated. He stated that it had practically been understood all season that the amateur hockey finals were coming to Vancouver.

"I have wired vigorous protest to President Hamilton of the C.A.H.A. at Regina. We feel we received an extremely raw deal," said Jefferd. "I have not the authority to speak myself, but the matter of secession from the C.A.H.A. will certainly come before our executive."

CANUCKS BLANK ALL STARS 4-0

Winners Successfully Retain Undefeated Record in School League Hockey.

FEW MINOR PENALTIES.

In a School League fixture on Saturday, Canuck Bantams handed a 4-0 licking to an all-star team picked from the Rovers, Rangers and Scouts teams. The winners have went through to the championship of this league without a loss. They have played a particularly clean brand of hockey all the way through, having drawn only three minor penalties during the schedule. The boys were coached to keep on the ice, and to this they attribute their success, along with playing a fast combination game.

Canucks were entered in the bantam section of the South End City League where they finished third. They played nice hockey in that race but lacked weight and experience to compete with the winners.

The teams, in Saturday's game:

All Stars: Goal, Minicolo; right defense, Creighton; left defense, McGrath; center, Shaughnessy; right wing, Connolly; left wing, Kennedy; alternates, Delpellaro and Collins.

Canucks: Goal, Coursey; right defense, Collins; left defense, Gardino; center, Scully; right wing, Vinette; left wing, Masters; alternates, Gilbert and Thompson.

Referee, Ira Irwain.

FIRST ST. JOHN'S TROOP.

Last Friday th usual meeting of the 1st St. John's Peterborough Troop was held. Scoutmaster G. G. Johnson was in charge of the twenty-seven leaders and boys who fell in for flag break. During the evening, several boys, recruits to the troop, passed tenderfoot tests. The game period was taken by the troop leader, Victor Millard. At the camp-fire plans for a hike on Saturday were laid and received enthusiastically. The meeting closed in the usual manner.

On Saturday the Assistant Scoutmaster took the boys for a hike east of the city. The party left about 10.30 a.m. and returned about 5 in the afternoon. While the boys were in the country they were given an opportunity to pass tests. Arthur Barnes, of the Wolf Patrol, passed his second-class cooking test. After all had eaten well and had cleaned up their utensils a few games were held. A game of hares and hounds resulted in the hares being quickly caught, while a snow fight resulted in the defeat of a team under P. L. Henry.

B.C. Court Remands Solloway Eight Days

VANCOUVER, B. C., Feb. 24. — I W. C. Solloway, stock broker, was arraigned in police court here today before Magistrate H. C. Shaw on conspirracy charges under the British Columbia Security Frauds Prevention Act, and was remanded for eight days. Bail was set at $35,000.

The broker will proceed to Ontario to face charges there, and the case against him here will be remanded from week to week pending disposition of the charges in the east.

Giroux Of Montreal Knocks Out Palacio

MONTREAL, Que., Feb. 24.—(CP)—Arthur Giroux of Montreal knocked out Tony Palacio of New York in the fourth round of a scheduled ten round bout here last night. Giroux weighed 113½ and Palacio 112¼. This bout shared honors as the feature of the card a scheduled ten round bout between Pete Sanstol, now of Montreal and Harry Hill, also of Montreal. Sanstol knocked out Hill in the fifth round. Saral weighed 115¾ and Hill 115¼.

In the preliminaries Johnny Helstrom of Norway won a decision from Walter Ryan, Buffalo in a four round bout.

SKI CLUB RUNS

The Peterborough Ski Club held two runs over the week-end, one on Saturday and another on Sunday. The latter run surpassed any so far this year having over a hundred skiers present. Conditions for this sport was ideal, and members had a wonderful day of it.

Fred Roy was on hand and took motion pictures of the various activities, getting some nice shots of the jumpers in the air.

The skiers tried all kinds of stunts and soon had the Lakefield road near Nassau lined with spectators. Fast skiing turns, jumping turns and freak stunts brought outbursts of applause from the crowd. Some of the stunts were quite thrilling to watch, especially when one would carry another on his shoulders down the hill, or when two skiers would take a third for a fast ride carried between them on a pair of ski poles.

The club will hold another run on Friday night. Those wishing to attend should be on hand sharp at seven o'clock at the corner of Park Hill Road and Water Street.

He loved to fight—and fought to love—his dames, like his flags, were many—and soon forgotten

Police Called to Quell College Rioters Following McGill-Havard Hockey Match

MONTREAL, Que., February 24 (C.P.). — Boisterous students parading after last night's Harvard-McGill hockey game gave police a busy hour, and caused damage estimate at under one thousand dollars. Two were arrested and numerous others received blows from policemen's batons. Warned in advance the students were planning to go on a rampage after last night's game there were seventy-five extra officers on hand about the Forum when the match ended.

A defeat for the home team rather dampened the local ardor but a parade was finally formed, and made its way from the Forum, at the east-end of busy St. Catherine Street, to Bleury. En route many street car windows were broken and trolley poles pulled off the wires, and a leading threatre received unwelcome attentions which ended in broken glass doors.

Street "stop" signs were the favorite prey of the boisterous ones, and "safety islands" were moved bodily from many points. The Harvard students had no part in the unpleasantness, having hurried to the station immediately after the game to catch their train home.

KING EDWARD SCHOOL SEXTETS CAPTURE HOCKEY TOURNAMENTS

Secondary Teams of Public School League Continue Friendly Feud.

CLOSE COMPETITION.

Not content with the feud on between the first teams for the championship, King George and King Edward staged an inter-school hockey field day at All Saint's Saturday. Sport directors Don Crawford and George Northey each trotted out three other teams and some smart hockey followed. King Edward won the honours and took all three games.

The teams and results were as follows:

Team B.:

King Edward—Goal, Cunningham; r.d., Hall; l.d., Patterson; c., Watson; r.w., Heal; sub., Thompson.

King George—Goal, Reynolds; r.d. Gardner; l.d., Worboy; c., Hoy; r.w., Earle; l.w., Loscher; sub., Darwin.

Winners: King Edward 5, King George 4.

Referee—Clarence Lipsett.

Team C.:

King Edward—Goal, Brown; r.d., Vilneff; l.d., Palmer; c., Post; r.w., Grose; l.w. Menzies; subs., Cook, Piercy, Ristow, Welch.

King George—Goal, Smith; r.d., Hepburn; c., Pammett; r.w., Legon; l.w., Bousfield; subs., Gardner, Hoy.

Winners: King Edward 12, King George 2.

Referee—Ed. Boyler.

Team D.:

King Edward—Goal, Hunt; r.d. Smyth; l.d., McCabe; c., Leether; r.w., Todd; l.w., Close; subs., York, Castle, McGovarin, McMaster, Berwick.

King George—Goal, Partington; r.d., Hoy; l.d., Blade; c., McLean; r.w., Charteren, spare, Brady, Gardner, Davis.

Winners: King Edward 1, King George 0.

Referee—Ross Epps.

BATHURST WINS FIRST GAME

CAMPBELLTON, N. B., Feb. 24.—(CP)—The Bathurst Papermakers, champions of the Southern New Brunswick hockey league, defeated the Campbellton Tigers, winners of the Northern N. B. league, here last night by a score of three to one in the first of the two game series in the first round of the Maritime Amateur Hockey Association playdowns.

By a new process, invented in Germany, peat may be converted into cellulose, from which can be manufactured artificial silk and phonograph records.

Loughran And Schaaf Matched For March 13

NEW YORK, Feb. 24.—(CP)—Tommy Loughran, of Philadelphia, former light heavyweight champion, and Ernie Schaaf, rugged Boston heavyweight, have been matched for a ten round bout at aMdison Square Gardens, March 13. It will be their fourth class, Schaaf having won two decisions and Laughran one.

This bout will replace the contemplated battle between Len Harvey of Great Britain and Jackie Fields, former welterweight champion, which was abandoned when Fields was placed on the suspended list by the New York State Athletic Commission.

South-End City Loop Play-Offs Wednesday

The South End City League playoffs begin tomorrow night at the Brock Street rink, when the three sections of the league will fight it out in the first of home and home games, goals to count. The Bantams, Athletics and Fosters play from seven to eight. These boys are battling for the J. A. O'Brien cup. The juniors, Canucks and Stars, go on from eight to nine in their quest for the J. A. Stewart trophy. The curtain game from nine to ten will see Tigers and Canuck Juveniles in action. The former have held the Mark Bredin cup for two years, and will put up a scrap to keep it.

A great deal of interest has been aroused by the fast games played by these teams throughout their schedule, and with a good sheet of ice tomorrow night, speedy hockey bristling with action should keep fans on their toes for all three contests.

Walkerton Crew Beats Harriston Sextet 10-2

WALKERTON, Ont., February 24 (C.P.). — Walkerton's senior northern hockey league sextette defeated Harriston in the first of the league play-offs here last night by 10 to 2, and thereby taking an eight-goal lead with them for the return game at Harriston on Wednesday night.

A special train from Harriston conveyed 250 spectators for this game which served as a medium for the display of the vastly superior home town sextette.

Walkerton scored three goals in the first period, and the count at the close of the second was 8 to 1. Raybould and Truskinski were the pick of the Walkerton team, while Bill Pritchard was the best of the visitors.

More than 1,400,000,000 yards of cotton cloth were made in Japan last year.

Allan Cup Finals Will Be Played in Winnipeg And Memorial Games in Toronto This Year

REGINA, Sask., Feb. 24.—Allan Cup finals will be played this spring in Winnipeg, and the Memorial Cup finals in Toronto, Jack W. Hamilton, President of the Canadian Amateur Hockey Association, announced here last night.

Winnipeg won the classic event of amateur hockey in Canada from Vancouver, executive members voting by mail, 13 to 11, in favor of the Manitoba Capital, Mr. Hamilton said.

The junior finals in Toronto will be completed before the Allan Cup finalists start battle in the West. Senior games will run in April. Memorial Cup contests will be played on Monday, March 23, and Wednesday, March 25, and if a third game is necessary, on March 27.

The first Allan Cup tilt at Winnipeg is scheduled for Monday, March 30; the second for Wednesday, April 1, and the third, if necessary, on Friday, April 3.

At the same time as the senior finals the annual meeting of the C.A.H.A. will be held at Winnipeg. Mr. Hamilton announced. Eastern delegates, for the first time in history, will be enabled to view the junior classic at Toronto before coming West for the convention.

With regard to Western playdowns, the President explained that contending teams, both senior and junior, will both "work" East.". Western finals will be played in Winnipeg. Lack of artificial ice on the Prairies, between Winnipeg and Vancouver and Trail, B.C., will require that Alberta's champions play their elimination rounds with the B.C. champions in either Trail or Vancouver.

The Saskatchewan champions will play winners of the Manitoba-Thunder Bay series in Winnipeg, and there await the Far-Western aspirants. Play-off dates for Western teams will be announced in a few days, said Mr. Hamilton.

"Hello.... A tank of gas goes a long way in this car!"

THERE is widespread recognition of the fact that Pontiac is a notably economical car as well as a sturdy performer.

To this fine reputation, the new 1931 Pontiac brings the entirely desirable features of a larger size, new beauty and comfort. Furthermore the 1931 Pontiac is priced a lot below what its good looks and size imply. At its new low prices . . . as much as $85 less than last year . . . this car offers a great value . . a General Motors value. See the 1931 Pontiac. Try its spacious, luxurious Fisher Bodies. Investigate the many mechanical refinements that contribute to this fine car's comfort, quietness and smoothness.

Then learn how GMAC, General Motors' own time payment plan, can make your purchase convenient. And read the written, understandable General Motors' Owner Service Policy which assures the continued dependability of Pontiac for the length of its life in your service.

VICTORY FOR TECUMSEHS WILL PLACE THEM IN THIRD PLACE

Shuffle Depends Upon Result of Indians-Detroit Olympia Fixture.

LONDON AT WINDSOR.

TORONTO, Ont., Feb. 24 (C.P.)—Three of the four teams striving so mightily for possession of a play-off berth in the International Hockey League return to the ice battles to-night in games which may cause considerable shuffling among the third place aspirants.

Windsor Bulldogs, holders of second place by a three-point margin over their nearest opponents, Pittsburg Yellow Jackets, are at home to their ancient rivals, London Tecumsehs, who are deadlocked in fourth place with Cleveland Indians, one point behind the Smoky City puck chasers. Victory for the Tecumsehs will hoist them into third place, two points behind the Windsorites, should the Indians fail to down the Detroit Olympic, who visit the Ohio city.

The Windsor-London clashes generally prove outstanding attractions and with both outfits striving desperately to secure a hold on the dividend paying positions, to-night's match should surpass any of the previous engagements.

Neither team has accomplished anything notable in the last two weeks and realize they will have to snap out of their slump to keep in the van of last season's champion Indians and the fast travelling Yellow Jackets.

The Indians beat the Olympics in the two previous tussles and should add another valuable brace of points at the expense of the slipping Detroiters.

In the third scheduled fixture the league leading Buffalo Bisons are at home to the tail-end Syracuse Stars, but as Mickey Roach's clever team has an eight-point lead over the Bulldogs the result is almost devoid of interest.

HOOPER-HARVEY IN CUP FINAL

Defeat Pratten and Wood in Semi-finals of Dobbin Trophy Play.

MEET TO-NIGHT.

T. Hooper and W. Harvey wound up in the semi-finals for the Ross L. Dobbin leads and seconds trophy in last night's resumed play at the local curling rink. For a week the game had been held up owing to the mildness of the weather, but yesterday, with a return to colder temperatures, the ice tightened up. To-night these two rinks will joust in the finals for the trophy, commencing at eight o'clock, after which three postponed schedule games will also be played.

The results of last night's contests were:

Wood 11 vs. Bowes 4.
Taylor 6 vs. Harvey 14.
Blewett 7 vs. Hooper 11.
Adams 7 vs. Pratten 11.

Semi-Finals.

Wood 2 vs. Harvey 11.
Hooper 9 vs. Pratten 4.

The personnel of the finalists' rinks is:

Rev. David Wren, G. Braund, R. Hutchison, W. Harvey (skip).
P. Hooper, C. Thompson, G. Robertson, Jr., T. Hooper (skip).

The three postponed schedule games to be fought out to-night are: Chenhall vs. Moore; Seymour vs. Skinner; Oke vs. Downey., The schedule playdowns will commence to-morrow night.

"Vancouver Given Raw Deal," Says Delegate

VANCOUVER, B.C., Feb. 24.—(C.P.).—Expressing disgust with the vote of various branches of the Canadian Amateur Hockey Association which yesterday named Winnipeg the venue of this year's Allan Cup finals in preference to Vancouver, President Art Jefferd, of the B.C. Amateur Hockey Association said he thought his association and Vancouver had been shabbily treated. He stated that it had practically been understood all season that the amateur hockey finals were coming to Vancouver.

"I have wired vigorous protest to President Hamilton of the C.A.H.A. at Regina. We feel we received an extremely raw deal," said Jefferd. "I have not the authority to speak myself, but the matter of secession from the C.A.H.A. will certainly come before our executive."

CANUCKS BLANK ALL STARS 4-0

Winners Successfully Retain Undefeated Record in School League Hockey.

FEW MINOR PENALTIES.

In a School League fixture on Saturday, Canuck Bantams handed a 4-0 licking to an all-star team picked from the Rovers, Rangers and Scouts teams. The winners have went through to the championship of this league without a loss. They have played a particularly clean brand of hockey all the way through, having drawn only three minor penalties during the schedule. The boys were coached to keep on the ice, and to this they attribute their success, along with playing a fast combination game.

Canucks were entered in the bantam section of the South End City League where they finished third. They played nice hockey in that race but lacked weight and experience to compete with the winners.

The teams, in Saturday's game:

All Stars: Goal, Minicolo; right defense, Creighton; left defense, McGrath; center, Shaughnessy; right wing, Connolly; left wing, Kennedy; alternates, Delpellaro and Collins.

Canucks: Goal, Coursey; right defense, Collins; left defense, Gardino; center, Scully; right wing, Vinette; left wing, Masters; alternates, Gilbert and Thompson.

Referee, Ira Irwain.

FIRST ST. JOHN'S TROOP.

Last Friday th usual meeting of the 1st St. John's Peterborough Troop was held. Scoutmaster G. G. Johnson was in charge of the twenty-seven leaders and boys who fell in for flag break. During the evening, several boys, recruits to the troop, passed tenderfoot tests. The game period was taken by the troop leader, Victor Millard. At the camp-fire plans for a hike on Saturday were laid and received enthusiastically. The meeting closed in the usual manner.

On Saturday the Assistant Scoutmaster took the boys for a hike east of the city. The party left about 10.30 a.m. and returned about 5 in the afternoon. While the boys were in the country they were given an opportunity to pass tests. Arthur Barnes, of the Wolf Patrol, passed his second-class cooking test. After all had eaten well and had cleaned up their utensils a few games were held. A game of hares and hounds resulted in the hares being quickly caught, while a snow fight resulted in the defeat of a team under P. L. Henry.

Giroux Of Montreal Knocks Out Palacio

MONTREAL, Que., Feb. 24.—(CP)—Arthur Giroux of Montreal knocked out Tony Palacio of New York in the fourth round of a scheduled ten round bout here last night. Giroux weighed 113½ and Palacio 112¼. This bout shared honors as the feature of the card a scheduled ten round bout between Pete Sanstol, now of Montreal and Harry Hill, also of Montreal. Sanstol knocked out Hill in the fifth round. Saral weighed 115¾ and Hill 115¼.

In the preliminaries Johnny Helstrom of Norway won a decision from Walter Ryan, Buffalo in a four round bout.

SKI CLUB RUNS

The Peterborough Ski Club held two runs over the week-end, one on Saturday and another on Sunday. The latter run surpassed any so far this year having over a hundred skiers present. Conditions for this sport was ideal, and members had a wonderful day of it.

Fred Roy was on hand and took motion pictures of the various activities, getting some nice shots of the jumpers in the air.

The skiers tried all kinds of stunts and soon had the Lakefield road near Nassau lined with spectators. Fast skiing turns, jumping turns and freak stunts brought outbursts of applause from the crowd. Some of the stunts were quite thrilling to watch, especially when one would carry another on his shoulders down the hill, or when two skiers would take a third for a fast ride carried between them on a pair of ski poles.

The club will hold another run on Friday night. Those wishing to attend should be on hand sharp at seven o'clock at the corner of Park Hill Road and Water Street.

Police Called to Quell College Rioters Following McGill-Havard Hockey Match

MONTREAL, Que., February 24 (C.P.). — Boisterous students parading after last night's Harvard-McGill hockey game gave police a busy hour, and caused damage estimate at under one thousand dollars. Two were arrested and numerous others received blows from policemen's batons. Warned in advance the students were planning to go on a rampage after last night's game there were seventy-five extra officers on hand about the Forum when the match ended.

A defeat for the home team rather dampened the local ardor but a parade was finally formed, and made its way from the Forum, at the east-end of busy St. Catherine Street, to Bleury. En route many street car windows were broken and trolley poles pulled off the wires, and a leading threatre received unwelcome attentions which ended in broken glass doors.

Street "stop" signs were the favorite prey of the boisterous ones, and 'safety islands" were moved bodily from many points. The Harvard students had no part in the unpleasantness, having hurried to the station immediately after the game to catch their train home.

KING EDWARD SCHOOL SEXTETS CAPTURE HOCKEY TOURNAMENTS

Secondary Teams of Public School League Continue Friendly Feud.

CLOSE COMPETITION.

Not content with the feud on between the first teams for the championship, King George and King Edward staged an inter-school hockey field day at All Saint's Saturday. Sport directors Don Crawford and George Northey each trotted out three other teams and some smart hockey followed. King Edward won the honours and took all three games.

The teams and results were as follows:

Team B.:

King Edward—Goal, Cunningham; r.d., Hall; l.d., Patterson; c., Watson; r.w., Heal; sub., Thompson.

King George—Goal, Reynolds; r.d. Gardner; l.d., Worboy; c., Hoy; r.w., Earle; l.w., Loscher; sub., Darwin.

Winners: King Edward 5, King George 4.

Referee—Clarence Lipsett.

Team C.:

King Edward—Goal, Brown; r.d., Vilneff; l.d., Palmer; c., Post; r.w., Grose; l.w. Menzies; subs., Cook, Piercy, Ristow, Welch.

King George—Goal, Smith; r.d., Hepburn; c., Pammett; r.w., Legon; l.w., Bousfield; subs., Gardner, Hoy.

Winners: King Edward 12, King George 2.

Referee—Ed. Boyler.

Team D.:

King Edward—Goal, Hunt; r.d. Smyth; l.d., McCabe; c., Leether; r.w., Todd; l.w., Close; subs., York, Castle, McGovarin, McMaster, Berwick.

King George—Goal, Partington; r.d., Hoy; l.d., Blade; c., McLean; r.w., Charlren, spare, Brady, Gardner, Davis.

Winners: King Edward 1, King George 0.

Referee—Ross Epps.

BATHURST WINS FIRST GAME

CAMPBELLTON, N. B., Feb. 24.—(CP)—The Bathurst Papermakers, champions of the Southern New Brunswick hockey league, defeated the Campbellton Tigers, winners of the Northern N. B. league, here last night by a score of three to one in the first of the two game series in the first round of the Maritime Amateur Hockey Association playdowns.

By a new process, invented in Germany, peat may be converted into cellulose, from which can be manufactured artificial silk and phonograph records.

Loughran And Schaaf Matched For March 13

NEW YORK, Feb. 24.—(CP)—Tommy Loughran, of Philadelphia, former light heavyweight champion, and Ernie Schaaf, rugged Boston heavyweight, have been matched for a ten round bout at aMdison Square Gardens, March 13. It will be their fourth class, Schaaf having won two decisions and Laughran one.

This bout will replace the contemplated battle between Len Harvey of Great Britain and Jackie Fields, former welterweight champion, which was abandoned when Fields was placed on the suspended list by the New York State Athletic Commission.

South-End City Loop Play-Offs Wednesday

The South End City League playoffs begin tomorrow night at the Brock Street rink, when the three sections of the league will fight it out in the first of home and home games, goals to count. The Bantams, Athletics and Fosters play from seven to eight. These boys are battling for the J. A. O'Brien cup. The juniors, Canucks and Stars, go on from eight to nine in their quest for the J. A. Stewart trophy. The curtain game from nine to ten will see Tigers and Canuck Juveniles in action. The former have held the Mark Bredin cup for two years, and will put up a scrap to keep it.

A great deal of interest has been aroused by the fast games played by these teams throughout their schedule, and with a good sheet of ice tomorrow night, speedy hockey bristling with action should keep fans on their toes for all three contests.

Walkerton Crew Beats Harriston Sextet 10-2

WALKERTON, Ont., February 24 (C.P.). — Walkerton's senior northern hockey league sextette defeated Harriston in the first of the league play-offs here last night by 10 to 2, and thereby taking an eight-goal lead with them for the return game at Harriston on Wednesday night.

A special train from Harriston conveyed 250 spectators for this game which served as a medium for the display of the vastly superior home town sextette.

Walkerton scored three goals in the first period, and the count at the close of the second was 8 to 1. Raybould and Truskinski were the pick of the Walkerton team, while Bill Pritchard was the best of the visitors.

More than 1,400,000,000 yards of cotton cloth were made in Japan last year.

Allan Cup Finals Will Be Played in Winnipeg And Memorial Games in Toronto This Year

REGINA, Sask., Feb. 24.—Allan Cup finals will be played this spring in Winnipeg, and the Memorial Cup finals in Toronto, Jack W. Hamilton, President of the Canadian Amateur Hockey Association, announced here last night.

Winnipeg won the classic event of amateur hockey in Canada from Vancouver, executive members voting by mail, 13 to 11, in favor of the Manitoba Capital, Mr. Hamilton said.

The junior finals in Toronto will be completed before the Allan Cup finalists start battle in the West. Senior games will run in April. Memorial Cup contests will be played on Monday, March 23, and Wednesday, March 25, and if a third game is necessary, on March 27.

The first Allan Cup tilt at Winnipeg is scheduled for Monday, March 30; the second for Wednesday, April 1, and the third, if necessary, on Friday, April 3.

At the same time as the senior finals the annual meeting of the C.A.H.A. will be held at Winnipeg, Mr. Hamilton announced. Eastern delegates, for the first time in history, will be enabled to view the junior classic at Toronto before coming West for the convention.

With regard to Western playdowns, the President explained that contending teams, both senior and junior, will both "work" East.". Western finals will be played in Winnipeg. Lack of artificial ice on the Prairies, between Winnipeg and Vancouver and Trail, B.C., will require that Alberta's champions play their elimination rounds with the B.C. champions in either Trail or Vancouver.

The Saskatchewan champions will play winners of the Manitoba-Thunder Bay series in Winnipeg, and there await the Far-Western aspirants. Play-off dates for Western teams will be announced in a few days, said Mr. Hamilton.

NATIONALS BEATEN ON GAME AND ROUND

Sea Fleas Eliminated By Hamilton Seniors With 3-0 Score on Round.

HAMILTON, Ont., Feb. 24.—Hamilton increased their lead to three goals on the round over Nationals here last night, when they defeated the Toronto contingent 1 to 0, the only counter of the game being scored in the first ten minutes of play when Ralph Farrell, Hamilton defense star, split the Nationals' defense wide open to skate in on top of Mueller for a goal. For the first two periods, Hamilton had a decided margin and it was only clever work on the part of Mueller that prevented them from increasing their margin, but in the last twenty minutes of play it was Nationals who held the upper hand and Marsh was called on repeatedly to make saves in order to hold them goalless.

In the early stages Nationals met with considerable difficulty in trying to penetrate the Hamilton defense. McKay and Farrel presented a veritable stone wall all through the first forty minutes of play and it was only on rare occasions that the invaders proved troublesome, but when they applied the pressure in the last frame the entire Hamilton team experienced difficulty in breaking through the five-man guard that they presented.

TRURO CAPTURES HONORS

HALIFAX, N. S., Feb. 24.—(CP)—Led by the veteran Sammy Murdock, Truro Bearcats matched to the Eastern Hockey League championship, by defeating the New Glasgow Tigers here last night 1-0, in the second game of the play-off series. Truro took the first game from New Glasgow Friday night by the same score.

B.C. Court Remands Solloway Eight Days

VANCOUVER, B. C., Feb. 24. — I W. C. Solloway, stock broker, was arraigned in police court here today before Magistrate H. C. Shaw on conspirracy charges under the British Columbia Security Frauds Prevention Act, and was remanded for eight days. Bail was set at $35,000.

The broker will proceed to Ontario to face charges there, and the case against him here will be remanded from week to week pending disposition of the charges in the east.

CHICKEN SUPPER HELD AT APSLEY

Ladies' Aid Make Presentation to Rev. W. H. Taylor on Occasion of His Birthday.

FIRST MAIL TIE-UP.

APSLEY, Feb. 24. (Examiner Correspondence.)—The Ladies Aid of the United Church gave a chicken supper at the Parsonage on Tuesday evening, which was well attended, the proceeds amounting to $8.00. It was also the Rev. W. H. Taylor's birthday, and after supper, he was presented with an address and a shaving set, by the Ladies Aid. Mr. Taylor in thanking the ladies for their gift and appreciation of his services, mentioned that it was exactly forty five years ago, when he was sixteen years of age, that he preached his firsy sermon. The remainder of the evening was very enjoyably spent in games.

Snow Blocks Road.

For the first time this winter the mail was unable to get to Apsley on time Thursday, due to the blocking of the road to motor traffic by snow which has fallen incessantly since Tuesday morning. Brown's car, after a laboured trip got within about five miles of Apsley with the mail late in the evening, where it was met by Mr. Brown's team and the mail transferred and brought in to the village.

A BEDTIME STORY

Howard R. Garis

"Excuse me!" said Uncle Wiggily.

UNCLE WIGGILY'S COLD CANDY

Nurse Jane Fuzzy came into the room where Uncle Wiggily was sitting in an easy chair reading the paper one morning after breakfast. The muskrat lady housekeeper had just tied on the end of her long tail a bunch of feathers, for she was going to tickle the chairs and make them laugh so hard they would shake off all the dust.

"Good morning, Nurse Jane," greeted Uncle Wiggily formal-like and polite. For though he had just seen Nurse Jane in the dining room, where she brought him his lettuce coffee before she helped send all the forty sixteen rabbit children to school, still, and with all that, Mr. Longears pretended he just saw the muskrat lady housekeeper for the first time. "Good morning, Nurse Jane," he said.

"Good morning to you!" replied Miss Fuzzy Wuzzy, and she was so flustered with the rabbit gentleman's politeness that she dropped a feather off the end of her tail. Uncle Wiggily tooped to pick i up and Nurse Jane stooped to get it at the same time. They bumped their heads together.

"Oh, excuse me!" murmured Nurse Jane, all confused.

"No, excuse me!" said Uncle Wiggily.

"It was my fault."

"No, excuse me, it was mine," insisted Nurse Jane.

"I beg of you to allow me to say it was my fault. Excuse me!" said the rabbit, somewhat stiffly.

"Well, I asked you first, so I think you ought to excuse me!" squeaked Nurse Jane.

"Oh, very well, all right! Then I will!" and Uncle Wiggily smiled good naturedly showing that now all was again peace and harmony between him and his housekeeper. "Did you want to see me about anything special Janie?" he asked, giving her a pet name in his kindness.

"Why, yes, I did," spoke the muskrat lady humbly enough. "If you are going out aventuring, as I suppose you are, I wish you would do me a favor."

"Of course! What is it? Do you want me to wash the dishes for you again so you may go to the movies?"

"No, indeed!" squeaked Miss Fuzzy Wuzzy. "How could you wash my dishes and, at the same time, go out looking for an adventure."

"It would be rather hard," Uncle Wiggily admitted. "But do you want me to do this favor for you while I am adventuring."

"If you will be so kind," she said "It is this. I have just made some nice, red cranberry sauce and, knowing how fond Mrs. Twistytail, lady pig is of cranberry sauce, I was thinking I'd send her some if you will take it to her."

"Why, of course I will!" exclaimed Uncle Wiggily. "Where's my hat?"

"Oh, I don't want you to put the cranberry sauce in your hat!" chuckled Nurse Jane.

"No, I wasn't going to do that!" cried Uncle Wiggily, also laughing to show, that, even though Nurse Jane was his housekeeper he met her on even terms, just like a Democrat. "I want my hat so I won't catch cold when I go adventuring," continued the rabbit. "I assume that you will put the cranberry sauce in a jar, or can. Am I right?"

"Quite right," replied Nurse Jane, formal-like. "I'll put the red sauce in a glass jar and if you will leave it at Mrs. Twistytail's pen as you hop past adventuring, I'm sure she will be delighted."

"The pleasure is all mine," Uncle Wiggily made answer. And soon he was on his way with his hat on and the jar of red cranberry sauce for Mrs. Twistytail in his coat pocket.

"Oh, how kind of Nurse Jane!" grunted Mrs. Twistytail when Uncle Wiggily had stopped at her pen. "And how kind of you, Mr. Longears. Just wait and I'll empty the red cranberry sauce out of the jar, wash it and give it back to you for Nurse Jane."

"Don't bother to wash the jar," spoke the rabbit gentleman. "I will take it as it is, as I am in a hurry and Nurse Jane will wash it when I bring it to her." So Mrs. Twistytail did this, giving back to the rabbit gentleman the empty jar with some drops of the red sauce clinging to the bottom.

Uncle Wiggily put the jar, with a little cranberry sauce in it, back in his pocket and went on looking for adventures. But none could he find and he was mot feeling happy until, all os a sudden, he saw a lot of icicles hanging from the edge of a rock near a spring of water. The spring itself had not frozen, but some water that had splashed over the rock had run down and this water had frozen into icicles. As soon as the bunny saw these icicles he said to himself:

"Oh, I am going to make some cold candy! That will be jolly fun!"

So Uncle Wiggily started to make some cold candy. I will let you guess how he did it. But in case you can't guess, I'll tell you how he did it in the story tomorrow night. That story will be called Uncle Wiggily's candy trick.

Dr. Wood's Norway Pine Syrup

Bad Cold On Her Chest Had To Stay In Bed

Mrs. J. G. Winters, Janow, Man., writes:—"I have every reason to praise Dr. Wood's Norway Pine Syrup as it has done me a world of good. I had a very bad cold on my chest, and had to stay in bed two weeks, and could hardly speak on account of coughing so much. I tried every medicine and liniment I could think of, but I got no relief. My husband read about Dr. Wood's Norway Pine Syrup so I decided to try it. I took only one bottle and I am ready to recommend it to anyone with a cold."

Price 35c. a bottle; large family size 65c.; at all druggists or dealers; put up only by The T. Milburn Co. Ltd., Toronto, Ont.

CHAPEL RE-OPENED

LONDON, Feb 24 (By The Canadian Press.)—The newly restored Chapel of St. Andrew s University has just been re-opened. The interior of the Chapel has undergone a beautiful transformation. An interesting relic which has been included in the restoration scheme is Knox's pulpit, which stood for generations in the town church. Though it has been frequently altered and repaired, there is little doubt that it embodies part of the original pulpit from which John Knox preached while in St. Andrew s.

There are nine elaborately carved canopied stalls for the Principal and the Professors. The architect who undertook the restoration was Reginald Fairlie.

ARCHITECTS' BILL IS AGAIN BEFORE HAVELOCK TRUSTEES

But Board Refuses to Pay For Them Until Drawings Are in Their Posession.

OFFER TO SPLIT AMOUNT.

(Examiner Correspondence)

HAVELOCK, Feb 24.—The bill for $50 from Hornsby and Allan, architects of Peterborough was again brought up at the February meeting of the local school board held on Thursday evening. It will be remembered this bill was brought up at the last meeting of the old board in 1930 and was left over for the new board. When brought up at the inaugural meeting the members did not know what it was because this firm had already been paid the sum of $166.

Mr. Hornsby had sent the board a lengthy letter giving a very detailed statement of the account dealing with alternative plans and estimates for same. A representative of this firm attended a public meeting in the town hall at the request of the chairman, J. Evans. The expenses in connection with this meeting was also included in the bill.

On looking up the minutes it showed that it was decided to get alternative plans and estimates in good time for the public meeting. There seems to be no record of having received the pencil drawings spoken of in the minutes of the April meeting, and the board must have these before they will pay for them.

A letter was read from Messrs Alex Mathison, William McLaughlin, Robert Anderson and J. Evans, all members of last year's board was read re the Hornsby-Allan bill, drawing the attention of the board to the fact that a motion had been passed concerning the same at a meeting in April. This motion was read to the board.

Leeson and Squire were of the opinion that $50 was too large a sum considering the fact that they had been paid $166 for the original plans and services. They suggested splitting the amount. One of the members asked for the original plans and the board was greatly surprised to hear they had been given to a plumbing firm in Belleville and had not yet been returned.

On a motion of Crawford and Ketchen the correspondence in reference to the alternative plans were placed on the table, and the remainder was filed on motion of Post and Smith.

A letter was read from a plumbing firm of Port Elgin who wished to obtain plans of the proposed new lavatory system so they might be able to submit estimates for the plumbing. This was also filed.

At the beginning of the meeting Mr. Yuill, principal of the public school reported he had sent the monthly attendance record to Mr. Copp, I.P.S. and the same had appeared in the paper. The reason for showing of a 100 per cent lawful attendance was explained by Mr. Yuill as when a written or verbal excuse is obtained for a pupil's absence it is considered a lawful absence and since he insists on this he can always obtain a 100 per cent lawful attendance.

The grants are given on the actual average attendance, therefore this will not mean dollars to the board as it was first thought.

Mr. Post told the Board that some parents who had children in the public school were complaining to him that Mr. Coates, the principal of the Continuation school had given their children hundreds of lines to write for talking in the hall. He suggested other means of punishment, pointing out that this was indirectly puniahing the parents, making them buy several more scribblers than would ordinarily be necessary. No action was taken as neither Mr. Coates nor the parents in question were present.

Mr. Coates had been told to stop the practice of not opening the school until five minutes to nine in the morning. This was done after complaints had come to the board of children being made stand out in the cold..

A resolution was passed authorizing chairman Squire and E. Fennell to have access to the safety deposit box in the Bank of Toronto.

The finance committee having gone very deeply into the question of grants gave a very encouraging report whereby grants can be increased by more than $441, by raising the present salaries $99. A motion was passed by Crawford and Post putting the salaries of Misses Robinson and Massey on par with the other teachers this year.

The old question of supplying a satisfactory toilet system was again brought up, this time by Mr. Leeson, suggesting that the board as a body wait on the town council at its next meeting for the purpose of discussing the question on entering the town drain and taking water to operate a flush toilet system.

This proposal met with popular approval by all the members and a motion to this effect was made by trustees Ketchen and Post.

The following accounts were ordered paid: Grant and Thorpe, filing cabinet, $36.95; Canadian Fire Insurance Co., $40; Fred B. McAdam, repairs on well and drawing water, $3; work on well by D. Fleming, $6.80; Angus Clarke, $2.40; Henry Campney, $2.40; Robert Wrightly, $3.30; Village for title, $4.30; C. W. Coon, rock, $2.50; T. W. Chiles, blinds, $18; Herb Hoard, barrel and lumber for well, $3.

An amendment was moved and carried that J. W. Ketchen be on the property committee and Robert Crawford, as chairman of that committee reported have obtained a good filing cabinet.

Chairman Squires presided for the meeting and trustees Robert Crawford, Alex Leeson, Bernard Smith, Fred Post and J. W. Ketchen, were present.

Automatic auto stop signals were used at the recent dinner of the National "Safety First" Association in London, to warn speakers that they were using more than their alloted time.

HORTICULTURALISTS RECOMMEND SCENIC DRIVE FOR PETERBOROUGH

Proposed Route is Outlined at Meeting of Horticultural Society.

COMPETITIONS PLANNED.

That a scenic drive be plotted out and marked with suitable signs was the recommendation of the Beautification Committee which was adopted at last evening's supper meeting at Hooper's Palm Rooms by the executive of Peterborough Horticultural Society, with Dr. A. J. Madill, president in the chair.

The suggestion was received by the meeting with some enthusiasm and on the motion of John Edgar, Dr. J. E. Middleton was chosen as a delegate to meet the Parks Committee of the City Council with a view to selecting a suitable name for the proposed drive and to seek their cooperation in the erection of suitable signs along the route. During the discussion Dr. Middleton stated he thought something would need to be done along the River Road in order to render it fit for traffic. He was informed by H. L. Beal that it is understood the Government is to assist the township of Douro and the City of Peterborough in putting this road in good repair during the coming summer.

Proposed Route

The proposed route which will include both sides of the River as far as Nassu, and which will also probably include sections along the river in East City is as follos: Starting at Confederation Park proceeding to Victoria Park via Murray street, south on Water to Hunter street, east to Armour Hill Park thence to the Lift Lock south to Lock's Bridge on new highway to Crescent street, west on Romaine to George street, south to Lansdowne, west to Park street, north to Sherbrooke, west to Monaghan road, north to Gilmour street, east to Park street, north to Hunter street, proceeding to Jackson Park via Hunter, Walton, Weller and Monaghan road. Drive through the park and return to Park Hill road to Reid street, to Chemong road to Wolsley street, then east to Nassau crossing to east side of River thence to Nicholls Oval proceeding to Park Hill road bridge to Water street and south to starting place.

It will be readily seen that this route embraces an exhaustive tour of the beauty spots and the industrial sections of the city, and in consideration of the above suggestion the committee proposes that efforts be extended to beautify the route and recommend that this year the Society beautify the small plot at the west end of Mark street church property as suggested by F. Biddle; further that the present lot at the corner of Charlotte street and Monaghan road be locked after together with the urn in Inverlea Park

"We also feel" they state, "that some effort should be made to have a flower bed or two placed at the east side of King Edward Park and that in view of the contemplated custom house and post office building something should be done to improve the appearance of the south east corner of George and Sherbrooke streets." The report was submitted by J. S. Bell, chairman of the committee.

Junior Committee

F. H. Dearborn, chairman of the Junior Committee suggested that the same course be followed this year as last with regard to junior exhibits. He also thought that an effort should be made to have the Separate schools join in this work. The options recommended were as follows: Vegetables—carrots, sweet corn and turnips. Flowers—Annual Phlox, Asters, Calendula, Pinks, Sweet Peas, Zinnia, African Marigold and Cosmos.

Many Changes

Several changes were recommended this year by the competition committee under the chairmanship of W. H. Young, in classes for lawn and garden competition. The first of these being that the working-man's garden class be extended so that there are two classes one being judged for vegetables and the other for flowers. Second that factories and other buildings of a similar nature with restricted area be placed in a class separate from those having a large area. Third that only one entry may be made on any one property. The following are the classes:

Class A—For the best lawn and surroundings where professional help is employed.

Class B—For the best kept lawn and surroundings not employing professional help.

Class C—For the best display of hanging baskets, window and verandah boxes. (This class is primarily for the home that has limited area for beautification but competitors may enter this class provided that they have not entered in any other class.)

D.—For the best working man's vegetable garden (to be judged in July).

E.—For the best working man's back yard flower garden.

F.—For the best kept grounds of a factory or similar building with limited area.

G.—For the best kept factory grounds not limited as to area.

H.—For the best kept grounds surrounding churches and public institutions.

Premium Options.

A very attractive list of premium options was submitted by Mr. Edgar, which includes twenty options each one worth at least $1.00 and some of them worth considerably more.

5 Phlox, all different, not named; 4 Delphiniums, assorted colours; 6 Iris, all different, no labels; 2 peonies, choice of red, white or pink; 2 of the following shrubs, Hydrangea, Spirea Van Houton, Weigelia, English Honeysuckle, and Philadelphus; 4 Japan Barberry; 2 Regale Lillies; 4 Tuberous Rooted Begonias, 4 in. pots; 2 Gloxinia, 4 in pots, 4 Geraniums, 4 in. pots; 2 Boston Ivey; 2 Dwarf Polyanthus Roses; 2 Climbing Roses, Crimson Rambler (dark crimson) and Dorothy Perkins (shell pink); 2 Hybrid Tea Roses, choice of General MacArthur (red) Ophelia (Salmon Yellow) Los Angeles (pink); Madam Butterfly (pink apricot gold).; 4 Cannas, bronze or green 4 in. pots; 1 Gypsophilia (Bristol Fairy) double; Canadian Horticulturist for 2 years; 10 Gladiolus Bulbs, choice, named, all different; 4 bores flowering plants or vegetables; 12 packages of flower or vegetable seeds, your own choice.

Membership Campaign.

Mr. Beal tendering the Financial Campaign committee report outlined a plan for increasing the membership this year, incidentally it was also stated that Miss Lancaster had brought in five new members and Miss Price three new members.

H. Carter submitting the report of the show committee on behalf of the chairman, S. T. Harris who was engaged in his secretarial capacity, stated that through the kind co-operation of the Canadian Department Stores permission had been granted for the Society to hold a window display at the Simcoe and George street store.

The committee recommends that the following competitive displays be staged; first daffodils and early tulips followed by later varieties of tulips. The time of holding these displays will have to be held according to whether it is an early or late season. Second a competitive display of roses the last week in June. It is also proposed to put on displays of flowers in some other store windows for educational purposes, and a show will also be arranged for some time in August.

In connection with this show the Society expects to have available a bronze and a silver medal from the Canadian Gladiolus Society, while G. H. Clarke is donating a cup open for competition to any member of the Peterborough Horticultural Society for the best spike of gladiolus. Reports were also given by the delegates who attended the recent convention of the Ontario Horticultural Association at King Edward Hotel, Toronto.

Contributions of the British government to housing schemes in England and Wales during the 1929-30 fiscal year totaled more than $55,000,000, and the number of houses built was 799,654.

VILLAGE OFFICIALS APPOINTED AT OMEMEE COUNCIL MEETING

Several Applications Received For Positions of Clerk and Road Superintendent.

APPROVE ACCOUNTS.

OMEMEE Feb. 24 (Examiner Correspondence.—The Omemee village council met yesterday morning pursuant to adjournment when the Reeve, H. Endicott and Councillors D. J Guiry, H. Jackson, William Patrick and Thomas Rice were present and the following communications were received: J. D. Adams (Canada) Ltd., Paris, Ont., enclosing road machinery literature; from Board of Railway Commission for Canada advising receipt of the clerk's letter re the erection of a flag station at McCague's crossing between Omemee and Peterborough by way of the C.N.R.; applications for the position of clerk were received from Arthur McQuade, Wilbert Fee, David Weir, William Robinson and William J. O'Neil; for position of Road Superintendent from Charles S. Lucas, W. Lloyd Boate, E. Chatter, Charles Mills H. Carroll and C. E. Mitchell; for position of assessor, F. G. Sandy, Elmer Hickey, J. J. Duffy, Patrick J. O'Neil, Cecil McConnell and Reuben Reeds; applications for position of treasurer: William R. Robinson, J. R. McQuade, Thomas A. McConnell, Leonard Atwell, Charles L. Lucas, Wilbert Fee, Arthur McQuade and Reuben Reeds.

The auditors' report was received and adopted, and the clerk was instructed to have 20 copies of same printed for distribution as usual. On motion the road and bridge expenditure accounts as presented by Charles Lucas, Township Road Superintendent, were approved and the same paid by the treasurer.

Motions Passed

The following motions were made: That F. G. Sandy be appointed assessor for the ensuing year at a salary of $60; that David Weir be appointed clerk for one year commencing to-day at a salary of Four Hundred dollars, with usual extras; that Arthur McQuade be appointed treasurer at a salary of one hundred dollars for one year; that the clerk do now draft the by-law to confirm the appointment of the assessor, the clerk and treasurer.

The following accounts were ordered paid: J. M. Thurston, S.S. 3, $100; Vincent Perdue, S.S. 6, $200; Emmitt O'Neill, S.S., 15, $300.

The Reeve and Clerk were authorized to sign and submit to the Minister of Public Highways the petition of the corporation of the township of Emily showing that during the period from January 1 to Dec. 31, 1930, there had been expended on the township roads the sum of $13,261.19 and requesting the statutory grant on that amount as provided for by the Ontario Highways Act and amendments thereto.

The bylaw No. 589 to confirm the appointment of the assessor, clerk and treasurer was now introduced and read a first time.

Miscellaneous Accounts

Orders were issued on the treasurer for the payment of the following miscellaneous accounts and salaries: H. L. Jackson, auditor, $7; Dennis M. O'Leary, auditor, $7; Moses Ruth, sec.-treasurer of the Emily Municipal Telephone System, levy for subscribers not yet placed under bylaw, $160.

The offer of the Omemee Telephone Company Ltd., to sell their system, plant and equipment to the Municipal Corporation of the Township of Emily for the sum of $4,700 was accepted subject to the approval of the Ontario Railway and Municipal Board.

Bylaw 589 was read a second and third time and finally passed, signed and sealed.

The following motions were also made: That the remuneration of this council be reduced to the sum of three dollars and fifty cents per day and that a by-law be introduced at the next regular meeting of the council to confirm this reduction; that another month be allowed the tax collector for the unpaid taxes.

The council adjourned to meet on Tuesday the third of March, at one o'clock in the afternoon when the matter of the appointment of the Township Road Superintendent will be taken up.

An air service to connect Nanking with North China is to be inaugurated.

THE BEASTS OF TARZAN No. 80 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Tarzan strained his eyes into the night toward the direction of the thing that had riveted his attention....Again he saw it! Again it flashed across the blackness of the ocean waters. Then he turned and called aloud to the men dozing beside the camp fire. They came running to his side; but the stranger hesitated when he beheld the sleek panther by the side of the great white giant.

"Look!" cried Tarzan. "A light! A ship's light! It MUST be the pearl schooner. They are becalmed!" And then, with an exclamation of renewed hope: "We can reach them! The skiff will carry us easily." The stranger demurred. "They are well armed, I tell you," he warned. "We could not take that ship—just three of us!"...."There are four of us now," replied the ape-man, pointing to Sheeta, "and we can have more still in half an hour!"

"Sheeta is the equal of twenty men," he continued, "and the few others I can bring will make our fighting strength that of a hundred men. You do not know them!" The ape-man turned and raised his head toward the jungle, while there pealed from his lips time after time the fearsome cry of the bull-ape who would summon his fellows. Presently from the jungle came an answering cry, and then another and another!

The deserter from the pearl-schooner shuddered. Among what sort of creatures had Fate thrown him? Were not Kai Shang and his murderous cutthroats to be preferred to this great white giant who stroked a panther and called to the beasts of the jungle? But if his blood ran cold at sound of the weird cry tearing the jungle night, it was as nothing to the unbelievable thing that a moment later he saw come to pass.

HAY FEVER IS MODERN PLAY

Typically Modern in Its Outlook Upon Life and Dramatic Technique.

PRESENTED WEDNESDAY

(By Adrian Macdonald)

Hay fever, which is being presented in Collegiate auditorium on Wednesday night by the Kinsmen Club, is a distinctly modern play. It is typically modern in its outlook on life and in its dramatic technique. Just as Wycherley wrote for the England of the Restoration, so Noel Coward writes for the generation which has followed the war. Old-fashioned people, bewildered by his apparent lack of seriousness, may consider him flippant. Sentimental people who do not enjoy themselves at the theatre unless they drench three handkerchiefs, will be disappointed by the lack of heart throbs. But those who despise sentimentality and false heroics and enjoy brilliant wit and penetrating characterisation will find "Hay Fever" exactly to their taste.

The play is satirical from first to last, but it is not bitter or venomous. On the contrary it is bubbling over with fun. Noel Coward is one of the younger playwrights, and he was younger still when he wrote "Hay Fever." The mark of youth is everywhere on the play. It is exuberant, witty, cynical and daring.

The Blisses, into whose life the play gives a glimpse, are a bewildering family. Mrs. Bliss was an actress and her husband is a novelist. They have cultivated their arts so assiduously that they have forgotten to cultivate the graces and formalities of living. Judith Bliss is at home only on the stage. It is, as she says herself, her proper milieu. And in real life she is hopelessly histrionic. Every incident suggests to her a theatrical attitude, a pose. Very rarely does she descend to being her real self. At one moment she is beautiful and sad, and at the next intensely emotional. In fact, before the play is over one begins to wonder if the real Judith Bliss has not been entirely absorbed in the parts she has played. And her husband is as completely the novelist as she is the actress. He analyses everybody. He invites an ingenuous flapper down for the week-end "to study her a little in domestic surroundings" and when the fascinating divorcee compliments him on his work he asks her bluntly "Why are you being so nice to me? Have you got a plan about something?" It is only when he sees things as they are and then pretends they're what they're not that he succumbs to Myra Arundel's alluring and skilful advances and indulges in a little mild love making. Allowed to grow up in this topsy-turvey environment, Simon and Sorel, the son and daughter of the house, are a pair of devastating young barbarians, brilliant, rude and completely lacking in restraint and social polish.

Such is the family into whose menage we get a glimpse when the curtain goes up on "Hay Fever."

And the play is as unconventional in its technique as it is in its characterization. There is no elaborate plot—no letters delivered to the wrong people, no listening behind screens, no tyrannical parent trampling on the delicate flower of true love, no mistaking of the hero for the villain. Even the age old device of the two servants who open the play by talking about their master and mistress is lacking. "Hay Fever" is not a triangle play, nor yet is it of the more modern sex-agonal type. The curtain goes up on the most natural home scenes, and comes down maybe in the middle of a conversation. The dialogue is brilliant, but not more brilliant than the dialogue of highly intelligent people. The scenes are just the ordinary scenes of a week-end party—taking tea being bored in a game of "adverbs" engaging in conversation, having breakfast, reading the Sunday papers. It is the very naturalness of the play that makes it so fascinating, and its very realism which makes it such high art.

Outside the large coloured sign has replaced the former one of a temporary nature.

DRESS NEEDED.

The Examiner would like to get, if possible, a dress and coat for a woman, size 44. Please telephone, and these will be called for. Children's clothing is also needed.

OBITUARY

WILLIAM ALBERT WRIGHT.

The funeral of William Albert Wright, who passed away in Timmins on Sunday morning, will be held from the family residence, 519 Bolivar street, on Wednesday afternoon at 2.15 with service in Trinity United church at 2.30. Rev. David Wren will officiate and interment will be made at Little Lake cemetery.

NORMAN M. McLEOD, B.Sc.

There passed away in the General Hospital, Montreal, Norman M. McLeod, B.Sc., son of the late Professor and Mrs. C. H. McLeod of Montreal. The deceased had been confined to the hospital for some days with pneumonia, and passed away suddenly on Monday evening. He was married to Gladys Mulholland, formerly of Peterborough, whom he leaves to mourn his loss.

The remains will be brought to Peterborough on Thursday morning, and the funeral service will be held at the home of S. C. Warne, 466 Gilmour Street, at 2.30 in the afternoon. Rev. J. D. Paterson of All Saints' Anglican Church will officiate, and interment will be made in Little Lake Cemetery.

MRS. F. BULMER

The many friends of Mrs. F. Bulmer will regret to learn of her death which occurred suddenly at Buffalo, N.Y., on Sunday last, following an attack of pneumonia. Surviving are her husband, one son Oscar of Buffalo, and daughters Mrs. M. B. Pringle of Guelph, Mrs. A. F. Skinner and Mrs. G. H. Graham of Peterborough, also three sisters, Mrs. Fred Georger, Buffalo and Miss A. V. Clarkson and Miss M. Clarkson of Toronto.

A private funeral will be held from the residence of her daughter, Mrs. A. F. Skinner, 460 Reid street on Wednesday afternoon, at 2 o'clock.

MRS. W. S. ROBINSON.

Word was received from Toronto of the death of Mrs. W. S. Robinson this morning. Mrs. Robinson was born in Peterborough some 65 years ago, the daughter of the late Mr. and Mrs. William Dawson of Otonabee. During the war she removed to Toronto, where she has lived ever since. The deceased is survived by her husband, a daughter, Helen, two stepsons, a sister, Mrs. F. Thompson of South Monaghan, and two brothers, William Dawson of Moose Jaw, Sask., and Thomas Dawson of Chicago, Ill.

The funeral service will be held from her late residence, 180 Margaretta Street, Toronto, on Wednesday evening at 8 o'clock. The remains will arrive in Peterborough on the 11.55 a.m. C.P.R. train, and interment will be made in Little Lake Cemetery, with Rev. A. E. Moorehouse of St. James' United Church officiating.

SUSANNAH WESLEY DICKSON.

On Friday afternoon, February 20, Mrs. Susannah Wesley Dickson, of Peterborough, quietly entered into her rest after an illness of over sixteen months, borne with patience and Christian fortitude.

Mrs. Dickson was born in Tyrone County, Ireland, coming to Canada with her parents at a very youthful age and settling in Toronto, where she met and married the late Alexander Gillespie Dickson, subsequently residing in Peterborough, where her husband founded and carried on so successfully for many years the well-known dry goods establishment known as Dickson's Store.

Mr. Dickson predeceased his wife, dying in the year 1914.

Mrs. Dickson was widely known and much beloved by the older citizens of Peterborough, the many beautiful flowers placed upon and surrounding her casket being silent witnesses of the loss that they have sustained in her death.

Mrs. Dickson, possessing as she did a very keen Irish sense of humor, attracted and held the friendship of not only the older generation, but also of the younger people with whom she came in contact. She was deeply religious, and most charitable, quietly and unostentatiously contributing generously of her substance whenever a case of distress or worthy religious cause came to her attention. For many years, with her late husband, she was a devoted member of St. Paul's Church, Peterborough, and of later years has been a worshipper, when health would permit, at the George Street United Church.

Mrs. Dickson is survived by three devoted nieces: Mrs. J. S. Stevenson, Mrs. Stuart Evans and Mrs. J. S. Brown, all of Ottawa. Mrs. Brown being present at her bedside when she passed away.

A funeral service, conducted by the Rev. Mr. J. E. J. Millyard, was held on Sunday evening at 8.30 in Comstock's Funeral Home, Peterborough, when many old friends availed themselves of the opportunity of paying their last respects to their departed friend. Mr. Millyard most feelingly and touchingly spoke of the long and useful Christian life of the deceased, and of the great influence for good that her life had been, both within the Church and also outside the Church, not only upon her friends, but also upon those with whom she had come in contact.

The sick room of the deceased, in the words of those surrounding her during her illness, had ceased to be a place of suffering, but had become a sanctuary for those who entered. He stressed the gratefulness that Mrs. Dickson had often expressed to him concerning the affectionate attention received by her from her own special nurse at Nicholls Hospital during her many months of illness and of the kindness received from the entire hospital staff.

Interment was made on Monday morning in the Anderson family plot beside the body of her late husband, Alexander Gillespie Dickson, in the Necropolis Cemetery, Toronto. The funeral service at the grave, at the express wish of the deceased, was conducted by the Rev. Robert Pogue, formerly of St. Paul's Church, Peterborough, and now of St. Enoch's Church, Toronto.

JOSEPH WELSH

Joseph Welsh, a former resident of this city and for many years a business man in the city of Oshawa was found dead this morning at his residence in the Motor city. He conducted a successful confectionery and catering business and also took an active part in all amateur sports and civic affairs of Oshawa. The deceased was a prominent Rotarian and leaves a wide circle of friends in Peterborough and district.

He leaves to mourn his loss, two sisters Mrs. E. G. Hyland, Homewood avenue this city and Miss D. Welsh also two brothers William of Ashland, Wis. and Harry of Chicago. He was 46 years of age.

Funeral announcements will be made later.

The "Viking" Trail Ranger Camp of Mark Street United Church held its first social Friday evening in the basement of the church under the leadership of their mentor, John Hunter.

The meeting was opened with Chief Ranger Ray McColl presiding. After a bounteous repast, the roll was called and dues collected.

It was decided by the group to continue the paper collections in order to raise funds for pins and books.

Arnold Mackey is leading in the badge work, having qualified for a crest and three badges in throwing, running and jumping.

The feature of the evening was a debate, "Resolved, That Country Life is better than City Life."

MONDAY ADDS $1,000 TO FUND

Relief Association's Campaign For Funds Reaches $9,108.96.

$4,578.49 IN CASH.

The campaign for funds being made by the Ways and Means Committee of the Peterborough Relief Association is progressing very satisfactorily. To-day's list shows a total of $9,108.96 subscribed to date, with cash received totalling $4,578.49.

The high spots in to-day's list are the donations from the Peterborough Lock Company, $123; Grant and Thorpe, $67.75; the Peterborough Fire Department Staff, $80; and the Canadian Nashua Paper Company, $88.65.

The following is a list of donations received since the publication of yesterday's totals:

BORN

GALBRAITH.—At Nicholls Hospital, on Sunday, February 22, to Mr. and Mrs. Richard Galbraith, a daughter (Marilyn Elizabeth).

JACKSON.—At Nicholls Hospital to Mr. and Mrs. W. C. Jackson (nee Olive Delong), a daughter, Virginia Lorraine (stillborn).

FAITHFUL SPOUSE APPEALS IN VAIN TO SAVE HUSBAND

Mrs. Alfred Rouse Makes Plea to Wife of Home Secretary Clynes.

EXECUTION DATE MARCH 10.

Prisoner Convicted of Murdering Unknown Man and Burning Body in His Car.

LONDON, Eng., Feb. 24. (By Thos. T. Champion, C. P. Staff Correspondent).—Mrs. Alfred Rouse is clutching at any forlorn hope in a desperate endeavor to save the life of her husband, whose appeal from a sentence of death was refused by the Court of Criminal Appeal yesterday. Rouse was convicted last month of the murder of an unidentified man whose body was found in Rouse's blazing motorcar near Northampton.

One of the first actions of Mrs. Rouse after recovering from the shock of yesterday's announcement was to telephone to Mrs. Clynes, wife of Rt. Hon. J. R. Clynes Home Secretary, with whom rests the decision whether or not to ask His Majesty for clemency.

Powerless to Aid

"I was sitting quietly at home" said Mrs. Clynes. "I went to the telephone and tried to comfort her. It was pitiful to hear her distress. I explained as gently as I could that I was powerless to do anything.

"Mrs. Rouse could hardly speak but thanked me very much. It is all so sad for her."

The execution of Rouse has been set for March 10.

At the trial, which aroused wide interest, it was alleged the motive for the slaying was that Rouse had become involved in affairs with women and hoped the finding of the body would lead to the belief that he himself had lost his life.

NEW FARM BODY STARTS PARLEY

Delegates From Saskatchewan District Twelve Approve Charter of Liberty.

Choose President Thursday.

SASKATOON, Sask., Feb. 24.— (C. P.)—Four days of conference lay before United Farmers of Canada (Saskatchewan Section), as they opened their annual convention to-day. First published step touching on the meet's agenda occurred last night when delegates from District Twelve approved the submission of the Charter of Liberty as a resolution from the district.

The charter, which came into existence six weeks ago at a district executive meeting at Wilkie, threatens the formation of a free-trade commonwealth in the west if demands for aid to agrarians are not granted. George R. Bickerton, director-elect for the district, claims that more than 1,500 have now signed the charter.

Decision whether the organization will step into politics is not expected to be made until Wednesday following all-day discussion on Dominion and Provincial policies. Balloting for the Presidency will probably be held Thursday afternoon.

The charter of liberty, threatening secession if agrarian aid is not forthcoming, will come before the meet if a proposal from District Twelve delegates is accepted.

Here's the Way to Treat Those Miserable Colds So Prevalent Here Now

WITH scattered cases of flu breaking out in this locality, don't take chances with colds NOW—it's too dangerous! Unless checked quickly, colds tend to pull down the body resistance and may pave the way for an attack of flu with all its serious complications.

1 At the first sign of stuffiness or irritation in the nose or throat, snuff some Vicks VapoRub up the nose several times a day. This will often check a cold at the start.

2 If the head is all "stuffed up"—clogged with mucus or phlegm—or there is much coughing, melt a teaspoonful of Vicks in a bowl or kettle of hot water and inhale the steaming vapors for five minutes at a time. This treatment has a remarkable effect in clearing the air passages, easing the breathing, soothing the irritation, relieving the cough, and helps to prevent the cold from spreading.

3 At bedtime, in order to get the benefit of its long-continued stimulation and inhalation effect, rub Vicks vigorously over the throat and chest and cover with warm flannel.

4 If possible, stay at home until the cold is broken. Complete rest helps the body to throw off the cold more quickly.

Mother!—treat children's colds promptly, but avoid "dosing." Too much internal medicine often upsets the child's digestion and lowers the vitality. Being applied externally, Vicks does not upset the stomach, and can be used freely and as often as needed without the slightest harmful effect.

DON'T TAKE CHANCES WITH COLDS NOW!

CHIEF DEYOKAH PLEADS CAUSE OF THE INDIANS

2,630 Indians Enlisted in Great War and Many Never Returned.

HE HAS NO VOTE.

An Indian chief—a full-blooded Mohawk of the Iroquois tribe—doing the "ghost dance" of his race, singing the death song of a Nez Perce, and giving the blood-curdling war whoop that chilled the blood in the veins of many a hardy pioneer, long years ago.

Then Frank Cook of Ottawa, a pleasant old gentleman with a white head and a black suit, singing "Annie Laurie" with a Scotch accent and doing an imitation of a French Canadian amateur orator.

Two entertainers on the one program—the same man. Chief Deyokah of Ottawa is also Frank A. Cook in his English incarnation. He sang and danced and recited before nearly three hundred people in the auditorium of George Street United Church on Monday night, under the auspices of the Young People's Association, and he drew the undivided and interested attention of his audience with his unique entertainment.

Clad in his fringed buckskin suit, with a black braid over either shoulder and a war feather stuck in his hair, Chief Deyokah was the Indian, but he bore on his tongue that same trace of Scotch accent that colored his songs and recitations when he came out in the second part of the entertainment as Frank Cook, the Canadian. He made an impassioned plea for his race.

"There were 2,630 Indians in the War," he said, "and many of them never came back. But still, unless an Indian is a returned man or enfranchised, he is classed with the idiots and the insane. He cannot vote for his country. And the Indian is the only real Canadian. He loves Canada. You, with the blood of Scotland or Ireland or England flowing in your veins, have a love for those lands as well as for Canada, but for the Indian, this is the only land he knows and loves. There are 100,000 of us in the Dominion, and of that number, only 5,000 are without church affiliations of some type. When you want to do a good turn for an Indian, give us a chance to stand on our own feet and walk beside you as brothers."

The "High One"

It was a unique entertainment. An Indian in his war robes singing "I Come to the Garden Alone," the first verse in English, the second verse in his own tongue. Then that same tongue that had just lingered over the praise of the Saviour ringing out in the strange death song of the Nez Perces, who give no words to their chants, as is the Indian custom, the red men preferring to believe that the "High One," as they call Him, understands the language of the heart without words.

There were little lullabies and melodies, all in the Indian tongue, with a crooning, plaintive cadence to the reiterated words. There was the little rowdy play song of the Indian child, which, translated, resolved itself into the bold words: "Go away, old scabby skunk, with no hair on you back." In contrast to the mild lullaby of the Indian mother was the reference to the song with which the Canadian mother, singing on a verandah while this observant old Indian passed by, lulled her baby to sleep; the snappy verses of "Show Me the Way to Go Home."

Chief Deyokah described in detail the manner in which the Indian boy meets the dawn of manhood; his four day vigil of fasting, meant to train him in self control in later life, and the symbolical dances which greet the sun and the dawning day.

He also described the emblems which decorated his costume; the bear claws which symbolize the Bear Clan, the wampum necklace with its unique carving of sentences; the yellow eyes of the Thunder God and the zigzag streaks of lightning; the rattle which the medicine man uses to frighten away the evil spirit in his patients.

He did some of the strange tribal dances of the Indians and then he changed his costume and came out to sing "Annie Laurie" in his powerful, fine voice, and "Captain Mack," that roving sea chanty, and to give the humorous speech of the scratch French Canadian orator at the political meeting. He finished with a song of cheer and life, "The Gay Highway," which met with the same meed of generous applause that greeted all his efforts.

The Rev. J. E. J. Millyard acted as chairman and the program also included a pretty song, "The Old Refrain," by Mrs. J. B. Nelson, and a reading, "The Voice from Afar," by Miss C. Mason. Miss Musa Cax acted as accompanist and Chief Deyokah thanked her warmly for her very fine instrumental support to his work.

JAIL AND LASHES FOR ASSAULTING GIRL

Train Plunges In River - Three Killed

BRIDGE AT RIVER LEFT WIDE OPEN CAUSES TRAGEDY

Engineer Fireman and Baggagemaster Carried to Death in 40 Foot Drop.

PASSENGERS ESCAPE.

Automatic Blocking System Should Have Given Warning of Open Draw.

MOBILE, Ala., Feb. 25—The locomotive and combination baggage and club car of the northbound Pan-American train plunged 40 feet through the open draw of the Mobile river bridge, 18 miles north of here at 12:50 a.m. today, carrying three trainmen to death and narrowly missing a passing tugboat.

No passengers were reported injured or killed, but the Louisville and Nashville railway officials said a careful check would be necessary to determine definitely whether there had been any passengers lounging in the club car. The train was bound for Cincinnati.

Cause A Puzzle

H. P. Hearon, of Mobile, Assistant Superintendent of the Mobile-New Orleans division of the railway, said he was at a loss to account for the accident as the track leading to the bridge is equipped with an automatic block signal system which should have given warning of the open draw fully a mile away.

Hearon tentatively suggested that something might have been wrong with the engine, Arthur N. Ingram, of Montgomery, Ala., who was one of the trio killed. The others were Ezekial Crumpton, Negro fireman, and J. N. Vaughn, baggagemaster, both also of Montgomery.

The pullman following the combination car was partially hanging over the water in a precarious position.

Mr. Hearon said that the train must have been traveling slowly or all the cars would have probably gone over. There were said to have been seven cars in the train.

SIX BANDITS ROB BANK OF $18,000

Employees Herded Into Rear Room, Scoop Up Cash, Walk Calmly Out.

POLICE LOSE TRAIL.

DAYTON, Ohio, Feb. 25.—Six bandits, armed with sawed-off shotguns, held up Norman W. Beurgmeier, manager, and eight employees of the Central Branch of the Union Trust Company in the heart of the business district this morning and escaped with between $18,000 and $20,000.

The hold-up came ten minutes after the bank opened. Four men who entered the bank while their two companions waited in a machine at the curb, forced the bank employees into a rear room. While one stood guard the other three scooped up all available cash.

Taking off their masks, the bandits walked leisurely from the bank, entered the automobile and drove away. The police, in an armoured car, arrived in time to see the bandit car speed away, and started in pursuit but lost trace of the fugitives.

HEROINE IN FIRE IS OTONABEE GIRL

Matron of Toronto Children's Shelter Which Was Burned Born in Otonabee.

AIDED 15 CHILDREN.

Miss Belle Nelson matron of the Children Aid Society's shelter on Charles street, Toronto, and heroine of the fire which partly destroyed the shelter residence early Monday morning, is a native of Otonabee township. Miss Nelson seized a fire extinguisher when the blaze was first noticed and led her staff in fighting the fire and aiding the escape of fifteen children. Her courage and resourcefulness is being widely recognized in Toronto.

Her parents were Mr. and Mrs. William Nelson of the fourth concession, Otonabee, and she along with her brothers and sisters were educated in this district.

Chaplin and Shaw Meet at Luncheon

LONDON, Feb. 25 (C.P.). — Charlie Chaplin and George Bernard Shaw had an opportunity to-day for the first time to make each other's acquaintance.

The occasion was a luncheon at the town house of Nancy, Lady Astor. The London press was uninformed regarding the invitation and the entire affair had a general air of secrecy.

Chaplin this evening will be the dinner guest of Rt. Hon. Winston Churchill at Mr. Churchill's home.

PLAYFUL DRILL WITH REVOLVER HAS FATAL END

Colin Campbell, Well Known in British Shipping Circles, Shot in Stomach.

HAPPENS IN ALEXANDRIA.

Tragedy Happens as Purser From U. S. Liner Accidentally Drops Gun.

ALEXANDRIA, Egypt, Feb. 25. — (A.P.)— Playful demonstrations of rifle drill with a revolver by an officer of a United States steamer led to the death here to-day of a widely known British resident, Colin Campbell, managing partner in a local shipping firm.

The officer who made a statement to police after the accident, and was turned over to United States' Consular authorities gave his name as B. O. Higon, of Hazelhurst, Miss., and said he was purser aboard the Dollar liner President Hayes and had come here from Suez.

Spending Evening With Friend.

From accounts given authorities it appeared that Campbell and a friend from the United States spent Monday evening together. While Campbell was making a call at the post office Higdon struck up a conversation with an Arab sentry and asked him to lend his rifle for a demonstration of rifle drill.

The sentry refused and Higdon proceeded to give a demonstration with a revolver which suddenly went off and jumped out of his hand. Campbell reappeared just as the weapon was being picked up. It was discharged again in the course of this operation and Campbell was hit in the stomach.

He was removed to a hospital where an operation was performed, but he died later in the morning. He was able to make a statement which amply established the accidental nature of the occurrence.

BENNETT INVITES ALL PROVINCES TO APRIL PARLEY

Wishes Views on Constitutional Questions Involved in Proposed Statute of Westminster.

HELD IN OTTAWA.

Provisions Must Be Approved or Disapproved and Decision Sent to London by July 1.

OTTAWA, Ont., Feb. 25. —(CP)— Announcement is made by Premier R. B. Bennett that invitations have been sent to all Provincial Government to take part in a conference at Ottawa on April 7. The purpose of the conference is to afford the provinces an opportunity of presenting any views they may desire to express on the constitutional questions involved in the proposed Statute of Westminster, so far as the Provinces may be concerned.

It will be recalled that at the Imperial Conference Premier Bennett brought up the question of the application to Canada of the legislation which the conference of 1929 on the operation of Dominion Legislation had recommended should be passed by the Parliament of the United Kingdom relating to the Colonial Laws Validity Act and other matters.

Report Approved

The Prime Minister of Canada referred to the fact that approval of the report had been expressed by a resolution of the House of Commons of Canada, and also to the fact that representations had been made by certain Provinces requesting that final action should not be taken until an opportunity had been given to the Provinces to determine whether their rights would be affected adversely.

At the conference, it was agreed that the question whether the statute of Westminster should be made applicable to Canada in certain respects would be determined after a conference with the provinces had been held. It was recommended by the Imperial Conference that the Statute of Westminster, embodying the proposed changes, should be passed at the next session of the Imperial Parliament, and that accordingly resolutions passed by both Houses of the Dominion Parliaments, approving or disapproving of the provisions of the statute, should be forwarded to London by July 1, or at latest by August 1. A conference with the Provinces early in April is therefore proposed.

Runners Capture Coast Guardsmen; Take Truck, Transfer Liquor, Then Flee

HULL, Mass., Feb. 25.—Local police early today rescued two Coast Guardsmen from a band of rum runners who had held them under pistol point while a cargo of liquor was being unloaded from a boat. Two of the alleged rum runners were placed under arrest, but between 15 and 20 others fled in the darkness, in a truck used by the Coast Guardsmen to patrol this section of the shore.

The Coast Guardsmen, Surfmen Gibson and Tibbetts, said they were patrolling the beach when they came suddenly upon the band of rum runners. They found themselves covered by pistols before they could take action. They were held three hours as prisoners, they said, before the police came to their rescue.

The two men arrested said they were Joseph Mardone and John Farbo, both of Boston. About 150 cases of liquor were found on the beach.

WORK INSURANCE IS ADVOCATED BY HON. JAS. LYONS

Former Minister of the Cabinet Delivers Speech in Its Favor.

BE COMPULSORY.

Believes There Will Always Be More or Less Unemployment Problems.

TORONTO, February 25. — Establishment in this Province and throughout the Dominion of some form of compulsory unemployment insurance to be administered by a Commission similar to the Workmen's Compensation Board and with the workman and the employer, as well as the State, contributing to it, was strongly advocated during the Legislature debate of yesterday by Hon. James Lyons, Conservative member for Sault Ste. Marie, and first Minister of Lands and Forests in the former Ferguson Government. Claiming that the country could expect to have the unemployment problem or trouble always more or less with it in the future, Mr. Lyons expressed the belief that the time had arrived when, as a people of the Dominion, "we must give careful and serious consideration to the application of some system to assist and protect the involuntary unemployed."

Not to Starve.

In any civilized country, he submitted, workmen and their families could not be permitted to starve when the support of the wage earner was withdrawn.

"The State and society," he said, "now make partial provision for their support in various ways, but, in my opinion, provision should be made to distribute the burden more equitably, to place the responsibility for conditions where it belongs, to en-

Much Tribute Paid To Father and Son

GODERICH, Feb. 25.—(CP)— One of the largest funerals in the history of Huron county was held here this afternoon when Judge Edward N. Lewis, whose death occurred in Toronto early Monday morning last, and his son Norman, who met an untimely fate in the same city a few hours previous, were laid to rest in Maitland cemetery side by side.

The bodies arrived from Toronto late Monday night and all day yesterday a steady stream of citizens filed past the biers in the family home for a last look at the mortal remains of a native son who has risen high in political, military and judicial circles of his country.

The County Bar Association county officials, the mayor and town council, the Canadian Legion, attended in a body.

WESTERN FARM IS BEING SEEDED

New Record Set as Webb Farmers In Saskatchewan Start Spring Work.

THRESHING FINISHED.

WEBB, Sask., Feb. 25 (C.P.).—Agriculturists of this district of South-Western Saskatchewan made claim to-day to an all-time early seeding record for Western Canada.

Fields have been bare of snow for weeks, and with mild weather prevailing for many days, land is in perfect condition for spring work.

Several farmers of the district started cultivation Monday, and on Tuesday seed drills were at work on the farm of A. C. Thierman, near here, sowing wheat.

Farmers have no recollection of wheat being seeded in February in any former year, and pioneers say it is a record for the Prairie Provinces.

This is not the only agricultural record to be shattered. In January Alberta farmers, during the sweep of the mild wave across the Prairies, concluded threshing of wheat which had been halted by unfavorable fall weather.

LIQUOR CRUISER BEACHED, FIRED

Rum Runners Seeing Escape From Coastguards Is Futile Take No Chances of Capture.

CREW ESCAPE ASHORE.

NEW YORK, Feb. 25.—Pursued by a coastguard boat, a rum-running cruiser was beached, set afire and abandoned by her crew early to-day in Princess Bay, Staten Island.

Reaching shore a few minutes later, Coastguardsmen summoned fire apparatus and the blaze was quenched with little damage. Two hundred cases of liquor were found aboard. The craft was 60 feet long, powered with twin 12-cylinder motors and bore the registration numbers 2453K, which were believed to be false.

Sighting the cruiser a mile from shore, the coastguard craft fired two warning shots across her bow, but failed to halt her. As the former neared land, the crew poured gasoline over the deck and lighted it. They jumped ashore and fled.

GUILTY OF MURDER

CHATHAM, Ont., Feb. 25 (C.P.)— Thomas Cracknell was to-day found guilty of murdering his wife in Harwich township last November. A jury returned its verdict to Mr. Justice Raney this afternoon.

DEFINITE TRADE OFFER TO CANADA MADE BY RUSSIA

Would Place Orders For $10,000,000 in Agriculture Machinery During Year.

PAY THIRD IN COAL.

Agrees to Attend Parley on Wheat Marketing With View to Eliminate Dumping.

MONTREAL, Que., February 25 (C.P.). — Soviet Russia is anxious for trade in agricultural machinery and coal with Canada, and to that end has made a definite offer to the Bennett Government, Lieut.-Col. Herbert J. Mackie, former Conservative member of Parliament for North Renfrew stated here to-day.

The inducements which the Moscow authorities are offering consist of (1) $10,000,000 worth of orders for agricultural machinery to be placed with Canadian firms during the present year; (2) an agreement to attend a conference upon the broad problem of wheat marketing, with a view to the elimination of dumping.

One Condition.

The only condition attached to the offer is that Canada accept Russian coal in part payment for its agricultural machinery upon a basis of one dollar's worth of coal for every three dollars' worth of machinery. In all, this would mean accepting approximately $3,350,000 worth of Russian coal, Col. Mackie said. The balance of the $10,000,000 would be payable in gold.

The submission of the foregoing proposition to the Canadian authorities was disclosed to the Montreal Star to-day in an interview given by Col Mackie, who stated he was the intermediary of Soviet officials in the negotiations. Col. Mackie has spent some time at Ottawa where last week, he said, he had laid the Soviet proposals before Premier R. B. Bennett. Several sessions of the Dominion Cabinet were held in connection with the matter, he said.

Mackie's Stand

Well-known in Canadian public life, a soldier of distinction and remembered for having negotiated in 1921 Canada's adherence to the Anglo-Russian trade agreement, Col. Mackie emphasized he was not personally of Bolshevist sympathies, but simply was presenting the Soviet offer as a business proposal which

HAMILTON CITIZEN ENTERS PLEA OF BEING INTOXICATED WHEN HE ASSAULTED GIRL IN CITY SUBWAY

Three Months in Jail Plus Twelve Lashes is Sentence Handed Out.

FAILED TO REMEMBER.

Girl Suffers the Loss of Several Teeth When She is Brutally Assaulted.

HAMILTON, Ont., Feb. 25. —(CP)—Jail and lashes were the punishments handed out to Arthur Kennish in police court today by Magistrate Burbridge when the prisoner was found guilty on charge of assault.

Kennish was arrested last night after Margaret Nicholson had been accosted and brutally beaten when walking through the Kenilworth Avenue subway. In court he stated that he had been drunk and did not remember anything of the incident.

The magistrate changed the indictment from aggravated assault to one of assaulting a female, and inflicted a term of three months in jail plus twelve lashes.

HAMILTON, Feb. 24—Brutally assaulted as she passed under the Kenilworth Avenue subway last night Miss Margaret Nicholson, aged 28, of 17 Hope Avenue, suffered the loss of several teeth, while her mouth was cruelly lacerated by blows from the fists of a husky assailant, who allegedly was captured, and told police he was Arthur Kennish, aged 20 or 346 Kenilworth Avenue North.

The Kenilworth Avenue subway, a dark spot north of Barton Street has been the scene of two other previous brutal assaults upon unaccompanied young women during the past two years. Miss Nicholson, whose home is not far from the scene of the attack, said she was on her way to the house of a sick friend. She was passing under the subway, she stated, when a man leaped at her in the darkness and attempted to knock her senseless by striking her several blows in the face. He then grabbed her and attempted to drag her to a vacant field. Miss Nicholson screamed for help, and her assailant fled to a house near by. He was pursued there, and Kennish was captured by citizens with the help of Constable William Maddock and Constable David Lyell. Kennish had been drinking, police stated.

Passenger Suicides From Liner's Deck

BOSTON, Mass., Feb. 25. — A passenger identified only as J. Targen address unkown, and about 60 years old, leaped to death from the steamer Robert E. Lee, in bound from New York, today.

He jumped from the steamer as it passed Harding's Ledge at the entrance of Boston Harbor. The body was not recovered.

Porters said he had been sitting in his stateroom during the night with his head in his hands and that at 4 a.m., he had called for coffee. His ticket had been purchased at an agency.

FRUIT GROWERS SEE NEW LIGHT IN CIDER MAKING

Grimsby Man Claims Brandy Might Be Outgrowth of Production.

DISPOSE OF CULL APPLES.

Buyers Who Refuse Delivery on Detecting Change in Market Are Scored.

HAMILTON, Ont., February 25 (C.P.). — Interesting addresses on problems faced by growers were heard at the second session of the Convention of Ontario Fruit Growers in this city this morning.

The question of finding a means of disposing of cull apples was dealt with in the address by M. B. Davis, of Ottawa, who enlarged upon the cider industry in Great Britain and the possible application of its lessons to Ontario. Mr. Davis was not present to deliver the paper in person, and it was read by W. T. Macoun.

Last year, samples of Canadian apples were sent to England and converted into cider, passing successfully the most discriminating tests. Three brands were found to make the best cider—Ripston Pippins, Badwins, and Russets or Nonpareils.

Opens Great Future.

N. Walsh of Grimsby in commenting upon the paper just read, stated that it opened up a great future for

(Turr to page 5 please.)

LABORITE GOV'T HAS NO INTENTION OF CHANGING NATIONAL ANTHEM

Snowden Makes Statement After Agitation to Modernize Second Verse.

TRADITION IS EVERYTHING.

LONDON, Feb. 25 (A.P.)—The Labor Government has no intention of trying to improve the British National Anthem, Rt. Hon. Philip Snowden, Chancellor of the Exchequer, informed the House of Commons to-day.

There has been considerable agitation for modernizing the text of the second verse in which, alluding to Great Britain's "enemies" phrases such as "confound their politics, frustate their knavish tricks," occur.

The Government was asked on the floor of the House if it would not consider substituting a "new and more appropriate second verse" for the traditional one on special occasions for which the Government was responsible.

"In this matter, tradition is everything." Mr. Snowden replied in the absence of Premier Ramsay MacDonald, "and the Government does not propose to try to improve on it."

The announcement was greeted with loud cheers, particularly from the Conservatives.

Mr. Snowden added that it might be informative to say that the words to which the tune was sung were not part of the National Anthem, and it was only the tune which was the anthem.

Cultivation of more than 40,000 acres of land on the borders of the states of Coahuila and Nuevo Loen, in Mexico, will shortly be started.

Rumanian Prince's Life is Threatened

SALZBURG, Austria, Feb. 25.—(AP)—A Rumanian whose name was not given was arrested on the Orient express between Linz and Salzburg today charged with planning the murder of Prince Barbu Stirbey, former Prime Minister of Rumania, who was a passenger on the same train.

It was alleged that he had intended poisoning the prince's food in the dining car at the instigation of some of the prince's political opponents.

Prince Stirbey, who was chief of the royal household during the reign of King Ferdiand of Rumania, has long been considered one of the most important political figures in his country.

15 Rebel Burmans Die In Fight With Troops

RANGOON, Burma, Feb. 25 (A.P.) —Fifteen rebel Burmans were killed in a fight with a party of troops from the fifteenth Punjab Regiment in the Hanzada district to-day. Six rebels were wounded while there were no casualties among the soldiers.

A number of Burmese districts in the neighborhood of Tharawaddy have been disaffected since an insurrection was put down by British authorities at the beginning of January. On February 21 twenty-five villagers of Zaingbwe, near Tharawaddy, were killed in a clash with military police.

ROAD FINANCING BEING STUDIED

Henry Replies to Delegation of Township Councils Asking Cut in Contributions.

ASK GOV'T PAY 40 P. C.

TORONTO, Ont., Feb. 25. (CP)— Reduction in the contribution collected from rural municipalities to the construction and maintenance of Provincial Highways was urged on Premier Geo. S. Henry to-day by a large delegation representing Township Councils throughout the Province. The Premier said the Province was investigating the whole question of the financing of roads but offered no assurance of any change in the present system.

At present the Province pays 80 percent of the cost of highways collecting the remaining 20 percent from the municipality through which the highways run. The delegation suggested the Province should pay 90 percent and in support of their contention spoke of the heavy burden of taxation on farm lands. With reduced returns from their farms, farmers were having difficulty in paying their taxes.

J. St. Denis, (Cons., Prescott) introduced the delegation.

BLAST KILLS FIVE.

SANTO DOMINGO, Dominican Republic, Febrcary 25 (C.P.). — Five persons were killed and twenty injured, a number seriously, in an explosion at the Osama Distillery in the suburb of Villa Duarte to-day. The damage was estimated at $100,000.

CAMPAIGN FOR RELIEF FUNDS HAS GONE OVER $10,000 MARK

Employees of the Brinton Carpet Company Contribute $453.

TOTAL TO DATE $10,222.46.

Wonderful support from every section of the community is being received in the drive for funds being made by the Peterborough Relief Association. Manager Crowe reports the total to-day as being over $10,000. The large contributions in to-day's list include those from the employees of The Examiner, $200; from the Brinton Carpet Company, $453; from the teachers of the Confederation School, $15.50, and from a portion of the Quaker Oats plant, $300.

The following is the list of latest contributions:

Previously reported	$9,108.96
Lt.-Col. W. Gordon Hall, V.D.	10.00
De Laval Co. (add.)	23.00
Brinton Carpet Co.	453.00
Mr. D. Morton	10.00
Miss Sarah Taylor	10.00
Bank of Montreal, Simcoe St.	22.00
Jas. Hamilton (Peter Hamilton Co.)	25.00
Lowe & Outram	10.00
A. & P. Store Employees	10.00
Teachers of Confederation School	15.50
Can. Packing Co. (add.)	6.00
Quaker Oats Co. (part)	300.00
H. Kelso	2.00
B. Ruth	2.00
St. Paul's A.M.O.S. Bible Class	10.00
Examiner	200.00
J. G. Plunkett (Maple Leaf Milling Co.)	5.00
Total to date	$10,222.46

In addition to above the employees of the Purity Baking Co. Ltd., are contributing $7.00 weekly in bread tickets for February and March.

Cash received to date, $4,894.29; balance pledged.

Girl, Woman Hurt In Police Charge On Toronto Crowd

TORONTO, Ont., Feb. 25.—(CP)—Two policemen, a 10 year old girl and a women were injured this afternoon when at least 2,000 of Toronto's unemployed gathered at the corner of Spadina Avenue and Dundas street in the downtown section where a proposed unemployment demonstration was to be held.

Several were arrested when stones, bricks and other missels were directed at the police who retaliated by a charge along the thoroughfare.

Taximan Seeking Fare Finds One In Back Seat

MONTREAL, Que., Feb. 25 (C.P.)— Victor Patenaude was driving his taxi-cab along St. Lawrence Boulevard last night, wishing he could pick up a fare, when a noise from the back seat informed him that he had one. The noise was the lusty wailing of a tiny baby wrapped up in newspaper. Patenaude, who has seven babies of his own, took this one to the matron of Gosford Street Police Station and then began figuring where it had came from. He told police that his last fare had been a middle-aged coupie that he had driven to Bonaventure Street Station from an east end address shortly before 9.30. He recalled that the woman was carrying a paper bundle, but had not noticed if she still had it when she left the cab. A note was pinned to the baby's clothes, stating that it had not been baptized and asking that it be sent to a religious institution. This was done. The baby, a girl, was healthy and well-cared for.

Over 2,700 Taxis Idle In The Madrid Lockout

MADRID, February 25 (C.P.) — A lockout of taxi drivers by the owners, in protest at refusal of the Government to allow them to increase their rates, began here to-day with about 2,700 taxis idle.

There were not more than 100 vehicles available for hire on the streets of the capital, these belonging to some of the owners who wished to see what the attitude of the authorities would be before determining their course in the lockout. The city was calm.

$27,173 IS LOOT IN BANK HOLD-UP

Trio Enter Bank By Window and Truss Up Staff as They Arrive For Work.

NOT A SHOT FIRED.

HASTINGS, Neb., Feb. 25 (C.P.).— Three robbers held up the Hastings National Bank to-day, bound and gagged 13 employees, including three women, took $27,173 and escaped.

The trio entered the bank about 8 a.m., through a rear window. As bank employees arrived, each was bound, gagged and taken to the basement. Thirteen persons had arrived, and were bound and gagged before 8.45 a.m., when the time-lock permitted the opening of the vault.

Several bank officials were forced to accompany the men to the vault, where the robbers scooped up $27,173 in gold, silver and currency.

The robbers loaded the loot into a new automobile, and not a shot was fired during the robbery and not a person was injured during the two hours and 50 minutes the three bandits were in command of the bank.

TWO OTHER CAMPBELLFORD MEN ELECT TRIAL BY COUNTY JUDGE OF CHICKEN STEALING CHARGES

Officers Catch Chicken Thieves While Seeking For Moonshiners.

GIVEN PRISON TERMS.

Dead Chickens Are Found in a Disused Well—Court Room Crowded.

CAMPBELLFORD, February 25 (Examiner Staff Correspondence).— Answering to a charge of being in unlawful possession of hens and chickens valued at $20.00, the property of Miss Mary Johnston of Seymour Township, on or about January 9, and pleading not guilty, Walter Parcels, aged 31, of Campbellford, was convicted of the offence ,and sentenced to two years in Portsmouth Penitentiary by Magistrate Floyd of Cobourg, here.

Yesterday afternoon Ray Martin, aged 41, also of Campbellford, was convicted of receiving stolen property in the shape of chickens on or about the same date, the property of Miss Johnston, and was also given a two year term in the Penitentiary. Two others who are alleged to be concerned in the theft, Manson Lindsay and Angus Lindsay, both of Campbellford, elected to be tried by the County Judge, and were committed for trial, which will be held at an early date.

This is the climax of investigations that have been under way for many weeks by Chief of Police G. C. Bromley, in his attempt to check up on chicken stealing which has been prevalent in the district. Col. F. D. Boggs of Cobourg, Crown Attorney, prosecuted; D. J. Lynch of Campbellford appeared for the two convicted men, and T. F. Hall, K.C., of Cobourg for the Lindsays.

Court Room is Filled

The trial created great local interest, the court being filled to capacity and a large crowd standing outside in hope of admittance. An exhibit of the case was a lot of seven chickens which had been located in a house, the residence of Ray Martin, one of the convicted men.

Miss Mary Johnston gave evidence to the effect that she lived one mile out of Campbellford in the township of Seymour and that on January 9 she had gone out to the hen house at about nine o'clock in the morning to find the door had been forced open and fifteen of her birds missing. She originally had 48 but could only find 33. She was sure that she had locekd the door the night before.

Questioned by Mr. Lynch she stated that the missing birds comprised twelve hens and three roosters, and that she had reported the matter to Chief Bromley the same day.

Excise Officer G. H. McElligatt of

(Turn to page three, please)

Lower rice prices caused by the bumper crop are causing much financial trouble among Japanese agriculturists.

Several new aviation services are planned for Colombia.

Tobacco All Same To Prof. Einstein

PASADENA, Cal., February 25 (C.P.). — The ice-cream was served and speeches were about to start. Prof. Einstein drew his pipe, looked around at the women guests, and laid it down.

He whispered to the president of the Chamber of Commerce by his side. Gasps of astonishment went up among the scientists as he accepted a cigarette, and Frau Elsa, with amazed eyes, was speechless. Einstein never had smoked a cigarette.

But nonchalantly he broke it in two, tore off the paper, put the tobacco in his pipe, and soon was blowing rings. Frau Elsa sighed and his secretary went to get the pouch of pipe tobacco left in their car.

THOMPSON TAKES CHICAGO PRIMARY BY BIG MAJORITY

Almost Complete Returns Show Big Bill With 296,284 Votes to Lytle's 228,401.

ALDERMAN ALBERT, 99,506.

Stiff Opposition Seen in Democrat Choice of A. J. Cermak For April Election.

CHICAGO, Ill., Feb. 25.—Mayor William Hale Thompson, past master of the spectacular in politics, was on top of the political heap in Chicago temporarily at least to-day.

"Big Bill," sometimes referred to as "The Builder," Chicago's "Cowboy Mayor," with hat tilted at a rakish angle, rode to victory through a tornado of political fireworks in yesterday Republican primary for the Mayoralty nomination; crushing Judge John H. Lyle, "gangster Nemesis" and other opponenets.

When 2,987 precincts had reported unofficially, the master showman, who used aviation, talking pictures and a jackass parade to bolster his campaign, had a total of 296,242 votes compared to 228,401 for Judge Lyle; who had promised the voters he would make things so hot for the gangsters if he was elected Mayor that they would all be glad to get out of town. On the basis of the same tabulation Alderman A. F. Albert had 99,506, G. K. Schmidt 11,223, and Eugene McCaffrey 913.

Plurality of 67,841

These figures gave Thompson a plurality of 67,841 over Judge Lyle. The latter was silent about the result, but promised a statement later, whereas "Big Bill" was in a happy frame of mind, declaring he won on his principles—"drive internationalism and prohibition out of the Republican party."

Although the 62-year-old bombastic three-term Mayor of Chicago, rated by some political prophets not so long ago as losing ground in politics, came back with a bang yesterday, there was a possibility that he would face stiff opposition in the April 7 election, with Anton J. Germak, chairman of the Cook County Board, who was nominated by the Democrats virtually without opposition. Complete unofficial returns gave Germak 235,260 against 9,829 for John B. De Voney, his lone opponent.

Iedependent May Enter

There was also a rumor rumbling over the political horizon that Dr. Herman Bundesen, Coroner of Cook County and a political power, would get into the April election as an Independent candidate, to contest with Thompson and Cermak for the right to sit in the Mayor's chair during the World's Fair in 1933. Bundesen, however, has kept his own counsel during the tumultous campaign, but the rumor hung on that he was only awaiting the primary result before announcing his candidacy.

But "Big Bill" smiled and indicated he was not worrying about the election. He had been making from 8 to 10 speeches a day during the hectic primary campaign and apparently was willing to sit at his desk; take his victors and approaching election fight calmy, chew a huge cigar and receive congratulations from his followers.

Bishop to Lie in Tomb He Designed

PRELATE'S LIFEWORK IN ST. PETER'S CHAPEL, INCLUDED LAST RESTING PLACE.

Behind the altar, shown in the photograph above, in the sanctuary of the chapel of St. Peter's seminary, London, Ont., late Rt. Rev. M. F. Fallon, Roman Catholic bishop of London, Ont., and a leading figure in the Canadian ecclesiastical world, provided his own marble tomb, in which his body will be placed and sealed Friday morning, February 27, after requiem mass at St. Peter's Cathedral. Erection of St. Peter's seminary was the lifework of the late prelate and it is said that upon its completion recently he resigned himself to his end smilingly.

URBAN MUNICIPALITIES ASK HENRY FOR LOWER ROAD TAXATION

Premier Henry Promises a Careful Study of the Question.

CITIES ARE BENEFITTED.

TORONTO, February 25. — A promise that the Government would give careful study to the whole question of taxation for highways was given by Premier George S. Henry to a deputation representing nearly all Ontario urban municipalities at the Parliament Buildings yesterday. Further than this promise of a study of the question, the deputation received no indication of the Government's attitude toward the request that urban municipalities should receive some relief in the matter of their contributions to the cost of suburban roads.

While the cities want relief from taxation for suburban roads, the counties were also asking for relief. He expected to hear a deputation from the counties next week. "I hope they won't ask to be relieved of the whole of their taxation for roads, as the cities are requesting," he observed.

The benefit of highways accrued far more to cities and centres of business than to rural interests, said the Premier, after tracing the history of the development of the suburban roads system. A property assessed at $5,000 in the city would derive benefit from highways to a far greater extent than a property

FRENCH JOYFUL AT NAVAL ACCORD

Agreement Reached By British Experts With Rapidity Rare in Diplomacy.

AID CASE WITH ITALY.

PARIS, Feb. 25 (A.P.)—The Franco-British naval understanding reached here by representatives of the two Governments has inspired hopes that the European naval limitation problem at last will be solved. The accord was hailed by all the French press as one of the most brilliant events of recent diplomatic history.

Petit Parisien, usually a sober, balanced organ, observed that its political aspect was no less important than its technical phases. Not only was the agreement reached with a rapidity most rare in diplomacy but the British negotiators gave proof of the breadth of conceptions which, the paper said, does honor to their deep appreciation of great international problems.

The moderate journal remarked that the agreement placed France in an excellent position since she must make concessions only against formal guarantees either by agreement with Italy or by an undertaking given by Great Britain.

The usually skeptical Pertinox in Echo De Paris, while insisting that the agreement merely postpones the Franco-Italian controversy over parity, admitted that it probably would make possible better relations between France and Italy and might open the way to closer co-operation between the London and Paris cabinets.

Providence Pier Goes Up In Flames

PROVIDENCE, R.I., Feb. 25. (CP) The state pier, built in 1914 at a cost of $850,000 was destroyed by fire which was discovered shortly after 4 o'clock this morning.

So much headway had been gained by the fire before the alarm was sounded that when apparatus arrived the pier was a mass of flames on all four sides.

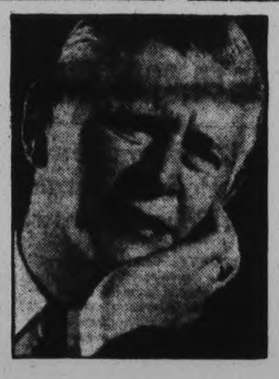
It is estimated the loss will exceed half a million dollars, including the structure itself and the contents, unloaded yesterday by the Fabre liner Patria. The Patria left the pier late yesterday afternoon for New York.

Raskob Well Backed Upon Wet Program

NEW YORK, N.Y., Feb. 25 (C.P.).—The New York Times to-day said the last three Democratic candidates for President would support John J. Raskob, chairman of the National Committee, in a move to commit the party to a wet program.

Alfred E. Smith, John W. Davis and James M. Cox, the Times said, would attend the National Committee meeting March 5 to champion a resolution declaring for flat repeal of the eighteenth amendment or for the return of the liquor traffic to the States.

All three, the Times pointed out, have expressed dissatisfaction with the present prohibition laws and have urged repeal or modification in some form. In the event that the committee adopted such a resolution it will have to be adopted by the ensuing convention before it is inserted in the party platform.



SAFE For NEURALGIA

Prompt relief from HEADACHES, LUMBAGO, COLDS, SORE THROAT, RHEUMATISM, NEURITIS, NEURALGIA, ACHES and PAINS

Rioting Over Berlin Held Down By Police

BERLIN, Feb. 25 (A.P.)—Minor rioting developed in Berlin to-day as Communists and unemployed attempted demonstration in observance of the International Unemployment Day.

At the Labor Exchange in the Gormonnstrasse, in the central part of the city, police were bombarded with beersteins and rocks. They retaliated freely, using their blackjacks, and cleared the rioters out of the building and streets.

Sporadic attempts to form parades were frustrated by the police. Small groups of malcontents gathered at the Labor Exchange, but the police quickly dispersed them.

Blazing Gas Well Is Menacing Wewaka

WEWOKA, Okla., Feb. 25.—The gigantic torch of a blazing gas well roared at the edge of this little city to-day.

Fed by more than 80,000,000 cubic feet of gas a day, the Deep Rock Oil Company's well was spouting flames 200 feet into the air just a mile south of town.

Only shacks on nearby oil leases were believed endangered by the well, which caught fire late yesterday after a separator explosion fired a nearby oil well, also Deep Rock property.

The oil well fire was extinguished four hours after the explosion. Steel derricks of both wells were tangled masses of metal.

MILBURN'S HEART NERVE PILLS

Price 50c a box

Palpitation Of The Heart Nerves Were All Gone

Miss Rose Griffin, Ashern, Man., writes:—"About five years ago I was troubled with palpitation of the heart, caused by a shock, and my nerves were all gone, and I could not sleep. I read about Milburn's Heart and Nerve Pills and decided to try them. After I had taken three boxes I was feeling fine again. I think they are a wonderful remedy, and wish all others who suffered as I did would give them a trial."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

RELIABLE PRINTING no order too small

WARSAW BUSINESS STILL FLOURISHING

Firm Now Conducted by Harry Digweed Started Sixty Years Ago by Late John Wasson.

WARSAW, February 24 (Examiner Correspondence). — The business now conducted by Harry Digweed was started between fifty and sixty years ago by the late John Wasson, in a small building across the street, where Percy Lloyd's house now stands.

After a few years Mr. Wasson built the frame building which was burned one afternoon in February, 1914. Mr. Wasson carried on a general business with his brother, William Wasson, in partnership. William Wasson carried on the business for some years and sold out to Lynn Brothers, the former taking charge of the mill.

Lynn Brothers sold out to Thomas Clements and Levi Fayne, who took possession on February 10, 1907. In about a year Mr. Payne sold his share and Mr. Clements carried on until 1916, when the store was rented to Charles Calder, who carried on the business for about four years, when Archie Hawthorne took over the business and he carried on for about four years.

Mr. Clements returned to Warsaw and carried on the business until January 1, 1931, since which time Harry Digweed has conducted the business.

On February 10, 1914, the frame structure was completely destroyed by fire, and Mr. Clements immediately set to work on a new two-storey building, larger, and covered with iron sheeting. The main part of the upper storey was rented to the Women's Institute, and it was here that the members did their war work. However, Mr. Hawthorne decided to live here and the Institute sought other quarters.

When Mr. Clements returned, he had the upper storey made into an apartment in which Mr. and Mrs. Clements and Mr. and Mrs. Digweed lived for some years. Mr. and Mrs. Clements later moved to Mr. Clements' mother's home.

When the Telephone System came to Warsaw, Central was located in the back of the store, and later Mr. Clements had the present office built in. Mr Clements is still manager of the local Telephone System.

NIAGARA FALLS HAS BASS VOICE

Dr. W. B. White and Rev. J. P. Delaney Photograph Sound Waves of Cataract.

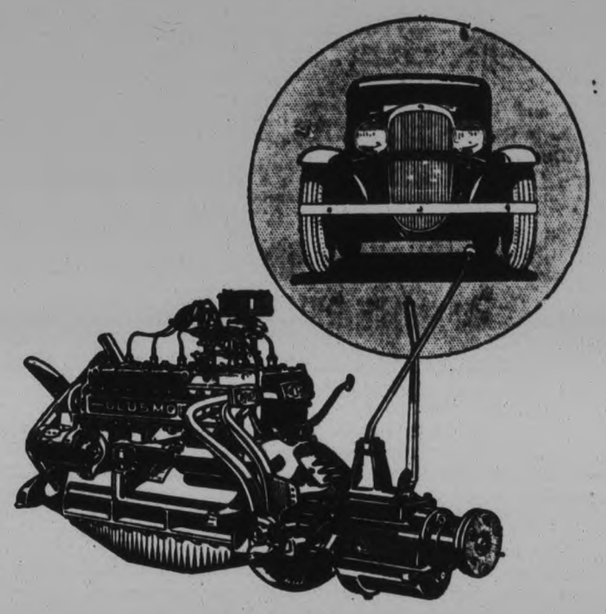
BELOW LONDON MONOTONE.

NIAGARA FALLS, N.Y., Feb. 25.—(C.P.).—The Niagara Falls cataract has a bass voice, a low bass, in fact, probably below the dull monotone of London, England.

Such was the conviction expressed by Dr. William Braid White, of Chicago, an acoustical expert, after he and Rev. John P. Delaney, physics professor of Canisius College, had photographed the sound waves of the cataract yesterday. The films will be developed by Dr. White when he returns to Chicago within a week. His observations, he explained, were from snap judgment.

"London traffic produced what we believed was the lowest sustained sound investigated up to the present time," said Dr. White.

Socialist members of Brighton, England, Town Council have asked the city to buy 28 municipal omnibusses.



The New

OLDSMOBILE

is SMOOTHER-FASTER

SMARTER IN APPEARANCE

OLDSMOBILE has symbolized dependability for more than three decades. Fundamentally sound, it has not deviated from those time-proved principles which are the source of its long life and the friendly goodwill of its owners. Each consecutive Oldsmobile has been liberally endowed with qualities that make for the greater comfort, safety and enjoyment of motoring. But never in its long history has Oldsmobile offered such values as it does in this latest model . . . at new, lower prices.

See Oldsmobile! Drive it! And remember . . . at your convenience are the advantages of the General Motors Owner Service policy, and the GMAC, General Motors own deferred payment plan.

SON OF W. P. BULL DENIES PAYMENT

Claims No Sum Ever Will Be Paid Dr. Sidley—Reason Why Suit Dropped.

EXPLAINS FATHER'S MOVE.

TORONTO, Ont., February 25 (C. P.). — Commenting on a Chicago despatch stating two suits filed against W. Perkins Bull, K.C., local barrister, had been settled out of court yesterday, for an undisclosed sum, Bartie Bull, son of the defendant, declared no money was passed to Dr. John Streeter Sidley, of Racine, Wis., the plaintiff in the suits.

"Nothing ever was or ever will be paid by Mr. Bull or on his behalf to Dr. Sidley," he declared.

"Why did Dr. Sidley bring this action then," he was asked.

"That is why it was dropped," he replied.

When asked why his father had left Chicago the younger Bull said matter had been arranged before Mr. Bull left Chicago for business in Detroit, "but even so; he would have been back in Chicago but for the accident."

Mr. Bull, who is lying in a local hospital in a serious condition, was injured when the motor car carrying him from the Windy City to Detroit collided with a motor truck trailer. After he had received first-aid on the roadside it was decided to rush him to a hospital in Windsor. From the latter city he was brought here.

DISTRICT NOTES

By Examiner Correspondents

AT LAKEFIELD

Mr. Jack Langley of Peterborough was in the village on Saturday.

Mr Stanley White of Peterborough was in the village on Sunday attending Mrs. Beavis' funeral.

Miss Bessie Dunn spent the week-end in Toronto with her mother.

Mrs. George Hamblin was in Peterborough on Friday.

Mr. and Mrs. F. C. Marshall and family of Peterborough were guests of Mr. and Mrs. T. Z. Webster on Sunday.

Mr. George G. Hendren of North Monaghan attended Mrs. Beavis' funeral on Sunday.

Miss Mary Hewitt of Toronto spent the week-end in the village.

Mr. Philip Underwood of Toronto was a week-end visitor at "The Grove."

Rev. T. M. Wesley spent a few days this week in Newmarket visiting his mother.

Mr. Jack Gray of Toronto spent the week-end at "The Grove."

Mr. Mike Wannamaker attended the hockey match in Norwood on Monday night.

Mr. Sam Spence of Queen's University, Kingston, was a week-end visitor at his home in the village.

Mr. Neil Carbelli has returned from Cobalt where he spent the past few weeks.

Mrs. H. M. Stewart and Miss Helen Stewart were in Peterborough on Friday.

Mr. and Mrs. A. B. Burrows and Miss June were in Lindsay on Sunday and Monday, called by the death of Mrs. Burrows' aunt, Mrs. Brockenshire.

Mrs. W. C. Garbutt and daughter of Hamilton are visiting Mr. and Mrs Robert Garbutt.

Mr. G. H. Loosemore of Flint Mich., was a week-end visitor at "The Grove."

Mr. C. F. Webster was in Norwood on Monday night attending the hockey match.

Mr. J. J. Duffus of Peterborough, attended the funeral of the late Mrs Henry Beavis on Sunday.

Mr. and Mrs. Francis McFadden and daughter were in Peterborough on Friday.

Mr. J. Smith of Toronto spent the week-end at The Grove.

Mr. J. Morin of Peterborough spent the week-end in the village.

Mr. W. A. Doige of Toronto spent the week-end in the village with friends.

Mr. and Mrs. Porter spent the week-end with their son and daughter in Kingston.

Miss Maude Creighton, who spent the past six months with Rev. and Mrs. Creighton at the rectory, has returned to New York.

Mr. and Mrs. John Millage were in Toronto last week.

Saturday night was Band Benefit Night at the rink and there was the usual good crowd of youthful skaters who enjoyed the exceptionally good programme.

The Canadian Chautauqa, which presented six entertainments in the village last year will again be with us with a new and attractive programme on March 25th, 26th, 27th and 28th.

KEENE.

Mr. and Mrs. George MacIntyre and daughter Jean spent Sunday with Mrs. Robert MacIntyre.

The W.M.S. of Knox church held their day of prayer service at the home of Mrs. William Campbell on Friday afternoon. Mrs. Fred Wood took the first part entitled "A Witnessing Church"; Mrs. John Renwick gave "Witnessing Through the Ages" and Miss Lumsden had charge of the last part, entitled "Witnessing in a New Age." The regular business meeting followed.

Mr. Gus Bolin went to Toronto Monday on township council business.

Mr. and Mrs. Fred McIntyre entertained at six tables of bridge on Friday night.

Mr. and Mrs. Robert Richardson entertained at a dance at their home on Monday evening.

King's big Medicine Show has been in the village all week. Miss Dorothy Gainor won the prize, a wrist watch, for the most popular lady. Mrs. Herbert Miller won the nail driving contest and Mr. Miller held the brick the longest.

The Y.P.S. met on Sunday evening in the United Church, and in the absence of the president was in charge of Rev. Mr. McNeely. Arnold Nison read the Bible reading and Sydney Miller gave the explanation. The topic, a poem bearing on peace, and war and its prevention, was taken by Mrs. McNeely.

I Strongly Recommend Them For Backaches

Says Ontario Lady Of Dodd's Kidney Pills

Mrs. John W. Norman Suffered with Pains in Her Back

Simcoe, Ont., February 25 (Special) That relief can be obtained from all kinds of Kidney disorders by using Dodd's Kidney Pills is again evidenced by the following testimonial received from Mrs. John W. Norman, a well known resident of this place. She writes:—

"I used to suffer with my back a great deal. I have used Dodd's Kidney Pills and they helped me. The pains in my back have gone. I cannot speak too highly of them and strongly recommend them for Backache."

Dodd's Kidney Pills strike right at the seat of the trouble, the kidneys. They are no cure-all, just purely and simply a kidney remedy. They relieve the work of the heart by putting the kidneys in shape to strain all the impurities out of the blood. Pure blood carried to all parts of the body means new health all over the body.

MUNICIPALITIES VISIT PREMIER

(Continued from page one)

similarly assessed in the country. Premier Henry noted that the system of taxing urban municipalities for roads beyond their boundaries was different in Ontario than in the States. Detroit, for instance, paid 70 per cent. of the costs of the roads in Wayne County.

Were it not for the large motor traffic by city dwellers, especially on week-ends, there would not be the necessity for the construction of highways of the present size and cost. The high-level bridge at Hogg's Hollow, Premier Henry cited as an example of a highways project almost solely for the benefit of the city.

Want Less Taxes.

The deputation was headed by Mayor Beverly Robson of Guelph, who stated that they believed the time had come to relieve urban municipalities of taxation for the building and maintenance of suburban roads. He produced clippings of various editorials to show that that was the view of nearly all daily newspapers in the Province. He believed in the principle of the gasoline taxation which provided that the roads should be paid for by those who used them, and in proportion to the amount they used them.

Alderman Frank Mitchel of Windsor argued that some limit should be placed on the paving of thoroughfares under the suburban roads scheme, and the urban municipalities should be given some control of the development.

Besides Premier Henry, members of the Cabinet present were: Attorney-General William H. Price, Hon. Dr. John M. Robb, Hon. John R. Cooke and Hon. Paul Poisson.

Among those who recently passed the final Bar examination in England was Captain Ian Fraser, who lost his sight during the World War.

What Are You Doing For That Stiff Joint?

Rub in Joint-Ease—rub it in good—it penetrates. Do it to-night — in the morning you'll say—"Feels better already." Joint-Ease is a real help to inflamed, painful or swollen joints—it acts swiftly. Guaranteed by all druggists—generous tube 60 cents—made in Canada.

JOINT-EASE

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK

TORONTO, Feb. 25.—(CP)—Cattle receipts 980. Left-overs totalled 400 head. Trade was very slow on the Toronto Livestock Exchange yesterday with a weaker feeling on butcher cattle. Sales were confined to a few butcher cows at $3 to $4 per hundredweight; with some fair to good fed calves selling at $3.70 to $8.50.

Steers up to 1,0505 lbs. good and choice $6 to $6.25; medium $5.50 to $6, common $4.50 to $5.50; steers over 1,050 lbs. good and choice $6.25 to $6.75, medium $6 to $6.25, common $5 to $6.; heifers good and choice $36.00 to $6.25; medium $35.50 to $6; common $4.50 to $5.25! fed calves good and choice $8 to $8.50; medium $6.50 to $7.50; cows; good $4 to $34.50; medium $3.50 to $4; common $3 to $3.50; canners and cutters $1.25 to $2.50; bulls good $4 to $4.50; common $3 to $3.75; stocker and feeder steers good $5 to $5.50; common $4.50 to $5; milkers and springers $50 to $80.

Calf receipts 244. Calves opened steady at $9 to $9.50 for choice vealers with plain stock downward to $5.50.

Good and choice veal $8.50 to $9.50; common and medium $5.50 to $8; grassers $3.50 to $4.50.

Hog receipts 759. Hogs were unsettled with the packers bidding $6.75 f.o.b. or $7.25 to $7.50 off car. The differential between f.o.b. and off-car prices on hogs was reduced 25c per hundredweight and 50c and 75c depending on the size of the market.

Sheep receipts 574. The bulk of the market was made up of western lambs, these selling at $9 for the best ewes and wethers. Culls brought $6 to $7. Sheep were steady at $5 to $5.50 for the best ewes.

Good ewe and wether lambs $9; medium $8.50 to $8.75; bucks $7; culls $6 to $7; good light sheep $5 to $5.50; heavies $4 to $35; culls $1.50 to $3.

MONTREAL PRODUCE

MONTREAL, Feb. 26.—On the produce and dairy market here yesterday prices were unchanged.

British Columbia and Ontario fresh eggs, in carlots, were quoted at 32 cents for extras and 28c to 29c a dozen for firsts and pullet extras. Western Prairie fresh extras, in carlots, were 31 cents, firsts, 28 cents, pullet extras, 26 cents, and second 22 cents a dozen. Carlot prices of storage firsts were 18 to 19 cents, and seconds 16 to 17 cents a dozen. Quotations to retailers were unchanged and receipts were 1,664 cases.

Eastern Townships and Western No. 1 pasteurized butter was quoted at 32 cents a pound, and to retailers solids were 34 cents and prints 35 cents a pound. Receipts were 38 boxes.

On the cheese market, winter white was quoted at 12 cents, colored at 14¾ to 15 cents, and summer at 15½c to 16 cents a pound.

Carlot prices of New Brunswick Green Mountain potatoes were 75 cents per 90 pounds, bulk, and to retailers per 80-pound bag, 85 cents.

CHICAGO GRAIN

CHICAGO, Feb. 25.—Persistent reports that Farm Board allies were selling wheat to Europe at lower prices than private firms offered, gave a downward trend to grains yesterday. Heavy snowfalls in Canadian wheat territory acted also as a bearish influence, together with moisture relief for domestic winter wheat Southwest. United States visible supply increases both of wheat and corn were noted, sending corn down to a new low-price record for the season.

Wheat closed shakey, unchanged to 1½c lower; corn ⅝c to ¾c off; oats at ⅛c decline to ⅜c advance, and provisions unchanged to 15c up.

WINNIPEG GRAIN.

WINNIPEG, February 25.— Wheat prices dipped 1¼c to 1¾c under Monday's figures on the Grain Exchange yesterday. The May wheat future dropped to 61⅞c per bushel, July to 63½c, and October 65⅝c.

Heavy liquidation, poor export demand, and renewal of rumors that the United States Federal Farm Board was competing with Canadian grain in foreign markets caused the bearish feeling. Exporters reported that 500,000 bushels of Canadian wheat had been moved for export overnight and yesterday.

Top grades of cash wheat advanced about ¼c, despite the slump in the futures. The lower grades advanced also. No. 5 wheat gaining ¼c. Coarse grains were inactive with prices lower.

Futures:

	Open	High	Low	Close	Prev. Close

TWO OTHER CAMPBELLFORD MEN ELECT TRIAL BY COUNTY JUDGE

(Continued from Page 1)

Belleville, said he had been called to the Campbellford district in connection with liquor charges. He had gone with Chief Bromley to search the house occupied by Mrs. Grieves, one mile from Campbellford, for illicit liquor and during his inspection of an outhouse had found an old pipe which he traced to a cistern. On searching this, which was covered with cedar poles and a heavy coating of snow, he had found it contain dressed chicken, feathers and entrails and one fowl with the feathers on. These he had handed over to Chief Bromley. Questioned by Mr. Lynch, he stated that he had come to Campbellford with Chief Bromley, who had brought in Ray Martin for questioning, he being the man who rented the house.

Chief Bromley gave evidence to the effect that he had gone to Ray Martin's house on February 13 with the enforcement officer, who found the chicken in an old cistern. There were six plucked birds in three bags and one black hen unplucked. He stated that he had questioned Mrs. Grieves at the house and she had denied knowledge of the chickens. He had afterwards apprehended Martin, who at first denied any knowledge of them, but had afterward made a verbal statement before another witness and himself. The charge against Parcels was laid through information laid by Martin.

Mrs. Grieves stated that she lived one mile from Campbellford with her family, which in all numbered eight, and that Walter Parcels was her brother who at times stayed with her. Ray Martin rented the house and lived there also. She remembered the visit of Chief Bromley and the enforcement officer, declaring that the chickens had been brought to the door of the house, but that she had disowned knowledge of them. There were no live fowl on the property, and the only chicken she remembered was a dressed bird that Ray Martin had brought to the house about a week before.

Cross-examined by Mr. Lynch, the witness stated that Angus Lindsay had brought a bag of chickens to the house about the week following New Year. She said that Lindsay had mentioned going for chickens, but that Martin had objected on the grounds that they wanted no trouble, but Lindsay had replied that they had the chickens and brought them into the house. She did not know what had become of them.

Eva Grieves, a daughter, gave evidence, stating that she had opened the door one night to Manson Lindsay, Angus Lindsay, and her uncle Walter Parcels, but had seen no chickens, as she had gone to bed where the rest of the family was.

Statement Made to Police.

Provincial Constable W. H. McBrian of Brighton stated in evidence that he had arrived at Campbellford on February 13 with a warrant for the arrest of Walter Parcels on a charge of stealing chickens. He had questioned the man, but with no result. Later in the Cobourg gaol, where he had been lodged, he had made a written confession before him and Constable Carey. This statement had been made after a prescribed warning had been given Parcels by both officers. This statement, when read by Constable McBrian, implicated the whole gang.

It was to the effect that one afternoon Ray Martin had told him (Parcels), that in exchange for twelve chickens he would give him two bottles of moonshine and one gallon of beer. It went on to describe how he had told Manson and Angus Lindsay this and how they had gone to the home of Miss Johnston and while he watched the road the other two had entered the hen house and emerged some time later with chickens in a bag. These they had carried between them to Martin, who was in bed, and they had received the moonshine.

Questioned by Mr. Lynch, Constable McBrian stated that the confession had been given after due warning and without any hesitancy and had been signed by both the officers. He had laid the charges on February 19.

Mr. Lynch asked for clemency. In summing up, Col. Floyd pointed out to the accused that everything a person does in life has to be paid for, declaring that he was now about to pay for his misdeeds. He found the prisoner guilty and sentenced him to two years in the penitentiary.

Trial of Ray Martin

The case again Ray Martin followed along the same lines. Miss Johnston gave the same evidence; Mr. McElligott repeated his statement. Chief Bromley added, when questioned, the fact that he had brought Martin in for questioning. He declared that Martin had given a statement to Constable McBrian after he had been duly warned, this statement being in writing.

Mrs. Grieves repeated her story also, with the addition that the chicken were taken to Martin's room the night they were brought to the house. Walter Parcels repeated his story of the stealing. He stated that the chickens, he did not known how many, were taken to Martin's room, where the latter was in bed, and were given to him. He did not know what became of them. Questioned by Mr. Lynch, he stated that the Lindsay's did the actual stealing. He did not know if Martin was told where the chicken came from. The three of them only stayed at the house about twenty minutes. The two bottles of moonshine and the six bottles of beer were duly handed over in payment.

Magistrate Floyd found Martin guilty, giving him a two-year term in the penitentiary also.

Manson Lindsay and Angus Lindsay both elected to be tried by the county judge and were committed for trial in the county court at an early date. Evidence was heard from the previous witnesses, T. F. Hall, K.C., of Cobourg, conducting the defence. One piece of evidence, however, was brought out in cross examination of Mrs. Grieves by Mr. Hall, this being to the effect that Lindsay had stated the day after the other two had been arrested, "If Martin knew it all and we knew nothing, let Martin take the charge and the rest of us will get off".

Martin, when questioned, said that the others had brought chickens to him when he was in bed, and had helped themselves to porter, denying the fact that he had liquor of any kind there. He did not know why the chickens had been brought or how many there were, and he had made no bargain with Parcels for an exchange of beer and chicken. They took away with them six bottles of porter.

More than 300 miles of the interoceanic highway from Matamoras to Mazatlan, Mexico, have been graded recently.

ARE YOU AN EXPECTANT MOTHER

Photo by White

Mrs. MYRTLE McFARLAND

St. Catharines, Ont.—"Dr. Pierce's Favorite Prescription is the tonic my mother had me take during expectancy. I was then suffering with continuous backache and my health was failing. It did not take long for the 'Prescription' to strengthen my body and nerves and to relieve me of the backaches. From then on I had no further distress. Motherhood was easy and my baby fine and healthy. He has always been the picture of health. I would not care to think of motherhood without the help of Dr. Pierce's Favorite Prescription."—Mrs. Myrtle McFarland, 61 Henry St. Druggists. Fluid or tablets.

WORK INSURANCE

(Continued from page one)

courage prevention by giving a strong financial incentive, and to preserve instead of to destroy self-respect and moral worth. If this is accomplished there will be less economic waste and there will be much valuable economical salvage, and also enormous social advantages.

"One of the outstanding difficulties immediately encountered when an effort is made to deal with relief on a large scale, at the present time, under our present method, is that at the very time pressure upon the community on account of unemployment is greatest the average citizen, and also those who represent large aggregations of capital, are more or less affected as well by this general condition, and are, therefore, less able than in ordinary times to respond to the demands for special contributions.

Compulsory Insurance.

"Of course, I do not suggest that funds for involuntary unemployment relief should be provided entirely by the State. It is my opinion that the insurance should be compulsory; that every workman should participate in it, on the basis of his earnings; that his employer should participate in it, perhaps to an equal amount; and that the State should contribute a like amount."

As the unemployment on a per capita basis would naturally be much less than in many European countries, the contributions made by the interested parties, believed Mr. Lyons, should be reduced "to a minimum" and it might be necessary, he further felt, to provide that the insured would not be eligible for insurance for at least one year after registration, and that a reasonable period should expire after he was out of employment before he would participate in the fund. As in the case of the Province's Compensation Act, the injured workman should be thought, be disabled for at least one week.

"I believe," he went on to say, "that it would be necessary to limit the maximum period in any one year that the assured would be allowed to participate in the fund, so as to eliminate the possibility of establishing a dole system or encourage those who might try to take advantage of the protection. It would also be necessary to limit the amount of payment to the insured to perhaps 50 per cent. of his earnings."

Helping Farmers

"I would also like to point out that each year the Legislature authorizes expenditures and grants for the betterment of agriculture in the Province of approximately $2,000,000, and each year we authorize bonuses for the construction of rural Hydro lines approximating $1,000,000 and the taxes required to pay for this along with other like expenditures, are paid to a great extent by the working people of the urban centres. I have yet to hear a complaint from these people because they were being taxed to assist their fellow-men in the rural sections, and I believe that the vast majority are willing to be taxed even further, if it will help to improve the general situation in the rural areas."

The "unusual contribution" made this winter by the Dominion Government, and assisted in by the Provinces and the municipalities, was he contended, "an evidence of the sympathy and the desire of the people of Canada to help those who are in need and distress. Although" he added, "this is the only method under which help could be supplied under the circumstances, looking into the future, the question arises: 'Is there not a more practical and equitable method that might be employed?'"

For the first time in its history a British tobacco company last year had a net profit of $50,000,000.

Mrs. John Brady of Dundee, Scotland, who recently gave birth to three boys, has applied for the King's Bounty, awarded for large increases in families.

WOMEN OBSERVE DAY OF PRAYER

Prepared Programs Are Followed by Stirling and Springville Women.

CHURCHES ARE UNITED.

SPRINGVILLE, Feb. 25. (Examiner Correspondence). — The Springville W.M.S. met on Friday afternoon at the home of Mrs. J. Grandy for their "World's Day of Prayer" service. Mrs. (Rev) Moyer presided in the absence of the president, conducting a beautiful service of consecration and prayer with thirteen members of the Auxiliary in attendance.

The prepared program was used with only a few variations. The prayer song 'Prayer Changes Things' was used by way of introduction.

A beautiful vocal duet was given by Mrs. Grandy and Miss Southam. Miss A. Brown gave a reading entitled "Cancelled Prayer."

Those taking part in the prayer service were, Mrs. H. Young, Mrs. J. Grandy, Mrs. H. Rowan, Mrs. M. Johnston and Mrs. S. H. Moyer. Others who were to have taken part were unable to attend owing to sickness in the neighbourhood.

At the close of the meeting dainty refreshments were served and a hearty vote of thanks was extended to the hostess.

The March meeting will be held at the home of Mrs. S. S. Staples.

AT STIRLING

The Women's Missionary Societies of Stirling convened in St. Paul's United Church on Friday afternoon to observe the World's Day of Prayer with Mrs. C. Lansing presiding.

An intercessory spirit was manifested throughout the service which opened in silent prayer.

Representatives from the following auxiliaries were present: St. Andrew's, Presbyterian; St. Paul's, United; Mount Pleasant, United; St John's, Anglican.

On the platform were Mrs. C. Lansing, Pres., St. Paul's; Mrs. F. Joblin, Pres., Mount Pleasant; Mrs. A. Fargey Pres., St Andrew's; Mrs. H. Alger, Pres., St. John's.

The following ladies led in prayer: From St. Paul's—Mrs. (Rev) E Rowland, Mrs. (Dr.) C. Walt, Mrs. Robt. Christie; from Mount Pleasant—Mrs. F. Joblin, Mrs. W. Potts; from St. John's, Mrs. H. Cooke, Mrs. Gould; from St. Andrew's—Mrs. C. Bailey, Mrs. A. Hammond, Mrs. J. Montgomery.

A pleasing trio, "The Lord is My Shepherd" was sung by Miss Mae Currie, Mrs. Lindenfield and Mrs. Macklin.

OBITUARY

ERIC LAMBERT ABBOTT.

MILLBROOK, Feb. 25. (Examiner Correspondence.)—The death of Eric Lambert Abbott, in his thirteenth year, eldest son of Mr. and Mrs. John Abbott, took place on Monday, February 23, following a comparatively brief illness with spinal meningitis. Less than three years ago Mr. and Mrs. Abbott lost one of their twin daughters from a similar illness. One brother, Hugh, and one sister, Meegan, survive.

The funeral takes place from the family residence, Tupper street, on Wednesday, at 2 p.m., interment being at Saint Pauls cemetery, Fourth Line, Cavan. The funeral service is private.

LIFFORD LINE

Mrs. Hopwood, of Bethany, was a recent visitor at the home of Mr. and Mrs. John Kerr, Eighth Line.

Lifford school was closed during the early part of the week on account of an epidemic of severe colds in the section.

"It tastes nice" said HELEN TROYER

● age 3 years

● *Yes! Here's cod-liver oil—that wonderful health-builder—in a form that children like*

MOTHERS, rejoice! There *is* a way to make children take cod-liver oil willingly. And if you want proof—just go to a child.

That's exactly what we did when we rang Mrs. Troyer's doorbell at 19 Silver Ave., Toronto, and asked if she'd let her youngster try Scott's Emulsion of Cod-Liver Oil.

"Of course, I will," Mrs. Troyer vivaciously replied. It was no secret to her that most children won't touch plain cod-liver oil.

Helen, pictured above, then took some Scott's Emulsion. "Oooh," she smiled, "it tastes nice."

Pleasanter to take—but that isn't all!

Pale, thin, run-down children—they need cod-liver oil. Give it to them the pleasantest way—give them Scott's Emulsion.

Scott's Emulsion hasn't that strong "fishy" taste. It brings you purest, Norwegian cod-liver oil in its pleasantest form—a perfect emulsion. Easier to take—easier to digest. You get *more* good out of Scott's Emulsion and you feel the benefits *quicker*.

Scott's Emulsion contains no alcohol. It is rich in vitamin A, the growth-promoting vitamin that helps guard against disease. It is rich in vitamin D, the sunshine vitamin that prevents rickets. It also contains vital minerals that aid in forming sound bones and teeth. This gives Scott's Emulsion a special advantage for growing children, infants, nursing and expectant mothers. Get Scott's Emulsion at your druggist. Sales Agents: Harold F. Ritchie & Co., Limited, Toronto.

SCOTT'S EMULSION OF VITAMIN-RICH COD-LIVER OIL

Pleasanter to take—Easier to digest

Mr. and Mrs. Victor Grandy of Fleetwood visited Mr. and Mrs. D. N. Mills on Thursday evening.

At the February meeting of St. Mary's Women's Guild held at the home of Mrs. Lloyd Staples, the kind invitation of Mrs. A. B. Sisson to hold the March meeting at her home was gratefully accepted.

Mr. Cecil Tims is busily engaged in operating his circular saw in the neighbourhood.

The sad news reached relatives here of the death of Archibald Wilson of Niagara Falls.

Born, to Mr. and Mrs. Harry Shea, Fleetwood, a son.

Born, to Mr. and Mrs. David McLean, Eighth Line, a daughter.

Eagle Brand *saved the life of this child!*

THIS little chap's very life was despaired of. Food after food was tried and then the family doctor ordered Eagle Brand . . . He picked up from the first day, and now he's strong and sturdy and his mother's pride and joy.

This is only one of countless instances where Eagle Brand has come to the rescue. Since 1857 it has been used by hundreds of thousands of grateful mothers, with unqualified success.

Eagle Brand is pure, fresh, full-cream milk, modified with the addition of refined cane sugar. It is easily digested and is one of the best substitutes for mother's milk.

Send us your name and address and we will gladly send you full authoritative literature on child welfare.

THE SPEED LIMIT REMAINS.

Premier Henry has announced that the speed limit for automobiles in Ontario will remain as it is for the present, this statement being made in answer to a report that the limit was to be done away with.

There are two schools of opinion in regard to this matter and both of them can make out a strong case

Many drivers are firmly of the belief that motoring conditions would be safer if the speed limit were to be abolished and motorists held to strict accountability for the manner in which they drive, having regard to the existing conditions.

They point out that while a speed of 60 miles an hour might be safe on a main highway at certain times a speed of ten miles an hour on the other hand would be reckless driving under other circumstances.

There are other motorists, however—and the government is apparently in accord with them—who fear the effect of removing the speed limit; they are of the opinion that the mere fact that there is a legal rate of speed set forth by the regulations has at least some effect as a deterrent and they dread the reaction that might be caused on the part of some drivers by an announcement that the speed limit had been removed.

It may be that there will eventually be a change of heart on the part of the Ontario Government, but for the present you are breaking the law if you drive faster than 35 miles an hour in rural Ontario.

MASS CARELESSNESS

A significant item in the annual report of Chief Constable Sam Newhall calls attention to the fact that no fewer than 231 cases of doors or windows, principally of business premises, being found open or insecure were reported by the police last year.

This was 71 greater than during the previous year and it indicates a remarkable carelessness that might easily have resulted in heavy loss.

Chief Newhall indeed says that in a number of cases the indifference of those concerned continued even after the police had got into touch with them, for instead of reporting at their place of business when informed it had been found often they contented themselves with instructing the police to close the place up and then went back to bed again.

An occasional failure to lock a door is to be expected, but when there are several hundred such omissions every year, there is a mass carelessness shown that adds greatly to the work of the police and undoubtedly proves of considerable assistance to the light-fingered and the unscrupulous.

It should be somebody's job to see that business premises are securely locked up every night, and certainly there is no excuse for the increase in the number of such places found open during the night.

THE COST OF GOVERNMENT.

Most people are painfully aware that the cost of government has been steadily growing in this country, but in spite of that fact it will be surprising to learn from the latest figures issued by the Citizens' Research Institute that in the period 1926-1929 the increase in the average per capita cost of provincial government in Canada has been 27.2 per cent.

During 1929, on the basis of the Institute's compilation, the cost of provincial administrations increased in every province in Canada except Nova Scotia.

The average per capita cost, after deducting revenues from the Dominion Government was $116.14 last year as compared with $14.95 in 1928, an increase of 8 per cent. The figure for 1927 was $13.34, for 1926, $12.89, and for 1925, $12.69.

It is interesting to study Ontario's expenditures on the per capita basis and classified according to the activities performed.

The figures show that last year it cost this province $3.21 per head of population for debt charges, $3.62 for education, $1.86 for legislation and general government, .86 for the administration of justice, .63 for agriculture, $3.08 for grants, and $1.86 for highways, bridges, etc.

In the matter of net per capita expenditure from local sources, Ontario makes a better showing than any other province except Nova Scotia, comparing 1929 with 1925.

The percentage of increase in this province was 18.9 per cent, which was the lowest in Canada except the 9.5 per cent increase reported from Nova Scotia.

MORE POLICE ASKED FOR.

In urging the addition of three more constables to the local police force Chief Constable Newhall gives a number of most important reasons why the department should be reinforced.

More policemen are needed, he points out, to give protection to outlying sections of the city, to properly relieve the existing beats, to try and meet the increasing demands regarding traffic and to make it possible for members of the force to enjoy a Sunday or a night off occasionally.

His Honor Judge Huycke, chairman of the Police Commission, emphatically endorses the request of the Chief Constable for a larger police department, declaring that it is a disgrace to the city to have such a small force and that the citizens are to blame, if they are only getting half the police protection they should receive.

There is no doubt that Peterborough, compared with other cities of its own size, has been getting by with a police department numerically below the standard considered by other municipalities as necessary, both from the viewpoint of safety and efficiency.

The usual proportion is one officer to every 1,000 of population, a basis which if followed here would mean ten more constables.

Chief Newhall is merely asking for three, not ten, and his request is not one to be lightly dismissed.

It should not be difficult for him to show not only that his department is under-manned as compared with other centres, but that in the matter of salaries it is one of the lowest paid law enforcement organizations in the province.

The Police Commission has already accepted the Chief's suggestion and has decided to recommend the appointment of three more officers.

POLICEMEN'S SALARIES.

Why is it that most city councils throughout the country never hesitate to appropriate money for their fire departments and are so niggardly in voting money for their police? This is a strange thing, but, nevertheless, it is a fact. Possibly the glamour of the fire waggons dashing through the streets awakens a certain amount of excitement and sympathy which does not apply to the police department or possibly it is owing to the rapidly disappearing idea that the police are natural enemies of the public. But it is a fact and when fire chiefs with gold buttons on them as big as collection plates appear before the city council for money, they generally receive it, at least in most cities. The Gazette is not out to belittle the efforts of any fire department. It believes that they have a niche in the machinery of every town which renders them imperative. They are there for the preservation of property from fire and when that is done their duty is done

Sometimes—very rarely—the firemen have to imperil their lives while carrying on what we believe that when the occasion arises they gladly do so, but that occasion, as we said before, very seldom comes to the front

A short time ago in Saskatoon, a policeman was shot to death and later on another officer in the same city was seriously wounded. The citizens of that Saskatchewan city started to sit up and take notice then, to the danger which their police force faced. Before that they had been rather niggardly in their appropriations and when Chief Donald had asked for additional men, these had not been granted. Right here we may say that the chief of police of any place knows the number of men he needs to properly protect the citizens. None of them will ask for an excessive appropriation but only for an amount necessary so that they can cope with conditions which arise from time to time. But it takes a lesson of an officer killed and another officer wounded before a city will loosen up its purse strings. Another case in Toronto was where a young officer by the name of McQuillan stepped up to a passing motorist with a request for driving license and was greeted with a revolver which poured five shots into his body, killing him instantly. Whether it is because we are having the pleasure of visits of the surplus gunmen of the United States or not, naturally, we are not in a position to tell but it is peculiarity that the young man who shot down Constable McQuillan and the man who was arrested in Saskatoon were both born in the United States. An American magazine in a late issue made a statement that over one-half of the adult population of the United States carried a gun and possibly Canada is feeling the effects of it. We have had, fortunately, very few cases of law officers being shot in Canada, probably because we hang our murderers promptly but nevertheless, strict laws against the carrying of guns should be incorporated in the Criminal Code whereby it should be compulsory on a judiciary to lash the toter of lethal weapons as well as giving them a long term in jail No fine should be stipulated as an alternative but severe punishment should be given for violation of that section of the code.

We have rather wandered from the main subject though, that is, the firemen and the policemen. When a policeman goes on his beat at night, he has to take his flashlight and examine the doors of different businesses. This does not apply to the front doors only, because he has to go back into the alley-ways and by-ways of a big city and make sure that all premises are locked tightly, after which he has to patrol that portion of the city placed under his protection for the remainder of his day or night, as the case may be. Most of the underworld creeps out of their quarters at night and most of the crimes are committed after dark. In fact, most criminals sleep during the day not daring to face honest men. The constable, therefore, on duty in examining these doors may surprise one of these men and the latter is not going to jail, if he is a gunman, without shooting it out first. The result is that an officer with his gun in his pocket and only his flashlight in his hand, falls an easy prey to the predatory individual looting some citizen's property. This is a condition of affairs that no fireman ever faces. The criminal, himself, pays no attention to a fireman, and it is doubtful if the latter would ever seek to usurp the functions of a policeman and try to make an arrest. That is not his business. His occupation is to fight fire and when that fire is put out., his duty is done to the public. Don't forget, too, that the policeman has to patrol his beat at night for eight hours. During the dark hours he has to ring in the central station every half hour. If there is not fire, the fireman sleeps and his hours are those of relaxation. The policeman takes his life in his hands every time he goes into dark alleys to protect the citizens. He it is, who, when he sees signs of a fire, calls the firemen out. To do all these things, he must be ceaselessly alert and on the job at all times. There are a few cities in the Dominion of Canada who realize this, but most of them grudgingly make their appropriations for their police department and whenever their finance committee gets together they try to few the request of the chief constable down to a minimum. In other words, they seem to have an idea that their police are over-paid and over-manned. Thy do not know what that force is up against, but criminals do and they take advantage of it at every opportunity That is the reason why Canada has more crime than it should have—through parsimony, stinginess and pig-headedness of its own city councils and police commissions.

We trust The Gazette has placed the status of the two major departments before our readers and we believe that if those responsible in every community only took the trouble to investigate, they would in the future insist, first of all, on the protection of the citizens' lives as against the protection of the citizens' property, because that is what it amounts to, and in protecting the citizens' lives, the police officers of every community take their own in their hands and face, with realization the truth, and that is, like Roy McQuillan of Toronto and the two officers of Saskatoon, they may meet a similar fate as happened in those two cities.—Canadian Police Gazette.

EDITORIAL NOTES AND COMMENT.

A new political party is predicted as the outcome of the annual convention of the Saskatchewan section of the United Farmers of Canada, now in session.

The big league ball clubs go South this week for spring training. It won't be long now.

Anyway the members of the municipal deputation had a nice day for their pilgrimage to Queen's Park.

The Red-Headed Goddess

By

ALICE ROSS COLVER

(Continued from yesterday.)

The outlook was indeed a grave one for the man who stared unseeingly out at the vast stretch of desert. His life was in danger, as were the lives of all other white workers anywhere in the territory. Not, he thought, with a wry smile twisting his anxious face, that Washington valued these insignificant lives—that was patent in their salaries—but she would care when she discovered, too late, that troops were needed, that the long weary work of a few unsung heroes and heroines had crashed to the ground, that a new system of Government control, requiring a stronger police force, more agents and, inevitably, more expenditure of money, must result out of the wreckage of this one. But she would find out all these things too late to help him.

'Quell Indian unrest. Sending Investigation Committee." Bah!

There was a knock at the door. Smith whirled nervously, cleared his throat and called out an order to enter, as he went back to his desk where his revolver lay in a drawer. He had not heard the moccasined tread of six Navajo Indians, who represented the largest and strongest tribes among themas they crossed his porch. They filed in silently and stood in a row before his desk, picturesquely blanketed, erect, impassive.

Smith gave them a greeting and proceeded to light a lamp, which he placed so that it was shown directly on the dark faces before him and left his own in shadow. For a moment nothing was said, then Silver Tongue stepped toward the desk and faced the man seated there. He knew Nahtahni. It was at this school he had lived for three years, and during the third year this Nahtahni had been Chief here. So Silver Tongue was the interpreter.

"We have come as we said," he announced. Smith nodded an acceptance of this but said nothing. Silver Tongue pursued softly. "Nahtahni Vezzi has heard from his white father in Washington."

Smith's hesitation was scarcely perceptible. "No" he replied, with his eyes held as though fascinated on the ball of yellow paper before him. 'Not yet." Washington didn't know. Washington didn't realize. By heaven, he'd make them, back there in their safe little pigeon holes. He'd make the wires hot! Little beads of perspiration jumped suddenly out on his mouth above his faintly twitching lips. He wiped them away.

Silver Tongue watched him in grave composure, his eyes following Nahtahni's fingers as they crept slowly forward on his desk, reached the yellow ball and dropped it casually —too casually—into the basket by his side. Ah! Silver Tongue knew what that crumpled slip meant Nahtahni had received word, but it was not good word. He intended to talk to Washington again on the white man's magic wire

He withdrew with the Indians to hold a conference. Nahtahni said he had not heard. Many times he had said that now. Too many times. How much longer would the Navajos wait? How much time would they give Washington to return to them the Hopi lands that were rightfully theirs? Smith listened to their brief gutteral grunts, sickly aware of a crisis and his own utter helplessness. Would they believe him this time? Would he be able to stall for a few days more? Would they suddenly whirl upon him, their patience at an end, and take matters into their own hands? He strove to understand them, but only a word or two here and there was intellible It was easier to comprehend better a threatening gesture and that unanswerable final folding of their arms stolidly across their chests under their swinging blankets. Some decision had been reached. Smith quaked inwardly as Silver Tongue faced him once more.

"Nahtahni Yezzi knows that Silver Tongue is his friend. Silver Tongue has been with Nahtahni his last two moons in the school here Silver Tongue has learned to trust and like Nahtahni. But Silver Tongue is also the friend of his red brothers. Silver Tongue's heart has not changed. He does not wish to see harm come to Nahtahni, but he also wishes to see justice given to his Navajo friends and brothers."

As the young Indian paused, Smith nodded, nearly beside himself at this lengthy introduction, but knowing an Indian cannot be hurried. He must talk as he thinks proper. An intelligent fellow, Silver Tongue, but it was as he had said. His civilization was all on the surface. Nothing had penetrated beneath the skin. The Indian proceeded:

"Because Silver Tongue knows Nahtahni Yezzi, and has been his friend, he has persuaded his red brothers to wait a while longer for Nahtahni to get the good word from Washington. Until the time of the Mountain Chant at the uprising of the next moon we will wait. If by that time the white man's father has not sent word that the cornfields belong to the Navajos, Cloud-in-the-Face will ride swiftly upon this agency with his braves, as was done in the days of our fathers and our father's fathers. And Cloud-in-the-Face will then be Nahtahni, ruling over the Hopis 'as they should be ruled."

Something fierce and gleaming lit the faces of the statuesque Indians. "—as did our fathers and our fathers' fathers—' What pride lay in those words! What arrogance and cruelty and hate!"—and Cloud-in-the-Face will then be Nahtahni Here was a quiet threat of great violence, of horrors unguessed. Smith wet dry lips as Silver Tongue finished "I have spoken."

"Nahtahni thanks Silver Tongue and rejoices in his friendship. That is as it should be between the white man and the red man The white father in Washington wishes to be friends with Silver Tongue and Cloud-in-the-Face also. But the white father has much business besides his business with the Indians. Tell Cloud-in-the-Face that Nahtahni will do everything possible to get the good word from Washington before the uprising of the next moon, at the time of the Mountain Chant."

Silver Tongue nodded. There was another swift exchange of words among the Indians, then they moved swiftly and silently out of the room.

They rode away into the darkness slowly, until they had gone several miles, to the base of Rattlesnake Hill Here they halted in a circle and Cloud-in-the-Face became the speaker.

"We have told Nahtahni Vezzi all that our people will do. We have told him also when they will do it. And Nahtahni understands. Let us go, therefore, now, each his way, and I spread the word that all must meet at the Mountain Chant place on the uprising of the next moon. Let us say that the braves must be prepared to ride like the wind on the tenth day, after the nine days of chanting, upon Nahtahni's stronghold. If then Nahtahni has not had the good word from Washington all will be in readiness. Let Nahtahni learn, and his white father at Washington, that, unlike the Great White Father, the red man does as he says."

'Nahtahni is very scared man," said Silver Tongue. "The white man's father in Washington is not as great and good and kind as Nahtahni would have us think. The white father does not care much what happens in the desert to Nahtahni and his other servants. He does not believe the Navajos will go on the war path as of old, because it is not pleasant thing to believe It will mean trouble for the white father to believe it It will mean money for the white father to believe it. And the white father does not wish to scatter his gold to be lost in the desert sands. All these things I have learned in the school and in my visit to the land of the rising sun where the white father lives."

The others listened attentively.

"You do not then believe the white father will send the good word?" questioned Cloud-in-the-Face.

Silver Tongue shrugged.

'Washington has said once that the cornfields belong to the Hopis. It is a difficult thing for Nahtahni to change Washington's mind when Washington does not want his mind changed, when Washington wishes to only forget Nahtahni Yezzi and all his Indian people, when Washington wishes his mind to be as empty of thoughts regarding the Indians as the desert is empty of water."

"Nahtahni is not a strong man," concluded Cloud-in-the-Face, reflectively "He is only a mouth for Washington. Is that so?"

"That is so," agreed Silver Tongue. "He is only a mouth. His legs and arms are bound, and there are many knots in the rope. I do not believe the good word will come. If the Hopi cornfields are to remain in our keeping we must fight."

Cloud-in-the-Face flung up his arm.

"Then we will fight?" he said, and whirling his horse, he galloped out of sight into the night.

Red Jim's chair, with Red Jim in it, staring out over distant desert spaces, was tipped against the outside of his house in its shadow. It was midafternoon and the sun was boiling hot—too hot for effort of any kind, even too hot to turn on the radio. Red Jim slumped lower in lazy comfort, and the smoke wreathed up slowly past his face as he tried to make out whether the minute black speck he saw was a horse or a car.

It was here that Chin Lee found him as he had often found him In the beginning he had been afraid to intrude on such intense preoccupation, but, as he had lived with the white man he had learned he was less formidable than he appeared, and a curious companionship had grown between them. So now he slid without a word into the shadow made by the great man's figure, pulled forth his long pipe and proceeded to smoke also. In a short space of time he ventured to break the silence.

"You see desert, Mebbe?"

"I see life, Chin Lee."

"You think life has nothing in it like desert?"

"Life is a dream, like the desert, Chin Lee. Life is a promise, like the desert. It allures and beckons, and you go on and on, sure something is ahead. But you never get there to find it, Chin Lee."

'Hmm. Mebbe so."

They smoked awhile.

'You laugh at desert. You laugh at life," ventured Chin Lee.

"Knowing both will get me in the end."

"You not scared?"

Red Jim shrugged.

"It's too simple. It's too inevitable Chin Lee, I can't find first-grade words for you. Why be afraid of something you know is there, even if you can't see it? Why be afraid of something you see is there, even if you never know it?"

Chin Lee nodded.

"You see desert, but you don't know desert. Desert is life and death all together. What you know bout desert is all roun' cabin—little. What you don't know hide away—away—" he gestured widely. "But allee same you happy. You no care. Desert choke you mebbe, blimeby. You wait and play Indio—till choke come. Eh?"

"Exactly, my philosophical cook; and now what have we for supper? For as sure as the hen laid two eggs, there's company on the far horizon."

"Clumpn'y? Clumpn'y? Chin Lee squealed and scrambled to his feet, staring excitedly all about. "Lairplane people find us, mebbe?"

"I begin to be afraid those airplane people met their 'choke' in that sand storm that hit them soon after they landed, Chin Lee. You know we couldn't find a trace of them, or even their plane, the next day. No, this is an Indian coming."

"Ungh. Lindian." Chin Lee grunted, and sank disconsolately on the sand. "Me no give laigs Lindian."

"We haven't had much luck keeping our eggs you know," Red Jim reminded him. "They have their revenge on us every time. Make an omelet, Chin Lee. It may appease the Indian so that he won't hurt us this time."

Chin Lee's eyes popped.

"He corre killee, you tlink?"

"You never know." Red Kim spat far, and stretched. "You never know."

Chin Lee edged like a crab away around the side of the cabin

"You flind out. I go make olmlet. You flind out. If he no killee, you call I come."

"Fair enough. Chin Lee. If you weren't a Chinaman. I'd call that a damn good Yankee arrangement."

He smoked on in perfect quiet, his eyes never seeming to leave the dark figure of the horse and rider, yet he was well aware that there was a storm on the way, one of those unheralded desert storms apparently none the wetter for a downpour that would have rivaled in intensity, if not in duration, those in the days of Noah. And the Indian was racing the storm to Red Jim's shelter.

FELLOWSHIP OF PRAYER

DAILY LENTEN DEVOTION

PREPARED BY THE REV CLARENCE H WILSON, D.D. FOR THE COMMISSION ON EVANGELISM OF THE FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA

Feb. 25, 1931.

THE TEMPTATION OF AMBITION.

"Thou shalt worship the Lord thy God, and him only shalt thou serve."—Luke 4:8. (Read Luke 1:26-33 and 4-5:8.)

Meditation

A successful man has described ambition as "thinking big", and says "it is as easy to think big as to think little." Jesus was thinking big that day in the wilderness. A great program unfolded before His mind's eye. Then came the subtle temptation. How should He go about His great task? Should He employ the means to a quick achievement? And He said, No. He would not be disloyal to God. Success was secondary to being right. Henry Clay said he would rather be right than be president. Very often the choice has to be made between being successful and being right: there are crises in life when one cannot be both Unfortunately for our young people the importantce of success is too much emphasized.

THE REV CLARENCE H WILSON, D.D.

Prayer

Out Father God, guard our thoughts against the illusion of evil ways. In faithfulness to Thy laws renew our strength. In Jesus' name. Amen.

CANADIAN, U. S. NOTABLES ATTEND FUNERAL OF BISHOP M. F. FALLON

What To-day Means To You

"PISCES"

If February 25th is your birthday, the best hours for you on this date are from 10:30 a.m. to noon, from 4 p.m. to 5:30 p.m. and from 7 p.m. to 8 p.m. The danger periods are from 7 a.m. to 8:30 a.m. and from 1:30 p.m. to 3 p.m.

Astrological influences on February 25th will be inspirational, and it would be wise to follow your own intuition, rather than to regard the advice of others. Do not be timid! The plunger will meet with success. The frame of mind will be combative and headstrong, and you should be able to break through difficulties which have hitherto hindered you.

The child born on this February 25th will have an adantable nature, pleasing manners, and friendly ways. It will have an optimistic outlook upon life, and there is a bright future in store for it. It will love adventure, and have considerable courage, mentally and physically.

Indecisiveness is the keynote of your nature, and you are always undecided how to act, and always waiting for an opportunity. You are hampered with an over-abundance of self-esteem and approbativeness, which makes it difficult for you to admit your failings. Pisces has long been called the sign of "self-undoing," and it may be said that your life will be symbolical of this sign of the Zodiac. It is your own nature, and not outside influences, which handicaps your progress.

Possessing very strong emotions, you become much attached to your friends, and you are always ready to accept their advice and opinion, and to act upon it whenever possible. You love to live in a world of romance, and are fond of sensational reading, the "movies," and light conversation. You are very hospitable, and endeavor to make others comfortable and happy. Like most Piscurians, you are a good traveller—new faces and new places make an appeal to you You like to taste the good things of life, and you have a capital idea of enjoying yourself.

You have a generous disposition, and you dislike to hurt others. You are slow to anger and hard to appease. It is not likely that you will stick to any one pursuit long enough to become master of any trade or business. Discontent will mar the serenity of your home life, although you will experience periods of happiness. (Copyright, 1931, The Bell Syn., Inc.)

SEEK PASSENGER FLIGHT RECORD.

LOCKPORT, N.Y., February 25 (C.P.). — Two men, a woman and a 13-year-old boy took off from here to-day in a seven-passenger plane for the Pacific Coast in an attempt to establish a record for trans-continental passenger-carrying flight.

The plane was piloted by Lieutenant Allen Van De Mark. The passengers were William Lee, owner of the plane and president of the Lockport Felt Company, Mrs. Lee and their son.

Messages From All Over Continent Pour in to Ecclesiastical Officials at London.

HELD FRIDAY MORNING.

LONDON, Ont., Feb. 25.—While bright candles, symbols of holy faith, flicker around the bier in the private chapel at "Blackfriars" where lies the body of Michael Francis Fallon, clad in full pontificals and with the mitre of his high office as Bishop of London on his head, messages of sympathy from all over the Continent are pouring in in a continuous stream to ecclesiastical officials in London.

This afternoon Rt. Hon. W. L. Mackenzie King telegraphed from Ottawa his condolences to the Diocese. Mr. King will not be able to attend the funeral but will likely be represented.

Lieut.-Governor W. D. Ross of Ontario has wired that if at all possible he will be present at the funeral services on Friday morning.

Church dignitaries from as far away as Oklahoma will journey to London to present their respects to the memory of Bishop Fallon.

Bishop Kelly of Oklahoma City will arrive in London on Thursday evening, as will Archbishop M. J. O'Brien of Kingston.

The time for the arrival of Mgr. Andrea Cassulo, Papel Delegate, has not been announced as yet. His Excellency will say the solemn Pontifical High Mass on Friday morning

Other Bishops who will attend are Bishop Ryan of Pembroke; Bishop Turner of Buffalo; Bishop O'Connor of Peterborough.

This list is not complete as yet.

WINDSOR COUNCIL LOSES APPLICATION

TORONTO, Ont., Feb 25 (CP)—Mr. Justice Sedgewick in a judgment handed down at Osgoode Hall dismisses the application of William George Curry to quash a resolution of the Windsor city council of Jan. 9 1931. This resolution provided an amendment to a former resolution of Dec. 22, 1929. in which Judge Coughlin was appointed to investigate elections held in Windsor on Dec. 1st, 1930, made by Councillor Clyde W. Curry. The amendment asked that Clyde Curry who had said the investigation would cost $2,500 provide an indemnity bond of $15 000 to guarantee the cost of the investigation in excess of the amount of $2,500.

QUEENSBORO

Mrs. Wallace Kincaid is visiting her sister at Detlor, who is ill.

Mr. and Mrs. Harry Delyea celebrated the twenty-fourth anniversary on Friday evening and entertained a number of their friends at tea.

The Misses Hogan of Millbridge are the guests of their sister, Mrs. George N. Foley.

Alexander Colhoun of Ballynailly, Ireland, recently killed a fox with a small stick.

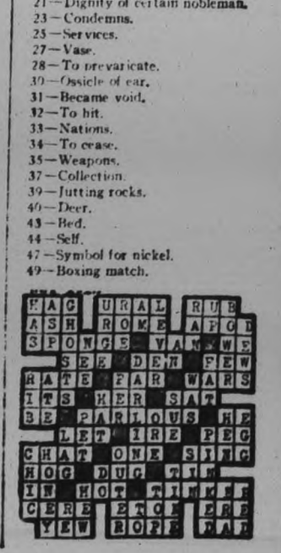
49—Boxing match.



Three Strikers Held After Mill Walk Out

LAWRENCE, Mass., Feb. 25 (C.P.)—One woman and two men were arrested to-day as the whistles of three of the American Woollen Company mills sounded an unheeded call to the thousand of striking workers.

A general strike was on at the Wood, Ayer and Washington mills. Some mill hands showed up at 7.15, went inside, stayed a short time, and came back to the street when the mill agents announced that there were not enough men on hand to run the looms.

CECIL WASSON READS INTERESTING PAPER

Pleasing Program Given at Meeting of George Street Y.P.A.

The regular meeting of the United Young People's Association on Tuesday, February 24th, opened with the singing of "O Canada" after which Miss Isabel Mackay took charge of the devotional exercises.

The purpose of the meeting was to acquire a greater knowledge of India and with this in mind Cecil Wasson gave a paper on "Gandhi" who is now receiving world-wide attention. Rev. J. E. J. Millyard delivered a splendid address on "India", pointing out the various interesting facts concerning this country which is in the public eye so much at the present time. He discussed its form of government, the caste system its religious and social problems. Mr. Millyard's talk was most instructive and the interest the members displayed was conclusive evidence that it was appreciated.

A reading by Miss Evelyn Mason and a vocal solo by Jack Trotter were also greatly enjoyed.

The recreational period under the direction of Miss Helen Burns then took place. During this time the members participated in a grand march, relays, and games.

The meeting closed with the National Anthem.

COUNT OF PARIS LOSES HIS HEART

Pretender to French Throne Will Wed Princess Isabella.

COURT NEAR BRUSSELS.

BRUSSELS, February 25 (C.P.).—Another royal romance became known to-day with the announcement of the engagement of the Count of Paris, only son of the Duke of Guise, Pretender to the French throne, to the Princess Isabella of Orleans-Braganza. The date for the wedding was not made known.

The Duke of Guise succeeded his cousin, the Duke of Orleans, as Pretender to the French throne in 1926, and therefore, under French law, neither he nor his son may live in France. Their "court" is kept at the Chateau D'Anjou at Woluwe, near Brussels.

The Princess Isabella, who was born in 1911, is the daughter of Prince Louis Phillippe of Orleans-Braganza, who was born near Rio de Janeiro, and was Pretender to the Brazilian throne until he renounced his rights in 1908.

MINE LIST FIRMS FOLLOWING WEAK OPENING IN FAVORITES

International Nickel Practically Unchanged at 19 But Noranda Sells Up a Quarter.

TECK HUGHES EASES.

TORONTO, Ont., Feb. 25. (CP)—Action on the mining market in the forenoon to-day was of a mixed character, recessions appearing in the leaders during the first hour, to be followed by firm recoveries in several instances towards mid-day.

International Nickel was practically unchanged around $19, while Noranda sold up a quarter at $18.25. Ventures lost a cent or so, but other Lindsleys were still buoyant, Sherritt and Sudbury Basin selling up a cent apiece. Small losses appeared in Abana and Waite.

Lake Shore regained a quarter to $25.75, but Teck Hughes eased 5 to $6.85 and Kirkland Lake gold a couple to 63. Higher-priced golds generally were quiet. Bobjo featured the penny group, price moving over 8 under good buying. Ritchie was off a fraction, and Bidgood, which accounted for one-fifth of yesterday's trade, was holding.

Chemical Research dropped another quarter to $4.50 and Nordon sold down a few cents at 31. Home Oil was up 5 at $1.15, Acme a fraction and balance of the oils steady.

TORONTO LIST PRICES STEADY

C.P.R., Ford of Canada, Walkers Approximately at Same Level as Last Night.

STEEL OF CANADA AT HIGH.

TORONTO, Ont., Feb. 25 (CP)—Slower trading marked developments on Toronto Stock Exchange this morning. There were no severe reactions as cushioning orders took care of the profit taking liquidation but the disposal of stocks halted the march forward.

Most of the leaders at various times during the morning sold under last night's close. However, such recessions were small in degree and at mid-day prices were mostly unchanged. Nickel, Noranda, C.P.R., Ford of Canada, Walkers, Distillers, Bell Telephone, International Utilities "B" were appropriately at the same levels as last night. Dominion Stores was easier and sold down to 20, Brazilian gave way a small fraction, Goodyear common lost 3 points and at one time was down 5, Durant Motors eased ¼ point and the oils were irregularly lower.

Steel of Canada touched its high of 42 and at mid-day showed a small net gain at 41⅝.

Irregularity Streak On Montreal Exchange

MONTREAL, Que., Feb. 25.—Trading on the Montreal Stock Exchange this morning took on an aspect of irregularity with several of the recently strong issues yielding part of their gains. In this group were Brazilian Traction, off ½ at 26½; B.C. Power "A" off 1 at 40¾; Smelters, off 1¼ at 177½; and Canadian Pacific and Bank of Commerce down slightly.

Massey Harris, National Steel Car, Power Corporation, Steel of Canada, National Breweries, Montreal Power, McColl Frontenac Viau and Bell Telephone gained slightly while Dominion Bridge ran up 1¼ points to 50¾.

FRUIT GROWERS'

(Continued from page one)

the apple industry in Ontario. He declared that the manufacture of brandy might be an outgrowth of the cider production.

Summer sprays and spray practices was the subject of an address by Dr. H. W. Dye of Middleport, New York.

The fruit growing industry from the buyers' viewpoint was discussed by Karl B. Conger of Ottawa.

"If we are going to succeed in this industry we must learn to know each other," Mr. Conger said. "We must have a clear cut channel from producer to consumer."

Continuing, he upheld the inspection system and scored heavily the type of buyer who refused delivery of fruit when he detected a change in the market.

Lever Brothers Report 1930 Was Record Year

TORONTO, Feb. 25.—P. Parnell Tyler, president of Lever Brothers, Limited, and a number of associated companies, has reported a record-breaking year ending December 31, 1930, surpassing in volume all previous years by a good margin and showing a very satisfactory profit.

It is interesting at this time of world-wide business depression to hear of the success of this company, whose products, entering into every Canadian home, have been purchased by the public at the lowest prices in the past fifteen years.

This should serve as a tonic to those of us who are inclined to think that business is bad everywhere in Canada, ignoring or being uninformed as to the excellent progress of many of our largest enterprises.

FOREIGN EXCHANGE.

NEW YORK, Feb. 25. (CP)—Prime mercantile paper 2½-2¾ per cent.

Foreign exchanges steady; demand rates (Great Britain dollars, others in cents): Great Britain 4.85¾, France 3.91 7-8, Italy 5.23 1-8, Germany 23.76½ Canadian dollar at par.

LIST TUMBLES WEAK SESSION AT NEW YORK

Utility and Amusement Shares Decline When Bullishness Becomes Too Violent.

AUBURN OFF SEVEN.

NEW YORK, Feb. 25. (CP)—The stock market spilled over again to-day, as it did a week ago when bullishness became too violent.

Utility and amusement shares turned decidedly weak, and large scale profit-taking appeared throughout the list. Toward mid-afternoon, some rallying tendencies appeared. The mid-week business statistics were in the main mildly constructive, but the erratic character of yesterday's upward move ment, topping off an advance uninterrupted for five consectuve sessions, led to the conviction in professional trading circles that the list was ripe for a corrective reaction.

Heaviness in the initial transactions was temporarily overdone for a time in the morning by vigorous bidding up of the merchandising issues, particularly the mail orders, but by early afternoon, losses of 2 to 5 points were numerous, and Auburn was off more than 7. At those levels, however, some support appeared. Allied Chemical and Eastman lost about 5 points, and issues off 2 to 4 or more included American Can, American Telephone, National Biscuit, Westinghouse Electric, Warner Bros. Fox Film, Loews, Johns Manville, International Telephone, Byers and American and Foreign Power.

CATTLE PRICES ARE LOWER FOR WEEK

Fair to Good Butchers Bring From $5.25 to $7.75 on Dominion Exchange.

TORONTO, Ont., Feb. 25.—(By the Canadian Press)—Cattle receipts, 797. Left overs totalled 300 heads. The opening trade on the Dominion Livestock Exchange to-day was very dull with prices 50c lower for the week on butcher cattle. Fair to good butchers brought $5.25 to $5.75 with a few choice at $6.00. Half a dozen prime heavy steers brought $7.25 fed calves made a top of $7.50.

Quotations—Steers, good and choice, $5.75 to $6.25, medium, $5.25 to $5.75, common $4.50 to $5.25, steers over 1,050 lbs. good and choice, $6.25 to $7.00, medium $5.75 to $6.25, common $5.00 to $5.50, heifers good and choice, $5.75 to $6.00, medium $5.25 to $5.75, common $4.50 to $5.00; fed calves, good and choice $7.50 to $7.75; medium $6.25 to $7.00; cows, good $4.00 to $4.50; medium $3.50 to $4.00, common $3.00 to $3.50. Canners and cutters, $1.50 to $2.50, bulls, good $3.75 to $4.25, commons $3.00 to $3.50, stocker and feeder steers, good $5.00 to $5.25, common $4.25 to $4.75, milkers and springers, $0.00

Calf receipts 152.

Calves were steady at $9.00 to $9.50 for choice with commons downward to $6.00.

Quotations—Good and choice veal $8.50 to $9.50, common and medium $6.00 to $8.25, grassers $3.50 to $4.50.

Hogs receipts, 1284.

Hogs were unsettled with the bids 25c lower at $6.50 F.O.B. for bacon or at $7.25 off car.

Sheep receipts, 152.

Lambs were steady at $9.00 for the best ewes and wethers with culls and bucks at $7.00. Good light sheep brought $5.50 to $6.00 per cwt. with cull downward to $1.50.

Quotations—Good ewe and wether lambs $9.00, medium $8.25 to $8.75; bucks, $7.00; culls, $7.00; good light sheep, $5.50 to $6.00; heavies $4.50 to $5.00; culls, $1.50 to $3.50.

SCHOOL PROGRAM IS WELL RECEIVED

Interesting Debate Features Social Gathering in Queen Alexandra School.

The kindergarten room at Queen Alexandra School last night was packed with admiring friends and parents of pupils taking part in a most excellent program prepared by the teachers of the school.

The main item on the program was a debate between the Junior and Senior Fourth Classes on the topic, "Resolved that money has more influence than brains." Roy Heard, Dorothy Morrow and Donald Ross upheld the affirmative for Senior Fourth, while Jean Kerr, Eric West and Helen Marshall spoke for the negative for Junior Fourth. The youthful speakers did exceedingly well, presenting their points in a clear, thoughtful way. The judges, Miss G. M. Moore, R. C. Flitton and A. T. Brown, gave the decision in favor of the affirmative.

Pleasing Program.

Mr. Park acted as chairman, and after a few words of welcome presented the following program:

Senior chorus: (a) "Huntsman's Chorus"; (b) "Come, Follow Me."

Recitation—Gwen Davies.

Vocal duet—Margaret Fletcher and Helen Doughty.

Vocal solo—Olga Westbye.

Playlet — "The Friendly Brushes," Bobby Graham, Robert Flitton, Walter Morrow, Merrill Smith, Horace Steer, Isabel Shurety, Margaret Marshall, Winnifred Grant, Peter Polly, Douglas Allison, Tom Montgomery, Adele Armstrong, Edna Borland.

Junior chorus—(a) "The Christ Child"; (b) "The Morning Glory"; (c) "The Caterpillar and the Bee."

Debate.

Trio—Donald Helson, Fred Helson, Robert Flitton.

Vocal solo—Ruth Parnall.

Senior chorus—(a) "There Were Three Merry Travellers"; (b) "Old Folks at Home"; (c) "John Peel."

O. M. Steer, in a happy, congratulatory speech, voiced the appreciation of the large audience to all who had made possible a most enjoyable evening.

Dainty refreshments were served by Mrs. Wray and Mrs. Parnall and members of the Association.

"Fox Of The Balkans"

EXILED CZAR ENTERS 51ST YEAR ON FEB. 26

On Feb. 26 Ferdinand, former czar of Bulgaria, and once called "the fox of the Balkans," celebrates his birthday anniversary in Cobourg, Bavaria, being 51 years old. This is a new and unusual portrait of the exiled sovereign who rumors say, is soon to become a grandfather following the marriage of his son, King Boris, to an Italian princess.

COMMODITY MARKET PRICES HIGHER THAN IN FOREPART OF THE MONTH

General Opinion is Worst of Low Price Periods is Over and That the Market Trend From Now on Will Be Irregularly Higher.

There has been a distinctly better feeling in the wheat and all other commodity markets during the past week, and despite a break Saturday of about 2 cents from early top levels, prices are still three cents higher than a week ago. The outstanding feature of the wheat trade has been the buying resistance which developed on moderate declines. While there was no material change in the situation, and export sales have shown no improvement, only running about 750,000 bushels daily, there has been a noticeable absence of pressure on the setbacks, and shorts were more inclined to cover on the least provocation. The market acts very nervous at times, but owing to the rather slow foreign demand, the longs are inclined to accept profits on all moderate upturns, but at the same time general sentiment is undoubtedly bullish for the long pull, and the general opinion is that the worst of the period of low prices is over and that the trend from now on will be irregularly higher. The uncertainties in the situation continue to be manifold. The three prairie provinces of Western Canada continue extremely dry and are causing some anxiety, although it is a situation that can be changed any time during the next two months. There is no snow west of the eastern half of Manitoba, and dust storms have been frequently reported from Saskatchewan and Alberta points. The U.S. winter wheat belt received slight precipitation the first part of this week, but there are many areas too dry for safety, while the Argentine weather is unsettled. Reports indicate that the European crop situation is mostly favorable, except in France and Belgium, where too much moisture has been received this winter. However, world's supply of wheat still overshadows the situation, but the action of the various world's markets suggests that the overload of supplies has to a large extent been discounted. European reports indicate that the consumptive requirements abroad will be heavier for a time, probably until new crop harvest, and should the 1931 crops be threatened seriously in any important quarter, it would induce more active buying. Wheat is still extremely cheap and it is possible that the disappearance of this grain the world over may prove to be much greater than expected. The waste, especially in sections where high freights and low prices have made it barely profitable to have grain threshed, will be another thing that usually goes to take the edge off the unusually large and low priced supplies. However, there is little in the situation to suggest that a normal supply and demand situation will develop for many months. Russia is again shipping quite freely for this time of the year, the movement of such proportions from that country being unexpected, as it was thought there would be little exported until spring. The export clearances from southern hemisphere countries are running quite normal in volume at present. Australian farmers are said to be selling wheat freely in spite of the low prices, but Australia is getting a large share of the eastern Asia orders and farmers are being helped by an export bonus. European stocks are presumably moderate and there have been recent intimations that on the continent the enforced use of a large percentage of native wheats in four mixtures has left supplies rather light. In France native wheat has advanced over three cents per bushel the past few days, and late reports from Germany indicate a much better flour trade, with some concern expressed over the possible exhaustion of native wheat supplies. The dry conditions existing throughout North American spring wheat territory should be watched closely. Naturally this situation can be quickly remedied by a week or so of heavy precipitation, but there is a potential bull feature in this situation and the course of the markets will hinge a good deal on the amount of precipitation which falls the next few weeks. Should the spring rains also be deficient it would afford a basis weather conditions shape up more definitely a two-sided market is to be expected.

Coarse Grains

Prices of these commodities have all made substantial gains during the past week, but the improved support has been largely of a speculative character due to the change of sentiment towards all commodities. There has been little or no change in the situation, and demand for oats, barley and rye is very slow. There is nothing in export channels, but Eastern Canada continues to take a few cars of oats and barley daily. For the week oats are 1⅜ to 2¼ higher, barley is 2 cents higher, and rye is 4¼ to 4⅝ higher.

Flax

This market has also advanced and prices show gains of 9⅛ to 8¼ cents for the week. This upturn was due to strength in outside markets and to an official reduction of 20 per cent in the Argentine flax crop. Trade volume continues moderate and rather featureless.

ROYAL ARCH CHAPTER OPEN 73RD ANNUAL SESSION IN NIAGARA FALLS

Change Anticipated on Grand Council—No Competition for Executive Committee.

DR. W. PRICE, PRESIDING.

NIAGARA FALLS, Ont., Feb. 25.—(CP) — The seventy-third annual convocation of the Royal Arch Chapter of Canada opened to-day with an attendance of nearly 400 from all over Ontario and parts of New York State. An address of welcome was tendered by Mayor C. F. Swayze, after which the sessions were closed and business started.

Dr. Walter Price, Port Credit, is presiding.

There will be no competition for the executive committee but a change is anticipated in the Grand Council composed of Dr. Walter Price of Toronto; Dr C V Raenschell of Hallebury; Alex Cowan, K.C., of Barrie; Edwin Smith, Grand Scribe of London.

For the position of Scribe, Col. Conover of Brampton, and Bert Stevenson of Hamilton are mentioned with James Elgie of London, for Grand Registrar. The position of Principal Sojourner will go to Dr. George E. French of this city.

For Executive Committee

Among the aspirants mentioned for the executive committee are Oliver Elwood London; M. E. Sherwood, Woodstock; John F. Marr, Guelph; J. H. Gardiner, Smiths Falls; G. H. Gardiner, Toronto; Col. W. Y. Mills, Kingston; A. D. McIntyre, Toronto; Frank Nesbitt, Iroquois Falls; William Donaldson, Atwood, A. A. Gray and H. A. Millar, Toronto; Beatty Arnold, Acton; Ed. Brennan, Niagara-on-the-Lake; Harold Thompson, Toronto.

For Grand Superintendents for the Toronto districts the names mentioned most prominently are those of George McCrae for the east, and A. E. Bryson and J. J. Everett, for the west.

The Knights Templar are represented by Sir Knight A. Bart, Barr Grand Master of the Great Priory of Canada and Sir Knight M. H. Eckhart, Grand Councillor. The Grand Lodge of Canada in Ontario A.F. and A.M. is represented by R. B. Dargavel, Grand Master and by W. H. Logan, Grand Secretary of Hamilton.

Campaigning Begins For Kingston By-Laws

Asking $366,000 For Erection of Technical Building to Present Collegiate.

KINGSTON, Feb. 25.—(Special to The Examiner). Campaigning is now going on in connection with three by-laws to be submitted to vote of the property owners on March 2nd. One is asking for $366,000 for the erection of a technical school building to be added to the present Collegiate institute, the whole to be a composite school. Towards the erection and equipping, the Ontario Government will provide $214,000 the city paying the balance. If the technical school is not approved then the citizens must pay for a $340,000 building to be added to the Collegiate Institute for academic purposes, the full amount of which must be borne by the municipality. There are two by-laws for fixed assessments: One for the Dominion Webbing Company and the other for Hield Bros., Inc., who purpose establishing a worsted mill in the Dominion Textile's plant here. The city is asked to buy the property at an expense of $75,000 the Heild Company paying five per cent. on the investment as rent for five years, with the option of buying at any time.

A vigorous campaign is being put on and the citizens are much interested in the outcome.

DEFINITE TRADE OFFER TO CANADA

(Continued from Page 1)

should be decided upon its merits. He contended that in joint action by Russia and Canada lay the sole hope of a solution for present conditions existing in the wheat markets of the world, and he scouted the danger of trading with the Soviet.

"The idea receives the support of the Argentine and Australian Government representatives in London. Only a few days ago Chairman Legge of the United States Farm Board, said that he could see value, with nothing to lose, in a wheat conference with Russia, he stated.

Russia's Advantage

Mr. Mackie continued:

"Tens of millions of bushels of wheat are grown within 200 miles of Black Sea ports, as against our wheat produced 2,000 miles from the sea. Russian grain is five days nearer to the Mediterranean markets, and naturally can be landed cheaply. Russian wheat is produced cheaply. For example, it should be borne in mind that the Soviet Government collects and markets the grain, as well as buying agricultural supplies for the peasants, thus eliminating all sorts of commissions, and effecting huge economies.

"If we don't make an agreement with the Soviet, the world will go on buying Russian grain. Recent and bitter experience has taught Canada that it is characteristic of foreign countries to buy in the cheapest markets.

"What is the alternative? If a successful embargo could be placed against Russia by all bread-consuming countries, it would be Canada's salvation. But that Britain, Italy and Germany, the very countries which are actively trading with the Soviet, should join the embargo is inconceivable. They are realistic enough to realize the potentialities of the Russian market for their goods and to appreciate the cheapness of Russian wheat.

Sinister Note of Tragedy.

"The present situation would be farcially comic if it had not a sinister note of tragedy for Canada. Russia is prepared, even anxious, to go a great distance towards establishing friendly relations with Canada. The Russians like us. If Canada wants a conference and a solution to the wheat problem, Russia will meet us half-way.

"Before we are to drift into a wheat war we should ponder upon Russia's resources.

"Out of a conference would come orderly marketing of the world's grain. We could strike a better bargain to-day than we will be able to do when the five-year plan is complete—and it is going to be completed. The idea could be extended to include agreements on the export of lumber and pulpwoods to the world markets.

"I appeal to the Canadian public to keep its head. When good times return the Communistic agitators will find something better to do and the anti-Russian voices will also subside.

Anxious to do Business

"I have it directly from Mr. Saul Bron chief Russian trade delegate to the British Empire, that the Russians are anxious to do business with us. During 1931 Russia is prepared to spend $10,000,000 in Canada for agricultural machinery, industrial equipment, and livestock, etc. The Soviet has not defaulted one cent of its obligations since it began its purchases abroad. This includes millions of dollars of credits in the United States, as well as importations under varying government guarantees from Great Britain, Germany, Australia, Italy, and Norway.

"The Soviet offers to do business with Canada on a three-to-one basis three dollars bought in Canada to one bought in Russia. She agrees to export nothing here competing with Canadian products. Russia's main hope of exports to Canada lies in anthracite coal of domestic sizes. This could not possibly compete with Nova Scotia coal, but only with American importations."

BURWASH HEAD QUITS HIS POST

Fort William Industrial Farm Superintendent Will Succeed Fairfull.

CHANGE ON MARCH 1.

TORONTO, Ont., Feb. 25.—Hon. Leopold Macaulay, Provincial Secretary, announced to the Canadian Press to-day that Superintendent Fairfull of the Provincial Industrial Farm, Burwash, had tendered his resignation and that the resignation had been accepted, to take effect March 1.

N. S. Oliver, Superintendent of the Fort William Industrial Farm, has been promoted to be Superintendent of Burwash, to take over his duties March 1. A further shift in the Governmental institutions will be made to fill Oliver's post, while further changes at Burwash will likely ensue after Superintendent Oliver has investigated the staff there further.

Supt. Fairfull's resignation follows investigations carried on by Hon. Mr. Macaulay, and Supt. C. L. Neelands, of Guelph Reformatory, both of whom spent considerable time at the institution.

While it is not claimed that the irregularities existed either in the discipline of the staff or prisoners, it is stated Burwash has developed into a large industrial establishment, requiring expert handling in order to advance the industries of lumbering, cattle and sheep raising.

Hubert U. Western, of Barrie, is appointed superintendent of the Fort William Industrial Farm, succeeding Supt. Oliver. Mr. Western is a graduate of the Ontario Agricultural College, served overseas for three years, was with the Soldiers Settlement Board for eight years and has the back ground experience and initiative which are required in a reformatory, Hon. Mr. McCaulay stated.

COAL PRODUCERS RELIEVED IN U. S.

Claim if Canada Boosted Tariff to $1 Per Ton 15,000,000 Tons Yearly Be Stopped.

PRESENT RATE 50 CENTS.

WASHINGTON, D.C., Feb. 25—(By Ken Clark, C.P. Staff Correspondent) —Coal producers of the United States received with considerable anxiety last week reports of pressure being brought to bear upon the Canadian Government for increased protection for the Canadian black diamonds, but subsequent despatches from Ottawa concerning the reception of demands from Alberta, British Columbia and Nova Scotia are said to have reassured American exporters.

Were the Canadian Government to grant the increase in tariff from 50 cents to a dollar a ton which, it is understood, was asked by Nova Scotian interests, coal producers here believe an export of from 15,000,000 to 20,000,000 tons a year would be stopped.

Like Canadian producers United States coal men are interested in having an embargo placed on Russian imports. It is not considered likely, however, that anything toward this end will be accomplished at this session of Congress which adjourns March 4.

LAKEFIELD CHURCH HAS SPLENDID YEAR

Knox United Contributed $45 Per Family During Past Year.

LAKEFIELD, Feb. 25 (Examiner Correspondence).—The annual meeting of Knox United Church was held recently with a good attendance of members present and the pastor, Rev. T. M. Wesley, in the chair. Mr. Wesley reviewed the year's activities briefly and expressed gratification at the showing made. With Wesley Church, Smith, the amount raised for missions was $1,200 and for the general expense fund $4,022.42, which averaged more than $45 per family. The expenses were $3,922.42, and there is a balance of $100 left in the treasury.

The Mission Band raised $67.85 which was sent to the Presbyterial treasurer. The Sunday school receipts were $143.76, of which $126.01 was spent on supplies. The Ladies' Guild raised $466.65 and after expenses and donations, has a good balance amounting to $266.66.

The W.M.S. had receipts of $306.46, which was practically all sent to the headquarters treasurer.

The Young People's Society raised $61.83 and the expenditure was $52.75. The choir receipts were $13.65, of which $6.45 was expended on music, etc. Dr. G. E. Renwick was re-elected financial secretary and treasurer; G. Mullen and H. Kidd were re-elected to the board of management, with Dr. Renwick, and J. A. Porter, W. J. Charlton and T. Braden were elected trustees. Roy Charlton and C. H. Hunter were re-elected. The session and ushers were re-elected. Votes of thanks were given to the minister, the choir, the Sunday school teachers and the Ladies' Guild for their excellent work during the year.

Royal Romance

The political hurricanes that hourly threaten to blow the Spanish royal family from its dynastic foundations are seemingly powerless to check the insidious labors of Cupid. Latest reports from that troubled country state that the engagement of King Alfonso's daughter, Princess Marie Christina (above) to the Duke of Bergamo, cousin of King Victor Emmanuel of Italy, will soon be announced.

POWER QUESTION MOVING AHEAD

ALBANY, N.Y., Feb. 25—The next step looking toward the public development of St. Lawrence power resources was expected to-day to be the offering of bills to put into effect the recommendations of the St. Lawrence Power Development Commission. It was announced last night after a meeting of Governor Roosevelt and the legislative leaders with the Commission that these bills would be drafted soon.

RUG MAKING IS DEMONSTRATED

Lakefield Women's Institute Plans Entertainment For March 18.

ARRANGE CLASS.

LAKEFIELD, Feb. 25. (Examiner Correspondence). — At the regular meeting of the Woman's Institute held on Thursday of last week a feature which was of great interest and unusual was the demonstration of rug making given by Mrs. Albert Northey and Mrs. Howard Bullock. Mrs. Bullock crocheted a rug and Mrs Northey demonstrated the hooked variety. In the absence of the president and vice president, Mrs. A. E. Higgins, the District Director, took the chair for the meeting. The roll call was answered by some of the amusing sayings of children. A contest was held and was won by Mrs. Yale and Mrs. Bell and in a draw for the prize the former lady won.

A dramatic entertainment will be given on March 18th under the auspices of the Institute by the Warsaw Dramatic Club who are putting on their play "Wild Ginger" in the Lakefield Town Hall.

The Junior Institute have arranged for a nursing class for the first two weeks in March under the director, Miss F. M. Alexander, who made such a wide circle of friends here three years ago when she had a class under the auspices of the Woman's Institute. The class is open to all the girls of the community.

WEDDINGS

SANDERS—WARNER

CAMPBELLFORD, Feb. 25 (By Examiner Staff Correspondent) — A quiet wedding was solemnized on Saturday, February 21 in the Free Methodist parsonage, Campbellford, when the Rev. R. Sedore united in marriage Mable Warner, daughter of Mr. and Mrs. Walter Warner of Campbellford, to Carmen Sanders, son of Mr. and Mrs. William Sanders of Campbellford.

After the ceremony a wedding lunch was served at the Clifton Tea Rooms, after which the happy pair departed for a short honeymoon. On their return they will reside in Havelock.

Trail Rangers Hold Successful Banquet

Sixty Persons Attend Annual Father and Son Get-together at Marmora.

MARMORA, Feb. 25 (Examiner Correspondence)—Under the auspices of the Trail Rangers and Tuxis Square in connection with the Marmora United Church, a successful Father and Son banquet was held in the Masonic Hall when about sixty sat down to enjoy the good fare served by the members of the Ladies' Aid.

Magee Sanderson, mentor of the local Tuxis Square, ably presided as toastmaster. The proceedings opened with community singing led by J. F. Baker of Bonarlaw. T. L. Jones accompanied on the violin.

The Royal Toast proposed by Jack Hickey was responded to by all singing the National Anthem. The toast to "Our Country" was proposed by Ford Woodhouse and ex-Warden G. B. Airhart replied. Then followed "The Lads" proposed by H. W. Sabine. The response came from Glen Alyea, of Trenton, member for West Hastings in the Older Boys' Parliament of Ontario. The succeeding toast was "Our Dads." This toast was proposed by Harry Haacke, of Deloro, and was responded to by R. A. Elliott. Mr. Jackson, of Trenton, district representative of the C.S.E.T. then gave an outline of the bond-selling campaign. "The C.S.E.T.," proposed by Arthur Sweet was responded to by Howard Scarth, of Queen's University, ex-premier of the Older Boys' Parliament. This was the speech of the evening, the speaker dealing with the work of the movement in eloquent fashion. Short addresses were given by F. S. Pearce, Rev. A. B. Caldwell and Rev. F. H. Howard.

During the entertainment, T. L. Jones delighted the gathering with a violin solo.

Stops the Headache

Thousands of people, who once suffered from headache, do not suffer now. They take one ZUTOO TABLET, as harmless as soda, and are relieved in 20 minutes.

RICHARD HALL Limited

OBITUARY

MRS. HENRY BEAVIS

LAKEFIELD, Feb. 25 (Examiner Correspondence).—The funeral of the late Mrs. Henry Beavis was held on Sunday afternoon from the family residence, Bishop street, and was attended by a very large crowd of friends, relatives and neighbors who gathered to pay a last tribute of respect to a good woman who had bravely fought a long, hard fight with a cruel disease. Rev. S. A. Kemp of Regent Street United Church officiated and read a portion of the 14th chapter of the Gospel according to St. John and spoke from the 16th chapter of the Book of the Revelation of St. John the Divine, very appropriately speaking of the vision of St. John of the pure river and the tree of life. The pure river was always a comfort to the Christians, for in the early days when rivers were the natural highways for traffic, they were often polluted with the bodies of martyred Christians who were killed in thousands to gratify the blood lust of the pagan rulers. The tree of life, too, meant much of hope to the Christian who knew that the fall of man had been brought about through the tree of the knowledge of good and evil. Mr. Kemp spoke of the Christian fortitude of Mrs. Beavis who had so patiently borne such great suffering, and of the comfort brought to her by the singing of Mrs. T. C. Yonge, who visited her often and sang of the "vision beautiful" which awaited the trusting spirit "at the end of the road."

The pall bearers were five brothers of the deceased, Albert, David, James, Lorne and Robert Webster, and her son-in-law, Allan H. Clark.

The late Jane Webster was the daughter of the late Mr. and Mrs. Thomas Webster and was born in Dummer township 64 years ago, and there married Henry Beavis who, with his daughter Maude (Mrs. Allan H. Clark), and son Howard, survives her. She was a capable, kindly woman, who had a helping hand and a kind word for those who needed it and was devoted to her family and to her church. She and her husband were in charge of the House of Refuge as matron and superintendent when it was first opened twenty-four years ago, remaining there about ten years. For the past eight or nine years they resided on Bishop street. Mr. aand Mrs. Beavis were members of the Regent Street United Church. Besides her husband and son and daughter, Mrs. Beavis leaves to mourn her loss two sisters, Mrs. W. Clysdale of Lakefield and Miss Nellie Webster of Peterborough, and six brothers, William of Washington, Albert of Dummer, James of Peterborough, and Robert, Lorne and David of Lakefield.

SIX and sixty are good pals—for six never has a thought that isn't full of sunshine, and sixty is one of those rare old ladies who has learned how to live. They both get their brimming and joyous health the same simple, normal, natural way.

Doctors pretty well agree that (barring germ diseases) most illness and headache are due to failure to keep "clean inside."

In blaming this condition for most of our sickness, so they agree also on the safe way to relieve it—keeping clean inside by the Nujol type of treatment. Nujol is not a medicine at all. It contains no drugs. It is colorless and tasteless, and children love it.

Two things you have to remember if you want to enjoy "Nujol health."

One. Don't expect results overnight. This is nature's own method, and nature is never violent. Two. Be sure you get Nujol. Your druggist has this pure and drugless product in a sealed package, trade-marked "Nujol" to protect you.

Nujol health

Give the simple Nujol treatment a real trial. Why not begin tonight?

INSIST ON NUJOL... REFUSE SUBSTITUTES

HAVELOCK RESIDENT NOT THE ONE FINED

Carman Watson, of Havelock, Not Man Fined in Peterborough Police Court.

In the Tuesday, February 17th edition of The Examiner, a police court item stated that Mr. Carmen Watson of Havelock appeared in Peterborough court, and was fined for being drunk. Mr. Watson wishes to state that he was not in Peterborough any time last week, and has not been there for the past three months, so the person who was fined under that name was not from here as he is the only one in this district bearing that name.

LEGION BRANCH MEETS.

Campbellford Branch Will Feature Next Meeting at Warkworth, March 9.

CAMPBELLFORD, Feb. 25 (By Examiner Staff Correspondent)—The regular meeting of the Campbellford Branch No. 103, Canadian Legion, B.E.S.L. was held on Monday evening in the Armouries, Campbellford, with a very large attendance registered. Included in the company were ten members from Warkworth.

The major item of business was the arrangement for the next meeting, which is to be held on March 9. This will be staged in the Memorial Hall, Warkworth, and it is hoped that a large number will be present. It is expected that a special speaker will be featured and refreshments will be served.

It was also reported that the dance and draw tickets were now in the hands of the members of the branch. This function will be staged on Easter Monday.

VALUABLE P.E.I. RESIDENCE BURNS

CHARLOTTETOWN, P.E.I. Feb. 24 (CP)—Residence of Hon. Frank R. Mearts, former Lieutenant-Governor of the Province, was destroyed by fire that caused an estimated loss of at least $50,000 last night.

"MARITAL HAPPINESS" SUBJECT OF INTERESTING Y.P.S. DEBATE

Feature of Enjoyable Social Evening Held in Cavan Hall.

PLEASING PROGRAM.

CAVAN, Feb. 25 (Examiner Correspondence)—A very enjoyable session of the Cavan Y.P.S. was held last Wednesday evening, when a most interesting debate provided the program for the evening. Ralph Staples, president, was in charge of the meeting.

Miss Dorothy Cobley officiated at the organ. The lesson was read by Clayton Card. The subject of the debate was "Resolved that a single man is happier than a married man."

Affirmative Side

R. A. Sutton, leader of the affirmative was the first speaker, and in upholding the affirmative side claimed that Adam, the first man on earth, was created a single man, and was happy until he took Eve, and realized it only when it was too late. Women are a source of trouble, in that Eve tasted of the forbidden fruit got Adam kicked out of the Garden of Eden.

Divorce cases also prove that married life does not contribute to happiness, as in U.S.A. there is one divorce to two marriages.

Single men have less worry, than married men, in that the single man only has himself to think about, while a married man has his wife and family, which sometimes numbers up to 26. What single man in his right senses, would take on such a load? A married man soon realizes how quickly his money disappears, and with his money gone, his feeling of happiness and contentment goes also. Then a single man is also free from the terror of a mother-in-law. "A woman's tongue is sharper than a two-edged sword." A single man is free from this, but a married man must listen to it three times a day and far into the night. A single man can go out at night and come in when he likes with no questions asked, and no rolling pins flying. The untidy homes in which married men have to live in, everyday; houses smell like a glue factory, is also a proof that a single man is happier than a married man. A single man can get all the good food he cares for and if he does not get food he cares for, he can change his boarding house, but a married man has no chance to do this. He must tolerate it, until at last death comes as a welcome release.

Negative Side

The Rev. J. E. Whitham, the first speaker for the negative challenged the statements of the previous speaker.

He claimed that when Adam was created there was only one thing needed to complete his happiness, and that was a wife, and God to complete that happiness gave him Eve, and since then every single man can only be happy when he takes a wife. There is a difference between leader of the affirmative had spoken of happiness, when in reality, a single man had no happiness, only pleasure. It was not good for man to be alone, and the Bible was a safer guide than anything else. Married men live longer, statistics prove this. There is no true happiness without health. Married men receive more care than single men. If they get sick, they have a loving wife to nurse them back to health. Then again married men are happier because they have more money. It is cheaper for two to live than one and single men do not realize the value of money, and spend it. Then again married men have the joy of married life which is denied to single men. What is a greater source of happiness than to have a beautiful wife and lovely family sitting by your side or on your knee? Children playing—some one to leave your money to—to see your children growing up and taking their place in life. This great happiness is denied to single men. Then man can only be happy as he carries out the law of his being and gets a mate.

Miss Verda Braithwaite was the second speaker for the affirmative and claimed that married life was not all that it was cracked up to be. The happiness of married life did not last much longer than the honeymoon. Instead of being met by a loving wife the married man was often met by a rolling pin. There were many men such as the "Prince of Wales,' Mackenzie King, Premier Bennett still single. Happiness can only be obtained by remaining single and thus avoiding all the misery which comes to married men.

Miss Dorothy Cobley, the second speaker for the negative said that married men are happier because a married man had a home. The best happiness consisted in doing your duty in life, no single man can do as much for the life of the community as a married man. Homes mean towns, cities and industries. A married man has more time for leisure, study, reading and all other things that contribute to happiness. Married life is sacred. The marriage tree is God's own ordinance. The very fact that Jesus attended a wedding and graced it with his presence is proof of the happiness which comes to man through marriage. A married man is happier because he carries out the obligations of life.

Five minutes' rebuttal was given by the leader of the affirmative.

The judges were Miss McKim, D. J. Hunter and F. Matchett, who gave their decision in favor of the affirmative by a narrow margin.

The debate was greatly enjoyed by the large gathering who were present.

Hart's United S.S. Is Awarded Shield

QUEENSBORO, Feb. 25 (Examiner Correspondence)—At the close of the regular Sunday School session in Hart's United Church on Sunday morning the pastor, the Rev. J. F. Everson on behalf of W. S. Gordon, of Tweed, presented the school through its superintendent, Mrs. John McCaffrey with the shield awarded as a prize for interest and efficiency in the temperance contests carried on during the closing months of 1930. The shield which was provided by Mr. Gordon is inscribed as follows:

Presented to Hart's United Church Sunday School by Centre Hastings Association County, W.C.T.U. for highest percentage of entrants in the Scientific Temperance course, 1930. The shield which is about eight inches in diameter is silver mounted on dark oak.

District Notes

The Misses Jessie Delyea, R.N., and Jessie Lynn were in Madoc on Saturday calling on friends.

Several people from here attended the funeral in Hazzard's Church on Sunday afternoon of the late William Franklin.

Britain's National debt is approximately $37,690,000,000, or nearly 12 times the amount just before the World war.

Series Of Special Sermons Scheduled

CAMPBELLFORD, Feb. 25 (By Examiner Staff Correspondent). — A series of special services is scheduled to be held in St. John's United Church, Campbellford, when each Sunday evening for the next seven weeks the pastor, the Rv. R. C. Tait, will preach a series dealing in a practical way with "Problems That Perplex," or "Things That Try Men's Souls."

These services will be brightened by special musical numbers by the choir consisting of solos, duets, quartets and anthems, and will be assisted by the orchestra under the direction of the organist and choirmaster, Albert Hazzell.

The sermon subjects are as follows:

March 1—"The problem of the Suffering; March 8—"The Agony of Worry"; March 15—"Religious Education in the Home"; March 22—"Growing Old"; March 29—"Making Christ King"; April 5—"The Spectre of Death." April 12—"The Greatest of All Problems—Myself."

ROSLIN SOCIETY PRESENTS PLAY

Youthful Artists Enact Parts Well in "Beads on a String."

AUSPICES OF W. A.

ROSLIN, Feb. 25 (Examiner Correspondence) — The play entitled "Beads on a String" a comedy in three acts, was presented by the young people of Roslin United Church on Thursday evening, under the auspices of the Women's Association.

In this play, Milton Snider played the part of Bennie Davis, son of Mr. and Mrs. Jefferson (Ed. Davidson) and (Mrs. Stanley Carter). Mr. Benjamin Davis (Charles Bailey) rich uncle of Jefferson Davis, comes to visit the Davis family, but he favored girls. As he was about to make his will and the Davis family was short of funs, Bennie dressed as a girl and after that was called Zezzalee Davis. The uncle and niece Jeanette Blue (Blanche Reid) are there on their promised visit just after Bennie disappears.

Harold Beem (Horace Palmer) a friend of Bennie's and Molly Mallerton (Velma Chapman) Bennie's sweetheart are alarmed at Bennie's disappearance and call in Ab Dinkler (Glen Ith) a would-be detective. The detective gets matters mixed and arrested the uncle for the murder of his nephew Bennie.

When things got so complicated, Bennie dressed in his own clothing told the truth after making quite a "string of beads." Each lie that Bennie told while disguised added a bead to the string. However the uncle is quite pleased with Bennie and everything ends happily.

Mrs. Harold Welsh and Mrs. Harvey Chisolm directed the play. The church was well filled and the hearty applause showed the way in which the play and the singing was appreciated.

Those who sang between acts were the Misses Velma Chapman and Doris Flatt and Messrs. Clayton Elliott, Frank Foster and Walter Naylor.

Proceeds amounted to about $40

My Terrible Liver Spells Scared Me Disappeared Quick

Constipation, Indigestion, Headaches Also Ended with "FRUIT-A-TIVES"

"For 3 years my liver and stomach tortured me. I could scarcely eat anything. The pains were terrible. I was afraid I wouldn't get over them. Was Constipated, too, and had awful Headaches. Then I began taking 'Fruit-a-tives.' Liver and Stomach Trouble disappeared and I haven't had Constipation or Headaches since."—Mrs. Peter Hood, Stratford, Ont.

Hosts of people praise "Fruit-a-tives" as quickest, surest relief for liver disorders, stomach pains constipation, bilious headaches, dizziness, nervousness, back pains. Why? This famous Canadian doctor's discovery combines 6 of the finest herbal tonics with a special secret extract of apples, oranges, prunes and figs—Nature's own remedies to make and keep you well. No habit-forming drugs.

Get "Fruit-a-tives" from druggist today. New health, vigor quick. Results guaranteed or your money promptly refunded.

Voice of Moderator Is Reproduced in Church

FENELLA, Feb. 25 (Examiner Correspondence) — Rev. R. W. Paton preached to a large congregation in Fenella United Church on Sunday when a feature of the service was the reproduction by gramaphone of a message from Dr. Oliver, Moderator of the United Church of Canada. This medium is used so that all United congregations in the Dominion might have the privilege of hearing the voice of their Moderator in a special message.

BRANDON COLLEGE MAY WEATHER STORM.

HAMILTON, Ont., Feb. 25 (C.P.)—Dr. Howard P. Whidden, Chancellor of McMaster University, when questioned as to the reported closing of Brandon College, stated to-day that he understood that arrangements were being made to keep the college open. The university had felt the strain of the present depression, but efforts were being made to tide it through the period of crisis.

The great eclipse of 1931

To the motorist thinking of buying a new car now, the attention the entire industry is giving to Free Wheeling means a great deal. Pierce-Arrow and Lincoln, noted for engineering excellence and conservatism, have adopted—intact and unmodified—the same Free Wheeling mechanism that is built into Studebaker's three great Eights and brilliant new Six.

Free Wheeling has captured public interest as thoroughly as it has captured the hitherto wasted power of momentum.

Highway commissioners and safety directors throughout the country have driven Free Wheeling Studebakers and then voiced approval of Free Wheeling with positive gear control as a new measure of safety to driver and public.

In Free Wheeling, for the first time in the history of the automobile, Studebaker has released momentum and made it serve as an instrument of economy and power. Free Wheeling with positive gear control enables the engine to deliver five miles of travel on four miles of effort.

You will do well if you make sure that your new car is a Free Wheeling Studebaker. It will save you substantial amounts on gasoline, oil, tires and repairs.

The cars of today that do not offer Free Wheeling are cars of the old order even though they may be spoken of as new. Base your new car choice on first-hand knowledge—ask your Studebaker dealer to take you Free Wheeling.

All Studebaker cars—the President, Commander and Dictator Eights, as well as the brilliant new low-priced Studebaker Six—have Free Wheeling with positive gear control. Studebaker cars are priced from $1025 to $3465. Studebaker trucks, up to 2-ton capacity, are priced from $875 to $1185. All prices f. o. b. factory, Walkerville, Ont. Spare tires, bumpers and government taxes are extra.

2,000 Dressmakers Go On Strike in Toronto

GUARDIAN SCORES STALYBRIDGE ON ITS UNEMPLOYMENT ATTITUDE

Takes Stand Gov't Should Provide Suitable Work or Pension Till it is Found.

Half Population Workless.

MANCHESTER, England, Feb. 25.—(C. P. Cable)—The attitude of the local authorities of Stalybridge, Cheshire, towards unemployment is described today by the Manchester Guardian as equivalent towards the claim that "it is the Government's business to see that we have work appropriate to our station," or else a pension until such work is provided."

Stagbridge has a population of 25,000. Thirteen thousand are unemployed, and half of these are receiving the "dole." Fifty per cent of the Stalybridge women are out of work. Yet the town council, backed by a body called the Council of Christian Congregations, protests against women undertaking work in army canteens, which has been suggested by Rt. Hon. Margaret Bondfield, Minister of Labor.

Miss Bondfield Stirs Storm

Miss Bondfield aroused a storm some months ago when she suggested that women who were offered positions in the service canteens, and did not accept them, should not be entitled to the unemployment benefits. She established a commission which reported that work in the canteens was suitable for women, and conditions were no worse there than in any other industry.

The Guardian, though usually sympathetic towards Democratic movements, declares the Stalybridge protest unfortunately is not an isolated phenomenom. "The trouble about canteen work is important only because it is symptomatic," the Guardian added.

Holroyd Disappointed

Another development in Labor circles today was the presidential address of Fred Holroyd to the Master Cotton Spinners' Association, when he expressed bitter disappointment at the attitude of the weavers towards efforts to reduce production costs. The unions implacably insisted upon rates which, while appropriate under better conditions, were hopelessly ineffective under the changed conditions, he said.

YOUNG BANDITS ESCAPE PADDLING

Winnipeg Magistrate Strikes Snag on Ordering 2 Days in Jail With Five "Paddles."

LADS ARE RELEASED.

WINNIPEG, Man., Feb. 25 (C.P.)—Magistrate R. B. Graham's experiment of imposing short jail sentences and the "paddle" instead of the lash and penitentiary terms for youthful bandits, struck a snag.

It was disclosed in the Legislature by William Ivens, Labor member, that sentence of five strokes of the paddle imposed upon two young drug store bandits, could not be legally carried out. They were sentenced to only 48 hours' imprisonment, and under the Criminal Code a whipping sentence can no be inflicted within the 30-day period alloted for appeal.

The Attorney-General's Department is considering the case and in the meantime the boy-robbers will be released from jail, without a paddling.

MOTHER AND CHILD SAVED IN FIRE

WALLACEBURG, Ont., Feb. 25.—(CP) — Prompt action by neighbors and firemen last night saved the lives of Mrs. M. Hilton Stratton and her day-old child when fire broke out in the home on Main Street.

The blaze was first noticed by Mrs Ada Downes, the nurse, who gave the alarm and no time was lost in carrying the mother and her babe to safety to the Howard home across the street where they are reported to be resting comfortably.

Dare You
Risk a Lesser Help for
That Cough?

Creomulsion is made for difficult coughs—coughs from colds that hang on. It combines seven major helps in one—the best helps known to science. It is used for quick relief, for safety.

For milder coughs a lesser help may do. But dare you take the risk when any cough is a signal of some danger? Is it not wise to use this seven-way help to be sure?

Creomulsion costs $1.25—a little more than most helps. But it costs you nothing if it fails to bring the quick relief you seek. Your druggist guarantees it. Use it for safety's sake.

for Difficult Coughs from Colds

Smallest Factions To Move Amendment

TORONTO, Feb. 25.—The Ontario Legislature is going to have an amendment to vote on, after all, in connection with the debate on the Address in reply to the Speech from the Throne.

The Liberals would not submit one. The Progressives followed suit. But now, according to reports, it is the two smallest factions in the House—the U.F.O. and the Labor groups—two one-man parties, represented in the first instance by Farquhar Oliver, South Grey, and in the second case by Earl Hutchison, Kenora — who are going to muddy a bit the clear, smooth waters that have marked House proceedings between Government and Opposition since the 1931 session got under way.

RED CROSS AIDING THE DISTRESSED

Local Branch is Co-operating With the Peterborough Relief Association.

CLOTHING DISTRIBUTED.

It many be of interest to the citizens of Peterborough to know that, in accordance with the peace-time policy of the Red Cross Society, the local Branch has since before the New Year been doing its share in helping to relieve the present distress in and around our city. For Christmas cheer, nine returned soldiers' families, consisting of from three to six children, were provided with new shoes, rubbers and warm underclothing. Also substantial parcels were sent to needy families outside the city. Assistance was given too, through the Provincial Red Cross Society, to ex-soldiers' families living in the remote districts of our far North.

The allotment of clothing that was handled by the Red Cross Society for the Dominion Government arrived some time ago at the home of the president of the local Branch, Mrs. Robert Hartstone. This clothing, which was comprised of 30 suits of underwear, 25 flannel shirts, 50 denim trousers, 40 pairs of socks and 15 sweaters, has been entirely distributed through three outlets viz. Mr. Abraham, President of the Legion, the Central Relief Bureau in the Toronto Savings and Loan Chambers, and the President of the Local Branch. It is felt that this clothing has been equitably distributed in this way and has proved a boon to the recipients. In addition a bale of denim trousers, approximately 100 pairs, has been received and will be issued to the needy men of the community through the Central Relief Bureau and Mr. Abraham of the Canadian Legion.

Moreover it has been the privilege of the Local Branch this winter to aid a patient from the Christie Street Hospital, who required a special diabetic diet and a pair of scales.

At a recent meeting of the Executive Committee of the Local Branch, it was decided to co-operate with the Central Relief Bureau in the outfitting of a temporary hostel, which has been opened on Hunter street, in the city, to care for the homeless, destitute single men in the city and also for a few transients. The equipment provided through the Red Cross is comprised of blankets, mattresses and bolsters. A special Hostel Committee was appointed to work with the Relief Bureau, in providing some degree of comfort for the men who will be partaking of this hospitality. The Convenor of this Committee is Mrs. George Boucher, and with her are associated Mrs. W. H. Hill, Mrs. Charles Ray and Miss M. Rush. Another committee composed of Mrs. J. A. Aylmer, Mrs. B. Law and Mr. R. M. Glover, with Mrs. R. H. Turner as Convenor, was formed to co-operate with Mr. Abraham in having the boots of returned men repaired by a local unemployed shoemaker.

Jury Finds That Man Met Death By Murder

AURORA, Feb. 25.—"From the evidence submitted, we believe it was a case of murder" was the verdict of a jury which was empanelled last night by Dr. C. J. Devins, North York Coroner, to investigate the death of Stephen Baytalo, a Toronto Ukrainian, whose body was found on the morning of Dec. 6 last, alongside the C.N.R. tracks near Gormley Station, and for the present the whole affair appears to be wrapt in mystery.

The verdict indicated that Baytalo had come to his death between Sudbury and Gormley at a date not before Nov. 30, and not after Dec. 6 last year, as the result of a bullet wound from a 32-calibre gun of foreign make, and which it was found had penetrated the aorta.

Queen Of The 1932 Olympiad

CROWNED BY CIVIC LEADERS AS HOSTESS.

The coronation ceremonies pictured here were held in connection with the bestowal of the title 'Queen Olympias' on Peggy Hamilton, by California civic leaders. Miss Hamilton has been designed hostess by the Los Angeles County supervisors to officiate during the Olympic games in Los Angeles next year.

Three Fine Blooms Flowering Hyacinth

HAVELOCK, Feb. 25 (Examiner Correspondence).—Miss Minnie Williams is the proud possessor of a flowering hyacinth which bears three beautiful blooms on a single bulb. The flowers are a pale rose in color and perfect specimens, of double hyacinth.

Miss Williams planted four bulbs, and three have put forth nine gorogeous blooms, rich in perfume. This is her first venture with house bulbs, and she is greatly delighted with the success attained.

Mr. and Mrs. Rae Williams, and Mr. and Mrs. Harold Mathison are spending a few days at Niagara Falls, motoring there. The gentlemen will attend the Masonic Grand Lodge in session at the Falls Wednesday and Thursday. The ladies are accompanying their husbands in order to enjoy the beauties of the Falls in their winter splendor.

CHINESE THREATEN TO SLAY CAPTIVE.

PEIPING, China, Feb. 25. (AP) — The Communist captors of Father C. Tierney, Superior of St. Columban's mission at Keinchang, are threatening now to kill him if his ransom is not paid very soon.

British authorities have made the strongest representations to the Central and Provincial Governments thus far with no satisfaction. He has been held a prisoner since the middle of November.

FLOODS DAMAGE RAILROAD.

ATHENS, Greece, February 25 (C. P.). — Further erious floods were reported to-day from Achaia and Elis where the railroad to Olympia has been interrupted and numerous houses have collapsed. Thessaly and Macedonia also are flooded.

No Indigestion!

He used to suffer after eating—but no more! He carries *quick* relief in his pocket. Stuart's Dyspepsia Tablets; a pleasing combination of modern antiacids: Calcium Carbonate (far superior to soda) Magnesium, and the like.

Hearty eaters—hard smokers—high livers find Stuart's Tablets indispensable for the relief of after-eating distresses.

Why have a sour stomach—or risk a bad breath? Use Stuart's Dyspepsia Tablets; one of them will neutralize 2½ times its weight of acid material in the stomach; they furnish the ideal and harmless remedy.

Make This Test!

Purchase a package of Stuart's Dyspepsia Tablets at your druggists', take after meals and note a relief and comfort you may not have known for years.

At All Drug Stores
STUART'S DYSPEPSIA TABLETS

FEDERAL GOV'T LOSES APPEAL TO POSTPONE BASIC WAGE CUTS

Australian Gov't Receives Setback When Bank Rejects Scullin's Proposals.

LANG ACTIVE.

MELBOURNE, Australia, Feb. 25.—(C.P. Cable via Reuters).— The full bench of the Federal Arbitration Court to-day rejected the application of the Federal Government for postponement of the court's decision to reduce the basic wage by 10 per cent.

The court declared it was not convinced that postponement of the reduction would facilitate adoption of the scheme for national financial rehabilitation drawn up by Hon. E. G. Theodore, Federal Treasurer, and approved by the conference of Premiers recently.

The Government suffered another setback when the reply of the Australian trading banks, to proposals by Prime Minister James Scullin and Treasurer Theodore, was received today. According to the Melbourne Herald the banks rejected the proposals.

The banks' statement will be submitted to the reconvened conference of Premiers to-morrow.

The Gov't Plan.

The Governments plan, which was adopted after the conference decisively rejected the extreme proposals of Premier Lang o. New South Wales, calls for a reduction in salaries of workers in public services, including the automatic revision of the arbitration court.

Besides an estimated saving of 13 per cent. in the Wages Bill, the Government hoped to secure $24,600,000 annually by imposing a tax of roughly 17 per cent. of interest payments to Australian holders of government bonds.

Meanwhile, Premier Lang is energetically campaigning on behalf of his own proposals, which include stoppage of interest payments to overseas bondholders for a time.

UNIVERSITY EDITOR ASKED TO QUIT.

VANCOUVER, B.C., Feb. 25. (CP) —Ronald Grantham editor of the "Ubyssey" student publication of the University of British Columbia, has been requested to hand in his resignation by the Students' Court of the University. In a letter to Grantham the council's reasons for its requests were set forth at length.

The letter said that Grantham displayed deplorable lack of tact in several of his editorials, and intimated he had failed in his duty as an appointed officer of the Alma Mater Society.

Doings in Legislature

TORONTO, Ont., Feb. 25—Government legislation will be considered.

Yesterday in the Legislature: First reading given bill to amend the Mining Act. Two new members James A. Sanderson (Cons., Grenville) and Argue Martin, (Cons., Hamilton West) were introduced. Debate on speech from the throne was continued.

PEOPLE'S PALACE GUTTED BY FIRE

Over 300 Firemen Fail to Save Historical Structure in East London.

OPENED BY QUEEN VICTORIA.

LONDON, Feb. 25.—(CP)—Nearly 300 firemen fought a fire which gutted Queen's Hall, part of the People's Palace, in East London today.

The People's palace, an historical structure, is one of the most remarkable of social centers in Great Britain. It was opened by Queen Victoria in 1887, after wide public interest in a novel by Sir Walter Besant, which called attention to the drabness of life in the East End.

The Palace possessed an immense concert hall—now destroyed—with a great organ, where high-class concerts were given almost nightly, and many other features.

There were fears for a time today that the fire would spread to a large hospital nearby, but this was effectually prevented.

Melba's Death Due To Blood Poisoning

LONDON, Feb. 25. (AP)—A dispatch to the Exchange Telegraph Company from Melbourne, Australia, to-day said that the death of Dame Nellie Melba, the famous Australian diva, who died at Sydney February 23, was stated officially to have been due to blood poisoning following paratyphoid contracted in England.

The singer was ill for months and no exact diagnosis of her malady was given before her death. It was reported however, that it was a toxic condition of the blood contracted in Cairo, Egypt.

(Paratyphoid fever is described in medical works as an infectious fever simulating typhoid fever clinically, but due to a different bacillus called paratyphoid bacillus).

COMMUNISTS SURRENDER.

BUENOS AIRES, February 25 (C. P.). — The authorities of Villa Encarnacion, Paraguayan border town, stated to-day that a band of about 100 Communists who last Friday captured the town had surrendered to Brazilian authorities at the town of Fox Do Iguazu.

After capturing Villa Encarnacion the Communists fled up the Parana River aboard a small steamer before the Government forces could arrive.

Home Nursing Class Opens In Belmont Twp.

HAVELOCK, Feb. 25 (Examiner Correspondence).—The Home Nursing Class sponsored by Belmont Women's Institute, opened in the Belmont Town Hall on Monday afternoon.

Twenty members were present for the initial lesson, but it is predicted that a number of others will join. Miss Ina Onslow of Niagara Falls, is the capable instructress, and in the first lesson gave a brief outline of the various subjects to be dealt with throughout the course. The care of the patient, sick-room requirements, bathing the patient, some safe remedies for emergencies, making a bed with the patient in it, bandaging, artificial respiration, resuscitation and many other interesting and beneficial matters in connection with the care of the sick will be dealt, with Two years ago Havelock Women's Institute held a class in home nursing, and the benefits derived therefrom are still evident in the community.

356 FIRE ALARMS WERE RESPONDED TO IN PAST YEAR

Notable Decrease is Noted in the City's Fire Loss For 1930.

14 IN NOVEMBER.

April With Four Fires Had the Heaviest Loss Per Month During the Year.

The Fire Department has witnessed the best year as regards fire losses since 1921 . Damages in 1930 amounted to $20,882.41, as compared with the $15,858.50 of 1921. These facts were revealed in the annual report of the Department submitted by Chief George Gimblett. Reports on alarms, fires and losses, apparatus, hose discipline, and chief's recommendations ar included.

During the year the Department responded to 356 alarms as follows: Telephone, 305; box, 22; verbal, 23; private, 4; Chief's special, 2. This is a decrease of 22 alarms over the preceding year. The year's summary of alarms by the day of the week shows that Thursday and Saturday are the busiest days: Sunday, 37; Monday, 44; Tuesday, 50; Wednesday, 40; Thursday, 48; Friday, 47; Saturday, 70. It was also revealed that more alarms are answered in the evening than in the daytime—192 in the former and 164 in the latter.

Of the above number of calls for the Department, 49 fires of a more or less serious nature were responsible for a loss of $20,882.41.

The following is a table showing fires and losses for each month of the year:

Month.	Fires	Loss
January	2	$ 231.00
February	2	527.51
March	3	1,139.55
April	4	7,793.00
May	2	152.00
June	7	2,408.20
July	6	2,292.67
August	2	300.00
September	2	1,983.34
October	1	133.00
November	14	3,205.25
December	4	716.89
Total	49	$20,882.41

Fires occurred in different classes of buildings as follows: Stone, 1; brick, 31; roughcast, 2; frame, 15. In addition, there were three calls for the services of the pulmotor.

During the year the Department used 7,750 feet of 2½-inch hose, 1,900 feet ¾-inch chemical hose, 50 feet 1½-inch hose, 1,004 gallons chemical, 15 gallons foam, 2 gallons carbon tetrachloride, 1,575 feet of ladders, 8,400 square feet of tarpaulin. The total distance travelled was 685.8 miles.

The Fire Prevention Bureau made a total of 1,951 inspections during the year and several bad hazards were cleaned up. The Chief recommended in this connection that a full-time man be attached to the Bureau, as the Department is often so short of men that no one is available to send out on this important work.

The following table is a list of notable fires with loss over $10,000 since the Department was reorganized in 1908:

Name of Firm.	Date.	Loss.
Peterborough Lumber Co.	July 29, 1909	$ 28,000.00
E. F. Mason, etc.	Oct. 3, 1909	15,685.00
Lundy Gum Co.	Nov. 1, 1915	10,100.00
Quaker Oats Co.	Dec. 11, 1916	2,250,000.00
Peterborough Canoe Co.	Jan. 6, 1916	45,000.00
Boston Cafe, etc.	Jan. 10, 1918	45,000.00
Neill Shoe Store, etc.	Jan. 26, 1918	256,900.00
Peterborough Planing Mill	Feb. 23, 1918	14,700.00
Can. General Electric Co.	Oct. 9, 1919	10,000.00
Bell Apartments	Mar. 3, 1920	14,996.00
Salvation Army	Jan. 11, 1923	40,000.00
J. C. Turnbull Co., etc	Mar. 31, 1923	83,917.40
Bon Marche Co., etc.	Feb. 26, 1924	10,988.84
Canadian Canoe Co.	Dec. 17, 1926	35,663.74
Albion Sweets, etc.	Dec. 28, 1926	18,513.60
Peterborough Lock Co.	Jan. 29, 1928	51,835.72
C. E. Smith, etc.	Jan. 27, 1929	14,739.27
L. Yeates, etc.	April 11, 1929	18,062.74
A. Botnick, etc.	Dec. 28, 1929	22,120.65

100 DRESSMAKING PLANTS ARE EFFECTED BY THE TORONTO STRIKE

Employees Want Union Recognition and Elimination of the "Sweat Shop."

NO DISTURBANCES.

TORONTO, Ont., Feb. 25. (CP)—Answering the call of their Union, about 2,000 dressmakers throughout the city walked out on strike sharp at 10 a.m. to-day.

During the past week members of the Dressmakers' Union interviewed manufacturers and heads of the Ontario Department of Labor but no settlement was reached.

The official strike proclamation which was prepared by heads of the union was handed to all workers as they went to their places of employment this morning. It reads: "The strike is declared. All works in all factories must cease in the dress industry. Leave your shop orderly; do not create any disturbance."

The union has asked the manufacturers for union recognition, elimination of "sweat shop" conditions, the 44 hour week and higher wages for female employes. More than 100 local dressmaking concerns will be affected by the strike.

Assaulted By 3 Men.

As she left the Crown Dress Co., where she is employed, to go out on strike, Mary Brnick, it is alleged, was assaulted by three men who it is said objected to her taking part in the dressmaker's strike.

With blood trickling down her face the girl screamed and Max Cowitz and other strikers ran to her assistance.

Miss Brnick in a badly dazed condition, was ordered removed to the hospital by Inspector Sockett, who is investigating the assault. Two men, Jack Cantorowitz and Jules Skuspek, also claimed they were attacked and stated they would lay charges against their attackers.

200 Men Workless As B.C. Mill Burns

VICTORIA, B.C., Feb. 25.—Fire today swept the saw mill plant of the Cameron Lumber Company Limited, here, causing damage of $250,000. Breaking out in the early morning the main portion of the saw mill and sawdust sheds had been destroyed within half an hour.

Two hundred men will be thrown out of employment as a result of the fire. The blaze is believed to have originated in the friction drive on a convoyor belt.

Bank Robbery— Four Murders— Doctor Killed

The wounded bandit in custody — *His mark caught him*

Bandit Left His Mark

On May 28, 1928, four bandits robbed a bank in Lamar, Colorado. They killed two officers. Then, in escaping with a wounded bandit, they killed the doctor who treated the wound. This atrocious crime aroused two states to action.

The leader of the gang left his finger print on the glass of the doctor's car. Police records proved that this mark belonged to a robber who called himself, among other names, Jake Fleagle. Thus the whole gang was identified, and three were hanged.

Fleagle himself, after a chase of two years, was wounded in resisting arrest and later died. All because a finger touch left its print on a piece of glass.

So You Leave Marks

This is told to indicate how you leave imprints on everything you touch. Those imprints are germ-laden. You leave them on the toast you butter, on a piece of candy, on a stick of gum.

The germs in those imprints may have been picked up by touching things which others touched with contaminated hands. Life Extension Institute lists 27 diseases which may be conveyed in this way. A cold, for instance, may be passed to many people—by a handshake.

When you carry such germs to your food—by a touch—they breed and multiply. That is something to think about.

Safety and Luxury

Lifebuoy is a luxurious toilet and bath soap, based on two palm oils. No soap ever created does more for the skin and complexion. But it also contains a germicide which other fine soaps lack. Tests show that no germs, alive and active, are left after its application.

Don't touch food, or anything which enters the mouth, until your hands are made antiseptic. Partial germ removal is not sufficient. You must either kill or make inactive all the germs that threaten.

Lifebuoy gives you luxurious, creamy lather. You never used a more delightful soap. But the odour is not a perfume. It's a refreshing scent that spells safety. It disappears in a few minutes, but it tells you that your hands are free from germs.

After using Lifebuoy in a bath, your whole body is exempt from offensive body odour. Is not such protection worth more than perfume to you?

Many millions of people, the world over, think so. Your dealer has Lifebuoy for you.

The lady members of the local Curling Club who are in Toronto playing in the Ladies' Tankard games at the Granite Club, include Mrs. R. H. Turner, Mrs. M. Comstock, Mrs. M. Comstock, Mrs. W. H. Hill, Mrs. O. Degraw, Mrs. D. S. Clarke, Mrs. W. Oke, Miss Fanning and Miss Munroe. In two games played yesterday with the ladies of the Toronto Victorias, the Peterborough players won by three shots. To-day, they are playing in the finals against the Toronto Granite Club.

• • •

Mr. and Mrs. David E. Cumberland, formerly of Toronto, have moved to St. Catharines and are living at 80 Highland Avenue.

• • •

Mr. W. F. Jackson of Calgary, who has been visiting with friends in the city and registered at the Triple Link Club Rooms, left at noon to-day for Montreal.

• • •

Master Walter Morrow, a pupil of Miss Margaret Widdess, has passed with first-class honors the examinations in Introductory Piano conducted by the Toronto Conservatory of Music.

• • •

The members of Peterborough Chapter No. 161, Order of the Eastern Star, assembled at the home of Mr. and Mrs. Nimmons, Park Street, to present Mrs. William Beggs (formerly Miss Peggy Taylor), with a handsome floor lamp. The evening was pleasantly spent in playing cards, followed by the service of dainty refreshments by the hostess, assisted by the social committee of the Chapter.

• • •

The following item, from a recent copy of the "Northern News", concerns Mr. Douglas Deyell of Swastika, son of Mrs. L. C. Deyell, recently of Peterborough and now of Toronto, and his bride, formerly Miss Gladys Spiers of Franklin, Ontario:

"One of the most pleasing functions ever held in Swastika, eventuated last Friday evening and took the form of a social welcome to Mr. and Mrs. D. Deyell, the latest bridal couple to make their home in that pretty locality.

"Mr. Deyell has been principal of Swastika public school for the past two and a half years and, apparently has been so favorably impressed with the village and its people, as well as his own position that, returning from his recent New Year's holiday, he gave his many friends a delightful surprise by bringing with him a truly charming young lady whom the local population instantly guessed as his bride. For the purpose of officially meeting the young lady and welcoming her to their midst the Swastika people who are always noted for the cordiality of their receptions, organized last Friday's social with that as the chief item in their program.

• • •

"Novelties are frequent in Swastika entertainment and to Mrs. Sylvester Roche is due the credit of originating many of the items which gave a keen delight to the general enjoyment. To begin with, the happy pair, although the chief actors of the evening, were successfully kept in complete ignorance of what was in progress and on the eve of the function were beguiled to the home of Mr. and Mrs. Howey, there to await the opportune moment.

"Meantime Mr. Sylvester Roche had brought along a beautifully executed model of the local school, over which Mr. Deyell presides and into this model, its top temporarily removed for the purpose, the cheerful well-wishers as they entered the school reception hall, they piled their gifts, both many and valuable, all signifying in no uncertain manner, their whole-hearted appreciation of Mr. Deyell's fine qualities and pleasing disposition as well as their wishes to the bride.

"The evening started with the triumphant entry of the bridal couple, their introduction to the assembled company and their presentation of the model and its load of gifts.

"W. E. Simpson then, on behalf of the people of Swastika tendered an official welcome and, after the items of the bridal "shower" were uncovered and displayed to the admiring throng. A cheerful program of dancing and bridge was enjoyed till well towards dawn. At midnight a delightful lunch was served by a group of ladies with Mrs. Roche in charge all present spending a very happy evening."

Mr. and Mrs. W. H. Cunningham of Weller street entertained the members of the Co-Workers Bible Class of George street United Church and their husbands, at their home last evening, when about fifty were present for a very enjoyable time. The guests included the Rev. and Mrs. J. E. J. Millyard and the Rev. and Mrs. A. I. Brown. The guests were received by the hostess, assisted by Mrs. James A. Spencer, president of the class, and Mrs. A. I. Brown, the teacher. The evening was a very merry one, with music and contests, the latter including a photograph gallery of pictures of the members of the class, taken from the ages of six months to sixteen years. Those guessing the largest number in this contest were Mrs. J. C. Wood, Mrs. J. A. Spencer, Mrs. R. Parnell and Mr. Hilliard Strong. Mrs. Wood winning the prize on a draw. For the advertising picture contest, Mrs. Might won the draw against Mrs. Fairbrother and Mr. R. Parnell. An amusing contest in which ingredients were hung on a clothes line, in little bags, and the guests trusted to their sense of smell for the names, was won by Mrs. Weir, with the consolation going to Mr. J. W. Hales. The musical contest was won by the Rev. Mr. Millyard and his group, singing "Old Black Joe". Dainty refreshments were served by Mrs. Cunningham, assisted by Mrs. W. Flannery and members of the social committee. The program committee consisted of Mrs. F. Miller, Mrs. S. Wildman, Mrs. Piper and Miss Piper and Miss Brock. The vote of thanks to the hostess was moved by the Rev. Dr. Brown and seconded by the Rev. Mr. Millyard and the evening concluded with the singing of "For They are Jolly Good Fellows."

Mrs. B. F. McNeely, Charlotte street, president of the local Women's Liberal Club, is in Toronto today attending the semi-annual meeting of the executive of the Ontario Women's Liberal Association, which is being held in the Prince George Hotel. Mr. Mitchell Hepburn, M.P., spoke at the luncheon today in connection with the convention.

Mrs. Sidley Granted Divorce

ACTION IN BULL CASE REPORTED SETTLED OUT OF COURT

Mrs. Mabelle Horlick-Sidley of Racine, daughter of the malted milk magnate, client of Wm. Perkins Bull, K.C., now in Toronto General Hospital suffering from injuries incurred in a motor crash following a spectacular dash from Chicago, whose divorce has been granted. The action against Perkins Bull by Dr. J. S. Sidley, Mrs. Sidley's husband, pending for some time in Chicago courts, is said to have been settled out of court for a sum reported to be "somewhere between $250,000 and $500,000."—Associated Press Photo.

Favorite Recipe

BOSTON BAKED BEANS.
(Contributed by Mrs. C. E. S.)

4 Cups beans.
¼ Lb. salt pork.
¼ Cup molasses.
1 Teaspoon mustard.

Soak beans in cold water overnight. In morning put in fresh cold water and simmer until soft enough to pierce with pin, but not to break. An onion may be cooked with them. When soft turn into colander and pour cold water over them. Put in a bean pot. Pour boiling water over salt pork and scrape the rind till white. Cut the rind in strips, bury the pork in beans and leave rind exposed.

Mix mustard with molasses and fill the cup with hot water. When well mixed pour it over the beans, add enough more water until the last hour, then lift the pork to surface to crisp. Bake eight hours in a moderate oven.

The mustard gives the beans a delicious flavor and renders them more wholesome.

Yellow-eyed and Lima beans are also good when baked this way.

ASSOCIATION PLANS OPENING MEETING

Relief Work Discussed By Ladies of King Edward School Association.

The ladies of King Edward Home and School Association met in the Kindergarten room for their monthly meeting on Thursday evening with a good attendance. Business relating to relief work was the chief item on the program, giving evidence that the association is doing active service along this line.

Mrs. Groombridge occupied the chair, and led the opening devotional service. Reports of treasurer and relief convenor were given and proved very interesting.

An open meeting has been arranged for the third Thursday evening in March when a good musical program will be given.

At this time the draw for the quilt which was kindly donated by Mrs. Forbes will also be made and the funds will go to relief. Letters of thanks will be sent to doners of gifts to assist in the splendid work being done by the association and boxes of provisions will be sent to homes where it will relieve need.

After the appointment of Mrs. Hierons as convenor of the Flower committee the meeting was brought to a conclusion by singing the National Anthem.

That Body of Yours

By James W. Barton, M.D.

EYE STRAIN—NEUROSIS

A word that is now becoming very common is neurosis, which means an affection of the nervous system, with well-marked disturbances, occuring without any apparent cause, without any inflammation or any change in structure of the nervous system, that can be detected by the physician.

And so with some people it is the heart, with others the nose and throat, and with still others, the eyes.

At the Annual Session of the American Medical Association, Dr. Geo. S. Derby, Boston, told of a number of cases where the patients had developed the idea that their eyes were being strained and had gone from oculist to oculist in an endeavor to get relief. Some oculists changed the glasses, others told these patients that there was no eye trouble that they could find, and that they would have to look elsewhere in the body to find the cause; others suggested more healthful habits of life as to eating and sleeping; rest of eyes and so forth.

Now many of these cases had not only received a thorough examination for the eyes, but the entire body had been carefully examined also.

What was the cause of their symptoms? What made them feel that they could not use their eyes without strain? Why did their eyes ache?

Simply because this idea of "eye strain" had become fixed in their mind and this going from one doctor to another only made matters worse.

What is to be done in these cases?

Dr. Derby suggests that after the patient has been thoroughly examined by his physician and his oculist, that he should be told frankly that his eyes are all right but that he has let his mind believe there is some trouble, and that he will not get relief until he recognizes this fact.

To prove that his eyes are all right he is told to go right ahead and use them, not to rest them; that they may still continue to bother him some, but that it is quite safe to use them; he is not straining them; that when the eyes feel especially uncomfortable they should be used.

"Such discipline will almost always affect a cure if the patient has confidence in his physician, and he has some real backbone himself."

The above may explain some cases of what is called eye strain, which are really just a neurosis—no real trouble.

FASHION SERVICE

2890

Attention Matrons!

Choose this opportunity to look smart and slender.

You'll love the becomingness of the new softly falling jabot collar that hangs in a long slimming line. The deep vest is decidedly slenderizing and graceful detail. The hip yoke opened at the front creates a slenderizing panel effect at the front of the skirt giving it charming length.

Black canton crepe is stunning for this model with the vest of lace.

Style No. 2890 is designed for sizes 36, 38, 40, 42, 44, 46 and 48 inches bust.

Wool crepe, marocain crepe and flat crepe particularly in the new prints are lovely for its development.

Size 36 requires 4 yards 39-inch with ¼-yard 18-inch lace.

to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children. embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book, 15 cents, or 10c when ordered with a pattern.

CHILDREN'S COLDS

are doubly dangerous with FLU around

While there is no cause for serious alarm over the mild epidemic of flu in this locality, health authorities advise extra precautions against colds just now.

Check Every Cold at the Start

Unless treated promptly, colds tend to pull down the body resistance and often pave the way for an attack of flu with all its serious complications.

Don't "Dose" Except on Doctor's Advice

Too much internal medicine often disturbs the digestion and further lowers the vitality just when the body-strength is most needed. Modern mothers prefer Vicks VapoRub as it is applied externally and thus can be used freely and as often as needed without upsetting the stomach.

Attacks Colds 2 Ways at Once

Just rubbed on throat and chest and covered with warm flannel, Vicks acts thru the skin like a poultice or plaster, drawing out the tightness and soreness; at the same time, its medicated vapors, released by the warmth of the body, are inhaled direct to the air-passages, loosening the phlegm and soothing the irritation.

Of course, Vicks two-way action is just as effective for adults' cold-troubles, too.

DON'T TAKE CHANCES WITH COLDS NOW!

1/26 12/24/31 VICKS VAPORUB

OVER 17 MILLION JARS USED YEARLY

A BEDTIME STORY

by Howard R. Garis

UNCLE WIGGILY'S CANDY BRICK.

There! I knew many of you boys and girls would guess how Uncle Wiggily made his cold candy. So many of you telephone in the right answer that I am sorry I set you such an easy puzzle. Next time there will be a harder one.

Yes, of course! Uncle Wiggily picked some icicles and dipped them in the red cranberry juice in the bottom of the jar that Nurse Jane had given him to take to Mrs. Twistytail, the lady pig. Wasn't that easy to guess?

You know I told you in the story last night about Uncle Wiggily taking a jar of red cranberry sauce to the pig lady. She emptied the sauce from the jar and was going to wash it when Uncle Wiggily said not to bother. So there was still some juice in the jar when he kept on hopping with it in his pocket to look for an adventure.

Then the rabbit gentleman saw some icicles on a stump near a spring and right away he thought of making some cold candy just for a trick.

"I'll dribble some of this red cranberry sauce from the bottom of the jar on the icicles and they'll look like red candy sticks." Uncle Wiggily said with a laugh.

No sooner said than done. And in a little while Uncle Wiggily had a dozen icicles, all nicely colored red with the cranberry juice, lying on the stump to get colder and dry, for they had melted a bit from his warm paws.

"They surely look like candy!" chuckled Mr. Longears as he looked at the red icicles. "I believe I could even fool Baby Bunty with these. I'll put them in my coat pocket. They won't melt as long as I stay out in the air.

Mr. Longears was just putting the cold candy red icicles into his pocket, thinking how he would tease Baby Bunty, when, all of a sudden he was grabbed from behind and a voice growled:

"Now we have him!"

"Yes, indeed!" growled another voice. "Pop him in the bag!"

"Say, what do you think I am; some corn that you talk of popping me into a bag?" asked the rabbit. "Who are you, anyhow?"

"Never mind who we are. We know who you are and that's enough!" spoke a third, growling voice and before Mr. Longears could run or jump away he was caught and popped into a big cloth bag.

"Now we have him!" chuckled the first voice.

"Yes, that was a good trick of yours, Bobbie!" said the second voice.

"Oh, but you helped me, Foxie, and so did you, Wolfie!"

"My goodness!" thought poor Uncle Wiggily inside the dark cloth bag. "I have at last been caught by the Fox, the Wolf and the Bob Cat. I wonder what they are going to do with me?"

He was not ong in finding out. He felt himself being slung up over the back of the big Wolf in the bag and then the Fox said:

"Let's tJe him to my den. My wife knows how to make lovely rabbit stew. There will be enough for all of us."

Well, Uncle Wiggily didn't know what to do. There he was in the bag and he had forgotten his knife so he couldn't cut his way out as the Little Red Hen did with her scissors. But searching for his knife, as he bobbled about on the Wolf's back in the bag Uncle Wiggily found the red icicles like red sticks of candy. All of a sudden he thought of a trick he might play on the Bad Chaps.

"I say, you fellows!" Uncle Wiggily called in a loud voice. "You must be tired carrying me along or toting as I would say if I were a southern rabbit You must be tired. Wouldn't you like to rest and refresh yourselves with some nice red candy sticks?"

"Sure we would!" mewed the Bob Cat.

"But where can we get some red candy sticks?" sked the Fox.

"Open the bag and let me out for a minute and I'll show you what I have in my pocket," said the rabbit.

The Bad Chaps talked together in whispers and the Wolf said:

"We'll open the bag and let you out for a minute but you can't run away for we three are too strong for you."

So the Wolf opened the bag, Uncle Wiggily took out the cold candy red icicles and gave them to the Bad Chaps.

"Oh, what lovely red candy!" mewed the Wolf. He took a big bite. The Fox took a big bite. The Bob Cat took a big bite. And then they all howled: "What cold candy! Oh, how our teeth ache! Oh, wow!"

And they were so surprised and in such pain from the red cranberry icicles that before they could do anything Uncle Wiggily hopped out of the bag and ran safely home to his bungalow. And the Bad Chaps were left holding the bag and jumping up and down because of their cold, aching teeth.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

I wonder how many of you housewives rise early in the winter just as you do in the summer?

• • • • • •

It doesn't seem to be too hard to get up when the mornings are bright but when it is dark, one likes to remain in bed just as long as possible.

• • • • • •

However, we should all strive to rise early—there are two reasons for so doing—one is the need of a long day in which to accomplish the day's tasks.

• • • • • • •

The other is the preference to have leisure for rest or pleasure after one's work is accomplished, or between the hours of work. Unless one gets up early enough the tasks one must do takes up all the time and it is impossible to get an opportunity for either rest or pleasure.

• • • • • •

It may be that a homemaker has to rise early to have breakfast in time for some member of the family to get to his or her work. Her own choice might be to sleep until later in the morning.

• • • • • • •

But even if this is the case, it is to get work done that she must rise although this work may be done by another. The homemaker can take advantage of the long day since the early rising permits of rest later on.

• • • • • • •

Early rising has such advantages that a woman who can suit her preference about the hour when she gets up, may well choose to rise at a reasonably early hour.

• • • • • • •

Of course we are not considering the housewife who lives on the farm and must rise early, but are considering the housewife who for an hour or more sleep in the morning must rush through the work of the day with scarcely enough time to do any task as it should be done.

• • • • • • •

Such haste wears the nervous system. During the hours when such a housewife is up, she has no moments of leisure. Her days are harder than they need to be.

• • • • • • •

Getting up early is of no value if one loiters over work because of the time one has. Better sleep, if one can, unless the minutes are put to good use.

• • • • • • •

A homemaker, who, by rising early, is able to get the work out of the way, appears to be a person who has plenty of time. Pressure of work makes life hectic, when one tries to do it in hours made too short by late rising.

AWAY WITH MESSY POULTICES AND PLASTERS

Thermogene is as soft as down. Pin or bind it over that part that pains . . . Then . . . comfort . . . ease from pain . . . blessed relief.

Thermogene induces a penetrating warmth that lasts. It reaches the congestion that's causing the pain. Its healing power is so sure that doctors and nurses urge you to use it. They use it themselves.

Ready for instant use and easy to apply. Cleanly. Stays in place. Can be worn in most cases unnoticed whether at school, at business—or wherever you may be. Thermogene is as easy to take off as it is to put on.

Thermogene is the modern treatment to bring relief to all pains caused by colds and chills.

Your druggist has it.

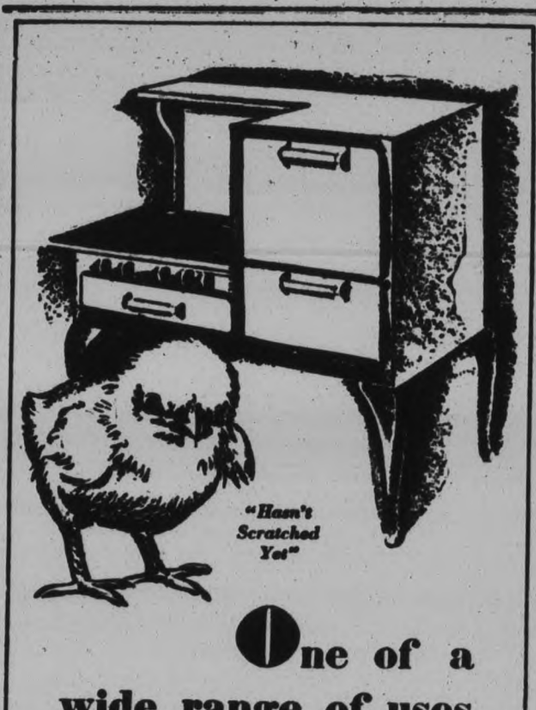
TO RELIEVE CHILL-CAUSED PAIN

THERMOGENE
Put it where the Pain is



One of a wide range of uses

What if the frying pan does spatter your enamel range? Just remember—Bon Ami cleans it off—*glistening* clean—*and without scratching* or marring it. That last is important, for once that gleaming enamel is scratched, dirt and grime lodge there—and *stay!* Twice as hard to clean the next time—gritty-faced and dingy forever in the bargain.

Bon Ami keeps white enamel sparkling white—looking always new because it polishes as it cleans. And there's not a scratch in forty 'leven carloads. This snowy-white household helper is kind to your hands, too — it never reddens or roughens them.

Maroons Gain Point On Amerks In 3rd Place Battle

TORONTO HOLDS GOTHAMITES TO 1-ALL DECISION

Strong Defensive Work on Play of Both Teams Features Match.

BRUINS DOWN QUAKERS 5-1.

Maroons Retain Record By Taking 3-2 Count From Chicago Hawks.

TORONTO, Ont., Feb. 25 (By George Maguire, Canadian Press Sports Writer).—Two tightly-contested tussles and a "walkover" victory in the National Hockey league's three game schedule last night did not materially effect the standing of teams in either group.

Montreal Maroons, by maintaining their season's unblemished record with a splendid overtime triumph over Chicago's Blackhawks, gained a point on New York Americans in the scramble for third place honors in the Canadian section. The final score favored the Munromen, 3 to 2, and marked their fourth straight triumph over the speed artists from the Windy City, who occupy second place in the United States division.

The three "S" line of Seibert, Smith and Stewart occupied the limelight in the Maroons' last desperate stand for a play-off berth. Seibert notched the tieing marker in the third frame and the winning goal in the first minute of the overtime. Smith opened the allying in the first 20 minutes and assisted Seibert with his third chukker counter. Stewart performed his customary duties of wearing the opposition down to perfection.

In the second period Chicago threatened to shatter the Maroon "jinx" when Gottselig converted Couture's pass into a pretty goal to give the Hawks a 2 to 1 lead, which they held until late in the third frame. Couture tallied on Gootselig's pass to equalize the court in the first period.

Leafs Tie Amerks

While the Maroons were overcoming the Hawks Toronto Maple Leafs lent them a helping hand by holding New York Americans to a one-all deadlock in Madison Square Garden. Only one point separates the Montrealers and New Yorkers now, but Toronto has a four point lead over the third place Americans in addition they have played two games less than either of the third place rivals.

The Leaf-Amerk clash proved rough and exciting throughout with strong defensive work featuring the play of both teams.

King Clancy, dynamic defenceman notched the first counter of the exciting fray, late in the third session, but the star flecked gladiators knotted the count in just 25 seconds, when George Massecar and Frank Carson stickhandled cleverly through the Toronto rearguard to give Goalkeeper Larry Chabot no chance to save.

It marked the third time this season the teams have failed to break a tie, two previous contests ended in scoreless draws, although the Duncanites hold a two to one edge in victories during the series.

Led by the dazzling Eddie Shore, rated by the experts as the league's greatest defenceman. Boston Bruins experienced little difficulty crushing the tail-end Philadelphia Quakers, 5 to 1. Shore got three of the Bruin tallies unassisted. Art Champan and Barry got the other brace. Hib Milks scored the lone Quaker marker in the final frame.

It was Boston's fifth consecutive triumph over the cellar occupants.

Merve Peever Entered In New York Tourney

KINGSTON, Feb. 25. (Special to The Examiner).—"Merve" Peever, Renfrew a Jueen's student, is in New York an invitation member of Varsity, Toronto, who are staging an assault at Armstriere to-night.

In twenty four fights Peever has knocked out 23 opponents, and only a kind heart prevented him from maintaining a perfect record. He has fought four times in intercollegiate assaults, winning all four by knockouts while his total time in the ring does not equal five minutes. In Toronto tourney just finished he was in the ring twice for a total of two minutes, during which time he scored three knock downs and two knockouts.

Jack Jarvis is entering Peever for Ontario championship and Olympic tryouts. Leading sports writers already proclaim him the best Olympic prospect in Canada.

Edwards Faces Strong Competition To-night

NEW YORK, N.Y., Feb. 25.—Phil Edwards, fast striding negro from Hamilton, Ont., to-night faces a Herculean task in his defence of the 600 yards race at the national A.A.U. championship indoor track meet.

To retain his hold on the title Edwards will have to come in ahead of such runners of renown as Seraphin Martin and Paul Keller of France, Eddie Roll, Newark A.C., Bernie McCafferty of Holy Cross and Alex Wilson of Notre Dame.

Edwards is the only Canadian running at the meet, which is expected to produce several new world records.

o 10 minutes overtime; m played Monday.

T.V.L. PLAY-OFFS START ON FRIDAY

Stirling Will Play Home Game on Belleville Ice—Madoc Likely Do Likewise.

RUN SPECIAL TRAIN.

(Special to The Examiner)

STIRLING, Feb. 25.—The first game in the Trent Valley League playoffs between Madoc and Stirling will take place Friday night in Belleville with the second probably on Tuesday.

Stirling decided to take their game to Belleville and will run a special train Friday night. It is possible that the Madoc management will also transfer their game to the same ice, but this detail has not yet been definitely announced.

THREE TEAMS TIE FOR ONTARIO LEAD

Stratford Nationals Hold Oshawa Pats to 3-all Stalemate.

TORONTO, Ont., Feb. 25.—(By the Canadian Press.)—Stratford Nationals created a triple tie for first place in the Ontario Hockey League by holding Oshawa Pats to a 3-3 stalemate in the lone scheduled fixture.

The contest was played at Brantford and pleased the fans who were seeing their first professional hockey in some years.

Oshawa secured a two to one lead in the second period after the first frame had ended in a one-all tie. The Nationals' superior stamina enabled them to outscore the Pats in the last chapter and gain a deadlock which lasted through the extra period. The Nationals are now tied for the top rung with Kitchener and Guelph, while the recent leaders, Galt Terriers, have been relegated another notch farther down the ladder.

Three games are scheduled to-night, Stratford travel to Kitchener, Guelph to Niagara Falls and Oshawa to Galt. The results hold possibilities of a wholesale shake-up in the standing as only two points separate the top and fifth place teams.

To-night's Schedule.

Ontario League.
Stratford at Kitchener.
Guelph at Niagara Falls.
Oshawa at Galt.

Canadian-American League.
Springfield at Providence.

BISONS PRACTICALLY CLINCH FIRST PLACE IN KING LOOP

Three Points Separate Four Other Clubs in Battle for Second Position.

BULLDOGS TAKE TUMBLE.

TORONTO, Ont., Feb. 25 (C.P.)—Only three points to-day separate the four teams, other than Buffalo, who are staging an exciting race for play-off positions in the International Hockey League.

The Bisons appear the class of the King loop and have first place just about clinched by reason of their 10-point lead, but Windsor, London, Cleveland and Pittsburgh have plenty more victories to register before their positions will be in any way secure.

Windsor Bulldogs took a tumble right in their own arena last night when London Tecumsehs handed them the short end of a 4 to 3 score and now they hold only a two-point advantage over the third-place rivals, London and Cleveland.

The Indians kept pace with London by nosing out Detroit Olympics, 4 to 3, in the Ohio city, while in the third scheduled match at Fort Erie, the Bisons scored a goal in the last five seconds of play to tie the Syracuse Stars and win out in the overtime, 6 to 4.

Long shots played a prominent part in the Tecumseh win over the Border City outfit. Three of the victorious team's counters were chalked up in this manner.

The Bulldogs gained a 2 to 1 lead in the first frame when Earl Robinson and Roche tallied after Leo Quenneville had opened the scoring for the Londoners.

Two goals in the middle frame by Mike Neville and Quenneville sent the Tecumsehs into the lead, and "Toots" Holway clinched the verdict in the third period by scoring on his own rebound. Robinson got the Bulldogs' final marker in the last minute of play.

N.H.L. SCORERS.

CANADIAN SECTION.

Team, Canadiens. Played 35, won 22, lost 8, tied 5; 49 points.

Most points, goals and assists — Morenz, Canadiens, 24 goals, 19 assists; 43 points.

Most assists—Boucher, Rangers, 22.

Most shutouts—Chicago 99

HOCKEY FANS VOICE DISAPPROVAL OF TWEED HOCKEY CLUB ACTION

Fail to Show Up for Final Fixture on Madoc Ice—Biggest Gate of Year.

CUSTOMERS DISAPPOINTED.

MADOC, Feb. 25.—At least 1,200 angry citizens milled the streets of the town last night. Every corner was the scene of a discussion—mostly one-sided, and the topic was Tweed.

There was no question about it, the crowd was peeved and they apparently had a right to be, for at 8 o'clock, with the rink half full and 600 or more lined up to go in, word was received that Tweed had refused to play their final game of the Trent Valley League.

Referee Max Board from Peterborough had arrived, Madoc Black and Whites were warming up on the ice and the best gate of the season was in sight when the rumor that had been flitting around for several hours apparently seemed true. W. J. Whitty, president of the league, at Stirling on a rush call phoned Tweed management and after a discussion confirmed the report that the Tweed crew would not be present.

Money Refunded

The local management had no choice but to refund all receipts and on the evening's performance figure they are out $300. In order that the fans be not entirely disappointed, an exhibition game between the regulars and the High school was staged, but despite the fact that some smart hockey was dished out it was not what the spectators wanted. They had come, many of them miles to see some real action as a sequel to the Barkey-Geraldi fracas in the Tweed-Madoc game in Tweed on February 6.

Hard Words

Many things were said, most of them "not nice" about Tweed, the whole affair apparently revolving about, and starting from that scrap in Tweed.

For this, Madoc's only come back is the referee's expenses and $25 forfeited by Tweed under the T. V. L. rules.

THE RING.

Akron, O. — Meyer (K.O.) Christner, Akron, outpointed Emmett Rocco, Ellwood City, Pa. (10), newspaper concensus.

Indianapolis — Midget Mike O Dowd, Columbus, O., and Phil Zwick, Cleveland, drew (10).

Oklahoma City — Cowboy Owen Phelps, Montana, knocked out Sailor Enright, Philadelphia (1).

Los Angeles — Ernie Schaaf, Boston, outpointed Dynamite Jackson, Los Angeles (10).

FRAZERVILLE

Miss Roberta Holden spent the week-end the guest of Miss Bernice Thornton, Millbrook.

Miss Pearl Carl was the guest of her friend, Miss Evelyn McElroy on Sunday.

Mr. and Mrs. D. W. Page and sons Fred and Willie of Toronto spent the week-end the guests of Mr. and Mrs. R. Moncrief.

Mrs. M. W. Leigh of Hilton was a guest at the home of Mr. and Mrs. Ray Finlay recently.

Mr. and Mrs. Walter Moncrief and family were guests of Mr. and Mrs. George Ward, North Monaghan on Sunday evening.

Miss Mary Lackey, R.N., of Peterborough is visiting her parents, Mr. and Mrs. James Lackey.

The C.G.I.T. will hold their weekly meeting at the home of Mrs. Arthur Hewitt on Friday evening, February 27th.

STIRLING CREW EASILY DEFEATS MAROONS 8 TO 3

Largest Score During Any T.V. L. Fixture in Present Schedule.

HOMESTERS HOLD LEAD.

"Dib" Little, H. Ingram and Day Are Successful Marksmen for Winners.

STIRLING, Feb. 25. (Examiner Correspondence). — Meeting for the last game this season, the Stirling sextette sent the Maroons home to the tune of 8-3, the largest score made in any of the season's games.

Campbellford seemed unable to get started in the first period which ended 3-0 for the homesters. The first two were netted while Fred Ingram was in the pen.

Tallies for the opening period: Davis, H. Ingram, White.

After the first intermission, within the first two minutes Ty Little added another to Stirling's points. This period was featured by many near goals. It showed fast play, although the ice was soft ranging from one net to the other, ending in a 4-0 count.

Although possessing a 4 point lead in the third period the Red and Whites did not resort to a defensive game, McKay stickhandled his way through the defence and netted a tally for the Maroons.

In about one minute Day scored on a pass from White. McKay followed suit with another marker. Encouraged by this Whitton was successful in getting by Morton with a counter.

Dib Little scored following this and almost immediately H. Ingram added another for good measurement. Dib responded with another tally, the game ending, Stirling 8, Maroons 3.

Ingram and Dib Little counting 4 goals between them earned loud applause. Davis played very little during the last period but the subs, Day and White did splendidly.

Whitton had a lot of shots on goal but Morton would have nothing put over him. Summary of the game:

First Period

Goals—Davis, H. Ingram and White.
Penalties—Fred Ingram 2, White 1.

Second Period

Goal—Ty Little.
Penalties—Davis, Dib Little, Fred Ingram.

Third Period

Goals—Dib Little 2, H. Ingram, Day, Stirling. McKay 2, Whitton, Campbellford.
Penalties—Fred Ingram, Beattie, White and H. Ingram.

Referee—Smith of Kingston.

Line-ups:

Stirling—Goal, Morton; defense, Beattie and H. Ingram; center, Davis; wings, Little and Little; subs, Ackers, Day, White.

Campbellford—Goal, Sanders; defence, Cowall and F. Ingram; center, Whitton; wings, McKay and Fleming; subs, Bushe and Lambert.

LAKEFIELD

Mrs. Fred S. Brown entertained at three tables of bridge at her pretty home on King street on Thursday afternoon, first prize being won by Mrs. N. W. Kyle and the consolation prize by Miss Graham. Mrs. A. Moore, of Belleville, Mrs. Brown's mother, assisted her daughter.

Mrs. Brown entertained at afternoon tea on Tuesday in honor of her mother. Tea was served in the dining room, Mrs. Moore pouring tea at the polished walnut table centred by a bouquet of spring flowers.

Mrs. W. J Creighton was one of the bridge hostesses last week. She was assisted by Miss Maude Creighton and prizes were won by Mrs. K. A. Mackenzie and Miss Perry.

CENTRETON

Friends of Mr. John Gillespie will regret to learn that he is ill.

Mr. and Mrs. J. Macklin visited the latter's brother, Mr. Alvin Milne on Saturday.

Mrs. J. Smith was a visitor at the home of Mr. and Mrs. J. Gillespie on Saturday.

Miss Nellie Baggley spent the week-end at her home here.

Mr. T. Gall was the guest of Mr. and Mrs. J. Gillespie on Saturday.

Mr. and Mrs. Alvin Milne visited Mr. and Mrs. J. Macklin on Saturday, the latter accompanying them home.

Mr. C. McGregor was in Baltimore on Saturday.

Mr. N. Gleason and Bert Blodgett were visitors to Cobourg on Tuesday.

Mr. and Mrs. W. Rogers and daughters Dorothy and Eileen, Mr. and Mrs. J. E. Macklin and Mr. Lyle Milne, all of Fenella, attended the dance at the home of Mr. and Mrs. A Milne on Monday evening.

There was a splendid attendance at the Sunday school and church service on Sunday. Miss M. Bethel and Mrs. A. Nichol sang a duet, "The Man of Galilee."

Mrs. O. Brown and daughter were visitors to Centreton on Sunday.

The many friends of Miss Dorothy Down will be pleased to learn that she is improving after her recent illness.

Mr. Harry Goodie, of Toronto, spent the week-end at the home of his uncle, Mr. James Baxter.

Mr. Roy Baxter, of Cobourg, returned home on Saturday after visiting his sister, Mrs. L. Hie.

Mr. T. Waldie, of Grafton, was a visitor to Centreton on Sunday.

LIFE MEMBERSHIP GIVEN AT STIRLING

St. Andrew's W.M.S., Stirling, Hold Regular Monthly Meeting.

STIRLING, Feb. 25 (Examiner Correspondence).—The regular meeting of St. Andrew's W.M.S. was held at the home of Mrs. B. Hoard.

Mrs. Alex Pargey presided.

The roll call was responded to by items regarding the school homes and hospitals in the West.

Mrs. Charles Bailey gave a full report of the Presbyterial.

Mrs Spinks gave a review of the "Glad Tidings." Mrs. Baker and Mrs. Hoard reported having made 17 calls on shut-ins.

Mrs. J E. McGee was presented with a life membership certificate from the Ladies' Aid.

St. Andrew's Guild

On Monday evening the missionary service of the Guild was held.

Mrs. Mae Nolan had charge of the meeting Mrs. R. Meiklejohn acted as leader.

Mr. A'ex. Nathan gave a beautiful reading, "A House by the Side of the Road."

Mrs. Hammond gave a Scotch recitation. Winnie Ward gave the topic a story of the hardships overcome in foreign fields by MacKay of Uganda.

A missionary playlet, "If I Were You," was given by Margaret Rosebush and Helen Ward.

Charles Allen delighted the audience by an interpretation of a Chinese Romance, as a piano selection. This shaded from the love lyric to the noisy clamor of the wedding parade.

Mr. Earl Bailey has recently purchased the home belonging to Mrs. James Ralph.

Mr. Duffin has become owner of the Ralph undertaking parlors and furniture shop.

Mrs. (Rev.) Byers is very ill. Mrs. (Rev.) B. Payne of Athens is with her, also Miss A. Fleming.

Miss Gladys Rosebush has been visiting Mrs. H. Hulin.

Mrs. R. Armstrong has been visiting her sister, Mrs. H. Morton. Her little daughter, Betty, is with her.

LONGSHOREMEN STRIKE TUESDAY

NEW ORLEANS, La., Feb. 23. — (CP)—The water front was quiet today as the scheduled strike for union longshoremen went into effect Leaders in the controversy over a cut in wages by some steamship lines looked for a test of strength tomorrow, since to-day was observed as a holiday by some of the line.

The Colombian Congress has authorised a study of the proposed commercial airline between Medellin and the Gulf of Uraba.

LOCAL RINKS IN CURLING FINAL

Defeat Toronto Vics By Three Shots to Qualify For Ontario Ladies' Tankard.

THREE IN CONSOLATION.

Peterborough and Granites will meet this morning at the Granite Club in the finals of the Ontario ladies' tankard. Both survived in the elimination games yesterday, getting byes in the preliminary round and winning in the semi-finals. Peterborough defeated Toronto Victorias by a margin of three shots, after the losers had collected a 29-shot victory over Thornhill in the opening round. Granites won over Oakwood by three shots.

Five clubs started in the competition, leaving three in the consolation series, Torontos, Thornhill and Oakwood. The trio will play a triple series with Victorias meeting Thornhill this morning at 10 o'clock, Oakwood playing Thornhill in the afternoon while Toronto and Oakwood play Thursday morning. In case of a tie after the three-corner series total points will decide the consolation. Scores:

Preliminary Round

Toronto		Thornhill	
Mrs. Myles		Miss Hooper	
Miss McDermid		Mrs. Scott	
Mrs. Temple		Mrs. Luesby	
Mrs. Smith	10	Mrs. Case	8
Mrs. Lewis		Mrs. Pearson	
Mrs. Grant		Miss Francis	
Mrs. P. Grant		Miss Campbell	
Mrs. Patrson	29	Mrs. Monroe	2
Total	39	Total	10

Majority for Toronto, 29 shots.

First Round

Peterborough		Toronto Vics.

LAST YEAR'S WINNERS DEFEAT KING EDWARD ON ROUND 5 TO 4

King George School Wins 3-2 Decision in Second Game Last Night.

KEEN RIVALRY.

The Public School League hockey championship remains with King George School for another year, as a result of their 3—2 win over King Edward at the Brock Street Rink last night. They won the round 5 to 4, showing how well-matched the two teams are. There has been a long, good-natured rivalry between the two schools in all lines of sports quite apart from the other public schools of the city. A great deal of credit must go to Sports Directors Don Crawford and George Northey, who are responsible for the clean, competitive spirit existing between King George and King Edward.

Over four hundred fans, mostly children, yelled themselves hoarse last night while the two outfits fought it out in an even and lightning fast game on a swell sheet of ice. King George won but it could have just as well been King Edward, the teams were so evenly-matched. Both were speedy, combined well, back-checked hard and shot often. The winners got one of their goals by following in quick for the rebound, and that's what swung the balance.

See-Saw Affair

Neither outfit countered in the first, the play being up and down with both goalies having to stop a bunch. Gardiner scored one for the East City crew in the second, getting in close and slamming the puck past Dunkley. Shortly after, Field grabbed a rebound and picked the corner of the net to again knot the round. Late in the second chukker, Boyler went through on a classy piece of stick-handling, drawing the goalie out and slipping the disc into the cage to make it 2—1 for King Edward. The last frame found the boys travelling in high, the play going from end to end. Half-way through, Burton came in fast for a rebound, and one more it was tied up. Shortly before the end, Burton took a pass from Lipsett and whistled in the big one. From then on the losers worked their heads off, and had the King Georgers battling mightily to keep them out when the final bell brought the struggle to a close.

Both goalies played bang-up games, while Burton and Hill were perhaps the best for the winners, though every player went great. Field looked good for the losers, but there was little to choose among any of the boys. There was not a single penalty handed out throughout.

The teams:

King Edward.—Goal, Dunkley; right defense, Field; left defense, Patterson; centre, Jobe; right wing, Mowry; left wing, Boyler; alternates, Heal, Todd, Post and Brown.

King George.—Goal, Hunter; right defense, Hill; left defense, Epps; centre, Lipsett; right wing, Burton; left wing, Howland; alternates, Hoy, Loescher and Gardiner.

Referee.—M. Park.

Richard Barbee and Elisabeth Risdon in "Strange Interlude" at Grand Opera House, Monday, March 9.

Margaret Etzdorf, the German airwoman, recently flew a small airplane from Berlin to Cape Juby of the West-African Gold Coast.

HARVEY RINK WINNERS IN DOBBIN TROPHY FINAL

Garner 16 Shots Against 7 By Tommy Hooper's Rink to Walk Away With 9 Shot Total For Prized Cup — Local Rinks Capture 23-19 Decision From Millbrook Curlers.

SCHEDULE PLAY-OFFS OPEN TO-NIGHT.

Meeting last night in the finals for the R. L. Dobbin Trophy, for leads and seconds, Skip Harvey's rink got the best end of a 16—7 decision over Skip T. Hooper's rink. The personnel of the contesting rinks was as follows:—

Rev. David Wren	P. Hooper
G. Braund	C. Thompson
R. Hutchison	G. Robertson
W. Harvey	T. Hooper
Skip.....16	Skip..... 7

A friendly match between Millbrook and Peterborough on the local ice last night resulted in a 23—19 win for Peterborough. The skips were:

Foote 12	Steel 10
Martin 11	Ball 9
—	—
23	19

Two schedule games were also played; the third game going to Downey, when Skip Oke defaulted. Chenhall was one up on Moore with 8, while Skinner beat Seymour 14—8.

This afternoon Skips Hall, Downey, Seymour and Bacon took their rinks up to Lindsay, while four Lindsay rinks came down to the local curling headquarters to meet Skips Chenhall, Dobbin, Fraser and Moore in a contest for the Peterborough-Lindsay Trophy.

This is an annual event, although on account of the heavy schedules in the past, this important fixture has not been played for three years, on which occasion the Lindsay outfit won the cup. The local men hope to recapture the trophy to-day.

The schedule play-offs of the Peterborough Curling Club open to-night, with nineteen rinks in the first and second prize draw and fifteen rinks for the third and fourth prize draw. The preliminary in the first series will see Morrow pitted against Cairns, and Foote vs. Fitzgerald, and Best battling Sedgewick. The following rinks will also take the ice to-night in the first round:—

Wiley vs. Fraser.
Oke vs. Campbell.
Green vs. Downey.
Marshall vs. Seymour.

DAZZLER PLAYS GOLF.

CLEARWATER, Fla., Feb. 25.—The news that Babe Herman is rapidly approaching this municipality broke here late yesterday afternoon, but Professor Robinson professed nothing but ignorance of the whereabouts of the second best holdout on the Brooklyn team.

Charles Arthur Vance, who is holding out for a little item of $5,000, arrived yesterday afternoon, but did not go near the baseball orchard. Instead he hauled out his trusty golf sticks and went pill swatting at the Clearwater Country Club.

Approached at the seventh green and asked if his holdout was a triple threat or a mere gag, Vance replied haughtily:

"If anybody says I have already signed and this is just a publicity racket he is no friend of mine. No, sir. I want that five grand. That's the truth. I wouldn't lie to you—not on Washington's birthday, anyhow."

Herman was reported at San Antonio on his way here from California. He stopped over in the Texas city and was spotted by newspaper scouts with the Giants.

The Brooklyn Babe is due here next Wednesday. Probably Frank York, president of the Brooklyn club, will just drop in casually, too. York and Herman are only $1,000 apart, which is only a hop, step and jump.

Herman demands a $5,000 raise because he nearly led the National League in batting last season, made only three errors and didn't get hit on the head once by a fly ball. On those three counts York raised him $4,000, and not to be outdone in generosity the Babe added another $1,000 himself, making the total $20,000. He'll get it, too. Vance is further away, but he will be seen also.

YANKS LINE UP SIXTEEN PLAYERS

Six Athletes Missing From Gotham Squad in Initial Work-out.

FOUR ACCOUNTED FOR.

ST. PETERSBURG, Fla., Feb. 25.—Eighteen ball players answered the opening roll call call of Joe McCarthy, new Yankee manager, at Huggins Field here Monday and exercised for about two hours under ideal weather conditions. The sunshine of which the local Chamber of Commerce is alike so proud and boastful, was operating on all bulbs, and Mr. McCarthy admitted at the conclusion of the short session that he was delighted.

Six of the twenty-four players who had been ordered to start work this morning are still among the absent but four of them have been accounted for. George Pipgras is unavoidably detained while waiting for the effects of his appendicitis operation to wear off.

Herb Pennock is due to leave the old Manse in Kennett Sq. to-day in the family flivver. Charley Ruffing has been delayed by a cold but is due here to-day and Paul Andrews sent word that the serious illness of his father makes it inadvisable for him to leave at this time.

On the list of absent and not accounted for are Vernon Gomez and Johnny Allen. They are supposed to be on their way, or at least nothing has been heard to indicate they plan to remain away for any extended time. They are signed so their absence is not causing any concern.

Announcement Extraordinary!

Definite arrangements have finally been made with The Theatre Guild, Inc., for the presentation here of

Eugene O'Neill's Epochal 9-Act Drama

"STRANGE INTERLUDE"

at the

Grand Opera House, Monday, March 9

GRAND OPERA HOUSE

BE SURE to inclose a stamped, self-addressed envelope so that your tickets may be mailed to you.

BE FOREWARNED: Wherever presented this Pulitzer Prize Play has completely sold out.

Rain Calls Postponement To "Pa" Stribling's Hopes Last Night—Arranged For Wednesday

MIAMI, Fla., Feb. 25 (C.P.)—Weather permitting, "Pa" Stribling hoped to marshal his fistic forces to-night for a heavyweight show topped by a ten-round bout between Mickey Walker, middleweight champion, and Johnny Risko of Cleveland.

The card, arranged as the first of two possible carnivals of sock in Miami, was postponed from last night because of rain.

The prospects were for clearing weather this afternoon and favorable, if not actually moonlit and balmly atmosphere for the evening.

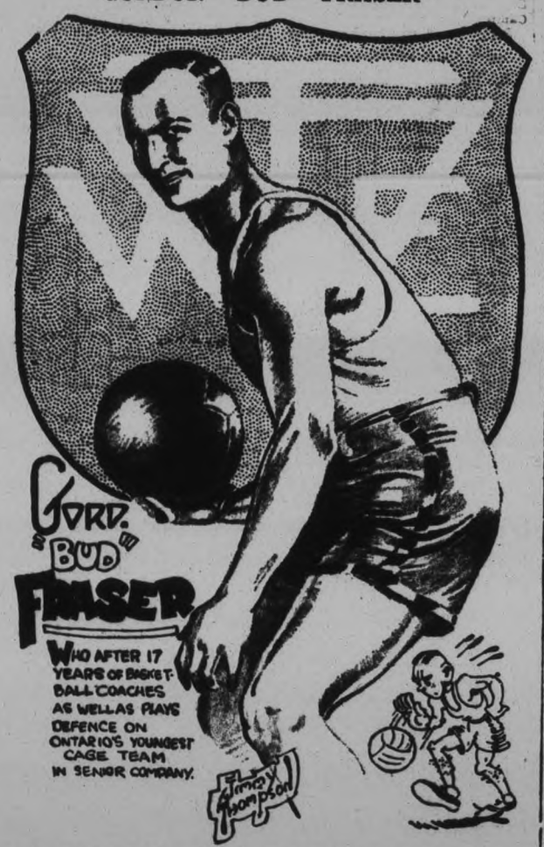
Promoter Stribling, with another day in which to lure the elusive customer to the turnstiles, optimistically hoped to go over his "top" of a $50,000 gate for the show, which will include exhibition by the forthcoming heavyweight title rivals, Max Schmeling and W. L. (Young) Stribling.

The fate of to-night's bouts, artistically as well as financially, may have a bearing on plans for the second show, March 5, when Primo Carnera is slated to meet Jimmy Maloney of Boston at ten rounds under the direction of Frank J. Bruen, general manager of the Miami Racing Association.

Despite Bruen's insistence that the show would go on, with Carnera playing the feature role in defiance of a cracked rib, the feeling has persisted that it will either be re-vamped or called off altogether. The latest report was that Walker, if he beats Risko again, would be asked to substitute for Carnera.

This would mean much less strain on the ring supports, inasmuch as Walker scaled only 165½ yesterday as compared with Primo's current poundage of 278. Risko tipped the beam at 194 and thus had a 28½ pound advantage over the middleweight champion.

GORDON "BUD" FRASER



Truly may Fraser be called the "Daddy of Canadian Basketball" or the player who "sticks and stays stuck." Seventeen years is a long time to play senior basketball for any one club, but this is the length of time that Fraser has been playing for the Toronto West-End Y.M.C.A. Old age and scarcity of hair may be rapidly overtaking him, but he can still take his place on the rear guard and turn in a game the equal of the best of them. This year in addition to playing, "Bud" is coaching the West-End team, composed of one of the youngest squads in senior company, and under his "fatherly" hand, they have been winning consistently.

Basketball fans will still recall an incident that happened a few years ago. West-End had travelled to Windsor where they took a trimming, and at the same time a rough passage from both the Windsor players and the spectators. Incensed at the treatment accorded their players, the West-End fans were out in full force when Windsor paid the return visit to Toronto, and they proceeded to make life miserable for the Border Cities crew. The referee was powerless and few teams have had to take such a "razzing." A player from the West-End bench walked to the centre of the floor It was Fraser, and holding up his hand for silence, he asked the crowd to forget the treatment West-End had received, and to treat the visiting players as guests should be treated. The effect was marvellous, and good plays on the part of both teams were lustily applauded, and in the end West-End were returned the winners.

Fraser has played for ten consecutive years in a Toronto Senior Basketball League. When asked why he stayed so long with the same team, Fraser replied that as long as a club treated him fairly he could see no reason why he should leave and join some other.

Despite the fact that he managed the Lakeside Ladies' Senior Basketball team, champions of Eastern Canada for several seasons, Fraser has so far remained immune from the wiles of "Dan Cupid," although his old cronies are not seeing just quite so much of him as formerly. There may be a reason. In fact, several say the "reason" is a good one.

Pla-Mars and Hornets Push Towards the Top

CHICAGO, Feb. 25 (CP)—Two hockey squads made headway in the bitter battle for front-row seats in the American league last night and one of them gained its end in a wide and open way. While Kansas City was winning a 5 to 2 decision from Chicago Shamrocks, Duluth Hornets were bagging goals on St. Louis at a new high-record pace.

The impotent fliers were riddled by Hornet shots, 139 of which landed behind the hapless goalie Herbie Rheaume. St. Louis scored three.

TENNIS RANKINGS.

TORONTO, Ont., Feb. 25. (CP)—Ranking tennis players in the various provinces of Canada, have been selected by provincial committee and confirmed by the Canadian Lawn Tennis Association

The Ontario selections are:

Men

1.—G. Nunns.
2.—W. L. Rennie
3.—D. Martin.
4.—L. Proctor.
5.—L. Hilts.
6.—M. Margesson.
7.—R. Durnand.
8.—G. MacLean.
9.—B. Doherty.
10.—E. Pyne.

Women

1.—Jean Adele Burritt.
2.—Mrs. E. F. Coke.
3.—B. Symons.
4.—Mildred Brock.
5.—Evelyn McDonald.
6.—Mrs. H. L. Beer.
7.—Mrs. H. B. W. Smith.
8.—Mrs. P. Haworth.
9.—E. Bennett.
10.—A. Brown.

THEATRES

AT THE CAPITOL

"SCANDAL SHEET"

"Get the news—that's my identity; print the news—that's my creed!" George Bancroft, who plays the role of the supreme egotist, Mark Flint, in "Scandal Sheet" enunciated his his policy of life. He printed all the news—the nastier the better. So when one of his reporters (ignorant of the lady's itentity) snapped the picture of his best friend and of his own wife, he printed the story. He even went a step farther. He came back to the office after he had killed the gentleman and dictated the front page lead to his stenographer.

"Scandal Sheet" is a story of the Fourth Estate, as the newspaper world is termed. But it is not the sort of reputable newspaper that goes into the best homes. Mark Flint controls The Bulletin, a "scandal sheet" that searches for the dregs of life—and prints the result. He is a hard-talking hard-boiled person who fires workmen with great alacrity and threatens to resign when he can't put all the scandal into the paper. The part is unsympathetic. No one cares a bit when Mark Flint gets caught with an unfaithful wife and a faithless friend.

George Bancroft plays it well. He is perhaps not quite as convincing as in that famous roll of his in "The Wolf of Wall Street' but he has keyed his voice to a lower level, and the result, combined with the hard, ruthless role that goes with his part in this picture, is not quite as convincing.

Kay Francis has altered her manner of hair-dressing. She has grown luscious in this picture, instead of svelte and smooth, and the effect is startling. The soft coiffure suits her better than ever and gets over her vampish role in wonderful style. She like her husband, is an egotist to the bone. They play their modern game of nerves and intrigue and deception, right to the limit. In fact, every actor in this picture poses, with the one exception of Clive Brook as Noel Adams.

There is no extraneous sound in this production, with its new type of soundless release. And there is a new sort of, close-up that brings the faces into bold and etched relief, and seems to suit the roles and the very staccato conversation that is employed. The inferences are at times subtle and then bold with outbursts of sudden passions of wrath and hatred and desire.

The ending is artificial. Mark Flint as the dictator of events at Sing Sing is not at all imposing. It is a letdown in a finale that spoils the effect of a really startling and very entertaining production.

Jeannette.

AT THE GRAND

"STRANGE INTERLUDE"

What will probably prove the greatest treat the playgoers of this city have enjoyed in years will be the presentation here at the Grand Opera House on Monday, March 9 of the Theatre Guild's production of Eugene O'Neill's most iconoclastic play "STRANGE INTERLUDE."

Stepping boldy away from the moss-covered traditions of the stage, O'Neill has written a drama of nine acts, which take from 5:30 in the afternoon until 11 o'clock at night to run, with a brief intermission from 7:40 to 9:00 p.m. for the playgoers to dine, or change from their afternoon attire to evening dress if they be sticklers for the dictates of fashion.

Then, not content with providing the players with some of the longest parts ever put into a modern play, O'Neill has added or reintroduced the old-time "asides." By this method the characters reveal their thoughts, not to one another, for many caustic remarks of a very personal nature are thus uttered, but to the audience which knows all about what each character is thinking as well as saying.

As a fitting climax, O'Neill has chosen for his central figure a warm-blooded young woman whose romance has been suddenly terminated by the death of her sweetheart in the war, and whose subsequent entanglements carry her through almost every variety of feminine experience, marriage, love, motherhood, rapturous happiness, profound grief, until finally the approach of old age cools her down to something like a sane, sensible human being.

A cast of well-known New York players including five from the original production is promised by the Theatre Guild, such as: Elisabeth Risdon, Leonard Mudie, Blaine Cordner, Richard Barbee, Maud Durand, Maurice McRae, Ethel Westley, John J. Burns, Jack Grattan.

DENTIST ROBBED AGAIN.

LINDSAY, Feb. 25.—By a strange coincidence the dental parlors of Dr. H. A. Nesbitt were entered by burglars on Feb. 22 just fifteen years ago, and again on the night of Feb. 22, 1931. When Dr. Nesbitt returned to his office Monday morning he found evidences that thieves had been at work, and missed a few small articles.

ELECTRICS NEED VICTORY TONIGHT

C.G.E. Travels to Lakefield For East Peterborough League Fixture.

LOCAL TILT ON FRIDAY.

The C. G. E. team goes to Lakefield tonight for an engagement in the East Peterborough League, and at Brock Street Friday night Cogs and C.G.E. are booked for one of their two remaining local games, with the last probably Monday night.

C.G.E. must win tonight to stay in the League running. If they can win their three games starting tonight they will be tied with Norwood for second place.

Friday night's game here between Cogs and C.G.E. should strongly appeal to the local fans. Cogs have two more games to play and both are with C.G.E. They must win one of these to pull up on even terms with Norwood. Charlie Curtis, president of the East Peterborough League is beginning to get anxious about the wind up and championship series. The Madoc-Stirling games for the Trent Valley League title are scheduled for Friday and Monday nights, and if an inter-League series is to be arranged, and that has been a prospect all season, the local group will have to speed up their games. Otherwise the Madoc-Stirling winners may decide to hang up their skates, unless in the mean time the Trent Valley champions look around for other post-season encounters.

QUALITY PRINTING With Quick Service

South-End Play-Offs Billed For To-Night

Good hockey is billed for to-night at the Brock Street rink when the South End City League playoffs begin. A bantam game at seven a junior at eight, and a juvenile one at nine should provide spectators with all the action they want.

The leading two teams in each section will play home and home games, goals to count, for the championship and a cup. The boys play a fast rugged brand of hockey, with a bunch of future stars in the making.

The ice is likely to be in good shape for the three battles.

C.G.E. Loop Play-Offs Begin This Evening

The first game in the C.G.E. Shop League hockey championship finals is scheduled for the Brock Street Arena at 6 o'clock this evening. The Brass Department's sextet, winners of Group 2, clash with the Office team, champs of Group 1. The game promises to be a real battle, as both clubs are in great shape for championship affray.

It is the first game in the final series, winner of two games out of three to take the silverware and honors.

GODERICH MAN GETS 6 MONTHS

STRATFORD, Ont., Feb. 25.—Convicted for the fifteenth time of one offence or another Norval Precious of Goderich was yesterday sentenced to a term of six months in that town on a charge of stealing tools from a Goderich garage where he had been employed. Precious was out on bail awaiting trial on another charge when he was caught in a stolen car. His plea that he was simply returning some stolen articles when apprehended, fell upon deaf ears.

Efficiency League Meets At Rush Point

HAVELOCK, Feb. 25 (Examiner Correspondence). — The Efficiency League of Rush Point United Church held their regular meeting in the church, on Thursday evening.

Rev. Mr. Archer extended an invitation to the league to hold a social evening at his summer cottage at Round Lake, sometime during the month of May or June. This invitation was thankfully received and duly accepted. Mr. Archer then gave a very interesting talk on "Violin Scales."

Rev. Mr. Archer sang a solo, "I Heard the Voice of Jesus Say," which beautiful old hymn brought to a fitting close a very pleasant and profitable evening.

Valentine Dance

Havelock Women's Institute held a Valentine Dance in the Town Hall on Friday evening last, to raise funds for the Library. Unfortunately there were quite a number of other affairs and the attendance was not quite so large as expected. However, a thoroughly good time was had by those who attended. Music for round and square dancing was furnished by the Jones Orchestra of Marmora. Charles Allen, studio artist of Radio Studio KYW, Chicago, who is visiting friends in Marmora, presided at the piano for the occasion, and delighted the dancers and onlookers with piano novelties. A canteen lunch counter, in charge of Mesdames Jones and Anderson, was well patronized throughout the evening. Hot dogs, sandwiches, pie and coffee were served over the counter.

Artillery Outscores Rangers "C" 25 To 10

Artillery laid down a barrage on Rangers "C" Company last night in a Garrison Softball League game at the Armories, shelling them under by a 25-10 score. This is the league-leaders' fourth straight win.

Both teams fielded good, but the winners placed their hits in every inning. While there were few extra base drives, singles came thick and fast. Artillery knocked in most of its runs in the first, fourth and the sixth innings, while "C" Company had only one big one, the second, when they crossed the plate five times. Simmons pitched nice ball for the Gunners, and Thornbeck and Hillier divided mound duties for the losers. The batteries:

Rangers "C" Company—P. Hillier, Thornbeck and D. Hillier.

Artillery—Simmons and Griffin.

Umpires—Dunkerly and Calladine.

LADIES OF WARSAW CHURCHES OBSERVE WORLD DAY OF PRAYER

Meeting Conducted Under Leadership of Mrs. Borland and Mrs. George Taylor.

IN DISTRICT CHURCHES

WARSAW, February 25 (Examiner Correspondence). — The World Day of Prayer was observed on Friday afternoon in the auditorium of the United Church by the ladies of the four denominations in the village.

The meeting was under the leadership of Mrs. Borland, president of the Presbyterian W.M.S. and Mrs. George Taylor, president of the United Church W.M.S.

Mrs. James Hawthorne presided at the organ. Mrs. James Greystock is key woman for next year's service. Mrs. George Taylor spoke of having met and heard Dr. macLeod who was at the Jerusalem Conference. There was an excellent attendance at this meeting, and it is remembered that the first service of this kind held in the Anglican Church was not very well attended.

W.M.S. Meets.

The members of the Presbyterian W.M.S. and Ladies' Aid met at the home of Mrs. Munro, when Mrs. Borland presided, and the circle of prayer was Mrs. Munro and Mrs. Richard Tedford.

No topic was given, the time being taken up by reports of the Presbyterial held in Peterborough, Mrs. Borland giving the reports of the morning and afternoon and Mrs. T. H. Crowe the evening session.

A committee of three, Mesdames Munro, Borland, and T. H. Crowe, had been appointed to arrange the program for the remainder of the year. The new study book will be taken up at the March meeting.

At the Aid meeting, the quilt blocks were all given in.

NORWOOD, Feb. 25 (Examiner Correspondence)—The women of the four Protestant Churches met on Friday at 3 o'clock in the Baptist Church for the World Day of Prayer, the meeting being led by Mrs. R. F. Stillman and Mrs. G. A. Brethen.

Following the opening hymn and invocation read by Mrs. Stillman, Mrs. B. Howson and Mrs. T. Buck led in prayer of Thanksgiving while Mrs. John Gardner led in prayer for a witnessing church. Mrs. Brethen led the responsive reading which was taken from Ephesians 6. A delightful solo was contributed by Mrs. G. E. Downing and another session of prayer led by Mrs. Rutter, Mrs. Portway, Miss Jennie Clysdale and Mrs. Clifford Pife. Mrs. J. W. Rork closed the meeting with prayer for "the personal consecration of life, time and talents of the women of all nations."

QUEENSBORO

QUEENSBORO, Feb. 25 (Examiner Correspondence) — The members of the W.M.S. observed the World's Day of Prayer at the home of Mrs. John Alexander, Sr., on Friday afternoon, when the official program sent out from the executive office was followed throughout. Mrs. J. F. Everson, the president had charge of the meeting. Prayers were offered by Mrs. John Alexander, Sr., Mrs. George Holmes, Mrs. John O'Rorke, Mrs. Mary Tokley, Mrs. James Cassidy and Mrs. Bruce Leslie. Miss Marion Love sang sweetly, "If I could know."

MILLBROOK

MILLBROOK, Feb. 25 (Examiner Correspondence)—The Women's Missionary Auxiliary of Grace Presbyterian Church was the hostess society for the annual observance of the World Day of Prayer, the gathering being held in the basement of this church at 3 p.m. on Friday, February 20, with a representative number of women present, and the leaders chosen from the three denominations, Anglican, United Church and Presbyterian.

The practice of making this internationally observed service of intercession a community gathering, sponsored by the three Auxiliaries of the village, has been followed locally for some years now, and has proved a beneficial arrangement from the standpoint of fellowship, understanding and an atmosphere strongly spiritual in character.

The program, "Ye Shall be My Witnesses," was prepared by the Inter-Board Committee of the Women's Missionary Societies of Canada, and was used in some form by Christian women round the entire world.

The chair was taken by Mrs. (Rev.) John Riddell, and associated with her on the platform were Mrs. L. J. Morton, vice-president of the Auxiliary of Saint Thomas' Anglican Church, and Mrs. J. H. George, secretary of the Auxiliary of Saint Andrew's United Church. Mrs. R. J. McKnight presided at the piano.

Mrs. Riddell took the opening meditation, call to worship, responsive readings, and invocation, concluding with two minutes of silent prayer, personal confession, and consecration, and after the prayer, hymn, "Breathe on Me, Breath of God." Mrs. J. H. George acted as leader, the topic being, "Witnessing Through the Ages."

Among those leading in prayer for a Crusade of Righteousness, for King, Country and Empire, and for the League of Nations and all organizations making for peace and good-will among men, were: Miss M. B. Turner, B.A., Mrs. E. J. Whyte, Mrs. E. G. Britton, Miss Annie Armstrong, Miss Estelle Hetherington, Offa Williamson and Miss Pearl Burnham.

Mrs. L. J. Morton filled the position of leader for the responsive readings for the concluding part of this section, and when the hymn, "Publish Glad Tidings" had been sung Mrs. H. Seaton took charge of the topic, "Witnessing in a New Age," those leading prayers for the church, for youth, and for personal consecration of the women of all nations, being: Mrs. T. Ingram, Mrs. J. Thompson, and Mrs. S. E. Eakins.

The closing hymn was "Lead on, O King Eternal," and the benediction was repeated in unison.

Storm at Sicily Rages Third Day

PALERMO, Sicily, Feb. 24. — (C.P.)—The violent storm which swept Sicily for two days and then subsided, raged again to-day.

The fishing boat Vincenzina was swamped at Catania and three persons were drowned. The bridge over the St. Leonard River fell, killing a soldier.

Palermo is practically without water as a consequence of breaking of the Scillato Aqueduct. There is no electricity available.

Mayor Houde Explains Inaction At Election

MONTREAL, Que., Feb. 25 (C.P.)—Mayor Camillien Houde of Montreal, leader of the Opposition in the Legislative Assembly and Provincial Conservative chieftain, told an audience here last night that the reason he took no part in the general Dominion election campaign last year was that he did not want to prejudice the case of the City of Montreal in the matter of the Canadian National Railways branch line proposals in the city.

The meeting was one of protest against the plan of the Canadian National Railways to erect a branch line from Eastern Junction to Longue Pointe, in the north-east section of the city. A section of the city has waged a long fight against the passage of this line because it will mean having railway tracks run through residential sections. The demand has been for underground construction or a circuitous route that would avoid the residential districts.

NEW DATA FOUND ON MAYA INDIANS

Archaeologist Claims Tribe Settled in America Before 336 B.C.

LEADERS LEFT SUDDENLY.

MEXICO CITY, February 25 (C.P.). — Professor Alberto R. Escalona, noted Mexican archaeologist, has returned from Yucatan with what he believes is proof that the Maya Indians settled in America some time prior to the fourth century before Christ.

Their civilization flourished, he said in an interview after his arrival, until between 1003 and 1103 A.D. when ther cultural leaders mysteriously disappeared, and their civilization fell into decadence.

He could not say what prompted the Maya men, priests and chiefs to migrate and leave their people to their fate, but he pointed out that their departure was simultaneous with the disappearance of the cultural leaders of the Toltecs, a pre-Aztec civilization of Mexico.

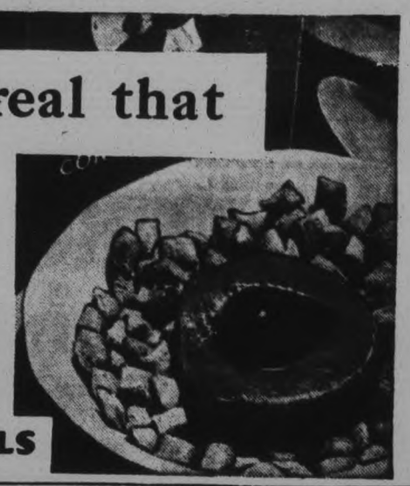
"It now can be stated as a fact," he said, "that the Mayas arrived in America some time before 336 or 356 B.C. The first date noted in the hisroglyphics is somewhere within that period, and it served as the basis for the Mayan computation of time.

"The Mayas arrived in Yucatan about 275 B.C., and settled the city of Chichen Itza between 235 and 255 A.D."

APPEAL ALLOWED.

OTTAWA, Ont., February 25 (C.P.). — The Supreme Court of Canada to-day allowed the appeal of William N. Macaskill against a conviction of murder, and ordered a new trial. Macaskill was convicted of the murder of Norman J. McPherson at Bay St. Lawrence, Victoria County N.S.

At last! a cereal that stays crisp in the dish



QUAKER CRACKELS isn't just a single cereal. It contains the vital energy of wheat. The rich nourishment of corn. The splendid protein of oats. Plus a new *blended* flavour... a flavour that lingers.

Best of all, Crackels has a fresh-from-the-oven crispness that lasts. It fairly crackles as you pour it from its package... stays crisp in your cereal dish, in spite of milk or cream. Buy Crackels today for breakfast tomorrow. Surprise the family with this delicious new food.

Miss J. Deyell of Peterborough was the week-end guest of her parents, Mr. and Mrs. R. Deyell.

Miss B. Barnard of Port Hope spent the week-end the guest of her parents.

Miss H. Fry of Port Hope spent the week-end the guest of her parents Mr. and Mrs. T. Fry.

The snowplow was busily employed on Saturday cleaning off the Port Hope-Peterborough highway.

Motor traffic on Rice Lake has been very heavy during the past few days.

CENTRETON

The members of the W.M.S. met at the home of Mrs. Lewis Hie on Thursday afternoon when interesting and helpful readings were given by Mrs. S. McBride, Mrs. James McKenzie, Mrs. A. Nichol, Mrs. Blodgett, Mrs. Fraser and Mrs. Birney. The March meeting will be held at the home of Mrs. S. McBride.

Mr. Roy Baxter, of Cobourg, spent Thursday afternoon at the home of his uncle, Mr. James Baxter.

Mr. William Gordon, of Pike Lake Saskatoon, is visiting friends in the village.

Mr. and Mrs. Alvin Milne entertained a number of their friends on Monday evening.

Mr. and Mrs. Robert Webb entertained a number of their friends on Friday evening.

Miss Annie Harden spent the week-end at her home here.

Coal mined in the Netherlands last year totalled 13,475,000 tons.

Pioneer Auto Maker Friend Of Ford's, Dies

SANDUSKY, O., February 25 (C.P.). — James J. Hinde, who counselled Henry Ford while he himself was floundering in the financial uncertainties which bested many of the early automobile makers, died yesterday of pneumonia. He was 73 years old.

Hinde, who manufactured the "Courier" automobile, often received visits from Ford, then struggling to get a start. They were to have formed a partnership, associates of Hinde said, but at the time neither had the capital on hand. Ford survived, but the "Courier" went into the long list of forgotten pioneer cars.

MISS MYRA BAIRD READS TRAVELOGUE

Splendid Address Given at Literary Meeting of St. James' Young People's League.

Literary night in St. James' Young People's League proved a special treat for the members. Miss Muriel Moorhouse, vice-president of this department, presided while her program was being presented. The meeting opened with a devotional service of prayer and praise and was followed by a responsive Scripture reading.

A fairly good attendance responded to the roll as their names were called, and all willingly took part, when requested, in the service. The cornet solos contributed by Harold Wilson, who was accompanied at the piano by Harold Kitney, were very much enjoyed.

'Five weeks in Paris' was the thrilling theme upon which Miss Myra Baird carried an attentive audience of young people to Sunny France. Miss Baird is a very pleasing and convincing speaker. Like a guide she led her hearers, step by step, to the most interesting places in interesting and beautiful Paris.

In vivid word-pictures the many spreading boulevards of the French Capital were shown and their beauty described.

Miss Baird found that five weeks were all too short a time in which to get even a superficial knowledge of Paris, but in her splendid address she proved that her time had, every minute, been used to the very best advantage.

Congratulations are due to Miss Moorhouse for having provided so interesting and educative a program.

William Anderson, the president, took the chair for the brief business section which followed, and the meeting was closed with prayer and the benediction.

Twenty-four Royal Air Force men, a record number, were saved from death last year by the use of parachutes, which never once failed.

ATHEISM

To The Editor of The Examiner.

Dear Sir,—When atheism is the fruit of impiety, it is a deadly thing vitiating the whole man, causing an absence of reverential sentiment in regard to God's creation; in fact a spirit of impiety and profanation animates it; it is not a doctrine, but a depravity.

It is not right to confound it with respectable thinking. Some are practical atheists, who profess to believe in God, believing in God does not consist in pronouncing God's name and swearing to a creed, while practically denying God with indifference; their perfect belief in God making no impression upon their lives.

The most interesting form of atheism is that wherein a conception of Deity hitherto accepted loses form before the progress of the human conscience; the revolting character attributed to the Deity by the religious associations, with which he has been identified with has caused his idea of God to fade away and he has been forced into negation. With some, atheism is the result of an impossibility to believe of which they are grievously sensible.

What god do pronounced atheists deny? Most of them prove to us by their writings and conversation that it is mere abstraction; a vague image, a false Deity. Their negations never destroy anything but a phantom. They keep the indestructible nucleus of the idea of God and under other names draw from it the essentials of their thought.

The atheists who talk of the disappearance of God or think it their mission to uproot the idea of God from our minds, in order to weed out of them the tares of a mummified, demoralizing religion—the foe of liberty and human progress, deceive themselves.

How much better to make sane endeavour to free man from the slavery of doctrine that stifles him, by giving him a rightful conception of the all-wise loving and just Creator of the universe.

M. T. Butcher.

NO REASON FOR ALARM

To The Editor of The Examiner,

Dear Sir,—Those who read the official statement, mazagines, leading newspapers and criticisms and reviews of the Rusian situation, will notice that it is now accepted that economically the Soviet system has proved a success and of so pronounced a character as to imperil further the economic standing of all the western nations. I will not refer to the loss of religion and individual liberty involved in that system. We see that already deficits and heavy taxation are at hand with a serious drop in salaries, wages, etc., to make Canada to withstand in the home and foreign markets the flood of Russian products already threatening our entire trade. The uselessness of a high tariff wall to preserve a home market altogether too small to take up our products is now painfully apparent.

Noted preachers and others are now devoting themselves to attacking the Soviet system on its moral and anti-religious side. This is hardly necessary since Canadians are not likely to give up their civilization because of the failure of their economic system to withstand the shock. But a revision of our means of production and distribution is absolutely necessary and without delay. Unemployment cannot be provided for permanently by relief. We must provide a new economic system. No alarm need be felt since a drop in wages and salaries is only going back to where we used to be. Already food, etc. is falling in price.

J. H. Burnham.

UNEMPLOYMENT INSURANCE

Editor, Examiner:

Dear Sir.—Might I through your valuable medium, reply to Maurice J. McCarthy, who says he wishes more information on Unemployment Insurance. Of course, David Lloyd George, who sponsored this piece of legislation, Stanley Baldwin and Ramsay MacDonald, who also endorse same, must be all wrong, because Maurice J. McCarthy says he thinks it the curse of the country. Let me quote an article recently sent to The Toronto Telegram. "In Canada quite a high percentage of the population indulge in life insurance, the prominent idea being that it is only fair for a man to do his best to provide for his dependents should he die. Well, don't you think it is equally important for a man to insure again unemployment? Surely the trials and tribulation of a man's dependents are just as severe when he is without work . . . therefore why all this antagonism against unemployment insurance, usually referred to as the 'dole.' This antagonism arises from a misconception of what unemployment insurance is, the misconception arising from the word 'dole,' which means a gratuity or alms, whereas insurance is to secure against damage or loss by the payment of a premium. That word payment makes a world of difference. It means that a man in England receiving the so-called 'dole' is getting something for which he has previously paid. It is not charity, or alms, such as bread lines or soup kitchens are. Which is likely to undermine the morale of man: acceptance of something for which he has paid, or charity such as bread lines where a man must stand in full view of the public, thereby accentuating his feelings of disgrace?"

To my mind, there is no doubt that unemployment insurance will eventually be adopted in Canada, and it will most certainly arrive much more quickly when it is generally realized that unemployment insurance is not far apart from life insurance, and is something for which payment must be made.

The most likely antagonists are those who have never experienced unemployment and who feel quite positive that it will never touch them, and have visions of higher taxes, while hordes of workers live in idleness, which is nonsense. It has been proved that the percentage of unemployed that prefer to remain so, is one. If a man refuses to work at that which he is physically or mentally able to do, he automatically cuts himself off from benefit. The present time is most opportune for the introduction of some form of unemployment insurance. Firstly, the majority of the people (rich and poor) realize that something must be done to prevent a recurrence of the present conditions. Secondly, the inevitable wave of prosperity would allow a considerable amount to accumulate by way of contributions. Thirdly, once a wave of prosperity starts, unemployment and its consequent horrors will be forgotten until the next depression, when everyone will sit back and say: "Why hasn't anything been done? Wasn't it discussed by the Government?"

Then again, the man who has not been and is not touched by unemployment will say, when he is asked to contribute to the soup kitchens, etc.: "Why don't these men put by something to tide them over these bad times?" This is just what unemployment insurance is for.

Thanking you for your valuable space and trusting the foregoing may help Maurice J. McCarthy and others in forming a clearer conception of unemployment insurance.

Yours truly,

W. W. HOWARD.

OLD COUNTRY UNEMPLOYMENT INSURANCE

To The Editor of The Examiner,

Sir,—I should like to say a word for unemployment insurance. There are a lot of people get this insurance mixed up with the Dole supplied by the Government. Unemployment insurance when first introduced into the Old Country would have been a fine thing if trade had been better, but unfortunately it was introduced when trade was on the down grade and when manufacturers were trying to readjust their businesses to post war conditions.

Many people were out of work and more were being thrown out daily; therefore the unemployment insurance was crippled at the start. When these unfortunate unemployed had drawn on the funds for 26 weeks they were thrown out of benefit; it was then that the Government stepped in and granted extended benefits which came to be termed "Dole" which has now grown to millions each week.

I quite agree with M. McCarthy that this money could be put to better use, but what other scheme would have held at that time when men were coming back from overseas only to find no work or their jobs filled. The country was seething with discontent and it would not have taken much to start a revolution as the people were ripe for anything. So, to keep the returned men in a better frame of mind the Government started giving this "Hush" money. However, I for one think the unemployment insurance is a good scheme and would benefit any country, if applied like "Un In" and not Dole. How much better for a man if during the time he is thrown out of work to draw a little each week of what he has paid in during the time he has been employed. This would do away with a lot of charity and relief schemes which no man with pride likes to accept. There are many in Peterborough who never know no short time; who would willingly pay their dues, knowing that if they should be laid off, their families would be provided for under the scheme. Of course, there are many who would try to hang on, as in the Old Country, but it doesn't take long to find such people out. I expect the employers will have a lot to say in this matter as they are called upon to pay the biggest share of the men's insurance each week and I don't think they will take it favorably, as it would mean less dividends. This insurance would not affect the taxpayer as Mr. McCarthy suggests, but only the employer and the people who have contributed towards the funds. I see no reason why Canada should not adopt this scheme if only they avoid the mistake of the Old Country of giving "something for nothing."

Thanking you for the space in your paper, I am,

Yours Sincerely,

J. H.

NOTICE TO CREDITORS.

THE BEASTS OF TARZAN No. 81 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Within a few minutes, from the jungle underbrush came crashing the apes of Akut—that fierce ungainly horde—and made directly for the beach. The three men by this time had been struggling with the unwieldy bulk of the skiff's hull, which Tarzan had despaired of ever using. Akut, the great ape with the most intelligence, rushed to their aid and by dint of heroic efforts they managed to get it to the water's edge.

Two small boats of the Kincaid had been washed away by an off shore wind the very night that the party had landed, and their oars had been put in use to support the canvas of the sailcloth tents. These had been hastily requisitioned, and by the time the rest of the apes had clambered down to the water, all was in readiness for embarkation toward the light still twinkling across the placid water.

Once again the hideous beats of Tarzan had entered the service of their master, and without question took up their places in the skiff. The two men, for the pearl fisher could not be prevailed upon to accompany the party, fell to the oars, using them paddlewise, while some of the apes followed their example. Presently the ungainly skiff, with Sheeta in the bow, moved quietly out to sea.

Swiftly they glided on in the direction of the light which rose and fell gently with the swell. In the stern sat Mugambi, steering; Sheeta now crouched at the ape-man's feet, forward, and behind Tarzan squatted Akut, giving the lesser apes quiet orders in a low guttural voice. But Tarzan of the Apes said not a word; his gaze was fastened with grim determination upon the schooner, now fast taking shape from out the gloom.

MUSIC BY RICK. ROBERTS

THE MISTAKE OF A FAMOUS DOCTOR

Dr. Robert G. Jackson's paternal grandfather, father and seven paternal uncles and aunts, and his own brother and sister, all died of heart disease. At 50 the great Sir Wm. Osler gave the doctor himself only four months to live, dying from heart disease and "general breakdown." He'd lived five years on the ground floor, unable to climb stairs. Four years after Osler gave him up he climbed the fifty storeys in Washington's Monument up and down, and was not even tired. All a result of changed living habits—chiefly a change from civilization's disease-causing acid foods to alkali-forming Roman Meal. His 438-page book, "HOW TO BE ALWAYS WELL," tells the entire story—shows how anyone may be always well, by natural means. Remit $3.00 by P.O. order for a copy, or write for descriptive literature to ROBT G. JACKSON, M.D., 502 Vine Ave., Toronto 9, Ont., or write for his free booklet, "HOW TO KEEP WELL," and sample of Roman Meal and the new alkaline beverage, "Kofy-sub."

IN MEMORIAM.

HEGADOREN. — In loving memory of Richard Hegadoren, who departed this life three years ago to-day.

One by one our dear ones leave us.
And the bitter pain of loss
Teaches us the heart's best shelter
Is the shadow of the cross.
We shall meet him some bright morning,
Resting by the waters fair;
He is waiting for our coming,
In the Master's garden there.

—Inserted by Mother, Sisters, and Brothers.

NORTHEY. — In memory of James R. Northey, who passed away on February 26, 1930.

One year has passed and gone
Since one we loved so well
Was taken from our home on earth,
With Jesus Christ to dwell.
The flowers we place upon his grave
May wither and decay;
But the love for him who sleeps beneath
Shall never fade away.
Our lips cannot tell how we miss him,
Our hearts cannot tell what to say
God alone knows how we miss him
In our home that is lonesome to-day.

—Ever remembered by his Wife and Son Gerald.

DEATH.

WALKER. — At California, on February 15, 1931, Mrs. Christina Walker, widow of the late Peter G. Walker. Interment took place in California.

FEWER SEEKING AID IN DETROIT

Thomas E. Dolan, Public Welfare Chief, Claims Low Point in Depression Over.

NEED $2,177,922 FOR MONTH

DETROIT, Mich., February 25 (C.P.). — From the vantage point of Director of the Public Welfare Department, which gives relief to Detroit's needy unemployed, Thomas E. Dolan says that the "low point of the depression has passed."

Dolan made the statement when he brought to the City Council the encouraging news that during February the number of new applications for relief has been 50 per cent. less than in January.

The sum of $2,177,922 was needed to carry the Welfare Department through February. This was the largest in the history of the city, comparing with $1,397,258 in January, when 46,236 families were aided.

Dolan predicted, however, on the basis of the drop in new applications that "the coming months will show a gradual but consistent decrease in the number of families and in relief figures." The total cost for the fiscal year ending June 30 was estimated at $13,000,000.

Dolan explained to the Council that the largest weekly relief granted any family is $10.

The relief work done under Dolan's department is for families only, single men being handled through other agencies.

JOHNSON UNCHANGED

ST. LOUIS, Mo., Feb. 25. (CP)—Little change in the condition of Ban Johnson, former head of the American league, was found by his physician to-day. The illness of the former baseball czar continued serious this morning.

WEDDINGS

RAPER—CURTIS

A quiet but pretty wedding was solemnized yesterday afternoon, Feb. 24, at the home of Mr. and Mrs. Edwin Curtis, 612 Stewart street, when their youngest daughter, Helen Pressie, was united in the bonds of holy matrimony to Lloyd Sylvanus, youngest son of Mr. and Mrs. George Raper of this city. The ceremony in the presence of immediate relatives and a few friends, was performed by Mr. G. Bentley of Toronto.

The bride, who was given away by her father, looked charming in a gown of white moire satin, styled in the new tight bodice with peplums and ankle length skirt. Her shoes were of white moire also. She carried a beautiful bouquet of talisman roses and lily of the valley. Her bridesmaid, Miss Jessie I. Maconomy, was gowned in rose moire, styled exactly like the bride, with moire shoes to correspond and carried a bouquet of butterfly roses.

The groom was supported by Mr. Harold Hutchinson of this city.

The bridegroom's gift to the bride was a rope of handsome pearls; to the bridesmaid, a vanity case, and to the groomsmon, a fountain pen.

After the signing of the register, the wedding party partook of a dainty luncheon. The table was effectively decorated with yellow and white streamers, daffodils and narcissus and was centered with the bride's cake.

Later, Mr. Raper and his bride left on their honeymoon. The bride travelled in a lovely green crepe frock, with hat, scarf and purse to match. On their return they will reside in Peterborough.

The young people were recipients of many beautiful and useful gifts from relatives and friends.

OBITUARY

JOSEPH WELSH.

The funeral of the late Joseph Welsh, who died early Monday morning, will be held at 2.30 Thursday afternoon from his family residence, King Street East, in Oshawa.

MRS. CHRISTINA WALKER.

The death of Mrs. Christina Walker occurred at the home of her daughter, Mrs. Anna Thair, in California, on February 15, 1931.

The deceased was a daughter of the late James Beckett, and was born in the Township of Otonabee in the year 1853. She was a member of Westwood Presbyterian Church during the ministry of Rev. Mr. Andrews. In the year 1877 she married Peter G. Walker. They were lifelong residents of the Township of Otonabee until shortly after the death of her husband in the year 1920, when Mrs. Walker went to live with her daughter in California.

During the past two years, Mrs. Walker was in failing health, and was confined to bed for the past three months, when the end came rather suddenly. Interment took place in California.

Those surviving are Mrs. Anna G. Thair and Mrs. Emma C. Manley of California, and William of Toronto, Ontario.

WILLIAM G. WESTLAKE.

The death of William G. Westlake marks the passing of an old and greatly respected citizen of Peterborough. Though not playing an extensive part in the social activities of the city, Mr. Westlake was a home lover, and at all times of a pleasant disposition. In this manner he won the esteem of a large circle of friends.

The deceased was born in Smith Township, the son of the late Mr. and Mrs. George Westlake, on July 15, 1856. He was educated in the local schools. He was married when he was in his twenties, and two daughters, Mrs. W. S. Campbell of Toronto and Mrs. S. P. McFadden of Peterborough, are left to mourn his loss. Mr. Westlake moved to this city in 1890.

He was a carpenter by trade, and was at all times a conscientious worker. He was employed by the Canadian Canoe Company for some time, and also worked for the Peterborough Canoe Company for a number of years. Mr. Westlake has been enjoying a well-earned life of retirement for the past two years.

The deceased was a faithful member of George Street United Church. He also was a member of the Canadian Order of Foresters, Court Little John No. 91. These comprised Mr. Westlake's sole activities, but such was his kindliness and benevolence that he gained the deepest respect of all.

The funeral service will be held from the family residence, 300 Wolfe Street, at 2 o'clock on Friday afternoon. Rev. J. E. J. Millyard of George Street United Church, assisted by Rev. William McDonald, of Knox United Church, will conduct the service, and burial will be made in Little Lake Cemetery.

MRS. ALEXANDER BULMER

The funeral of Mrs. Alexander Bulmer, which was private, was held from the residence of her daughter, Mrs. A. F. Skinner, 460 Reid street this afternoon. Rev. J. H. Sutcliffe, of Murray Street Baptist Church, of which the deceased was a member, officiated. Interment was in Little Lake Cemetery.

The many friends of Mrs. Bulmer will regret to learn of her death which occurred suddenly at Buffalo, N.Y., on Sunday last, following an attack of pneumonia. Surviving are her husband; one son, Oscar of Buffalo and three daughters, Mrs. M. B. Pringle of Guelph, Mrs. A. F. Skinner and Mrs. G. K. Graham of Peterborough; also three sisters, Mrs. Fred. Georger of Buffalo, Miss A. V. Clarkson and Miss M. Clarkson of Toronto.

JAMES G. HOWARTH

The death took place in Toronto on Tuesday of James G. Howarth, known to a number of old Peterborough residents.

His wife, Margaret Robinson, a sister of the late Fred L. Robinson, predeceased him some years ago. The funeral will take place on the arrival of the C.P.R. train from Toronto on Thursday noon and proceed direct from the station to the Little Lake Cemetery for interment; Rev. C. V. McLean officiating.

NOT STAR LAUNDRY

Charlie Hum, proprietor of the Star Laundry, 229 Hunter street, desires to correct the impression that Wing Lee, the Chinese charged with peddling dope, had his headquarters at the Star Laundry. He says that Wing Lee had no connection with the Star Laundry in any way, and lived upstairs in his own rooms, separate in every respect from the laundry.

ONE GOOD TURN—

Drawing a loaded sleigh over the bare intersection at Charlotte and Aylmer streets this morning, proved to be a task unequal to the combined efforts of two husky horses, who made several unsuccessful attempts at the urge of their driver, and it was not before a motorist volunteered his aid that the team regained the other side of the street and the skid-way provided by an accumulation of snow. Such incidents are inversely repeated daily in the country, where kindly disposed farmers press dobbin into service to aid hapless motorists who are stuck in the deep snow.

N. S. W. IS DEFEATED.

SYDNEY, Australia, Feb. 25.—(Associated Press Cable.)—The West Indies cricket team defeated New South Wales to-day by 96 runs. Scores were: West Indies, 339 and 403 for nine wickets declared, aggregate, 742; New South Wales, 190 and 466, aggregate, 656.

C.G.I.T. GIRLS OF QUINTE AREA CONVENE IN BELLEVILLE

Delegates From Lower Hastings County District Attend Conference.

SEVERAL DISCUSSIONS.

BELLEVILLE, February 25.—Over one hundred girls representing Canadian Girls in Training, from Wellington, Trenton, Brighton, Stirling, Cannifton, and Belleville, attended the two-day conference in St. Andrew's Church on Saturday and Sunday under the direction of Miss McPherson, of Toronto. The girls gathered in the auditorium of St. Andrew's Church at two o'clock on Saturday for the afternoon session, which was opened with singing. The following conference officers were elected: President, Ruth Newson; secretary, Betty Coe; committee, Doris Williams, Barbara Bateman, Evelyn Cruze, and Ethel Dack.

For discussion the conference broke into four groups in which the following topics were discussed: "Books," "World Friendship," "Occupations," "Program Suggestions," and at the conclusion of this period reports were given by the presidents of the groups.

Reports on Camps.

Miss Jean Ross gave a report on life at Camp Consecon, and Miss Ruth Newson told of camping at Camp Council. Members of St. Andrew's group gave an interesting little sketch, "Around a Camp Fire," and Miss McPherson brought the evening program to a close with a message, "What things one must have to make of life an adventure." First she pointed out one must be open-eyed and in thinking of such a person John Masefield would be suggested as the best example of one who possesses this quality. The second necessity was open-mindedness, an open-mindedness that is much more than merely tolerance, and this is best found in Ramsay MacDonald. Miss Maud Roydon, she concluded, had in a marked degree the third important quality, and that was open-heartedness.

REDS CELEBRATE ACROSS MOSCOW

Unemployment Day Proves Occasion For Rap at Capitalist System.

NO JOBLESS IN U.S.S.R.

MOSCOW, U.S.S.R., Feb. 25 (A.P.)—International Unemployment Day was observed here with various factory meetings and lectures at which workers told of unemployment abroad and criticised the capitalistic system.

A. Lozovsky, Secretary General of the All Russian trade unions, summed up the Communist idea in a special article published in the newspaper Rabochaya Moskva.

"The imperialist countries," the article read, "after twelve years of success have now reached a great crisis. Banks have crashed and to-day millions are unemployed and hungry.

"While no exact figures are obtainable it is estimated that more than 30,000,000 are without work in capitalistic states, with an equal number in colonial countries. In the U.S.S.R. there is no unemployment, which would demonstrate to the world the superiority of the Socialist system."

Old Country Soccer Games

GLASGOW, Scotland, Feb. 25 (C.P. Cable).—St. Bernard's defeated Montrose by seven goals to two in a second Division Scottish Soccer League match to-day.

RUGBY RESULTS

LONDON, Feb. 2 (C.P. Cable).—Results of rugby league matches played to-day follow:

Barrow 13, Hunslet 10.
Broughton Rangers 17, Batley 5.

French Newsboys Race Through Paris

The annual newspaper boys' race through Paris provided the usual amusing spectacle for a crowd of well-wishers. The picture shows some of the competitors speeding along towards the Place du Terte, Montmartre. Note the energetic youth sporting a top-hat.

75 Arrested In Paris On Unemployment Day

PARIS, February 25 (C.P.). — Seventy-five persons were arrested during the morning in Paris for refusal to move on or for attempted haranguing of workers in connection with the observance of International Unemployment Day.

The morning was calm, however, and the lunch time exodus from factories and workshops was without incident.

Ten foreigners were among the manifestants arrested. They face immediate exppulsion from France under an order issued by the Minister of the Interior several days ago.

Ten alleged militant Communists who were arrested yesterday "as a preventive measure" were held throughout the day.

MRS. R. PARSONS RE-ELECTED HEAD

Women's Patriotic League of Ashburnham Holds Annual Meeting.

COMMITTEES CHOSEN.

Mrs. R. H. Parsons was re-elected president of the Women's Patriotic League of Ashburnham at the annual meeting held on Monday evening at her home on Douro street. Mrs. Butcher is honorary president, and the other officers are Mrs. H. Morgan, first vice-president; Mrs. J. Smith, second vice-president; Mrs. T. H. Glover, treasurer; Miss E. Scott, secretary; Mrs. T. Kelly, corresponding secretary. The telephone committee includes Mesdames Mein, Gillespie, Kerr; the social committee, Mesdames Couper and Reed, and the flower committee, Mesdames Morgan and Hughes.

Annual Report

The annual report, submitted by Miss E. Scott, was as follows:

The Ashburnham League is closing a successful year with regard to the Memorial Park. During the year the road opening off Hunter street leading to the top of the hill has been graded and rolled and in July was opened for traffic and many citizens and tourists have enjoyed the wonderful view of the surrounding country from the top of the hill. The members of the league and the citizens of Peterborough should feel very pleased with the result of the years of work and planning to make the hill a beautiful memorial.

The City placed two benches on the top of the hill which were much appreciated, especially by the people who walked up and wished to take take to enjoy the view.

Eight Meetings

The Society has held eight regular meetings with an average attendance of seventeen.

In March a very successful tea was held at Mrs. McNab's.

In July a sign was placed at the entrance to the Park, inviting motorists to drive in and enjoy the view.

A donation was given The Well Babies' Clinic, and membership fees to the Woman's Council were paid.

In November the annual Christmas gifts for thirty-nine inmates at the Protestant Home were donated and packed at Miss Scott's, and were very much appreciated by the old people, Miss Lancaster and the Board.

The League lost one of its most faithful members in November when Mrs. Fred. Sedgwick left the city to make her home in Kingston.

The members were pleased to welcome Mrs. Jack Smith, who was a charter member of the League and has been living in Halifax, but has returned to make her home in Peterborough.

The expense of grading the road and caring for the trees during the year amounted to $963.74.

The League thanks the citizens for co-operation and asks for assistance during the year to help finish the work in the Park.

Wing Lee Remanded To Jail For Week

Appears in Police Court on Charge of Having Opium Illegally in His Possession.

"Me vella sick man," said Wing Lee, with a woebegone look on his face as he gently rubbed his stomach in Police Court this morning. Wing was arrested yesterday by detectives in his rooms above a Hunter Street laundry, where it is said police found opium concealed in quantity. He was charged with having opium illegally in his possession.

The elderly Chinese did not plead to the charge. In fact, Wing explained in a mild way that he "no understand English." A fellow-countryman acted as interpreter and immediatey Wing began to show signs of the illness from which he claimed to be suffering. "He says he took opium because he was sick and if he doesn't have it he is sicker," interpreted the other Chinese.

Wing was remanded to the County Gaol for one week, hearing of the charge being set for next Wednesday.

Because of the decrease in passenger receipts three branch lines of a large railway system in England have just been closed.

STRIKERS UNEASY OVER SITUATION

American Woollen Company Refuse to Recognize Union.

THREATEN TO SHUT MILL.

LAWRENCE, Mass., Feb. 25.—Aggressive enthusiasm to-day gave way to apprehension in the ranks of the idle workers as the possibility of permanent unemployment faced the striking hands of American Woollen Company. Approximately 10,000 employees of the Wood, Ayer and Washington mills are out of work as a result of the strike.

Thousands sauntered about the mill gates at the opening hour this morning. They were quieter in mien and smaller in number than yesterday, and they were quicker to obey the "move on" commands of the mounted officers who guarded the mill approaches.

A statement of J. S. Mercer, general manufacturing agent for the American Woollen Company, that if to-day's scheduled parley did not bring results, the mills would be shut down, seemed to sober the strikers. Mercer's announcement, made last night, contained a definite promise that under no circumstances would the company recognize the National Textile Union, a Communist organization sponsoring the strike. Recognition is one of the points at issue.

STIRLING

Mr. George Hamilton of Queen's University, Kingston, occupied the pulpit Sunday as Rev. A. N. Reid was preaching in Uxbridge.

Mr. Hamilton has spent four summers in mission stations and was able to describe clearly the needs of these places.

A splendid congregation listened attentively to both services.

He gave a vivid and interesting account of his work in Nova Scotia and at Port Renfrew.

Cotton yarn produced in Japan last year weighed nearly 1,000,000,000 pounds.

Stubborn Coughs Ended by Recipe, Mixed at Home

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up a stubborn, lingering cough. It takes but a moment to prepare and costs little, but it gives real relief even for those dreaded coughs that follow severe cold epidemics.

From any druggist, get 2½ ounces of Pinex, pour it into a 16 oz. bottle and fill the bottle with plain granulated sugar syrup or strained honey. Thus you make 16 ounces of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes so good that even children like it.

Not only does this simple mixture soothe and heal the inflamed throat membranes with surprising ease, but also it is absorbed into the blood, and acts directly upon the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the germ-laden phlegm and eases chest soreness in a way that is really astonishing.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of distressing coughs, chest colds, and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

WOMAN KILLED--FIVE INJURED IN CRASH

BISHOP FALLON'S REMAINS PLACED ON FUNERAL BIER

Lies in State in Cathedral Where He Was Consecrated to Episcopate Two Decades Ago.

GUARD OF HONOR ON DUTY.

Hundreds Attend Short Ceremony as Body is Borne From "Black Friars."

LONDON, Ont., Feb. 26.—This afternoon the body of Michael Francis Fallon, late Bishop of London lies in state within the sanctuary of the cathedral where over two decades ago he was consecrated to the episcopate as Bishop of London.

The remains rest on a slumbering couch before the high altar amid a profusion of roses, lilies and palms.

A little table by the side of the funeral bier contains the late Bishop's Roman hat, his crosier, the pastoral staff, symbol of office as shepherd of the flock. Upon the head, now stilled and cold forever, rests the simple white mitre the same as will be worn by officiating bishops and archbishops tomorrow at the solemn funeral mass. Around the bier six tall tapers burn and flicker, casting a dim and changing light upon the gorgeous uniforms of the guard of honor, all Knights of Columbus, fourth degree. Directly above the sanctuary lamp burns redly.

Remains Taken to Cathedral

This afternoon a group of the clergy assembled at "Black Friars," the episcopal residence, and there a cortege brought the remains of the beloved pastor and bishop to the cathedral where at the door they were received by Monsignor Stanley, administrator of the diocese and Fathers James and Charles Fallon, brothers of the deceased as deacon and subdeacon.

As the body was borne slowly down the center aisle of the black and purple draped cathedral by eight priests of the diocese then a choir of seminarians chanted the Gregorian "Pater Noster." Cesare Borre was at the organ.

At the conclusion of the short ceremony the hundreds who had attended silently left the church while the body was taken from the magnificent bronze coffin and placed on the funeral bier amid the flowers and candles before the high altar.

The second service took place at 2:30 o'clock when the children of the separate schools, accompanied by their teachers, most of them nuns in their sombre black robes, assembled. This service was also short.

Hundreds of automobiles accompanied the slow procession from "Black Friars" to the cathedral this afternoon.

FUNDS REFUSED FOR GRAND JURY

Mr. Justice Jeffrey Scores Hasting County Officials—Jail a Dungeon.

REFUSED TRANSPORTATION.

BELLEVILLE, February 26. — Mr. Justice Jeffrey scathingly reproved the officials responsible for refusing to pay for transportation of the Grand Jury to inspect the county institutions and the School for the Deaf, when that body handed in its report yesterday at the sitting of the Supreme Court. "I have been in many counties," said Justice Jeffrey, "and it is a deplorable condition that one the size of Hastings cannot afford transportation of the Grand Jury to make its inspection. I shall certainly give the report my earnest consideration, and shall bring it before the proper authorities and find out who is responsible for this refusal."

The report also stated that ventilation was poor in some parts of the County Jail, and Justice Jeffrey said that prisoners in jail, some awaiting trial, and others found guilty of offences, should be treated like men and not herded into dingy ill-ventilated cells like sheep or cattle.

BOOTLEGGER IS SHOT

DETROIT, Mich., Feb. 26 (C.P.)—William Bruein, 21 years old, known to police as a bootlegger, was shot to death early to-day after the automobile he was driving had been forced against a telephone pole.

IS GIVEN TWO YEARS

ST. CATHARINES, Ont., Feb. 26 (C.P.)—Bruce McIntyre was to-day sentenced to two years in Portsmouth Penitentiary on conviction of breaking into and entering the home of Amos Brown near Grimsby last week.

Philadelphia Club Raided by "Drys"

PHILADELPHIA, Pa., Feb. 26 (C.P.)—The Manufacturers' Club, one of Philadelphia's most exclusive institutions, was raided early to-day by a special police detail personally directed by Major Lemuel B. Scheifield, director of public safety, and himself a member of the club.

Armed with a warrant issued by Magistrate Edward P. Carney, the raiding party entered the club shortly before two o'clock. In a suite of rooms on an upper floor, Director Scheifield said, he found a regular "old-fashioned bar," and about 100 lockers, many of which contained alleged liquors.

JOINT FINANCING.

Dominion Gov't Also Considering Loans for Purchases of Horses, Cattle, Tractors.

OTTAWA, Ont., Feb. 26 (C.P.).—A loan scheme to provide seed grain for farmers on the Prairies, financed by the Dominion Government and the Governments of Manitoba, Saskatchewan and Alberta is now under consideration and tentative arrangements are expected to be concluded within the next few days. This, it was learned to-day, is the purpose of the visit to Winnipeg of Hon. Robert Weir, Minister of Agriculture, who left early this morning for the West.

Parley In Winnipeg.

A conference will be held in Winnipeg on Saturday, during which Provincial Ministers of Agriculture will lay before Mr. Weir the respective needs of farmers in the three Provinces. The statements of the Western Agricultural Ministers will be based on a survey which is understood to have been under way for some months. While the survey is yet incomplete, it is believed here that sufficient data has been gathered to enable a decision to be made as to what sum of money will be needed to relieve distressed areas.

So far as could be learned, no definite decision has been made as to whether funds will be used exclusively for loans. It is known that consideration has been given to the possibility of using some of the money for outright relief in some sections, particularly in Southern Saskatchewan, where conditions are decidedly severe.

In addition to seed grain loans, the Dominion Government is understood to be considering loans for the purchase of horses, cattle and tractors. This scheme would also be developed in conjunction with Provincial Governments.

ONTARIO MARKETING CONDITIONS DISCUSSED BY FRUIT GROWERS

Claim Nova Scotia Looks With Envy Upon Local Packing Regulations.

CO-OPERATIVES LAUDED.

HAMILTON, Ont., Feb. 26. (CP)—The marketing situation in Ontario compared with that in Nova Scotia discussed at the convention of Ontario Fruit Growers' Association led the debat.

Prior to Mr. Good's address, representatives of the Association were named to various other bodies; Canadian National Exhibition, W. T. W. Fisher, Burlington; Ottawa Exhibition, W. T. Macqun, Ottawa; Western Fair, London, P. S. Baynard and R. K. Sadler; Royal Winter Fair, W. T. Hamilton, Collingwood, Fred Watson, Port Credit and W. L. Smith, Burlington; Canadian Horticultural Council, Paul Fisher.

Nova Scotia Envious

Mr. Good stated that the Nova Scotia growers looked with envy upon the situation in Ontario, especially the way in which packing is regulated in this province, and the excellent reception which Ontario fruit was given in foreign markets. Continuing, he sketched the gradual growth of fruit industry in the Annapolis Valley during the past half century. Pests, soil, fertilization, production costs and credit conditions in Nova Scotia were the heads touched upon by the speakers during his analysis of the situation. Speaking of transportation, he declared that trucking had done much to alleviate problems of loss due to heating.

"We as growers owe a great deal to the co-operatives" Mr. Good continued, "We have to look to the prob-

BELMONT CLERK WHOLE COUNCIL MEMBERS RESIGN

Date For New Election Has Not Been Set But Contest is Probable.

ELECTION RUMORS RIFE.

Solicitor Declares Court Action Would Not Have Cost Township Any Money.

HAVELOCK, February 26 (Special). — The action of the Council of Belmont and Methuen in disclaiming in a body last week, leaves Clerk Grant Dafoe as virtual head of township affairs until a new Council is elected. For the time being he is Reeve and Council combined, and as such has to appoint all the deputy returning officers and poll clerks for the various sub-divisions in the new election. The date of the nominations is not yet definitely set, but it is understood they will be held in the near future.

In the meantime election rumors are rife around the township. Rumor has ex-Reeve Griffith busily canvassing for votes as the next Reeve; Gilbert Wright is in the field again for councillor, and prospects of a third man for the Reeveship; while it is also evident that the five members of the old but short-lived Council, intend to stand for re-election, in view of the following statement quoted from a letter published in The Examiner on Saturday last, and signed by each member of the resigned Council:

"We propose to be candidates at the new election, which must necessarily be held, and rely upon the voters to stand by us and re-elect us by even larger majorities."

It will be recalled that proceedings were instituted under the Municipal Act, Frederick Fry, relator, having made application to the County Judge through his solicitor, W. F. Huycke, to have the election declared null and void on the grounds of certain irregularities. His Honor issued a fiat for the motion to be heard before him at the Court House on February 25. Meanwhile the Reeve and councillors after having considered with their solicitor, F. D. Kerr, K.C., the affidavits filed in support of Mr. Fry's application, indicated that "As the charges constitute no reflection on any of us, but indicate that some of the election officials misunderstood or failed to perform their duty, we have decided to resign and avoid unnecessary expenses of a protracted court trial."

It was pointed out by Mr. Huycke, solicitor for relator, that his client, Mr. Fry, had generously undertaken the costs. "Some people are under the impression," he said, "that there had been a court action the township would have to bear the legal costs. This is not so. The action was brought by relator against the Reeve and councillors and not against the municipality itself."

Bare Laundry Till Gives Bandit Shock

WELLAND, Ont., Feb. 26.—The till of the Wong Kee Laundry on Hellems Avenue last night was as bare as Old Mother Hubbard's cupboard. So found a young stick-up man who walked into the shop and bid Wong Kee to "up with 'em" and "get busy."

Acting under the persuasive powers of the robber, whose gun carried weight to his command, Kee pushed open the till, the sight of its bare receptacles causing the visitor to resort to language not generally used in the best circles.

New Thorold Homes May Pay No Taxes

TORONTO, Ont., Feb. 26 (C.P.)—To meet difficulties arising out of the construction of the new Welland Canal the town of Thorold wants power to exempt from taxation except for local improvements all new dwelling houses erected in the town for a period of five years. A bill to permit this received the approval of the Private Bills Committee of the Ontario Legislature to-day. It was explained by Mark Vaughan (Cons., Welland). During the building of the canal, he said, building operations in the town were disrupted owing to the amount of land tied up. Now, when this land was available for building purposes the town wanted to encourage the building of houses.

Backs Her Husband's Manifesto

Lady Cynthia Mosley, daughter of the late Lord Curzon, and wife of Sir Oswald Mosley, the stormy petrol of the British Labor Party, who backs her husband in his latest attack on the British Government.

LIFER ACCUSED OF MURDERING DR. A. SCULLY

Cleveland Plaindealer Carries Accusation Made by Ohio Penitentiary Inmate's Wife.

ATTEMPTED ROBBERY.

Police Officials Have Been Conducting Investigation For Past Year.

LINDSAY, Feb. 26 (Special to The Examiner).—One year ago this month, Dr. Alfred Scully, formerly of Lindsay, was mysteriously murdered in his office in the city of Cleveland. The crime baffled the efforts of the city police in the search for a motive. It now appears, according to a letter received in Lindsay, that twelve days after Dr. Scully's tragic death, a foreigner named Valore was sentenced to life for murder. Valore is now believed to have murdered Dr. Scully, the startling accusation being made by Valore's wife.

A recent issue of The Cleveland Plaindealer contained the following reference to the sensational acusation:—

"Safety Director Edwin D. Barry to-day demanded of Police Chief George J. Matowitz, a 'full and complete' investigation of Lorain county officials' charges that Detective Sergeants Charles Cavalo and George Zicarelli had 'played politics' there in behalf of Ross Valore, Cleveland murderer.

"The Lorain county charges were the direct result of Mrs. Cecil Valore's sensational accusation that her husband, who is serving a life term for the murder of R. Miller Wilkison during last fall's Shaker Heights' holdup, killed Dr. Alfred P. Scully and five other men.

"The intercession in behalf of Valore of Elyria was made, the Lorain county officials say, 12 days after the Scully murder last March.

"'It looks funny,' Barry said.

"Mrs. Valore spent a hysterical night after her 'confession to Sheriff John Sulzmann and Judge Walter McMahon and a repetition of her accusations against her husband to newspapermen. Her condition this morning was described as 'bordering on nervous collapse.

"Cleveland and Cuyahoga county officials interested in criminal investigation, although they refused to be quoted, were skeptical about Mrs. Valore's story as a whole but definitely interest in specific parts of it.

"Valore, at Ohio Penitentiary, was reluctant to believe his wife had told such a story, even after newspapers were shown him.

"'If she said it,' he said, 'she lied. They must have promised her something or she wouldn't have made up a pack of lies like that. I'm not a killer. I don't go around killing people. Next she'll say I killed Abraham Lincoln.

"Valore said he and his wife had

Soo Showing Signs Of Earliest Spring

SAULT STE. MARIE, Ont., Feb. 26. (CP)—If patches or bare ground at many points, pussy willows budding forth, bright sunshine and warm weather are signs of spring then Sault Ste. Marie and the surrounding territorie are enjoying one of the earliest springs on record in this section.

The present winter has been one of the mildest this community has ever known and old residents say they have never known its equal in fifty years.

An early opening of navigation is confidently predicted unless the weather man slips from his present favorable attitude of mind.

TRADE MISSION VISITS HAVANA

Large Group of Canadians Headed For South America on Good Will Tour.

WILL CRUISE CARIBBEAN.

HAVANA, Feb. 26. (C. P. Cable).—The large Canadian trade mission en route for a good will tour of South America had a heavy programme in Havana to-day. They reached Havana last evening after a good trip from Halifax, N.S., the steamer Prince Robert being ahead of schedule and visited the casino.

To-day the Havana Chamber of Commerce visited the Canadian delegation on board the Prince Robert and the Canadians took the opportunity of discussing trade with leading Havana business men.

Meanwhile the official members of the Canadian party, headed by Sir George Perley, Minister without portfolio in the Canadian Government visited Canadian officials here, the British Legation and President Geraldo Machado of Cuba. Later they were guests of the representatives of Canadian banks in Cuba at the Country Club.

Trinidad Next

The big delegation leaves Havana to-night on the Prince Robert for a cruise in the Caribean, reaching Trinidad on Monday morning.

Sponsored by the Canadian Chamber of Commerce, the Canadian Manufacturers' Association and the Canadian Government, the Canadians' main objective is the British Empire Trade Fair to be opened by the Prince of Wales on March 14 at Buenos Aires. The party however will visit many other parts of the South American continent on their good will and trade mission before returning to Halifax on April 11.

SUCCEEDS NETTLETON

NASSAU, Bahamas, Feb. 26. (CP) Sir Kenneth James Beatty, Chief Justice of the Bahamas since 1927, has been appointed Chief Justice of Gibraltar in succession to Sir Sydney Nettleton, who was also a former Chief Justice of the Bahamas, according to word just received here by his excellency the governor general from the secretary of state for the colonies.

RUSSIAN COAL DEAL FAVORED BY COCKSHUTT

Sees No Reason Why Anthracite Should Not Be Exchanged For Canadian Products.

NONE MINED IN CANADA.

Offer Would Mean More Employment—Against Import of Soft Coal.

BRANTFORD, Ont., Feb. 26. (CP) "Anthracite coal is not mined or produced in Canada and I see no reason why it should not be permitted to come into Canada in exchange for our manufactured products" said Col. Harry Cockshutt, President of the Cockshutt Plow Company and prominently mentioned in rumors of pending deals with the Soviet, in a statement to-day.

Mr. Cockshutt continued "it would mean more employment for our people and I do not think it would harm anyone." The statement came as a result of a querry following the receipt of a message from Montreal wherein Lieut. Col. Herbert J. Mackie, formerly Conservative Member for North Renfrew, is quoted as giving particulars of a Moscow offer.

In respect to soft coal, however, Col. Cockshutt, was equally outspoken and declared "bituminus or soft coal should not be permitted to come into the country as it is mined here and our people should be protected."

CAPTAIN BLAMED FOR SHIP WRECK

Master of Highland Hope Has Certificate Suspended For Six Months.

SECOND OFFICER RAPPED.

LONDON, Eng., Feb. 26. (AP) — The court of inquiry into loss of the British steamer Highland Hope, which ran aground off the Farilhoes Islands, Portuguese coast, last November while bound from London to Buenos Aires, to-day blamed the accident on the failure of her master to navigate her "in proper and seamanlike manner."

The certificate of the Master T. J. Jones, was suspended for six months. The court held that the owners could not be absolved from all blame because the master was of such age that he could not be expected to stand the physical strain of commanding such a large passenger vessel.

The master's inadequacy, the court found lay in his setting a course calculated to bring the vessel into dangerous proximity to the Farilhoes, failure to alter it or use means at his disposal for soundings when the ship ran into fog twelve miles from the islands, and failure to reduce the ship's speed when it was enveloped by fog.

The court also found that the ship's second officer, H. R. Walsh, was remiss in his duties, especially in not reporting to the master, when he came on the bridge an hour before ship struck the manner in which the ship's supposed position had been obtained.

PLANE CRASHES DURING TAKE-OFF IN ACCIDENT AT KINGSTON AIRPORT

R. A. F. Craft Failing to Gain Altitude Strikes Shack, Demolishing It.

NO PERSON INJURED.

KINGSTON, Ont., Feb. 26. (CP)—Failing to get proper height in taking off from the Kingston airport this morning, the Fairchild cabin plane of the Royal Air Force, Ottawa crashed into a shack just outside the airport, completely demolishing it, and damaging the plane.

The machine was in charge of Flying Officer Ogilvie Forbes of Ottawa, and with him were R. Terry of the Colonial Coach Lines, Ottawa and J. H. Lavell, aircraft mechanic. The plane dived into the shack, smashing it completely while the wing and tail of the plane were badly damaged. None of the occupants were injured.

14 SAILORS RESCUED

ISTANBUL, Turkey, Feb. 26 (A.P.)—Fourteen men were safely brought ashore to-day from the British freighter Wellfield, fast on the rocks at Karabornou at the eastern entrance to the Straits of Bosporus. The ship was being pounded by heavy seas kicked up by a northerly gale.

New Zealand Boosts All Postal Charges

WELLINGTON, New Zealand, Feb. 26.—(C. P. Cable via Reuters.)—Revised postal charges estimated to yield an additional revenue of $4,500,000 were announced to-day. Postage on letters is increased to four cents; postcards to two cents; newspapers to two cents for each eight ounces.

Telegrams are increased to two cents a word with a minimum of 24 cents. Corresponding increases are made in postage on parcels, packets, night letter telegrams, etc.

Press telegraph charges are not altered, but a wordage maximum has been imposed and the excess is charged at the rate of a cent a word.

40-HOUR WEEK

BERLIN, Feb. 26 (A.P.)—A suggestion that the working week be reduced to forty hours was made to President Von Hindenburg to-day by delegates of leading German Labor organizations who were accorded a personal interview with the President.

President Von Hindenburg promised to do all he could to alleviate the lot of the workers.

Peterboro' Woman Is Instantly Killed In Scarboro Crash

Mrs. Jennie Plunkett, 237 Prince Street, Was Almost Instantly Killed When the Car in Which She Was Riding Was in a Head-on Collision.

PARTY RETURNING FROM TORONTO AT TIME OF CRASH; FIVE OTHERS WERE INJURED AND TAKEN TO HOSPITAL

Charge of Criminal Negligence Has Been Laid Against Tom Mark, Chinese, Who Was Driving the Other Automobile—Inquest Has Been Ordered.

(Special to The Examiner)

TORONTO, Feb. 26.—Mrs. Jennie Plunkett, 237 Prince street Peterborough, was almost instantly killed last night on the Kingston Road just east of Toronto when two automobiles collided head-on. Five others, including Leslie N. Plunkett, son of Mrs. Plunkett, and Miss M. B. Nelson, matron of the Children Aid Society's shelter on Charles street, Toronto, and formerly of Otonabee Township, were injured in the crash.

Fractured Skull

Miss Mary Seeney, also of the Children Aid Society, and a passenger in the Plunkett car, is in a critical condition with a fractured skull. The others are not seriously injured.

Mrs. Plunkett was returning to her home in Peterborough after having been visiting in Toronto for more than a week. Her son, Leslie, was driving the party which included Miss Nelson and Miss Seeney.

None of theoccupants could give a coherent account of the manner of the accident. The Peterborough party had proceeded as far as the Highland Creek bridge when the driver saw the other car come out from behind an automobile. They had just time to swing the wheel. Then the crash and that was all he could remember.

In the other car were two Chinese, Tom Mark and Koon Lee, both of Niagara Falls. Nor were they able to tell authorities how it happened.

Police, having inspected the accident, gave the opinion that one or other of the two cars must have been travelling at a good speed. The engine of the Peterborough car was knocked back two feet. The windshield was splintered at the side where Mrs. Plunkett sat and the steering wheel was bent badly out of shape.

The Chinese were travelling west and started to pull ahead of a truck in the same direction when they crashed head-on into the Plunkett car, Scarboro Township police state.

Will Face Charge

A charge of criminal negligence is to-day being preferred against Tom Marks, driver of the car which smashed head on into that of Leslie Plunkett. Owing to his dislocated shoulder, however, he will be unable to appear in court for some weeks.

Marks' brother, Koo Lee, was released to-day, police stating that they had nothing upon which charges could be laid against him. Early to-day the condition of Mrs. Mary Seeney, Toronto, fellow passenger of Mrs. Plunkett's was given as being still serious.

Mrs. Plunkett lived only ten minutes after the crash. Motorists in passing cars rushed the five injured to East General Hospital. Miss Seeney, it was found, had sustained a fractured skull. Miss Nelson suffered a fractured arm and leg, but was

UNION UNDER WAY AGAINST BIG BILL

Thompson's Opponents Claim Independent Candidate Will Divide Oppostion.

LETTERS SENT BUNDESEN.

CHICAGO, Ill., February 26 (C. P.). — Opponents of "Big Bill" Thompson's election as World's Fair Mayor of Chicago, were pleading to-day for a united fight against the Mayor.

Their pleas took the form of opposition to the independent candidacy of Coroner Herman Bundesen, a Democrat, announced yesterday. Bundesen's name was entered by the people's non-partisan ticket as an opponent of Thompson and Anton J. Cermak, chairman of the Cook County Board, who was nominated by the Democrats on Tuesday when "Big Bill" defeated Judge John H. Lyle, "Gangster Nemesis," and others in the Republican primary.

Among those disapproving of Bundesen's candidacy was Colonel Robert Isham Randolph, president of the Association of Commerce and a leading figure in its efforts to keep down crime in Chicago.

Col. Randolph sent a letter to the coroner in which he said:

"Without regard to your availability or capability for the office of Mayor of Chicago, permit me to state that I believe that your candidacy will have the sole effect of dividing the opposition and ensuring the election of William Hale Thompson.

Without mentioning Bundesen's name, Charles E. Merrian, who supported Alderman Arthur F. Albert in the Republican primary, issued a statement in which he said:

"It is to be hoped that an independent candidate will not be brought in as he can only confuse the issue and make possible what the overwhelming majority of the people of Chicago clearly do not want, namely the re-election of Thompson."

STRIKERS START SEVERAL FIGHTS

Toronto Dressmakers Who Attempt to Enter Buildings Struck By Pickets.

POLICE LEND AID.

TORONTO, Ont., Feb 26 (C.P.)—Four minor skirmishes occurred at the corner of Spadina Avenue and Dundas street to-day when fist fights greeted dressmakers who attempted to pass strike pickets on duty in front of dress manufacturers' buildings.

Although no arrests were made as a result of the fights the heads of two dressmakers' companies were roughly treated during the short fracas. From a window in the premises of one of the dressmaking firms, a group of girls were beckoned to come back to work, and police provided protection while they entered the building, despite protests from the pickets.

Demonstrations of the unemployed predicted for to-day failed to materialize.

More than 1,500 children were killed in the streets of England in 1930.

NEXT PRESIDENT BEGINS TO WORRY TWO U.S. PARTIES

Politicians Ready to Study Question After Congress Adjourns March 4.

DEMOCRATS UNDECIDED.

Roosevelt, Albert Ritchie and Owen D. Young All Pre-eminent Possibilities.

WASHINGTON, D.C., Feb. 26 (By Ken Clark, C.P. Staff Correspondent) —With Congress adjourning next Wednesday, the politicians of the United States will be able now to get down to studying the question of who is going to be President in 1932. At the White House correspondents' dinner a few days ago, Herbert Clark Hoover, celebrated in song as 'Hustlin' Herb,' was suggested as "apt to take an encore," and at present there seems small doubt that he will be the Republican candidate. The Democratic position is far more indefinite.

Three outstanding political figures —Governor Franklin D. Roosevelt of New York, Governor Albert Ritchie of Maryland and Owen D. Young, financier—are the pre-eminent possibilities. On March 5 the Democratic National Committee meets in Washington, and thereafter there may be clearer indication as to which of these is the chief candidate for the nomination.

Prohibition Main Quarrel.

The big quarrel among the Democrats is over prohibition. Since President Hoover by his report on the Wickersham Commission's findings has taken a dry stand which would appeal to the Democrats of the south, the position of the opposition party is rendered extremely difficult. It is not improbable that a solution might be offered by the adoption of an indefinite prohibition plant in the Democratic platform and the selection of a wet candidate.

The three men mentioned above are all wets, and the wettest of these is Governor Ritchie, who openly advocates repeal of the Federal law and return of liquor control to the individual States.

Governor Roosevelt, while he has said he does not believe prohibition is the most important question in the United States, was nevertheless wholly in accord with "Al" Smith in his wet stand in 1928.

Mr. Young, who shows as yet a certain backwardness about being a candidate, might be described as moderate, as a Liberal.

"I wish a sane law, wisely administered and one capable of being honestly administered," he said.

C. N. R. EARNINGS

The gross earnings of the Canadian National Railways for the period ending February 21, 1931, were $3,283,060, as compared with $4,258,208 for the same period in 1930, decrease of $975,148.

Driver is Killed In Sleigh Crash

ST JOHN'S, Que., February 26 (C.P.). — Mrs. Alcide Goyette, of St. Michael's D'Iberville, was instantly killed and her daughter and husband injured when the sleigh in which they were riding as demolished by an automobile which crashed into it on the Barbotte Road near here last night. The two men in the car escaped with bruises. It was said that the horse-drawn vehicle carried no light.

Governor-General Enthu siastic Theatrical Amateur

Lord Bessborough, Canada's new governor-general, Countess of Bessborough and their two children are enthusiastic amateur theatrical players. On their estate at Stansted Park, England, the earl has built a model theatre, which embodies all the arts of the stage, such as scenery, spotlights and dressing-rooms, and will seat some 500 people. ABOVE shows a group taken at Stansted Park, England, showing LEFT to RIGHT, Earl of Bessborough as Theseus, Duke of Athens; Lady Moyra Ponsonby, his daughter, as Peaseblossoms; Countess of Bessborough; and the young Viscount Duncannon, who belongs to the Stansted players, as Oberon, king of the Fairies, in "A Midsummer Night's Dream." Lord Bessborough and his family sail for Canada next month.—Photograph by Stephen Cribb, Southsea, England.

RENFREW COUNTY MONEY MISSING TOTAL $120,000

Retiring County Treasurer is Arrested for Enormous Alleged Embezzlement.

BOND IS ONLY $20,000.

Disposition of Money Unknown But Heavy Market Losses Rumored.

PEMBROKE, Feb. 26.—Charging theft of $120,000 from the County of Renfrew, a warrant was issued here this evening for the arrest of Walford A. Biggs, former County Treasurer, who resigned office at the end of 1930. He is a son of Mayor George D. Biggs of Pembroke.

Walford Biggs was placed under arrest at his home here at 11 o'clock last night. He will appear this afternoon before Magistrate S. T. Chown of Renfrew Town, but probably will be remanded.

Sensation in County

Never has there been a greater sensation in Pembroke and the surrounding district, partly because of the large sum involved, and also because of the suddenness with which the action was taken, as up to a few hours before the warrant was issued not more than a dozen people knew that anything was suspected respecting the financial affairs of the county.

Mr. Biggs resigned the treasureship to accept a position with a Toronto bond house which is opening a branch in Ottawa, but, although he left office in January, he remained in town and rendered some assistance to the new Treasurer, J. M. Jamieson.

The alleged shortage was discovered Monday night by Mr. Jamieson. Mr. Biggs was to leave Tuesday for Ottawa, and on Monday evening, when he was to hand over the cash to the new Treasurer, it is claimed that, whereas the report of the auditors showed that he should have had some $120,000 on hand, there was not a cent in the cash-box.

Crown Attorney H. B. Johnson, K.C., and County Solicitor W. K. MacGregor were at once communicated with, and a wire despatched to the Warden of the county, J. C. McIntyre, who was attending the Good Roads convention in Toronto. Mr. McIntyre has not yet returned to

$5,000 To Be Awarded To Hanson Survivors

WASHINGTON, February 26 (C. P.). — The House last night passed a Bill to authorize payment of $5,000 to the supervisors of Jacob D. Hanson, who was fatally shot by coastguardsmen looking for liquor smugglers at Niagara Falls, New York.

The Bill now goes to the Senate.

Hanson was said in a committee report on the measure to be a well-known and law-abiding citizen who was on his way home by automobile when shot by coastguardsmen on May 6, 1928. The coastguardsmen were tried and acquitted.

Secretary of the Treasury Mellon, in a report to the House Claims Committee, did not express an opinion on the measure

"At that time," he said, "this road was being used by the smuggling fraternity in high-powered automobiles carrying contraband from the Canadian border."

BACCARAT TABLE ATTRACTS PRINCE

Wins $3,375 in Early Morning Play and Comes Out $50 Up at Record Session.

OFF AT POLO.

VINA DEL MAR, Chile, Feb. 26.—(AP)—Lady Luck, who chaperoned the Prince of Wales before dawn yesterday at the new casino baccarat tables, was not so lavish in her favors after sundown and His Royal Highness quit only 420 pesos—about $50—to the good.

The Prince banked the game himself, beginning play with about 10,000 Chilean pesos, but had little luck either as banker or player, and finally after several hours play gave up his place to Viscount Ednam.

Members of the royal party said that in Wednesday daybreak play, the Prince of Wales won 27,000 pesos —about $3,375. He did not begin play until about four o'clock when newspapermen and photographers supposed that he had retired at the presidential summer palace.

The casino was fast being deserted, many dinner guests having departed, when the Prince returned for a game with a private party. Just before dawn he had an extraordinary run of luck, and shortly after six a.m. he quit the game, taking a three hour nap before keeping some official engagements at the port of Valparaiso.

He was off his polo game later in the day, failing to score in a match between an Anglo-Chilean team captained by himself and another Anglo-Crilean team captained by Lord Ednam. Lord Ednam's team won, 6 to 2, the Prince missing several shots at goal.

ade of some 600 men, led by a little group of Communists carrying placards on stands, reached Louis Avenue on Wyandotte Street, at 5 o'clock yesterday afternoon on their way to Walkerville, the parade was broken up by a squad of police and firemen, led by Alderman Clyde W. Curry, Chief Constable M. S. Wigle and Fire Chief C. J. Defields. Fifteen arrests were made.

The Communists had been speech-making in City Hall Park, and left about 4:30 to parade to Walkerville. Meanwhile, annual inspection of the city Police Force was in progress in the police station, and shortly after the parade started out forty officers were loaded into autos, and, with Alderman Curry's big car leading, carrying him and the Fire Chief, they rushed to the Louis Avenue intersection and started to break up the parade.

***Try* this recipe for mayonnaise**

ARREST ELEVEN IN REDS' PARADE

Toronto and Windsor Police Break Up Parades of Reds.

GIVEN $500 BAIL.

TORONTO, Feb. 26.—Eleven men and women were arrested yesterday on charges of assaulting the police, disorderly conduct and vagrancy during the Communist unemployment demonstration, which centered about Spadina Avenue and Queen Street and attracted thousands to the locality.

All those taken into custody were released on $500 bail, with the exception of four individuals who at midnight last night had been unable to provide the necessary security.

The only other demonstration of any pretentiousness was at Windsor, where prompt police action halted incipient disorder and fifteen arrests were made.

Parade Broken Up

TWO ASBESTOS-CLAD BROTHERS BATTLE AGAINST BLAZING GASSER

Families in Vicinity of Oklahoma Well Prepare to Leave Homes.

FLAMES 200 FEET HIGH.

WEWOKA, Okla., Feb. 26 (C.P.).—A battle of titans began here to-day as two brothers, masters of many unruly monsters of the mid-continent oil fields, sought to conquer a flaming deep rock gasser one mile south of town.

Fed by an estimated flow of 81,000,000 cubic feet of gas daily since it caught fire Tuesday, the flames continued to spout 200 or more feet into the air, as the brothers—M. M. and Harry Kinley of Tulsa, strove to clear away the molten debris preparatory to firing a shot of nitro glycerine expected to snuff out the blaze. The white hot metal would reignite the gas immediately.

Families Ready To Flee.

A score or so of families living in the vicinity of the well packed their personal goods and prepared for evacuation should their homes be endangered.

Pressure from below and a vacuum at the mouth of the well caused by the flames, creates a clear space approximately the height of a man between the opening proper and the lowest level of the flames.

This clear space ordinarily permits asbestos-clad workmen to approach close enough to swing a cable and "nitro" into place before the terrific heat melts and burns equipment.

The shot is fired by electricity, the powerful blast lifting the flames and scattering the gas flow for the moment necessary to snuff out the fire.

The Kinley brothers never have failed.

2 Endurance Flights Started In France

PARIS, Feb. 26 (C.P.).—Two endurance flights began in French territory to-day.

At Istres Airdrome the aviators, Jospeh Lebrix, accompanied by Doret and Cadiou, took off at 6.40 a.m. in their plane, the "-" (Hyphen) in an effort to break endurance and distance records over a closed circuit. Lebrix was a partner of Dieudonne Coste in his round-the-world flight.

At Oran, Algeria, the two aviators, Boss Utrot and Rossi, took off at 6.57 a.m., after distance and duration records.

CHANGE SOUGHT IN INCOME TAX

Ottawa Member Would Have Compulsory Clause Removed From Present Act.

OPTOMETRIX ACT UP.

TORONTO, Ont., Feb. 26 (C.P.).—Elimination or modification of the municipal income tax is sought in two bills presented to the Legislature by Arthur Ellis (Cons., Ottawa South) and A. E. Honeywell (Cons., Ottawa North). Mr. Honeywell's measure would remove the compulsory clause from the present Act and permit municipalities to levy income tax or not as they chose. It would also enable them to fix the rate.

At present, the Ottawa member claims, the arrangement is unfair to those who pay income tax in some municipalities where the assessment is only 50 per cent. of the value of land. Incomes are assessed at their full amount and taxes are levied on them at the same rate as on land.

Mr. Ellis' Bill would do away with the municipal income tax altogether.

Stricter regulation of the sale of eye-glasses is provided for in a bill introduced yesterday by Mr. Honeywell. It is an amendment to the Optometrix Act, and would prevent high pressure method of selling glasses by mail and also restrict the use of the designation doctor of optometry to qualified persons.

SCOUTS HOSTS JOLLY BANQUET

Birthdays of Lord and Lady Baden-Powell Celebrated in Campbellford.

SPECIAL SPEAKER.

(By Examiner Staff Correspondent)

CAMPBELLFORD, Feb. 26.—Celebrating the birthdays of Lord and Lady Baden-Powell, the 1st Campbellford Troop, Boy Scouts were hosts at a banquet last evening, held in the Parish Hall, Campbellford, to the 1st and 2nd Campbellford troops of Girl Guides, Cubs, and representatives of the leaders in the ministerial and social life of the town. The guest speaker for the evening was Edgar Jones of Toronto, Provincial Field Secretary of the Scout movement.

Presiding over this gathering was Major A. T. Linton, who acted for the Rev. N. Clark Wallace, scout chaplain, who was absent from the town. Many toasts were proposed and responded to. A feature of the evening being the presentation to the 1st Campbellford Troop of an efficiency shield on behalf of the Young People's Club of Christ Church, for competition among the patrols. This was received by Scout Master M. Sergeant, who replied to the gift.

In the course of his remarks he pointed out that this was the first encouragement the troop had received from outside sources. The movement was nine years old in Campbellford he stated and although it had gone through stages of depression he saw a bright future for it. He deplored the fact however that none of the civic body of the town were represented there that evening and made an appeal for the moral support of the town at large, declaring that such movements as the scouts and brother organizations were the only hope of saving the boys.

Toast To Leaders

After the toast to the King had been called for by the chairman, the National Anthem had been sung and one minute of silence observed for "absent friends," Patrol Leader Cubitt proposed the toast to the "Chief Scout". In a very able manner he stated that the Chief Scout was one of the greatest benefactors to the boy that the world had known, and had gained he admiration of the civilized world.

The toast to the "Chief Guide" was given by Lieut. Elsie Connor, 2nd Campbellford Troop Girl Guides who briefly spoke of the origin of the movement, stressing the fact that one of its ideals was world peace and asking the gathering to drink to the health of Lord and Lady Baden-Powell, who celebrated their birthday on February 22.

These toasts were responded to by Mr. Jones. Opening his remarks he spoke of the 1929 jamboree that had been held in England the privilege he had of being a guest of the Chif Scout at his Hampshire home on that occasion, emphasizing the fact that he was a wonderful man. Of the scout movement he said it was a wonderful brotherhood for peace. In Canada it numbered 700,-000. In Ontario 17,000, pointing out that in Campbellford the movement was just a section, but an important one.

The scout movement, he stated, was a business organization to try and develope character in the boy and make him rise up to the true heights of citizenship. He stressed character forming declaring that it meant more in the lives of people than brains, for it helps all to play a larger part in the happiness of life than brain power.

In conclusion Mr. Jones asked for the support of the parents and populace, declaring that the best way to judge scouting was by the results, saying that these results were showing in the hearts of Canadian boys to-day.

The toast to "Our Sisters" was very ably given by Patrol Leader Frederick and responded to in a charming manner by a member of the Girl Guides, Helen Coxwell.

"Our Parents and Guests" was proposed by Patrol Leader E. Wood, who very ably asked for the support of the parents and guests, outlining what the word of honor of a scout meant and stressing the fact that scouts were trying to do their best for themselves, the municipality and the whole world.

Work of Great Help

G. A. Kingston replied to this toast, emphasizing his appreciation of the scouts and guides in their work of making good citizens. He declared all boys' work to be of the greatest help, standing as it does between the church and the state carrying the sacred ideals of the former into their activities and life. He declared himself proud of the movement because it was started by a British statesman and embodied the ideal of British fair play. It taught," Mr. Kingston stated, "the element of self denial, and this in itself was of the greatest value to the child, especially in the home." In conclusion he congratulated the leaders on the success of their work, telling the boys especially to have their ideal and to work for it and follow it.

Ex-Scout Master H. Dunk spoke on "The World Wide Brotherhood of Cubs and Scouts" outlining the work of the cubs and scouts and the ideal and obligations that they have to live up to. He spoke on the development of the physical and spiritual life and the public service rendered by the organizations, stressing the wonderful work of "cubbing."

A vote of appreciation to Mr. Jones was moved by the Rev. R. C. Tait and seconded by C. W. Smith, the chairman moving a vote of thanks to the ladies for providing the banquet. This was seconded by W. Wood.

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have catarrhal deafness or head noises go to your druggist, and get 1 oz. of Parmint (Double Strength), and add to it ¼ pint of hot water, and a little sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat. It is easy to prepare, costs little, and is pleasant to take. Anyone who has catarrhal deafness or head noises should give this prescription a trial.

CATTLE, GRAIN, PRODUCE

MONTREAL PRODUCE

MONTREAL, Feb. 26.—A decline in egg prices was the feature of the produce and dairy market here yesterday. Butter, cheese and potato quotations were unchanged.

Carlot prices of fresh eggs lost from one-half to three cents a dozen. British Columbia extras were unchanged at 32c and firsts dropped one-half of a cent at 28c to 28½c. Pullet extras were off 1c to 2c at 27c to 28c a dozen. Western Prairie extras, firsts and pullets were unchanged at 31c, 28c and 26c a dozen, while seconds were off 1c at 21c to 22c a dozen. Storage firsts, in carlots, were unchanged at 18c to 19c and seconds at 16c to 17c a dozen. Quotations to retailers were unchanged. Receipts were 1,613 cases.

On the butter market regraded Eastern Townships and fresh Western were quoted at 32c a pound and to retailers solids were 34c and prints 35c a pound. Receipts were only 10 boxes.

Winter wheat cheese was quoted at 12c, colored at 14¾c to 15c and summer at 15½c to 16c a pound. Receipts were 25 boxes.

New Brunswick Green Mountain potatoes, in carlots, were 75c to 90 pounds, bulk, and to retailers, 85c per 80-pound bag.

CHICAGO GRAIN

CHICAGO, Feb. 26.—Wheat and corn both scored material advances yesterday, helped by better export call for North American wheat and by improved shipping demand here for corn. Europe took about 1,000,000 bushels of wheat from North America. Shippers' purchases of corn in Chicago were of decidedly larger volume than of late.

Wheat closed firm, unchanged to 1¼c higher; corn, ½c to 1¼c up; oats, ⅜c to ⅝c advance, and provisions at a rise of 5c to 25c.

TORONTO PRODUCE.

TORONTO, Feb. 26.— There were few changes on the local produce market yesterday. Trade was slow in butter, fair on cheese and good on eggs, but prices were unchanged from those quoted on Tuesday. There was no great activity, though brokers were doing a general trade in all products.

Receipts of eggs were fairly heavy and the demand was about equal to them. Prices held steady for graded and ungraded offerings, and retailers were quoted supplies at the same level as Tuesday. Country shippers were quoted 27c for extras, 24c for firsts and 20c for seconds, ungraded delivered, cases returned, while retailers were offered extras at 34c in cartons, 32c for extras loose, 30c for firsts loose, 27c for pullet extras and 24c for seconds loose. Brokers quoted graded eggs in free cases at 30c for extras, 27c for firsts, 24c for pullet extras and 21c for seconds.

Butter.

The butter market was as slow as previously, due probably to the fact that buyers have sufficient stocks to carry them to the first of the month, when the storage stocks will be made known. It is likely that there will be greater activity after March 1, when buyers know fairly well how supplies stand.

Butter prices were steady at 31½c to 32c for No. 1 creamery solids and 30½c to 31c for No. 2.

Cheese.

Cheese prices were steady at Tuesday's decreases, and shippers were quoted 14¾c for new large, 15c for wtins and 15¼c for triplets, while retailers were offered 16c for new large, 16¼c for twins and 16½c for triplets.

WINNIPEG GRAIN.

WINNIPEG, February 26.— Wheat traded at fractionally higher levels for the greater part of a dull session on the Grain Exchange yesterday. Price at the close were ⅝c to ½c higher than Tuesday's close.

Export business was scattered, and in the absence of outside interests trading was mostly local and of a featureless character. Offerings were light. Foreign news was more encouraging yesterday and helped to steady the market somewhat.

Inquiry for cash wheat was moderate, but sales were limited and the spreads were little changed from the previous close.

Domestic business in coarse grains was moderate. Futures trading was on a light scale, and, apart from speculative buying of rye, pit trade was dull. Prices followed the trend of wheat.

Futures:

Wheat—	Open	High	Low	Close	Prev. Close
May	.61½	.63	.61½	.62¼	.61¾
July	.63	.64⅝	.63	.64	.63½
Oct.	.65⅝	.66½	.65	.66¼	.65⅝
July	.30¼	.30⅞	.30¼	.30⅞	.30¼
Oct.	.32⅝	.32¾	.32¼	.32½	.32¼
May	.30½	.31¼	.30½	.30⅝	.30⅝

Science Aids Babies

BABY BREATHES BY RESPIRATOR

The Michael Reese hospital in Chicago has installed a tiny respirator to be used on babies suffering from pulmonary illnesses. It will also be employed in every case of still-born children with the hope of reviving the spark of life by forcing the baby to breathe. Formerly the oxygen mask or physical methods used in cases of this kind caused as much irritation as a disease, but the machine works as gently as natural breathing. Photo shows Nurse Helen Barger and Dr. Nathan Crohn with the respirator.

The Government of Colombia recently bought an American airplane.

Czechoslovakia is increasing its appropriation for social welfare.

Many farmers in Japan are taking up weaving at home as a side issue.

Honduras may place a tariff on automobiles and gasoline.

OBITUARY

MISS MARY BURFIELD.

The death occurred on Thursday, February 19, at the residence of Dr Arthur S. Thompson, Havelock, of Miss Mary Ann Burfield, niece and adopted daughter of the late Joseph L. Thompson, of Toronto. Funeral services were held at Havelock, with interment in Mount Pleasant Cemetery, Toronto, on Saturday.

The late Miss Burfield came to Canada with Mr Thompson's family in 1866, and has been a resident of Canada ever since. She was a staunch Presbyterian all her life, and was one of the earliest members of the Women's Missionary Society.

TRENT RIVER

Miss Leone Boyd, of Marmora, was a visitor with Miss Doris Robson who returned to Marmora to spend a few days.

Mr. Albert Brooks, of Hastings, is a visitor with his son, Mr. and Mrs. George Brooks.

The ice harvesters are rushing their work this week and large quantities of first class ice have been taken at the old dock.

The members of the Ladies' Aid of the United Church are holding a ten cent tea on Wednesday afternoon, March 4, at the church.

Mrs. W. C. Iinkster has recovered from her recent illness and is able to be around again.

Miss Maybelle Inkster, R.N., left on Tuesday for Montreal to resume her duties on the staff of the Royal Victoria Nursing staff after spending the past month at the parental home.

"Nerve Breakdown, Bad Stomach Laid Me Low. Now a New Man"

Says "FRUIT-A-TIVES" Ended Terrible State Quick

"I had a nervous breakdown caused by Stomach Trouble and Constipation. I doctored for a year but was no better. I suffered from blinding headaches, too; could hardly do my work. At last I tried 'Fruit-a-tives' and they made me a new man quick. No more 'Nerves,' headaches are gone; no more trouble with Constipation and my stomach is fine. I certainly vote for 'Fruit-a-tives.'"—George E. Patrick, Frankford, Ont.

Try "Fruit-a-tives" yourself at our risk. Watch how fast bilious headaches, stomach trouble, nervousness, back pains, constipation completely disappear. Why? Because "Fruit-a-tives" are entirely different from ordinary remedies. This unique discovery of a brilliant Canadian physician for the first time combines 6 of the finest herbal tonics with a special secret extract of apples, oranges, prunes and figs—Nature's own remedies to make and keep you well. All concentrated into one small, easy-to-take tablet. No habit-forming drugs.

Free yourself from headaches, biliousness, constipation, indigestion, nervousness now. Get "Fruit-a-tives" from druggist to-day. Results guaranteed or your money promptly refunded.

Doings in Legislature

TORONTO, Ont., February 25. — Debate on the Speech from the Throne continued.

Yesterday in the Legislature.

Bills to amend the Highways, Traffic Act, and the Municipal Act withdrawn on second reading

Second reading given Bill to amend the Municipal Act.

First reading given Bills respecting the City of London, to amend the Highway Traffic Act, Municipal Act, Sheep Protection Act, and the Tile Drainage Act.

DIED

HALL.—At Millbrook on Wednesday, February 25th, William David Hall, in his 63rd year. Funeral on Friday at 2 p.m., with interment at St. Paul's Cemetery, 4th concession of Cavan. Rev. Mr. Riddell of the Presbyterian Church will conduct the service.

LIFER ACCUSED OF MURDERING DR. A. SCULLY

(Continued from page one)

no quarrel, and that they had corresponded up to a few days ago.

Amplifies Scully Story

"'Doubt on the Scully phase of the 'confession' also was cast by Hugh T. Duffy, of the Weddell House, Scully's life-long friend and administrator of his estate.

"Added details were given to-day by Mrs. Valore in the Scully murder.

"Mrs. Valore said her sister, who had been employed in the office of the physician, had received a small piece of jewelry from him as a gift.

"She said she and her sister were at home one night examining the jewelry when it was remarked the 'doctor had lots of diamonds.'

"Mrs. Valere told Sheriff Sulzmann and Chief Deputy Fred C. Alber her husband had heard the statement about the diamonds. She asserted the attempted robbery followed soon after.

"She amplified the story of the doctor's slaying which resulted in Sulzmann and Alber saying they gave full credence to her remarks. She related Valore had shot Dr. Scully while the physician was standing behind a screen. Police found a screen pierced by a bullet after the murder.

Calls for Priest

"She said Ross had told her he passed two women the night he ran from the doctor's office. She explained that Valore had informed her he had dragged Dr. Scully's body across the floor and had fired bullets into his body at short range.

"After furnishing these additional details to Sulzmann and Alber, Mrs. Valore asked to talk to a priest. A clergyman was brought to her cell.

Denies Wife's Story

"Valore, interviewed at Ohio Penitentiary, said neither of the detectives had anything to do with the parole and denied his wife's story that a bribe had been paid 'a Cleveland official' to "beat the rap' for him.

"Cavolo said to-day he went to Elyria on the case only once and that he vigorously opposed the proposed parole, although the prosecutor and the judge seemed to be inclined to grant it. He recommended parole for three youths held with Valore, he said, but told the court Valore was 'no good'."

Local relatives of the dead doctor, when shown the press clipping to-day, stated that they knew the Cleveland police were still working on the mystery, but this was the first intimation they had received that the lifer had been accused of the crime.

AUSTRALIAN DIVA IS LAID TO REST

Streets of Melbourne Lined With Sorrowing Crowds as Melba's Remains Pass.

BURIED AT LYLYDALE.

MELBOURNE, Australia, Feb. 26 (A.P.)—The body of Dame Nellie Melba was laid to rest to-day by the side of that of her father in the cemetery of the village of Lylydale, near the home she loved.

The usually busy streets of Melbourn were strangely hushed and lined with sorrowing crowds when the casket was taken on a simple farm cart from the Presbyterian church, where thousands had filed past the bier, paying their last respects to the famous singer whose golden voice they were to hear no more.

The church, where the diva as a girl sang in the choir, was full to overflowing for the funeral service, which was attended by representatives of Federal and State Governments and of the world's music and art.

Hundreds of wreaths from mourners from every corner of the globe testified to the esteem in which Melba, whose real name was Helen Porter Mitchell, was held.

Dame Nellie Melba died Monday evening after a strange lingering illness, designated in a posthumous diagnosis as parathoid.

PETERBORO WOMAN INSTANTLY KILLED

(Continued from page one)

able to leave the hospital and go to her home.

Leslie Plunkett had a broken arm, a broken nose, and left eye injuries. He was able to leave the hospital, and returned to the scene of the accident to assist police. Tom Mark, driver of the west-bound car, sustained a fractured jaw and knee injuries, while the other Chinese escaped with slight head wounds.

Mrs. Plunkett had been visiting friends in Toronto since a week ago last Sunday. She had planned to return home last Sunday, but was urged to extend her visit. Yesterday Leslie Plunkett happened to be in Toronto on business and Mrs. Plunkett took the opportunity to drive home with him.

Spend Night in Oshawa.

Miss Nelson, sister of Mrs. Plunkett, and Miss Seeney, a matron of the Children's Shelter with Miss Nelson, were invited to accompany the Plunketts. The party was planning to stop at Oshawa and pass the night.

Mrs. Plunkett was 60 years of age. She is survived by her husband, John G. Plunkett, two sons, Dr J. E. Plunkett, of Ottawa, and Leslie, and one daughter, Mrs Alvin Davis 82 Lansdowne Street, Peterborough

An inquest, the date of which has not been fixed, has been ordered by Dr. C. D. Farquharson, of Agincourt, coroner for East York.

Both cars were almost completely wrecked.

THRUSDAY, FEBRUARY 26, 1931

HELPING THE BLIND.

The bill introduced by Attorney-General Price a few days ago to encourage the employment of blind workmen is one deserving of support.

This measure, known as "The Blind Workmen's Compensation Act," is designed to encourage the employment of blind workers by relieving employers of the apprehension they might otherwise be under of employing such individuals and thereby increasing the possibility of accident and the cost of compensation.

Under the act workmen who have lost their sight may be placed in employment by the Canadian National Institute for the Blind, and should an accident occur compensation up to $50 will be paid in the ordinary way under the Workmen's Compensation Act, while the compensation exceeding that amount will be paid by the Provincial Government.

Many blind persons, thanks to the Institute for the Blind and similar organizations, have learned a useful trade and are capable of earning their own livelihood, but up to the present they have been handicapped in securing employment because of a natural fear on the part of employers that their condition might render them liable to be accident victims.

The new law recognizes that condition, and with the Province accepting the risk and guaranteeing compensation in all serious cases, blind people should find it much more easy to secure jobs.

NATIVE WINE PERMITS.

Another agitation for the abolishing of native wine permits is under way, this time with Niagara Peninsula grape-growers supplying most of the ammunition.

According to the growers, the permit system means that the small wineries may be forced out of business, with the result that the grape-growers will suffer a serious loss of revenue.

Naturally those who are seeking a change would choose nothing but the deepest black to paint their picture, and the situation may not be as bad as it is depicted.

In any event, however, it will be difficult to convince anybody who has given any thought to the matter that the present restrictions should be taken off and the sale of native wine restored to the status it enjoyed under the Ontario Temperance Act when anybody with money enough to buy the legal quantity could do so.

Experience has shown the necessity of putting the home-produced wine under the same control as other alcoholic beverages, for police court records show the Ontario wine as the source of a large proportion of the cases that have to be dealt with.

Cheap and with a high alcoholic content, it is certainly not a potion that should be sold except under the same restrictions as govern the sale of other intoxicating drinks.

A step toward a dryer Ontario was made when native wine was included in the permit system, and the matter should be left at that.

THE EXAMINER AND TEMPERANCE EDUCATION.

The charge is made against The Examiner that while this paper has constantly stressed the need of temperance education, it has not done its part in supplying that education.

In a letter which appears in "The Voice of the People" columns to-day, Rev. J. E. J. Millyard complains that in several recent local cases in which liquor figured The Examiner side-stepped opportunities to stress the evils of intemperances.

The cases he mentions were, however, fully and accurately reported by The Examiner, the part that liquor played was set forth for all to read and study, and the moral was surely plain enough to need no editorial pointing.

The Examiner has, it is true, referred on numerous occasions to the need of education along temperance lines, feeling that those who have been endeavoring to promote sobriety by means of prohibitory laws were using the wrong weapon, and that they would have better chance of succeeding if they endeavored to educate public opinion in regard to the folly of intemperance.

It may be that in this attempt to help temperance organizations to reach the goal they have set themselves we have left ourselves open to the criticism that is now proffered—although these columns, it must be remembered, have not infrequently reminded the public that too much money was being spent on liquor in this Province and have pointed out the foolishness of such expenditures.

And it should not be forgotten, too, that when the Liquor Control Act was first mooted it was The Examiner which suggested that one of the provisions of the new legislation should be a regulation forbidding the advertising of alcoholic beverages, which, if not a contribution to temperance education, was certainly a protection against propaganda that would have led to intemperance.

MARVELS OF BRITISH TRANSPORT.

If, as Kipling said, transportation is civilization, Great Britain is the most civilising agency in existence.

Great Britain is the greatest carrier nation in the world. Her shipping and railways carry goods and people to every corner of the globe, into places where no other transport system goes, conveying the means of life to her sons and daughters everywhere and to subject peoples who would exist only in a barbaric state but for the civilizing influence of transport.

There are over twenty million tons of sea-going ships under the British flag. That is more than the next three great shipping nations of the world put together. These ships carry to and from United Kingdom ports every year over ten billion dollars' worth of merchandise. There are vast warehouses in London, Liverpool, Cardiff, Glasgow, and elsewhere always crammed with goods in transit. Over 650,000 tons of meat, 700,000 tons of fruit, 3,000,000 tons of grain, 55,000,000 fleeces of wool, and over 520,000,000 pounds of tea pass through the port of London every year. And London does not handle one-third of the traffic. Glasgow handles about three billion dollars' worth. Liverpool, with its twenty-eight miles of wharves, two thousand acres of anchorage, and two hundred miles of wharf railways, does a bigger shipping business than Glasgow. Then there is the passenger port of Southampton. Wonderful as the docks are, sixty-five million dollars are being spent there now on an extension scheme that will take five years to complete.

There are also great harbors to handle British trade in India and elsewhere. Bombay alone has accommodation for one hundred and twenty-five ocean ships.

Then the railways.

In Britain, which, geographically speaking, is about one-thirtieth the size of Canada, there are over twenty thousand miles of railways, about half the total in the entire Dominion, capitalized at over five billion dollars. Britain has also built over forty thousand miles of railways in India, many thousands in Argentine, Brazil and other countries—billions piled on billions, creating and developing trade in all climes within these countries and with all the world-spreading civilization everywhere.

In the airplane transport Britain also plays a leading part, but it is shipping and railways that make Great Britain what it is. Some of the great key industries are in a bad way, and the country is staggering under a mountain of debt. But it is this marvellous trade, served by ships and railways, that has enabled John Bull to pay his debts as they fall due, and still retain the lead as the world's financial centre.

And did you notice a few days ago that despite all the cries of "blue ruin," the cash savings in British savings banks amount to-day to the tidy sum of fourteen billion dollars?—St. Thomas Times-Journal.

THE TURNOVER TAX.

The prediction that the Federal Government may levy a turnover tax as a means of meeting the situation created by rapidly-decreasing revenues has led the Citizens' Research Institute to reprint the admirable bulletin on the subject issued by the Institute some years ago.

There are so many people who have such a hazy conception of what this kind of tax really is that it might be helpful to repeat the definition given in this excellent article, which is to the effect that the turnover tax, applied to its theoretical limit, is a tax upon the gross sale of commodities and services of all business, whether manufacturing, wholesaling, jobbing or retailing, and whether mercantile, financial or professional.

It differents from the sales tax now in force in a number of respects.

In the first place, the percentage to be applied under the turnover tax is usually placed at 1 per cent. at each stage, instead of a higher percentage at the most highly finished stage only.

The turnover tax would apply to the sales of all commodities at all stages, and not simply at one stage.

The sales tax is applied to every individual sale at the time of sale and involves a tremendous amount of calculation and adjustment. The turnover tax would be applied on the amount of gross sales of commodities or services at the end of each month, or three months, and would involve simply the determination of one per cent. of the gross sales for the period specified. Anyone keeping even single entry books or even a cash register could easily fill out the necessary form and calculate the size of the Government's cheque.

The number of businesses subject to the turnover tax would naturally be much greater than that now subject to the sales tax. This would increase the work of the tax department in so far as it would compel it to deal with more people, but would tend to decrease the work on account of the greater simplicity of the turnover tax, and the greater ease of auditing statements and making investigations where these are proved necessary. It would increase the number of those who would have to make reports, but would reduce, for the average taxpayer, the difficulty of making out reports.

The general turnover tax would differ from the present sales tax in that it would be applied to the sale of services as well as of commodities.

It should also be stated that the number paying the turnover tax would be greatly reduced by the exemption of turnovers so small as to make the cost of collection out of proportion to the proceeds to the Government. Practically all proponents of the turnover tax recommend the exemption of turnover up to $5,000 or $6,000.

EDITORIAL NOTES AND COMMENT.

Apparently the Port Colborne and Toronto Mariboro teams have forgotten that the primary object of hockey is to score goals.

Public tariff hearings at Ottawa have concluded for the present. But tariff alterations will still go on, according to Ottawa predictions.

The two one-man groups in the Legislature, the U.F.O. and Labor factions, are small but big enough to introduce an amendment to the Address in reply to the Speech from the Throne.

Big Bill Thompson evidently knows his Chicago, judging by the ease with which he has won the first round in the mayoralty campaign.

The municipal deputation which waited on the Premier the other day brought back little hope of relief from the burden of highway costs.

Sir George Gibb, famous British port authority, is going to make a study of Canadian harbors, but up to the present the port of Peterborough has not appeared in the list of those to be visited.

The report that the speed limit of automobiles in Ontario was to be abolished has been denied by Premier Henry. For some drivers the most the car will do will continue to be the speed limit anyway.

The Ontario Motor League is opposed to legislation requiring motorists to make a full stop at level crossings. But the League must be conscious of the fact that the casualty list calls for some plans to reduce grade crossing accidents.

The response to the Relief Fund appeal is gratifying. Peterborough never fails when a worthwhile cause requires help.

Ontario may have a law to force motorists to stop at railway crossings. Railway engines have been enforcing somethieg like that for quite a while.—Stratford Beacon-Herald.

A resident of an Eastern town reports radio programs coming from his stove, and programs have also been heard here that sound like blazes.—Port Arthur News-Chronicle.

Capital is the seed corn of the next harvest.—Lord Inchcape.

The Red-Headed Goddess

By

ALICE ROSS COLVER

(Continued from yesterday.)

Slowly the fathery clouds drifted together. Slowly the balls of cotton massed into banks of snow. Faster the banks rolled up the turquoise sky, their speed increasing as they darkened. Now they were gray, now blue, now black. And now came the low mutter of thunder, the rattling of musketry, the sharp, deafening cannonade, with the twisting blue-black clouds writhing under the agonizing javelin thrusts of the lightning. Then the smoke-colored curtain of rain swept out of the distances, blotting out the cathedrals, the hanging gardens, the turrets and spires, the garden of gods.

The pony was racing now, with the Indian lying so close to his back that he was scarcely discernible. How they could ride, those Indians, thought Red Jim, and how it must have looked a few years ago to see hundreds of them tearing down on you like that! This fellow came like the lightning itself, as swiftly, as fiercely, as terrifyingly. Who the devil was he? Ah, he could see now. That was Silver Tongue's pinto—the young Navajo who had just left the Government school back there.

Silly thing, educating these Indians, he reflected. What good did it do? They came back neither one thing nor the other, ideas about the whites all wrong—or were they right? Anyway, it was dangerous knowledge. Silver Tongue, for example. What good did a coating of English do him? Look at him! As much a part of this desert and the storm as the elements themselves.

Suddenly Red Jim rose. The Greek temple was gone now. He could hear the rush of the rain, and the pound of the pony's feet just a few yards out of its reach. It was like a picture, one of those movies, and he stood fascinated, until, like a flash, the pony slid to a halt on his haunches, the dark shape of Silver Tongue was beside him, and, before the sand could settle, the rain was beating upon them all. Without a word the two men dashed for the door, and reached it just as the silver sheet wrapped itself about the house in a wild and furious embrace.

Within the shack the Indian stood breathing hard. Red Jim glanced at him.

"How." He greeted, and went to knock out his pipe on the stove.

"How." Returned Silver Tongue.

The windows looked out on the wind-driven, gray rain. It tore past in thick waves, an impenetrable curtain closing the world from their sight, but the men ignored it, conscious of each other in a calm unconsciousness. Silver Tongue's eyes were on the white man's devil box on the table, that thing that gathered all the four corners of the world into a small space and held it there, that thing that captured all the sound of the universe, the sound of the winds, of the rain, of thunder, of talking, of laughter, of all music, that thing that could spring over the highest mountain, could leap the longest lake and yet never move, that thing that knew everything that happened, yet told only what the white man chose, that foolish, terrifying thing that contained merely little spools and tubes of tin and shining bits of wire, which he had seen the white man put together himself, that thing that there was no explaining and no fearing (after the first while), and of which he could not speak to his own people, because if he did they would cast him out from among them. They would not believe him. They would revile him and spit upon him for the lies he had learned to tell at the white man's school, and they would no longer know him for one of them. That was what had happened to the son of Cloud-in-the-Face. He had cine bac and spoken of an airplane, had tried to make his people see what he had seen, know what he knew, hear about the Great Bird that carried people through the air as easily as horses did on the desert, and they had driven him away. They thought he had forsaken the red man's religion if he would believe such white man's stories, and he had become an outcast.

Silver Tongue did not wish to be an outcast, but he did wish to hear the devil box make sounds. It was for just that fascinating magic that he had directed his course homeward by way of Red Jim's. If Silver Tongue could learn to make the box talk, he would be greater than Scar-Face, the old medicine man of his tribe. He would be greater than any medicine man. He would to-night sit still, like hunter, and watch with keen eyes, and see how the white man made it talk, and go away and keep the secret locked within him until he too could procure a devil box that held the North and the East and the South and the West in a tight small space.

But he sat there, cross-legged on the floor, never seeing it, never turning his eyes from the stove. And Red Jim, knowing perfectly well what was going on inside Silver Tongue's head, sat there too, never seeing it, never turning his eyes from the stove.

"By Jove! I'll make him ask!" he chuckled to himself, "I'll make the Indian ask for what he wants."

As suddenly as it came, the rain stopped, the sun burst out, the clouds vanished, and the desert lay twinkling in the slanting, golden rays of light from the west. Silver Tongue sat on. Red Jim finished his pipe and sat on. Silver Tongue rose reluctantly. Red Jim was lost in meditation. At the doorway the Indian lingered. Red Jim did not see or hear him.

"By," said Silver Tongue at last.

Red Jim roused.

"Oh! Good-by. Come again, Silver Tongue."

"Ungh."

The dark shape vanished. In a moment Chin Lee's round eyes peered through a window. He pried it up an inch.

"No killee?" he whispered.

"Alive and well. Thanks for your courteous interest. Enter, Chin Lee, let's celebrate your careful guardianship of your worthless soul, and its safe escape, with a little music."

Red Jim reached for the devil box, twirled a couple of knobs, and instantly the room was filled with the crashing music of a marching band. At the same time Red Jim flung the door wide, with a smile lurking about his bearded mouth.

"I get laigs. Clook omelet now. Lindian gone," said Chin Lee disappearing from the window.

Red Jim went back to his chair, his back to the door, one hand stretched out to the radio. That music was loud, all right; it would travel a long way; but it was too loud for this small room. He twirled a knob again. There was a series of squeaks and groans, then a man's voice, resonant, clear, was heard finishing an announcement.

"—small, with short, blazing red hair. She was dressed in a blue evening dress and wore gold slippers and stockings, and a long chain of amber beads, though her aviator's suit covered her completely. Her companion was about six feet tall, and slender. He had blue eyes and dark hair. He piloted his own plane, a small two-passenger monoplane. It is believed the pair were caught in a storm and were forced down somewhere in Arizona three days ago. A reward of ten thousand dollars is offered by the girl's father for any information leading to their safe return. Address all communications—"

Red Jim shut off the machine and turning, greeted the Indian, who stood silently behind him.

"How."

"How."

"Raining again?"

"Ungh. No."

"Hm. Perhaps you heard Chin Lee say he was going to make the great Desert Delicacy, an egg omelet?"

"Ungh. No."

Red Jim's eye twinkled beneath his bushy brows. The Indian faced him unsmiling, but his mind was working fast. Before him stood a man who had made a box that held the world, and who could make that box talk. He could also make an Indian talk if he chose. Well, then, so be it. He lifted his head proudly.

"Silver Tongue would like to hear the white man's devil box."

"Didn't you hear it, a minute ago?"

"Ungh. It told of an airplane Silver Tongue saw that white man's airplane when it came down three days ago. But how did the devil box know of it? Has it eyes also, to see?"

"The devil box knows everything there is to know, Silver Tongue. It has knowledge of all the world."

Silver Tongue bent his head. It was not possible. At the same time, it was true.

"But about that airplane, Silver Tongue. Were you near enough to see if they smashed?"

"It was by the place of White Pillars. I was far on my way. I could not see." He shrugged. "Then came the sandstorm. The white man is helpless in the desert. He and the girl with red hair gave gone to join their fathers by now."

"Perhaps. But even white men can manage to live in the desert for threedays Silver Tongue, if they don't smash, and I don't think they're dead yet. You might look as you go along. Because, after all, ten thousand dollars is ten thousand dollars," he ended reflectively.

The Indian's eyes glittered.

"Will the devil box give me the money if I find these white people?"

"The devil box—" Red Jim shook with silent laughter. "No," he said at last. "The devil box hasn't any money. But it will tell you where to go with the girl to get the money. But what in the world will you do with ten thousand dollars, Silver Tongue?"

"Ungh." The Indian maintained silence for a long moment. Red Jim waited. At last the red man spoke. His voice was soft, uncertain.

"Part of that money might buy this devil box from the white man?"

Red Jim considered.

"Possibly," he conceded finally. "Possibly. Why do you want the devil box, Silver Tongue?"

"It is magic. If I can take to my people such a magic box that I can make sing and talk, I will be powerful. I will be more powerful than Scar Face, than any medicine man."

Red Jim heard with the kind of wry delight that fed his soul. This half-educated Indian, with a veneer of knowledge spread thin over old traditions and beliefs, wanted the white man's newest invention so that by it he could become the most powerful sorcerer among all the Navajo tribes. It was delicious.

"So you want power, Silver Tongue! You sound like an Irishman from Tammany Hall. You disappoint me."

"And Red Jim disappoints Silver Tongue. It is not the white man I came to hear talk," the Indian observed with extreme politeness.

Red Jim's great laugh boomed out on the air, as he turned the knobs again. At once soft music filled the little shack. Silver Tongue came forward and dropped on the floor, silent, attentive. Red Jim tipped back in a chair.

The sound of his master's laughter brought the Chinaman at a run. The door burst open, and then Chin Lee nearly fell over in his effort to stop himself as he espied the dark visitor. Silver Tongue turned at the clatter and smiled. He was happy. The devil box was singing. The devil box that would soon be his—as soon as he found the white girl—and that would be easy for an Indian.

"How!" said he cordially to the yellow man.

"Dee-do," snapped Chin Lee. "You goin'? You comin'? You do both allee same time."

"He's staying, Chin Lee. Omelet for two," ordered Red Jim.

"Damn," murmured the Chinaman, bowing. "Me dlop all two laigs on glound. Velly velly solly!"

"Omelet for two!" roared his master, rising in wrath.

"Damn," repeated Chin Lee, with a gentle sigh. "All lite." And he scudded away.

(To be continued)

Voice of the People

TAG DAY FOR RELIEF

To the Editor of The Examiner.

Dear Sir,—

Permit me a little space in your valuable paper on this Relief question.

Without a doubt the various organizations have and are doing splendid work in relieving the distress which is pretty bad in this city, but to help to augment the funds of the newly formed Relief Committee which is in the hands of an able and competent staff, why cannot we have a tag day in the very near future, with twenty or thirty of the unemployed as collectors and the work to be done under the auspices of the Peterborough Relief Association.

I am willing to take my stand with a box and I feel sure the committee would meet with good success and a fine response to their appeal for this deserving cause. So let us have a Tag Day and as soon as possible!

Yours faithfully,

A WILLING WORKER.

Editor—It is felt that the one appeal to our citizens will be all that is necessary to secure funds.

CUTTING OFF LIGHTS

To the Editor of The Examiner.

Dear sir:

In Saturday's issue of your paper, I read an account of the generous manner in which the different workers appealed to had responded to your appeal for contributions to the Relief Fund.

You mentioned the Utilities Commission as having contributed 100 per cent. I just wondered if you could induce the Relief Committee to use some of that contribution to help us out in the way of lights as the Utilities Commission sent a man down here and turned off our lights two weeks ago because we owed them a bill of $2.35 or thereabouts (not more than $2.75).

My husband has not been able to get work since the first week in December. He got relief work in the bush to do and had to quit through sickness. He has been sick for more than a month and our baby too has been sick. We have no lamps and cannot afford to buy any. Occasional candles are our night lights. They knew of the sickness when they turned off the lights.

So we would be very grateful to you if you could ask the Relief Committe if they could help us out or extend our credit with the Commission until we can pay.

Yours sincerely,

MRS. HARVEY.

TEMPERANCE EDUCATION

The Editor of The Examiner.

Dear sir:

Respecting the letter which appeared in your issue of the 24th. inst. entitled "The Dundas Affair", and written by Gordon Dundas' mother, may I say that, in my judgment, Mrs. Dundas has a real grievance. Liquor was undoubtedly the cause of her son's crime. But your paper, while not actually suppressing this fact, certainly gave it no particular prominence.

One wonders the more at this because you are constantly stressing the need of temperance education. Apparently the temperance education you believe in is that which somebody else will do. What better medium for temperance education could there be than a daily newspaper? Yet day after day one searches the columns of your paper in vain for any such education of a direct character, and, even when you get an opportunity to give such education indirectly, you usually sidestep it to a great degree. Not only the Dundas case, but also the Lewis case, and others that might be mentioned, have given you splendid opportunity to put before the people in an educational way the evil that liquor does. But you have made little or no use of these opportunities.

I absolutely agree with you, Mr. Editor, as to the need for temperance education. But why leave the Prohibition Union, and the W.C.T.U., and the churches, and the schools to do it all? Why shouldn't The Examiner do its share?

Trusting that you will be able to find space for this letter, I am,

Yours sincerely,

J. E. J. MILLYARD

What To-day Means To You

"PISCES"

If February 26th is your birthday, the best hours for you on this date are from 11 a.m. to 1:30 p.m., and from 4:15 p.m. to 6:30 p.m. The danger period is from 7:30 p.m. to 9 p.m.

The planetary aspects of February 26 are stimulating and strong. It will prove to be an auspicious occasion for the making of decisions and for important changes. In the evening, emotions will be stirred, and Love's dream will become true.

A child born on this February 26th will be a fighter, and not only in early youth, but throughout life. It will strongly resent any individual or public injustice. It will always stand up for its rights, and be self-reliant. It will not, however, be diplomatic. Its affections will be strong. Its dislikes will be enduring.

If you were born on February 26th, you have a rugged character, and one that is strong and dominating. You are not much of a talker, but you are some doer. The more difficult the task, the greater your desire to tackle it. There is no such word as "can't" in your vocabulary or philosophy of life.

You have a great fund of common sense, a homely humor, and a ready wit. Some make an appeal by their helplessness, but you make your appeal by strength. Added to your other gifts, you are shrewd in the best sense of the term—and, although you never try to "put one over" on your neighbor, you are wide awake to see that he does not "put one over" on you.

Your life, according to your horoscope, promises to be full of success. This will not give you "a swollen head,' and neither will any of the reverses you will undergo prove a "K.O."

In your social relationships, you are rather more silent than the average person. On the other hand, you are a good listener, and nothing is more agreeable to those who talk. Your convictions are strong, and though you will rarely voice them, you will act them all the time. In your home you will be a "tower of strength" and a practical comforter.

FELLOWSHIP OF PRAYER

DAILY LENTEN DEVOTION

PREPARED BY THE REV CLARENCE H. WILSON, D.D. FOR THE COMMISSION ON EVANGELISM OF THE FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA

HOME-TOWN FOLKS.

"No prophet is accepted in his own country."—Luke 4:24. (Read Luke 4:16-30.)

Meditation

Jesus went back to his home town apparently after a long absence. He went to church and was given an opportunity to preach. His old neighbors were not proud of Him. They resented His presumption in going beyond them. How foolish people are that way! As though the home town had no title or right to excellence! It is so in many a small town which depreciates its own product. Then Jesus preached a missionary sermon and the people were offended at that. They were one hundred per cent patriotic and were angered when Jesus told them that God cared for foreigners. What foolish egotists we are on the subject of race and nation! We assume that we are the chosen people. The home-town mind is provincial. The field is the world.

THE REV CLARENCE H. WILSON, D.D.

Prayer

O God who hast made of one blood all nations, make broad our human sympathies and make deep our Christian charity. And make us sensible, we beseech Thee, of Thine anointing when it rests on familiar heads. In Jesus' name. Amen.

FAIRMOUNT

The World's Day of Prayer was observed by the W.M.S. of Fairmount at the home of Mrs. McIndoo, Mrs. R. C. Hanbidge, president, occupying the chair. The program outlined for the day in the Missionary Monthly was followed, parts being taken by Mrs. Hanbidge, Mrs. James Seymour, Mrs. Wm. Johnston and Mrs. Robert Hooton. Mrs. Russel Earle contributed an appropriate solo, "The Perfect Prayer."

Hostesses for the occasion were Mrs. William Johnston, Mrs. Carman Seymour and Mrs. Russel Earle.

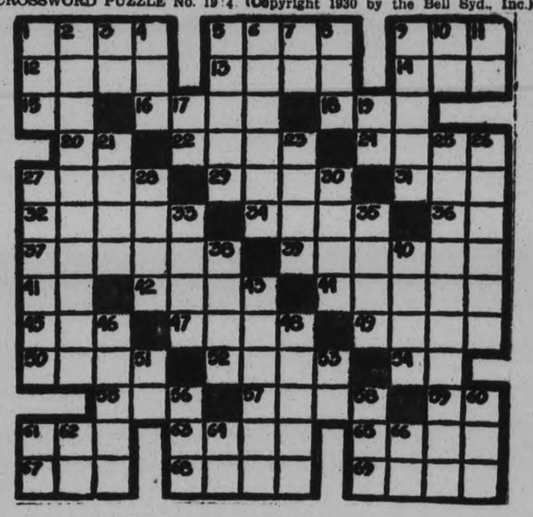
Messrs. John Richar and Russel Earle attended Millbrook Horse Show on Thursday. Mr. J. O. Ball won 1st and third prize with his driver.

Mr. and Mrs. Ira Switzer, of Emily, visited at the home of Mr. and Mrs. S. L. Connell, on Friday.

A very pleasant evening was spent at the home of Mr. and Mrs. Carman Seymour on Friday when they entertained a number of their friends.

Mrs. Larmer, of Oshawa, is the guest of Mrs. A. C. McBain.

CROSSWORD PUZZLE No. 19:4 (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—Flat bottomed boat.
5—Command.
9—A tree.
12—Small opening.
13—To and in.
14—By way of.
15—Article.
16—Debt certificate.
18—Article.
20—Toward.
22—Payments.
24—Finishes.
27—Snare.
29—Group of nerves.
31—To taste.
32—Gets up.
34—Girl's name.
36—Thus.
37—To achieve.
39—Column.
41—Symbol for nickel.
42—To jog.
44—Chic.
45—Domestic animal.
47—Kind of cheese.
49—Knights.
50—Girl's name.
52—To look over carefully.
54—Sun god.
55—Offspring.
57—To tie.
59—Compass point.
61—To inspire fear.
63—To "make eyes."
65—To egg.
67—Feminine pronoun.
68—Parts of shoes.
69—A beverage.

VERTICAL

1—Watering place.
2—Deep penitence.
3—Conjunction.
4—Trap for insects.
5—More delicate.
6—In truth.
7—By.
8—Colloquial child.
9—Levels.
10—Fifty-one.
11—Mother.
17—Belonging to.
19—Pronoun.
21—Kiln.
23—To cease.
25—Disturb.
26—Pastimes.
27—State of insensibility.
28—Vegetable fuel.
30—Goddess of discord.
33—Father.
35—Gifts for charity.
38—Bows.
40—Den.
43—Fishing equipment.
46—More intelligent.
48—Animal's hair (plural).
51—To act.
53—A negative.
56—A negative.
58—Basin.
60—Poetic ever.
61—Exclamation.
62—Pronoun.
64—To depart.
66—Musical note.

Don't Miss This One!

C.G.E. vs. Cogs

BROCK STREET RINK

FRIDAY, at 8.15

C.G.E. must win to stay in the East Peterborough League running. These teams include the pick of Peterborough's O.H.A. players. Both of them are playing smart hockey in this league, and should provide another good game

This may be the last game of the season

ADMISSION 25c

IRREGULAR ADVANCE FEATURES TORONTO STOCK EXCHANGE TRADE

Inter-listed Issues Among the Strong Spots as New York Continues Bullish Session.

LIQUOR STOCKS ACTIVE.

TORONTO, Ont., Feb. 26. (CP)—Toronto Stock Exchange market opened this morning with the tone still soft, but later in the morning developed an irregular upward trend. Volume was on a moderate scale, nor did the strength which developed late in the second hour encourage fresh activity. Inter-listed issues were among the strong spots as New York continued bullish, but the local list lagged behind the larger centre.

Nickel, opening unchanged to slightly lower, crept up until it had again crossed 19 and at midday had a gain of more than ½ point. Noranda was slightly higher above 18, Ford of Canada up ¼ point at 27¼, Brazilian up ½ point at 26½ and Loblaw "A" slightly better again.

Liquor stocks, while not making outstanding gains, nevertheless were attracting attention, especially with Walkers straining to push upward above its recent high of 8½.

Oils were irregularly lower again and Steel of Canada eased below.

Trades Disputes Bill Receives Set-Back

LONDON, Feb. 26.—(A.P.)—One of the Labor Party's most important pieces of legislation—the Trades Disputes Bill—was virtually killed tonight in committee by a Liberal-Conservative coalition which forced through an amendment to the Government's definition of an "illegal strike."

The new definition, which the Labor members say makes the bill useless, was put through by a vote of 37 to 31 and the committee adjourned without any official Laborite statement as to the future of the bill.

Home-made Plane Climbs 3,500 Feet

KITCHENER, Ont., Feb. 26.—(C.P.).—An altitude of 3,500 feet was attained yesterday by Theodore Dietrich, St. Agatha garage man, in a small home-made airplane powered only by a 27 horse-power motorcycle engine. Dietrich's odd little ship climbed steadily. On reaching 1,500 feet the pilot took both hands from the controls to demonstrate the stability of the craft.

The plane was damaged slightly in landing when one of the skis struck a stick which was covered by the snow.

SUSPEND PUBLICATION.

SYDNEY, Australia, February 26 (Canadian Press Cable). — The Sydney Evening News, a daily newspaper published by S. Bennett, Limited, has temporarily suspended publication "owing to adverse economic conditions."

SUNDAY MOVIE BILL

LONDON, Feb. 26 (C.P. Cable).—Rt. Hon. J. R. Clynes, Home Secretary, announced in the House of Commons to-day that the Government would shortly introduce a bill enabling Parliament to pronounce on the question of Sunday operation of moving picture theatres. The Government is now considering the question of rendering inoperative certain breaches of the old Sunday Observance Act, he added.

MINERS TRAPPED BY BLAST.

SCRANTON, Pa., Feb. 26 (C.P.).—Reports that a number of men were entombed in the Underwood colliery of the Pitterton Company at Underwood, near here, caused rescue squads to be rushed into the mine this afternoon. A gas explosion was reported to have let loose a flood of water which may have trapped twenty men.

MINING BRIEFS.

TORONTO, Ont., Feb. 26. (Special to Examiner.)—Though leaders showed considerable strength, reflecting firmness in New York, the mining list, as a whole lacked buoyancy to-day. Majority of prices displayed underlying resistance, but small recessions predominated after the first hour or so of trading

Siscoe Gold was somewhat stronger on reports of new developments at the property. Ore which was lost for some time in the upper levels is reported to have been picked up on the 450 horizon, adding considerably to the potentialities of further work on this level. An increase in output from Siscoe is indicated in figures for January which show a recovery of $14.75 per ton and total productions of $30,947. Provision for additional power will from now on, permit work to proceed on a larger scale, while the forthcoming mill increase should find early reflection in monthly totals.

Another Canadian gold mine has entered the list of dividend payers. Pioneer Gold Mines of British Columbia has declared an initial dividend of three cents per share for the quarter. The dividend is payable April 1 to shareholders of record March 16 and will involve a cash outlay of $50,000. For the calendar year 1930, district totalled $275,000 compared with $190,000 in the preceding period. Announcement is made that Alberta Pacific Consolidated Oils has taken over the well and property held by the Campbell Hunter syndicate in the Taber district of Alberta. Work is to start this week on the well which previously was drilled to 3320 feet at which point a string of tools were lost just as the oil sands were reached. After some effort had been made to recover them, work was suspended late last summer. Official denial of the report that Bidgood was planning acquisition of additional properties in the eastern Kirkland Lake district was given to-day. The company holds a large acreage now with an approximate length of two miles on the strike of the vein.

A new record in gold output in the Transvaal mines was established in 1930, value of production being computed at $227,673,230 by the Transvaal chamber of mines. Total 1930 production of gold was 10,719,760 fine ounces, an increase over the previous year's figures of 307,434 ounces. Value showed an increase of $6,529,490. Total since commencement of production is 250,163,852 fine ounces, representing, at a standard value, which, of course was supplemented by a premium of more than $150,000,000 during the war period, of no less than $5,313,142,590

Fourteen Windsor Reds Remanded Eight Days

WINDSOR, Ont., Feb. 26. (CP)—Fourteen Communists and sympathizers who were arrested late yesterday when Windsor police broke up a parade were to-day given remands for eight days. They are on personal recognizance of $50 each.

The men were charged with parading in Windsor without first securing a permit from the Chief of Police provided by by-law.

The parade yesterday followed a speech-making demonstration in City Hall Park, which was fairly well attended and orderly. The parade was orderly but objection was taken to the exhibition of banners and the route followed which was was one of the main thoroughfares and at a busy hour.

SUICIDE WAS INSANE.

LONDON, Eng., Feb. 26. (AP)—A verdict that James Benson Kennedy, 80, formerly of New York, had committed suicide while of unsound mind, was returned by a coroner's jury which investigated his death to-day.

Mr Kennedy was found hanging by a cord from the bannister rail in a stable at the rear of his South Kensington house Tuesday. His daughter, Lady Dunbar, wife of Sir George Alexander Dunbar, said that her father had recently suffered from indigestion and low spirits.

Wheat Averages Lower Following Rain Reports

CHICAGO, Ill., Feb. 26. (CP)—Influenced by forecasts of rain or snow in parts of the spring wheat belt grains averaged lower early to-day. There were also reports that Australia was dumping wheat on European markets at lower prices. Opening at ¼ cent off to 1-8 up, wheat afterward sagged further Corn started unchanged to 3-8 higher, and subsequently declined.

POLITICS IS GOAL OF FARM BODY

Saskatchewan Group Want Social Ownership and Co-operative Nonprofit Production.

DECIDING BALLOT AT HAND.

(By Gillies Purcell, C. P. Staff Writer.)

SASKATOON, Sask., Feb. 26. — Entry into politics to-day appeared the proximate step of United Farmers of Canada (Saskatchewan section), with social ownership and co-operative non-profit production defined as ultimate objectives. A ballot in favor of political action is considered an immediate certainty, following virtually unanimous decision last night to thrust aside a last constitutional barrier.

Official formation of a new farm party this week is now considered impossible, since last night's constitutional amendment must be okayed by local lodges—a two-month task.

No matter when the party is officially born, however, it will be actually conceived when the convention votes for political action, to-day or to-morrow, at the latest.

Ireland has the "flu" epidemic.

London will have "baby" taxicabs.

"Did Not Know Rowe," Says Gordon Bradley

BARRIE, Ont., February 26 (C.P.). — Declaring he had nothing to do with the shooting of Russell Rowe, and that he had never been introduced to Rowe, Gordon Bradley, 33-year-old Bondhead farmer, who is on trial on a charge of attempted murder, testified in his own defence to-day. He recounted his actions on the night of the shooting and members of his family also gave evidence as to the time he arrived home and went to bed. The case is continuing.

Winnipeg Review

Special Service to The Examiner through the courtesy of E. J Bawlf Company, Grain and Stock Brokers, of Toronto

The local wheat market displayed a firmer tone yesterday and prices were from ¼ to1 cent higher after a dip at the opening. However, there was very little going on, the upturn being largely a re-action following the weakness ofthe past three days and lower closings. There was a few buying orders coming in from the South, but the main strength came from short covering and from the extremely light offerings there being practically nothing for sale at times. Chicago did some selling of May at 62½ cents, and took it back which ran prices up to 63 cents, the top for the day.

Total export sales on Tuesday were estimated at around 600,000 bushels, but there was very little doing overnight, probably 200,000 bushels with the possibility that north American sales for the two days reached close to one million bushels, part of which was credited to the U.S. Farm Board.

There was a fairly good inquiry for cash wheat but little for sale and spreads were unchanged. There was no change in the flour situation.

Bradstreets Visible Worlds total wheat ncreased 3,428,000 bushels, and now stands at 462,182,000 as against 420,166,000 a year ago.

In Germany a campaign has been started to induce Farmers to cut down their acreage on Oats and Rye and to increase the spring wheat.

Liverpool closed weak, 7-8 to 1 1-8 lower, Buenos Aires at 3 o'clock 3-8 higher, after being 3-8 lower most of the day.

Country marketings Tuesday 401,000 against 219,000 years ago.

We still favor sales on the upturns.

Coarse Grains.—These markets were firmer but very quiet, with nothing of feature going on. Offerings continue light. The cash markets are also quiet with a few odd cars of lower grade Oats worked for eastern domestic trade. Flax firmer, closing 1 1-8 to 1 7-8 higher. However, there was practically nothing going on outside of a little spreading.

Liverpool due ¾ to 5-8 higher based on Winnipeg.

$1,500 JUDGMENT IS SET ASIDE

Hamilton Youth To Be Allowed To Enter Defence in Breach of Promise Suit.

CLAIMS HE WAS BEATEN.

TORONTO, Ont., Feb. 26 (C.P.).—A default judgment for $1,500 against Alfred M. Clayton of Hamilton for alleged breach of promise of marriage was set aside by George A. Drew, Master in Chambers, at Osgoode Hall to-day. G. T. Walsh, K.C., counsel for Clayton, declared that his client was not only under the age of 21 when the judgment was entered against him, but that he had a good defence for the action.

Action was originally instituted under the Children of Unmarried Parents Act.

The plaintiff, Agnes Stewart of Hamilton, asked for his support of a child which she said was his. Mr. Walsh related. Clayton paid $86 in medical expenses and $15 a month towards the child's support.

When approached with a suggestion that he should marry the plaintiff, Clayton declined. He claims he was set upon and unmercifully beaten by plaintiff's three brothers.

Accompanied by them, defendant says, he was taken to get a marriage license. He bought and signed it after threats were made to him, he asserts, in a statement of defence, and never even had it in his possession.

Under the circumstances, the Master ruled, the judgment should be set aside to allow a defence to be entered.

Veterans' Loan Bill Vetoed by House

WASHINGTON, Feb. 26.— (A.P.)—President Hoover to-day vetoed the Veterans' War Loan Bill.

In a message to the House, he called the legislation unwise from the standpoint of the veterans themselves and unwise from the standpoint of all the people."

Overwhelmingly approved by the House and Senate, the bill would increase the amount a veteran could borrow on his bonus certificate from 22½ to 50 per cent. of the face value. Its Congressional proponents stood ready to make a prompt effort to override the veto.

The President said the legislation imposes a potential cash outlay of $1,700,000,000, if all the veterans apply for loans.

SOFTER TONE DEVELOPS ON MINING LIST

Small Losses Predominate Throughout Today's Session on Standard.

INTER-LISTED FIRM.

Nickel Reflecting Renewed Strength at New York Advances Three-quarters to 19.

TORONTO, Ont., Feb. 26. (CP)—Small losses predominated throughout the mining list at midday to-day,a somewhat easier feeling creeping in shortly after the opening. Interlisted issues were firm, however, and the board displayed an underlying resistence.

International Nickel sold up three-quarters to $19, reflecting renewed strength in New York, and Noranda advanced nearly a half to $18.20. Amulet, Sudbury Basin and Pend Oreille were also slightly stronger, but Abana and Base Metals showed small recessions.

Lake Shore dropped 30 to $25.60, Hollinger 15 to $8.05, and Sylvanite, Mining Corp., Granada, Howey, St. Anthony and Ritchie sustained minor losses. Siscoe firmed a cent or so on reports of developments at the property, and small gains were displayed by Kirkland Lake Gold, Barry Hollinger, Central Pat and Eldorado.

Chemical Research continued soft in the oil section, price falling below $4. Ajax oil also lost a couple, but Home oil was strong and 10 higher at $1.25 and Acme up 2 at 23

LIST REBOUNDS FRESH TRADING

Advance in U. S. and Other Steel Issues is Registered at Four Points.

MANY NEW HIGHS.

NEW YORK, February 26 (C.P.).—Having shaken off a load of impending liquidation the stock market moved forward afresh to-day.

U.S. Steel Common, which bulls had been holding in reserve of late, was suddenly jacked up to the best levels of the New Year, but bullishness again concentrated on the electric power issues. Some of the steels, electrical and railway equipments, and miscellaneous manufacturing issues made good headway, but most of the rails, oils, motors, coppers and merchandising issues held back A few soft spots were uncovered.

The advance in U.S. Steel approached 4 points, and Bethlehem, Gulf States, and Republic Preferred made gains almost as wide. Utilities rising 2 to 5 points included American Water Works, Consolidated Gas, Electric Power and Light, American Power and Light, North American, Public Service of N.J., Pacific Lighting, United Gas Improvement and Standard Gas, all of which recorded new highs for 1931. General Electric, American Can, Westinghouse Electric, Underwood Elliott, Loews, Dupont, and American Locomotive gained 2 to 3, and Eastman Auburn and Macy rose 5 or more.

GRAND CHAPTER ELECTS OFFICERS

Royal Arch Masons Close Session—Decide to Meet at Hamilton in 1932.

GRAND SCRIBE RETURNED.

NIAGARA FALLS, Ont., Feb. 26. — (C.P.)—Election of officers and choice of next year's meeting place closed the business of the seventy-third convocation of the Grand Chapter Royal Arch Masons of Canada at the General Brock Hotel here to-day.

The Grand Z, Walter G. Price of Port Credit; Grand H, Charles W. Haentschael, of Haileybury, and Grand J, Alex. Cowan of Barrie, retained their offices another year. Hamilton will be the scene of convocation next year.

Oliver Elwood, London; M. E. Sherwood, Woodstock; John F. Marr, Guelph; George L. Gardiner, Toronto, and W. Y. Mills, Kingston, were elected to the Executive Committee. There was strong competition for the office of Grand Scribe. Edwin Smith of London was returned to office. The Grand Treasurer, George Moore, of Hamilton, was re-elected. Dr. George French of Niagara Falls was elected Grand Principal Sojourner.

Montreal Exchange Displays Firmness

MONTREAL, Que., Feb. 26.— The Montreal Stock Exchange showed firmness at noon today with the greatest number of advances confined to a point or less.

Atlantic Sugar was the firm leader, up ¼ at 31¼; Abitibi climbed 1 at 12; Quebec Power 1 at 45; Bank of Montreal 1 at 301; and Smelters 1 at 176. McColl Frontenac eased 1 to 20. Brazilian moved up ⅛ at 26⅜ and Nickel ½ to 19. Dominion Bridge was ½ better at 50½ and Canadian Pacific held unchanged.

DEBT TO OVERSEAS BONDHOLDERS DEFINED IN NEW CLEAR-CUT POLICY

No Basis For Any Australian Gov't to Repudiate Obligations, Statement Claims.

Lang's Assertion Inaccurate.

MELBOURNE, Australia, Feb. 26.—(C. P. Cable via Reuters.)—A clear-cut statement of policy on Australia's indebtedness to overseas bondholders was made by the Conference of Premiers to-day. It was revealed that while Prime Minister James Scullin was in England for the Imperial Conference, negotiations were started with a view to modifying the 1921 agreement under which the Australian war debt to Great Britain was funded.

"Whatever the outcome of these negotiations," said a statement of the conference to-day, "there is no legal nor moral basis for any action by an Australian Government to repudiate their obligations to private bondholders in Great Britain or elsewhere."

Lang Inaccurate.

The assertion of Premier Lang of New South Wales that Australia was paying $180,000,000 annually on account of war debts to Great Britain, was described by the conference as "absolutely inaccurate." More than two-thirds of this sum went to meet the debts of the State Governments, none of which had any debts, the conference said in denouncing Lang's extremist policies.

The Commonwealth's payments to Great Britain on account of war debt amounted to $2,500,000 annually, it was stated, under the 1921 agreement. Australia's total indebtedness to Great Britani and the United States stands at $2,865,000,000. The war debt to Great Britain was $460,000,000 in 1921, and is now $405,000,000.

The Commonwealth Loan Council has informed Premier Lang that it cannot arrange any further borrowing on account of New South Wales until the State is prepared to honor the interest payments of her debts.

CURLING

In the preliminary and first round of the schedule play-offs last night at the local curling rink the following results were marked up:

Morrow 16 vs. Cairns 5.
Foote 13 vs. Fitzgerald 19.
Best 13 vs. Sedgewick 11.

First Round

Wiley 9 vs. Fraser 16.
Oke 12 vs. Campbell 8.
Green 19 vs. Downey 15.
Martin 14 vs. Westbrooke 10.

The draw for tonight's games is as follows:

Morrow vs. Fitzgerald.
Best vs. Bacon.
Fraser vs. Oke.
Marshall vs. Seymour.
Dobbin vs. Donaldson.
Hall vs. Mayneord.
Turner vs. Davidson.

The above games are to be played tonight commencing at 7:30 o'clock Chenhall and Sutton played their game this afternoon.

BE REASONABLE IS SYKES' PLEA

Britain Has Done Her Share, Bombay Council Told—Up to Indian Congress.

PRISONERS FREED.

BOMBAY, India, Feb. 26. (AP)—Considerable significance was attached in some quarters to a speech at the Bombay Legislative Council to-day by the Governor, Sir Frederick Sykes who returned from New Delhi Tuesday.

Referring to the recent peace negotiations between Viceroy Lord Irwin and Mahatma Gandhi, Nationalist Leader, Sir Frederick said that the results of the Round Table Conference in London had provided a sufficient guarantee of the good faith of the British Government and that this had been reinformed in India by the immediate release from jail of members of the Congress Party working committee.

The Government concluded, "consistently with the discharge of its duties the Government can go no further, and I ask you all to use all the influence you possess with the Congress to induce them to be reasonable on their side.

MEMORIAL SERVICE HELD

WINDSOR, Ont., Feb. 26 (C.P.)—St. Alphonsus Church was crowded to the doors this morning for a memorial service in tribute to the late Bishop Michael Fallon. The gathering was under auspices of the Knights of Columbus. Many were turned away from the service. Right Rev. Mons. P. X. Laurandeau, D.P., Dean of Essex, was the celebrant.

ONTARIO MARKETING

(Continued from page one)

lem of getting more money out of the crop for the producer without raising the price to the consumer. The hope for this lies in advanced business methods, in advancing farming methods and in a better standard of living generally.

May Adopt all Suggestions

Referring to the Royal Commission of 1930, Mr. Good said: "I think that we will eventually come to the adoption of all suggestions of the commission" Mr. Good concluded, "and at least I am sure we will come to consolidation in our attitude towards co-operative marketing."

WINS TON OF COAL.

The draw held by the P.A.P.B. No. 7 Lodge for one ton of coal was won by Mr. G. Boyes, 540 Romaine Street, ticket No. 82 being the lucky number.

Crokinole was much enjoyed and also piano selections.

Mr. and Mrs. J. J. McColl entertained at a dinner party at their home on Wednesday when the guests were Mr. and Mrs. C. R. Terrill, Mr. and Mrs. S. L. Terrill and Rev. A. and Mrs. Poulter.

Mr. and Mrs. Ellie Terrill are spending this week in Frankford with the latters brother and sister-in-law, Mr. and Mrs. S. B. Herrington.

The Ladies' Aid meeting was largely attended being held in the church parlors when the lunch committee, Mrs. D. S. Austin, Mrs. A. G. Austin, Mrs. John Alley, Mrs. George Anderson and Mrs. Leland Bryant served lunch to more than one hundred people, including school children. A quilt was quilted by the members. Mrs. J. J. McColl presided for the meetin, and expressed her appreciation of the flowers, cards, letters and gifts which had been sent her during her illness and while she felt she would be unable to carry on the work as last year, she was willing to do her share with the help of the first vice president, Mrs. A. G. Austin.

Mr. Aaron Clarke, celebrated a birthday anniversary on Friday, when members of his family were with him.

Mr. Harry Orvis, a sudent at Pickering College, Newmarket, is quarantined with chicken pox.

DARTFORD

Mr. and Mrs. Clarence Lockhart, of Roseneath and Mr. and Mrs. Alex Lockhart visited Mr. and Mrs. Thomas Lockhart on Sunday.

Mrs. B. Dulmage has returned home after visiting her father, Mr. John Martin, of Warkworth, who has been ill.

Miss Jean Dulmage and friend, of Codrington, visited the former's parents, Mr. and Mrs. B. Dulmage, on Sunday.

Rev. Dr. Smith, pastor of the United Church here, is ill at his home in Warkworth.

Mrs. W. H. Nelson is suffering ill health.

Miss Alta Dulmage is the guest of her grandfather, Mr. Martin, of Warkworth, for a few days.

Mr. Herbert Nelson is confined to his home through illness.

Mr. P. S. Ewing and Mr. Dick, of Warkworth, held service in the United Church on Sunday.

Mr. George Ward who underwent a serious operation in Toronto Hospital a short time ago, is progressing favorably.

Messrs. Stewart and E. Hardy are ill at their home.

KING'S WHARF

Mr. and Mrs. Moss Killaby spent Sunday the guests of Mr. and Mrs. Andrew Watson, of Nogies' Creek.

Mr. and Mrs. Fred White and son Oscar spent Sunday the guests of Mr. and Mrs. D. Kimble.

Miss Della O'Neill has gone to Toronto where she has secured a position.

Mr. Thomas Sullivan was a business visitor to Lindsay on Saturday.

Mr. and Mrs. Patrick Perdue and Mrs. Angus Twomey attended the play in Ennismore last week.

Miss Viola O'Neill, of Toronto, is the guest of her parents, Mr. and Mrs. Michael O'Neill.

Mr. Patrick Perdue spent Friday in Peterborough, having been called there owing to the serious illness of his father, Mr. Simon Perdue.

BRIDGENORTH

The young people of Selwyn United Church presented their play, "Lazy Bole Parkins" in the United Church at Bridgenorth under the auspices of the Ladies' Aid on Friday evening.

Mrs. Harry Jackson has returned to her home at Orange Corners after spending the past week with Mr. and Mrs. J. R. Mann and Mr. and Mrs. J. G. Mann.

Mr. Allen Milburn has returned home after visiting his sister, in Detroit and Mr. and Mrs. Earl Mann, of Detroit.

Mr. and Mrs. A. McGregor spent a few days last week with the latter's mother, Mrs. T. R. Mann of Smith.

Mrs. T. T. Milburn, of Smith, visited friends in Peterborough last week.

Rev. R. Wright took charge of the services in Park Street Baptist Church owing to the illness of the pastor, Rev. Mr. Harton.

Members of the B.Y.P.U. of Gilmour Memorial Baptist Church attended the banquet given at Murray Street Baptist Church recently.

The many friends of Miss Jean Fowler will regret to learn that she is confined to her home through illness.

The many friends of Mrs. J. G. Mann will be pleased to learn that she is recovering from her recent illness.

HAVELOCK

The many friends of Mr. Will Sexsmith will regret to learn that he is ill at his home here.

A number of local hockey fans journeyed to Norwood on Monday evening for the hockey game between Lakefield and Norwood-Havelock Combines.

The newly organized Albion Club composed of local young men is making arrangements for a dance to be held in the Town Hall on March 17.

Miss Lena Williams has returned home after spending the past few weeks with her sister, Mrs. Ross Brown, of Smith's Falls.

Reeve Sanderson, of Havelock and ex-Reeve Breckenridge, of Belmont, are in Toronto attending the Good Roads Convention.

Messrs. J. H. Moore, L. T. Hagerman, R. E. Green, William Copp and John Burnett journeyed to Ottawa on Saturday to witness the Ottawa Senators-Montreal Maroons hockey game.

Mr. and Mrs. Bernard Veale visited friends in Toronto over the week-end.

Mr. Fred McLaughlin, of New York City, is visiting his brother, Mr. William McLaughlin.

The local branch of the Canadian Fishing Tackle Makers' Association is very busy at this time, having many orders. Messrs. Melville Wight and William McLaughlin, of Trent River, have been taken on the staff.

Hydro contracts for clearing the right of way in this section have been let recently and Messrs. William Harris and H. W. Brown are awarded the jobs east of Havelock.

Mrs. Joseph Lee and baby Jimmie have gone to Trenton to join Mr. Lee after spending the past six weeks with the former's parents, Mr. and Mrs. Robert Anderson, of Belmont.

Miss Beatrice Crawford spent a few weeks with her sister in Toronto recently.

T. L. Lancaster, local member in the Legislature, has been appointed on the following committees: Municipal Law, Fish and Game, Agriculture and Colonization, Public Accounts and Printing.

The friends of Mr. H. W. Brown, of Belmont will be pleased to learn that he is progressing favorably in his recovery from a stroke.

CAVAN

During the past week the chief work in Cavan Centre has been wood-cutting.

Mr. Ross Swain, Valentia, spent the week end with friends in Cavan.

Mr. and Mrs. William Gray, Peterborough, were week-end guests of Mr. and Mrs. James Paul.

Mrs. Will White has returned to Port Hope after visiting her parents, Mr. and Mrs. N. Lamb.

Mr. F. M. Staples and son visited friends in Manvers this week.

Close Checking Affair

MILLBROOK

Mr. and Mrs. F. A. Kidd, and family motored to Indian River on Sunday, and spent the day with her father and sister. Miss Phyllis Kidd remained for the week visiting her relatives.

George Elson, of Regina, Sask., is visiting his parents, Mr. and Mrs. H. A. Elson. Mrs. Elson and her young son will join her husband here later on.

Rev. Mr. and Mrs. Simpson, and family, of Calgary, are expected to arrive in Millbrook early in March, the former having been appointed by the Bishop as rector of the Anglican parish of Millbrook and Cavan. A committee representative of the churches of the parish has recently been engaged in looking over a number of houses for use as a rectory, and has purchased the home of Mr. H. W. Johnston, Centre street, for this purpose.

Mr. E. W. Bonneville's parents, who have recently been residing in Peterborough, their former home having been at Burk's Falls, in northern Onhouse, King street, and are coming to the village to reside in the immediate future. Rev. P. W. A. Roberts vacated Mr. McNeil's house on his recent removal to Colborne where he is rector of the Anglican parish in that town.

The scheduled hockey games, in the Town League, for Thursday evening were postponed out of respect to the passing of Eric Abbott, whose funeral takes place on Wednesday, and who was one of the popular boys of the community.

One home in the village, that of Mr. and Mrs. Archie Lunn, has been placarded for scarlet fever, their little daughter, Ruth, being now well on the way to complete recovery.

S. E. Eakins was in Toronto last week attending the sessions of the annual convention of the Retail Hardware Merchants' Association.

Messrs. Harry and Charles Tate, of the Hydro Commission, who were recently removed to Bannockburn as their new business location, have been succeeded by the Messrs. Finn, of Norwood, who have arrived in the village and are residing in the house on Anne street, formerly occupied by the Tate family.

Dr. G. H. Needler, who was in town at the week-end for the Commencemen Excercises of the Conntinuation School, was the guest of his brother and sister, Mr. A. A. and Miss Etta Needler, during his stay in the community.

Mrs. Gee, of Toronto, is the guest of her cousin, Mrs. W. E. Russell. Several years ago Mrs. Gee's brother-in-law, Rev. Mr. Gee, was pastor of the then Methodist circuit of Millbrook and vicinity.

Peasants of Hungary have banned tea and coffee drinking.

American talkies are making a great hit in Poland.

Russia's sugar production this year is expected to be 2,000,000 tons.

Chinese in the Philippines are becoming interested in aviation.

CYRIL COLSTON, Age 5—Before taking Virol.

Now passed FIT for the Army!

Age 5. After Virol

IT is not so easy to be passed for the Army in peace time. Out of every five recruits in 1924, four were rejected as unfit—yet Cyril Colston, who at the age of 5 was in the extreme state of emaciation shown above, passed this severe medical examination, thanks to Virol. "Once a hopeless case," his life was saved by Virol, and his health and strength built up by taking Virol regularly during childhood and adolescence. Read medical evidence below.

Age 19. Showing permanent effect of Virol.

TO-DAY!

VIROL builds up for LIFE

Extract from Doctor's Report, 3rd January, 1925.

"... *I am fully satisfied that Virol was the factor which enabled him as a child, not only to turn the corner successfully in a very serious illness, but, in subsequent years of development (during which he never ceased to take Virol), enabled him to build up a healthy body and gave him reserves of power and energy. His parents describe the result as nothing less than a miracle.*"

CANADIAN DEPARTMENT STORES LIMITED

Warsaw

Messrs. Harold Payne and Ralph Garbutt are attending the agricultural class being held in Lakefield this week.

The snow-plow has the main lines in good condition for either motors or sleighs.

Rural Dean J. T. O'Conor-Fenton officiated at the First Sunday in Lent Holy Communion service in St. Mark's Church on Sunday morning.

Miss Doris Payne is visiting her sister, Mrs. Wesley Stark, in Toronto, for a month.

Mr. and Mrs. Ernest Butler entertained at a party for their only son, Ivan, at their home on Friday evening, February the twentieth. After the guests assembled there were six tables of progressive euchre. The ladies' prize was won by Velma Payne, and the gentleman's by Sherwood Payne. Contests, under the direction of Miss Vera McIlmoyle, followed. A sumptuous supper was served to about thirty guests. The birthday cake contained several articles. These articles and those finding them were: the Bible, Mrs. Butler; old stove, Ivan Butler; button, O. Ben; twin hearts, Lorraine Hamblin; money, Velma Payne; owl, Donald Lloyd; thimble, Albert Pratt; violin, Gwendolyn Parsons; baby, Ralph Hamilton; engagement ring, Beatrice Little; wedding ring, Howard Hamilton. Those present had a very jolly evening.

RENFREW COUNTY

(Continued from Page 1)

Pembroke, but instructions were received from him to institute prosecution, and a warrant was issued last evening. Biggs made no attempt to leave town when the shortage was discovered. The warrant was signed by J. P. Duff, a Justice of the Peace.

While full particulars concerning the shortage in the county funds are not available at the present time, it is stated that Bigg's accounts allegedly had been going behind for the past four years, the sum growing continually until it reached the astounding total revealed by the investigation. Allegedly he had succeeded in deceiving the auditors each year, but discovery was inevitable when the time came to hand over the cash to Mr. Jamieson.

Where the funds have gone has not been disclosed, but it is reported that Biggs operated in the stock market extensively, although those who know him find it hard to believe that his losses amounted to anything like the sum involved. A report was current here that he was a silent partner in a Montreal brokerage which was seriously affected by the stock decline. It is said also that he lived in excess of his income, but this would not account for the great shortage. Other business reverses are said to have contributed to his financial difficulties. He was regarded as a man of good habits and, apparently, lived an exemplary life.

Bonded for $20,000

Biggs was bonded for only $20,000. W. A. Biggs, who is 31 years of age, was appointed County Treasurer in June, 1924. He is a member of one of the best known and most highly respected families in this district.

It is probable that a special session of the County Council will be called at once to deal with the situation that has arisen.

READ THE WANT ADS.

ROSENEATH

A very pleasant and successful progressive euchre and dance under the auspices of the L.O.B.A. was held on Friday evening, February 20.

The fortunate prize winners were Mrs. John Mouncey, of Fenella, and Mr. Harold Taylor, Roseneath, while the consolation prizes were given to Mrs. Earl Braithwaite and Mr. Edgar Carew. Immediately after luncheon, dancing was indulged in until 2.30 a.m.

Messrs. James Grieve and Burton Roberts are progressing favorably after being confined to their rooms suffering the effects of the flu.

Mr. Robert Mouncey is doing nicely since his recent illness and it is hoped he may soon be able to be around again.

Mr. and Mrs. C. N. Leach, of Fenella, were week-end guests of Mrs. Lottie Nichol.

Mr. Burton Down and bride, formerly Susie Covert, were in the village over the week-end.

Mr. Robert Campbell paid a visit to his brother at Guelph, who is ill.

Mr. J. Thompson, of Cobourg was in the village on Monday.

Mr. Dave McGrath spent the week-end at his home in Peterborough.

The many friends of Mr. Lawson Taylor are pleased to learn he is recovering nicely after his serious illness.

The "World's Day of Prayer" was observed by the Women's Missionary Societies of Fenella Centenery and Roseneath, on Friday afternoon, when a fairly good representation of members from the different churches were present to take part in the very interesting and earnest service conducted under the leadership of Mrs. Albert Nill, of Fenella, and president of the circuit, W.M.S. The program leaflet was given including a duet by Mrs. Clark Jewell and Mrs. Frank Down, of Fenella, with Mrs. Lily Turner accompanist, and gave a touch of reverence and thanksgiving to the meeting.

Convict Given Up To Toronto Police

LONDON, Ont., Feb. 25.— Herbert C. Wilson, Woodstock, sentenced to not less than one year in the Ontario Reformatory in London police court on Monday in a conversion charge will be turned over to Toronto police this afternoon. Detective D. Waterhouse of Toronto, arrived at police headquarters at noon to take the prisoner to the Queen City where he is wanted on a charge of theft of a $1,000 bond.

RADIO DIRECTOR TO ADDRESS ENGINEERS

Commander C. P. Edwards to Speak to Engineers To-night.

Commander C. P. Edwards, director of Radio Service, Department of Marine is to address the local branch of the Engineering Institute of Canada this evening, at Paragon Tea Rooms, on the subject of "Radio Communication and Aids to Navigation," in the course of which he will touch upon the different uses of radio.

Commander Edwards' address should be of more than usual interest as he was in charge of radio communication when the R-100 visited the Dominion last summer.

W.M.S. OBSERVES DAY OF PRAYER

Missionary Societies of Omemee Churches Celebrate Annual Event.

LARGE REPRESENTATION.

OMEMEE, Feb. 25 (Examiner Correspondence).—The World Day of Prayer was observed by the Women's Missionary Societies of Christ Church, Trinity United and St. Andrew's Presbyterian on Friday afternoon in the auditorium of St. Andrew's Church, when a large representation of members from the different churches was present and took part in this very inspiring service under the leadership of Mrs O. G. Williamson, president of the Presbyterian Missionary Society.

The service consisted of responsive readings by the ladies of the different societies, and prayers were offered for the various departments of the mission work. The service throughout was one of devotion and worship, and concluded with the Benediction pronounced by the leader Mrs. O. G. Williamson.

Enjoy Skating Party

The pupils of the Omemee High School and a number of their friends enjoyed their annual skating party last Friday evening. The weather was ideal. A hockey match between the boys proved very interesting; after which everybody enjoyed a skate. At the conclusion of the evening's fun, lunch was served.

Association Meets

A large number attended the Men's Association last Friday evening in the Sunday school room of Trinity United Church. The president, F. G. Sandy took charge; community singing was enjoyed, also a solo by Rev. J. T. E. Blanchard, followed by an illustrated address by H. H. P. Johnson, of Peterborough. Several reels of film operated by Mr. Brown, also of Peterborough, gave very explicit ideas of the telephone and its wonderful achievements.

A hearty vote of thanks was tendered the gentlemen for their pictures and instructive address. The meeting concluding with the National Anthem.

Entertains A.Y.P.A.

The Young People of Trinity Church entertained the A.Y.P.A. of the Anglican Church, Monday evening, with a large attendance. A program was first enjoyed; Mrs. McMann giving several piano selections; Mrs. I. Connell and Miss Race, a piano duet; Mrs. E. Corneil, a vocal solo; also a vocal solo by Miss Werry. Community singing, after which contests and a social time was enjoyed. At the conclusion, refreshments were served.

AT CAVAN

CAVAN, Feb. 26. (Examiner Correspondence).—On Friday afternoon in Cavan United Church the "World Day of Pray" was observed. when ladies from St. John's Church, Ida and the community joined in the service.

Mrs. Richard Matchett, the president of Cavan W.M.S., presided.

Mrs. R. Syer and Mrs. F. M. Staples averted as ushers and took up the free will offering, which is used to provide Christian literature for foreign lands, and to add to the funds of the Bible Society.

The beautiful program, prepared by Miss Kathleen MacArthur, vice principal of the College of the Churches of Christ in Canada, was used.

Prayer was offered by Mesdames Snider, Swain, Staples, Nill, Whitham, Perrin, Matchett, Hunter and Miss A. Sisson.

Mrs. R. S. Staples gave an interesting talk on mission work in Africa. Miss Helen Kennedy sang very sweetly the solo "Teach Me to Pray", her mother, Mrs. A. B. Kennedy playing the accompaniment and presiding at the organ during the entire program.

Miss Annie Tinney and Miss Helen eKnnedy led in the singing of the hymns.

The Rev. J. E. Whitham closed the beautiful and impressive service with prayer.

One railway in China has just reduced passenger rates 50 per cent.

To Make New York-Havana Flight

BOY AVIATOR TO ATTEMPT RECORD FLIGHT

Robert Buck, 17 year old Jersey City aviator, has completed preparations for his proposed flight to Havana, Cuba, and return, from Roosevelt Field, L.I., in his plane, the "Yankee Clipper." He expects to complete the trip in 48 hours. Buck, former holder of the junior transcontinental record, hopes to set a new mark for the Havana flight. He will make three landings each way. Here he is the cockpit of his plane at Roosevelt Field.—Acme and P. A. Photo.

NEWS AND REVUE OF MOTORDOM

(By Roly Young, Copyright, 1931.)

With more than twenty-three million automobiles in operation, and with one in every ten workers of the country dependent directly or indirectly on the automobile transportation facilities in 1931, is a matter of vital and immediate concern throughout the North American continent, according to C. W. Nash, president of the Nash Motors Company, who has been touring the United States in a series of motor show conferences.

Among the points made by Mr. Nash are, the sutomobile has been the underlying cause of highway development, production of cars has far outdistanced the building facilities for their operation, the demand for cars is being adversely affected by this restriction, 8,000,000 automobiles still in use are not worth more than $25 each and these would be eliminated if better highway conditions were in force, as they could not keep up with the procession. That would mean a market for over 8,300,900 new cars.

While Einstein is preparing to dumbfound the world at large with some radical departures in the style of theories for 1931, as to why we're her and not elsewhere, or what have you, H. T. Ames, of Duesenburg, Inc., is propounding a few theories to add to the motorists worries. While it is generally believed that the faster an automobile travels the faster the motor goes, Ames, in an interview, contradicts this theory, and quotes his firm's research to prove it. He states that when a Duesenburg car is travelling 50 miles per hour the motor's crankshaft is revolving 2070 revolutions per minute, but when the same car is travelling 100 miles per hour, the crankshaft is doing 4090 revolutions per minute, or, while the car is travelling twice as fast the motor is turning over 0 revolutions less than twice as fast. That's theory number one upset.

Which prompts me to wonder how fast the car would have to be going before the motor was stopped altogether.

To continue—it is generally thought, Ames says, that the faster the car goes, the speedometer registers a faster-than-actual- speed reading. The reason this is the accepted belief that tires slip on the ground at high speed. But Mr. Ames says, if a car's speedometer is accurate at 50 miles per hour, it will actually be registering slower than car speed at 100 miles per hour. In tests at the Duesenburg plant it was found that centrifugal force of the wheel stretches the tire, making the circumference larger at high speed than it is at low speed. At low speed a tire is fat and round. At high speed the tire becomes egg-shaped and hence its circumference is enlarged. The larger the circumference of the wheel, the slower the speedome er registers. Savvy?

Then there was the driver who was taken to the police station for smashing a car while drunk. He was scandalized at the allegation of insobriety that he offered to desribe the accident in detail on a street map. The policeman produced a map and with a pencil the driver indicated most carefully the positions of the cars prior to and at the time of the smashup. All might have been well had not the guilty driver showed his car turning the corner of Niagara Falls while the other emerged from the Erie Canal. The collision took place in Lake Michigan, just north of Chicago. You see, the map that the policeman produced was one of the U. S. A.

January car shipments of the Auburn Automobile Co. totaled 2,014, as against 1,632 in 1930, E. L. Cord, announced recently. This is the largest Januray in the history of the company. February production schedules call for 4,000 Auburns and 650 Cords.

By breaking the speed mark for 200 miles, for the fourth time in two years, a Graham eight has regained for United States the international record previously held by the French Delage. The new time is 147 minutes, 48.38 seconds, an average speed of 101.85 miles per hour. The record-breaking run was made at Mountery, France, by D. M. K. Marendz, noted English speed enthusiast.

Delage and Graham have been fighting a prolonged and interesting duel for this record for the past two years, during which the title has changed hands no less than five times. The increase in speed is notably prominent in the following table.

Make	M.P.H.	Year
Delage	58.08	.....
Graham	77.77	1929
Delage	88.87	1929
Graham	92.52	1929
Graham	95.97	1930
Delage	99.66	1930
Graham	101.85	1930

The Stutz Motor Car Co. reports that automobile shipments for January, 1931, total more than five times greater than shipments for the same period in 1930. Who said depression?

He had a leaking radiator. One bystander prescribed chewing gum to stop the leak. Another advised using the white of a duck's egg. And a third insisted that it was a hen's egg that should be used; yolk and all but the shell. Then came the suggestion that bran be used, but a friend of the bran-cure man said he always had better success with ground dried peas. The last recommendation was that a small bottle of mustard be put in the radiator.

Deciding to put to the test the suggestion that could be most easily applied the man with the leaking radiator broke a couple of hen's eggs and was on his way. He says the two eggs took him 500 miles without any more leaking. For four months he kept on putting eggs into the radiator until he got a permanent cure at a service station, where they found a crack nearly two inches long in the bottom of the radiator.

I'm passing that story on exactly as I got it, but I still think that it would have been a far better climax if the car had hatched out a brood of chickens.

DUNSFORD

Mr. W. J. Thurston and son, Jim, called Saturday on his mother, Mrs. C. Thurston, Lindsay, who is ill.

Mr. and Mrs. R. G. Robertson and Mr. and Mrs. L. G. Steele of Lindsay spent Sunday with Mr. Robertson's mother, who is seriously ill with pneumonia.

Mr. G. F. Burgess was a business visitor to Lindsay on Monday.

Misses Louise and Dorothy Wilson of Lindsay attended the carnival here on Monday night and are spending a few days with their sister, Mrs. George Mitchell.

Mr. Albert Donely of Whitby is spending a few days with Mr. and Mrs. W. J. Thurston.

Miss Maude Brien is spending a few days with her brother, Mr. J. E. Brien.

Mr. and Mrs. J. F. Maires and two daughters, Lois and Helen, visted the former's parents, Mr. and Mrs. Fred Maires in Lindsay recently.

Mrs. Clistie Sherwin of Bobcaygeon is staying with Mrs. hris Faplain, who is ill.

Mr. and Mrs. Archie Beavis and son, Elwood, also Mrs. N N. Thurston, spent Tuesday in Lindsay.

Mrs. Howard Graham and son, Earle, of Lindsay are spending a few days with her mother, Mrs. T. V. Thurston.

Mr. Elmer Kennedy was a business visitor to Lindsay on Monday

PRESENT NEW FINANCIAL PLAN

CANBERRA, Australia, Feb. 25 (C.P. Cable via Reuters).—A new plan for the financial rehabilitation of Australia was submitted by Hon. E. G. Thedore, Federal Treasurer, to the conference of Premiers to-day.

It was understood the reason for the apparent abandoning of the former plan adopted by the conference, was the failure of the Commonwealth and trading banks to promise cooperation in carrying it out.

SALES CONGRESS BEING PLANNED

Many Insurance Men Are Expected in the City for Friday's Conference.

PLAN GOOD PROGRAM.

A One Day Sales Congress, arranged jointly by the Life Underwriters Association of Peterborough and the Underwriters of Canada, will be held in the Public Library of this city on Friday. Peterborough is again fortunate in being the common meeting ground for many business men from every part of the province.

Many insurance men will be guests of this city for a day or more. A. E. Rundle, C.L.U., will come from Toronto for the Congress. He has for a number of years been an outstanding personal producer for the North American Life Assurance Company. He is a Past President of the Life Underwriters Association of Toronto and is a vice-chairman of the Institute of Chartered Life Underwriters of Canada.

Another prominent guest will be L. M. Montgomery who, while a comparative newcomer in the field of life underwriting, led the Toronto organization of the Sun Life Assurance Company in volume of business paid for during 1930. The third visiting speaker for the Congress is W. D. Rutherford, a "Big Club" representative of the Sun Life who in 1930 led the Toronto branch of his company in the number of applications written during the year.

F. W. Hewitson, C.L.U., Manager at Orillia for the London Life Insurance Company and President of the Life Underwriters Association of Orillia, and L. W. Dunstall, Secretary of the Underwriters of Canada, and of the Institute of Chartered Life Underwriters of Canada, will also be important speakers during the day.

The chairman for the morning session of the Congress will be E. L. Sackville, President L.U.A. of Peterborough. Registration will take place at 8.30 a.m. The Congress will be opened at 9 o'clock by His Worship Mayor Denne. At 9.15 a.m. W. D. Rutherford will deliver an address on "Prospecting." This address will be followed by another entitled "Business Insurance—For the Average Man" by A. E. Rundle. At 10.30 L. W. Dunstall will speak on "The Value of the C.L.U. Degree." The final address will be delivered by L. M. Montgomery, who will dwell on the subject of "Salesmanship."

At 12 noon the Congress members will adjourn to the main dining room of the Empress Hotel for lunch, when the speaker will be the Hon. G. N. Gordon.

The afternoon session will be presided over by D. M. Bissell, C.L.U., Past President C.L.U. of this city. 'Two-in-one—Industrial and Ordinary" will be the theme of an address given by F. W. Hewitson at 2 p.m. W. D. Rutherford will speak on 'Monthly Income Insurance" at 3 o'clock. The closing talk of the Congress will be given at 3.20, when A. E. Rundle will give an address on "The Human Sales Interest in Beneficiary Law." At 4.20 p.m. the closing of the Congress will be effected.

CONGRATULATED BY KING

LONDON, Feb. 26 (By The Canadian Press).—The King and Queen have sent a letter of congratulation to the Rev. Alfred Wardroper and Mrs. Wardroper, of Ryde, on the occasion of their diamond wedding

A Cup of BOVRIL every day helps you keep the 'flu away

Bovril builds Strength without fat

BURDOCK BLOOD BITTERS

Eczema On Hands

Couldn't Put Them In Water

Mrs. Soloman Rehkopf, R.R. No. 1, Neustadt, Ont., writes:—"I was troubled with eczema for four years, and it was so bad I could not put my hands in water. I found Burdock Blood Bitters the only medicine that would give me any relief, and after taking four bottles the eczema had all left me. I can now do my own washing, and wish to give thanks to B.B.B. for what it has done for me."

Sold by all drug and general stores; manufactured, for the past 51 years, only by The T. Milburn Co., Ltd., Toronto, Ont.

First Showing!

LADIES POSTPONE ANNUAL AT HOME

Ladies' Conservative Association Dispenses With "At Home" on Account of Depression.

ROSS REPORT OUTLINED.

The Women's Liberal-Conservative Association of Peterborough met yesterday afternoon in the Paragon Hall with a good attendance. The meeting opened by singing "O Canada," and "The Maple Leaf," with Mrs. W. A Greenslade at the piano.

The newly-elected president, Mrs. G. S. Cameron, presided, expressing her pleasure at the large attendance and welcoming two new members.

A short business session followed at which it was decided to hold regular meetings of the association on the third Monday of the month, and that the membership list be divided into groups alphabetically and that each group be responsible for the program for one meeting during the year and that educational papers be prepared by members of the group responsible for the meeting.

A resolution was passed that owing to the depression at the present time and the great need of relief that the annual At Home be dispensed with this winter and that probably a picnic or garden party might be arranged during the summer months.

Mrs. E. A. Stinson gave a very educational talk on the Ross report, describing in detail the suggestions made by the new department of Public Welfare and the splendid work it had accomplished. Many of the suggestions had been carried out.

Mrs. Howard Fallis was the next speaker and, as usual, received an ovation. She made a few remarks on the opening of the Provincial House, mentioning the gowns worn by the vice-regal party and going on to speak of the splendid impression made by the new leader, Hon. George Henry and the ability he has already shown in taking Hon. Howard Ferguson's place. She referred to the Conservative victories in the by-elections and to the peculiar situation of the Liberal Party in the House at the present time. Mr. Hepburn, the leader of his party, has not a seat in the House but is a member of the Federal Parliament, where he continues to hold his seat, while Mr. Sinclair is the leader in the House of a party which ousted him from leadership. She also referred to the Liberal Convention, when they discarded the plank of Prohibition from their platform, coming over to the Conservative viewpoint. E. A. Peck, M.P., addressed the meeting, speaking principally on the problems facing the Bennett government when the Federal Parliament opens. One of the great problems is the marketing of the wheat against competition which Canada formerly never had. He also referred to the radio question, and explained its different aspects. In conclusion, he assured the ladies that the Conservative leader, the Rt. Hon. R. B. Bennet, was working unceasingly to promote the best interests of Canada.

The meeting closed by singing "God Save the King."

Many industrial plants in Italy are dividing work among their employees, each getting from a quarter to a third full time.

To help prevent irregularities in collecting license fees, the automobile division of the Philippine bureau of public works at Manila has requested that a squad of policement be station there during the time of motor behicle registration th's year.

(Millions use Rinso. Thousands write us letters like this.)

"Snowy wash every time!" says Mrs. H. Simms-Beidel

"Rinso suds are so thick, soapy and active—in our hard water, too! I don't scrub or boil, yet I hang out a sweet, snowy wash. All I do is soak the wash in these rich suds; the dirt loosens and rinses off. And Rinso is economical. I like it for dish-washing, too; it loosens grease like magic."

MRS. HAZEL SIMMS-BEIDEL

Lasting suds—in tub or washer

A little Rinso gives a lot of thick, creamy suds—*twice as much*, cup for cup, as lightweight, puffed-up soaps. No bar soaps, chips, powders or softeners needed—even in hardest water.

How those rich Rinso suds loosen dirt! Clothes don't need to be scrubbed threadbare.

Great in washers, too; the makers of 38 famous washers recommend Rinso for safety and for whiter clothes. Get the BIG package.

FASHION SERVICE

The wrapped front movement of this smart plain flat crepe silk dress is particularly kind to mature figures. It has a marvelously slimming effect.

The trimming band of the softly falling rever adds a smart trimming note in contrasting shade. The attractively shaped sleeve cuffs repeat the colour of the rever trim.

Style No. 2955 is designed for sizes 36, 38, 40, 44 and 46 inches bust.

Again for smart wear a patterned crepe silk with plain blending trim is especially serviceable.

Patterned and plain crepy woolen are also very smart for general day occasions.

Size 36 requires 4 5-8 yards of 39-inch material with ½ yard of 27- inch contrasting.

to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book, 15 cents, or 10c when ordered with a pattern.

Price of pattern, 15 cents.

Africa's High Peaks Filmed By Aeronaut

LONDON Feb. 26. (By The Canadian Press).—The first film of the great African mountains Kilimanjaro and Kenya taken from the air was shown to members of the Reading and Berkshire Flying Club at Reading recently. The film was taken by F. Roy Tuckett, the young South African who flew in a Gipsy Moth from Croydon, England, to Cape Town South Africa, last year, and had not been shown before in Great Britain. Mr. Tuckett described his experiences as the pictures were shown.

The aeroplane which Tuckett took to the summit of Kilimanjaro is supposed to have a ceiling of 18,000 feet. In this case he reached nearly 20,000 feet, and had to wait near the summit for about two hours until the clouds gave him the opportunity to take photographs he sought. He had much difficulty in maintaining height for so long, because his aeroplane was continually cushioning down in the rarefield air. Eventually he secured excellent pictures of the peak breaking through a mass of clouds below it. He was then less than 300 feet above the summit and close enough to show some of the details of this great crater.

The highest peak which he photographed in this way, is 19,000 feet above sea level. Mr. Tuckett also obtained good pictures of the summit of Mount Kenya, 17,500 feet high, and all along the route he followed through Africa he took film photographs.

Road From Pt. Barwell To Tillsonburg Urged

TORONTO, Ont., Feb. 26. (CP)—Construction of 16 miles of highway between Tillsonburv and Port Burwell was urged on the Ontario Government to-day by a deputation representing the two towns.

Hon. Geo. S. Henry, Premier and Minister of Highways promised to give the proposal consideration.

The proposed road would be an extension of the present No. 19 highway which runs between Ingersoll and Tillsonburg and connects highways No. 2 and No. 3. It would complete the north and south highway to the shores of Lake Erie. Among the members of the deputation were George Van Order, Port Burwell, J. Ostensall, ex-M.P. for Norfolk-Elgin, Reeve William Such of Tillsonburg and Mayor James Ferguson of Ingersoll.

A BEDTIME STORY

by Howard R. Garis

UNCLE WIGGILY'S HOT CANDY.

Buster, who was one of Uncle Wiggily's little boy rabbits, hopped into the hollow stump bungalow one morning and shouted:

"It's running! It's running! Hurray! Hurray! It's running!"

"What do you mean, Buster?" asked Jingle, who was tying a pink ribbon on her left ear before she hopped to school. "Is the Bob Cat running to catch our Daddicums?"

"No, not that!" cried Buster, jumping up and down. "Anyhow, our Daddicums isn't outside now to be chased by the Bob Cat. But I was just out, seeing how cold it is and I gnawed a little bark off a mple tree and right away I saw it begin to run."

"For mercy sakes, Buster!" begged Jangle, who was Jingle's twin sister, "can't you tell us what ran and not get us all excited this way? Goodness! I hope I'm not late for school," and she tied a blue ribbon on her right ear so the Lady Mouse Teacher in the Hollow Stump School could tell the twins apart. "What did you see running, Buster?"

"The sweet sap juice in the Maple tree," answered Buster, still jumping up and down for joy. "As soon as I made a hole in the bark the sap began to run out and now Daddicums can make some maple sugar candy. Can't you, Daddicums?" asked Buster. Just then Uncle Wiggily, the father of the forty sixteen little rabbit boys and girls, came sliding down the stair banister railing to get his breakfast.

"Can't I what?" asked Mr. Longears, twinkling his pink nose.

"Can't you make maple sugar candy?" asked Buster.

"I can when the sweet sap begins to run in the maple trees," answered the rabbit gentleman. "But that will not be until later in the spring. It is too early yet, I think, for the sap to run."

"Oh, no, Daddicums, begging your

Into this pot he poured the sap.

pardon," spoke Buster politely, "I was out just now and when I gnawed the bark the sap ran."

"Hum! It is very early," Uncle Wiggily said. "But if the sap has started to run I can tap some of the trees, we can gather the sweet juice in pails and boil it over an outdoor fire this afternoon to make maple sugar candy."

"Oh, goodie!" cried all the bunny boys and girls, and Baby Bunty, the little orphan rabbit said:

"I love you, Unkie Wig!" This was all the baby talk she was allowed.

"Do you, Baby Bunty?" asked Mr. Longears with a laugh, "well, I love you and I think you will all like the maple sugar candy when you come home from school this afternoon. Be sure and know your lessons!"

"We will!" promised the bunny children and away they hopped to the Lady Mouse Teacher in the Hollow Stump School.

After breakfast Uncle Wiggily went out to look at the maple trees which grew in the woods near his bungalow. He saw the one Buster had gnawed and, going to the next one, to make sure, the rabbit gentleman made a hole in that tree. Out trickled some white juice, like water.

"Yes, the maple sap is running very early this year," said Mr. Longears, smiling happily. "I'll gather some and we'll make some maple sugar candy this afternoon."

Sap, or the white juice in the trees, is what brings them to life after their long winter sleep. Of course in the warm southland trees do not go to sleep in winter so they have no need to awaken in the spring. But maple trees are the only ones that have a juice or sap sweet enough to boil into candy. Why this is I do not know. And not all maple trees are sweet enough for sugar; only sugar maples.

Uncle Wiggily's trees, however, were of the sugar kind and he soon had made holes in a number of them, setting beneath each hole a pail to catch the sweet sap. It does not harm the trees to take out a little sap. It was thin, like water and must be boiled to make it thick enough for syrup or sugar candy.

"Is the candy done yet, Daddicums?" cried the little rabbit children as they came hopping from school and out to the grove of maple trees.

"Oh, no! My goodness, no!" chuckled Uncle Wiggily. "We must build a fire and boil the sap quite a while before it will be candy."

"What fun we'll have!" shouted the bunny children.

Uncle Wiggily made a bonfire in the woods. It melted away the snow that covered the ground, turning the snow into water with a hissing noise. Over the fire Uncle Wiggily hung a big copper pot or kettle and into this pot he poured the white, sweet sap.

"Now, my dears," he said to the children, "scatter and gather wood for the fire. The sap must boil a long time." The bunnies gathered sticks of wood which Mr. Longears tossed on the blaze. The hot candy boiled and bubbled. It smelled wonderfully good. When Uncle Wiggily had his back turned, all of a sudden something happened.

PILE SUFFERERS

Can You Answer These Questions?

Do you know why external remedies do not give quick and permanent relief.

Why cutting does not remove the cause?

Do you know the cause of Piles is internal?

That there is congestion of blood in the lower bowel—the veins flabby, the parts almost dead?

Do you know that there is a harmless internal remedy for itching, bleeding or protruding piles discovered by Dr. Leonhardt and known as HEM-ROID that is guaranteed?

HEM-ROID banishes piles by removing the cause. It stimulates the circulation in the lower bowel—drives out the thick impure blood, heals and restores the affected parts. This remedy has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sufferers.

Don't waste time on external remedies or think of an operation until you have tried a bottle of HEM-ROID tablets. McDermid & Jury, Bond's Drug Store guarantees money back if they do not end Piles in any form.

ATTENDANCE AT COLLEGE GROWS

Rolls Augumented by Upwards of 500 in Past Three Years.

MARITIME UNIVERSITIES

HALIFAX, N. S. Feb 26.—Young men and women of the Maritime Provinces are attending college in increasing numbers. A recent survey of registrations at the nine largest universities in the Atlantic provinces shows that attendance has grown by more than five hundred in the last three years this with out reference to the Maritime students attending solleges in other sections of Canada and the United States.

The total attendance in 1931 at the colleges covered by the survey is 3,578, as compared with 3,019 in 1928. In that period the registration of Dalhousie University has grown from 823 to 969, that of Acadia University, Wolfville, N. S. has increased from 463 in 1927 to 510 this year, while Mount Allison University, at Sackville, N. B., third in size of Maratime institutions of higher learning, shows a student body increasing from 397 to 484 in the last three years. Students at the University of New Brunswick, Fredericton, have increased from 268 to 370; at King's College, Halifax from 76 to 110; at St Francis Xavier, Antigonish, from 250 to 276; at St. Joseph's, Memrancook, N. B., from 359 to 411, and at Sacred Heart, Bathurst, N. B., from 249 to 283. The registration at St. Dunstan's, Charlottetown, P.E.I., is 165, the same number as registered in 1928, but a high mark of 185 was reached in 1929.

These figures represent university attendance only and do not take in students at affiliated schools of commerce, music or applied art, nor students registered at summer schools in connection with the colleges.

New Problem Found In Meopham Disaster

LONDON, Feb. 26 (By The Canadian Press)—Six months after the accident last summer to a German Junkers single-engined passenger monoplane, the technical sub-committee of investigation has published its report. The aeroplane was flying from Le Touquet to London in rough weather. Over Meopham, Kent, it was seen to enter a cloud. A few seconds later people on the ground heard a sound resembling that caused by an explosion and the aeroplane, completely disintegrated, fell out of the cloud and crashed in pieces, the six well known occupants being killed.

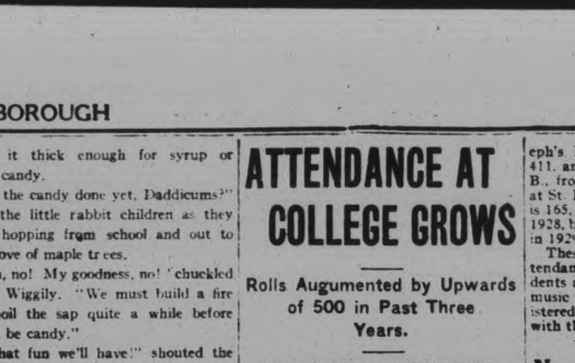
After the most detailed enquiry and experiment, the sub-committee states that the most probale cause of the break-up was failure of the tail-plane under severe "buffeting" from air eddies produced by the centre section of the main wings when the machine was flying in the "stalled" attitude with the nose up and the tail down. This phenomenon is likely to affect most severely "low wing" monoplanes with the wings located in a line with the bottom of the fuselage.

"Buffeting" is described as a state of irregular oscillation in which the tail plane bends violently up and down. The probable course of events in the Junkers crash is that first the port tail plane bent upwards and broke, folding backwards on the elevator which, forced downwards, immediately wrenched the machine into a steep dive. In a second or two the tail unit, vibrating with terrific force, broke away. Next the port wing structure, stressed beyond breaking point, tore out at the root junction with the centre section, followed by a breakage of the engine bearers and the falling away of the entire powerplant and propeller.

Nine Reds Confined In Jail At Sudbury

SUDBURY, Ont., Feb 26 (C.P.)—Facing various charges of unlawful assembly, resisting arrest, assault and vagrancy, nine men arrested here yesterday in connection with Red demonstrations were remanded one week in Police Court to-day at the request of the Crown. A request for bail was refused when Crown Attorney Wilkins objected to granting it. Hanas Sula, a prominent organizer in this district, faced a charge of vagrancy, and Victor Kruzick faces a charge of assaulting Sergeant Campeau, who is confined to his bed to-day as a result of injuries sustained yesterday when he was knocked down in the melee.

FORGED 72 YEARS AGO



"FOUNDER'S WEEK."

This week your A & P Store gives itself over to the celebration of Founders' Week. We would like you, as a customer, to know something about the ideals of service which we honor on this occasion. Here are three of the most important:

"Service"—To HELP the customer—to offer suggestions—but never to importune to buy. To be courteous under all circumstances. To welcome complaints as stepping stones to better service . . . and to remember that the A & P customer is always right. To make cash refund wherever requested, without argument, where customer is dissatisfied.

"Quality"—To offer good wholesome foods, realizing the importance of quality in foodstuffs. To search the markets for the best. To rather lose a sale than to sell a product that would "lose" a customer's good-will and confidence. To offer variety for every taste.

"Value"—To ask prices that are fair in relation to cost. To give customers the benefit of savings resulting from the large purchases which their patronage makes possible.

ON SUCH IDEALS AS THESE A & P HAS BUILT A STRUCTURE OF SERVICE THAT IS APPRECIATED BY OVER 5,000,000 HOUSEWIVES.

Founders' Week is celebrated by extra values to which your attention is particularly invited.

WE THANK YOU. It has been clearly demonstrated to us that the people of Ontario have appreciated the saving on BREAD introduced by A & P last week. Your acceptance of this saving has enabled us to reach a new high record in bread production.

RICHARD HALL LIMITED

Appeals Are Made On Long Sentences

TORONTO, Ont., Feb. 25 (C.P.).—A strong plea for the liberty of William Marcus and Sam Richmond was heard by First Divisional Court at Osgoode Hall to-day when counsel for the prisoners contended that they had been convicted of an offence different from that stated in the indictment.

Marcus was sentenced to 15 years and Richmond to 10 years' imprisonment when they were convicted on a serious charge against a girl under 16 years of age. The accused counsel argued that the indictment disclosed a charge of rape, whereas the appellants were convicted under Section 301 of the Criminal Code on the lesser offence.

TRENT RIVER

Messrs. Frank Pollock, Harry Mann and Francis Ruttan attended the hockey match at Norwood Tuesday night.

The Women's Institute held a progressive euchre at the home of Mrs. Harry Seaborne Wednesday night.

Miss Maybelle Inkster, R.N., left Tuesday for Montreal, to resume her duties on the nursing staff of the Royal Victoria Hospital after spending a month at the parental home.

Friends of Mrs. George Ellis will regret to hear of her continued illness at her home in Havelock and hope for a good recovery.

Mrs. McLaughlin has been confined to bed through illness.

Mr. and Mrs. Matthew Greenley, Mr. and Mrs. Douglas Greenly and children of Campbellford were recent visitors with Mr. and Mrs. James Cook.

Mr. Roy Burgess has been confined to his bed at his home in Toronto, owing to severe illness. Mr. James Paget (Mrs. Burgess' father) who has been spending the winter in Campbellford is visiting Mr. and Mrs. Burgess at Toronto.

Mr. Hazel of Campbellford has been visiting the public school Wednesday morning of each week, teaching singing lesson to the pupils from 11 to 12 o'clock.

Mr. W. Burgess and family are moving to Norwood, following the auction sale of his stock and implements.

Mr. and Mrs. C. Alley and family moved their household effects from Peterborough on Wednesday and will reside with Mrs. Trueman Dunn.

SHOOTING CASE IN JURY'S HANDS

Cracknell Defense Pinning Fate on Evidence of Two Alienists.

PRISONER SHOT WIFE.

CHATHAM, Ont., February 26 (C.P.). — The jury has the fate of Thomas Cracknell, charged with the murder of his wife, in Harwich Township late on the afternoon of November 4, in its hands. At 12.30 yesterday Mr. Justice Raney, following the address of the Crown counsel R. V. Sinclair, K.C., of Ottawa, and defence counsel A. L. Hanna, of this city, sent the case to the jury.

The defence is pinning its fate on the evidence of Drs. Chalk of Hamilton and R. C. Montgomery of London, allenists, who in their evidence described Cracknell as of the paranoid type, a man whose actions would be governed by delusions.

Cracknell, armed with a shot gun he borrowed from a friend on the pretence of going duck shooting, went to the residence of George A. Clark, of Harwich, where Mrs. Cracknell was employed as a domestic, shot and killed his wife, as she sat in the kitchen reading. After he fired the shot Cracknell tried to turn the gun on himself, but was prevented by Clark and Frank Smeddberg, a neighbor, who was in the room at the time.

HICKS PLANNING TOURIST CAMP

Plans Are Already Drawn Up For Camp Along Cobourg Lakeshore.

BUILD COTTAGES.

(By Staff Reporter)

COBOURG, Feb. 26.—Plans for a modernly equipped tourist camp have been prepared by Hornsby and Allen, Peterborough architects, for Robert Hicks, former Peterborough coal dealer, who expects to begin the preliminary work as soon as possible on his lakefront property at the foot of Division street.

The lot is 200 feet by 150 feet, and has been laid out for a number of cottages, each of them large enough to accommodate four or five persons. Mr. Hicks proposes to build ten or twelve of them, and has room for more. This year's program will probably be confined to four or five as a beginning of the general plans for the improvement of the property. Each cottage will be furnished with electric light and water, and the accommodatoin will include a modern toilet connected with a sewer that runs through the property, and also a small electric stove. There will also be a verandah and sleeping porch. These domestic conveniences indicate the broad lines which Mr. Hicks is adopting, and it is expected that tourists will be attracted who will remain for extended periods.

The property will be raised and levelled even with a new breakwater, part of which has already been erected along the shore line. Willow trees shade part of the lakefront, and along the breakwater Mr. Hicks intends to build a walk twelve feet wide on which benches will be placed. The number of tourists coming into Canada every year, and the demand for comfortable quarters along the lake encourage Mr. Hicks in this project, the final extent of which will depend upon the business it attracts during the first year or two. The comforts which these cottages will provide are expected to appeal to the class of tourists who look for something better than the bare shacks which are commonly found along the motor highways.

Winnipeg To Be Scene Of Grand Lodge Meet

WINN PEG, Man., Feb. 26 (By The Canadian Press.)—Thousands of delegate from all parts of the continent will journey to Winnipeg his fall to a tend the annual convention of he Soverign Grand Lodge of the Independent Order of OddFellows. The huge meeting will commence Sept. 21 and conclude six days later.

It is almost two decades since Winnipeg played host to the Odd Fellows and the local organization is busy preparing a right royal welcome to their brethren from every corner of North America. Meetings of the Association of Rebekah Assemblies, the department council Patriarchs Militant, Grand Secretaries and Grand Scribes' associations, the Rebekah Assembly Secretaries' association and the Fraternal Press will be held in conjunction with the convention.

RYLSTONE

Mr. and Mrs. Richard Melklejohn and family were the guests of Mr. and Mrs. John Stewart recently.

Mr. and Mrs. Melville Finch were guests of Mr. and Mrs. William Finch on Sunday.

Mr. and Mrs. George Gibbs spent Sunday with Mr. and Mrs. John Wilson.

Mrs. James F. Finch has returned home after visiting her daughter, Mrs. Frank Sheppard, of Peterborough.

Mr. Ray Stewart and the Misses Jean and Vera Stewart were the guests of Mr. James F. Finch on Sunday.

Miss Ethel Fiske is visiting her aunt, Mrs. James Irwin.

Mrs. Frank Morton has returned home after visiting relatives in Trenton.

Mr. and Mrs. Andrew Thomson were guests of Mr. and Mrs. E. Reid recently.

HOME TOWNERS

Tidbits, Interesting and Humorous CAMPBELLFORD

At the regular meeting of the Campbellford Lodge No. 248 I.O.O.F. held on Tuesday evening an interesting address was given by Mr. T. J. Craighead on a recent motor trip to Washington. This was very much enjoyed by the members present.

Mr. C. H. Davidson has returned from Nicholls Hospital, Peterboro, and is reported to be much improved in health.

We are glad to hear that little Ann Wallace, daughter of the Rev. N. C. and Mrs. Wallace, who has been ill for some time, is much improved in health.

MAGNESIA BEST FOR YOUR INDIGESTION

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, following the advice so often given in these columns, take a teaspoonful or four tablets of Bisurated Magnesia in a little water after meals with the result that their stomach no longer troubles them they are able to eat as they please and they enjoy much better health. Those who use Bisurated Magnesia never dread the approach of meal time because they know this wonderful antiacid and food corrective which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and make digestion easy. Try this plan yourself, but be certain to get Bisurated Magnesia especially prepared for stomach use.

PASTOR ACCEPTS CALL.

Rev. W. J. Mark of Campbellford Presbyterian Church Goes to Elmvale.

CAMPBELLFORD, Feb. 26 (By Examiner Staff Correspondent)—The Rev. W. J. Mark, D.D., for two years pastor of St. Andrew's Presbyterian Church, Campbellford, has received and accepted a call to the pastorate of Elmvale, Ontario and has commenced his ministry at that place.

There are two congregations in this charge and it is reported that Dr. Mark received an unanimous call from both. The many friends of Dr. and Mrs. Mark in this district wish them every success in there new sphere of labor.

YOUNG PEOPLE MEET.

Miss Margaret McGregor Takes Topic at Campbellford Y.P.S. Meeting.

CAMPBELLFORD, Feb. 26 (By Examiner Staff Correspondent)—The regular meeting of St. Andrew's Presbyterian Church Young People's Society was held on Monday in the church parlor with the president, Mrs. H. T. Scott in the chair. Miss Grace Blue was secretary and Miss Mary McGregor acted as pianist for the evening.

The meeting opened with the singing of a hymn, the Lord's Prayer and responsive reading, after which the roll call was taken and the business period entered into.

The topic was taken by Miss Margaret McGregor and was on "Protestantism and What it Means to Us." Miss Mary McGregor rendered a piano solo, "In a Persian Market" and Mr. John Russell sang a vocal solo, "Absence." A contest was then indulged in after which a lunch was served, the meeting closing with the benediction.

ADDITIONAL GRANT

KINGSTON, Ont., Feb. 26. (CP) — Announcement was made at noon by Mayor G. C. Wright that Kingston has been given an additional grant of $10,000 for unemployment relief. The additional grant was made following a visit of a Kingston deputation to Toronto when they waited on J. A. Ellis, Secretary of the unemployment committee and when the request of Kingston was made.

HAY FEVER DRAWS CAPACITY HOUSE AS PETERBORO' KINSMEN PRESENT THEIR FIRST CLUB ENTERTAINMENT

Large Audience Pleased With Smart and Entertaining Production.

REALLY CLEVER PLAY.

Parts Are Well Taken and Audience is Given a Real Treat.

(By Jeanette)

There were plenty of misnomers when "Hay Fever" was presented in the auditorium of the Collegiate Institute, last night. In the first place, the nearest thing to hay fever that the play possesses is the attack of hiccoughs that seizes one of the characters in the third act. "Haywire" might do a lot better, because they all go haywire at odd moments. And then there is the author's name, Noel Coward. Coward doesn't signify a single thing in this play, where the maker lets them do and say exactly as they please. The play is full of Blisses who are anything but blissful and, while done in the most modern manner, it had one of the ancient devices of the theatre, a prologue, just as an introduction.

Anyway, it was a very smart and entertaining production—one of the snappiest amateur efforts seen here in many moons. The baby service club of the city, that of the Kinsmen can congratulate itself on having presented a really clever play in a very clever manner. There were nearly seven hundred and fifty people gathered to see "Hay Fever" last night, and they appeared to enjoy themselves immensely. It was a real success.

The prologue, in which Adrian Macdonald announced himself as the "premonitory sneeze" was a splendid thought. Without it, the action, especially in the finale of the second act, would have been hard to grasp, and the character of Judith Bliss would not have unfolded itself so rapidly to her watchers and listeners.

Mr. Macdonald, who directed the play, earned for himself many congratulatory remarks as the audience fyled out. There was a freshness and spontaneity, a real, unassumed interest in their work, and a naturalness to the characterizations, that marked his cast as a very satisfactory and clever group of young people.

Mr. Bernard Shaw contends that characterization, rather than plot, makes a play. It is a moot point, but Mr. Shaw ought to know.

"Hay Fever" depends almost entirely on characterizations for its interest. As Mr. Macdonald remarked, there are in it no evidences of thrilling melodrama, of touching sentimentally, nor of broad farce. And, while it abounds in swear words (even the maid swears, but then her former work was that of a theatrical dresser, so that's an excuse for her) in cigarette smoking (the ladies turn to the cigarette at every possible moment) and in bickering, still it returns finally in the good old British manner, to the sanctity of the home. The Blisses quarrel terribly among themselves, but they don't care a pin about anyone else. When their guests, tired of their rudeness, walk off and leave them, they haven't a single regret. They settle down to a breakfast all by themselves, and return to consideration of their varying egos.

Rampant Poseurs

Every character in the play is a poseur, with the possible exception of the maid. Even the cat, Zoe, an absent member, but indicated in several sentences, is apparently temperamental and hard to please.

Judith Bliss, the central figure in the lot, is an actress who has retired from the theatre, but longs for it, and dramatizes every possible situation in her own domestic life. Her family play up to her at most times and even the hard-working maid, Clara, spoils her and waits upon her. Mrs. D. MacTavish in this role was splendid. Her portrayal of the theatrical Judith could hardly be surpassed and the audience responded instantly to every channe in the mercurial lady's demeanor.

Dr. Herbert Young was her husband, David Bliss, an author who does nothing but analyze people and make material out of their reactions for his novels. He was exceptionally good in the part, which called for a great deal of nervous fireworks and a temperament to match that of his wife, his son and his daughter. When David Bliss was discovered kissing the good-looking divorcee, he immediately asked for some chocolates. There wasn't any reason why he should do so, but that's just a sample of the way the Blisses met difficult situations. They had got rid of most of their inhibitions, as far as manners were concerned, and were determined to be as abnormal as possible.

The son, Simon Bliss, an amateur painter also seeking his soul along the artistic road, and a young man of very romantic tendencies and exuberant emotions, especially in his love-making, was portrayed most realistically by Dr. Ralph Honey, who was really fine in his part.

Then there was the daughter of the house, Sorel, a graceful, pretty creature, characterized by her mother as an "ingenue of nineteen years" who longed for other places and other scenes in a consistently restless manner. She said pretty much what she liked and let the chips fall where they wished. The consequences didn't matter, which was pretty much the attitude of all the Blisses, as far as words were concerned. Miss Nan Parsons in a most able manner played the part of the interesting Sorel.

The household of the Blisses was completed by the outspoken and good-natured maid of all work Clara a part in which Mrs. Fred Hooper did some especially good work. The atmosphere of rudeness which impregnated the Bliss home had spread to Clara, but she did her best to get along with her difficult employers, whom she addressed as "dear" at most times.

Unfortunate Guests

As for the quartette of unfortunate people who had been invited by different members of the household to come and spend a week-end with them, they were only useful to the Blisses as entertainment. They were greeted negligently, or not at all, they were treated in the most terrible manner (when tea was served, their hosts served themselves first and their guests not at all) and when their momentary attraction wore off, they were allowed to depart, unhonored and unsung. They bore up remarkably well under the strain of so much temperament, however.

There was the very attractive divorcee, Myra Arundel, a part in which Miss Marcelle McNulty positively shone, her presentation of a rather difficult role being perfectly splendid; the flapper of the newer, demure type and cleverly appealing manner, Jackie Coryton, with Mrs. Clifton Carruthers doing fine work in this part; and the two men, Sandy Tyrell, a young man about town, and Richard Greatham a diplomatist. Murray Smye had Sandy's part and did it cleverly. His hiccoughing scene, in particular, was especially good.

As for Alex Elliott, who was the dignified and impressive diplomatist, Richard Greatham, he was simply immense. He was so very natural in the role, he was so especially anxious to be polite at all times, he was so extremely surprised when Judith, the arch poseur, used him as an innocent prop for one of her dramatic episodes, that he made a real hit. Every sentence was the signal for an outburst of enthusiasm from his audience. Mr. Elliott was one of the high lights of the piece.

The Blisses as has been remarked, quarrelled constantly among themselves and did not hesitate to involve their guests in their outspoken criticisms. But the finale left them enjoying a momentarily peaceful Sunday breakfast, while the father read from the last chapter of his novel, "The Sinful Woman" and the guests stole out to get away from a disagreeable house. The nice thing about this Haywire play was the fact that there didn't seem to be any moral to the tale. It was content to be funny and entertaining and rather mildly shocking, in spots.

The scheduled program failed to live up to the wishes of its inventors. The guests rearranged themselves according to their likes and the result gave the Bliss family a chance to show off their tempers. The mother's affinity fell in love, or thought he did, with the daughter, whose latest flame went off on a tangent of admiration for the mother. Then the father's discovery, the flapper, decided to like the son of his special discovery, elected to flirt with the novel-making father.

The stage setting was admirable. A somewhat familiar setting from the Grand Opera House was utilized, aided by up to date furnishings and soft lighting, in such a manner as to afford a fine background for the pretty gowns of the women and their smart breakfast togs. The lovely evening things and negligees and pyjama sets, as well as most of the stage furnishings, were from the Canadian Department Stores and the furs were from the establishment of William Lech and Sons.

A pleasant addition to the program was the very fine and tuneful music furnished by a concert orchestra recruited by Rick Roberts, who made his first very successful appearance in the role of a concert orchestra conductor. They played several good things; Rubenstein's "Kamenoi Ostrow", "By the Waters of Minnetonka", Toselli's "Serenade" the Lustpiel Overture and Ideal "Aida." The orchestra personnel was as follows: Mrs. J. Foster, violin; W. H. Cunningham, bass viol; W. Townsend, clarinet; C. Thirnbeck, cornet; J. Thackeray, 'cello; R. Beach, drums; W. Much, saxaphone; H. Northrop, piano, and S. Northrop, violin.

Assisting in the production were Newton Staples as stage manager; Mrs. N. C. Staples, Mrs. Rod Davis, Mrs. Ed. Riley, and Ed. Riley. Thomas Stenton was electrician, Hugh Lush did the work of making up, and ushers and door men included Rod Davis, Emmet Sheehy, Dr. M. Crough, H. G. Mason, Cliff Carruthers, G. W. Craw, Jack Fanning, Alex Donnely, Fred Hooper H. Wilson, Alex Sollitt and Pat Whyte.

Briand To Explain New Naval Accord

PARIS Feb. 26. (AP) — Foreign Minister Aristide Briand and Charles Dumont, Minister of the Navy, were to-day requested to appear before the Foreign Affairs and Navy Committees of the Chamber of Deputies, sitting jointly, to explain the nature of the tentative naval agreement which Great Britain announced yesterday.

The discussion in the committees was reported to have brought out rather sharp criticism of M. Briand for "his failure to acquaint the Parliamentary Committees interested with current negotiations with other countries.

Nabbed in Town's First Bank Hold-Up

THIRD BANDIT ONLY 15 YEARS OLD.

Hundreds thronged the Court House at Cobourg, Ont., when two of the youths charged with staging the town's first bank hold-up, Walter Clifford, 21, and Leslie Forbes alias Leonard Forest, LEFT, 20, Ottawa, appeared and were remanded until March 3. They did not plead to the charge of robbing the bank of $1,985 while armed, February 17. After the spectacular capture of the youths by bank clerks and citizens, police learned that the third member of the trio was only fifteen years old. He was taken separately before Juvenile Court and was remanded to the same date. The two accused presented a contrast in appearance and attitude as they were led into court by Provincial Constable Carey. Forbes was obviously ill at ease, despite his attempt at jauntiness. Clifford, a Nova Scotian, slouched into court and looked straight ahead of him in the dock, apparently oblivious of where he was and what was going on. His long black hair hung over his face and he made no attempt to straighten it.

DEFINITE MOVE TAKEN TO RESTORE AUSTRALIAN FINANCIAL POSITION

Premiers Re-affirm Resolutions on Three-year Plan Regarding Rehabilitation.

BANKS TO GIVE SUPPORT.

MELBOURNE, Australia, Feb. 26—(C. P. Cable via Reuters).—Definite action towards restoring the Australian financial position was assured when the conference of premiers here to-day re-affirmed resolutions in regard to the three-year plan of financial rehabilitation evolved by Hon. E. G. Theodore, Commonwealth Treasurer.

The communication from the trading banks was laid before the conference. While some of the Theodore proposals are rejected, the banks assure the Commonwealth Government of their support provided that budgets are balanced in a short time and the monetary position of Australia is not impaired.

Action Involved

The Theodore measures to deal with the financial crisis involve reductions of wages of workers in the public services and a tax of 17 percent on interest payments to Australian holders of all public loans, government and commercial, where these are subject to commonwealth taxation.

Voting was equally divided on a resolution involving inflation of the currency, the governments of Australia, Victoria and South Australia favoring it, while Queensland, Western Australia and Tasmania were opposed.

The resolution on inflation declared the Commonwealth Government should furnish $5,000,000 per month towards providing employment on productive works, and $30,000,000 towards a bounty on wheat and for the relief of distress among wheat growers. The Commonwealth Government should also introduce legislation necessary to create an issue of fiduciary currency limited to $90,000,000 to be devoted to these purposes. The advances from the new fiduciary fund would be covered by public loans.

Women Are Urging Flower Sanctuary

COBOURG, Feb. 26.—Women's Institutes of Northumberland County, at the instance of the Cobourg branch, hope to have the Northumberland Forest Reserve, 1,000-acre tract seven miles north of the town, created into a wild flower sanctuary, the largest in Canada. It is designed to duplicate, in Eastern Ontario, the sanctuary established at London by the University of Western Ontario, and by Mr. and Mrs. Ray Lawson, whose country place, "Woodholme," site of a famous Indian village, was made a Middlesex County sanctuary some years ago.

OVER 180 PERISH DURING BIG GALE IN FIJI ISLANDS

Tragedy Revealed on Arrival of Gov't Ship at Wellington.

FLOODS TAKE TOLL.

Train is Swept Off Tracks and Lighthouse at Nadi Destroyed.

WELLINGTON, New Zealand, Feb. 26 (C.P.). — More than 180 persons were killed in the Singatoka districts of the Fiji Islands in the worst hurricans and floods there in recent years, members of the crew of a Government ship reported on their arrival from Suva, Fiji Islands, tonight.

The hurricane which occurred a few days ago was reported to have blown a train off the rails at Lautoka, causing many casualties. The lighthouse at Nadi was blown away.

The hurricane was felt along only a narrow strip of territory, outside of which the country was unaffected.

Country Hotel Rates Not Likely To Drop

MONTREAL, Que., Feb. 26.— (C. P.)—The drop in commodity prices has not been accepted by Provincial hotel proprietors as good grounds for a demand for lower hotel rates, according to Rodrigue Langlois manager of the Country Hotelkeepers' Association. The Association was recently petitioned by the Travelling Salesmen's Circle of Quebec, Incorporated, requesting a downward revision of rates in view of the lowered price of food prices. Mr. Langlois recalled that when commodity costs were exceptionally high some years ago, hotel rates were not increased. He added that country hotels have been greatly improved and modernized in the meantime but have suffered from diminishing receipts.

ADVERTISE IN THE EXAMINER

FLOW OF WHEAT CANADA - FRANCE EXPECTED SOON

Final Arrangements Not Completed But Negotaitions Are Under Way.

TARDIEU PROMISE HOLDS.

Canadian Circles Concerned Over Outcome of Parley at Geneva.

PARIS, Feb. 26 (By George Hambleton, C.P. Staff Correspondent).—Negotiations are under way which, it is hoped, will lead at an early date to the purchase of Canadian wheat by France as announced by Prime Minister R. B. Bennett in his year-end speech at Regina, Sask.

The Canadian Government, it is understood, has already been notified that the arrangement made by Andre Tardieu while he was Premier, still holds good. No definite arrangements have yet been concluded for the actual movement of the wheat.

In Canadian circles here there is some concern over the possible effect on Canada of the wheat conferences now proceeding in the French Foreign Office. The information available both here and at Geneva indicates that the continental wheat importing and exporting nations are getting closer with possible negotiation of individual buying agreements outside the actual field of the international conferences.

Two Favorable Points

At present, however, there are two factors operating in France in favor of the purchasing of Canadian wheat:

(1) The poor quality and insufficient yield of the 1930 French crop;

(2) The campaign against the so-called chemical bread, or bread containing adulterants.

The bread commonly served in French restaurants is obviously of inferior quality. France is expected to have to import more wheat, and the information available to-day was that the stocks of the Danubian countries represented in the present conferences, do not compare in quality with Canadian wheat. It is, therefore, felt the outcry against chemical bread is likely to have a reaction favorable to Canada.

At Regina on December 30, Premier Bennett intimated the French authorities had agreed to the purchase of between seven and nine million bushels of Canadian wheat.

Deplores War Debts

Erward N. Hurley, President of the American Manufacturers' Export Association, who recently told his fellow-countrymen some plain home truths about war debts and world depression. He contends that the United States should adopt a generous attitude on the war debt question for her own sake.

MINERS FAVOR UNEMPLOYMENT INSURANCE.

GLACE BAY, N.S., Feb. 26 (CP)—A resolution favoring the adoption of an unemployment insurance scheme by the Provincial Government was passed by members of Victory local of the United Mine Workers at a meeting of the local held last night.

The resolution suggests that the Nova Scotia government divert one percent per ton of the royalty received from the coal industry to a fund which would be used in maintaining the scheme, and that the fund could be further augmented by placing a tax of one percent on every ton of coal mined in the Province

MEMBERS OF PETERBOROUGH BAR BELIEVE PROPOSED AMENDMENT WILL LEAD TO UNTOLD TROUBLE

Opens Up All Kinds of Chances For Fraud and Perjury Against Widows.

GETS FIRST READING.

Would Do Away With the Need to Have Witnesses in Drawing of Wills.

"It opens up all kinds of chances for the commission of fraud and perjury against innocent widows and children." In these words R. R. Hall, K.C., yesterday gave his opinion of one particular section of the "Act to Uniform the Law Respecting Wills" introduced into the present session of the Ontario Legislative Assembly by Hon. W. H. Price, Attorney General. Other members of the legal profession here were interviewed by The Examiner and expressed the same strong opposition to the one section of the Act.

All stated that the section might lead to untold trouble because the manipulation and forgery of wills was made quite easy for unscrupulous persons. The rest of the Act was approved by the lawyers, but all urged that this particular section be deleted.

Given First Reading

The Act has had its first reading in the house. The part drawing the condemnation of local attorneys is Section 6, Subsection 2, which states, "A holograh will wholly in the handwriting of the testator and signed by him, may be made without any further formality or any requirement as to the presence of, or attestation or signature by any witness."

In the Bill, as introduced, particular attention was drawn to this section. "This is new and attention is especially called to it as a substantial change in the law" states a note in reference to the section.

As the law on wills in Ontario now stands, a testator must sign his will before two witnesses, who must also sign the will before the testator and in the presence of each other. The new Act would remove the necessity of any witnesses.

"I have carefully looked this over, and it strikes me that Sub-section 2, of Section 6, is too radical a departure from established law, and is liable to lead to untold trouble. The opportunities for forgery if this Sub-section is to stand are absolutely boundless" stated J. A. O'Brien, local lawyer.

Mr. O'Brien wrote J. F. Strickland, K.C., M.P.P., and the Attorney General setting forth his views in no uncertain terms. "It would not be necessary for an unscrupulous person to fabricate a whole will" he continued. "An undated letter under this Sub-section might, by a few skilful strokes of the pen in adding a date under certain circumstances be construed as a will, and all the manipulation necessary, would be the addition of a date. I cite this of course as perhaps an extreme case, but one well within the realms of possibility.

"There is another point, which I would like to urge as a further reason why the Sub-section should be dropped" said Mr. O'Brien "and that is, the present law of execution of wills in Ontario is generally recognized in the British Isles and most of the United States as their proper lawful form of execution. I can foresee, therefore, that where a testator making will of this character in Ontario and being interested at the time of death in property in the British Isles or the United States, that a great deal of difficulty, and in many actual intestacy might result. As matters stand now there is not one chance in a thousand of an

MILLBROOK Y.P.S. HOLDS ICE CARNIVAL

Varied Costume Lends Colorful Scene to Jolly Social Gathering.

MILLBROOK, Feb. 26.—(Examiner Correspondence).—The Young People's Society planned a radical departure from their usual meeting on Monday evening, when a carnival was held at the Cosmos rink, the vice-president of the literary and social department, Miss Marjorie Sayles, having the program in charge.

A number came in costume, and President B. B. Dawson led the gay party in various games during the happy hour or two spent on the ice. Among the costumes worn that of Walter Sayles, who came as "Three in One", won special mention: from his feet to his knees a hockey player was demonstrated, flaring skirts denoted a ballet dancer, and quaint head covering and makeup were those usually associated with an old lady.

Shortly after one o'clock adjournment was made to the basement of Saint Andrew's United Church, where the abundant supper in readness was fully enjoyed, thanks to the good offices of Mrs. (Rev.) W. W. Jones and Mrs. George Fallis, who with Misses Marjorie Skitch, Charlotte Lunn, George Elson and Jim Larmer, assisted Miss Marjorie Sayles with the service of the hungry guests.

Six new members were enrolled at Monday's meeting, offering at least one tangible result of the success of the gathering. A few of those in costume were Bernice Smith, who made an attractive Little Red Riding Hood; Marjorie Vance, who was a gallant courtier; Ida Lunn, a realistic cowboy; Bryar Edmunds, whose Dutch Girl disguise suited her admirably; and others.

Next week's meeting is under the Christian Fellowship department, Miss Jean L. Burnham, convenor.

Several farm-relief measures were inaugurated recently in Czechoslovakia.

Children's Colds Checked without "dosing." Rub on VICKS VAPORUB
Over 17 Million Jars Used Yearly

A Dessert of An Ethereal Nature

By DORIS H. TISDALE
Chase & Sanborn Institute

NOWADAYS women consider the decorative value of foods almost as much as they do their palatableness. With the dainty colored goblets and matching sherbets of the tea or luncheon table, the modern hostess wants her dessert to be light, fluffy, yet of an underlying substantiality. Coffee Froth has a custard consistency, flavored with fresh coffee, and topped with a snowy froth.

Coffee Froth

3 egg yolks
⅔ cup sugar
1 cup milk, scalded
1 tablespoon cornstarch
Few grains salt
1 tablespoon cold water
1 cup strong hot coffee
Beat egg yolks with sugar until very light. Add scalded milk and coffee slowly. Mix corn starch and salt in cold water and add to first mixture. Cook in double boiler until mixture thickens enough to coat the spoon. Place in eight sherbet glasses. Chill. When cold, place spoonfuls of the following mixture on top:

1 cup sugar
½ cup water
Few grains salt
3 egg whites
¼ teaspoon vanilla extract

Boil sugar and water together to 238° F. or until it spins a thread. Beat egg whites with salt until stiff. Pour hot syrup slowly over egg whites, beating continually until thick enough to hold its shape. Add vanilla. Serve 8.

Trent River Society Enjoys Literary Night

TRENT RIVER, Feb. 26 (Examiner Correspondence) — The Efficiency League met on Friday evening at the United Church, for "Literary Night" when sides were chosen for four colors, White, Missionary; Blue, social and literary; Khaika, citizenship; Red, Christian Endeavor.

Harold Thompson was appointed Editor of the monthly paper to be read on "Literary" night, he to be assisted by Mrs. Marshall Wannamaker and Freda Thompson.

On Friday, March 6, the members of the league of Rush Point will visit Trent River League when a social evening will be enjoyed. On Monday evening the executive of the league was invited to the home of R. W. Umphrey to discuss matters concerning the program for Friday evening which is Citizenship night, when Miss Marion Inkster and Isaac Lawson have charge of the program.

That Body of Yours

By James W. Barton, M.D.

WHAT MAY MAKE US OLD TOO SOON

If you were asked what you consider the fault habits of human beings that tend to shorten life, you might think perhaps of alcohol, tobacco, overwork, lack of sleep, too much anxiety, or others, but you might not think of one very serious life shortener and that is overeating.

There was an old saying that "more have died by the palate than have died by the sword." Also the opposite has been said and that is that "an army marches on its stomach and not on tis feet."

Now is is not absolutely necessary that you should consider every mouthful of food as to kind, calories, viamins and so forth.

This is important where underweight or overweight is being considered but for the average individual Dr. McCollum's advice is sufficient. He says that the ordinary diet now in general use is suitable providing some raw fruits or vegetables are added to any one meal of the day

So it is not the quality or kind of food that is at fault in shortening life, butth amount. And in a sense it is not really the large amount of food, but what happens to it in the system. If food is used or burned up in the system by the working of the muscles in exercise or work, great quantities can be eaten. In fact, workers doing hard manual labor outdoors can quite safely eat twice as much food as when they are sitting idle at home. Similarly with oarsmen or other athletes engaged in hard training.

What happens to food not used up by work? If the food is fat or starch and the individual lives indoors a considerable amount of it will not be burned up, but if he lives outdoors more of it will be burned. However, a considerable portion is likely to be stored away in the body as fat, and this fat, instead of being just a support to the internal organs can get actually in and around them to such an extent that it interferes with thier action Too much starchy food is definitely one cause of diabetes.

If too much meat is eaten it is even more serious if no work or exercise is taken. Meat is a more complex food than fat or starch and doesn't burn so readily. It has more waste residue, ash or whatever you may call it, and this interferes with the smooth working of kidneys, blood vessels and sometimes the heart. Unfortunately also where too much meat is eaten it interferes with the burning up of fat and starch, sort of chokes the fire as it were.

In short, the diseases that shorten useful lives—heart disease, inflammation of the kidneys, hardening of the arteries, hardening of the walls of the vessels carrying blood to the heart itself, diabetes—may all be caused by too much food, or to put it another way—due to the fact that to hefod is not burned up by exercise.

Percy Township Man Is Kicked By Horse

CAMPBELLFORD, Feb. 26 (By Examiner Staff Correspondent)—Ray Petty of Percy township met with a very painful mishap recently, when he suffered a dislocated shoulder blade, sustained from a kick by a horse.

While cleaning a comparatively new animal, its mate playfully bit it, causing the horse to kick out with its hind feet, Petty receiving the blow intended for the other horse, in his shoulder and stomach. X-ray treatment revealed nothing more serious than a dislocated shoulder.

District Churches

ROSENEATH

ROSENEATH, Feb. 26 (Examiner Correspondence)—Rev. R. W. Paton, M.A., preached to a very large congregation on Sunday evening taking his text from John 19: 41-42, and using the words, "A Sepulchre in a Garden."

The reverend speaker told the story of the two Marys, sitting over against the sepulchre and could not see the beauty of the garden; to them it was only a wilderness, for the one thing they cared about was that which they could not see—the body of Jesus.

"They would ask themselves many questions but there was no answer for Jesus had not yet appeared to them. Their sorrow was deep for they had no hope as they had not yet seen Jesus. How desperate would be our sorrow were it not that we have experienced Jesus and can look beyond this vale of tears! Without Christ we cannot see the things truly beautiful, the things finest and best.

"In the garden of Eden there was nothing but life and beauty until sin entered and then came death and the grave. This grave was no longer triumphant; it has been conquered by Him who is the resurrection and the life. We enjoy looking at the attractive things in our garden, but we never stop to think that in this garden there is a sepulchre.

"And now, let us remember the sepulchre that is in our garden and above all else, let us see to it that that sepulchre is in Christ or we need not expect any comfort or resurrection to better things. Let us strive to consecrate ourselves to do His will and let us bury our pride, our jealousy, our angry passions deeply in the grave of Him who conquered death and the grave and finally we must seal the stone with the signet of a genuine repentance.

"If Jesus has the central place in our garden, our way of life, some day Eastertide will come, the sepulchre will open and from it will come forth Jesus Christ as He did in the days of old, bringing comfort and peace and all tears shall be wiped away forever and forever."

The anthems, "The Old Rugged Cross" and "In The Garden" sung by the choir under the leadership of Mrs. Lily Turner with solo part by Mrs. Delbert Brisbin were peculiarly appropriate, and the hymns also were in keeping with the spirit of consecration that was strongly in evidence throughout the service.

Early Marital Entanglements

Strong winds blowing round St. Paul's Cathedral, London, England, brought about this martial entanglement. The picture shows Captain Geoffrey O. H. Sergeant and his bride, the former Miss Betty Royds, with the bridal veil wrapped around the gallant captain's head.

PLEASING PROGRAM AT Y.P.S. MEETING

St. John's United Church Society at King's Wharf Holds Meeting.

KING'S WHARF, Feb. 26 (Examiner Correspondence) — The Young People's League of St. John's United Church held a very successful meeting on Friday evening when the president, Mrs. James Compbell, occupied the chair.

The meeting was in charge of the Missionary vice president, Mrs. Leigh Hunter, when Miss Effie Killaby gave the scriptuaral reading from chapter 1, 1st Corinthians. Roy Killaby gave the explanation of the text and a reading was given by Miss Mabel Hunter. Miss Helen Hunter contributed an instrumental selection, entitled, "The Old Oaken Bucket" and a recitation by Joseph Quigley; also a reading by James Quigley.

A Valentine contest followed being entitled, "If Cupid Grew up to be a Modern Man," the Missionary and Devotional groups being the winners. The Valentine postoffice was then opened and the contents distributed. The next meeting will be in charge of Mrs. John Quigley.

VESSEL TOWED TO SAFETY

TOULON, France, Feb. 26. (AP)—The French torpedo boat Bordelais, which was in distress off shore from Marseilles after being damaged in a storm Sunday night, was towed safely into port here to-day.

The vessel's machinery was damaged in the storm and before being picked up by tugs she was in almost a sinking condition.

PRESENTATION MADE TO DUMMER COUPLE

Mr. and Mrs. George McNaughton and Family Honored at Farewell Party.

SOUTH DUMMER, Feb. 26 (Examiner Correspondence)—A very enjoyable social evening was held at the home of Mr. and Mrs. R. J. Girven on Friday evening, under the auspices of the Women's Association of South Dummer Church when a beautiful leather chair was presented to Mr. and Mrs. George MacNaughton and family prior to their departure for Westwood where they will reside. Mrs. L. Freeburn read an appropriate address and J. Brooks made the presentation to which Mr. MacNaughton replied in a suitable manner.

Games, contests and community singing were enjoyed, a violin duet being contributed by Auriel and Byrl Clydesdale, of Cottesloe and a harmonica and piano instrumental by G. Elliott and Mrs. Ferguson. Mr. Allen contributed a violin solo accompanied by Mrs. Ferguson, who played the harp.

Refreshments were served by the ladies.

U. S. GRAIN EXPORTS DROP

WASHINGTON, D.C., Feb. 25. (AP) Grain exports from the United States in the week ended February 21 totalled 226,000 bushels as compared with 235,000 bushels in the preceding week and 618,000 bushels in the corresponding week of 1930.

Canadian grains in transit cleared from United States Atlantic ports totalled 2,000,000 bushels against 1,978,000 bushels.

Mission Band Hears Interesting Address

Chief De Yo Kah is Speaker at George Street Church Society Meeting.

The Fidelis Mission Band of George Street United Church held their regular meeting Monday afternoon. The roll call of members was called by the secretary Jean Kerr, showing a large number of members present.

The speaker of the afternoon was Chief De Yo Kah who was introduced by Mrs. J. E. J. Millyard. He gave a very interesting talk on the lives and customs of the boys and girls of the different Indian tribes, especially describing some he had visited around Hudson Bay. He said there are 25 entirely different languages spoken in Canada, mostly unknown by other tribes. He made reference to his boyhood life, and said he had not known a word of English until he was 14 years of age.

Mrs. Wellwood introduced Mrs. D. Munroe as an assistant Band leader and who was warmly welcomed.

The meeting closed with the Mizpah Benediction.

The King's Daughters held a very enjoyable and successful community bridge on Wednesday afternoon with tea and sale of home-made cooking at the home of Mrs. L. D. W. Magie, 371 Reid Street. The following acted as bridge hostesses: Mrs. E. H. Wood, Mrs. L. A. Potvin, Mrs. R. R. Hall, Mrs. A. W. Spence, Mrs. G. Langley, Mrs. E. Taylor, Mrs. Gerald Wood, Mrs. W. J. Kent, Mrs. J. C. Smith, Miss E. Scott, Miss M. English, Miss M. Rogers. Prizes were given by each bridge hostess. The guests later assembled at Mrs. Magie's home where they were received by the hostess, assisted by Mrs. E. H. Wood, president of the King's Daughters. The rooms were lovely with softly shaded floor lamps and a profusion of spring flowers. The tea table was charmingly arranged with an Italian lace cloth and central silver bowl of daffodils, tulips, and paper-white narcissus. Tea was poured by Mrs. A. H. Stratton, and assistants were Mrs. G. H. Thompson and Mrs. W. M. Cruthers. The table of home-made cooking was in charge of Mrs. Fred Roy, and a delectable lot of goodies were soon disposed of. Among those present were: Mesdames B. D. Hall, F. C. Weber, O'Conner-Fenton, S. Goulet, Wightman, McWilliams, T. W. H. Young, Seels, Brewer, Stapleton, McIntyre, J. Clegg, Coulthard, George McDonald, Robertson, W. Comstock, G. Boucher, Perks, J. H. Eastwood, Caddie, Charles Reid, Amys, M. Turner, J. C. Turner, A. Clysdale, Ray Scott, E. J. Martin, D. Laurie, Claude Rogers, L. W. Scott, West, E. Howson, G. Matthews, Hicks-Lyne, Fortye, F. Collins, Hill, A. W. Stevenson, Miller, Prettie, Herbert Young, A. H Stratton, J. F. Strickland, R. Yeaman, W. H. Pretty, R. H. Fortye, E. H. Wood, Kent, J. C. Smith, G. H. Thompson, Potvin, R. R. Hall, W. M. Cruthers, Spence, Langley, Fred Roy, E. Taylor, Gerald Wood, Misses E. Scott, Linden Hall, M. English, L. Hall, Bennett, Maude Rush, G. Reinhart, Faulkner, L. Belleghem, M. Rogers, Bain, M. Clementi, B. Hall.

• • •

The many friends of Mr. and Mrs. Walter Belleghem will be pleased to know that their small daughter Berta, who has been dangerously ill, is now progressing satisfactorily.

• • •

At the close of the second act of "Hay Fever," presented under direction of Adrian Macdonald last evening in the Auditorium of the Collegiate Institute, under the auspices of the Kinsmen Club, lovely bouquets of roses were presented to the ladies taking part in the play: Mrs. D. MacTavish, Mrs. Fred Hooper, Mrs. Cliff Carruthers, Miss Marcelle McNulty, and Miss Nan Parsons.

• • •

Three of the well-known older men of the city, prominent for many years in different walks of life, are to-day attaining another milestone in life. All three are octogenarians, having passed their eightieth year. Mr. Finch W. Miller, 465 King Street, is eighty-three years old to-day; Mr. Joseph Lee of Orpington Road is eighty-four; and Mr. William Menzies, 335 Reid Street, the eldest of the trio, is eighty-seven. The Examiner extends congratulations, and hopes for a continued lease of life to these senior bulwarks of the community.

• • •

Mrs. W. McKee Bingham of Millbrook is having continued success with her presentation, by the young people of Millbrook, of "Peg o' My Heart." It is being presented in Keene on Friday evening of this week.

• • •

The many friends of Miss Gwylda Pakenham of 300 Boswell avenue will regret to learn that she is confined to bed with an attack of influenza.

• • •

The many friends of Mrs. Gordon Cook of Young street will regret to hear of her illness in Nicholls hospital, where she underwent an operation for appendicitis.

• • •

In the account of the tea party given by little Gwendolyn Friendship of Sherbrooke street, in connection with her birthday anniversary on Saturday, the name of Doris Cunningham, one of the guests, was inadvertently omitted.

• • •

Miss Jean Southworth of Cannington, a pupil of Miss E. Isobel McKee, has passed with honors the examinations in Elementary Piano held recently by the Toronto Conservatory of Music.

• • •

Earl Dixon of 213 King street, aged sixteen years, while visiting his uncle, Mr. George Dixon of Hall's Bridge, was badly injured on the head. While cutting wood, the axe caught in the branch of a tree, glanced back and struck him on the side of the head. First aid was given by Dr. Kelly of Bobcaygeon and the boy was then removed to Nicholls Hospital and attended by Dr. H. M. Yelland. The extent of his injuries is still undecided, as he remains unconscious.

• • •

The Women's Association of Knox United Church held a very successful pan cake social in the basement of the church on Tuesday evening. A large crowd was present and thoroughly enjoyed the tempting golden brown flap-jacks prepared by Mrs. J. Runnett, Mrs. J. Jackson, Mrs. McCurdy and Mrs. J. Preston. The waitresses were Mrs. G. Davis, Mrs. H Beatty, Mrs. H. Hughes and Mrs. W Selkirk. Mrs. J. Londerville and Mrs. Watson were general convenors. Radio selections were enjoyed, Kenneth McCannon kindly loaning the radio.

Department Of Labor Aids Needy In West

OTTAWA, Ont., Feb. 16.—(C.P.)—Twenty-one families in the Adanac, Sask., district have been provided with warm clothing through the efforts of the employees of the Department of Labor here. Touched by a letter he received from a woman in that centre, describing some of the hardships and privations undergone by impoverished farmers and their families, Senator G. D. Robertson, Minister of Labor, headed a departmental committee that collected a large bale of cast-off clothing.

The bale, which contained 365 articles of clothing, was sent west a few days ago and word had been received here of its distribution among needy persons of the district.

The VITAMIN FOOD that growing children LOVE!

HOW they do enjoy it! Marmite mixed in hot water or hot milk . . . Marmite spread on bread or biscuits . . . Marmite sandwiches!

Nothing else in the world is quite so good because Marmite is a concentrated extract of yeast and fresh vegetables, and the richest known source of Vitamin B—the vitamin of growth.

Marmite enriches the blood and builds resistance. Marmite helps children grow and keeps growing children strong.

MARMITE

The Great British Yeast Extract

Grocers and Druggists have it

Or write to MacLaren-Wright Limited, 69 Front Street East, Toronto and receive a free Marmite sample together with a book of tasty delicious recipes.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Recently I was in a home where a radio was installed and really I think there was much displeasure, rather than pleasure caused by it.

• • • • • • •

Oh, no, I don't mean that the displeasure was caused by the radio itself—it hadn't anything to do with it, whatever.

• • • • • • •

It seemed every member of the family had his or her favorite program and as far as I could make out, every program was on the air at the same time, only on different stations.

• • • • • • •

Everyone wanted to hear his or her program, with the result that nobody was satisfied.

• • • • • • •

No doubt this trouble exists in many homes in Peterborough and I was just wondering if the members of the different families couldn't make a compromise.

• • • • • • •

That is, try to fix things up so that every member would hear his or her favorite program two or three times a week, at any rate, if the program is a daily one.

• • • • • • •

I am sure that if something were done, the radio would be much more enjoyed by a large number of members of the various families throughout the community.

• • • • • • •

Perhaps, you as a hostess, are in a quandry when you entertain in trying to please all your guests, in regards to the radio programs

• • • • • • •

The best way to do in this case would be to tune in on the program that the majority of the guests prefer. The hostess, in the case of entertaining one guest, should try to tune in on the numbers best liked by her guest, but good form also suggests that the guest shold waive her preferences, if she has any least inkling that the hostess wants especially to hear a certain number.

• • • • • • •

Another radio courtesy which many local people have is that they are very careful that their radio is not turned on very loud and thus disturb their neighbors.

• • • • • • •

I think that no radio in a home should prove unpleasantly loud to neighbors nor be on late at night and very early in the morning, unless that it is so low that no annoyance is caused.

• • • • • • •

The pleasure of a radio is so great that those who have one can bring its messages of music or spoken words to their friends who are as yet without one

W.C.T.U. HONORS FORMER LEADER

Frances Willard Day is Observed by Members of the Local Union.

CLIP-SHEET TALKS.

Frances Willard Day was observed by the local W.C.T.U. at their meeting held on Wednesday afternoon, at the Y.W.C.A., when a good attendance had gathered to honor the memory of their great leader.

The usual devotional service of prayer and praise formed the opening exercises. "Faith of Our Fathers" was the introductory hymn and was followed by prayer and the Lord's player in unison.

The scripture lesson was told by Mrs. M. A. Morrison, in a beautiful story woven around the theme of "Sowing Seeds," taken from Ecclesiastes 11: 4—6; John 4:36, and Galatians 6:7.

Mrs. Morrison emphasized the truth that in "sowing seeds" the weather, or circumstances, are not in our control. It is ours only to sow the seed, and leave the results with God. She closed the reading with the fitting, little poem, "Be Strong."

In keeping with the spirit of the service was the delightful solo, "God Speed the Right," rendered by Miss M. Bryce.

One of the most interesting features of the afternoon was the "clip-sheet" conducted by Mrs. Lorne Cunningham. This is a questionaire along the line of temperance work, which brought out many enlightening facts by those who took part. The clip-sheet dealt with the relation of the "hard times" of to-day and the liquor question.

"Why talk about hard time?" said one speaker, "when the people can afford not only the $56,000,000 for liquor, but the added cost of combating the steadily mounting crime wave, of increased jail accommodation, of the increasing number of abandoned children, of the relief of poverty, of the destruction of property, and, most appalling of all, the wanton cutting off of human life at the hands of drunken drivers." This one response carried sufficient conviction to provoke earnest though.

Moffat's translation of Phil. 4:4-7, as a Benediction, closed this part of the program.

Main Speaker

Mrs. C. H. Edwards, the president, who presided throughout the meeting, was also the speaker of the day. In her address, which was a tribute to the memory of Frances Willard, Mrs. Edwards acclaimed her the greatest woman philanthropist the world has known. Frances Willard was born in Churchville, New York, in 1839. From here the family trekked across country to Oberlin, the college town, and later, owing to the father's ill health, farther west, to Wisconsin, where among the trees they made their home, calling it Forest Home. Here Frances, with her brother Oliver and sister Mary, lived and played. Here she laid the foundation for that endurance and strength that was to take her all over the world and to fit her for the hard tasks that were hers. She accepted every opportunity that came to her to be useful, to read and to study. She was a lover of nature and nature's God. Here it was she wrote her 400-page tale of adventures, sitting in the top of an old oak tree. This tree was designated "The Eagle's Nest," with a "beware" sign securely fastened to it. Their school room was fitted with home-made desks and benches, where a private teacher came and taught them.

The first pledge Frances ever signed was in the old family Bible and a rather remarkable pledge. It ran like this:

"A pledge we make no wine to take,
Nor brandy red, that turns the head,
Nor fiery rum that ruins homes
Nor whiskey hot that makes the 'sot.'
To quench our thirst we'll always bring
Cold water from the well or spring;
So, here we pledge perpetual hate
To all that can intoxicate."

Fifty years later Frances Willard herself composed a pledge for boys.

Her training for the teaching profession was received in Milwaukee and Evanston where she graduated. After teaching a few years she chose as her life work the cause of temperance to which she gave herself wholly, bringing to it such a leader we all know, Mrs. Gordon Wright, and many others. The W.C.T.U. stands as a splendid monument of a life spent for others.

The closing hymn was the "Battle Hymn of the Republic" and the Mizpah Benediction.

Ontario will properly executed not serving its purpose as a will in nearly all countries in which Ontario people might be interested in property."

Hon. G. N. Gordon, K.C., F. D. Kerr, K.C., and John R. Corkery, City Solicitor, also foresaw danger in the bill.

"To my mind it is not essentially necessary" stated Mr. Corkery. "It may leave an opening for a great deal of litigation, since more will will be contested. Locally we have never had any cases of holograph wills. It is quite radical legislation and likely aimed to provide for those cases where a man cannot secure witnesses, but I think in a province like Ontario is unnecessary."

Mr. Gordon and Mr. Kerr were both strong in the view that it would leave wide openings for forgery and crookedness in wills.

A section of the existing law on wills provides for a holograph will in the case of soldiers, sailors, aviators and mariners on active service or on a voyage. These persons can legally draw up their will without witnesses. This was to provide in case such men leading lives of danger might be suddenly mortally injured, and the proposed Act also provides for them in the same manner.

With the exception of this one sub-section the Act merely clarifies existing laws on wills and removes some of the cumbersome phraseology.

"Alien Soil," an opera recently produced at the Berlin State Opera, has a plot dealing with Lithuanian workmen who emigrate to Chile, where the leader falls into the trap of an exotic vamp, the proprietress of a mine, and when he remorsefully returns to his wife finds her dying.

This Purer Soap
protects delicate colours

And instead of making hands red and rough, keeps them ever soft and white.

WHY have red hands? Why fade and damage silks, woolens and linens with soaps containing harsh free caustics?

For here is a purer soap . . . that costs no more than soaps containing adulterants. Originally intended for silks, woolens, linens and all fine fabrics, the gentle purity of Princess Flakes . . . plus the protection they give to women's hands, have made them popular for every household task.

Women use them for fine laundry. And so keep delicate silks like new. Woolens soft and fluffy. They use them in the laundry tub. And marvel at the abundant rich suds that this pure soap keeps on giving. They use them in the dishpan. For linoleum and woodwork. And find that because Princess Flakes are all pure soap . . . no filler or adulterant . . . they go so much further that they are a wonderful economy.

Get the big yellow package from your grocer. Then write me at 64 Natalie St., Toronto, for my free book of "Household Hints."

LADY SQUIRES ON FAMED CHEQUERS

Tells of Country Seat of Britain's Prime Ministers.

ST. JOHN'S Nfld., Feb. 26.—(By Canadian Press)—The spot on which Chequers, country home of Britain's Prime Ministers, is built, has been covered by a dwelling since 1086, A.D. A description of the historic seat was recently given members of a St. John's literary club by Lady Squires, wife of Sir Richard Squires, premier of Newfoundland, and a member in her own right of the Oldest Colony's house of assembly. Sir Richard and Lady Squires spent a week-end at Chequers during the Imperial Conference.

Dick Chequers was the first owner of the estate. It was used as a prison by Queen Elizabeth, for a sister of Lady Jane Grey, presumably because she had made a runaway match, but probably because of Elizabeth's fear of being ousted from the throne, said Lady Squires Cromwell was the owner for a time, and for three hundred years some member of his family occupied the house; which contains a famous collection of Cromwellian portraits and relics. In 1917 it was presented to the nation as a country for its premiers by Lord Lee, who realized that all who might become prime ministers might not be able to afford a country home. Every time a premier spends a certain number of hours at this house he is allowed fifteen pounds.

Lady Squires also described the conference dinner at Buckingham Palace, giving a graphic account, of the color scheme in flowers ranging from gold to match the service, to tawny brown, and referring to the "sweet music" of His Majesty's Scottish Pipers, who played behind the chairs of the King and Queen and then marched around the room. "The effect was to merge all in one harmonious whole, in which was neither king nor subject, but human beings having each one a share of the world's joys and sorrows," said Lady Saquires.

Kenya In Limelight Claims New Governor

LONDON, Feb. 26.—(By the Canadian Press)—Brig. Gen. Sir Joseph Byrne, newly appointed Governor-General and Commander-in-Chief of Kenya Colony, successor to Lt.-Col. Sir Edward Grigg, who recently retired, in a speech here just prior to his leaving England to take up his new duties, referred to Kenya is very much in the limelight; it would be better if they could so arrange their affairs as to be left more in peace."

Sir Joseph was the principal guest of the East Africa Dinner Club at the Savoy Hotel when he spoke. He assured those present at the dinner that he was taking office in Kenya with a completely open mind, and he would do his best to be just and fair to all classes there. Lord Passfield, Secretary for the Dominions and Colonies, proposing a toast to the chairman, Sir Charles Bowring, urged the necessity of all sections of the Kenya population working together for the future prosperity of the colony.

Sir Charles Bowring was Chief Secretary of the East Africa Protectorate, now Kenya, 1911-24, and was acting Governor on various occasions. He paid a tribute to the new Governor-General of Kenya, Sir Joseph Byrne, on his qualifications for his new post. He said that Sir Joseph's police experience alone would commend his appointment to the most extreme and irreconcilable critic of the Kenya settler. It was important that he should be given a fair chance, and the best that the speaker could wish him was that he be allowed to govern through the orthodox methods provided by the Kenya Constitution unhampered by numberless commissions and committees.

Trade Crisis Hurts Mines In Rhodesia

BULAWAYO, Southern Rhodesiaf Feb. 26.—(By the Canadian Press)—That the world trade crisis has hurt the, mines in Southern Rhodesia by the production falling off considerably is shown in a review of the mining industry during 1930 given by J. D. Morton, Secretary of the Rhodesia Chamber of Mines. He points out that the world trade crisis adversely affected mineral production at the end of November. The decline was $1,263,595 and it is expected that by the end of December the short all will be $1,500,000. The decline is principally noted in the case of mineral production. Chrome has declined $566,780, asbestos $418,375, mica $136,620, coal $110,500 and gold $218,185.

The peak year for gold was 1916, when 830,356 fine ounces valued at $19,476,555 was produced, but the curve downwards has been much less marked since 1924. Southern Rhodesia claims to be the third largest producer of gold in the British Empire even to-day, and the position is regarded as the one stable feature. Till last year figures for the principal base minerals such as asbestos, chrome and coal, have shown a practically continuous expansion.

Sovereigns Honor Quebec Children

MONTREAL, Feb. 26.—The school children of the Province of Quebec have received a signal honor. Their Majesties, King George and Queen Mary have graciously consented to be specially photograped for them.

"As many of you know," writes Mrs. Ruth B. Shaw, Quebec supervisor of the Junior Red Cross, in her February bulletin, "the Department of Education and the Junior Red Cross feel that portraits of our King and Queen should hang in every school in this province. Such pictures are difficult to obtain, so A. E. Holt, chairman of the Quebec Junior Red Cross, wrote through the Viscountess Willingdon, president of the Red Cross Society of Canda, to Buckingham Palace, asking if Their Majesties would possibly consider sending their photographs to the boys and girls of Quebec. They not only consented to do, but they have also made special arrangements to have pictures printed in quantity at the lowest possible cost.

Matrimonics Suggested As McGill Course Most Important Career Is Overlooked

MONTREAL, Feb. 26.—Lectures on practical widowhood and dishwashing are among the many courses suggested for a new department at McGill, that of "Matrimonics," proposed by an undergraduate writing in the official students' organ, the McGill Daily.

In introducing the idea of such a department the writer points out that "if we accept the verdict of educational experts that 'the object of a college education is to better equip one for the battle of life, there is obviously a great lack in our modern university system. We train students for every possible career except the most important of all, namely that of matrimony.

"Now matrimony," the writer continues, "is a career. For most of our female students it is the only career. During the past federal election by far the most frequent profession enumerated was that of housewife. Surely, then, it is up to our universit,es to guide their students in this most important matter. It is with this object in view that we propose establishing the new department of matrimonics.

The student starting off thus seriously goes on to enumerate humorously some 18 courses of study which might be well included in the new department, one of whose most popular lectures, according to the writer, would be America's widely known satirist, H. L. Mencken.

As unemployment seems to be one of the most thought provoking subjects of the day, the proposer of the novel department suggests a possible question for examination of students in the department as follows: "Prove that monogamy is the cause of the recent economic depression."

There are indications on the campus that the proposal of a new department, which would have for its purpose instruction of students on the vital question of matrimony, will not be shelved without further consideration by fellow students as such instructions would, in the opinion of many, fill a long-felt need.

FIRST EMPIRE SHOP OPENED IN ENGLAND

Shop in Birmingham for Sale Empire Marketing Board's of Produce Samples.

BIRMINGHAM, Eng., Feb. 26 (By The Canadian Press.)— The first "Empire Shop" organized in England by the Empire Marketing Board is that of Birmingham, opened on January 26, by William Lunn, M.P., Under-Secretary for Dominion affairs, but it is not the first in Great Britain. A similar shop was opened by the Board in Glasgow last year.

For six months all kinds of Empire produce will be displayed in the shop and small samples sold to the public. Each Empire country will occupy the shop for a period of about two weeks, England and Wales being the first occupants with a display of 45 different articles. The exhibit was organized by the Ministry of Agriculture and includes "national mark" eggs, flour, canned fruit and vegetables, beef and malt extract.

The shop in Glasgow proved a marked success and there are indications that this shop in Birmingham will be successful too. In Glasgow the retail dealers co-operated in the campaign and the retailers of Birmingham are just as wholeheartedly supporting the Empire shop here. A committee room is provided for the use of traders on the shop premises, and there is an information bureau where visitors are given details of any product in which they are interested. In addition to the sale of samples there is a demonstration kitchen where expert cooks show how new and economical dishes may be prepared from all-Empire ingredients.

The second period of the Empire shop here opened on Februar 9 when New Zealand took it over. In the subsequent periods the shop will be in charge of South Africa, Australia, India, Canada, Southern Rhodesia, and the Irish Free State, and besides these products of several colonies will be displayed. The shop will remain open until June 5.

The Start of a Perfect Day

ENO'S "FRUIT SALT"

Problem Of Natives Faces East Africa

LONDON, Feb26. (By The Canadian Press.)—The problems of government of East Africa were compared with those of India by Sir Edward Grigg former governor of Kenya Colony, at a recent dinner of the Royal Empire Society in London. "We are confronted in East Africa, as in India, with the question of whether to spread direct British administration or build up native states," he said.

Sir Edward declared that economic stability in East Africa depended on the economic development of European and African production on complementary lines. Any attempt to foist an alien policy upon Africa was bound to be disastrous.

Touching the matter of the recent handling of Indian affairs by the British government, Sir Edward Grigg said this showed Great Britain's determination to be fair and sympathetic to all classes. The need for this in East Africa was not less great than the need for is in India, he added.

Boys' Hobby Show Work Progressing

Monday evening the directors of the Boys' Hobby Show gathered to discuss matters of general importance. While the turn-out of member of the board was not large, the report given showed that the work was progressing favorably.

This year the show is featuring a separate department of penmanship, under the direction of Lorne Johnson. This department is a new enterprise for the local show and promises encouraging results.

The department of scoutcraft and campcraft has been somewhat reorganized, as has that of art. Both these departments should prove to be highlights of the show.

The matinee dog show has been revived under the energetic guidance of Bill Wheeler, who forecasts outstanding success.

Brazil plans a tax on talkie tickets.

Miniature golf is penetrating into the interior of the Philippines.

HISTORIC WHEELS STILL IN SERVICE

Once Used to Move Famous Fredericton Fire Fighter.

FREDERICTON, N.B., Feb. 26.—Wheels that rolled to Fredericton's fires in the seventies are still in service, though sadly reduced from the drama of their original employment. They are all that remains of the old steam pumper Alexandria, once the pride of the department, and to-day they do humble service on a couple of city dump carts.

The Alexandria was the first of the steam pumpres which in the seventies were purchased to supplement the old hand engine, and its power was well proven when in a contest between the original engine and the new City of Fredericton, which joined the department in 1875, the Alexandria outsquirted the new rival by shooting a jetof water over the steeple on Wilmot United Church. The Alexandria was stoked to capacity on that occasion, and kerosene was dumped into the fire box. It is related that 'with every stroke of the pump she bounced clear of the ground and while the fire burned at its full heat nobody could go within half a block of her."

The Alexandria answered the last call in 1905, was sold to a mill property, and later dismantled for the scrap heap. Only the wheels remain.

The City of Fredericton is still in use in Tusket, N.S.

Installation of the pumping station in 1884 marked a new era in fire fighting methods, and the pumper, both hand and steam, went into discard.

During the middle years of the last century, five handpumps, locally constructed, were in use in Fredericton. Before that period the bucket brigade did service, each house holder having a leather bucket. Some of these utensils are still to be found in the household of old families.

Urges Federal Gov't's Aid In Road Building

TORONTO, Ont., Feb 26 (C.P.)—Contending the Federal Government should contribute something towards the building of roads, President James Beattie, county clerk of Wellington, addressed the 29th annual meeting of the Ontario Good Roads Association meeting here.

"I am strongly of the opinion that the Federal Government should contribute something towards the building of roads, and that steps should be taken at this convention to appoint a strong delegation to interview the Dominion Government with a view to having Federal aid towards highways renewed," Mr. Beattie declared.

Necessity of taking further action to ensure safety on the highways was also stressed by the president, who deplored the loss of life now taking place.

No rancid oil in Chase & Sanborn's . . . this coffee is guaranteed fresh when you get it!

Rushed to your grocer . . . straight from our roasters, the delivery date plainly marked on every tin!

EVERY pound of coffee contains approximately a half cup of oil . . . When coffee is fresh the oil is as sweet and fragrant as fresh butter. But when the coffee gets stale this oil turns rancid, actually spoils, just as butter does. And this rancid, toxic oil, science now says, causes indigestion, headaches, sleeplessness.

How can you avoid this menace?

Chase & Sanborn's Coffee gives you absolute protection. It's rushed to your grocer straight from our roasters, every tin plainly marked with the date he receives it.

Chase & Sanborn inspectors regularly visit your grocer and inspect the dates. Any tin more than ten days old is immediately replaced with a fresh one. As a matter of fact, we seldom need to replace any, so frequent are deliveries and so carefully are your grocer's needs analyzed.

Protect your family from rancid coffee oil. Insist on Chase & Sanborn's . . . the quality blend that's guaranteed fresh. And look for the date when you buy! You'll find this coffee reasonably priced . . . no higher than ordinary packaged coffees.

HERE'S ONE PLACE where coffee gets staled! This photograph was taken in a Montreal grocery where the photographer purchased expensive coffee more than six months old. His affidavit is on file. High price is no assurance of freshness!

Guaranteed fresh Look for the date on every tin!

Half and one pound tins.

"Buy made in Canada goods"

STALE COFFEE IS DANGEROUS and a menace to health. Science says it contains rancid oil which keeps you awake, causes indigestion and headaches. Fresh coffee is the most delicious and refreshing of all drinks. A wholesome, mild stimulant provided by nature to make life brighter, better. But be sure the coffee you drink is *fresh!* Use Chase & Sanborn's.

CHASE & SANBORN'S COFFEE—Dated

C.G.E. Takes 7-3 Decision From Lakefield

ELECTRICS HAVE SLIM CHANCE OF ENTERING LOOP PLAY-OFFS

Double Win Over Cogs Will Enable Them to Meet Norwood in Qualifying Round.

SCORE IN FIRST.

	W.	L.	T.	Pts.	T.P.
Lakefield	5	3	4	14	9
Norwood	5	5	2	12	0
Cogs	4	4	2	10	2
C.G.E.	3	5	2	8	2

C.G.E. checked one in the win column at Lakefield last night with a score of 7-3, the first taste of victory Frank Barrie and his squad have had in weeks that have seemed like ages, and the spotlight of the East Peterborough League is now turned on the two remaining games between the Electricians and Cogs. The first game is billed for Friday night, and if Cogs win they will be tied with Norwood in second place. If C.G.E. win they have to go back at it again Monday night, and should they win both it means C.G.E. to meet Norwood in the qualifying round that decides Lakefield's opponent in the championship finals.

Last night's game was something of a "strange interlude" and some of its scenes are just as well forgotten, although nothing serious happened. The result actually meant nothing to Lakefield, for they have been sitting on top, filling out their schedule, but the fans didn't like the game a little bit. The very first goal irritated them. It was credited to Harold Epps, but some of the players and also fans behind the net declared with all positiveness of detail didn't cross the goal line. The umpire, however, waved his red flag, and Max Board, the referee, upheld him, saying that he had seen the puck hit the twine from in front, and also that he had rung his bell before the signalled. That incident peeved Lakefield, and affected the rest of the game. But against the background of petty outcroppings of temper as the periods passed there was one bright spot which seems worth mentioning. A rush by Tom Wood was called back by Max Board, and Wood picked up the puck and handed it to the referee. Possibly Mr. Wood has not been playing the game long enough to have learned that this little courtesy is never done, even if hockey is not an affair of "Alphonse and Gaston".

C.G.E. were at full strength, and their defense included Howe and Ellis of St. John's. Howe retired early in the first session with a split lip, but Ellis went most of the route, and some of his rushes were a feature of the Electricians' attacks.

The teams were as follows:

Lakefield—Goal, Junkin; defense, White and Wood; centre, L. Sabatino; right wing, Blewett; left wing, Stabler; subs, J. Sabatino, Wingett, Mahood and Wannamaker.

C.G.E.—Goal, Stan Jones; defense, Lackie and Howe; centre, H Epps; right wing Hatton; left wing, Creighton; subs, Ellis, Hayden, R. Epps and Williams.

Referee—Max Board.

Summary of game:

First Period.

1. C.G.E.—H. Epps, 5 mins.
2. C.G.E.—Hatton (H. Epps), 8 mins.

Second Period.

3. C.G.E.—Creighton, 50 secs.
4. C.G.E.—Creighton (Hatton), 2 mins.
5. Lakefield—L. Sabatino, 2 mins.
6. C.G.E.—Creighton, 3¼ mins.
7. C.G.E.—Hatton (Creighton), 10 mins.
8. Lakefield—L. Sabatino, 6 mins.

Third Period.

9. Lakefield—Stabler (L. Sabatino) 4 mins.
10. C.G.E.—Williams, 15 mins.

Although the Peterborough team got the only goals in the opening period they did not have a noticeable major share of the play. Epps counted the first one, the trouble-starter, after a C.G.E. rush had been halted, and action remained in the vicinity of the Lakefield net. Red Fanning was removed from the job of goal umpire and was replaced by Jimmie McMartin, who apparently was ultimately due for dismissal had not the Lakefield protest not been made to the referee with only fifteen seconds to go. But that's another story.

Junkin drew a penalty in this period. He had made a fine stop, and a moment later trippped Hayden as he was passing in front of the net. Board handed him a two-minute penalty, but Junkin said something to the referee and the two minutes were raised to five. Johnnie Sabatino dropped back into the net, and for part of those five minutes he had the busiest session since the last period at Markham. He stopped a couple, but Doug Hatton nicked him for a goal on a pass from Harold Epps. The pair waded in close, and Johnnie hadn't a chance.

Creighton started the second period with a prompt goal, and a minute later scored again on a pass from Hatton. Louie Sabatino collected one for Lakefield on a hard drive that Jones partly stopped. Creighton swung a long shot from beyond the blue line. The puck brushed White's leg on the way, and the slight change in its direction caught Junkin out of position as he had set himself for the shot. Stuffy Mahood and Wannamaker combined smartly and with no one to beat but the C.G.E. goal minder Wannamaker bounced the rubber against the end of the rink.

C.G.E. ran their string to six when Hatton took a long pass from Creighton and shot from the boards. Junkin apparently didn't try to stop it, and Lakefield objected that the pass was considerably offside. Louie Sabatino ended the session by clocking up Lakefield's second goal. The puck rolled in on Jones as he tried to block it.

Stabler's steady plugging was finally rewarded by a pretty goal. He took a pass from Louie Sabatino, and carried the puck through the defense. He was back again with another try, and on a rush with Blewett drove two shots at Jones. Tom Wood may get a goal before the season is over, but Lady Luck failed him badly last night. He had several promising chances, the best of them a lone rush all the way down, but the puck hit the goal post. Junkin made a great stop when Ray Epps banged one at him from a few feet out. White and Wannamaker got away together and penetrated the C.G.E. defense, but the shot was wasted over the net.

Mickey Williams wound up the scoring with a fast shot from the wing.

Harry Stabler was the pick of the Lakefield team on last night's showing, and when a cool head was needed Johnnie Sabatino was right on the spot, although he was content with most of the defense subbing. Wood and White assumed a big share of the work.

Hatton and Creighton were especially prominent for C.G.E. with Harold Epps also holding up the front line, while George Lackie turned in a good steady game on the rear guard.

To-night's Schedule.

(Canadian Press.)

National League.

Detroit at Montreal Canadiens.
New York Americans at Ottawa.
Toronto at New York Rangers.

International League.

Syracuse at Detroit.
Windsor at Pittsburgh.

Canadian-American League.

New Haven at Philadelphia.
Springfield at Boston.

American League.

Tulsa at Buffalo.
Kansas City at St. Louis.
Duluth at Minneapolis.

Pacific Coast League.

Seattle at Portland.

Ontario Hockey Association Play-offs.

Intermediate Series.

Stratford at Chatham.

Junior Series.

West Toronto at Oshawa.
Niagara Falls at Stratford.

THE RING.

Miami, Calif. — Mickey Walker, world middleweight champion, outpointed Johnny Risko, Cleveland (10; non-title; Gene Stanton, Cleveland, stopped Jeff Carroll, Biloxi, Miss., (2); George Pavelick, Cleveland, knocked out James Russell, Detroit (1).

Jersey City—Tony Canzoneri, world lightweight champion, stopped Tony Kaufman, New York (1), non-title.

Oakland, Cal.—Hans Birkie, Oakland, outpointed "Big Boy" Peterson, New Orleans (10).

Seattle, Wash. — Tony Portillo, Seattle, technically knocked out Buddy Washington, Pogatello, Ida., (2).

Italy appropriated nearly $75,000,000 for earthquake relief last year.

Italy expects a general revival of interest in American products this year.

RANGERS NEED LEAF VICTORY TO COP PLACE

Gothamites Only One Point in Van of Falcons in Race for Third Position.

SENATORS MAY UPSET.

Detroit and Canadiens Meet in Eastern Metropolis For Third Time.

(By George Maguire, Canadian Press Sports Writer)

TORONTO, Ont., 26. — Canadian squads have a chance to boost their winning percentage against their exile compatriots on United States teams tonight as the three game schedule of the National Hockey League consists entirely of International fixtures.

Detroit Falcons, who are trailing New York Rangers by one point for third place honors in the junior division, clash with Montreal Canadiens, fleet skating leaders of the northern section, in the headline attraction at the Forum.

The Habitants have a nine point lead over Toronto Maple Leafs and are not in any great need of victory, but in addition to their natural inclination to battle for every point the Montreal Red Devils have an old score to settle with the motor magnates. The teams have met on two previous occasions during the current schedule and strangely enough the Detroit representatives won both games.

Too Much For Fans

In the first game at the Motor City, Canadiens gracefully accepted a 3 to 2 defeat but when the Falcons skated right out on the Forum ice and plastered the speed marvels of the eastern metropolis with a 6 to 2 trouncing, it was more than Habitant supporters could bear and tonight they will be imploring their favorites to reverse that setback.

Toronto Maple Leafs, after handing New York Americans a setback by tieing them in Madison Square Garden on Tuesday, tackle the other Manhattan entrant, the Rangers. The latter, like their intra-city rivals, are battling for third place, but in this case the third rung in the United States group is the objective.

The Leafs have beaten the Rangers once and tied them once, but as they have already had two hard games in the last five days they may find the Gotham blue shirts a difficult obstacle to surmount. Art Duncan's gladiators hold a four point lead over the Amerks and have played two games less, whereas the Rangers are one point in the van of the Falcons and therefore are in a more desperate mood and must take more chances to attain victory than the Torontonians.

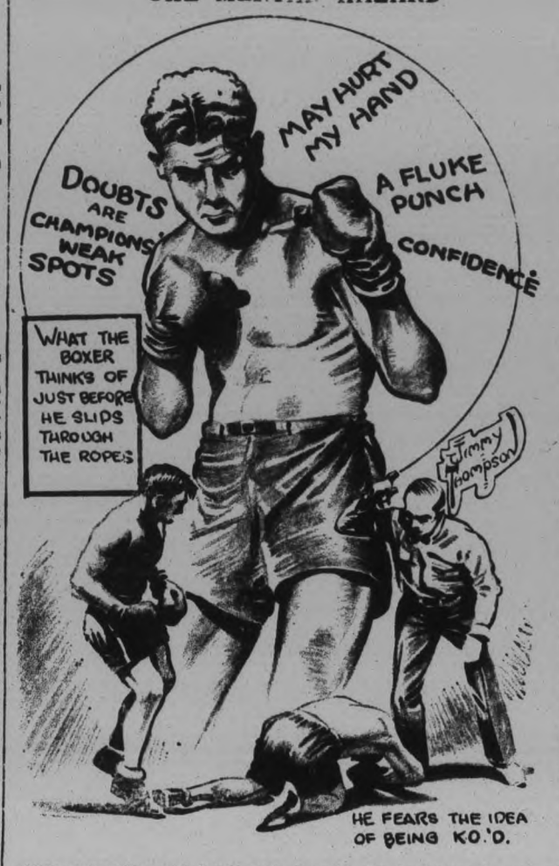
Ottawa Senators tackle Eddie Gerard's squad in the Canadian capital in the third tussle on the card and if they continue their recent fine performances may hand the Amerks a setback which might prove disastrous at this stage of the race and particularly so with Montreal Maroons closing on them.

The Americans have defeated the Senators three times out of four matches. The Ottawans won the first tilt of the season by the lone counter of the game.

SANDWICH TO APPEAL GAS RATE

WINSOR, Ont., February 25 (C.P.). — Sandwich Town and Sandwich West Township have decided to accept a proposal of the Windsor Gas Company for an increase of practically ten per cent. in gas rates. The average rate under the new scale is slightly over 70 cents per thousand cubic feet and there is an additional charge of 75 cents per month as a service charge.

THE MENTAL HAZARD



After conversation with boxers and trainers I have drawn up graphically the sensations of fear and confidence that pass through the minds of boxers generally the day before the big fight. While press accounts of the marvelous confidence each fighter has on the eve of the big event are broadcast in a general ballyhoo yet it is a fact that the fighter, be he champion or challenger, is too actively engaged in thinking not to be worried by trifles. Sleep generally deserts him. If he is the champion he imagines all sorts of things, he may hurt his hand, he may run into a fluke punch, etc., etc. At times he will fight off the doubt and imagine what he is going to do to the challenger. And after all the thoughts of the challenger will be the same. He will feel like calling his trainer, or his adviser, to go over the battle campaign but price may forbid and he will lie having his periods of elation and depression. It's a tough world and hard on the nerves.

WALKER SCORES DECISIVE WIN OVER JOHNNY RISKO

Middleweight Champion Gives Clevelander Convincing Pasting Despite Weieght Handicap.

STRIBLING IN EXHIBITION.

MIAMI, Fla., Feb. 26 (C.P.)—They may have to move over later, if not this year to make room for the smiling Irishman, Mickey Walker, in the big scramble for the world's heavyweight championship.

Less than six pounds over the limit for the middleweight class, in which he holds the world's title, Walker packed enough stamina and wallop in his 165½ pounds last night to hand a convincing pasting to 194-pound Johnny Risko of Cleveland, the dangerous but now somewhat battered reminder of the one-time spoiler of heavyweight ambitions.

In the first of the winter's twin fistic festivals under the Palms, Walker won the unanimous verdict of three Miami judges after ten slashing, bruising rounds of punch-tossing. Mickey was held to close to even terms for the first eight rounds, due to Johnny's bull-like charges and aggressive hammering, but the Irishman won the last two rounds by a wide margin to clinch a decisive victory. Risko was groggy in the ninth and tenth under Walker's vicious left hooks and right crosses to the chin.

The Associated Press score-sheet gave Mickey six rounds and Risko four.

In fine condition, Walker overcame big handicaps in weight and reach to demonstrate his ability to mix successfully in bigger company. Mickey is no longer the "toy bulldog.." a sobriquet he earned fully eight years ago when he was fighting his way to the welterweight championship. But he's a bigger and heavier edition of the same fighting brand.

There's not much chance of his figuring in the big program for 1931, however. Before Walker fought the main go last night, Max Schmeling, the German who was bequeathed the heavyweight title by boxing authorities and his United States challenger, "Young" Stribling, appeared in exhibitions. The winner of the Schmeling-Stribling bout, somewhere in June, is slated to defend the title against Primo Carnera.

The balmy weather, the moon and the customers were mostly conspicuous by their absence last evening, although the show, put on under the promotion of "Pa" Stribling was distinctly an artistic success. The box office check-up showed approximately 20,000 cash customers and gross gate receipts of $38,000. These figures were below expectations but sufficient, Stribling said, to show a profit. The Arena, built in boxing's boom times, was less than half full of fans who paid anywhere from $1 for a perch on the outer rim, to $10 for "patron press" chairs.

TEAMS ARE PRIMED FOR CRUCIAL TILT

Madoc and Stirling Meet Friday in First Game of T.V.L. Play-offs.

BELLEVILLE, Feb. 26.—Following the success which attended the efforts of those behind the Trent Valley League play-offs here last year the officers decided to stage the championship finals at the Belleville Arena again this year.

Manager Bill Whitty of Stirling will send his strongest team over the boards on Friday night in the first game while Father Meagher of Madoc has his proteges working at top speed. Don Morton, the local junior goaler, minds the nets for Stirling while Davis, another well-known local player, plays centre. Several new faces will be seen this year on the Stirling team including the Little Brothers of Oshawa, and Beatty of Owen Sound. "Hap" Day, a Belleville product, also plays with the Stirling team.

Madoc is led by McGuire, Andrews and L'Heureux, three players from Port Arthur, and all are good hockeyists. It is not known whether Barkey will play but it is believed that his injuries will keep him out of the game. Special trains will be run from Stirling and Madoc.

HOCKEY MOGULS MAY TAKE OVER BASEBALL CLUB

Owners of Les Canadiens Plan Adding "Royals" to Their Holdings.

MAY CHANGE NAME.

(By Leonard L. Knott)
(Special to The Examiner, Copyright 1931).

MONTREAL, Feb. 26.—When the International Baseball League gets under way next summer the Montreal Royals may have disappeared and their place be taken by Les Canadiens, a team named after the world's champion professional hockey team.

Professional baseball in this city has enjoyed only lukewarm success since Montreal re-entered the International League two years ago. This was in some measure at least due to the fact that not even the most ardent Royals supporters believed at the opening of the season last year that the club had even an outside chance of copping the pennant Consequently the stands at the ball stadium were seldom very thickly populated.

This year, however, prospects look a little brighter. Early reports indicate that three new pitchers are being secured, and that this department, lamentably weak last year, will be considerably strengthened. And now word that Canadiens have stepped into the picture has cheered the supporters and promises in addition a strong following from the "Millionaires" that fiery group of rabid Canadien fans that fills the Forum rink every time the Habitants play a home game.

Rumors of the impending sale of the ball club were flying thick and fast early this month. Cattaranich, reached by telephone in New Orleans, would neither deny nor affirm it. Ernest Savard, treasurer of the ball club, made a half-hearted denial, but now, I am informed by a reliable baseball authority who is leaving soon for the Royal's spring training camp that the deal is already completed and that before next fall the hockey club will own the ball team outright.

A general shakeup on the ball team is expected under the new management. The change in name, it is understood, is being considered and efforts may be made to give the team a Habitant touch by securing players with the right kind of names to appeal to French Canadian fans. This, however, will not prove so easy a task, as the Habitants have not proved as capable baseball players as they have hockey stars. At any rate, fans here are satisfied that with Dandurand in charge, supporters will be given their money's worth and the team might even be right in at the finish.

GRANITE WINS TANKARD FINAL

Peterborough Rinks Lose Out By 2 Shots With Totals of 27 Against 25.

AWARD PRIZES.

TORONTO, Feb. 26. — The final games of the Ontario Ladies' Tankard were played at the Granite Club yesterday afternoon between Granite Club and Peterborough, the former winning by two shots. Rinks, and scores were:

Granites		Peterborough	
Mrs. Medland		Mrs. Clark	
Mrs. Grantham		Miss Munroe	
Mrs. McWilliams		Miss Fanning	
Mrs. Agar, sk.	16	Mrs. Oke, sk.	10
Mrs. Lindsay		Mrs. Turner	
Mrs. Kearns		Mrs. Comstock	
Mrs. Pepall		Mrs. DeGrow	
Mrs. Bulley, sk.	11	Mrs. Hill, sk.	15
Total	27	Total	25

John Rennie was unmpire of the games and afterward presented the prizes in the sports lounge. The winners were recipients of miniature cups and the runners-up were presented with leather purses.

The consolation games will be played this morning at ten o'clock. In yesterday's game the Oakwood Club defeated Thornhill. Oakwood will meet Toronto Victorias in the final to-day.

'QUAKE FELT NEAR CAPETOWN

CAPETOWN, Union of South Africa, Feb. 26 (A.P.).—An earthquake of considerable force was experienced at 10 p.m., Wednesday in the cotton growing area north of Rusenburg. The vibration was described as like the passing of a heavy train. Telephonic communication with the area was interrupted. There were no casualties and no damage was reported.

Horsehair upholstery is becoming very popular in Germany.

Fishermen of Sweden will construct a co-operative fish-meal factory.

The city of Paris will construct 17,000 low-rental apartments this year.

RACE NARROWS ONTARIO LOOP

One Point Separates First Five Teams in League Title Flight.

TWO IN FIRST PLACE.

TORONTO, Ont., Feb. 26. (CP)—Only one point now separates the first five teams in the Ontario Hockey League. Three matches were played last night and the results only served to make the final dash for the inaugural championship even more open than formerly.

Kitchener and Stratford maintained their frail hold on the top perch, by playing 70 minutes 3-all stalemate at Kitchener. The latter team enjoyed a two goal lead entering the final frame but their decision to drop back to defensive tactics enabled the Nationals to reorganize their attack and score a brace of goals to knot the count.

Galt Terriers re-entered the first flight picture when they smacked the lowly Oshawa Pats for a 7 to 4 count. The Terriers rapped in six counters during the first two periods before allowing the Pats a single marker. The winners are now tied with Nationals and Silverwoods for the leading berth.

Niagara Falls drew abreast of Guelph Maple Leafs by defeating the latter, 5 to 3 after 10 minutes overtime. The teams are now tied for second place, one point behind the leaders.

ROYAL BANK TROPHY AWARDED WINNER

Jolly Banquet Follows Final Scheduled Games of Norwood Curling Club.

NORWOOD, February 26 (Examiner Correspondence). — Following the final scheduled games of the Norwood Curling Club which were run off recently, a banquet was held in the rink gallery with over fifty members present. Before the addresses and presentations were made the president, Mr. Lawlor, made a brief reference to the loss sustained by the club in the death of J. E. Roxborough, and all the members stood in silence with bowed heads as a mark of respect.

The Royal Bank Cup was then presented to the winning rink by J. R. McKelvie and responded to by W. Beckett. Two surprise presentations were made, the club president, C. P. Pearce, receiving a splendid curling sweater coat. The most enthusiastic curler of the club, who has given a great deal of time to the care of the ice, Nelson Wellman, was presented with a handsome gold watch, suitably engraved. Addresses were made by the president, Mr. Lawlor, R. F. Kempt, Reeve W. H. Montgomery, Mr. McDermott, P. M. Grover, J. Rork, Dr. Sutton, E. R. Armstrong, A. Kempt, D. B. Cutcliffe, and James Baskin.

BULLDOGS BESET BY BERTH CONTENDERS

Windsor Journeys to Pittsburg To-night For Clash With Yellow Jackets.

TORONTO, Ont., Feb. 26. (CP)—After losing a hard fought game on home ice on Tuesday Windsor Bulldogs to-night must journey to Pittsburgh to clash with the Yellow Jackets in the feature game on to-night's International hockey league program.

After enjoying a comfortable lead for some weeks in their second place berth the Bulldogs now find themselves beset on all sides by smart playing teams quite willing to oust the Border City squad from their coveted place.

A victory for the Yellow Jackets will place them in third position, only one point behind the Windsorites and the same margin in front of London and Cleveland. Should the Bulldogs win, however, they will increase their lead to two games while the Smoky City entrants will remain just outside of the dividend paying section.

The two tail-enders, Syracuse Stars and Detroit Olympics meet in the other scheduled fixture. Both teams are out of the running and little import attaches to the tussle.

ADVERTISE IN THE EXAMINER

PHIL EDWARDS RETAINS MARK

Only Canadian on National A.A.U. Card One of Two Runners to Hold Mark.

NEW RECORDS SET.

NEW YORK, Feb. 26.—(C.P.) — Phil Edwards, long-legged negro runner from the Hamilton, Ont., Olympic Club, to-day retained his 600 yard National A.A.U. title as a result of last night's indoor track and field championships.

Edwards, the only Canadian on the card running a magnificent race, came in ahead of Sera Martin, world's 800 metre champion from France, and was one of the only two runners to retain track titles at the meet. Hans Assert, of New York, who won the two mile steeplechase, was the other.

Two new world records were chalked up before the evening was over.

Percy Beard, a long striding youngster from Alabama; clipped one-fifth of a second off the existing worlds record for the 70-year high hurdles, when he beat Lee Sentman of University of Illinois, co-holder of the record in the dizzy time of :08 5/10. The University of Pennsylvania relay team, with the diminutive Carl Coan running the anchor lap, slashed five and one-fifth seconds off the eight year old record in the one and seven-eighths medley relay to defeat Bates College in 7:30 2/10. The old record was hung up by a quartet from the Illinois Athletic Club.

DUNSFORD CARNIVAL INTERESTING EVENT

Rink is Gay Scene as Costumed Merry-makers Glide About.

DUNSFORD, Feb. 26 (Examiner Correspondence).—The ice carnival was held in the rink on Monday night February 23. A large crowd attended to make the evening a success. The ice was good and a number were in costume.

The judges were Misses Louise Wilson, Lindsay, Cora King, and Mr. Albert Donley of Whitby. The prizes were awarded as follows:

Best dressed lady, Miss Mildred Elliott representing St. Patrick; best dressed gent, Mr. Hubert Elliott; comic dressed lady, Miss Agnes Kettle, old time costume; best dressed school girl, Isabella Thurston, representing St. Patrick; best dressed schoolboy, Frank Thurston, a cowboy; comic dressed schoolgirl, Ella Kennedy, Aunt Jemima; best dressed couple, Mr. Hubert Elliott and Miss Idena James. Men's race, 8 rounds, Vince Junkin; boys' race, 5 rounds, Martin Kennedy; girls' race, 3 rounds, Eleanor Thurston; men's keg race, Eddie Thurston; boys' keg race, George Tully.

Keene Sextet Defeats Grant and Thorpe 10-4

KEENE, Feb. 26 (Examiner Correspondence).—On Tuesday night the Grant and Thorpe hockey team came from Peterborough to play the Keene team, the latter winning by a score of 10 to 4.

The following are the line-ups:

Grant and Thorpe. — Reid, goal; Callan and Miller, defense;; Heal, centre; Robertson, r. wing; Davis, l. wing; Leonard, sub.

Keene.—A. Nelson, goal; A. Shearer and I. Fletcher, defense; O. McCarthy, centre; Art Shearer, r wing; Logan Bowie, l. wing; J. McCarthy, J. McIntyre, V. Spiers, subs.

Referee—G. Jay.

Curling

Two rinks came from Millbrook on Tuesday afternoon for a friendly game with the local curlers. The following are the results:—

Millbrook:	Keene:
E. M. Challice	J. Manley
W.G.Hetherington	G. S. Taylor
J. E. Allen	E. Doris
J. Steele	C. Nelson
Skip..... 5	Skip..... 7
W. White	W. Nelson
Joe Lancashire	P. A. Easton
H. Collins	R. Nelson
W. A. Ball	J. Drummond
Skip.....10	Skip..... 3

Old tickets destroyed by one railway in England last year weighed 167 tons.

COMING SATURDAY "THE BIG TRAIL"

FOSTERS' BANTAMS SQUEEZE OUT 4-3 VICTORY OVER "A" IN FIRST GAME OF PLAY-OFF

One-goal Margins Feature Final Tilts of South End League.

FEW PENALTIES.

Canucks Combine to Beat Stars 2-1 While Tigers Shut-out Juveniles 1-0.

One-goal margins featured the three opening play-off games in the South End City League last night at the Brock Street rink. None of the winning teams could carry away a substantial lead for the final games of the round next week. The ice was good to start with but was pretty well cut up at the end of the last game. A fair-sized crowd were kept on their toes constantly with the speedy action seen in each battle.

Only twelve penalties were handed out for the three games although the boys from the south end were inclined to mix things up at times.

Fosters' bantams managed to squeeze out a 4-3 win over the Athletics in the curtain-raiser. They had to come from behind to do it, and they had to hold off a hard Athletic spurt in the final frame to keep the one-goal advantage. The A's took the aggressive in the first period and soon countered twice, Stinson and Robertson netting the puck. Toward the end, Houlihan got one of them back on clever work. The middle chapter found the winners hitting their stride scoring two and holding their opponents out. O'Lary and Houlihan got the goals. The third go was even to start with, Houlihan neting one early in the frame. Then Athletics began to work and they threatened continuously. Jobe finally blazed a long shot past the goalie. They were going hard and keeping the winners on their toes at the final bell.

Both goalies stopped plenty, while Stinson and Vitarelli of the losers, and Houlihan and O'Leary for Fosters played great hockey. All the other players worked well too, and kept the fast pace up from beginning to end.

The teams:

Athletics: Goal, Clark; right defence, Jobe; left defense, McGovern; centre, Vitarelli; right wing, Mowry; left wing, Robertson; alternates, Stinson and Martin.

Fosters: Goal Grainger; right defense, Peters; left defense, LeSurf; centre Houlihan; right wing, O'Leary; left wing, Coughlin; alternates, Brady and Ellis.

Referee—"Scotty" Maudsley.

Defeat Stars 2—1

The junior battle was a thriller and lightning fast with plenty of slashing and boarding. Canucks combined better and skated off victorious by 2 to 1, over the Stars. The game was marked by poor shooting by both outfits and by plenty of hard spills as the boys hit the defense line.

The first frame opened fast and both goalies had to save quickly. It was up and down for a space, and then O'Toole snared the disc from a scramble around the net and shot it in to put Canucks one up. The ice was pretty sticky in the second, and the players were working individually most of the rushes. Before the session was very old, Hope balanced the count on a long shot. Several near fights cropped up as the going became harder in this stanza, but four of the players cooled their heels in the "clink" and the struggle went on. The home stretch saw the squads hitting the high spots again and fans kept up a steady roar as both goalies had to come out time and again to save. Half-way through, O'Toole and Post went in fast to fool the Star's defense, and Post caged the winning goal. The play was fast and rough from then on, but Canucks managed to hold their margin.

For the Stars, Hope, Tranter and Cotton all looked good, with Pierson and Mowry playing a nice defensive game. There wasn't an outstanding player on the winner's lineup, every man, from the goalie out, going great.

The teams:

Stars.—Goal, B. Pierson; right defence, Mowry; left defense, Hope; centre, Tranter; right wing, Cotton; left wing, R. Pierson; alternates, Fisher, Frost, McWilliams and Padgett.

Canucks.—Goal, Collins; right defense, Lazure; left defense, LeSurf; centre, Post; right wing, Heffernan; left wing, O'Toole; alternates, O'Brien, Jones, J. Collins and Hatton.

Referee—"Scotty" Maudsley.

Blank Canucks 1—0

Tigers shut out Canucks 1—0 in the juvenile contest, and the game was as tight as the score indicates. The winners teamed up better and skated faster, but Canucks checked hard and doggedly, while their lone thrusts and hard shots were always dangerous.

Neither crew countered in the first. Tigers threatened often and Fleming in Canucks' citadel had to stop twice as many as the other goalie. Watson scored the only goal early in the centre canto and the play was back and forth at a good clip the rest of the frame. Considerable tripping and slashing featured the period with each team drawing two penalties. The last session was again scoreless, but there were plenty of hard shots. McCarrol had to come out twice to break up a Canuck threat. Play was pretty even and not so fast, but marked by persistent backchecking which kept the Tigers worried when the game ended. All the Canucks went good, and the forward line of the Tigers shone particularly.

Canucks.—Goal, Fleming; right defense, Lefavre; left defense, Hallahan; centre, Delpellaro; right wing, Hill; left wing, Shaughnessy; alternates, Cairns, Collins, Wells and McCarthy.

Tigers.—Goal, McCarrol; right defense, Weir; left defense, Gibson; centre, Watson; right wing, Fields; left wing, Cournyea; alternates, Boyler and Kingdon.

Referee.—"Gamey" Jarvis.

Lott and Van Ryan Face Stern Opposition To-day

MIAMI BEACH, Fla., Feb. 26. — (C.P.)— George Lott, Chicago, and John Van Ryn, East Orange, N.J., seeded players in the Pan-American tennis championship, faced stern opposition in their quarter-final round of singles play to-day.

Lott was paired with Marcel Rainville, Montreal, while Van Ryn was bracketed with Carroll Turner, Miami. The Chicagoan had little difficulty turning back Oscar Evans, Miami, 6-3, 6-0 yesterday, but Van Ryn ran into stiffer opposition from Gus Feuer, Miami. Van Ryn won 6-1, 2-6, 6-2.

HOCKEY HISTORY MADE IN FIRST FIXTURE OF C.G.E. SHOP PLAY-OFFS

First Time Runner-up Has Defeated Senior Team in Any Final Game.

HARD-FOUGHT ARGUMENT.

Brilliant Goal-minding By Hope and Smart Combination Accounts For Win.

History was made at the Brock Street Arena last night in the first game of the finals for the championship of the C.G.E. Interdepartment Hockey League, when the Switchgear Department trimmed the Office No 1 team 2-1, in a fast, exciting battle. This being the first time in the history of the league that the runner-up team has been able to defeat the senior outfit in any game of the finals.

The game was a snappy, hard-fought argument, replete with clever hockey from gong to gong, the winning goal being scored when the game had but two minutes to go, so evenly matched were the teams. Brilliant goal-minding by Hope in the Switchgear net and well-timed combination plays by his team-mates were the major factors in deciding the argument in favor of the Switchbuilders. The Office players, on the other hand, resorted almost entirely to solo tactics on their attacks, Williams on defence being a dangerous player throughout the whole of the game, although he failed to pass the rubber on most occasions.

Hold Office Crew.

The Switchgear crew started out in the first period to sew up the decision and by a continual barrage of three-man attacks succeeded in bottling the Pen-Pushers up inside of their own blue line during the greater part of the period. Miller in the net for the Office smothered shots from all angles and distances, but the attackers finally pierced his guard after nine minutes of playing, when Paggett scored on a pass from Whatley.

The Office started the second session by throwing four men into the attack in a strenuous effort to tie the score, but despite their efforts Hope remained impregnable, flashing a goal-tending performance that was fairly remarkable. Eddie Williams defence man for the Office, taxed Hope to his utmost time and again with bullet-like knee-high drives. Tuck and Playford also starred on the Office forward line. Meanwhile the Switchgear team were performing like a well-oiled machine, each player playing effective hockey, both on the attack and on defence. Miller, stalwart Office defence man, drew the only penalty of the game in this period for illegal bodying.

Evenly Contested.

The third session was very evenly contested, although vigorous backchecking by Paggett, Heal and Routley on the Switchgear forward line played havoc with a great many of the Office attacks. The Pen-Pushers secured the tying goal in the middle of this stanza, when Williams took a pass from Daniels and beat Hope from close in. Whatley and Cordery proved a redoubtable pair on defence for the Switch-builders, and both handed out the jolts rather liberally. The pace in the final minutes of the battle was a torrid one, with Gray, Tuck and Williams pressing for the Office. Routley, however, sunk the deciding tally, with only two minutes to go from a scramble near the Office citadel.

The teams:

Office—Goal, Tommy Miller; defence, Williams and K. Miller; centre, Tuck; wings, Playford and Gray; sub., Daniels.

Switchgear Dept.—Goal Jack Hope; defence, Cordery and Whatley; centre Heal; wings, Paggett and Maudsley; alternates, Cadd and Routley.

Penalties—K. Miller.

Referee—"Ted" Lebarr.

Summary.

First period—
Switchgear—Paggett (Whatley) 9.00

Second period—
No score.

Third period—
Office—Williams (Daniels), 9.00.
Switchgear—Routley, 4.00.

Junior Double Bill Slated For To-Night

A Junior City League double-header is schednuled for to-night at the Brock Street Rink. At 7.15, C.G.E Office and the Star Athletic Club take the ice; and at 8.30, Seahorses and Choate's Hardware battle it out.

The Sea-horses have not dropped a game so far, and the Stars lost their first one last week. With Jimmie Ellis on the latter team's lineup to-night, it should be a battle royal. Choates' team has won all their games to date and hope to take C. G. E. also. The Electrics have strengthened the squad and will make it a fight.

Fast ice is promised for the two contests, and there should be a big turnout of spectators, as the boys play first-class hockey.

If you buy out of town, and I buy out of town, and all our neighbors buy out of town, what in thunder will become of our town? Ever think about it?

Bowling Alley Gossip

By Pin Boy

The City League Ten Pin loop, which started the second half this week, is developing into one of the hardest-hitting series on the alleys and with most of the old-timers beginning to hit their stride in good style, each succeeding week brings better results.

Leo Martyn's Lucky Strikes shook the jinx which has been haunting them during the last month and came through with an 8-point victory in the latest games over the Greenhorns, who are one of the weakest teams in the league, but even with a good handicap were 392 pins behind in pinnage. For the latter outfit V. Shaughnessy and A. Bogie split the honors for high three, while A. Lister retained his reputation with three characteristic singles. Martyn with 537 and Firth 507 led the Lucky Strikes also having singles of 214 and 213 respectively.

The Jokes slipped the Brinton the small end of a 6-2 decision after a nip and tuck battle, the winners having the small margin of 85 pins in the total count. Bert Duffus, the chief point collector for the Jokes hittin 148-183-201 for a triple of 532 which was high in this duel. Anderson and Chamberlain both well under 500 were high for the Carpet-Makers.

The Bowlrites, league leaders in the first half of the schedule, maintained their winning stride by downing the Has Beens 8 to nothing The winners spilled 2620 pins, the highest total of the night, while Tommy Holyman, high single record holder, raised the record from 230 to 249, and also made 622 in three games. G. Farnell turned in a nice sheet to collect 570 pins, which included a 214 single. Ab Delahaye's triple of 517 was high for the Has-Beens.

The Rubes took a 6-2 verdict from the De Laval in a very close contest, there being only 13 pins difference in the pinnage totals. The Separator crew bowled consistently but triples of 545 and 537 by Dave Grant and Playford turned the tables in favor of the Rubes.

Manufacturer's League.

The Sealrights had little difficulty in winning everything this week when they hooked up with the Merchants Press and fairly deluged the latter under a barrage of strikes and spares to pile up a winning margin of 500 pins on the total. Copping with a triple of 678 was the only player on the losing team to have a high score.

Sealrights:

James	183	238	178—599
Martin	207	250	181—638
Cox	129	228	293—650
Ellison	297	203	271—771
Lewis	265	151	246—662

REGINA HOCKEY CLUBS AIMING AT ALLAN CUP

Western Teams Expect Big Things of Victorias and Aces.

SPEEDY LINE-UPS.

REGINA Sask., Feb. 26. (Special to The Examiner; Copyright 1931)— Devoid of a Canadian senior amateur hockey championship since 1914 when the Vics in their maiden season brought the Allan cup to Saskatchewan for its first and only sojourn in the province, Regina fans are expecting bigger and better things this winter from their local puck propellers than in many years past.

Their talent and their sentiments split up evenly into two well matched camps, the railbirds are following with keen speculation the campaigning of the Vics and the Aces in Southern Saskatchewan's "Big Six" league, believing that either club will be a worthy representative of the province if successful in hitting the Allan cup trail.

And Regina fans sorely want another peek at the battle-scarred mug, despite the fact that three times since 1925 they have had the Memorial tankard for junior hockey supremacy plant in their midst.

The Vics at present are blazing the trail in the "Big Six" with Weyburn, Yorkton and the Aces in close attendance, and Melville and Moose Jaw out of the running. The three high teams will engage in playoffs for the right to meet the north in the provincial finals.

Many Stars Here

Coached by "Puss" Traub, former Regina, Portland and Detroit professional defence player, the Vics' line-up includes Herbert Davidson, centre, who performed with the local team in the Allan cup finals several years ago against the Toronto Granites. "Davy" is the veteran of the squad. Other members are: Johnny Clark, goal and Norm Malloy forward two former Winnipeg boys; "Hop" Shaw and Len Dovle, forwards, members of the Regina Memorial cup team of 1926; Bill Con and Jack Lockhart, defence, who hail respectively from Yorkton and Port Arthur; Arlo Arneson and Hec Blair, recent arrivals from Moose Jaw and Indian Head and Russ Greason and Bill Gilhooly, two former junior players of this city. Wes Champ is president of the club and Hilt Hefferman is secretary.

Three of last winter's Pats, Memorial cup winners, are performing in great style for Regina's other senior team, the Aces. They are forwards, and all local products—Yates Acaster, Joe Dutkowski and Len Rae. The first two named are younger brothers of professional players, namely Syl Acaster, St. Lou's Flyers, and Duke Dutkowski Chicago Black Hawks. Similarly, "Josh" March, forward is a brother of Harold of the Hawks. Ab Holt, a Memorial cup players of 1928, Clarence Mahon and Art Sihvon are the other forwards, while Jack Gilhooly and Harvey Dodge are the defence in front of "Sandy" Saunderson, former Weyburn custodian. The "Pack" are nearly all dyed-in-the-wool Reginans.

Thrice have the Vics and Aces tangled in the "Big Six" schedule, and the honors have been even, each club having registered a victory, and the third contest having ended in a tie.

ROOM FOR FURTHER EXPERIMENTS ALL ALONG THE ATHLETIC FRONT

Changing Implements of Sports Will Lead to Greater Competition.

NEW GOLF AND BASEBALL.

(By John Keiran.)

NEW YORK, Feb. 26.— The new larger and lighter golf ball is now in regular use on the links. It is expected to decrease the total amount of suffering, misery and anguish connected with the playing of the royal and ancient game. A veteran sportsman uggests that other sports might be improved in a like mannar. The baseball magnates have already taken steps along these lines. There is room for experimenting all along the athletic front.

How about a larger and livelier football? Experts say that punting and drop-kicking have fallen off horribly in recent years. The heroes of an earlier day, according to legends, were drop-kicking from astonishing distances and at bewildering angles. They were punting the pigskin from town to town.

A 60-yard punt these days is either an accident or an exaggeration. All sorts of efforts have been made to encourage kicking in the modern game, but the easiest way to improve it would be to toss in a livelier football. A parlor athlete could throw a sofa pillow as far as some punts travel these days. Something should be done about it.

On the Court

The tennis ball is lively enough. Perhaps it's too lively. A player gets discouraged when he is standing in one corner of the court and the ball whizzes into the other corner before he can get started toward it. Let them try tennis with a larger and less lively ball, something on the order of a small ballon.

As things stand now, only lank and agile chaps have a chance on the tennis court. That alone cuts off a large section of the population from any chance of success at tennis on clay or turf. The lively ball in tennis is really class legislation. It might challenge on constitutional grounds. Put in the ballon ball and give the fat boys a chance. They need the excerise.

It shouldn't be difficult to get a new ball introduced in tennis because there is no standard ball that is recognized all over the world. One ball is standard in this country; another is standard in the British Isles; still another is standard in France. The stout fellows should get together and start a campaign to make the ballon ball standard in all civilized countries.

Take roque. The addicts insist that it is a highly scientific pastime. It may be. But how much better it would be if they used a ball as lively as a billiard ball, for instance. Instead of the straight tap with the mallet now in use, the players could put English on the ball and make bewildering shots. They could hit it "high" and make it "follow." They could hit it low and make it "draw" backward through a wicket.

They could use a masse shot, starting with an overhand swing like a man driving stakes into the ground. The ball, if correctly hit, would skid backward, slide around in a cute curve through the wicket, and come back to the starting point if desirable.

A three-cushion game could be devised at roque if hitting an opponent or darting through the wickets became too easy with an ivory roque ball. The game is wide open for improvement.

Billiards might be improved in the opposite direction. Let them use a dead ball, something like a baseball or a cricket ball. The cue-wielders became so expert that, as the game grew up, balkline barriers were introduced to keep a fellow like Willie Hoppe from holding the table all night. They could have hampered the players just as easily by using spheres made of some less resilient substance than ivory; solid leather, Vermont marble or Pittsburgh case-hardened steel.

In Other Fields

If chess players will pardon the outrage; chess is a dead game. The players sit in silence and stare at the board. They move about as rapidly as a decrepit glacier.

It does seem that this game could be livened up one way or another. Since there seems no hope of livening up the players the only possible chance is in livening up the pieces on the board Perhaps the castles could be put on wheels, with self-starters, or pawns could be fashioned out of Mexican jumping beans. But this is a very difficult field and only Herr Einstein is competent to make suggestions toward the solution of such an intricate problem as livening up a chess game.

There isn't much scoring in hockey. Up in Canada there was a recent experiment in widening the goal, but the score of the game in which the wider goal was used was 2—1, indicating no great shower of scoring because of the wider target. Evidently the solution doesn't lie that way. Well, they might try playing hockey with a golf ball. That would make it lively enough for all hands and, if the skaters could keep up with the ball, the score could be kept on an adding machine. But with a golf ball in play somebody would have to watch the goalie. After the first assault the goalie would probably be found behind the net instead of in front of it.

In the Ring

The game of "barnyard golf" or pitching horseshoes seems beyond hope. A lively horseshoe is not practical. But the mention of horseshoes brings up another sport, the pastime that for some strange reason was dubbed "the Manly Art of Self-Defence."

Old-timers say that there is no improvement in boxing. On the contrary, they state with emphasis that the modern fighters are much inferior to the warriors of an earlier day. It may be so. There is no need to go into it with a more important point up for discussion.

If the boxers do not improve, perhaps the boxing gloves can be improved. The pugilists now cuff, slap, clinch and wrestle through dull programs. Rarely is a fighter rocked to sleep in the ring by the rousing punch of an opponent. If there is any sleeping, it is in the ringside seats. The boxing gloves, as now worn, seem to have lost their sting.

That brings the discussion around to the subject of horseshoes again. Just one little horseshoe to a glove and the good old days would be back again! This modest suggestion is offered for calm consideration and unanimous approval.

BLAST KILLS FIVE.

SANTO DOMINGO, Dominican Republic, Febrcary 25 (C.P.). — Five persons were killed and twenty injured, a number seriously, in an explosion at the Ozama Distillery in the suburb of Villa Duarte to-day. The damage was estimated at $100,000.

DE LAVAL OUTSCORES GRAFTON TEAM 41-18

Good Combination and Stellar Checking Accounts for Dairymen.

The De Laval basketball team handed out a bad trimming to the Grafton quintet in a snappy game last evening, 41—18. De Laval played their usual fast game with good combination and passing. They did some fatal checking, and were often able to catch a Grafton ball on the rebound, thus tallying another few points. Graftons were plucky enough, but they often checked each other, thus providing a double-check in their opponents' favor. However, they fought for every one of their points.

The best player for the De Laval team was Sturgeon, who made 23 points. Routly scored 10, and Levine 8. Although Smith did not start scoring until the second period, he made the most points for Graftons—5. Rhodes, Dundas and Taylor scored two baskets apiece.

De Laval.—Sturgeon and Routly, forwards; Levine, centre; Palmer and Cooper, guards.

Graftons.—Rhodes and Shaw, forwards; Dundas, centre; Taylor and Smith, guards; Williams, sub.

Referee—Greenlaw and Swartz.

FIVE SENIOR SEXTETS REMAIN IN RUNNING FOR CHAMPIONSHIPS

Tigers, Marlboros and Port Colborne Hold Allan Cup Dreams Unshattered.

BELLEVILLE AT WINDSOR.

TORONTO, Ont., February 26 (C. P.). — Five senior and six junior Ontario teams to-day remain on the tortuous trail to Provincial and Dominion hockey honors.

Splendid squads in both series have tasted the bitter dregs of defeat in the past few days and hung up their war rags until the next season rolls around.

Hamilton Tigers, present Ontario Hockey Association champions, Toronto Marlboros, and Port Colborne, have not yet had their Allan Cup aspirations or dreams of a trip to the 1932 winter Olympiad shattered. On Saturday Port Colborne and Marlboros will clash in their third match to decide who shall meet the Tigers in the Senior A series final. The first tilt ended in a goalless tie and the second in a one-all stalemate.

Windsor Mic Mac, and Belleville meet at the Border City on Saturday in the second of their home-and-home series for the Senior B title, and the winner qualifies to meet the Senior A titleholders. The first tussle ended in a 2-all tie.

Owen Sound, West Toronto, Niagara Falls, Stratford, Newmarket, and Oshawa are the teams fighting it out for the O.H.A. junior title, and the right to continue in the Memorial Cup playdowns.

Newmarket sprang a surprise last night by nosing out Owen Sound, 1 to 0, in the first of their two-game series.

Jamaica's first sugar factory has just been opened.

GOOD USED CARS

OLDSMOBILE—1929 sedan; excellent condition. Must be seen to be appreciated.

OLDSMOBILE 1929 Sport roadster; six wire wheels; positively the best used car in town.

OLDSMOBILE 1928 Coupe; new tires and excellent condition throughout.

OLDSMOBILE 1928 Coupe with rumble seat; new paint and an excellent buy.

A Partial List of Other Reconditioned Cars

Oldsmobile 1927 Sedan; Oakland 1927 Coach; Buick 1927 Coach.

SPECIAL STAR COUPE. Good paint, motor, etc. A real buy $175

SPECIAL OLDS COACH — Good roomy, sturdy car, motor overhauled $175

DISTRICT NOTES

By Examiner Correspondents

CAVAN

Mrs. I. Keegan returned to Lindsay on Friday evening, where she is spending the winter with her sister, Mrs. J. Coulter, after a ten days' visit with friends in Cavan.

Mrs. Will White and small son Billy, of Port Hope, are visiting her parents, Mr. and Mrs. N. Lamb.

Mr. James Paul intends holding a sale of farm implements and stock on Wednesday, March 4.

Mr. Paul intends living on his farm but is having the land worked on shares. He has been re-appointed assessor for Cavan.

Mr. and Mrs. A. Miller and baby June, recently visited her parents, Mr. and Mrs. R. Matchett.

The many friends of Mr. Donald Tinney will be sorry to know that he has been ill.

The Young People's Society will hold its weekly meeting next Wednesday evening.

The Missionary and Devotional committee will have charge of the session.

Many farmers and poultry raisers are having, or have had, their flocks blood tested in anticipation of the hatching season.

More and more attention is being given to poultry on the farms, where in many cases they constitute a paying side line.

Where chickens are raised in hundreds, great care must be taken to have conditions sanitary, and to have the chickens hatched from eggs gotten from a flock free from disease.

In order to have their own eggs hatched or sell them to hatcheries, many Cavan farmers have this season had their flocks blood tested. Among these were, R. S. Staples who received a one hundred per cent clean health sheet for his flock. There were no reactions to the test.

FENELLA

Mr. and Mrs. Vernon Brenton entertained a number of their friends at cards and dancing on Friday evening, when A. Crowe and son Douglas and Floyd Murphy supplied music for dancing. Among those from a distance present were J. Copeland, of Harwood; Miss Chrisse Waldie, of Grafton; Mrs. Ray Eagleson, of Coldsprings and Mrs. William Isaac, of Castleton.

The many friends of Mrs. R. Wellwood will be sorry to learn that she is ill in Cobourg General Hospital. Other residents who are ill are Mrs. P. Warner and Doris Roberts.

Miss Dorothy McCullough, of Harwood and Miss Mildred Nichol, of Centreton, pupils of the Cobourg Collegiate Institute, spent the week-end with their friend, Miss Donna Talling.

Among those of the Fenella group W.M.S. who attended the World's Day of Prayer service in Roseneath United Church included Mrs. Howard Macklin and her guest Miss C. Atkinson, Miss Florence Macklin, Mrs. Clark Jewell, Mrs. Frank Down and Mrs. A. Nill. Mrs. Down and Mrs. Jewell contributed a duet, "Oh Sweet is the Story of Jesus."

Mrs. J. H. Mouncey of Fenella was successful in winning the prize for euchre at the L.O.B.A. euchre and dance at Roseneath on Friday evening. Those from the community who attended were Mr. and Mrs. J. H. Mouncey, Miss Mildred Lean, Mr. and Mrs. Clark Jewell and Arthur Murphy.

The next meeting of the Fenella W.M.S. will be held at the home of Mrs. W. H. Curtis on March 4.

Mrs. Mulligan, Miss McCrea of Lindsay accompanied by their cousin, Mrs. Fisher, of Ireland, visited in town Saturday.

Mrs. E. Jamieson was a business visitor to Lindsay on Saturday.

Mr. and Mrs. G. Werry entertained a number of their friends Wednesday evening.

Don't neglect a COLD

DISTRESSING cold in chest or throat—that so often leads to something serious—generally responds to good old Musterole with the first application. Should be more effective if used *once every hour for five hours.*

This famous blend of oil of mustard, camphor, menthol and other helpful ingredients brings relief naturally. Musterole gets action because it is a scientific *"counter-irritant"*—not just a salve—it penetrates and stimulates blood circulation, helps to draw out infection and pain. Used by millions for 20 years. Recommended by doctors and nurses.

Keep Musterole handy—jars and tubes.

MUSTEROLE

BETTER THAN A MUSTARD PLASTER

Toronto Optometrists Offer $20 Spectacles For $2.98

Send Them on 10 Days' Trial

Toronto, Ont.—The Dr. Ritholz Optical Company have devised a new comfort spectacle that will not break or tarnish and leaves no mark on the nose or face. These spectacles are really beautiful, give wearer a distinguished appearance and will enable anyone to read the finest print, see far or near. The Doctor offers to send a pair on 10 days' trial to any reader of this paper with the understanding that if they are not amazed and delighted and do not think the spectacles he offers at $2.98 equal to those sold elsewhere at $20, they will be out nothing. Just send name, address, and age to-day to the Dr. Ritholz Optical Co., Suite N-348, 29 Melinda St., Toronto, Ont., for a 10-day trial and learn how you may get them without cost, also new catalogue free.—(Adv.).

Song Service Features Norwood United Church

NORWOOD, Feb. 25 (Examiner Correspondence) — The evening service in the United Church at Norwood was in the form of a song service entitled, "The Lost Key."

Rev. Mr. Stillman told the story while the choir described it in song. "The Key" was the symbol of prayer. Those taking the solo parts were the Misses Una Duffield and Florence Scott and Messrs. Fairweather and Jack Duffield.

PAIR FACE TRIAL.

HAMILTON, Ont., Feb. 26—(C. P.)—Committed for trial by Magistrate Burbidge on three counts of conversion, making false entries and conspiracy on May 1, 1930, Charles and Mary Oliver will go on trial before Judge Thomson in county criminal court to-morrow.

Before the Magistrate nearly a year ago, they pleaded not guilty to converting approximately $200,000 of the shareholders' money of the McKnight-Oliver Holdings Company to their own use.

CANADIAN APPLE EXPORTS

Canadian apples showed a large increase during the 1929-30shipping season (covering the 1929 crop) as compared with thep revious year, 1,727,089 barrels having been exported during the season just closed as against 1,021,490 barrels the year before.

Enjoy the Comfort of Restful Light ~

GIVE a man a pipe he can smoke . . a book he can read . . and light that's soft, yet ample. What more can he ask of a restful hour! Edison Mazda Lamps add to the pleasure of any story. They cannot glare . . their light is always *soft* and kind to the eyes. And they give the *full value of the current consumed.*

Troubled With Sore Pimples a Year. Healed by Cuticura.

"For about a year I was troubled with pimples and blackheads on my face and could not get rid of them. The pimples were in little blotches and were small and red. When they came to a head they were very sore and my face burned.

"I tried other remedies but could not get rid of them. I began using Cuticura Soap and Ointment and they stopped the burning at once, and in about two weeks I was completely healed." (Signed) Miss Jessie I. Rudd, Blucher, Saskatchewan.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Sample each free. Address Canadian Depot: J. T. Wait Company Limited, Montreal.

DONATIONS FOR RELIEF $10,509

$5,109 Has Already Been Contributed in Cash for Relief Work.

FUND STILL OPEN.

The interesting part of to-day's list of donations in connection with the campaign for funds now being made by the Peterborough Relief Association, is the number of smaller donations coming in from private individuals and firms.

The Rt. Rev. Bishop O'Connor has contributed $50 to the fund, and Rev. P. Costello, rector of St. Peter's Cathedral, $15.

The fund is still open, and it is hoped to receive further donations during the week.

Previously reported	$10,222.46
Rt. Rev. Bishop O'Connor	50.00
Rev. Father Costello	15.00
R. Neill Ltd., staff	35.00
Metropolitan Insurance Staff	38.00
Peterborough Lock Co. (add.)	2.00
A Friend	5.00
George F. Lynch	10.00
Fisher Battery Service	5.00
McLeod's Drug Store	5.00
Collegiate Staff (add.)	35.00
McBride & Franks and staff	32.00
Brooks Bros. and employees	25.00
Robt. Fair Co.	30.00
Total to date	$10,509.46

Of the above amount $5,190.39 has been received in cash and the balance pledged.

Additional donations later in the day were received as follows: Mrs. A. H. A. Robinson, $10; A Friend, $6.50; Dominion Bank (to date), $10.

EARL DIXON IS CUT ABOUT HEAD

Local Youth Removed to Nicholls Hospital Following Accident While Cutting Timber.

PROBABLE SKULL FRACTURE

HALL'S BRIDGE, Feb. 27. (Examiner Correspondence)—Earl Dixon aged 16 and son of Mrs. John Dixon of Peterborough, sustained severe injuries to his head on Tuesday, while cutting at a limb of cedar when his axe glanced off, striking his head and causing a large wound and probably fracture of the skull.

He was working for Messrs. Harold and George Calvert at the time of the accident. Dr. E. E. Willis was called and found the lad unconscious and immediately had him removed to Nicholls Hospital at Peterborough where he lies in a critical condition.

DRUNKEN DRIVER GIVEN ONE WEEK

Automobile Driven By Drunken Driver Collides With City Bus.

VAGRANT ARRESTED.

Marshal Douglas, Westwood youth, admitted in police court this morning that he was drunk last night when he slewed his car on Park street and crashed into one of the city's busses. Magistrate Langley sentenced him to seven days in jail.

The bus, driven by Lawrence Gibson, 483 Parnell street, was proceeding north on Park street and so was Douglas in his car. Near Westcott street, Douglas suddenly jammed on his brakes and slewed out to the centre of the road, ramming the rear of the bus. No one was injured. Police arrested Douglas and he spent the night in the cell.

"Shake, Your Honor," earnestly urged a prisoner as he walked over to the bench and pushed his friendly hand over to Magistrate Langley. The handclasp was refused, not unpleasantly, and the prisoner then expressed his thanks, with a salute to his forelock in sailor fashion, for the five days remand on the hill that he had been just given.

The young man said he was an American and had been seeking a livelihood here for several months. He pleaded guilty to vagrancy, but stoutly maintained that he was trying to get along. "Give me a break," he asked. "I worked ten hours a day for two weeks in a George street store and all I got was $2, a cream pitcher and a tea pot. He called it wages."

Police said that the prisoner had been giving considerable trouble to merchants and that complaints had been received.

CHAPLIN ON FIRST VISIT TO SHAW ADMITS HE LOST COURAGE AND RAN

Guest List For Picture Opening in London Reads Like Section of Who's Who.

Plans To See Bull Fighting.

LONDON, Feb. 26.—(A.P.)— Ten years ago when the literati were just

Chaplin was a "genius," the movie clown mounted George Bernard Shaw's doorstep, saw the playwright's name staring boldly from a glittery brass plate, lost his courage, turned

To-day he disclosed that he had tail and ran

confessed that mis-adventure to Shaw when they met for the first time at a luncheon given by Lady Nancy Astor yesterday.

It was while he waited to ring Shaw's doorbell, he said, that a boy with an autograph book in his hand followed him up the steps. Chaplin turned quickly and the boy ran. In a moment Charlie was going after him.

"Why did you run away?" Shaw demanded.

"Purely a case of follow the leader," said Chaplin.

"Is nobody to be afraid of," Shaw replied, chuckling in his beard.

It developed to-day that the guest list for the opening of Chaplin's new picture on Friday reads like a section of Who's Who. Among the names are Shaw, Rt. Hon. David Lloyd George, Evelyn Laye, Alastar MacDonald, Elinor Glyn, Sir Philip Sassoon and Lady Astor. After he opening Chaplin plans to go to Toledo, Spain, to study the pantomime of the bull fighter.

THE BEASTS OF TARZAN No. 82 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

A sleep sailor kept a poor vigil upon the deck of the becalmed schooner, while in the cabin below the mate of the Kincaid paced up and down arguing with Jane Clayton. Lady Greystoke had found a revolver in a table drawer in the room in which she had been locked, and now she kept the mate at bay with the weapon. The Mosula kneeled beside her, weeping and moaning in the most abject terror.

Up and down before the door paced the infuriated mate, threatening, pleading and promising, but all to no avail. Presently from the deck above came a shout of warning and a shot. For an instant Jane Clayton relaxed her vigilance and turned her eyes toward the cabin skylight. Simultaneously the man was upon her, wrenching the weapon from her grasp and brutally hurling her toward the wall.

The first intimation the watch had that there was another craft within a thousand miles of the schooner came when he saw the head and shoulders of a man poked over the ship's side. Instantly the fellow sprang to his feet with a cry and leveled his revolver at the intruder. It was his cry of alarm and the subsequent report of the revolver which threw Jane Clayton off her guard.

Upon the deck the quiet of fancied security gave place to the wildest pandemonium. The crew of the pearl schooner rushed above armed with revolvers, cutlasses, and the long knives that many of them habitually wore; but the alarm had come too late. Already the beasts of Tarzan were upon the ship's deck, with Tarzan and Mugambi urging them on. They needed little urging, however, for already the ferocious struggle with the Kincaid's crew was being repeated.

BROKEN DISHES STUDENTS' PLAY

Collegiate Students Will Present Amusing Comedy on Friday and Saturday.

POSTERS ON VIEW.

"Broken Dishes" is the intriguing title of the play which will form this season's offering by the pupils of the Collegiate Institute and Vocational Training School. It will be presented tomorrow evening and on Saturday evening in the Collegiate auditorium and promises to be one of the snappiest performances in the long line of successful plays that the young people have to their credit already.

"Broken Dishes" is an amusing comedy of domestic life—as old and universal as the human family, though its actual setting is of to-day and in the new world. The husband is good natured and the wife is a scold. The sound of "broken dishes," figuratively speaking, echoes through the play, even though the real breaking of dishes only occurs once. Feelings are hurt and harsh words spoken throughout the entire swiftly-moving dialogue.

It is a play that will appeal to everyone. Those who have happy homes will be sorry for the good-natured father and husband, and those who see a resemblance in the story to their own lives will get the solution in the finale. There is plenty of amusing conversation and scintillating situations.

In connection with the play, students from the various classes of the Institute and Vocational School have submitted posters in competition for prizes. They are on view in The Examiner's north window and are surprisingly good in their varied ideas. Some have gone in for futuristic effects, like the first prize-winner; a creation in reds and blacks with angular lines, and others have had recourse to such ideas as the favorite Jiggs, cupids, Christmas waits and crowing cocks, to advertise the merits of the play. One ingenious effect is of real broken glass, outlining the title, in deep blue against a grey ground; while another, just like an advertising steamship poster in a railway office, has an intriguing Oriental touch. A block design in red, black, silver and yellow makes another attractive specimen. They are well worth seeing.

Old Country Soccer Games

AWARDED CONTRACT.

The plumbing firm of Goodfellow & Welch was notified today that their bid for the plumbing and heating contract for two large houses, which are being built on Monaghan Road by the T. A. Brown Company, was accepted. They will begin work shortly.

DRESS SIZE 53 WANTED.

We are anxious to get a coat and dress for a very large woman, size 53, weighing 260 pounds. Please telephone 1600 and we will call.

POLICY IMPOSSIBLE.

J. H. Burnham told The Examiner to-day that in his opinion the offer of Russia has brought the issues threshed out last July to a head. If Mr Bennett asserts "Canada First" or the new home market to the exclusion of the Russian offer, then he refuses all foreign trade. "It looks to me," said Mr. Burnham, "as if the impossibility of a 'Canada First' policy is now clear. If the home market is not sufficient to consume our products, then we must trade outside or go to the wall."

Complying with a government licensing plan, all bulls in the Irish Free State were inspected recently.

GOV'T IS PROBING RADIUM SOURCE

Great Expectations Expected From Pitchbend Find at Great Bear Lake.

TESTS TAKEN.

OTTAWA, Ont., Feb. 26 (C.P.).—The possibilities of obtaining radium from the pitchblende discovered on the east shore of Great Bear Lake, North-West Territories, are being studied in Toronto and Ottawa. The Department of Mines here has been urged to proceed with the tests with all possible speed so that if they prove as promising as are expected, exploration work may be rushed this summer to ascertain the extent of the deposits.

Pitchblende was discovered last spring and tests have proven the material to be radio-active and much will depend on the results of the tests as to whether it will yield radium in sufficient quantity. The world's production of radium at present is practically in the hands of the Belgian Government, which obtains it from deposits in the Congo.

Miss Madeline Robinson, a twenty-three-year-old London art student, has won the Faculty of Painting Scholarship of the British School of Rome.

CITY'S TAX RATE IS STRUCK AT 39 MILLS

Suspension Of Highway Work Sought

MEMBERS OF THE COUNTY COUNCIL DISCUSSING SUSPENSION OF WORK OF NEW HIGHWAY EAST OF CITY

Meeting Follows Address Made By Premier Henry to Good Roads Convention.

SPECIAL SESSION.

County's Share Would Be a Burden on the Rural Ratepayers.

Suspension for this year at least of the construction of the Peterborough-Tweed Highway through this county was the subject under discussion at a special meeting of the County Council this afternoon.

The Council returned at noon to-day from Toronto where the members attended the Good Roads Convention. Last night Premier Henry told the municipal representatives that "highways will not be built in counties, townships, or other municipalities which have protested or may protest that their share of the cost will be a burden."

On their arrival home to-day the Council decided to discuss the merits of this "monkey-wrench" which may be thrown into the employment-giving highway which was begun east of the city last fall. Just what action the Council will take was uncertain in the opinion of several members who mentioned the meeting to The Examiner, but there was a feeling that Premier Henry's promise will be immediately followed here by a protest against the new highway on the ground that the county's share of its cost will be a burden on the rural ratepayers.

Al Capone Given 6 Months in Jail

CHICAGO, Ill., Feb. 27. (CP)—Al Capone was convicted of contempt in Federal Court to-day and sentenced to six months in county jail.

Judge Wilkerson in announcing his decision declared it was evident the affidavit which attempted to show Capone was ill and in bed when he was wanted by the Government two years ago, was "glaringly false."

The effect of the affidavit, the Judge declared, was to hamper the administration of justice" and that "this court is not to be tampered with."

NOTED OFFICER DIRECTS ATTACK ON ROYAL NAVY

Ackworth in New Book Advocates 12,000 Ton Ships Instead of "Nelsons."

CONDEMNS FISHER'S POLICY.

Naval General Staff Described as Unnecessary and Source of Confusion.

(By Thos. T. Champion. C. P. Staff Correspondent)

LONDON, Feb. 27. — "Instead of 35,000 ton Nelsons with 16-inch guns we should build 12,000 ton ships carrying 13.5 inch guns, with a speed of 17½ knots," declares Commander Bernard Acworth in a book, published today, which contains some startling criticisms of the Royal Navy.

Some force was lent to the criticism by the fact that Commander Acworth, who gained the D. S. O. for his services with the navy in the war, retired less than four weeks ago after serving on the admiralty staff for four years. He condemns wholesale the big ship and the strategical policies of the late Lord ("Jack") Fisher, who, retiring as First Sea Lord in 1912, was again called in as First Sea Lord in November, 1914, and resigned in May 1915. He died in 1920. The book has started a lively controversy.

Doctrines Unsound

Lord Fisher's doctrines were proved during the Great War to be unsound, Commander Acworth charges. Regarding the present naval policy, he added, "Instead of cruisers without armor, we should have 12,000 ton armored cruisers, and all our torpedo-boat destroyers should be scrapped."

Acworth also prefers a coal-burn-

EMILY FARMER IS UNDER ARREST

Jack Curtin is Alleged to Have Run Away With Another Man's Wife.

TOOK CHILDREN ALSO.

LINDSAY, Ont., Feb. 27.— (Examiner Correspondence.) — Provincial Officers Nelson and Porter returned last night from Hamilton and had in custody a couple wanted in Lindsay on the charges of immorality, namely, Jack Curtin, a farmer of Emily township, and Mrs. Priscilla Long, a resident of Adelaide street, Lindsay. A week ago Mrs. Long ran away with Curtin and took her two young children with her. Local authorities were notified and descriptions were issued of the missing couple.

Word was received Wednesday that Curtin and Mrs. Long had been picked up by the police at Hamilton where they had registered as Mr. and Mrs. Long. The suspicions of Hamilton authorities were aroused when the couple placed the two children in the Children's Shelter for keeping. They were brought back to Lindsay, given a preliminary hearing before Magistrate Jordan and remanded for a week.

6-MONTH TERM IS GIVEN NASH

Fine of $200 is Also Attached to the Sentence Passed in Police Court.

POSSESSING DRUGS.

His unshaven features expressing the relief he felt, George Nash was led away this morning, after having been sentenced to six months in Ontario Reformatory and a fine of $200 and $3.75 costs or in default of payment a further two months' imprisonment to commence at the end of his six months' term.

He had apparently anticipated a stiffer penalty following plea of guilty at a previous hearing, to a charge of being in possession of noxious drugs contrary to the Narcotic Drug Act, 1929.

In answer to Magistrate O. A. Langley, prisoner declared, "I have nothing to say, only that I did not have possession of drugs for sale but only for personal use."

Crown Attorney V. J. McElderry, K.C., intimated he would be satisfied with the minimum penalty.

Nash, who is believed to have come from the Pacific Coast was arrested on the evening of February 19th, when in possession of a quantity of morphine, and also syringe and needles.

KERR ADDRESSES KIWANIS CLUB

Law and Lawyers Carrying Out Doctrine of Good Will.

FOR PEACE OF WORLD.

How the law and lawyers are getting together to carry out the doctrine of goodwill and obey the commands of the greatest of all law givers, to "love thy neighbor as thyself," was eloquently set forth in an address delivered to members of the Kiwanis Club at the weekly noon luncheon in the Empress Hotel today by F. D. Kerr, K.C., who averred that during his thirty-five years' practice in the legal profession, "I have not lost faith in humanity."

He was introduced to the club by J. A. O'Brien, who described the speaker as one of the oldest members of the legal profession in the city. Mr. O'Brien, who came to Peterborough fourteen years ago found in Mr. Kerr a staunch friend, and throughout that long period of association the ties of friendship have been further cement-

Peterborough Woman Killed in Crash at Highland Creek

COUPE AND SEDAN COLLIDE HEAD-ON — FIVE INJURED.

When a light coupe, driven by a Chinaman, swerved from behind a truck on the Kingston Road, near Highland Creek, it collided head-on into a sedan, resulting in the death of Mrs. Jennie Plunkett, aged 60, of Peterborough, passenger in the latter car, and injury to five others. ABOVE—TOP LEFT—death car after crash. TOP RIGHT—photograph of scene of the crash, with a reconstruction of how the accident occurred sketched by our artist.

Bishop Fallon Is Laid To Rest

Injured in Motor Crash

ABOVE—Miss Mary Seeney (LEFT), matron of Children's Aid Society, Toronto, and Miss M. E. Nelson, also of Children's Aid Society, who were injured in a motor crash near Highland Creek, Ontario, in which Mrs. Jennie Plunkett, sister of the latter, was killed.

CABLE PONTIFF'S PRAYERS TO THE STRICKEN DIOCESE

Solemn Requiem High Mass is Sung by Papal Delegate to Canada.

GREAT THRONG ATTENDS.

Remains Laid to Rest in Crypt Within Chapel of St. Peter's Seminary.

LONDON, Ont., February 27 (C.P.). — Followed by the prayers of his Pontiff Pius XI., and sanctified by the solemn ritual of the Roman Catholic Church, the remains of Rt. Rev. Michael Fallon, fifth Bishop of London, this afternoon found their final rest in this world in the crypt before the "Altar of Christ, Our King" within the chapel of St. Peter's Seminary.

A crowd estimated to be between 7,000 and 10,000 people thronged into the cathedral church for the last rites, and flowed outside of the edifice over the lawns covered with the melting snow of spring, along the streets and to the balconies, the top of automobiles, and every vantage point within view of the cathedral.

During the solemn Requiem High Mass, the celebrant, His Excellency Archbishop Andrea Cassulo, the papal delegate, paused to tell of the sorrow felt by the Holy Father in Rome at the passing of Bishop Fallon. A cable from Cardinal Pacelli, Vatican City Secretary of State, this morning carried the news of the Pontiff's prayers and mourning to the stricken Diocese of London.

400 Priests Attend.

The right, or Gospel side of the Cathedral, was a solid bank of white, as almost 400 priests occupied the pews. To the left high military officers, nurses in capes and nursing caps, and the formal dress of the representatives of civil authorities and of education lent a more sombre air to the already sad scene of pageantry.

In the choir loft seminarians, students in the institution which was the late Bishop's fondest achievement in life, sang the mass while the Papal delegate on the altar intoned the sacred words. Cesare Borre was at the organ.

The Bishops, robed in bright purple, were the first to enter the sanctuary. His Excellency, the celebrant, entered last in the balck vestments of deep mourning and wearing the white mitre.

The thousands of spectators milled about along the walks leading from the Cathedral, and along the streets.

During the requiem mass, the police had difficulty keeping the vast crowd under control.

As the funeral procession, finally arranged in order moved off, a squadron of motor cycle police led by officers Morley Leitch, and Charles Knight cleared the way, and throughout the sad line of procession to the seminary, reserved the right of way.

Reverently the eight priests who had the sad duty of pallbearers carried the remains of their bishop within the seminary. Here they were received by seminary officers and His Grace Archbishop Neil McNeill, metropolitan of Toronto.

As the little procession entered, a

Man to Be Hanged Sued for $50,000; Action is Unique

TORONTO, Ont., Feb. 27. (CP) Probably setting a precedent in the history of British legal practice, Mrs. Sala Goldberg, widow of the murdered Samuel Goldberg, issued a writ to-day claiming $50,000 damages from Abraham Steinberg, who was convicted of the murder and under sentence to be hanged April 1st. On behalf of herself and her children, Mrs. Goldberg asks the damages "for wrongfully, wilfully and unlawfully causing the death of Samuel Goldberg, on March 5, 1930." Roy McMurtry, counsel for the plaintiff, is of the opinion this is the first action of the kind against a condemned murderer in British or Canadian courts.

STUDENTS CLAIM ATHEIST CHARGE TYPICAL HOT AIR

Feel Nixon's Proposal to Investigate is Magnifying Incident Out of Proportion.

EDITOR INTERVIEWED.

Allan Claims Best Collection of Atheists is Among Board of Governors.

TORONTO, Ont., Feb. 27. — "Tempest in a teapot," "tommy rot," "publicity man," "ridiculous", "only a pose", "absurd", "absolutely untrue", "Varsity is a joke", "just typical hot air", such were the expressions with which a host of graduates in arts of the University of Toronto today greeted Varsity's atheism editorial for which A. E. F. Allan, Peterborough boy, accepts the responsibility.

The Examiner secured a list of Toronto graduates from the Alumina Association and made a pretty thorough poll of their opinion. Of the 200 graduates interviewed only two could be found who placed the slightest importance on Varsity's viewpoint. Consensus of opinion was that the writer of the editorial was too juvenile in outlook to be allowed to continue in his position.

A large number felt that the poposal of Hon. H. C. Nixon to investigate the charge that atheism is prevalent among students was magnifying the incident out of all proportion to its importance. "You don't investigate the silly remarks which your small son makes," re-

EARLY ELECTION OVER AUSTRALIA BEING PREDICTED

Dissolution of House of Representatives and Senate Expected From Gov't Action.

TROUBLE OVER BILL.

Measure Asking $90,000,000 Provides Aid for Wheat Growers, and Unemployment Relief.

CANBERRA, Australia, Feb. 27 (C.P. Cable via Reuters).—The possibility of dissolution of both the House of Representatives and the Senate, and an early general election, loomed to-day as a result of the Government's decision to introduce a bill for a special issue of fiduciary notes to the extent of $90,000,000. This amount is needed to carry out the plan for employment relief works, and provide aid for wheat-growers and farmers generally, which were approved by the Premier conferenece.

Expects Bill to Be Rejected

The Labor Government expects the Senate will re ject the bill. If the Senate does, the bill will be made the issue for double dissolution.

Under the Australian Constitution Act the Senate may be dissolved in the event of prolonged disagreement with the House of Representatives.

Meanwhile Prime Minister Scullin is believed to be planning another Cabinet shuffle. He is credited with the intention of removing extremists who support the policy of Premier J. T. Lang of New South Wales—a drastic policy involving non-payment of interest to bondholders abroad—when the Labor caucus meets next week to receive his draft of a reconstituted ministry.

The revised Cabinet, it is said, would include E. G. Theodore, Treasurer, but would omit followers of J. A. Lyons, former Acting Treasurer who resigned recently, and those of John Beasley, head of the Lang group in the Federal House.

Collecting whistles is the fad of A. J. Williams, a confectioner of Brighton, England, who, in the last 10 years, has accumulated 300 different kinds from all parts of the world.

Japan Hoping for Heir to Throne

TOKYO, Feb. 27 (A.P.)—An interesting event" of paramount concern to the 90,000,000 subjects of the Emperor of Japan is expected within a few days, for the birth of an infant that may become the Sovereign of the Empire should take place about March 10.

The Empress Nagako is about to present her consort, Emperor Hirohito, with a son or a daughter, and in the Imperial Palace preparations for the expected arrival have taken precedence over everything else.

Even if the little mite of the blood imperial is a girl there will be nation-wide rejoicing for the safety of the Empress and her baby, but the celebrations will not be so extensive as if it is a Prince to be welcomed.

HOUSES BARED IN OLD JERICHO

Remains Uncovered By Prof. Garstang Stood in Days of Joshua.

BRONZE-AGE VASES FOUND.

LONDON, Feb. 27 (A.P.)—Houses that stood in old Jericho in the days of Joshua have been discovered through the excavations being carried on there by Prof. John Garstang of Liverpool University, a cable received here from Prof. Garstang to-day said.

In the houses were found remains of wheat, thatch, wood, rope, dates and cakes of bread, all carbonized. Prof. Garstang said that it was obvious that all the houses had been burned while they were still occupied.

The excavations also uncovered another tower of Jericho's gateway, lying to the north of a tower that had already been discovered, on the south side according to the message, were found, "A wonderful series of walls of rooms, going back to about 2,000 B.C., and what appears to be a still older city wall."

Bronze-age vases were found intact in this strata.

Nearly 420,000 Word war army officers and men are drawing permanent pensions from the British government.

$915,497 Needed To Finance City In the Year 1931

City Tax Rate Will Be Decreased Two-tenths of a Mill Below 1930, Finance Committee Decides After All the Estimates Have Been Struck.

POLICE ESTIMATES ARE KEPT AT LAST YEAR'S FIGURE THUS MAKING NO ALLOWANCE FOR LARGER POLICE FORCE

Judge Huycke's Remarks at the Police Commission Meeting Were Uncalled For in View of the Police Chief's Splendid Report Says Alderman Tuggey.

Peterborough's tax rate for 1931 will be 39 mills, a decrease from last year of two-tenths of a mill.

Despite the decrease it is estimated that property owners will pay out $20,391.67 more in taxes this year than last. That is the City Council will have $935,519.44 to meet this year's needs as compared with $905,138.37 in 1930.

This increase in collectible taxes in the face of two-tenths of mill reduction in rate is made possible by the $690,012.00 increase in assessment over last year. Last year's total assessment was $24,145,922.00 while this year's total is placed at $24,835,934.00.

The 39 mill rate leaves the city some slight leeway to meet unforeseen expenditures which may crop up. This was considered necessary in the face of economic conditions and it was predicted that the $4,000 to $5,000, likely left to the good when everything has been closely checked over, will be required to aid in unemployment relief work.

Members of the Finance Committee, a committee of the whole Council, worked carefully for more than two hours and a half last night in earnest effort to cut the year's appropriations to a minimum and keep the tax rate low. Appropriations of every committee and department directly controlled by the Council were almost ruthlessly slashed in following through on the policy of strict economy.

The requirements under their general heads are: General purposes, $336,118.82; special, which includes schools, Protestant Home, House of Providence and Nicholls Hospital, $383,533.57; interest on sinking fund and debentures, $326,960.00; garbage collection, $12,405.53; and local improvements, $57,386.18.

No More Constables.

The recommendation of the Police Commission that three more constables be added to the force was tossed out by the aldermen, and the police estimates were kept at last year's figure of $27,465.50.

Some argument ensued as to whether or not a program to put James Stevenson Park would be put in proper shape this year. Aldermen Macdonald and Fitzpatrick urged that sufficient money be appropriated to make some of the very necessary repairs to the park, but the appropriation was kept down to $500.

The fireworks over the police esti-

SCOTCH BARONET HELD IN CUSTODY AT WASHINGTON

Action Taken as Sir C. Ross Fails to Raise Bond Set in Suit for Maintenance.

BROUGHT BY WIFE.

Sir Charles Became Prominent During World War By Making Ross Rifle.

WASHINGTON, D.C., February 27 (C.P.). — After a night spent in custody of Federal officers, Sir Charles E. Ross, wealthy Scottish baronet, to-day was arranging a $100,000 bond set in a suit for maintenance brought by his wife Lady Patricia Ross.

Sir Charles was served with papers in the suit last night in his Washington home. His attorneys, Breckenridge Long, once Assistant Secretary of State, and Walter Guy were unable at that hour to raise a satisfactory bond, so the baronet was taken to a fashionable hotel to spend the night under guard.

Asked High Bail.

The maintenance suit was filed yesterday, together with a plea that a high ball be set to prevent Sir Charles leaving the court's jurisdiction. A writ to secure his attendance was issued by Judge Adkins of the District Supreme Court.

In bringing suit, Lady Ross, daughter of Andrew Ellison of Louisville, Kentucky, said her husband was a multi-millionaire, had 300,000 acres of land in Scotland, extensive holdings in Canada and the United States, and was the manufacturer-inventor of the Ross rifle, once used by the Canadian Army.

Their matrimonial career of late has been stormy.

Made Ross Rifle.

MONTREAL, Que., February 27 (C.P.). — Sir Charles Ross, detained in Washington in connection with the suit of his wife, Lady Patricia Ross, became prominent in Canada during the Great War when he established a factory in Quebec and manufactured the Ross rifle, with which the Canadian Expeditionary Force was armed during the early part of the war. Sir Charles was inventor of the rifle. The factory has long since been demolished.

Sir Charles was born in 1872, and is the ninth baronet of his line.

Girl Victim Of Crash Dies In Belleville

BELLEVILLE, Ont., Feb. 27 (C.P.). —Miss Edith Gaunt died to-day from injuries received when struck by a motor car driven by Carlton Conkright last night on the highway, near Brighton. William Shortt, farm hand, who was walking with Miss Gaunt, was killed in the same accident. Coroner Dure opened an inquest this morning and adjourned for a week after preliminary identification evidence had been taken. It is understood Conkright was driving at a moderate rate of speed, but in the glare of lights from cars travelling in the opposite direction, failed to see the two pedestrians till too late.

SWIFT ROWLAND FIRST

KEMPTON PARK, Eng., Feb. 26 (A.P.)—Mrs. Cheeter Beatty's Grand National candidate, Swift Rowland, to-day won the Coventry Trial Handicap Steeplechase valued at $2,000 over a three and a half-mile course.

Salanun, owned by P. Carr, was second, with M. Blair's Ballyhanwood third. Both are Grand National candidates. Seven ran.

CLAIM B.C. BOARD SPENT RESERVES

Liberal Members Charge $1,000,000 of Liquor Board Funds Disappeared.

DENIAL GIVEN.

VICTORIA, B.C., Feb. 27.—Liberal members of the Public Accounts Committee of the Legislature, at a committee meeting yesterday claimed that the one million dollars cash reserve set up to provide against losses of the Liquor Board had been spent by the Government, and that the reserve standing in the accounts represented investments in the Liquor Board's business assets. The Liberal members also claimed that more than five million dollars, representing supperannuation funds, money deposits and Liquor Board reserves, were spent by the Government, with cash deposits only showing $1,139,000 at March 31, 1930, too offset these expenditures.

In the Legislature later H. D. Twigg, Chairman of the Public Accounts Committee, declared Mr. Craig had shown the exact state of all trust funds in the hands of the Treasury and there was nothing to support any suggestion that $1,000,000 of Liquor Board funds had disappeared.

Hon. T. D. Pattullo, Opposition Leader, said that taking the figures given by the Comptroller-General, it would be seen that there should be approximately $6,000,000 in the Treasury in special accounts.

Brazil has decreed that 10 per cent of all gasoline mixtures shall consist of alcohol.

UNIVERSITY BOARD CONDEMNS EDITORIAL

BOARD TO PUNISH VARSITY EDITOR FOR EDITORIALS

Students Are Described as Practical Atheists By Writer.

CLEAN-UP NEEDED.

A. E. F. Allan, Edtior-in-Chief, Assumes Full Responsibility For Editorial.

TORONTO, Feb. 27.—Upon the motion of T. A. Russell and Major Eric Armour, the Board of Governors of the University of Toronto unanimously passed a resolution yesterday afternoon, condemning and repudiating as "entirely contrary to the facts" the recent editorial in "Varsity," the student paper, which described students largely as "practical atheists" and imputed the teaching of atheism to professors.

"It would be a good thing if the Legislature had the whole thing cleaned up," declared a leading member of the Board of Governors of the University of Toronto, last night.

He was commenting upon the fact that an Opposition motion was expected to be put forward in the Legislature, demanding a formal inquiry into the teaching-conduct of the University, the state of the student-body, and the worthiness of the University as a recipient of public funds.

"The Caput is the disciplinary body; the governors cannot discipline," he said. "But if anybody has the will to do it, it would be a good thing for the Legislature to clean the whole business up."

The Caput meets this morning to determine punishment or disciplinary action which, according to Canon H. J. Cody, "undoubtedly will be taken."

The governors' resolution stated that the University of Toronto, its staff and student-body had been grossly misrepresented in the article in the undergraduate newspaper.

Called at his home last night, Dean A. T. DeLury, acting chairman of the Caput, the disciplining body, would make no comment as to what the probable action of the court of justice might be, but stated that that body would meet "immediately," the members to be called this morning.

Text of Resolution.

The resolution passed the Board of Governors with emphatic unanimity. T. A. Russell moved it and Major Eric Armour seconded it. It read as follows:

"This board unanimously repudiates the article appearing in The Varsity of the 24th February, suggesting that the students of the university and the majority of the graduates are largely atheists, and that the professors and staff are teaching atheism to the students; which statements are entirely contrary to the facts and totally misrepresent the university, its staff and the student body."

For two hours members of the board were closeted in the board romo, with Dr. Cody presiding. It is understood that members talked about the far-reaching effects of the editorial despite the fact that it represented but the opinion of a single student. Through the medium of the press the report had gone far and wide.

It was recalled that several letters had been received attacking the university alleging that certain professors were imparting atheistic teachings to their students. It was felt that the church and its influence were condemned in the article—several of the colleges have denominational affiliations. And it was considered that the undergraduate newspaper had made license out of liberty and attempted to take advantage of the controversy on free speech.

"The matter of discipline is in the hands of the Caput. And undoubtedly that body will take action," Dr. Cody told the press.

Editor Reaffirms Statement.

A. E. F. Allan, whose home is in Peterborough, editor-in-chief of the Varsity, assumes full responsibility for the editorial. Yesterday, he permitted a further article to be printed in the paper re-affirming that atheism was common at Varsity.

"The bounds of purity and light are in full cry. We have said that if the truth were known the majority of students on this campus are practically atheists. This has been enough to arouse a hue and cry second in magnitude only to that once aroused by the horrid assertion that no man ought to be condemned unheard" the editorial says.

Sarcastically the article refers to the furore of discussion that the Varsity has aroused.

"We are going to hear statements like this for some time to come now: . . . Parents throughout Ontario may well conclude that the University of Toronto is not a desirable resort for youth. . . . Until the University has been purged of the mongers of

(Turn to Page 10, please)

Doings in Legislature

TORONTO, Ont., Feb. 26 (C.P.)—Government legislation will be considered.

Yesterday in the Legislature

First reading given bills to amend the Assessment Act; to amend the Municipal Act, respecting the City of Windsor, respecting the Protestant Orphans' Home, Ottawa.

Debate on address in reply to the Speech from the Throne continued, an amendment being moved by Farquhar Oliver (U.F.C., Grey South).

The number of tourists visiting Austria last year was 10 per cent greater than in 1929.

King's Bald Spot Covered in Photo

LONDON, Eng., Feb. 27. — A delicate consideration for the susceptibilities of King George has been shown by the Daily Express one of the newspapers of Lord Beaverbrook.

When the King took leave of Queen Victoria of Spain at Victoria Station news photographers caught him with head uncovered at the moment when he was planting a cousinly kiss.

Two London papers published the photograph, showing the King's markedly bald head.

The Daily Express reproduced the same picture, but had a staff of artists paint a full thatch over the bald spot.

DISPUTES BILL APPEARS DOOMED BY LIBERAL MOVE

Action in Joining Conservatives on Vote Appears to Threaten Gov't Itself.

PREMIER RETURNS.

Labor Left Wingers Aroused Warn Liberals if They Want War They Shall Have It.

LONDON, February 27 (C.P. Cable). — The Government's highly important Trades Disputes Bill, created to appease Trade Unions' wrath at the drastic measure passed by the Conservatives after the great general strike of 1926, appears to be doomed. And the action of the Liberals in joining with the Conservatives, in committee yesterday, to delete the phrasing of what constitutes a "legal" strike, appears to threaten the Government itself.

Cuts at Heart of Bill.

The Liberals supported the Government when the Bill came up for second reading recently, but it was plainly to be seen then that the Bill was due for rough handling in committee. The amendment carried yesterday cuts at the very heart of the Bill, which Sir John Simon, prominent Liberal, had described as giving the Trades Unions the right to call a general strike at any time, a strike that would paralyze the nation long before legal steps could be taken against it.

Premier MacDonald, who returned to-day from a brief and much-needed holiday at Bournemouth, is understood to be entirely agreeable to dropping the bill, which he never personally favored, according to some critics. If it were passed as amended, it would not remedy the situation which the Trades Unionists wanted altered, and the Liberals would be able to block any move to do away with the amendment.

Left Wingers Warn Liberals.

Labor's left wing has been aroused by the Liberal attitude and plainly warn the Liberals that if they want war they shall have it. The Left Wingers, who have been drifting further and further away from the more moderate Laborites, find the new development strengthening their claims that the Socialist party is not socialistic enough.

The defeat of the Government forces on the amendment yesterday was by a vote of 37 to 31 in standing committee, the majority vote consisting of 30 Conservatives and seven Liberals. The Labor party suffered a second defeat in committee when another body, voting 25 to 22, adopted a trivial Conservative amendment to the Marketing Bill.

Oliver Baldwin, son of the former Prime Minister, withdrew from the Labor party last night and is expected to align himself with the growing group following Sir Oswald Mosley. Mosley is expected to shortly announce the formation of a new party pledged to drastic proposals for relief of unemployment and other problems.

New Seaplanes For Persian Gulf Patrol

LONDON, Feb. 27 (By The Canadian Press)—Three of the latest type flying boats built for the Royal Air Force have started a journey of 3,500 miles in formation from Felixstowe to Basra, Iraq. There they are scheduled to take the place of earlier type service flying boats which have been employed for some years past in coastal patrol work in the Persian Gulf and the estuary of the Euphrates River.

From Bordeaux to the Mediterranean the route selected traversed 250 miles of Southern France, taking the machines as far as possible along river valleys but inevitably involving many miles of flying over regions where a descent could only be made on the land. From the Etang de Berre, near Marseilles, the boats fly on to Malta, and continue the voyage to the east by way of Mirabella in Crete, Alexandretta, and the Baghdad, where the boats will alight on the surface of the river Tigris.

Each of these new marine aircraft, which are styled the Short "Rangoon," is equipped with three Bristol "Jupiter" air-cooled motors totalling approximately 1,5000 horsepower. With normal military load on board the range in still air is understood to be about one thousand miles.

No effort is spared in the design to make the boats comfortable for the crews in the torrid heat of the Persian Gulf and they have a roomy, comfortable hull which should assure comparative comfort even in the hottest weather, a point of vital importance because flying boat crews are expected frequently to eat and sleep on board.

TAXES ON FARMS, POLICY OF BANKS SCORED BY ACRES

Carleton Tory Member Attacks Conditions Which He Claims Can Be Remedied.

GETS OPPOSITION APPLAUSE

Advocates Flat Rate for Hydro, and Assumption by Gov't of Full Highway Costs.

TORONTO, Feb. 27.—Assailing taxation, Canadian banks, the Western Canadian wheat pool and co-operative organizations, the present system of higher education, and high wages, A. H. Acres, Conservative member for Carleton, yesterday addressed the legislature on agriculture.

With direct blows, he attacked many conditions which he claimed could be remedied, earned himself the applause of opposition benches, but seemed to fall short of receiving support from the Government side of the House.

Voicing his belief in the ability and sincerity of Premier George S. Henry to champion agriculture, the farmer member wasted few words in his slashing attacks. He charged:

That the burden of taxation at present was greater than agriculture in Ontario could bear and the decline of farming and Ontario farms could be largely attributed to it;

That Canadian banks had failed in their duty when they did not interest themselves in Canadian agriculture by not availing themselves of the principal of "an ounce of prevention";

That the Western Canada wheat pool and the co-operative Wool Growers' Association were enemies of farmers and did not gain the benefits they promised;

That the present system of higher education should be altered so that the persons who benefitted by it should bear the burden of cost, and not the taxpayers of the province.

Wages and Unemployment

That high wages upheld unemployment and that unions did nothing to aid workmen and that city councils such as that in Toronto supported such an attitude by not paying lower wages and thus create a greater benefit to more persons engaging in relief work;

That Hon. Peter Heenan, former Federal Minister of Labor, was the "greatest cause of unemployment unrest in Canada and not worthy the honor of having held a portfolio in any Government."

"I see that the banks of Canada are all reporting a splendid year," stated Mr. Acres. "I have read no other report than that. Yet you have only to look around you and you see agriculture suffering as it never has suffered before. I regret that the banking institutions and business men of this country have not seen fit to take a greater interest in the prosperity of it and put into effect that policy of

INFANTRY REVOLTS

LIMA, Feb. 26 (A.P.)—Two infantry companies at Piura, in Northern Peru, have revolted and the provisional Government is sending troops to subdue them, it was announced officially to-day.

Minister, 101, Given His Biggest Thrill By Sight of R-100

MONTREAL, Que., Feb. 27. (CP)—Rev. Dr. James Patterson, retired Presbyterian Minister, has never seen moving pictures nor talkies, is indifferent to the radio, never drank in his life and has not used tobacco for thirty-five years. He celebrated his 101st anniversary yesterday and told interviewers the greatest thrill modern science had brought him was the sight of the dirigible R-100 when it was here last summer. On that occasion Dr. Patterson was taken to St. Hubert flying field whre he had a close-up view of the giant airship.

In perfect health and enjoying the use of all his faculties, Dr. Patterson spent his anniversary surrounded by his family, receiving many friends and scores of telegrams and messages of congratulation from all parts of Canada. He was born in Scotland in 1830 and came to Quebec 27 years later.

STRUCK BY AUTO FARM HAND DIES

Tragedy Occurs Near Belleville as Driver is Blinded By Another Car's Lights.

GIRL IS INJURED.

BELLEVILLE, Ont., February 27 (C.P.). — Struck down by a motor car as they were walking on the highway near here last night, William Shortt, a farm hand, was instantly killed while his companion, Miss Edith Gaunt, was seriously injured. The car which struck the pedestrians was driven by Carlton Conklight of Belleville, and formerly of Walkerville, Ontario.

The driver of the car was allowed to proceed to Belleville by the police officer who investigated. Apparently blinding headlights on another car prevented him from seeing the couple.

Ocean Lines Make Big Cut In Rates

MONTREAL, Que., Feb. 27 (C.P.)—Considerable reductions in the rates from Canada and the United States to British and Continental ports were announced yesterday by the Canadian Pacific Steamships Company, the reductions to come into effect on March 2 and apply to all third class return trip passages on that company's ships.

Third class passengers travelling to British ports will be entitled to a reduction of 25 per cent between March 2 and April 30, and between August 1 and October 15. Third class passengers travelling to continental, Scandinavian and Swedish ports will received a reduction of one-third of the combined one-way fare during the same periods.

Total payments made by Germany to the Allied and Associated Powers for reparation and cost of occupation, from the Armistice to December 15, 1930, totaled $4,830,000,000.

PRINCE AMAZES CHILEANS WITH SOCIAL STAMINA

Doesn't Weaken Under Endless Rounds of Tea Fights, Functions and Banquets.

CONSIDERED A MARVEL.

Empire's Future King in Pyjamas Takes Daily Calisthenics in Garden.

VINA DEL MAR, Chile, February 27 (C.P.). — Crowds of Chileans who gather unabashed about the presidential summer palace these days have seen David Windsor, the Prince of Wales, in some of his more intimate moments.

The Prince, when he arises every morning, goes into the garden and does a round of calisthenics entirely oblivious of the staring eyes, already awakened to wonder by the habits of a man who waits until nearly noon to leave his bed.

Dashing blue pyjamas, touseled hair and sleepy eyes have made this phase of the Prince's life the most interesting of his visit here to the crowds, who watch him, thrilled, as he bends, runs about and indulges in the gymnastics of a man fearful of a growing waistline.

Leads the Way.

Keeping up with the Prince has proven to be one of the hardest tasks Chilean society and the British colony here have had in a long time. While toning down his polo and riding a bit to suit his advancing age he is still the leader of them all at night life. Few of the circle in which he has moved have had more than three or four hours' sleep nightly since he arrived.

The Chilean papers are making a daily rite of publishing in amazement his daily whirl of social and recreational events. They comment that he is one man in a million to be able, with his fairly small stature, to carry through the endless round of champagne toats, noon functions, afternoon polo, cocktail parties, business conferences, heavy dinners, dances and baccarat, going to bed only when the sun is rising over the mountains.

Unless it is necessary to be up for some official function the Prince has remained abed every day until nearly noon, much to the amazement of the large crowds outside the presidential palace, who expect everyone to arise early after the local custom.

SEE PROVINCIAL ELECTION IN QUEBEC

HULL, Que., Feb. 26.—A Provincial election in Quebec is in the immediate offing, Louis Lebel, Conservative organizer in Montreal, declared in addressing members of the Hull Conservative Club last night. He urged the party workers to prepare for the "approaching battle of ballots" in which, he predicted, Camillien Houde, Provincial Conservative Leader, would lead his party forces to victory.

FURIOUS STORMS CLAIM 27 LIVES

Wide Trail of Damage Left Across Italy By Winds and Floods.

BUILDINGS COLLAPSE.

NAPLES, Italy, Feb. 27 (A.P.) — Twenty-seven deaths in Southern Italy were laid to-day to storms of intense fury which demoralized shipping and did considerable damage inland during the last five days.

The storms had abated to-day, but they left a wide trail of destruction from the high winds and resulting floods. Loss of life was reported from such widespread points as Trapini, on the western tip of Sicily, Messina, and Foggia.

Flood had covered large section of Reggio and Calabria to-day with a number of houses brought down by the rushing waters. Three persons died in nearby villages. Fallen buildings blocked the streets of Tiriolo, while the River Basento overflowed at Potenza, where several buildings collapsed.

Two persons were killed when a house collapsed at Sana Mirra.

Compensation Bill Given Second Reading

QUEBEC, Que., Feb. 27. (C.P.) — Quebec's new Workmen's Compensation Bill was given second reading in the Legislative Assembly last night and will now be considered in committee. It is modelled closely along the lines of that of Ontario except that it does not apply to the Provincial government, municipal church or school corporations or to the Federal Government, municipal church or school corporations or to the Federal Government. These bodies will be assessed differently but ordinary workmen employed by them will receive the same indemnities as any others by the provisions of the bill.

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK

TORONTO, February 27. — Receipts at the Union Stock Yards yesterday were: 4 cattle, 12 calves, 190 hogs, 200 sheep and lambs.

There were about 100 stale cattle in addition to the fresh receipts and such killer cattle as offered were sold at prices unchanged from the week's decline of 50 cents a cwt. on butcher steers and heifers and 25 cents a cwt. on cows. No good steers offered yesterday and Wednesday's close showed most of the handy weight butchers good to choice quality closed at $5.75 to $6 a cwt. Cows over the scales yesterday sold from $3 to $4.25 a cwt. Milkers and springers were unsold up to 11 o'clock.

The calf prices are steady at $7 to $8.50 a cwt. for plain to medium vealers with nothing choice offered. Two loads of Western lambs, good ewes and wethers, averaging 89 to 90 pounds, sold at $9.00 a cwt

Bids on hogs are $6.25 to $6.50 f.o.b., and $7.00 to $7.25 w.o.c. for bacon. Road hogs are quoted at $6.50 for bacon.

WINNIPEG GRAIN.

WINNIPEG, February 27. — Proposed disposal of United States farm board wheat in the export market had a disturbing influence on the Winnipeg wheat market yesterday. As a result, prices for the day declined 2c to 2¾c from Wednesday's closing figures.

A statement attributed to George S. Milner, president of the stabilization corporation, through which the farm board wheat is handled proposed that a maximum of 35,000,000 bushels of wheat be offered in the export market and cleared from the ports where it is located to make room for new crop wheat. The statement added that the wheat will not be offered at prices under those of competing countries.

Foreign interest was limited and overnight sales for export estimated at little more than 250,000 bushels.

Cash wheat demand was fair, but offerings light. Spreads were unchanged.

Coarse grain trading was confined mainly to oats. Future prices held firm within a narrow range.

Futures:

CHICAGO GRAIN

CHICAGO, FEB. 27.—Wheat suffered a maximum break of 2¼c a bushel yesterday largely as a result of definite announcement of the Federal Farm Board's export policy. The announcement said 35 000,000 bushels held by the Grain Stabilization Corporation, an auxiliary of the Farm Board, would be offered abroad, and was generally construed as bearish. Heavy selling of wheat future deliveries took place, plunging wheat down to the lowest level since Jan. 29, with corn dropping to a new bottom price record for the season.

Corn and Oats Decline

Wheat closed nervous at a fractional rally, ⅛c to 2¼c off, corn showing ¼c to ⅞c setback, oats unchanged to ⅝c decline, and provisions unchanged to 20c higher.

TORONTO PRODUCE

TORONTO, Feb. 27.—Trade in eggs on the local market yesterday fell off somewhat, due to heavier receipts and a demand only equal to previous days. Wholesalers and brokers were quoting prices about steady with their former offerings. Wholesalers, however, were of the opinion that the market would slump during the first part of next week if receipts continued to increase.

Brokers were offering graded eggs in free cases at 30c for extras, 28c for firsts, 25c for pullet extras and 22c for seconds. Retailers were quoted 34c for extras in cartons, 32c for extras loose, 30c for firsts loose, 27c for pullet extras loose, and 24c for seconds, loose. Country shippers were quoted 27 for extras, 24c for firsts and 20c for seconds, ungraded, delivered, cases returned.

Poultry Higher

Poultry prices were higher than previously, local dealers changing the scale for certain grades and weights. An entirely new list was in circulation.

Butter Steady

The butter market suffered another dull spell and very few sales were reported by brokers; but prices were held steady on both low and high scoring lots at 31½c to 32c for No. 1 creamery solids and 30c to 31c for No. 2.

Cheese Stronger

Cheese was a trifle steadier at 14⅝c to 15c for new large, 15c to 15¼c for twins, and 15¼c to 15½c fortriplets, to the country shipper, but wholesalers offered new makes at unchanged prices of 16c for large, 16¼c for twins and 16½c for triplets.

MONTREAL PRODUCE

MONTREAL, Feb. 27.—Prices were unchanged on the produce and dairy market here yesterday.

Carlot prices of fresh British Columbia eggs were quoted at 32 cents for extras, 28 to 28½ cents for firsts and 27 to 28 cents for pullet extras. Western Prairie and Ontario extras were quoted at 31 cents, firsts at 28 cents, pullets at 26 cents, and seconds at 21 to 22 cents a dozen. Storage firsts, in carlots, were 18 to 19 cents a dozen. Prices to retailers were unchanged. Receipts were 1,738 cases.

Regraded Eastern Townships and fresh Western No. 1 pasteurized butter were quoted at 32 cents a pound. To retailers solids were 34 cents and prints 35 cents a pound. Receipts were 90 boxes.

On the cheese market winter white was 12 cents, colored 14¾ to 15 cents and summer cheese 15½ to 16 cents a pound. There were no receipts.

New Brunswick Green Mountain potatoes, in carlots, were 75 cents per 90 pounds bulk and to retailers 85 cents per 80-pound bag.

"Skinny" Sick Father Gains 15 Lbs. in 3 Weeks, New Pep

ANSELMO, Alta.—Mr. E. Kothe says: "I was so run-down, weak nervous, couldn't work. Then tried Ironized Yeast. Gained 15 lbs in 3 weeks. Regained my health.

"Skinny," weak, nervous people amazed at gains of 5 to 15 lbs., in 3 weeks. Ugly hollows, bony limbs fill out. Blemished skin clears. New pep first day. Constipation, indigestion, "nerves" go overnight. Avoids danger of serious ills.

Ironized Yeast is too great tonics in one. Weight-building brewer's yeast plus strengthening blood-enriching Iron. Many times more effective than unmedicated yeast. Results in half the time.

Don't be "skinny," weak, nervous. Take these pleasant little tablets. No yeast taste; no gas. If not delighted with quick gains, manufacturer refunds money. Get Ironized Yeast from druggist to-day. Feel great tomorrow. New pounds quick.

WEDDINGS

KILLEN—HARRINGTON

ENNISMORE, Feb. 27. — A very pretty wedding was solmenized in the Lady of the Lake Church on February 17, when Pearl Harrington, daughter of Mr. and Mrs. Stephen Harrington, of East Windsor, was united in marriage to Leo Killen, son of Mr. and Mrs. William Killen, of Ennismore.

The bride was becomginly gowned in a full grey costume and carried a bouquet of pink carnations. Miss Nora Harrington, sister of the bride, was bridesmaid, and was owned in blue, carrying a bouqet of rose carnations. Ine Maloney acted as best man.

After a sumptuous dinner served to friends, the bride and groom left for Niagara Falls, and on their return will reside in Windsor.

DON'T SUFFER WITH RHEUMATIC AGONY

Stop The Pain—Reduce The Swelling Swiftly With Joint-Ease.

A Wonder Worker That Soaks Right In and Gets Way Down to Where the Trouble Starts.

People in Canada must like Joint-Ease—they buy so much of it.

They use it because it helps to quickly ease their aches and pains.

They know it instantly brings comfort to inflamed, pain tortured joints—they have learned that for stubborn rheumatism there is nothing so speedily helpful.

Old folks use it to bring youthfulness to joints that creak and ache and get troublesome.

It's good for many other ailments also: Neuritis for instance, and Sciatica, Lumbago and lame, aching back—Rub it in good. Made in Canada and sold everywhere for 60 cents a generous tube.

When Joint-Ease Gets in Joint Misery Gets Out—Quick.

OBITUARY

MRS. ELIZA IRWIN

CAMPBELLFORD, Feb. 27.—(By Examiner Staff Correspondent)—The death occurred on Wednesday, February 26, of Mrs. Eliza Irwin of Campbellford, in her 53rd year.

The funeral will leave the family residence, Front street, Campbellford, on Saturday at 1.30 p.m., service being conducted in Zion United Church, Petherick's Corners, at 2.30. Interment will be made in Zion Cemetery.

WARNING

So-called imitations of Ovaltine are everywhere. Refuse them. Ovaltine, the supreme tonic food beverage, is superior from every point of view.

Offset Cold Weather Ills—

Cold and raw winter days are a challenge to your vitality.

Epidemics of colds and serious ills are unlikely to affect you if you make Ovaltine your daily beverage, because Ovaltine is super-nourishment in perfectly balanced form. It is the scientific concentration of nature's three best tonic foods, fresh eggs, creamy milk and ripe barley malt.

Served regularly in place of ordinary beverages, Ovaltine will build up in you and your family a priceless reserve of energy and vitality to resist winter ailments.

A cup of hot Ovaltine at bedtime ensures sound, refreshing sleep.

'OVALTINE'

TONIC FOOD BEVERAGE

Builds-up Brain, Nerve and Body

Sold at all good stores in 50c, 75c, $1.25 and special $4.50 family size tins; also served at soda fountains.

Militia Roll Call For 1812 Recalled In Old Historical Atlas Now Owned By Bessie French

TRENT RIVER, Feb. 27 (Examiner Correspondence).—An old historical atlas of the counties of Northumberland and Durham, now in the possession of Miss Bessie G. French, the Militia Roll Call for 1812 shows listed the following names and may prove interesting to descendants who are readers of The Examiner.

The names are: Ebenezer Hartwell, Daniel Lightheart, Morris Carr, Augustus Barber, Waterman A. Spence, James Burke, Nathan Pratt, Samuel Burk, Enoch Davis, John Trull, John Dingman, William Pickle, Matthew Boreland, John Wilson, Eliphalet Conat, Richard Martin, Michael Coffan, David Burk, Jeremiah Conat, Thomas Powers, James Flannigan, David Seron, William Preston, Timothy Johnston Dyer Moore, James Grant, Reuben Grant, Jr., James Hawkins, Jr., Thomas Hartwell, John Paine, L. Soper, Caleb Raymond, Joel Byrns, Jr., William Bebee Nehemiah Vail, Aaron Hills, John Brown, Nathan Haskill, Joel Byrns, Sr., Jonathan Bedford, Jr., John Odell, Nathan Watson, Alexander W. Ross, Luther McNall, Gersham Orvis, Jered Kimball, Jonathan Rogers, John Potter, Abraham Bowen, Sladman Smades, Joshua Smades, John Walker, Joseph Barden, Pletiah Soper, James Merrill, John Perry, Francis Bates, Adna Lightfoot, Samuel Marvin, William Carr, William Boreland, Jr. Roger B. Wolcott, John Spencer, John Hartwell, Myndart Hynis, Sr., John Burn, Alexander Fletcher, Robert Clark, John D. Smith, Leonard Soper, John Haskill, Samuel W. Marsh Thomas Gaige, Jeremiah Brittain, Daniel Porter, James Hawkins, Sr., Gardner Gifford, Elias Smith, Jr., Roger Bates, James Stephens, Samuel Gifford, Ezra Gifford, Peter Bice, Christopher Merkley, Josiah Caswell, David Gaige, Joel Smades, George Potter, David Bedford, Samuel Willet, David Crippin, Benjamin Preston, Reuben Grant, Sr., Abel Allen, Isaac Hagerman, Justin Johnson, Jeremiah Hayes, Hiram Bedford, Joseph Caldwell, Stephen Morse, Benjamin Preston, Benjamin Root, Warren Munson, Edward McElvey, Myndert Harris, Jr., Asa Callendar, Joseph Haskell, James Lee, Zephemiah Sexton, Cornelius Daly, Jonathan Sexton, Zecariah Odell, William Munson, Timothy Haskell, Ephraim Gifford, John Vorce, Josiah Wilson, Stephen Redford.

The above was the return of Richard Lovekin of Clarke Township. Several of the names belong to old survivors who up to 1877 drew the Government $2, allowed the 1812 veterans.

If Run down take **Dr. PIERCE'S Golden Medical Discovery** AT 301 DRUG STORES

Stop That COUGH!

A most effective method of treating coughs, colds, sore throat and bronchitis is to let a Peps tablet dissolve in the mouth. Soothing, healing fumes are released, which are breathed down the air passages, loosening the phlegm in the throat, stopping the racking cough and clearing the bronchial tubes.

FRIDAY, FEBRUARY 27, 1931

THE BILL WITHDRAWN.

The bill which would have made it necessary for all drivers of motor vehicles to come to a full stop before crossing railway crossings has been withdrawn at the request of Premier Henry, who argued that the efficacy of a similar measure in Quebec had not yet been fully demonstrated.

The Examiner is of the opinion that no great harm would have been done if the legislation had been tried out in Ontario, any inconvenience it might have caused disappearing in the face of the emphasis such a measure would have put upon the danger that exists at level crossings.

However, the Motor League, representing the motorists of the Province, strongly objected to the proposal, and the legislators have yielded to the pressure thus exerted.

Some good nevertheless has been accomplished by the mere introduction of the legislation, for it served to bring the whole question of level crossing perils into the limelight, and has led to a good deal of newspaper comment, which will further serve to stress the need of care at such points.

The only permanent remedy for the situation is the elimination of the most dangerous crossings, and toward that end the efforts of everybody should be directed.

THE SASKATCHEWAN DEMANDS.

A summary of the policies favored at the annual convention of the Saskatchewan section of the United Farmers of Canada show how widely apart are the sentiments developing in the West from the views of the rest of the Dominion.

The Saskatchewan gathering favors social ownership of all land, co-operative production of use and not profit, the nationalization of the Canadian Pacific Railway, the opening the Hudson Bay port of Churchill on a customs-free basis, the "pegging" of grain prices at production cost, and the formation of a stabilization board to scale prices of farm-used commodities parallel to the prices of farm-produced goods.

With the exception of the first two features of this policy, the Federal Government will be called upon to put the above program into effect at once.

It is safe to say the answer to every point will be a flat refusal.

Neither the Bennett administration nor any other Canadian Government could yield to any such ridiculous demands as these.

The result will be the entry into politics of a new agrarian party pledged to carry out the policies that have been mentioned in this article, and eventually the appearance in Parliament of a radical farm bloc that will seek to write into the statutes of Canada the platform adopted by the Saskatchewan convention.

And that is a development that may well concern those who are interested in Canadian unity.

INSPIRATIONAL ADVERTISING.

Nothing more timely or more inspirational in the line of publicity is to be found than the series of special advertisements now being published by the Canadian Pacific Railway Company.

At a time when there is need of encouragement among the people of this country, when the continuance of widespread unemployment in the cities and greatly reduced spending power among rural Canadians is having a dispiriting effect throughout the whole Dominion, the cheery optimism, the faith in Canada and the confidence in the future of this country that breathe not only in the stirring pictures but in every line of these advertisements, cannot fail to have a beneficial effect generally.

The Canadian Pacific Railway, one of the world's greatest transportation systems and a universal demonstration of the courage, enterprise and business ability of the Canadian people, has from its inception played a big part in the upbuilding and development of the Dominion, and once more, when Canada is in need of support and encouragement, this great company comes to the rescue with an inspired series of wholesomely vigorous and striking advertisements that will give Canadians fresh heart and at the same time tell the world that there is every reason to look to Canada for unprecedented prosperity and progress when the present slump has passed into history.

THAT RUSSIAN OFFER.

In connection with the reported willingness of Russia to enter into an agreement with Canada to purchase ten million dollars worth of Canadian-made farm machinery provided Canada will accept $3,360,000 worth of Russian coal in part payment, it is said that the Soviet Government is ready to hold a conference with Canada with a view to formulating a plan for the marketing of wheat without dumping.

Most certainly any transaction with Russia that did not take into account the wheat situation would be from a Canadian viewpoint a most short-sighted policy.

To import Russian coal in order that the Soviet may buy Canadian farm machinery with which to produce wheat to squeeze Canada out of the British market would be little short of economical suicide.

Recent Russian history unfortunately does not contain any reason for confidence that the Soviet Government, even if it did enter into a conference in regard to wheat and pledged itself to refrain from dumping, would carry out its promises

The new Russian offer may for the moment look attractive, but it deserves to be scrutinized closely—and undoubtedly will be by the Dominion Government, whose skeptical attitude at the present time is in line with public opinion generally.

HOW FREE WE ARE!

People seem to have plenty of problems in moving from one place to another. In recent weeks we have reviewed several of these cases. Here are two more.

John Radunsky has been held up at Detroit for five months, although his two children and his parents live on a farm near Waterloo. Radunsky lived in Canada for 11 years before going to the States, where he took out papers. His wife died and he decided to return to Canada with his children. He did so, and then went back to his former place of work in order to secure enough money to pay up the expenses incurred through sickness and death in the family. That affair settled he turned to rejoin his children in Canada, where his parents are ready to provide him with work and a home. His citizenship papers in United States were not renewed, so he is threatened with deportation unless Canada will admit him, and Canada looks upon him as one who, having taken out papers across the line, is a citizen of United States. So he stays at the border.

Kitchener furnishes another case. John Reisz is a German who came to Canada about five years ago, and in August he will become a Canadian by naturalization. His wife died some time go, leaving two children. Reisz wants to marry the second time, taking as his wife a young woman living now in Hungary, but the law says it cannot be done until August. He could then go to Hungary, marry her and bring her to Canada. His idea is that he should be able to bring her to Canada now and marry her on arrival as he has not enough money to make the trip himself later on.

These cases are different, of course, and yet there is a parallel running through them. There is nothing wrong in what they seek to do. One man wants to come home to his parents and his children; the other wants a wife, and in neither case is there the trouble of any party becoming a charge upon the state.

* * * *

Years ago before this continent became so highly civilized we imagine people went around just about as they pleased. If an Indian had occasion to cross the river that is now part of the International boundary line he probably got into a canoe and made the trip. There might have been an unfriendly Indian at the other side to head him off, but in that case it would be merely a man to man affair.

But since that time we have made a good many changes. When we desire to make a move we must look in the book and see the rules otherwise we may land in a deep pit. The Indian could catch his fish or shoot a deer without taking out a license. He could roam around as he pleased and lay him down and rest where night overtook him. To-day we pay a tax for a car and another tax to drive it, and still another when we buy a bit of gas to make the thing go, and on our person there must be documentary proof that we have coughed up the ducats to pay for all these licenses.

When we seek to cross the border men with uniforms close in upon us; they desire to know who we are; they crave knowledge of where we were born; their inquisitiveness extends to the point of finding out where we are going and they even want to learn what it is that we are minded to do upon arrival.

The Indian, we imagine, were he to allow his domestic traits to come to the surface, could cast his tent where he found a pleasant site. To-day when we decide to put up shelter from the heat of summer or the cold of winter, we cannot allow our fancy to dictate what we shall do. Inspectors come and go and they tell us pretty much what shall take place. We might desire to have the house out near the sidewalk so we could grow cabbage and potatoes in the back yard, but that cannot be.

Truth is, we live pretty much according to rules that others make and we keep on sending great numbers of men to parliaments and legislatures and councils of one sort and another to make more rules. Regulations and restrictions must be good for us, otherwise we would have crushed beneath their weight long ago. [illegible] of course, we pile all this together and call it free[illegible]—Stratford Beacon-Herald.

IS SALES TAX THE WAY OUT?

From Ottawa come reports of various subtle new plans devised by the Prime Minister and Minister of Finance to fill the public coffers, sadly depleted by declining revenues and by new expenditures, such as those undertaken on behalf of old age pensions and unemployment relief. Some of the suggestions that newspaper correspondents put on the wires from Ottawa indicate the likelihood of new sources of revenue being sought through special burdens on individual groups or fields of industry.

New and untried forms of taxation would be a mistake in Canada now if introduced to raise emergency revenues rather than, after careful study, as part of our permanent tax system. A new form of taxation would be upsetting to business; would require considerable readjustment by every busy executive, by Government departments. Its imposition would be purely experimental. By the time the economic units of the country had adjusted themselves to it it would probably be found no longer necessary. The impending deficit in Government finances is largely a temporary, an emergency affair. Renewed prosperity in Canada will bring public revenues back very quickly and permit them to catch up at least with the lower scale of public expenditure that is clearly called for and that apparently Mr. Bennett hopes to enforce by a campaign for economy in government. Of course, if the tariff policy is based upon so reducing imports that customs revenue remains low, permanent revenue sources must be found elsewhere.

* * * *

Equally desirable is it that new forms of taxation or increases in present imposts should not be made to bear heavily upon any one field of business. This would be just as much a barrier to an early return of complete prosperity in Canada as new and experimental forms of taxation.

If Mr. Bennett needs more money—and it is generally admitted that he must find ways to get it—let him find it in the tax that has proven itself equitable, easily collectible and economical and that bears evenly upon all groups in business and all classes of taxpayers according to their means. The income tax has been proven to be a definite brake on business expansion and should not be increased. Eventually we shall have to resume the process of steadily reducing it out of existence. The sales tax, on the other hand, has worked well in Canada. Apparently, it is popular with business men as a whole and it is not unpopular with the general public.

* * * *

Recent discussion of the possibility of the imposition of a turnover tax has brought out scores of interviews and resolutions from business men and business associations approving the sales tax as preferable to a turnover tax that would be pyramided at each billing and that would apply to services as well as commodities.

Business men generally having shown their approval of the sales tax, Mr. Bennett might well take his cue from these opinions and find the major portion of his needed new revenues by enlarging the sales tax to four or even five per cent. Such a plan would have the merit of easy return to lower taxation later. Year by year the sales tax could be reduced by one or more per cent as business generally expanded in Canada. Changes in the sales tax can be effected with the least possible need for readjustment by business, which already understands the tax. The machinery, both of government and of business, for sales tax collection already exists and is functioning smoothly.—Financial Post.

The Red-Headed Goddess

By

ALICE ROSS COLVER

(Continued from yesterday.)

CHAPTER VII.

"—AND SOMETHING BEAUTIFUL."

When Lorraine felt herself falling through space a second time, she gave herself up for lost. Her first thought was that they had stumbled, unaware, upon the canyon for which they had been searching, and across her mind flashed a clear picture of rocks—ragged rocks, upthrust, gleaming, toothy rocks, those rocks which she had glimpsed from the air lane. Her second thought was of the dear comfort of Dirk's arms about her. At least, this time, she wasn't hurtling to death alone.

But their fall ended before it was well begun, before, indeed, they could fully realize it; for, in a shower of sand and a tangle of branches, they struck on a shelf of rock about twenty feet below the level of the desert. For a moment they were too bruised and shaken by the jarring impact of their landing to say a word, then came Dirk's quick, anxious query as to her condition, their mutual stunned surprise that neither possessed any broken bones, and then, quite inevitably, a little hysteria on Lorraine's part. Facing him, she burst unexpectedly into a weak, shaky laugh. Dirk regarded her gravely.

"Is it funny?" he asked.

"You are! With that branch bent over your forehead, you might pass for a mountain goat."

"I may wish I were one before we get up to the desert again," said he, glancing about him.

Their ledge of safety was approximately fifteen feet long, and projected over the canyon in a lip about six or seven feet in width. Behind them the walls receded in a curve, forming a natural hollow like a room. Into this Dirk drew the girl, so that they might both be out of the way of the little whirls of sand blown down from above by the storm.

"Whoo! Listen to that wind!" she cried, tipping her head to hear the inferno raging above them. "Do you know, Dirk, there's something queer about this. The edge of the storm seems to be just at the edge of the canyon. We seem to have fallen neatly out of it. It makes me think we're lucky after all."

But Dirk was busy disentangling himself from the clutches of the scrubby little tree, which he flung from him carelessly. It rolled over to the edge of the cliff and hung there, nicely balanced, while Dirk eyed it with rancor. If the damn thing had only held! Now they'd got to get up again—or go down—before they could proceed on their way, and it would be the duece with Lorraine done in. In a vicious kind of resentment he whacked at the twigs and leaves clinging still to his neck and hair, then, feeling better, he moved cautiously to the ledge and peered over.

Below them was a sheer drop of a thousand feet or more to a black crevice whose bottom he could not see. Profound awe at what he and Lorraine had miraculously escaped held him spellbound for a few moments, then, recovering, he began to scan the canyon more closely. It took no time at all to reach one conclusion, for, as far as he could observe, not a tree grew on the unbroken surface of dull red sandstone which formed the walls of the narrow gorge on both sides. There was no question about it. If they were to get out of here they must climb up again.

But, turning, he found another problem, and he let out a whistle of genuine consternation.

"Lucky, did you say? Well, our luck is two-faced today, Lorraine," he said slowly.

"What do you mean?"

Lorraine pulled herself upright rather painfully, and her effort reminded Dirk of her fall on the desert just before the storm broke.

"What about your ankle?" he asked quickly, going to help her.

"It was just a wrench, I think, Dirk. It doesn't hurt now. I'm just sort of —banged up— all over. What do you mean about our luck? Isn't there a way up? Have you looked at the ends?"

But the sandstone rose abruptly and smoothly at both ends, just as it fell abruptly and smoothly below them. And the walls behind, leaning over to make a high natural cave, offered no possible means of escape. They looked at each other in rapidly growing apprehension, and in Lorraine's heart there was panic.

Above them the storm had swept away into distances, and the sudden quiet following its disappearance dropped like a blanket on her courageous spirit, suffocating her. She stared with slowly widening eyes at Dirk, horror pushing through the bank of her self-control like a powerful flood which threatened to engulf her. Were they to die here like rats in a trap? Weren't they even to have a chance to fight? Would they slowly starve? Or would they, maddened at last by their imprisonment in the high solitude of this cliff, fling themselves over some day, to crash to the bottom? Filled with fears, she shrank back, while Dirk, reaching to comfort her, gently pulled her still farther inside the cave and urged her to sit down while he did a little exploring.

"Don't look like that yet, Lorraine. I haven't had a chance to look around. I'm sure we can get out of this. Sit down while I poke about."

She nodded and sank where he left her, her knees drawn up in the clasp of her arms, her head dropped on them. It was queer, she thought, to funk this way, when she had always been so sure of her courage. Or perhaps she had never really needed courage before, and so had never known her lack of it. Did it really take courage to do things for which she had always been praised—high diving, long distance swimming, flying. Or did that merely demand skill and training, and was courage a quality to be discovered on sudden, unexpected, demand? If so, then she had less of it than she had supposed, and Dirk had more. He was utterly cool. He was, she thought, with a surge of queer possessive pride, marvelous.

Behind her, he was examining with minute attention the cave, which seemed to offer nothing of possible interest or encouragement. The rocky ground was level and hard, and swept clean, except for a scattered line of twigs and small branches blown close back against the wall. Dirk followed this line to one end of the cave, feeling carefully with his hands and finding only a single concave surface. Turning, he moved back past the center, where Lorraine crouched, and examined the other end. Suddenly he dropped on his knees, scraped away at a diminutive pile of leaves and brush and then let out a shout.

Startled, Lorraine looked around.

"This is an old cliff dwelling, Lorraine!" Dirk cried excitedly. "Come here! Here's the hollow in the rock where they used to have their fires." They leaned over it together. "See? It's blackened here."

"Yes. I see. You're right, I guess, Dirk. But—what good does that do?"

"Don't you see, girl? If the Indians lived here once they had to get here, didn't they? Dollars to doughnuts they didn't arrive as we did. They climbed up!"

"Oh!" She nodded, her face brightening. "Oh, of course. And if they got up, we can get down. I see, Dirk. But where? How? Oh, Dirk! Do find out quickly."

He gave a quick look into her face and, nodding, answered briefly,—"You bet." Then he went back once more to the edge of the shelf, where he lay down flat to study with care every inch of the surface below that he could see. The Indians would have carved niches and handholds. They might be barely discernible, but they must be here, sufficient for their own use.

Left by the ancient firehole, Lorraine pulled herself over to the end of the cave, where she might have a wall to lean against. Dirk had given her renewed confidence. How did he do it? Was it because he seemed never to give up, not even in his own mind? She was sure, now, that somehow they would get out of this. Wiggling and twisting against the hard discomfort of the wall, she tried to find a soft spot for her shoulder blades, and, in a little gust of irritation at its unyieldingness, she flung herself back against it, and as quickly pulled away and turned to stare over her shoulder in surprise. The next moment she was on her knees, pushing with both hands against the stone surface and crying out exultantly to Dirk:

"Come here! Come here! Dirk! This isn't solid rock! It moves! See, Dirk! Here's an edge! There's a big slab fitted in here. This is the way they got down, out It's a door!"

"You're right, by jove!"

Dirk at once set his shoulder to the slab that they could now see outlined as a huge, roughly shaped, square block, but all his best efforts only succeeded in bringing the sweat to his face. It was then, that, growling his impatience, he ripped his aviation suit from him and stood before her in the wreck of his evening clothes. His studs had long since disappeared, and the glossy, gleaming shirt was now bent and cracked and grimy. One coat sleeve was torn at the shoulder, the other out at the elbow. The buttons were gone from his vest, which swung open, and his trousers were dusty with sand.

"I can't do a thing tied up in this outfit he said, and in a second had shed his coat, vest, and shirt, and flung them from him. Then, hauling on his aviation suit again, he hurled himself with a desperate burst of strength against the stone door.

It yielded suddenly, a fraction of an inch, enough to let light through and to give them a glimpse of what appeared to be solid ground on the other side. With a yell of triumph Dirk plunged at it again, but this time it did not move. He pushed and strained with all his might, and Lorraine added her weight to his, but it would not budge.

"If I only had a lever," Dirk groaned, and then his eye fell on the little tree which had caused their fall. In a second he had dragged it from its precarious position of the cliff's edge, had chosen a stout branch, cut it off with his knife, stripped it, and was prying the opening wider with it. Inch by inch he forced it back until at last it fell with a great crash and they stepped through into another cave, almost identically like the first, except that the opening at the farther end was not closed. Lorraine was about to rush excitedly on, her sore feet forgotten, when Dirk went back into the first cave and reappeared a moment later, holding his clothes and his improvised lever in one hand and dragging the little tree with the other.

"One desert lesson learned!" he told her, smiling. "Hang onto everything. You never can tell when you'll need it."

They explored farther, with hope mounting up in their hearts as they passed through several connected caves, each one a little lower than the last, until they emerged finally into one that was larger than all the rest. It had a raised platform of rock in the center, rather like a throne, and this stone had, carved upon its surface, hundreds of curious pictographs of strange looking birds and animals, cuttings of human hands spread out, curious geometrical designs, stars and moons and suns and little figures of men in queer attitudes. This room seemed, too, to be the last of the series, and had a wall built up across the front as a kind of barrier against the drop into the canyon.

"This might have been the king's room," Lorraine suggested, seeing the picture writing. Then she moved about the cave, exploring eagerly for their next door of escape. "I don't believe these cliffs have been inhabited for years, do you, Dirk? There's not a trace of anything, not a scrap of food, not even a bone. Oh! Yes! Here's something!" She dropped onto her knees and began digging in the dirt.

But Dirk was astride the coping, staring in incredulity at what must have been the path of descent from here. A narrow ledge, not much more than eight or ten inches in width, wound downward in a gradual decline along the canyon wall, and disappeared abruptly, after about fifty feet, around a smooth curve. What lay beyond was entirely a matter of the imagination.

(To be continued)

Builds Babylon

General Juan Vicente Gomez, former president and now dictator of Venezuela, is building a modern Babylon at Maracay, Venezuela on the shore of Lake Valencia to attract visitors from all the Americas to see the fruit of his labors in the cause of progress and reconciliation. General Gomez's $60,000,000 program of public works is nearing completion and a vision from the Arabian Nights greets visitors after a 500-mile air journey from Trinidad across the Venezuelan wilderness of forest, swamps and mountains. Luxurious tropical hotels, fine roads and the construction of a vast port are some of the developments which have long been kept secret.

NOT IMPLICATED IN W. P. BULL CASE CAPONE TELLS TORONTO REPORTER

Claims He Was Not in King Edward Hotel Recently or Ever in Canada.

FOR CONTEMPT OF COURT

CHICAGO, Ill., Feb 27.—The price of illness among the Capones formed the chief topic of conversation in the U.S. District Court yesterday as "Scarface" Al's Miami physician submitted to cross-examination by the Government concerning his ministrations to the gangster, on trial for contempt of court.

Dr. Kenneth Phillips, the gangster's physician who made affidavit to his illness in 1929, occupied the witness stand through the morning. The Government Prosecutor, Jacob P. Grossman, directed cross-examination toward the financial transactions between doctor and patient.

The witness said he charged Capone $10 for the first call and $5 thereafter, his total bill running to $300 or $400.

Dr. Phillips was indignant when asked whether Capone paid him for the affidavit concerning Capone's illness, in excuse for his failure to answer the Grand Jury subpoena.

"He certainly did not," the witness said.

Denies Implicated.

Interest beyond the United States border was manifested at the trial with the appearance in court of a Toronto newspaper man who greeted Capone with a question as to whether he had any interest in the activities of W. Perkins Bull, who is in a Toronto Hospital because of injuries incurred in a motor accident while hastening from Chicago to Canada.

Capone denied implication.

"Were you in the King Edward Hotel in Toronto recently?" the reporter asked.

"No. I have never been there in my life," Capone answered, adding later "upon my word, I haven't. I have never been in Canada in my life."

Meanwhile a vagrancy charge against Capone, in which he furnished $80,000 real estate bonds yesterday, was postponed to March 4 because of his Federal Court hearing.

FELLOWSHIP OF PRAYER

DAILY LENTEN DEVOTION

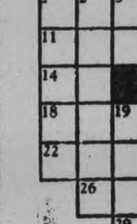
PREPARED BY THE REV CLARENCE H. WILSON, D.D. FOR THE COMMISSION ON EVANGELISM OF THE FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA

FISHING

"Fear not; from henceforth thou shalt catch men."—Luke 5:10. (Read Luke 5:1-11.)

Meditation

What a promotion! From one of the humbles of callings to that which is the greatest! And yet Peter's undoubted talent had been well schooled in the art to which he was to give the remainder of his life. The patience required, the hazards encountered, the persistence called for, these had all been excellent training for the work before him. Peter was still to be a fisher but a fisher of men. He had just shown a readiness to try again after repeated failure. How often he would need that heroic quality in the years ahead! We also are to be fishers of men. Do we know the art? Or do we thresh the waters to frighten the fish away? "Being crafty, I caught you with guile," said Paul. After failure will we try again? For Peter fishing was not a pastime; it was business. We are much too casual in our practice of the great art. Only wet nets catch fish.



THE REV CLARENCE H. WILSON, D.D.

Prayer

Increase, O God, the faith and the zeal of all Thy people that they may more earnestly desire and more diligently seek, the salvation of their fellowmen through the message of Thy love in Jesus Christ our Lord. In His name. Amen.

Lifford Line

Mr. and Mrs. Lavergne McKinley were Sunday visitors at the home of the latter's parents in Omemee, and motored to Peterborough, calling on Mr. John Sutton who has been a patient in Nicholls Hospital for some weeks.

Mr. Fred Staples, Cavan and son Gerald of Toronto, were over-night visitors at Lifford this week.

The Women's Association of Fleetwood church are arranging to meet at the home of Mrs. Archie Staples on Wednesday, March 4th.

Mr. and Mrs. Ernest Beer, Eighth Line, were host and hostess to a number of neighbouring young people on Tuesday evening.

BAILIEBORO

Mr. and Mrs. Charles Dawson of Peterborough are returning to their farm east of the village and expect to be settled in their former home this week.

The regular monthly meeting of the local branch of the C.D.F. was held in the C.D.F. hall on Tuesday evening.

Mrs. L. Larmer of Oshawa is the guest of her sister, Mrs. H. Dawson.

Miss C. Barnard, R.N., of Lindsay, who has for the past few days been the guest of her parents, returned to Lindsay on Tuesday.

The warm sun is fast melting the snow and ice from the roads, while the highway is always as dry as it will be next summer.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner office on the day before it is desired to have them inserted

THE DUNDAS' SENTENCE

To The Editor of The Examiner.

Dear sir:

Please convey my heartfelt sympathy to that true loyal mother who so ably defended her erring son in a recent issue of your paper. It seems to me that very little consideration was given to youth in this case and should any effort be made by the proper authorities to lessen the punishment, it will meet with hearty approval of a great number of those citizens who feel that the law has not been tempered with any degree of mercy, neither did it drop as the gentle rain from heaven.

Yours for faith, hope and charity,

F. J. McB.

INDIAN RIVER

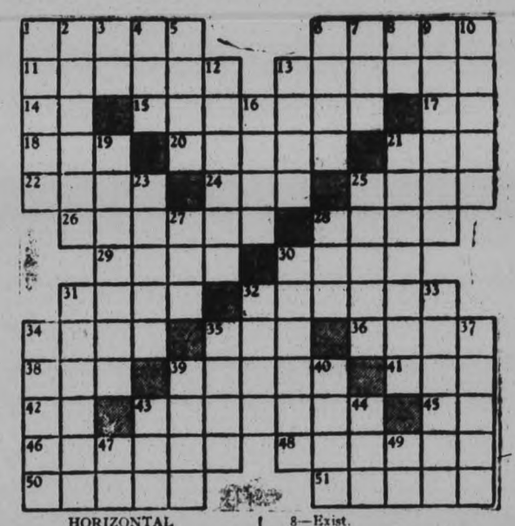
The friends of Mr. J. H. Pallin will be sorry to learn that he has been confined to his home through illness.

Miss Lila McKay spent Monday afternoon the guest of Mrs. Victor Craft.

Mr. and Mrs. Scott Huston, of Otonabee were week-end visitors with the former's sister, Mrs. Victor Craft.

Mrs. Herbert McKay is spending a few days with relatives in Lakefield.

CROSSWORD PUZZLE No. 19 5 (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—A waterway.
6 Guide straps.
11—Homes.
13—Pendant ornament.
14—Greek letter.
15—Leaves.
17—Exist.
18—Name of letter S.
20—Ancestors.
21—Owed.
22—Sheltered side (pl.).
24—Scratch.
25—To aid.
26—Having staves.
28—A prima donna.
29—Fastened.
30—Alone.
31—Girl's name.
32—Refines metal.
34—God of war.
35—A falsehood.
36—Places.
38—Part of "to be."
39—Last.
41—Speck.
42—Like.
43—More drastic.
45—River in Italy.
46—Distant.
48—Pilfered.
50—Roman public officials.
51—Ag gravate.

VERTICAL

1—A desert animal.
2—Injures.
3—Negative.
4—To total.
5—Dregs.
6—Rodents.
7—Feminine noun suffix.
8—Exist.
9—Luminous, gaseous cloud.
10—To doze.
12—Having steeples.
13 Allowance for waste.
16—Dry.
19—Determines.
21—Attached.
23—Propelled by wind.
25—Hummocks.
27—Small vegetable.
28—Female deer.
30—Daubs.
31—Rubbed out.
32—Chord of an arc.
33—Extracts ore.
34—Cognizant.
35—Animated.
37—Rock.
39—Celebration.
40—Native of Latvia.
43—The sun.
44—Fish eggs.
47—Third note of scale.
49—Louisiana (abbr.).

NORANDA IS FIRM SELLING AT $18

Price Action is Irregular on the Mining Market List.

NICKEL EASES 35.

TORONTO, Ont., Feb. 27. (CP)—Price action was irregular to lower on the Mining market to-day. Interlisted issues reflected action on other boards with minor recessions, and balance of the list displayed only mixed movements.

International Nickel eased 35 to 19.15 while Noranda held firm slighty above $18. Amulet, Abana, Sherritt and Abana, were slightly higher and balance of the base metals unchanged.

Hollinger remained easy, price dropping 5 to $7.85. Premier was off 3 to 72 and Barry, Manitoba Basin, Big Missouri, showed fractional losses. Ritchie and Eldorada made small advances.

Acme Gas was active and a couple higher in the oil section. Gains were also registered in Nordon, Home Oil, East Crest and Associated. Chemical research lost another 15 to $3.60 and Ajax Oil was off a couple to $1.68.

HEAVY SELLING IN GOLD STOCKS

Turner Valley Well Appears to be Assured of Commercial Production.

RESUME WORK AT FOLEY.

TORONTO, Ont., Feb. 27. (Special to the Examiner.)—Current softness in the higher priced gold stocks is partially attributed to selling of New York holdings acquired during the January advance in this group of mine shares. According to a local broker there has been considerable switching from the golds into other classes of securities as a result of the general strength exhibited on markets of late.

Advices from Calgary state Commonwealth Turner Valley well appeared to be assured of commercial production following a shot of 170 quarts of nitro glycerine recently. The gas fow, which is estimated between eight and nine million cubic feet, was turned into the separator. Field estimates of production possibilities at present run between 125 and 150 barrels daily. The well was shot with a dry hole, precluding the hazard of circulating fluid being blown into the formation. After the discharge, released gas blew debris high nto the air for several hours before it was turned into the pipeline. One 250 barrel tank is being utilized and another is being arranged.

The successful outcome of negotiations with British interests for new capital will result in an early resumption of operations at the Foley Gold mine near mine centre, according to word from Northwestern Ontario. There are 42 buildings on the property and equipment is on hand ready for installation. It is stated that the mine could be placed on a producing basis within four months. Two shafts have been sunk and about two miles of underground work carried out. The enterprise is under the control of British Canadian mines.

The annual general meeting of shareholders of North Star Oils Limited, will be held at the head office of the company in Winnipeg on March 10.

London metal prices were mixed today. Closing quotations follow. Standard copper 46 pounds, 10 s, off 5s. Electrolytic copper 49 pounds, 10 shillings unchanged. Tin 121 pounds 15 shillings up one pound. Lead 13 pounds 8 shillings 9 pence off one shilling three pence. Zinc, 12 pounds, 13 shillings, 9 pence, off one shilling three pence.

Reliance Mining Company of Winnipeg, who discontinued work on their Ryerson Lake property last fall, expect to move a diamond drill to the claims as soon as navigation opens in the spring The claims are just east of the Ontario Manitoba boundary and were staked in the fall of 1929. Last year's work is reported to have disclosed interesting conditions with samples assaying gold, silver, copper nickel and zinc. Prof. Derry, Ontario Department of Mines, spent some time in the district, but his report is not yet available.

MISS ENGLAND II. ON WAY TO SOUTH AMERICA.

LONDON, February 27 (C.P.) — The motorboat Miss England II., in which the racing driver Kaye Don will attempt the defence of Great Britain's water speed record at Buenos Aires, was shipped aboard the liner Stuart Star which sailed for South America to-day.

TARIFFS IS TOPIC AT GRAIN PARLEY

Only Outcome Seen is Adoption of Resolution Favoring European Grain Preference.

SESSION ENDS SATURDAY.

(By George Hambleton, C. P. Staff Correspondent)

PARIS, Feb. 27. — The European Cereals Conference closes tomorrow, when it will make recommendations to the committee of enquiry for the European Union. Today's discussions were devoted to preferences—other than customs tariffs—in favor of the grain exporting countries of Europe. The afternoon was occupied by the formal sub-committee work of drafting the recommendations.

On behalf of the grain exporting countries Jugo-Slavia today expressed her readiness to accept concrete grain preferences, outside of tariff schedules, but submitted that such preferences could not replace tariff preferences.

The Outcome

The indications were however that the conference was not likely to do more than adopt a resolution of a general principle in favor of preference for European grain. Opinion on tariff preferences was evidently divided.

The agricultural states of Eastern Europe endeavored to secure customs preferences for their grain at the Geneva economic conference last November. It was then held that the preferences would not harm any overseas grain exporting countries, as they would always be the main providers for Europe, which is very far from growing enough to meet its own requirements. Preferential treatment would involve agreements with countries that already have trade treaties and could not be applied unless they joined in.

The non-customs preferences that are now suggested are the establishment of credits, favorable railway rates, the establishment of import and export bureaux, the introduction of negotiable way-bills and changes in the customs regulations.

FOREIGN EXCHANGE.

NEW YORK, Feb. 27. (CP)—Prime mercantile paper 2½-2¾ per cent.

Foreign exchange steady, demand rates (Great Britain in dollars, others in cents)9 Great Britain 4.85 5-8, France 3.91 13-16; Italy 5.23¼; Germany 23.76; Canadian dollar at par.

STUDENTS CLAIM

(Continued from Page 1)

marked one graduate. "You spank him. Why should we do more with Varsity?"

Board of Governors Worst.

Practical atheism is at its worst among the Board of Governors of the University of Toronto, according to Allan, editor of the Varsity, in a subsequent interview to-day.

"The best collection of atheists is among the Board of Governors," he declared. "If I had said in the editorial, that every student thought of God and Jesus Christ and believed in all the words of the Bible, they would have said I was a good boy, and told me to write articles for Sunday school papers. But if I was to say all that, I would not be telling the truth.

"The Board of Governors, in passing that resolution repudiating my claim, is nothing more than a political move to shuffle into shelter. The University authorities are very well aware that there are influences down town who would wish to curtail the funds given to the University, and the Governors are merely afraid that if they did not squash my statement they themselves and the political and financial status of the University would be affected.

Meant Every Word.

"When I said that practical atheism exists in the University I was perfectly sincere, and I meant every word that I said. I stand by that assertion. And what is more, I seriously mean it, and that is what I cannot say of the Board of Governors. The Governors do not care whether we students think of God or do not think of God. But what they are mainly interested in is purely the political aspect of the University."

Mr. Allan said to The Examiner that he himself was not an atheist and that he was the son of a Presbyterian minister, "who was a human also," and that is more than can be said for most ministers.

Has Faith In Son.

It was news to Mrs. Allan, when The Examiner talked to her to-day, that the Board of Governors had met and seriously debated the matter last night, leaving the matter of punishment to be attended to by the caput. She did not seem dismayed by the tidings; she said she had faith in her son.

"Has he had any Church affiliations?" Mrs. Allan was asked. "Yes, he has," she replied, and stated that when the family lived in the United States the young man was quite active in Church connections.

PECULIARITIES OF PACIFIC SALMON

Unlike the Atlantic Coast salmon which spawn several times, the Pacific salmon spawn but once and die immediately thereafter at the river spawning ground. All the five varieties of Pacific salmon are members of the one family (Oncorhynchus) but show interesting differences in length of natural life span. The pink lives only two years; the coho, three; the chum, four; the sockeye, four to five; and the spring, six or seven.

Off To Boost Trade

CANADIAN COMMISSIONER LEAVES FOR AFRICA

G. R. Stevens, Montreal, trade commissioner of Canada, is seen here with his wife just before their departure on a one year's business trip to East Africa.

MARKET IS SOFT TRADING IS SLOW

Nickel Brazilian and Ford Go Down When Standard Opens.

COPPERS POINT HIGHER.

TORONTO, Ont., Feb. 27. (CP)—An irregular opening was succeeded by midday firmness on Toronto Stock Exchange as leaders, especially the coppers, pointed higher with New York in the second hour.

Pivotal stocks were unchanged to lower on initial sales, and most of those issues which came out, sank lower the first hour of trading. With the market inclined to softness, trading was on an extremely small scale in comparison with sessions when prices were rising.

Nickel, Brazilian, Ford of Canada, Bell Telephone, Walkers and several of the oils went down at the opening, showing fractional losses as compared with last night. On the other hand, Atlantic Sugar continued upward, setting a new top price above 32. Dominion Stores rose slightly and Canadian Canners "A" and "B" were firmer. Loblaw "A" held to yesterday's high and the "B" shoved upward to a 1931 record price of 14.

The upswing carried Nickel just above last night's close, Bell Telephone, C.P.R., Walkers made up small losses.

ATLANTIC SUGAR HITS NEW HIGH

Consolidated Smelters is Also Up Few Points on Montreal Exchange.

C.P.R. DOWN QUARTER.

MONTREAL, Que., Feb. 27. (CP)—Atlantic Sugar reached a new high on the Montreal Stock Exchange to-day, moving up to 34½ at noon, 2¼ points above yesterday's close. Consolidated Smelting stock was als up up 2¼ points at 180 Viau Biscuit sold off two points at 18 by midday.

Nickel was unchanged from yesterday's close, Brazilian was up 1-8 at 26½. Canadian Pacific Railway dropped ¼ at 44. Dominion Bridge, Massey Harris and National Steel Car each lost ½ in forenoon trading.

Abitibi advanced one point at 13½, and Quebec Power and Paper Corporation both moved up ½.

Two London policemen were found guilty recently of breaking into a house and stealing several articles.

Garment Workers' Strike is Settled

TORONTO, Ont., February 27 (C.P.). — Three employers in conference with officials of the International Garment Workers have definitely agreed to conditions and wages asked by the dressmakers' section of the union, according to a statement issued this afternoon by Bernard Shane, general organizer of the union.

"The agreements with these employers have not been signed because we will have to visit these shops and see what conditions are to be remedied before we can put the clauses in the agreements. But these employers have definitely agreed to do what we ask in the way of wages and conditions," Mr. Shane said.

KERR ADDRESSES

(Continued from Page 1)

ed. Throughout the United Counties of Northumberland and Durham and in Peterborough County and much further afield, said Mr. O'Brien the name Kerr is looked up to. The name represents a family of capable lawyers who stand high in their profession and also in the social world.

World Awakening

In the course of his very virile address, Mr. Kerr proceeded to prove how the world is steadily awakening to a response of the Divine commands. "The greatest of all law givers, was the Man of Galilee," he asserted, "to whom to-day wise men of the West—statesmen, philosophers, legislators and thinkers are drawing near because they know that law the Man of Galilee laid down to "love thy neighbor as thyself" is the only solution to world problems. It is a response which has been slow in coming, but to-day in every occupation in life man is beginning to realise the fundamental underlying law is the law of love; the law of goodwill. It is only fitting that those in the outside world should sometimes come together without the Church and its surroundings, and the work you are doing in the Kiwanis Club is a response to that law to love thy neighbor as thyself.

Mr. Kerr said he never walked through Jackson Park without seeing the Kiwanis Camp and without thinking that in constructing such a camp the Kiwanians had consciously or unconsciously carried out the words of the Master who had said, "As you do it even unto the least of these My children, you do unto Me."

"I say without any hesitation, that thanks to a greater appreciation of the Divine Law there is growing a greater development of social service organizations such as the Kiwanis and Rotary Clubs."

Mr. Kerr proceeded to enumerate the many reforms which have been made in the statutes since he first started to practise law, mentioning the Old Age Pensions, legislation for the protection of children, and other laws reacting to the benefit of criminals and the assurance of a just trial. Such changes did not come from the law-makers themselves, but as a response to the Divine Commandment "Love thy neighbor as thyself."

Referring to the Russian situation and the fact that Russians are tearing down their images and altars symbolic of God, and all that contributes to civilization, the speaker said, "I ask you if they were to retain those symbols and were to teach the doctrine of love instead of the doctrine of hate, what a wonderful thing the Russian movement would mean to the world."

On the motion of Wilbert Freel, Mr. Kerr was accorded a very hearty vote of thanks.

During the course of the meeting two new members were initiated into the club in the persons of A. B. Gates of the C.G.E. Staff, and Jack Hall, recently appointed manager of the C.D. Stores in succession to W. F. Butcher.

Rev. J. D. Paterson, officiating in the absence of Bert Wainman of the Educational Committee, stated that Mr. Gates, representing industry, was the first member of the C.G.E. staff so far as he know, to become a member of the club. Jack Hall, he said, represented business. He asked them to realise that the club is inspired by high ideals.

Mr. Gates was later assigned to work on the Sunshine Committee, while Mr. Hall was placed on the Sports Committee.

The booster for the day was Ivan Lillico, who introduced Charles Cummings, partner in the firm of Hood and Commings, automobile dealers. He referred to Mr. Cummings' business acumen and the fact that he is a member of the Y.M.C.A. and Chamber of Commerce and occupies a very high regard in the esteem of his fellow Kiwanians and business associates.

CHRYSLER HEAD PREDICTS FUTURE

Season Will See Increase in Manufacture and Sales of Motor Cars.

ROADS ARE BIG FACTOR.

It is not difficult to predict with confidence a great future for the automobile industry in Canada. There is no shadow of doubt that the future will see increases in the manufacture and sale of motor vehicles, both passenger and commercial which will make present production and sale seem small by comparison. Export business also will increase as larger domestic volume places Canada in a more and more favorable position to compete in foreign markets.

In order to see the reasonableness of these views, it is necessary for us to get on our long vision spectacles. It is possible for us to get so close to the job of meeting the immediate problems and difficulties of the industry that we cannot see over them to the greater possibilities beyond. Let us forget for a moment therefore the immediate problems which are in the nature of the industry and those which are due to temporary economic conditions and take a look at the big factors which are working for the success of the industry over the "long pull."

The first of these factors is the undeveloped state of the Dominion in relation to known and potential resources. When we consider this it is impossible to be anything but a "bull" on Canada. Every decade in Canadian economic history has seen developments which would have seemed impossible at the beginning of the period. Developments which would have seemed impossible at the beginning of the period. Developments in electric power, manufacturing, mining, agriculture, railroads, highways, education, population—every factor in economic life. Ten years ago the Peace River Country and the Hudson Bay region seemed as remote as the prairie and mountain regions seemed before the building of the Canadian Pacific Railway. They were inaccessible except to pioneer modes of transportation. To-day they are talked about as closely linked with our economic life. They no longer seem far off. In a few years we will wonder how we could ever have thought of them as remote.

Good Roads

Good roads development will also make for increase in the distribution and use of motor vehicles. The trans-Canada Highway will soon be an accomplished fact. Good roads construction and improvement throughout Canada in recent years has been phenomenal. Additional programs are being planned and carried out in every Province of the Dominion. The Prairie Provinces especially are making ambitious plans which they will carry out in the vigorous manner characteristic of them. The good roads history of the past ten years will repeat itself in the next decade. By 1940 existing highway systems will make the roads of to-day appear as inadequate as the roads of 1920 would appear to us now.

A third factor is the growth of Canada as a manufacturing country. Canada is definitely committed to industrialization, both by endowment of nature and by tariff policies of the past and present. The great water powers of the Dominion, developed and potential, and the vast stores of raw materials available, definitely mark out Canada's industrial destiny. It would be sheer folly to allow these resources to remain undeveloped or to perform only the hard and comparatively unprofitable labor of shovelling out our raw materials for other nations to use. Canada must continue to progress in the utilizing of her raw materials in the higher stages of manufacture which employ more labor and skill and are more profitable.

A fourth factor which will aid the manufacture and sale of automobiles is the rapid increase of the use of commercial vehicles for the transportation of goods and passengers. The speed and flexibility of motor transport, especially for short hauls, will win for the commercial motor vehicle a rapidly increasing place in our economic life.

Every one of these factors ensure the future expansion of the motor car industry in Canada. Through all the ups and downs of business the manufacture and sale of motor vehicles will grow. This growth will be proportionate to the growth of Canada—nothing can stop it.

SIX MEXICANS DIE IN FIGHT

CIUDAD CUZMAN, Jalisco, Mexico Feb. 27. (AP)—A report received here from the town of Ejutla to-day said that six persons were killed there yesterday in a battle between the police and a group which tried to stage a street political meeting.

SIX NEGROES ELECTROCUTED

COLUMBIA, S.C., Feb. 27 (CP)—Six negroes were electrocuted in the South Carolina penitentiary early today for the murder of two Lexington County white men.

They went to their deaths calmly and with prayers on their lips.

Almost two hours were required for the executions.

HAMILTON GETS $227,250 CHEQUE.

HAMILTON, Ont., Feb. 27 (C.P.).—A cheque for $227,250.72 was received by the city treasurer this morning, covering the joint governmental contributions toward relief work expenses incurred during the month of December, and for direct relief expended during January. Altogether, the city has received thus far $356,244.47 from Dominion and Provincial Governments since the present depression began.

Blast Extinguishes Flames Of Gasser

WEWOKA, Okla., Feb. 27. (CP)—An explosion of nitroglycerine blew out the fire at an uncontrolled gas well of the Deep Rock Oil Corporation one mile south of here to-day.

The charge, placed within a foot of the mouth of the well in an iron carriage, was fired by electricity.

As the explosion came the flames appeared to hover in the air a hundred feet above the ground. Then the smoke cleared and there was left only the spoting clear gas from the well.

TRADING VOLUME DROPS SLIGHTLY AT WALL STREET

Firm Market For Copper Carries Stocks Up Point or Two.

MINOR ISSUES ACTIVE.

U. S. Steel Well Supported, Gains Point After Allowing for Dividend.

NEW YORK, Feb. 27 (C.P.).—Professional traders kept the bull market in stocks simmering to-day by stirring up several of the specialty and minor issues, after speculative fires in the recent leaders were cooled by a wave of profit-taking.

The list sold off substantially during the early trading, a handful of shares losing 2 to 4 points, but other shares were shortly brought forward to show gains of 2 to 5, and losses were largely recovered. The advance was facilitated by a firm market for copper metal, which carried the copper issues up a point or two. The volume of trading slackened considerably from the pace of the past three days.

Radio Corp slipped off 2 points in the early trading but recovered to show a slight gain by early afternoon. U. S. Steel was well supported, and sold up over a point after allowing for the dividend.

CABLE PRAYERS TO THE DIOCESE

(Continued from page one)

choir of seminarians chanted the beautiful Gregorian Antiphon, "In Paradisium" (into paradise). As the chanting rose and fell, acolytes swung censors before the slow moving mourners bearing the heavy casket.

Arrived within the chapel of St. Thomas, the body was taken directly to the side of the open crypt and laid beside it.

The chanters then began the canticle of Zachary called the "Benedictus."

Then in Latin Archbishop McNeil recited the beautiful prayer which is required by the ritual at every burial.

The body was then lowered into the crypt, with the head lying to the west as required by the cannons, and the archbishop began to chant the ancient "Deprofundis," which was taken up by the choir.

The mourners then retired from the tomb. The heavy marble slab was moved over the crypt, and the body of Bishop Fallon began its long rest within the seminary, which stands as a monument to him and to the fulfilment of his fondest dreams in life.

No Funeral Oration.

Strange as it might have seemed, Michael Francis Fallon's dying wish that there be no funeral oration was kept to-day, and yet Bishop Denis O'Connor of Peterborough, until last summer Bishop Fallon's Vicar-General, and most trusted friend, spoke. No eulogy, no high-sounding words of praise, but the rhetorical words of the church regarding one of her tried and found-true workers.

"Michael Francis Fallon is dead" Bishop O'Connor said, his voice dropping almost to a whisper. "He was a child of God—a member of His church militant. He was also an educator, an administrator, a builder for this world and for God. Michael Francis Fallon, Bishop of God's holy church, is dead."

Then came the most touching reference of his brief sermon:

"Almost three years ago, after he first came back out of the valley of death, he said, 'I was tired, and I wanted to rest.'

"So pray, brethren, that God will grant his soul that eternal rest he so earnestly desired."

The message from Pope Pius XI. conveying his sincere condolences to the Diocese of London in the death of Bishop Fallon, read:

Vatican City, February 24, 1931.

The Holy Father paternally is grieved at the news of the death of His Lordship Bishop Fallon, and prays for the eternal rest of his soul, sending also his sincerest condolences to the Diocese of London.

(Signed) Cardinal Pacelli.

Chicago Grain Market Displays Steadiness

CHICAGO, Ill., Feb. 27. — Grain prices displayed notable steadiness early to-day, contrasting with sharp setbacks which followed first announcement of proposed stop-loss export selling of Government-sponsored wheat. A majority of traders acted on opinions expressed that moves to dispose of American seaboard stock of wheat would be helpful in avoiding congestion later. Opening at ⅛ cent off to 1-8 up, wheat afterward held near to the initial range. Corn started 3-8 lower to 3-8 higher and subsequently showed little change.

SYNDICATE PAYS MILLIONS TO BUY PULITZER PAPER

Few Hours After Will Broken Famed New York Sheet Sold.

PASSES TO SCRIPPS.

Half a Million to be Distributed Among Old Employees.

NEW YORK, N.Y., February 27 (C.P.). — The New York World Newspapers passed to the control of the Scripps-Howard Syndicate to-day.

On the minute at midnight, Surrogate James A. Foley decided that Joseph Pulitzer's will not enjoin his three sons from disposing of their newspaper trust.

Less than two hours later, in a Wall Street office, the sale was consummated by the three Pulitzer brothers, Ralph, Joseph, Jr., and Herbert and Roy W. Howard, chairman of the board of the Scripps-Howard, for a sum estimated at $5,000,000.

The sale went into effect with the first edition of the Scripps-Howard paper this morning, merging The Evening World, The Morning World, and The Sunday World with The New York Telegram. The new paper is known as The World-Telegram.

Building Not Included.

The contract provides for a cash payment of $500,000, $2,000,000 in notes, $500,000 cash within ninety days, and $2,000,000 more contingent upon the profits of the new enterprise. The physical properties such as building and machinery are not involved in the sale.

The Pulitzer brothers issued a statement that economic conditions had made the sale "inexorable" and that $500,000 of the proceeds would be distributed to employees.

The task of sending The World to press for the last time went forward in the gold-domed building on Park Row as the news of the sale came in.

Workers Receive News.

The 2,867 workers paid their farewells in silence, tears, and song. Gathered around James W. Barrett, city editor for ten years, the editorial staff sang to the tune of "Goodnight, Ladies" an improved swan song, "Good-bye, World, We're Going to Leave You Now." Then the strains of "Hail, Hail, the Gang's All Here" swept through the paper-littered room and the last staff meeting became history.

NOTED OFFICER DIRECTS ATTACK

(Continued from page one)

ing navy to the oil-burning systems installed just before the war, and pours scorn on the submarine, which he considers useful only as a limited part of home port and coastal defense. With unhesitating condemnation he declares he has little use for the naval air arm.

"The naval general staff is not only unnecessary but is a positive source of confusion and danger," he writes, "being indeed the seed-bed from which all our post-war white elephants and unsound policies have sprung. Naval research has produced freak battleships, freak submarines, freak aircraft carriers and freak repair ships which litter the seas, or to be more accurate, the dock-yards, where they are in a perpetual state of repair and re-design."

Naval Officers Amazed

Naval officers who take pride in the Nelson and her sister ship, the Rodney, as the embodiment of the ultra-modern in battleships, with their revolutionary method of grouping the superstructure and their enormous gunpower, regard Acworth's charges with amazement. They also point out a 12,000-ton vessel such as he suggests would not be much good in the face of the battleships of other powers.

As for Acworth's charges against Fisher, that driving personality who exacted swift retribution from the German raiders under Von Spee at Falkland, Fisher cannot defend himself. He died in 1920. Fisher was a powerful influence; he pushed a great building program through with unprecedented speed; he had the navy concentrated in the North Sea before war ever broke out, and he was an untiring advocate of an offensive policy.

Legge's Statement Eases Sagging Market

CHICAGO, Ill., Feb. 27. (CP)—A re-assuring statement from Chairman Alexander Legge of the Federal Farm Board eased a sagging wheat market yesterday.

Legge declared there was no intention to foster international price cutting. His statement followed the announcement of the Grain Stabilization Corporation that it planned to export 35 million bushels of wheat in the next few months to make room for the 1931 crop surplus. It forced wheat down, but the rally, during the brief moments before the close, brought the closing figure to 65 3-8 to 1-2.

MAN 82 GIVEN THREE YEARS.

HAMILTON, Ont., Feb. 27 (C.P.).—James Lindsay, 9 Wood Street, aged 82 years, was sentenced to three years in Portsmouth Penitentiary by Magistrate Burbidge this morning. Lindsay, who for years has been a familiar character in this city, was found guilty of living on the avails of prostitution, procuring and contributing to juvenile delinquency.

CANADIAN PARTY DOES MUCH TO AID GOOD WILL AND TRADE WITH CUBA

Leave Havana For Cruise Over Caribbean to Trinidad.

SECOND PART OF CALL.

HAVANA, Feb. 27 (C.P. Cable). — After a busy day in which much was accomplished towards increasing goodwill between Canada and Cuba, the large Canadian goodwill and trade mission was to-day again on board the steamer Prince Robert, sailing over the blue Caribbean towards Port of Spain, Trinidad, where they are due to arrive on Monday morning.

Leading business men of Havana conferred with the many prominent Canadians in the delegation at a cordial gathering on board the steamer in port here yesterday. Narcis Macia, on behalf of the Cubans, expressed the hope that Canada's trade with Cuba would increase.

Perley Thanks Cubans

Sir George Perley, representing the Canadian Government, thanked the Cubans for their cordial welcome, while J. H. Woods, of Calgary, Alta., President of the Canadian Chamber of Commerce, on behalf of the Canadians, said that in the eyes of Canada, Havana was a near and intimate neighbor.

"The circumstances of the great war by which Havana's destinies had been altered, were very familiar to the Canadian people," said Mr. Woods. While he stated frankly that the great object among his people was to build up the trade with the British West Indies, a trade which had increased largely during recent years, Mr. Woods said this had not in the least diminished the friendship and respect which they possessed for the people of this beautiful island.

This was the first port of call on the journey, Mr. Woods recalled, adding the passengers felt intense pleasure in putting foot on friendly soil after nearly a week at sea. Their journey through these enchanting lands would give the Canadians memories to carry home, in which affection for new friends and admiration for new scenes would mingle for many years.

All-Star Choice In National League

Following is the 25th of a Canadian Press series of all-star teams of the National Hockey League by hockey editors in N.H.L. cities:

By Howard G Raynor, The Post, Boston.

First team	Position	Alternate team
	Goal.	
Thompson (Bos.)		Gardner (Chi.)
	R. Defence.	
Shore (Bos.)		Owen (Bos.)
	L. Defence.	
Clancy (Tor.)		S. Mantha (Can.)
	Centre.	
Morenz (Can.)		Goodfellow (Det.)
	R. Wing.	
W. Cook (N.Y.Ran.)		Smith (Mar.)
	L. Wing.	
Joliat (Can.)		Barry (Bos.)

Woman Mute 4 Years Speaks As Son Is Shot

NEWARK, N.J., Feb. 27 (C.P.)—A pistol shot rang through a little home here last night, and Mrs. Catherine Zenito, 60, deprived of speech for four years by a paralytic stroke, screamed "My boy."

Rose, her daughter, rushed to the bathroom. Her brother John was laying on the floor. He was dead, a pistol lying beside him.

To-day, Mrs. Zenito lay in a coma while doctors tried to save her life, believing if she could be brought back to consciousness her power of speech would be restored permanently.

CURLING NOTES

LINDSAY, Feb. 27.—During the afternoon the first round of the Peterborough-Lindsay trophy was played between four Lindsay and four visiting rinks.

On the completion of the four games an adding machine was called in, and the final result showed Lindsay had a 40 point lead to take to Peterborough with them when they play the return games.

The Carew-Bacon game, besides figuring in the Peterborough-Lindsay affair, was played as a double-header. The other half of the "double" was Peterborough's challenge for the Carew Cup.

Carew was one-up at the finish, but what a game it was! Three up coming home on the 16th, seemed to be a good enough lead for the locals, but the winner was not declared until Bacon's last rock came to rest.

When the Peterborough skip came to play his last stone they were lying two shots. Bacon tried to draw through a narrow port for a third counter, but was just a trifle narrow, and the game was over without an extra end.

Score by ends of the Carew Cup game is as follows:

Bacon .. .. .. 120 300 000 110 120 2—13
Carew .. .. .. 001 023 121 001 003 0—14

That was the only close game of the four. The others were walk-overs for the locals.

Following is the personnel of the rinks and the scores:

Peterborough	Lindsay.
L. Bowes	N. Moore
J. Howden	O. Culbert
H. Foote	B. Courtney
R. F. Downey sk 6	B. Everson sk 20
B. Chesler	W. Heaslip
G. Sanderson	F. Bruce
E. Metcalf	R. Burke
C. Seymour sk 8	F. Williams sk 20
R. Anderson	S. P. Beal
F. Ashby	Dr. H. Logan
M. Chenhall	R. Butler
J. N. Bacon sk 13	A. Carew sk 14
W. Nugent	H. Williamson
N. Hambly	J. Burns
R. Best	W. G. Carlisle
G. Hall sk 12	W. E. Reesor sk 25
Total 39	Total 79

Majority for Lindsay, 40 shots.

ALIBI IS PLEADED AT MURDER TRIAL

Suspect Admits Being Ejected From Victim's House on Fatal Night.

HEARD SCREAMS LATER.

ST. JOHN'S Nfld., Fem. 27. (CP)—At the resumption yesterday of his trial on a charge of murdering John Thistle at Curling on New Year's eve, Reginald Boland pleaded an alibi stating he had spent part of the evening with Mrs. Thistle at her home, and when her husband was heard returning he hid in the cellar, wher he was found by Thistle and ordered outside. He left at about 11.08 p.m. said the accused, and after having supper at his own home walked towards the Thistle residence calling the attention of several women to screams that appeared to come from the house. He was at home again before midnight, and heard nothing of the shooting until the next morning.

Boland admitted visiting Mrs. Thistle for some time unknown to her husband, but denied there had been any liaison.

Several witnesses of the defense remain to be called.

Down To The Deeps

HARBOR QUEEN INSPECTS HER DOMAIN

Beatrice Lee of Los Angeles, who has been chosen queen of the harbor day aquatic festivities there, inspects her royal wardrobe and tries on her diving outfit prior to inspecting her domain. The celebrations precede the opening races of the annual national mid-winter sailing championships.

PEACE IN INDIA STILL IN DOUBT

Gandhi and Lord Irwin's Conferences Halt on Big Question.

OUTCOME IN BALANCE.

NEW DELHI, India, February 27 (C.P. Cable). — The Indian situation has reached a critical stage. Following receipt of a cable from the Imperial Government, the Viceroy of India, Lord Irwin, to-day requested Mahatma Gandhi to come to the Viceroy's House for a further conference.

The talks between Lord Irwin and the Hindu Nationalist leader were temporarily discontinued while Lord Irwin consulted the Home Government. On the outcome of the renewed discussions depends the highly important question of whether the Nationalists are to co-operate with other sections of Indian opinion in working out the details of the scheme of modified self-government produced at the London Round Table Conference and approved by Premier Ramsay MacDonald.

Failed to Agree

The Viceroy and Gandhi had a long conference to-day, but another "adjournment" was found necessary. It was understood they had failed to agree on a point considered vital to the impending negotiations.

The Viceroy is believed to have considered it necessary to again refer to the Home Government. Gandhi, afterwards, said the "talks might be resumed."

Gandhi has been pressing for some far-reaching concessions, such as unrestricted right to picket stores selling foreign cloth, and release of the thousands of "political prisoners" still held by the authorities.

Murders, Hangings In Bandit Foray

PUERTO, Mexico, Feb. 27 (C.P.).—Troops pursuing bandits who yesterday killed three railroad employees near here, last night captured two of the marauders and executed them, dispersing their companions.

The bandit gang held up a gas line car on which the railroad men were travelling, wrecked the car and then hacked their victims to death with machetes or short swords.

A rancher and his wife whom the gang had captured later escaped.

CAPONE'S GUARD TO BE DEPORTED

Tony Volpe Listed Third in Group of "Public Enemies."

UNLAWFULLY IN U. S.

WASHINGTON, D.C., Feb. 27.—(A.P.)—Secretary Doak to-day ordered the deportation of Tony ("Mops") Volpe, known as a body guard of Al Capone, Chicago gang chief, and labelled as a public enemy by a Chicago Civic Committee.

The order came at the end of an inquiry which led to the determination that Volpe was an alien unlawfully in the United States.

Proceedings were instituted against him some time ago, but after the preliminary finding by immigration tribunals at Chicago that he was liable to exile, his counsel appealed both to courts there and to the Labor Department here.

Secretary Doak's decision was taken after a review of all the facts elicited. The man is at present out on bond.

Volpe's association with Capone has been intimate and he is in addition, brother-in-law to the late "Diamond Joe" Esposito, whose death occurred in one of the gang struggles. Volpe was placed third on the list of "public enemies" which the committee formally named months ago.

WELSH SOCIETY HOLDS DEBATE

Several New Members Are Enrolled—Self Government For Wales.

AFFIRMATIVE WINS.

The St. David's Society met on Tuesday evening in the Chamber of Commerce at 8 o'clock with a record attendance. Several new members were enrolled. The meeting then took the form of a debate, "Resolved, that Wales should be self-governing. Mrs. George Blowers, in the absence of Tom Davies, Barnardo Avenue, led the affirmative, emphasizing strongly the need of self-government for Wales from a patriotic and educational standpoint. Charles Lloyd led the negative, emphasizing the need of unity, and pointing out the disadvantages that would arise from self-government. He said the fact that Wales was loyal and that accounted for her non-enthusiasm for self-government.

Several speakers from the floor voiced their opinions, some speaking in English, others in the mother tongue. When the vote was cast, the affirmative proved the winner by a majority of seven votes. Every member expressed the opinion of having spent a very enjoyable evening, and each one is looking forward eagerly to the St. David's Day celebration to be held at the Empress Hotel on Monday evening, March 2.

Canal Zone construction projects recently launched are helping the unemployment situation in Panama.

INSURANCE MEN SHOW OPTIMISM AT CONVENTION

No Minor Chords or Blue Notes at To-day's Sales Congress.

METHODS DISCUSSED.

Alderman McNabb Extends Civic Welcome as Representative of Mayor Denne.

Not an echo of the "contemporary blues" reached the auditorium of the Public Library this morning where the annual sales congress of the Life Underwriters' Association of this district was proceeding with all the confidence and decision of former conventions. Apparently there is no slump in the life insurance business; at any rate there are no signs or reflections of it among its active proponents.

To-day's congress program and its addresses were all constructive and helpful and likewise cheerful, suggesting that money is just as fluent and available for life insurance as ever. The attendance was as large as usual. E. L. Sackville, president of the Life Underwriters' Association of Peterborough, chairman of to-day's sessions, introduced this morning Alderman J. A. McNabb, who on behalf of Mayor Denne, extended a civic welcome to the assembled underwriters.

Ald. McNabb said he was deputed by Mayor Denne who was prevented by another engagement from being present to express the city's welcome.

"The citizens of Peterborough are very proud of their city, of their churches, schools, industries, public institutions and also of their comparative steadiness of general business and employment" Alderman McNabb said. "As the representative of His Worship the Mayor I am glad to welcome you and the organization of which you are members. The people of Peterborough appreciate the value of life insurance. That can be easily verified by the number members of your association in this city and district, by the amount of insurance they write every year, and especially by the character and qualifications of the men who are engaged in the life insurance business as we know them. I hope your convention will be a success, and that you will come back again to Peterborough."

Address on Prospecting

The first address was given by W. D. Rutherford of Toronto, a representative of the Sun Life Assurance Company. His subject was "Prospecting" a practical discussion of a fundamental in the production of life insurance. As an approach to the selling of insurance Mr. Rutherford advised the salesmen to ascertain the ambitions and aims of the prospects. "Find out what the men we are calling on are trying to do; how well they are doing it; and finally to what extent life insurance will help them accomplish their ambitions. If a man is ambitious, if he is not contented with dragging along all his life in a low wage job, life insurance is one of the means by which his objective can be attained."

Mr. Rutherford dismissed the opinion that insurance men should not canvass their friends. One of the sharpest reproaches which he could experience was to meet the widow of one of his former friends to whom the salesman did not try to sell insurance because of their friendship.

Mr. Rutherford remarked that the possibilities and methods of prospecting had been frequently combed over. He concluded his address with a decidedly practical and helpful review of how promising prospects can be discovered by the imaginative representatives of insurance companies.

A Former Lawyer

A. E. Rundle of Toronto, referred to on the program as an outstanding personal producer for the North American Life Assurance Company, as a former lawyer and also a past president of the Life Underwriters' Association of Toronto, presented the second topic of the morning, "Business Insurance for the Average Man". Three principal classes of business that need this insurance Mr. Rundle said, are the one man business, the partnership and the limited company. In all of these the personal factor and element is of the utmost importance.

L. W. Dunstall, secretary of the Life Underwriters' Association of Canada spoke on "The value of the C.L.U. Degree" and the concluding address of the morning was L. M. Montgomery's talk on "Salesmanship". Mr. Montgomery is of the Toronto staff of the Sun Life.

First Public Speech

"This is absolutely the first public speech I have ever made" Mr. Montgomery informed his audience. The program intimated that he led the Toronto organization of the Sun Life company last year.

Work or industry, confidence, enthusiasm and knowledge were the salient points of Mr. Montgomery's prescription for success in selling life insurance. The salesman in a city like Peterborough of a smaller town had a decided advantage over the men in Toronto because of their personal acquaintance with the people.

"You know most of the people in your communities" Mr. Montgomery said. "I don't know more than three or four men who live on my street. I set myself a definite objective of the amount of insurance I would sell and as a means to that end I decided to make ten new contracts during three days every week. Another decision was a definite number of hours of work every day. We have no time clock to punch, and for that very reason we should regulate our own working days."

Knowledge and enthusiasm were stressed by Mr. Montgomry as prerequisites in selling insurance; enthusiasm for the company. All the insurance companies in this country are good and sound because the Dominion Department of Finance demands this condition and safeguards it for the public.

COGS AND C.G.E. IN FINAL DASH

Fight For Second Place Finds Teams With Pick of Local Puck Chasers.

BOTH FULL STRENGTH.

All indications point to a stirring battle at Brock Street rink to-night when Cogs and C.G.E. come together in a last frantic rush toward a place in the East Peterborough League championship play-offs. The toolmakers must win to-night, and in an effort to break the Cogs' jinx will use the same strong team that defeated Lakefield on Wednesday night. Cogs also will be at full strength with a front line of Maudsley, Jones and Dallin. The contest will start at 8.15 o'clock and will be played to a decision with Max Board as referee. Lakefield and Norwood fans will be well represented.

The teams:

Cogs—Goal, Payne or Foley; defense, Williams and Lebarr; forwards, Dallin, Maudsley and Jones; alternates, Calladine, Cripps, Jarvis Rooke.

C.G.E. — Goal, Hollingsworth or Jones; defense, Lackie, Howe; forwards, Hatton, Creighton, H. Epps. Alternates, Calladine, Ellis, R. Epps Hayden.

Golfers Move South For Belleair Open

JACKSONVILLE, Fla., Feb. 27. — (C.P.)—The golfing caravan moved southward from here to-day in quest of more gold and fame at the renewal of the Belleair open tournament which starts to-morrow.

Joe Turnesa, Elmsford, New York, pro., won the Miami open in early January, and Whiffy Cox of Brooklyn, who quit the navy some years back to earn his own was through the money tournaments led the way to the gulf coast city. They tied for first and second money in the Florida open here. They had 291 blows each for the 72 holes of play here with a net of $500 apiece.

They were trailed by Al Espinosa, Chicago veteran of many golfing wars and Horton Smith of Craigston, N.Y., the greatest Roman of them all a couple of years ago, but who lately has not won a tournament. Al and Horton split third and fourth prises.

The play at Belleair continues through Sunday.

SNAKE KILLS PROTECTOR

Leaving her nest to mother a snake, a turkey hen belonging to Mrs. A. L. Ford of Hay, Australia, was killed by the reptile. While hunting for the turkey Mrs. Ford was bitten by the snake, which then turned on its protector and bit it twice. The turkey died in a few minutes. Mrs. Ford was treated by a Chinese gardener, then taken to a hospital and her life saved.

TWO MADOC TOWNSHIP PIONEERS CELEBRATE 53RD WEDDING DAY

Mr. and Mrs. Charles Sager Still Quite Active Though Nearing 80 Year Mark.

LIVE RETIRED.

QUEENSBORO, Feb. 27. (Examiner Correspondence). — Mr. and Mrs. Charles Sager, two of the pioneers of Madoc township to-day celebrate the fifty-third anniversary of their marriage, which took place at the bride's home on Feb. 27th 1878, the late William Kennar, Methodist minister of Madoc, officiating.

Mr. and Mrs. Sager are nearing the eighty year mark and are both quite smart. Mrs. Sager, whose maiden name was Sarah Jane Moorcroft, does all her own housework. She is a member of the United church and is able to attend service often in winter while the summer she rarely ever is absent. She is deeply interested in missionary work and is an active member of the Queensboro W.M.S. Mr. Sager is hard of hearinf but otherwise is quite well. He has gone into the bush and cut all his own wood this winter, having a year's wood ready for the furnace some time ago. He also helps his relatives and neighbors with their work.

Mr. and Mrs. Sager, who have spent all their days here, were born in Madoc township and spent their childhood within a couple of miles of each other. Twenty-five years ago Mr. Sager erected a fine brick dwelling just south of the village and at that time retired from his farm which is a little over a mile away and now occupied by his son Fred and his family. James Moorcroft of Madoc township is a brother of Mrs Sager.

The aged couple have four sons and one daughter, Harry, a boot and shoe merchant in Ottawa, Thomas a gardener in Prince Albert, Ont., Robert a general merchant in Queensboro Fred on the old homestead and Mrs. Bruce Leslie, who with her husband and family reside on a farm at the edge of the village. There are fifteen grandchildren.

TAXES ON FARMS

(Continued from page one)

ounce of prevention which they are usually so fond of advocating.

"Agricultural is suffering and one of the greatest reasons is that taxation which has reached such a stage that the young people of the rural areas are not favoring the farm. Some farmers who can afford it are therefore giving their children secondary education; in this I find no fault but I do say that the cost of it should not be loaded on the taxpayers directly. It should be borne by those who make it the basis for their professions.

"Education of the professions should be borne by the individual or the state directly; not by the taxpayer. That is the stake the individual places his livelihood upon just as the farmer has his stake in the land.

Value of Highways

"I believe that the residents of the urban areas should realize the value of the highways to them. Less than one per cent. of the traffic over them is horsedrawn vehicles, yet such vehicles are still the main transportation of the farmers of Ontario. When the present Prime Minister instigated the gasoline tax, it was a step in the right direction. All taxation for highways should be on such a basis. I claim that all taxation for highways should be direct on the basis of payment by the persons who use them the most.

"I see that municipal delegations have approached the Premier to ask that they be not taxed for highways outside their borders. Would those same representatives purchase motor cars if they were confined to drive within the city limits alone and not venture into the country? We of the rural areas are prepared to bear our share but we do not want to bear more than that.

"I compliment the Government for the benefits of Hydro which it has extended, even as I hoped in this House a few years ago. And in this respect I still stand by my words then when I say that within less than five years I expect to see a flat rate for Hydro power in this province on a basis of equality for everyone, favor to none.

Dr. Wood's

Norway Pine Syrup

Dry, Hacking Cough

Caused By a Neglected Cold

Mrs. James A. Stewart, Stellarton, N.S., writes:—"For some time I was troubled with a dry, hacking cough, caused by a heavy cold I had, at first, neglected. A friend told me if I would take Dr. Wood's Norway Pine Syrup it would help me, so I got a bottle and it did relieve my cough.

"I am the mother of six children and I use it for every one of them when they have colds, and find it always gives relief, and I would not be without it in the house for anything."

Price 35c a bottle; large family size 65c., at all druggists and dealers; put up only by The T. Milburn Co., Ltd., Toronto., Ont.

STIRLING

Miss Lilian Matthews is spending a few days with her aunt, Mrs. Clifford Cain.

"Nearly 4,600,000 gallons of gasoline were taken into North China last year, an increase of 600,000 gallons over 1929.

$915,497 NEEDED TO FINANCE CITY

(Continued from page one)

mates began in usual fashion with a motion by Alderman Stocker that the department's appropriation be the same as last year.

Alderman McNabb urged that there was need for a larger force, comparing Peterborough with other cities of similar size. "The force would be more efficient if it had more men," he stated. "They cannot properly patrol the residential districts, and the citizens deserve proper police protection."

Criticizes Judge Huycke.

Alderman Tuggey, in seconding Alderman Stocker's motion, strongly voiced his opposition to any increase in the force, and he took Judge Huycke to task for his remarks made at a recent meeting of the Police Commission.

"The Judge's remarks were uncalled for and ill-advised from a man in his position," stated Alderman Tuggey. "They haven't' a leg to stand on in view of the Chief's own report that there were 48 fewer cases in police court in 1930 than in 1929.

"Rather than the small force being a disgrace to Peterborough, as Judge Huycke said, it is a credit to the city, that we can get along with such a small force," continued Alderman Tuggey. "We are an inland city and have no foreign element. We haven't any Communists and thank God we haven't."

Mayor Denne, asked by Alderman McNabb for his opinion, said that in order to have the shifts equal it was necessary to have three more constables. Attention was drawn to the need for economy.

"Peterborough is not like other cities," declared Alderman Holland. "Eighty-five per cent of our citizens own their own homes. Each citizen is a policeman in a sense and contributed to the security of his fellow citizens. There is little or nothing being done here in definance of law and order."

Stocker's motion to keep the estimates the same carried unanimously.

The ladies in the city offices sent in a request for an increase of $10 a month in their salaries. It was stated that the office girls had all given long years of service and their service was most valuable. A motion passed giving them a raise of $5 a month with Aldermen Stocker, Tuggey and Macdonald being opposed to any increase.

The customary special grants were made as follows:

Ashburnham Patriotic League	$150.00
Automobile Association	225.00
Band Purposes (57th Band, $700.00; Salvation Army Band, $300.00)	1,000.00
Chamber of Commerce	600.00
Children's Aid Society	1,400.00
Humane Society	150.00
Male Voice Choir	300.00
Peterborough Branch Canadian Legion	500.00
Peterborough Industrial Exhibition	3,500.00
Poultry Association	200.00

Sick Children's Hospital (Toronto)	25.00
St. John Ambulance	100.00
Teachers' Institute	50.00
Trent Waterway	1.150.00
Unforeseen	700.00
Well Babies' Clinic	700.00
War Memorial	635.00
Canadian Blind Institute	50.00
Health	1,000.00
	$12.060.00

BOARD TO PUNISH

(Continued from Page 1)

atheism it has ceased to be a worthy recipient of state funds.

"We are going to hear a number of variations, too, upon the theme introduced by the head of one of our theological colleges: I believe greatly in the student body; I believe greatly in the student movement, and consider them to be the background of our nation in the future. . . . The editorial must have been written hurriedly and without sufficient thought."

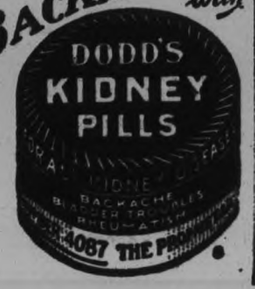
Written Deliberately.

For the benefit of those who have charged that the editorial on atheism was written unthinkingly, yesterday's paper insists that it was "the inevitable outcome of several years' familiarity with the subject." It concurs with the definition of atheism given by the padre of Hart House — "an atheist is one who denies the existence of God." It states that a practical atheist is one "who, to all intents and purposes, in his daily living and attitude toward the concept of God, denies the existence of a Deity."

RADIO TO CATCH THIEVES

Catching thieves by the aid of radio is possible, according to Monsieur Asbelhe, a French inventor. He recently demonstrated his invention before members of a technical institute in Paris. It is somewhat similar to the instrument used by a Russian professor in making musical waves with his hands. The device is said to be so sensitive that a thief passing near it would set up sound waves and cause a furious ringing of bells.

Relieve BACKACHE with



INDIGESTION SEEMED TO GO RIGHT AWAY

As Soon As He Started TANLAC

Only those who have been tortured for years with Indigestion, Gas, Pain, Dizziness can appreciate what it means to have their stomachs get back to work again. Mr. F. Gauthier, of Great Falls, Man., knows this. Even the lightest of meals brought on cramps. It seemed as if his stomach could not digest anything. Every day he grew weaker and more nervous, in spite of trying many different remedies and treatments.

Then some good friend told him about Tanlac and urged him to get a bottle. Mr. Gauthier was finally persuaded to try it and "I want to say that Tanlac filled the bill," he writes. "Indigestion, stomach trouble, cramps, nervousness, have all disappeared; and I am eating, sleeping and working as a healthy man should."

That's Tanlac, every time. Over 55 million bottles of this good reliable tonic have been sold—and over 100,000 men and women have endorsed it in their letters. Get a bottle today at your druggist's.

OBITUARY

MRS. THOMAS HENDREN.

LAKEFIELD, February 27 (Examiner Correspondence). — The death of Mrs. Thomas Hendren, an old and respected resident of Lakefield, occurred yesterday after several weeks' illness. The deceasd was 67 years and 3 months of age. She was a member of Knox United Church, Peterborough, and honorary president and life member of the Women's Missionary Society of that church. Mrs. Hendren was predeceased by her husband several years ago. She leaves to mourn her loss three daughters, Mrs. Demrose Hunter, Mrs. James Walton, and Mrs James Rose, all of Lakefield, and three sons, John and James of Lakefield, and George of North Monaghan.

The funeral will take place on Saturday afternoon at 2.30 from her late residence on William Street, and Rev. T. M. Wesley will officiate. Interment will be made in Lakefield Cemetery.

DAVID WILLIAM HALL

(Examiner Correspondence)

MILLBROOK, Feb. 27.—The death of David William Hall, in his sixty-third year, took place at Dr. H. A. Turner's private hospital, Millbrook, on Wednesday, following an extended period of ill health.

Survivors in this immediate neighborhood include one brother, Stuart Hall, whose farm homestead is approximately four miles east of the village; and one sister, Miss Annie, who lived with the deceased at Millbrook, their home being on Bank street.

The funeral, under the auspices of J. B. Hall Lodge, A. F. & A. M. No. 145, took place from his late residence on Friday, at 2 p.m. Interment was made in the family burial plot at Saint Paul's Anglican cemetery, Fourth Line, Cavan.

ERIC LAMBERT ABBOTT

(Examiner Correspondence)

MILLBROOK, Feb. 27.—The funeral of Eric Lambert Abbott, which took place from the residence of his parents, Mr. and Mrs. John Abbott, Tupper street, on Wednesday, was conducted by Rev. P. W. A. Roberts of Colborne, formerly rector in charge of the parish of Millbrook and Cavan, assisted by Rev. John Riddell, pastor of Grace Presbyterian church.

Deceased was in his thirteenth year, his death which saddened the whole community, following a brief illness with that dread malady, spinal meningitis.

Eric was a bright boy, popular with his playmates and throughout the community; a pupil of Principal B. B. Dawson's room in the public school for some time past a capable messenger boy for the Toronto Daily Star; and in recent weeks attending the Sunday School of Grace Presbyterian church, although his parents are members of the Anglican communion. He was born in Millbrook, the marriage of Mr. and Mrs. Abbott taking place in England while the former was serving overseas as a member of the Canadian Expeditionary Force. Two children, a brother, Hugh, and a sister, Meegan, survive, both younger than the deceased.

The funeral was private, and among the many beautiful floral tributes laid in loving memory on the casket were wreaths from the staff and pupils of the school; from Grace Presbyterian Sunday School; from the head office of the Toronto Daily Star; and from the local subscribers of that paper whom Eric had so faithfully served. Interment was in Saint Paul's cemetery, Fourth Line Cavan.

CENTRETON

Mr. and Mrs. William Marshall, of Baltimore, and Mr. and Mrs. M. Turk and Albert, Elgie, Floyd and Miss Jean, of Vernonville were guests on Sunday of Mr. and Mrs. Lewis Hie.

Mr. John Fennel has returned home after spending some time with Mr. and Mrs. Turk, of Vernonville.

Mr. Henry Chapple, of Toronto is spending a few days in the village.

Messrs. F. Etcher, J. R. Brewster, J. McKenzie, R. McKenzie and J. Walton were visitors in town on Tuesday.

Mr. J. Burns is busily engaged in sawing wood in the village.

Messrs. J. R. McBride and S. McBride were visitors to Cobourg on Tuesday.

DOG'S BITE PROVES OWNER

Ownership of a dog was proved in a police Court in Glasgow, Scotland, when the animal bit one man and refused to leave another. The Yorkshire terrier had been advertised for sale, and the claimant promptly had the advertiser arrested. When in court he tried to prove his claim by a broken tooth he said the dog had, the dog bit him and refused to leave the other man, who was awarded the pet.

TRINIDAD IS HAVING RECORD SUGAR CROP

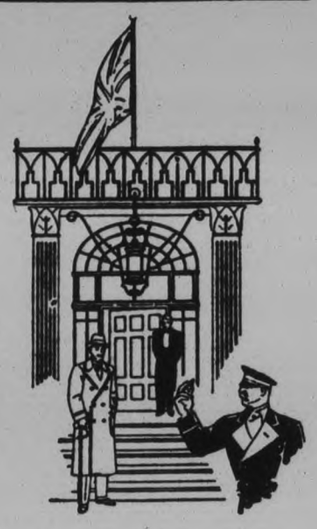
Government Railway Prepared to Handle Big Shipments—Prices Low, However.

PORT-OFSPAIN, Trinidad, B.W.I., Feb. 27 (C.P.)—It is expected that Trinidad will have a record sugar crop this year and the Trinidad Government Railway has made provision for handling 20,000 tons of farmers' canes—about 2,000 tons more than were handled last year. Prices are low, however. Cane harvesting and grinding operations are now well under way in the Island.

The Government's policy of opening up roads in the cane farming districts has enabled a good many farmers to convey their canes by motor to the scales instead of depending upon the railway as they did formerly. The sugar crop of Trinidad this year is estimated at 81,500 tons, and of this quantity the Government Railway will handle approximately 40,000 tons, this being regarded as a fair volume of the transport trade. Sugar shipments from the Usine Ste. Madeleine to Port-of-Spain are done by water from Mosquito Creek. The Waterloo Estate, a big sugar-cane raising property, also ships sugar to the city by water.

The Traffic Superintendent of the Trinidad Government Railway, in an interview with the Trinidad Guardian, said: "Notwithstanding the good crop expected, the sugar industry is not booming in consequence of the depression in price: and some estates, I understand expect a loss, although Government assistance is guaranteed to the extent of $10 per ton of sugar produced. However, there is great activity now the reaping is going on and labor is provided for a great number."

Winning Canada to Six Cylinders!



FOR more than two years it has been Chevrolet's distinction to build the largest-selling six-cylinder car in Canada . . . and in the world. Today, Chevrolet offers motorists a bigger and more beautiful car — *at prices lower than ever.*

When you inspect the new Chevrolet Six you will find that it is a smarter car . . . with new bodies by Fisher, a longer wheelbase and deluxe wire wheels. It is a more comfortable car, with roomier interiors and wider seats. And it is a better-performing car . . . smoother, with ample power, and even easier to handle.

Give the Chevrolet Six a chance to win *you!* We will be glad to demonstrate. Once you try this bigger and finer Six, we are sure you will never be satisfied with less.

Chevrolet's policy has always been one of service to the public . . . The GMAC plan of deferred payments offers the lowest financing charges available . . . and the General Motors Owner Service Policy pledges lasting satisfaction.

Quickest to Make!

Tender, delicious pancakes by Aunt Jemima

JUST stir equal parts of Aunt Jemima Pancake Flour with milk or water . . . a few minutes over a moderate fire. There, you have Aunt Jemima's, the lightest and tenderest pancakes you ever ate.

And how they disappear! Everybody loves them. The family almost breaks its way into the kitchen, looking for more.

In old slave days, Aunt Jemima's pancakes were the most famous dish in all the South. Today the same pancakes, with the delicious flavour that delighted southern epicures, can be made in your own home, Aunt Jemima's recipe comes to you ready-mixed.

Ask your grocer for Aunt Jemima Pancake Flour. Get Aunt Jemima *prepared* Buckwheat Flour, too, and have a choice of pancakes.

BUCKWHEATS, too—Some folks like the *tang* of buckwheats best. Especially strong men for breakfast or supper in cold weather. Aunt Jemima *prepared* Buckwheat Flour . . . same as the pancake flour, but with a dash of buckwheat added.

MADE IN CANADA

Little Ruth Erwin, who recently underwent an operation for appendicitis, has recovered sufficiently to return to her home on King street.

• • •

The Rev. and Mrs. J. H. Sutcliffe were at home to their friends and members of the congregation of Murray Street Baptist Church, yesterday afternoon and evening, at their home at 491 Water Street. In the afternoon, Mrs. Sutcliffe was assisted by Mrs. W. D. Scott, and in the evening the Rev. Mr. Sutcliffe received with Mrs. Sutcliffe, when the men of the congregation were welcome. In the afternoon, Mrs. Gordon Matthews ushered the guests to the tea room, where tea was poured by Mrs. W. R. Breyfogle and Mrs. J. A. Morgan, assisted by Mrs. J. Moulton, Mrs. H H. Graham, Mrs. L. H. Ingram, and Mrs. G. W. Fitzgerald. In the evening, tea was poured by Mrs. H. G. Webber and Mrs. Walter Kidd, assisted by Mrs. C. B. Westbrook, Mrs. A. W. Wray, Mrs. A. S. Zavits, Mrs. W. G. Shiner, Miss Mary Garbutt, and Mrs. T. J. Pettit. Dainty door attendants for the afternoon and evening were little Iris Fitzgerald and Kathleen Zavits. The rooms were very attractive with a number of softly shaded lights and a profusion of spring flowers; white and red tulips in slender vases and a long mantel box filled with ferns, daffodils and purple hyacinths. In the tea room, soft cream candles in holders of clear glass were lighted on the buffet and the table was done in exquisite fashion with a cloth of Irish Cluny lace centred by a square basket of pierced silver filled with yellow daffodils, rose tulips, and asparagus plumosa fern. Four mauve candles were lighted in square silver candlesticks.

FASHION SERVICE

Here is a charming day model for immediate and Spring wear.

It has the fascinating lingerie collar and cuffs that mark the newest imports.

It's a bright purple-blue flat crepe with the fascinating trim in white crepe de chine.

It's youthfully becoming to miss or the woman of average full figure.

Stlye No. 2986 may be had in sizes 12, 14, 16, 18, 20 years, 36 and 38 inches bust.

It makes up equally well in woolen fabrics. For instance in a tweed mixture or in jersey wool. The trim is interesting in pique. In a crepy patterned woolen, use a plain blending shade of self-fabric.

In flat crepe printed silk, it's delightful with palin crepe contrast.

to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book, 15 cents, or 10c when ordered with a pattern.

Price of pattern, 15 cents.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

I am acquainted with a number of Peterborough women who spend a great many hours alone and very often they become very lonely and distressed.

• • • • • • •

So to-day I thought we would talk about this subject and if it interests you enough, perhaps you will write and tell us your opinions.

• • • • • • •

I also know women who spare themselves many lonesome hours by cultivating themselves. They know just how to entertain themselves so that they will not be lonely.

• • • • • • •

In fact, they entertain themselves so well that they admit the fact that they are their own good companions.

• • • • • • •

I think it is splendid, indeed, to know how to entertain yourself as well as you would some friend who dropped in to visit you and whom you wished to enjoy the visit.

• • • • • • •

Perhaps you are fond of cards and if this is the case, you might learn difficult games of solitaire so that you can play even when alone.

• • • • • • •

Difficult games such as these absorb one's interests so much that the time just seems to fly, as it were.

• • • • • • •

Then, too, there are puzzles that keep the mind alert and busied and which require concentration best gained when alone. These are silent companion for what might otherwise be lonely times.

• • • • • • •

Sewing, embroidery work, knitting, etc., are also good, but they do not seem to absorb one's interest to the extent that other things do. Books are the companions of many persons. Volumes of travel keep one in touch with the distant lands and if you are interested you will be taken on imaginary journeys which are delightful.

• • • • • • •

Then again, if you read biographies of great men and women they seem to stand before you and you think of them as friends, becoming to know them even better than those whom you really meet face to face.

• • • • • • •

Cultivate your thoughts as you would a beloved friend. Learn to guide them into pleasant byways, and don't let them stray into channels of sorrow and distressing rememberances.

• • • • • • •

Turn your own thoughts agreeably and be kind to yourself, just as when you are hostess to a guest, you talk of pleasant things and the time is profitably spent.

New Spring Models Stress Adaptability

Plain Fabrics Are Best for Afternoon Coat and Skirt.

(Special to The Examiner, Copyright 1931.)

LONDON, Feb. 27.—Adaptability is a feature of the spring models for day and evening wear. The vogue of the bolero, the jacket, collars and scarves and fantastic neck draperies, over-blouses and tuck-ins, tunics and coats of varying length make it possible for the ingenious woman to ring several changes on the one foundation garment.

There is a wide choice of materials for the coat and skirt, but if it is intended for morning and afternoon wear a plain fabric is most convenient. In all probability the skirt will have a hip yoke for slim fitting, but the pleats may be at the side or they may be arranged in generous fullness at the front. If the yoke is omitted a short waistcoat, starting from the waist, makes a chic addition. It has cut-away points and buttons giving the effect of a masculine dinner jacket. As the coat and skirt to contrast is as fashionable as the coat and skirt to match, a different jacket can be worn with the skirt for a change. This, preferably, should be in plaid as the latest dictum is that the coat may be patterned but the skirt should be plain.

Then we come to blouses! If the coat is three-quarter-length—it may be half-length or quite short— the tunic blouse can be worn in the morning. Perhaps it is in some fanciful material, buttoned down the front, or scalloped, or vandyked. One such tunic was decorated with broderie anglaise and had a pink lingerie collar. Using the tunic device the skirt can be transformed into a frock for wear under a long coat, and it is by no means necessary that the coat should match. The note of contact can be stressed by the collar of the tunic. The tunic should be of the same material as the skirt. The front may be edged with triangular tabs, each with a button in the centre, or may be bordered with light-weight fur or Astrikan.

The morning blouse is in linen, pique, cambric, or sometimes a soft woolen material like kasha. As the tuck-in style does not suit all figures, it is often completed with a belt, which is narrow or wide, according to individual taste, and of the same material so that the blouse may be worn over the skirt and the belt arranged at the most flattering line. For afternoon it is perfectly correct to wear a fluffy blouse. An attractive one is in lace and pleated chiffon with a deep jabot and cuffs, also showing lace insertions and accordion pleating. The one blouse may be made to serve different purposes by removing the collar. It can have a neat, turn-back collar and revers of pique, or a turn-over collar and tie in say plaid or tiny check pattern or a plain roll collar, to be substituted by a wide-pleated collar in chiffon or the jabot, sometimes pleated and sometimes gathered or frilled, or a scarf arranged slantways, slanting effects being the mode of the moment.

The waistcoat blouse has led naturally to the development of the short scanty jacket to which the name Eton jacket has been given. To achieve the best results, this is frequently bordered with a heavier material and here astrakar again plays a considerable part. Finally, the bolero, removable at will, is a charming device in the all-day ensemble.

Queen Breaks Rule On Wedding Presents

LONDON, Feb. 27 (A.P.) — The Queen has broken her rule about wedding presents.

Usually brides in the Court receive from the Queen a piece of jewelry set with the royal cipher. But to the Hon. Imogene Grenfell, who yesterday married Viscount Gage, a captain of the Coldstream Guards, she gave a beautiful dressing case.

The bag was small, in a handbag design, of green crushed morocco leather.

Lady Gage is the young daughter of Lord and Lady Desborough, who for many years has been a Lady-in-Waiting to the Queen.

The marriage was a simple affair, at Taplow Court in Buckinghamshire, her father's home.

BUTTER PRODUCTION INCREASES

MONTREAL, Que., Feb. 27. (CP)—Butter production increased approximately 4 500,000 pounds and cheese output declined about 1,223,000 pounds in the Province of Quebec in 1930 according to figures compiled by the provincial bureau of statistics. The total value of cheese and butter decreased! over $3,000,000 due to the lower prices prevailing in 1930.

READ THE WANT ADS

That Body of Yours

By James W. Barton, M.D.

BELTS FOR LOWER BACK.

At a large railway station one morning I noticed that all the porters handling the baggage wore wide belts closely strapped about the lower back and abdomen.

As one saw a porter handle as many as five bags and suitcases at one time, it was not hard to guess the reason they wore the wide tight belts, which ran through hoops in the outer garment to prevent them slipping up and down.

These belts were to prevent strain o the lower back, an ailment to common that it is often mistaken for and treated as rheumatism.

When you bend over and straighten up again, particularly if you are lifting some object, the entire weight of that object comes upon the lower back at the joint where the last spine bone meets the hip bones. The joint here is not a deep one like the ball and socket joint of the hip or shoulder joint, but is just one flat bone joined to another flat bone, and held by ligaments. When too much strain is put on, these ligaments give or stretch slightly and owing to pressure upon the nerves in the region there is real pain. This pain is called lumbago, or if it is in hips or down the leg it is called sciatica.

And so when you lift an object, make a step downward when you thought you were walking on the level, make a sudden turn sideways, as in playing tennis or golf, or other game, don't get it into your head that you are developing rheumatism, as it is likely a strain of the joint above mentioned.

Now don't try to "work the pain out" by exercise. You should actually lie down for two or three days and give the ligaments if stretched or torn slightly, a chance to get healed up again. You should be careful for at least two or three weeks.

If the pain is severe the joint should be strapped up with 2 inch adhesive tape for a week, the strapping then removed and new strapping applied for another week.

To get the exact place on which to apply the strapping, make sure that it is at least one inch below the outer projection of the hip bone at the side, then pull strongly across the small of back to the same point on the other side. Two or three strips is sufficient.

Don't bring it across the front of the body at all.

If you still have pain at the end of two weeks see an orthopedic specialist who will adjust a brace, the lower belt of which comes across the affected joint and supports it.

Lowering of industrial commodity prices in Hungary has greatly helped the farmers there.

POLISHING PAPA IS REAL STUDY IN CHARACTER

Splendid Domestic Comedy is Presented By Young People of Trinity Church.

REPEATED TO-NIGHT.

Play is Full of Action, Stirring Incidents and Tense Moments.

"Polishing Papa" may be all very well as an objective, but the difficulties in overcoming a stubborn nature and the complete reversal of circumstances prove that it does not pay in the end. This fact was proved to the entire satisfaction of a well attended domestic comedy presented last evening in the Reid Street Hall by the Trinity Young People's Club.

The play was full of action—stirring incidents and tense moments—and the climax, anti-climax and close followed quite naturally. It is not a drama written merely to throw difficulties before a pair of lovers, to see them make their way through the maze of retracting circumstances, and finally to merge victorious in their love, but it is primarily a character study. This is what makes the play strikingly modern, for the trend of present day drama is towards the psychological. The portrayal of character is far more difficult than the presentation of a well-lined plot, and the players proved themselves equal to the task.

The play opens in the drawing-room of Sydney Smith, a rich sausage manufacturer. Bill Fanjoy did remarkably well in the portrayal of the master of the house. With comparatively little action and in a few moments Smith's character is revealed. He loves the comforts of home life. He loves the free and easy ways of a small town of the middle west. Shoes off, coat thrown on a chair, collar and tie laid aside, reclining in an easy chair and soothing himself with the evening news, he at once shows himself a lover of restfulness. Even the ringing of the phone fails to detract his interest in the paper.

A slightly different type is presented in the free-and-easy go-getter, Samuel Karmen, an advertising sollicitor, to which character Bert Lindley gave a personal coloring. His sales chatter fails to fizz on Smith at first, but high pressure salesmanship always conquers the tired business man. Both become sold to the idea of snappy advertising, and Karmen is invited to spend the week-end with his customer.

Jane Smith is a sweet and lovable daughter, who is not above calling her father "popsy" to get a little money from him. Jean Padget played this part remarkably well, and was at all times natural. She takes part unreservedly in "polishing papa" ready for the special guests who are to arrive.

Her brother, Arthur, is the typical college grad with big ideas and an eagerness to invest his father's money. As an actor, John Krogh was a great success, as his part was the most difficult one in the play to do full justice to—and he did it. His character is at once noted to be a subtle one, and one which can easily be stabilized if incidents have any power within themselves to do so. This leaves an "open end" in the play, and it is not until the final act that it is satisfactorily filled in.

Dick Brainerd, a young attorney, was just the part for Stanley Lawrence. To some he may have been backward with his acting and perhaps a bit nervous, but the further development of the play proves that this is part of his characterization. He is above all a business man, secretive, yet confiding his love for Jane to her brother.

Rose Parker, played by Marjorie Byers, is the girl with whom Arthur is in love. She is quick in diagnosing his proposal, and with her far-sightedness and sensibility, "puts him off" until he has proved himself as a business man, for a couple could not live on love, in her estimation.

When Lord Dabney, an English nobleman, appears on the scene everything is a-flutter. His extremely affected accent becomes ridiculous and insipid, and his actions not only command pathos, but dramatic pathos, for one cannot help but think "What a pity that such a commandeering young fop should be forced to exist on this planet." All of this is accurately portrayed by George Nicholls.

Peggy Sampson (Jessie Tully) is a sweet-natured girl, a friend of Smith's. She is always willing to help. Smith's housekeeper. Mrs. Stevens, was acted by Edna Forster. She is the typical good-meaning soul, whose every interest is in her master and his home. Marie (Beulah Huffman) is a prim little maid, faithful in discharging her duties

Under the influence of the girls, Smith is persuaded to don golf knickers and to play a round of golf. He makes a bet with his son whereby he will pay him $10,000 for him to invest if he likes the game, or the son will go into the sausage business if he does not. The son wins but is made to take over the business while his father travels to foreign golf courses. In the meantime Dabney is discovered to be an imposter and is sent back to his old occupation of steward.

The son fits into the same character as his father presented in the first act of the play. The salesman, Karmen, calls around again, and the son purchases advertising. Arthur is very gruff and disdains of his investment. It is discovered, however, that the investment along with one of his father's in the same company, will buy a valuable lot, and the son's success is assured. Jane realizes that Brainerd has assisted her brother, and says "Yes" to his proposal. Rose Parker accepts Arthur, and the play is dramatically brought to a successful close, when father and son decide to run the business together. Papa is "polished" but only after costly experience.

Royal Princess

ATTENDS FERGUSON RECEPTION

Princess Marie Louise, cousin of the King, who was one of the guests at a reception given recently by a Royal Empire Society in honor of Mrs. Howard Ferguson, wife of Hon. G. H. Ferguson, Canadian high commissioner at London, England.

What To-day Means To You

"PISCES"

If February 27th is your birthday, the best hours for you on this date are from 10 a.m. to noon, from 3 p.m. to 4:15 p.m. and from 7:30 p.m. to 9 p.m. The danger periods are from 1 p.m. to 2:15 p.m. and from 6 p.m. to 7 p.m.

February 27th promises to be a day of moods. At one moment, your hopes will be at blood heat, the next they will be at zero. Only usual work should be pursued, and no decision, involving any issue of importance, should be taken. Correct mental perspective will be conspicuous by its absence.

Children born on this February 27th will be stalwart and vigorous, have sunny natures, full of mischief and bubbling over with pep. As they mature, their restless energy will stand them in good stead, and will carry them forward to the glory of achievement.

Your horoscope, if you were born on February 27th, does not indicate any dazzling victories or great disasters. It prognosticates an ordinary life of an ordinary person on a path of comparative ease and relative comfort. You are not marked out for any of life's great prizes, nor are you singled out for any of Life's tragedies.

Your character is simple; your mind is not a curious one, and you are willing to accept the teachings of the past. You possess much faith, and little inquisitiveness. There is a religious streak in you, and you try your utmost to live according to the beliefs in which you were reared.

Your temper is always under control and you possess the gift of "poise." It is almost impossible to get you 'off your guard." Your manners are the result of early environment, and are immutable. You have no outstanding personality, and you are one of a crowd in any social gathering. You are not a student, but can do several things fairly well. Your social accomplishments are more in evidence than the ability to statrle the world. Punctuality and punctiliousness are virtues that you possess.

In your home life, you will be amenable, affectionate and loyal. Your attachments, like your manners, never change.

Suggest Gov't Operate All B.C. Beer Parlors

VANCOUVER, B.C., Feb. 27.—The Vancouver Province publishes the following despatch from Victoria:

"That the Provincial Government take over and operate all British Columbia beer parlors, is one of the proposals under consideration by the Government and Conservative members of the Legislature.

"Whether the scheme would be adopted or not this session still is in doubt. No final decision has been reached on the proposal, but it has strong support in the caucus and in the Ministry itself. Even if it is abandoned for this year, its supporters are hopeful that it will be implemented later."

ADVERTISE IN THE EXAMINER

Smart Silk and Wool
Pullover Sweaters
Specially Priced for Saturday
$1.95

Medium weight fine wool with silk interwoven. New and attractive color combinations. Garments that have style and will wear. Splendid for present season wear. Sizes to 42. Specially priced Saturday, each..... $1.95

A Natty Pullover for Girls at $1.95

Oshawa Juniors Defeat West Toronto 2 to 1

LARGEST CROWD OF SEASON SEES HOME TEAM TAKE ONE GOAL LEAD OVER FAST WEST TORONTO OUTFIT

Return Game Will Be Played in Toronto on Monday Night.

GOOD COMBINATION.

Davies, Visitors' Goalkeeper, Was Given Tough Time of it in Third.

OSHAWA, Feb. 27.—The Oshawa juniors secured a one-goal lead to take to Toronto Monday for their return game with West Toronto, last year's Ontario champions, in the Provincial junior semi-finals. The score was two to one and the game was the fastest and most exciting junior struggle seen here in years. Well over 3,000 people attended—the largest crowd to witness a hockey contest here this season.

The locals lost a golden opportunity to run up a heavy lead and practically cinch the round when, about midway through the third period, three West Toronto players, Dempsey, McAlpine and Hearne, were penalized in quick succession and were all in the penalty box at the same time. The winning Oshawa goal was scored at this time, but Davis batted, bounced, knocked and juggled the puck out of the net and the locals could not increase their score further. West Toronto tried desperately to even the score, but the locals were a little the better defensively and Hurst was playing a sensational game in the nets.

Good Combination

The locals played a smooth combination game all evening, although Lortie, the local defense star, was not as effective as usual, but Graboski, Peterson, Drinkle and Bradd played consistent, level hockey, McClelland, McKillop and Kerr were the best for the visitors, although they depended more on lone efforts and not quite so much on team play as the victors.

No goals were scored in the first period, which was about as even as it could possibly have been. The Oshawa defense was particularly effective in breaking up the opposing team's rushes and was largely responsible for the West Toronto combination being abandoned by some of the players on several occasions.

The first goal was scored by Peterson of Oshawa, who made a beautiful try, carrying the puck all the way down the ice and shooting from right in front of the net, just after the second period started.

A shot by Drinkle half-way through the period appeared to have slid off Davis's pads into the net, but the goal umpire refused to allow it, and the referee did not question his decision. Hearne scored the equalizer for West Toronto just before the end of the period when his sizzling shot slipped between Hurst's legs.

Davis Is Kept Busy

Davis was lucky in the third period, three shots that hit his shoulder bouncing down to the ice in front of him instead of into the net where they might easily have landed. He was forced to keep on the alert every minute, as the Oshawa lads bored in hard. Then, when Dempsey was penalized for hooking, McAlpine for cross-checking Drinkle, and Hearne for boarding Drinkle, all in quick succession, the Motor City players buzzed around the West Toronto net with only two forwards to protect Davis. The locals were a little overanxious and made frequent offsides, and this, together with spectacular work by Davis, kept the tally at this time down to one. This was scored by Lortie, who took the pass from Graboski on a face-off in front of the West Toronto net, when McAlpine and Hearne were still in the box.

West Toronto — Goal, Davis; defense, McAlpine and Hearne; center, Kerr; wings, Primeau and McClelland; subs, McKillop, Dempsey and Kreesler.

Oshawa—Goal, Hurst; defense, Lortie and D Maundell; center, Drinkle; wings, Bradd and Peterson; subs, Authors and Greboski.

Referee—Johnny Mitchell, Hamilton

Howie Leads Snipers

Howie Morenz, speed-king of the champion Canadiens, hockey team, has again forged to the front in the close struggle for individual point-making superiority in the National Hockey League, with a total of forty-three points.

PORT HOPERS WIN OVERTIME FIXTURE

Defeat Millbrook Town League Pick-ups in Brilliant Hockey Tilt.

MILLBROOK, Feb. 27.—(Examiner Correspondence).—Characterized as the best game of the season so far, some snappy hockey was exhibited at the Cosmos rink on Tuesday evening, when a competition was staged between a team from Port Hope, and a sextette picked from the players making up the Town League.

The Lakeside players scored a couple of passes into the net at the Millbrook goal in the first period, the local team evening this record in the second, while the third period ended in a tie, 3-3. Twenty-five minutes of overtime were necessary to break the tie, in ends of five minutes each, a thrill being in store for both players and spectators when at the end of twenty minutes the score was again tied, 4-4. In the final five minutes the Port Hopers scored twice leaving the standing at 6-4. The teams lined up:

Port Hope—Goal, Graham; defence, Paiden, Concella; centre, Douglas; right wing, Colwell; left wing, Terenchar; subs, Hardwood and Goss.

Millbrook—Goal, B. Freelove; defence, S. Sloan; defence, S. Cawker; centre, K. Donnelly; right wing, H. Raper; left wing, W. Sayles! subs, D. Brown, G. Sayles.

Referee—E. C. Richards.

The hockey team of the local Tuxis Square motored to Peterborough this week and played a return game with the Tuxis sextette of the Park Street Baptist Church, victory remaining with the boys of the Electric City by a score of 5-1.

However, in the initial game of the competition when the play was at the Cosmos rink, the score was 6-2, in favor of the home team.

Following the game on Tuesday evening, the visiting players were royally entertained by the Park Street Square, supper being served, and an enjoyable social time spent, leaders and boys enjoying the 'get together,' and the opportunity to compare notes on matters in which Tuxis members and their mentors are mutually and deeply interested.

MONTREAL STAR BEATEN AT MIAMI

Three Semi-final Matches Scheduled To-day in Tennis Championships.

LOTT BEATS RAINVILLE.

MIAMI BEACH, Fla., February 27 (C.P.). — One semi-final singles match and both semi-final doubles matches were scheduled to-day in the Pan-American tennis championships.

George Lott, Chicago, was bracketed with Ricardo Tapia, Mexican star, in the singles match listed for 1.30 o'clock.

Lott yesterday defeated Marcel Rainville, Montreal, 6-3, 6-4, while Tapia disposed of Gustave Villmer, ranking number one player of Cuba 6-1, 6-4.

In the doubles Lott and John Van Ryn, East Orange, N.J., were paired against Tapia and Villmer. The other doubles match listed J. Gilbert Hall, Orange, N.J., and Rainville against Carroll Turner, Glues Feuer, Miamians.

The semi-final singles match between Van Ryn and Hall Willbe played to-morrow with the doubles finals. The singles finals will be played on Sunday afternoon.

BUFFALO BISONS BATTLE LONDON NO GOALS SCORED

Bulldogs Now Have a Firm Grip on Second Place in International.

LONDONERS IN THIRD.

Detroit Olympics Nose Out Syracuse Stars 4 Goals to 3.

TORONTO, Ont., Feb. 27. (CP)—London and Windsor improved their play-off prospects last night. The Bulldogs took a valuable brace of points from Pittsburgh Yellow Jackets by a 3 to 2 count after 10 minutes overtime, while the Tecumsehs battled the league leading Buffalo Bisons on equal terms and the game ended in a goalless draw.

The Bulldogs now have a firm grip on second place, three points in the van of the Londoners, who in turn occupy the third rung by the margin of one point over the Cleveland Indians.

Frank Duncan proved the hero of the hour for the Border City team when he converted Jack Arbour's pass into a pretty marker shortly after the extra period had started. Previously Earl Robinson, league leading point scorer, had knotted the count at two-all with less than five minutes regulation playing time remaining.

Paul Haynes opened the scoring for the Bulldogs late in the first session but the Smoky City hockeyists rallied strongly to take the lead in the second chapter on goals by rFaser and Milt Halliday.

The London-Buffalo tilt was originally scheduled for tonight. It proved a duel between the league's two leading goalkeepers, Billy Taughter of the Bisons and Herbie Stuart of the Tecumsehs. It was the formers' eleventh shutout of the season and Stuart's tenth.

In the third fixture Detroit Olympics nosed out the Syracuse Stars, 4 to 3, but as both teams are hopelessly out of contention the result did not mean much.

The Bulldogs return home to-day and swing into action against the Stars in the only scheduled match. A victory will make the Windsorites second place position fairly secure, but the top division teams and the Bulldogs may have to extend themselves to the limit to down the ill-named stars.

In gratitude for his assistance in the trials of Miss England II, the speed boat, on Loug Neagh, Ireland, recently, loyal Irishmen presented a shillelagh to Kaye Don.

Port Arthur Defeats Fort William 4 to 0

PORT ARTHUR, Ont., Feb. 27.—(CP)—Rival lakehead senior hockey squads last night finished a gruelling schedule in the Thunder Bay League and were ready for the play-offs of whatever variety the executive decides. Port Arthur, second place winners, easily defeated Fort William, 4 to 0, in a game that didn't mean a thing to either team.

An executive meeting today will consider Port Arthur's protest against a best-out-of-three-game play-off series. Originally the teams were to have played home-and-home games. Total goals to count. In any event, the first series' game is likely to be played Saturday night.

Fights Last Night

Syracuse, N.Y.—Jackie Fields, Los Angles, outpointed Jackie Brady, Syracuse (10).

Boston—Lou Scozza, Buffalo, N.Y., outpointed Tony Shucca, Boston (10.)

Philadelphia—Sudmangino, Bountbrook, N.J., knocked out Jimmy Walker, Philadelphia (1).

Bethlehem, Pa.—Pete Latzo, Scranton, Pa., outpointed Sam Weises, Allentown, Pa. (10).

McKeesport, Pa.—Jimmy Belmont, Braddock, Pa., outpointed Joe Trippel, Rochester, N.Y. (10).

New Star In Track Firmament

MAKES FAST TIME FOR MILE

When Carl Coan, University of Pennsylvania runner, stepped off a 4.13 mile to defeat Ray Conger and other luminaries in the Baxter mile in New York city, he ran right into the ranking position among the present-day crop of milers. Experts are picking this collegiate track star to lower the existing marks in both indoor and the outdoor miles. Lawson Robertson, famous track mentor at the University of Pennsylvania, points to the powerful driving power in the muscles of Coan's legs, shown on his marks during a training session at his alma mater, following his sensational victory in the Baxter mile.—Photo by Acme.

MAROONS DEFEAT FRANKFORD TEAM

Last Trent Valley League Game of Season is Played on Campbellford Ice.

SCORE 6 TO 5.

CAMPBELLFORD, February 27 Examiner Staff Correspondence). — The last of the scheduled games in the Trent Valley Hockey League was staged last night in the Davidson Arena, Campbellford, when the Frankford squad clashed with the Campbellford Maroons and went down to defeat with a 6-5 score.

The visitors did not, however, play their regular line-up, but brought over with them a sextette of younger players who put up a fine scrap and despite the bad ice, showed some fast hockey and good combination.

The game was clean, only four penalties being handed out. Walter Jackson of Peterborough handled the bell, keeping the play in good trim.

The Frankford team showed some good material. Lawrence in the nets played a fine game, being given plenty of work to do and stopping some difficult shots. Rettan subbing forward also showed up good, working well, covering and backchecking his man in fine form. Windover and McColl also played a good game and starred in some pretty pretty combination rushes.

The Campbellford squad played their usual brand of hockey with Sanders in the nets doing his stuff and Whitton at centre making play. Busche played on the wing with McKay making a pretty forward line, and creating much fun round the visitors' net. Lambert, Hendy, and McArthur were on the second forward line and worked well together. Cowall and Ingram were on their old position of defence and did the usual with their rushes. Play was hard to make, however, with the poor ice, and both teams deserve credit for the fine exhibition of hockey they put up under adverse conditions.

The teams:

Frankford — Goal, R. Lawrence; defence, Patrick and Sullivan; centre, McCloud; wings, Windover and T. Lawrence; subs., McColl, Rettan, and Dickson.

Campbellford—Goal, Sanders; defence, Cowall and Ingram; centre, Whitton; wings, McKay and Busche; subs., Lamber, McArthur and Hendy.

Referee—W. Jackson, Peterborough.

Summary of Game

(First Period)

Goals—Campbellford: Whitton, 2 minutes, Whitton 12 minutes, Frankford: Rettan, 8 minutes; McColl, 10 minutes.

(Second Period)

Goals—Campbellford: Ingram, 7 minutes Cowall 12 minutes. Frankford: Rettan 2 minutes, Windover 5 minutes, McColl, 10 minutes. Penalties: Campbellford, Whitton and Ingram. Frankford. Sullivan.

(Third Period)

Goals—Campbellford: Whitton 1 minute, 13 minutes. Penalties — Campbellford, McKay.

The first period opened with Sullivan for the visitors driving forward only to be checked by Whitton who returned the attack. Patrick checked and carried the rubber into the Maroons' house where Ingram got possession of it and rushed forward.

After a scramble Whitton again took the puck from centre ice, passed to McKay, who returned to Whitton who counted the first tally two minutes after play opened. Things then became a little warmer and after eight minutes of hard checking and fast forward drives Rettan counted for the visitors from an assist from Dickson. Several attempts were then made by Campbellford to tally, Mackay and Busche having some tough breaks. Lawrence in the Frankford nets being worked overtime and doing well. McColl came back with the second counter for the visitors, this being followed two minutes later by a count for the Maroons by Whitton.

The second session started off with Whitton being benched the first minute of play for tripping, this being followed by Rettan of Frankford netting the rubber one minute later. From the face off Ingram was benched for tripping T. Lawrence, who was pressing forward. Five minutes after play Windover made another count after some stiff play in the Maroons' house. Sullivan was soon after boxed for tripping Cowall, Ingram getting a come back for double work by netting the rubber. Play then moved from centre to ends in regular sessions until McColl made another counter for the visitors, from a long shot, this being followed soon after by a pretty tally being made by Cowall from Ingram.

The last period started with Whitton netting the rubber in the first minute, after which play dragged for some time. Patrick and Windover played a pretty combination in this session pressing forward and making a good showing against superior

To-night's Schedule.

LIGHTWEIGHTS TRY OUT TO-NIGHT

King Tut and Billy Petrolle Will Clash at Madison Square Garden.

SIXTH FIGHT.

NEW YORK, N.Y., Feb. 27 (C.P.)—King Tut and Billy Petrolle, two hard-punching lightweights, renew their ancient rivalry in Madison Square Garden to-night for the edification of Eastern fans.

Five times these warriors have clashed before with Tut holding a slight edge over the "Fargo Express." Petrolle won the first two encounters, then Tut captured two decisions and evened the score. Petrolle went into the fifth battle with plenty of support. He had climaxed a brilliant come-back campaign by giving Jimmy McLarnin the worst beating of his career. But Tut, not a bit intimidated by Petrolle's sensational series of triumphs, knocked out the Fargo slugger in half a minute of the first round.

Now Billy threatens to quit the ring for good if he fails to hurdle his Minneapolis Nemesis to-night. He's on the short end of the betting which, in view of what has happened at the Garden in recent months, should be a good omen.

Baby Joe Gans, Los Angeles negro welterweight, faces Bucky Lawless of Syracuse in the ten-round semi-final.

Oil exploitation which was started in Eastern Venezuela last September, has so developed that nearly 400,00 0barrels are being shipped from these every month.

Despite the increased difficulty caused by poor business, the British Legion last year found jobs for 11,500 ex-Service men, which is more than during the previous year.

CANADIENS GET SWEET REVENGE BY WHITE-WASHING FALCONS 5-0 RANGERS HAND LEAFS 4-1 DEFEAT

Ottawa Senators Mark Up Another Victory—Trounce Maroons 4-2.

Penalties Costly To Leafs.

Victory Gives Canadiens 10 Point Lead Over Queen City Outfit.

TORONTO, Ont., Feb. 27 (By George Maguire, C.P. Sports Writer) —Two Canadian and one United States squad were victors in last night's National Hockey League program which consisted of three international matches.

Montreal Canadiens secured ample revenge for their two previous defeats by Detroit Falcons when they crushed the Motor magnates beneath a 5 to 0 avalanche. Ottawa Senators extended their undefeated record to four consecutive games by doubling the score on New York Americans, the final count reading, 4 to 2.

Leafs Only Team Defeated

Toronto Maple Leafs were the only Canadian outfit to suffer defeat. The classy forward line of the Cook Brothers and Frankiet Boucher which has kept the New York Rangers in the running for a play-off berth in the American group, coupled with the Leafs inability to stay on the ice, proved too much for the Duncanites, who went down under a 4 to 1 score.

As a result of their victory Canadiens now hold a 10-point lead over the Queen City representatives. A peculiar feature of the games was the inability of the league's two best point scorers to enter the scoring summary.

Howie Morenz, the league leader, played a splendid game for the Habitants at the pivot position, but "Dolly" Dolson, though he had an exceptionally busy evening, did some great blocking to keep the Canadien flash out.

Ebbie Goodfellow, the Falcon's speedy centre, also worked hard but fruitlessly in an effort to break the Detroit goose egg and fatten his own scoring percentage.

A furious first period onslaught which netted them three goals carried the Canadian group pacemakers to victory. They added another tally in the second frame and their last in the final 20 minutes.

Senators Start Fast

The Senators outscored the Amazing Amerks two to one in the first session and then chalked up two more markers in the middle chukker to safely tuck the game away in the win column.

Danny Cox, was the big noise in Ottawa's ninth win of the season. He passed to Alex Smith for the opening goal and then sent his team to the front late in the first 20 minutes after the A's had knotted the count. He also assisted Art Gagne in the scoring of the Ottawans fourth marker. Frankie Finnigan notched the third.

Penalties proved unsually costly to the Leafs, the Rangers taking advantage of their opponents' shortage in manpower, to notch three of their tallies.

After a scoreless opening session Bill Cook and Boucher each beat the Toronto defence for a counter to clinch the game there and then. "Chuck" Conacher reduced the margin by hammering Joe Primeau's pass into the Ranger cage early in the third and the Leafs appeared in the picture again until penalties again reduced their personnel and Bill Cook, the leading goalgetter of the Calder loop, flashed into brilliance with a brace of cleverly executed counters.

The triumph consolidated the Rangers' grip on third place in the United States section as Detroit Lost to Canadiens and are now three points behind the Gothamites.

N.H.L. SCORERS.

TORONTO, Ont., Feb. 27.—(CP)—National League leaders:

Canadian Section

Team—aCnadiens, played 36, won 23, lost 8, tied 5, 51 points.

SOFT ICE MARS TEAMS' EFFORTS IN CITY LEAGUE

Players Mix-up Eagerly But the Going is Very Heavy.

SCORES ARE CLOSE.

Stars Beat Electrics 2 to 1— Sea Horses Shut Out Choates Hardware 1 to 0.

Two close Junior City League games were played last night at the Brock on ice that was mostly slush. The teams were all evenly-matched and would have given a great exhibition of hockey had the ice been fast. As it was, the scores 2-1 and 1-0 indicate how tight the contests were. An unusually small number of fans attended.

Combination was out of the question as the puck refused to slide, and speed was useless because of the danger of over-skating the rubber. It was a sort of sport mixup with golf, hockey, and water-polo predominating. The players while trying hard were inclined to treat the whole matter as something of a joke Only four penalties were handed out for both struggles.

Stars had all they could do to defeat C.G.E. Office 2 to 1 in the opening game. The revamped Electrics had a big edge in the first period and played on even terms the other two. The play was mostly individual with some wicked golf shots as the puck rolled persistently.

Close Battling.

There was no score in the initial stanza, but Sanderson had to jump to keep the buzzing Electrics out. The latter's front line went in time and again for tries and kept the play in enemy territory a good part of the period. Early in the middle chapter, G. Jay went down the left side and blazed one past Miller for the Stars' first goal. Play was even and up and down after that, with considerable backchecking from both front lines. White and Tuck did some dangerous rushing to keep Sanderson on his toes. Shortly before the end, Craig fooled the C. G.E. defence and slipped the equalizer past the goalie. The final frame was close as the boys went at it again. It was back and forth, with Wately and Ellis trying several sorties into the Electrics' end. The latter got away late in the period, and came down the left boards fast for a shard shot that got past Miller for the winning counter. The losers made it plenty hot for the Stars the rest of the game, but the latter managed to hold them off.

Both goalies did nice work in the nets and Frost and the Jay brothers worked particularly hard for the Stars. The Electrics' front line was effective, and the whole outfit gave its best to win.

The teams:

C.G.E. Office — Goal, Miller; right defence, Tuck; left defence, White; centre, Craig; right wing, Calladine; left wing, Milliken; alternates, Gray and Prete.

Stars — Goal, Sanderson; right defence, Ellis; left defence, Wately; centre, Frost; right wing, Young; left wing, G. Jay; alternates, Seabrooke, Bath, Maudsley, and H. Jay.

Referee—"Gamey" Jarvis.

SEA-HORSES' VICTORY

The Sea-Horses sweated out a 1—0 verdict over Choates' Hardware in the second game. Neither of these teams had lost a game before last night, and they were very well-matched. It was a clean and fairly fast battle, the play being first at one end and then the other. The players checked hard and shot often but not very straight.

The game started fast and the puck was rushed from end to end with neither crew having any advantage. The opening session was still young when Thirnbeck whistled a long, hard drive past Anthony for the only counter of the game. The East City boys looked better in the second, and anly hard checking and classy netguarding by Clarke kept them out. Merritt and Dinesen worked in close several times to scare the Sea-Horses. Play was again even in the last frame with White, Sproat and McCulloch working hard for the winners. It was up and down, hammer-and-tongs hockey most of the way. Choates were threatening continuously toward the end, and the Johnson outfit knew they had been through a fight when the final gong sounded.

There was little to choose among any of the players on either team, both squads plugging away hard from the net out. Gardiner and Wilshaw never slowed up for the losers, and Woods and Dallin were always dangerous for the Sea-Horses, but then all the boys looked good as they battled back and forth through the slush. The teams:

Choates.—Goal, Anthony; right defense, Francis; left defense, Dinesen; centre, Merritt; right wing, Gardiner; left wing, Wilshaw; alternates, Watman, McIlwain, McCarrol and Vinette.

Sea-Horses.—Goal, Clarke; right defense, Woods; left defense, Dallin; centre, Thirnbeck; right wing, Payne; left wing, McCulloch; alternates, Kirkwood, J. White and Sproat.

Referee—Pat Calladine.

REGINA PATS WIN ROUND.

REGINA, Sask., Feb. 27.—Continuing their fight to another Provincial championship, Al Ritchie's Junior Pats, Dominion champions, won the Southern Saskatchewan crown last night when they handed Moose Jaw Cubs another shut-out, 3-0 and took the round 8-0.

Basketball Finals To Be Held In West

TORONTO, Ont., Feb. 27.—(C.P.)—The final games for the Canadian Men's Senior Basketball Championship will be played in Western Canada during the week of April 20 and 25, it was announced to-day by the Canadian Amateur Basketball Association. The men's intermediate final will be played in the Maritime Provinces April 14 and 16, the men's junior final in Ontario April 17 and 18, the men's juvenile in the Ottawa Valley or Quebec, April 10 and 11, and the Interscholasic in Ontario April 9 and 10 The women's intermediate finals will be played in the Maritimes April 10 and 11.

SHOOT STARTS FOR CLEMENTS' MEDAL

Three Were Tied For First Place But James McGrath Wins ni Shoot-off.

Last night, the ePterborough Rangers' Rifle Association started the shoot for the Clements Medal. The rules called for shooting from two positions, prone and sitting. Three tied for first place. The tie was broken by using a fine graduated target, with the results noted below. Dave Clements won the first elimination, and Gordon Eason wan the second with the aid of Alex McIlvena. The prize of the evening went to A. McPhate.

JONES IS GIVEN SULLIVAN MEDAL

Golfdom's Greatest Closes Amateur Career—Turns to Business Affairs.

1,500 ATTEND DINNER.

CHICAGO, Ill., Feb. 27.—Bobby Jones, golfdom's greatest, to-day turned all of his attention to business affairs, his amateur career pretty definitely closed after receiving the James F. Sullivan Memorial medal last night.

The award, a solid gold medal five inches in diameter, was handed the peerless Atlantan by Avery Brundage, President of the Amateur Athletic Union of the United States, amidst an ovation from 1,500 civic and sports leaders who attended the testimonial dinner in his honor.

Before handing Bobby the medal, Brundage a telegram of congratulation from President Hoover.

Schneider Cup Team Has Skilful Leader

LONDON, Feb. 27 (C.P.)—Squadron Leader Augustuc H. Orlebar, holder of the world's air speed record of 357.7 miles an hour and captain of the British team in the last Schneider Trophy Contest, is designated to fill equally important duties next time. His great experience in the handling of racing seaplanes and his personal efficiency and popularity are thus secured to help Great Britain in her defence of the Trophy this year against the challenges of France and Italy.

Those who spent long days at Calshot Air Station at the time of the last contest in 1929 will always retain a vivid memory of Orlebar, an astonishingly thin, fit man with a pleasant hollow-cheecked face given to smiling. His voice, though high pitched and "finicky," obviously expresseed the wishes and thoughts of pressed the wishes and thoughts of termined personality and none of the pilots in the team ever demurred to his friendly yet decisive command. His appearance, with thin, aoquiline features, called up inevitably thoughts of "birdmen," while some discerned a fanciful likeness to the Red Indian chiefs of adventure story.

TOMMY GORMAN RETURNS TO N.H.L.

Montreal Gazette Says Gorman Will Manage Ottawa Senators.

MONTREAL, Que., Feb. 27.— The Gazette to-day carries a despatch from Ottawa which says in part:

"Tommy Gorman's return to the National Hockey League as managing director of the Ottawa Hockey Club is forecast by those in close touch with the affairs of the organization. Representatives of Ottawa service clubs who consider purchasing the Ottawa franchise, wired Gorman some time ago offering him the position, and Frank Ahearn, M.P., who recently returned east after a trip to Southern California, where he conferred with Gorman, has recommended him as the best possible man to head the return of the once famous and unbeatable Senators. Gorman's reappointment in control of the Ottawans would be very satisfactory, it is said, to President Calder and the Governors of the N.H.L., with whom he was associated for many years.

"Gorman won the world's championship with the Ottawa's in 1920, 1921, and 1923, and was runner-up in 1918, 1919, and 1924."

RACE TIGHTENS UP IN AMERICAN LOOP

CHICAGO, Ill., Feb. 27.—(C.P.) — The stern chase to catch up with Tulsa Oilers, at the head of the American League standing, didn't seem so hopeless to-day to a pair of battling contenders. Each in the midst of a winning stride, Kansas City Play-Mors and Duluth Hornets had pulled to within reasonable distance of the leaders.

While the pace-makers were accepting their second trouncing in two days at Buffalo's stamping ground in Fort Erie, the Pla-Mors and Hornets were gathering points. Defeating St. Louis 3 to 0, Kansas City crept to within six points of the Oilers and Duluth stayed another full game back by Downing Minneapolis 5 to 0.

BEANTOWN BRUINS IS SEXTET TO TROUNCE FOR N.H.L. TITLE

And Canadiens Look Most Dangerous for Rossites to Encounter.

LEAFS SIT PRETTY

(Special to The Examiner—Copyright 1931)

TORONTO, Feb. 27—Who will be the Man O' War of funereal hue in this year's National Hockey League play down?

Right now Boston Bruins, last year's league champions, are the team to beat both for the N.H.L. title and the Stanley Cup.

And Montreal Canadiens, who knock the Beantown Bruins off the perch in the Stanley Cup play-offs last year, are right up there and deserve rating right now as the most dangerous-looking team for the Rossites to face in the final struggles.

You can't, by any stretch of the imagination, dump either team into the dark horse class.

Toronto Maple Leafs and Chicago Black Hawks which are both right now battling along sitting pretty in second place berths in their respective groups, have both been in the hockey eye all winter.

That lets them out of the dark horse class too.

If you want to look for a dark complected nag in the race a sleeper ready for the awakening and a killing—you will have to go further down the list.

Montreal Maroons are in the midst of a terrific slump and even if they do boost New York Americans out of the third place berth in the Canadian group cannot be figured as dangerous. The team lacks cohesion and team spirit.

What is wrong?—Too much soft living and too much easy money on the side is as good a guess as any. And in addition Maroons have on their line-ups a couple of stars of former years who are getting by on mildewed reputations. They are not delivering the goods this season.

New York Rangers are in the same category but their slump has not been nearly so pronounced as that of the Maroons.

Americans Dark Horse

Figuring it all up and down the line the dark horse of the race is the New York American Club.

They do not look to have much except a grand little goal keeper—at least much on paper.

But they have behind them just about the smartest hockey leader of them all, Eddie Gerard, and Gerard has a free hand.

If he is left alone Gerard may spill a lot of beans with his team before the season is over.

Detroit's efforts so far have been very spasmodic, and their play is ragged, so you can count them out of it.

Ottawa has no background—they are next door to being the hobo team of the league. They have some good material, but they have nothing behind them to put the fight into them.

And as for Philadelphia about all they have is a set of uniforms and a place to play. Cooper Smeaton has abandoned all hope this year, but is building for the years to come.

A lot of folks are doing a lot of worrying about the Toronto Leafs because they have only ten men—one goal keeper, two high class defencemen and a sub who is coming right along, and two forward lines, one of kids and one of veterans.

Get Used to Each Other

The cry is that man power will beat them when the race down the stretch commences.

Will it?

Did you ever stop to figure that Leaf forwards only have to play five minute stretches each period or thirty minutes in each standard game.

That should not kill off any good athlete.

As a matter of fact the Leafs two forward lines get more chance to get used to each others play than any other set of lines in the league. Teams with three lines change them every three minutes. It takes at least a minute for a player tossed overboard to get loosened up and going at top speed.

Fine If Escape Injuries

Less players, less changes—and less changes leakage from full speed ahead.

Sounds reasonable doesn't it?

As a matter of fact the Leafs are all right if they do not run into injuries.

But that "if" looms up like the Pillars of Hercules in the eyes of local pro. hockey fans all of whom have their hearts set on a N.H.L. Championship or a Stanley Cup—or both—this season.

Toronto fans would be much better satisfied if Conny Smythe pulled in his lines and found a couple of high class amateurs on the hooks ready for service in emergencies.

Right now would be a tough place to set amateur stars in but lads who are in condition after a hard season, and who are more or less familiar with the Leafs' style of play would be mighty handy when the bad breaks arrive—if they do arrive.

ASK EXTENSION OF HYDRO LINE

Cheques received From Department Concerning Colonization and Machinery By-law.

HARVEY TOWNSHIP COUNCIL

HALL'S BRIDGE, February 27 (Examiner Correspondence). — The Council of the Township of Harvey met at Hall's Bridge on Saturday, with all the members present, when H. A. Shearer and W. H. Pearson waited upon the Council asking them to pass a by-law asking the Hydro to extend an electric line to Hall's Bridge.

William Irving asked the Council to sell the timber on road, Mr. Bennett to look after this matter. A communication was received from the Treasury Department enclosing cheques for $1,842.07, this being the share of the colonization and machinery by-law. A letter was read from J. B. Wilson, asking the Council to authorize the assessor to take a census of all pure-bred and grade bulls in the township. This request was granted. A by-law was introduced and duly passed authorizing the borrowing of $2,000 from the Bank of Montreal to meet the current expenditure for 1931.

T. P. Lancaster, M.L.A., and William Anderson, visited the council in the afternoon to discuss the colonization road problem and a few other matters after which a by-law was introduced and given a first and second reading, authorizing the council to expend $3,000 for such purposes in 1931.

The following overseers were appointed: William Moore, $200; Sam Tate, $200; Ernest Irwin, $200; W. R. Thompson, $300; Percy Hunt, $200; Robert Fawcett, $200; Richard Fawcett, $200; Rollie Stockdale, $200; Arthur Bolton, $200; Thomas Gordon, $200; William Irwin, $300; Road maintenance fund, $1,000; department's share of this, $1,500.

The following accounts were ordered paid: Dr. Kelly, $5; Charles Flynn, $2; W. R. Thompson, $2; James Oliver, $8.

The council adjourned to meet at Nogie's Creek on Saturday, March 7.

KNOX CHURCH C.E.S. PLANS SCOTCH NIGHT

Havelock Entertainment Will Take Form of Banquet — Women's Institute Meets.

HAVELOCK, Feb. 27.—(Examiner Correspondence). — At the regular meeting of Knox Presbyterian Church Christian Endeavor Society held in the school room on Monday evening, with the president Mrs. Lennox, in the chair, it was decided to hold a 'Scotch Night' in the basement of the church on Wednesday evening, March 26, the entertainment to take the form of a banquet and an excellent program will be prepared suitable to the occasion.

At this meeting, Miss Katie Anderson took the Scriptural reading and the topic, "The Master Workman of the Race", was well given. A vocal solo, "In the Garden" by Mrs. T. C. Jamieson was much appreciated.

Club Entertained.

The Havelock Ladies' Bridge Club was entertained at the home of Mrs. John Armstrong on Tuesday when three tables were played, Mrs. H. Bush being the winner of the first prize.

On Tuesday, Feb. 24, the members were entertained by Mrs. Harry Bush when Miss Beatrice Crawford won the first prize.

Entertains Institute.

Mrs. William Smith entertained the Belmont Women's Institute at the regular meeting held on Thursday, when the roll call was responded to by an exchange of Valentines.

Letters of appreciation were read from members who were ill and to whom flowers had been sent. A letter from Mr. Putman advised the members that Miss Ina Unslow, of Niagara-on-the-Lake would be present at the township hall on Monday to conduct the two weeks' course of instruction on Home Nursing.

The Relief Committee reported a case where assistance was needed and it was resolved to prepare a layette and some comforts for an invalid.

Each member brought in a quilt block as requested to do at a previous meeting. This quilt is to be finished in the near future, and will be used for relief purposes. Some pieces of the layette which was decided on at a recent meeting were ready and were handed in. A very interesting paper on "St. Valentine," was read by Mrs. Joseph Seabrooke. This was followed by a humorous reading given by Mrs. McGowan. A contest entitled "Aunt Priscilla's Piece Bag," was conducted by Mrs. Robert Anderson, and proved very entertaining. The prizes were won by Mrs. Arthur Russell, and Mrs. L. McGowan. The social committee served refreshments at the close of the meeting. Hostesses for the day were: Mesdams G. Smith, R. Anderson, W. Smith and Miss M. Williams. The next meeting will be held at the home of Mrs. J. A. Sexsmith on the third Thursday of March.

MOTHER: YOUR FRAIL CHILD NEEDS McCOY'S

When we say McCoy's we mean of course McCoy's Cod Liver Extract Tablets, each one of which is brimful of the weight building, vitalizing substance extracted from Cod-fish Livers.

The gain in weight, strength and activity in the weak, rundown child in just a few weeks will surprise you.

These famous health tablets are small, sugar coated and children love to take them. Get 60 tablets for 60 cents at McDermid & Jury, McDermid's, Bond's, Lynch, and Payne's, or any drug store anywhere —let the ailing child take them for 28 days—then if you are not satisfied with the health improvement—why: Money back.

HALL'S BRIDGE.

Mrs. William Mooney, of Rockcroft, was taken seriously ill on Monday, and was removed to Nicholls Hospital, where she underwent an operation.

Mrs. Snow of Toronto is the guest of her parents, Rev. Mr. and Mrs. Walker, who are both ill.

Mr. and Mrs. A. Crapp and family have left their farm on the Stockdale Line, and removed to Selwyn, where they have taken the farm recently occupied by Mr. Duggan.

Tidbits, Interesting and Humorous CAMPBELLFORD

Service at Christ Church (Anglican) on Sunday will be featured by two celebrations of the Holy Communion, at 8 a.m. and 11 a.m. Evensong will be at 7 p.m., the preacher for the day being the Rev. N. Clark Wallace. Lenten service will be held on Friday at 7.30 p.m. with choir practice immediately afterward.

At St. John's United church the Rev. R. C. Talt will take for his sermon theme in the morning "Enemies of Love," and in the evening the first of his series on "Problems That Try Men's Souls," "The Problem of Suffering." The pastor's Men's Bible Class subject in the afternoon will be "Jesus Sending Forth Missionaries."

At St. Andrew's Presbyterian Church the Rev. J. C. Robinson will be the preacher for the day, specis musical features being presented at both services by the organist and choirmaster, Mr. A. W. Newcourt.

On the Seymour United Church the Rev. F. G. MacTavish will preach at Zion at 11 a.m. Stephens at 3 p.m. and Tabernacle at 7 p.m. and will take for his sermon subject "Zacchaeus."

At St. Andrew's Presbyterian Church, Burnbrae, the Rev. Donald A. McKenzie will administer the Sacrament of Holy Communion on Sunday at 11 a.m. and will hold a Preparatory service on Friday evening at 8 p.m.

Mrs. C. W. Turner is the guest of her daughter and son-in-law, Mr. and Mrs. Hugh McIntyre, of Toronto.

Mrs. C. J. Windrim was hostess at a bridge party Wednesday evening when four tables were in play. Mrs. Paul of Toronto won first prize, Miss Helen Bygott being winner of the travelling prize. Mrs. T. J. Craighead assisted the hostess with the lunch.

Mr. and Mrs. F. N. Brown, Mrs. F. J. Smith and Mr. and Mrs. G. A. Ironside were visitors to Belleville on Tuesday.

Mr. A. L. Riendeau is a visitor to Toronto this week.

ZAM-BUK
Marvellous For Healing
Ulcers & Bad Legs

A DINING-ROOM TRAGEDY!

TABLES spread with delicious food . . . most of it soft, highly refined—lacking in the "bulk" and iron your body must have to keep well and strong.

This is the dining-room tragedy that occurs daily in millions of homes. No wonder most people suffer from constipation. No wonder headaches, backaches, and dull days are frequent!

Just add one delicious food to your table—and you will help correct all this suffering. Add Kellogg's ALL-BRAN in some form every day.

ALL-BRAN adds the necessary "bulk" or "roughage"—and iron—that is so often lacking in our diet today. This bulk is needed to prevent constipation—to sweep the system clean of poisonous wastes—to exercise the intestines and keep them healthy.

ALL-BRAN is delicious as a cereal with milk or cream. Sprinkle over other cereals or use in cooking.

Two tablespoonfuls daily are guaranteed to relieve both temporary and recurring constipation. In severe cases with each meal. At your grocer's—in the red-and-green package. Made by Kellogg in London, Ontario.

Kellogg's ALL-BRAN

Marmora

Mr. H. A. McNally spent Wednesday at Kingston.

The Lenten service at St. Paul's on Wednesday evening was wall attended. The rector preached on "The Call of the Publican." Next Wednesday evening Rev. P. C. Howard, of Havelock is the special preacher.

Mr. H. R. Haacke has been appointed secretary-treasurer of the reorganized Sunday School at Deloro and Mrs. S. B. Wright will be in charge of music.

Mr. M. Maloney is slowly recovering from his long illess.

Young People's Society Meeting at Bailieboro

BAILIEBORO, Feb. 27 (Examiner Correspondence).—The regular weekly meeting of the Young People's Society was held in the United Church on Tuesday evening under the direction of the social and literary department.

J. Barnard led in the devotional services assisted by Rev. E. F. Swayne. The explanation of the scripture verses were read by Mrs. N. Thompson.

The delegates who attended the tenth annual winter school at Cobourg then gave their reports of the various sessions of the school. The delegates appointed who attended the winter school during the month of January were Messrs. Frank and Fred Barnard.

Next week's meeting will be under the direction of the Christian Fellowship convenor, Miss Agnes Brackenridge and Rev. E. F. Swayne will have charge of the topic which will be on Pentecost.

When a recipe calls for MILK . . . Use ST. CHARLES!

LIKE thousands of other Canadian housewives, you will soon discover that St. Charles Evaporated Milk is your best cooking friend.

St. Charles is sterilized, pure country milk, produced from fine, selected Canadian cows—nothing but 60% of the moisture is removed. This process of evaporation leaves all the cream, all the nourishing healthful contents in concentrated form, thus improving the flavor of your cooking and giving a richness that both you and your family will enjoy.

Send us your name and address and we shall be glad to mail you a copy of the new authoritative Cook Book we have just compiled.

Spouse Of Wilhelm Honors Predecessor

POTSDAM, Germany, Feb. 27 (A.P.)—The Princess Hermine, wife of the former Kaiser, at dawn today made a pilgrimage to the tomb of her predecessor in Wilhelm's affections, the former Kaiserin, Augusta Victoria.

At the sarcophagus, which is located in Antiken Tempie, Sans Souci Park, she laid a wreath, commemorative of what would have been the golden wedding anniversary of the deceased and Wilhelm. She stood a few minutes before the tomb in meditation and then left.

COMMANDER EDWARDS ADDRESSES LOCAL ENGINEERING ASSOCIATION

Radio Communication and Aids to Navigation Subject of Fine Address.

McALPINE RESCUE.

That the intrepid British pilot, Kingsford Smith, and his companions who flew the Atlantic in the "Southern Cross," were lost over the Atlantic, and made a landing at Harbor Grace after flying 'blind' all through the night, was suggested in the course of an intensly interesting lecture delivered by Commander C. P. Edwards, Director of Radio Service, Department of Marine, before the members of the local branch of the Engineering Institute of Canada at Paragon Hall last night.

"Radio communication and aids to navigation," the subject of the lecture, took the audience to put it into words of A. B. Gates who moved a vote of thanks at the conclusion; "down to the sea in ships; under the sea in wrecks and aloft in the clouds in airships."

Commander Edwards was introduced by W. E. Ross, A.M.E.I.C., chairman of the branch, who in stating that this was the Commander's first visit to Peterborough, was strictly speaking not making allowances for the fact that the lecturer passed over the city in the British dirigible the R-100, on the occasion of its Canadian tour last summer following the epic flight from England. Incidentally the Commander has a close link with this city in so much as he is related to A. L. Dickinson, engineer at the C.G.E. works.

Entertaining Speaaer.

Commander Edwards is probably one of the most entertaining lecturers to have been heard in this city for some time. His address was freely interspersed with deeds of heroism on the high seas and in the Canadian hinterland, and was further illuminated with the aid of slides and motion picture reels of the Canadian tour of the R-100.

After covering the theoretical side of the science of direction finding very thoroughly, the lecturer stated there are quite a number of these "D.F." stations in Canada started at the conclusion of the War. Such stations were just commencing prior to the outbreak of hostilities, but at that time crystal receivers were not sensitive enough. The first station was established in this country in 1917, which was rapidly followed by three more specially designed for War service.

The value of these stations as an aid to navigation, and consequently as a means of saving life, was capably stressed by the speaker "A navigator once out of sight of land," he said, "is dependent on the vision of celestial bodies for his correct bearing and also his chronometer. Even with the best of instruments we find navigators go ashore."

Now the coast of Canada is dotted with direction finding stations for giving ships their direction, and it is interesting to note that the station at St. John, N.B., gives 20,000-30,000 bearings annually. Every ship coming up the Bay of Fundy takes its direction from this point. The station at Cape Race gives more bearings than all other stations put together.

In addition to shore stations, many ships are now equipped with their own direction finders, and the vessel takes its bearings from the radio beacons established ashore.

Navigation in and out of Hudson Straits is entirely dependant on radio direction finding stations, as there are no lighthouses in those waters at all.

Referring to the flight of the "Southern Cross," Commander Edwards said that Kingsford Smith was in constant touch with the Canadian "D.F." stations, without being aware of the fact owing to the roar of his engines. The Commander was on duty that night and could hear the aviators messages coming in. After flying blind throughout the night the plane hovered over the field at Harbor Grace, when communication was established. The aviators were told they were right over the field, although they could not see it owing to fog. They asked that a plane should be sent up to guide them.

The lecturer also told the epic story of the rescue of Colonel McAlpine and his party in the northlands up near Bathurst Inlet, and described the efforts of Blanchard, the search pilot as an epic event.

Commander Edwards' style of narrative is extremley humorous and entertaining. He speaks all the time in a conversational style with nothing suggestive of the professional lecturer. His films of the flight of the R-100 were very fine and his fund of anecdotes in connection with the trip amusing yet instructive.

The next meeting of the Institute to be held on March 12th, will constitute the annual students meeting when two or possibly three papers will be given including addresses on "Talkie Equipment" and "Photo Electric Cells."

ICE STAR REPUDIATES DIET

Evelyn Chandler, winner of junior national figure skating championship of the United States two years ago, says she eats eight eggs a working day and adores beefsteak smothered in mushrooms and onions.

LADIES ENTERTAIN CHOIR OF ST. PAUL'S

120 Attend Banquet Given Choir by Ladies' Aid of Congregation.

Each year, for many years past, the Ladies' Aid Society of St. Paul's Presbyterian Church has acted as hostess to the choir members. This gathering is termed "the choir banquet"—and the name is no misnomer. Last night the choristers assembled in a full rally, with friends and well-wishers, to the number of about 120. The Sunday School Hall was prettily decorated with plants, evergreens, and an array of silver candlesticks, and tables laden with tempting edibles. The friends of the choir included representatives of the Session, Managers, and the Sunday School. The service at the tables was of the best possible description, and every moment was made to count with the guests.

Community singing, as usual, was used to good effect, with the genial Martin B. Chenhall at the piano (and who, by the way, whether conducting the rehearsals or Sunday musical services, or at social events, is right at home trying to give the members a happy time).

Several visitors were called upon, and many kindly remarks were released, which tended to give "new life, new love" to the work of the choir.

Votes of thanks were moved and carried, with cheers, to the Ladies' Aid Society on this, the occasion of the 1931 banquet—the best in the history of both associations. Mrs. H. Morgan replied, and from her words, the gathering could understand that 1932, perhaps, would find them willing to repeat this year's affair.

Tables having been cleared, a round of games and stunts, duets and choruses, and guitar selections was carried through, and at ten o'clock (elders' hours) the party joined hands in "Auld Lang Syne" and the National Anthem.

Perkins Advances Into Finals Of Tourney

MIAMI, Fla., February 27 (C.P.).—T. Philip Perkins, British star, faced a dark horse entry in Bob Kaufman, Canton, Ohio, in the 36-hole final round of the Dixie amateur championship to-day.

The finalists advanced through the semi-final rounds yesterday by the score of—one up.

Perkins eliminated Lee Chase, of Buffalo, co-medalist in the tournament, while Kaufman beat Winfield Day, Jr., young Chicago sensation.

ADVERTISE IN THE EXAMINER

DUCE PLAYS PART IN NAVAL PARLEY

Italy's Full Adhesion to London Naval Treaty is Fully Expected.

DEVELOPMENTS SECRET.

ROME, Feb. 27 (A.P.)—Premier Mussolini to-day took over active direction of negotiations with the two British Ministers, Rt. Hon. Arthur Henderson, and Rt. Hon. A. V. Alexander, seeking to procure Italy's full adhesion to the London Naval Treaty.

It was said by those in touch with the pourparlers that nothing had developed to indicate a serious obstacle to agreement and the chances of evolution finally of an arrangement which would make the three power London Pact a five-power instrument were given as about nine out of ten.

Premier Mussolini, after a long talk with Mr. Henderson and Mr. Alexander yesterday in the presence of Dino Grandi, his own Foreign Minister and Rear-Admiral Giuseppe Sirianni, Italian Naval Minister, again conferred with Grandi this morning. After more than an hour's talk Grandi left the Duce's office and spent an hour with the British Foreign Secretary, Mr. Henderson.

A cloak of secrecy continued around the negotiations, and it has not yet been revealed what the nature of the proposition which the British plenipotentiaries brought to Rome really is, but it was learned on good authority that the alternatives which the experts are studying comprise many details rather than several formulae, each complete.

After a conversation between Mr. Henderson and Sirianni the negotiations were adjourned until later in the day, the Minister driving Signor Grandi to Revoli, famous ancient resort, an hour's ride from Rome. The Britishers expect to leave for England at 2 p.m. Saturday.

Liberals Of Alberta Fail On Amendment

EDMONTON, Alta., Feb. 27. (CP) Division bells rang for the third time of the present session of the Alberta Legislature when Liberals endeavored without success yesterday to put through an amendment to the budget mation which would have called for a reduction of estimates. By a vote of 34 to 17, the House declined to pass the amendment, sponsored by Hugh Montgomery, Liberal, Westaskiwin.

The 11 Liberal members were supported by the six members of the Conservative bloc, but by no other groups or individuals in the House.

NOTICE TO CREDITORS.

IN THE MATTER OF THE ESTATE OF GEORGE CROWE, MOULDER, DECEASED.

All persons having CLAIMS against the Estate of the late GEORGE CROWE, in his lifetime, of the City of Peterborough, in the County of Peterborough, Moulder, who died on or about the 27th Day of January, 1928, are hereby notified to deliver to the Administrators of his Estate, or to the Solicitors of the said Estate, full particulars of their Claims, duly verified by statutory declaration, on or before the 10th Day of April, 1931.

Immediately after the said 10th Day of April, 1931, all Assets of the said Estate will be distributed among the parties entitled thereto, having regard only to the Claims of which the Administrators shall then have notice.

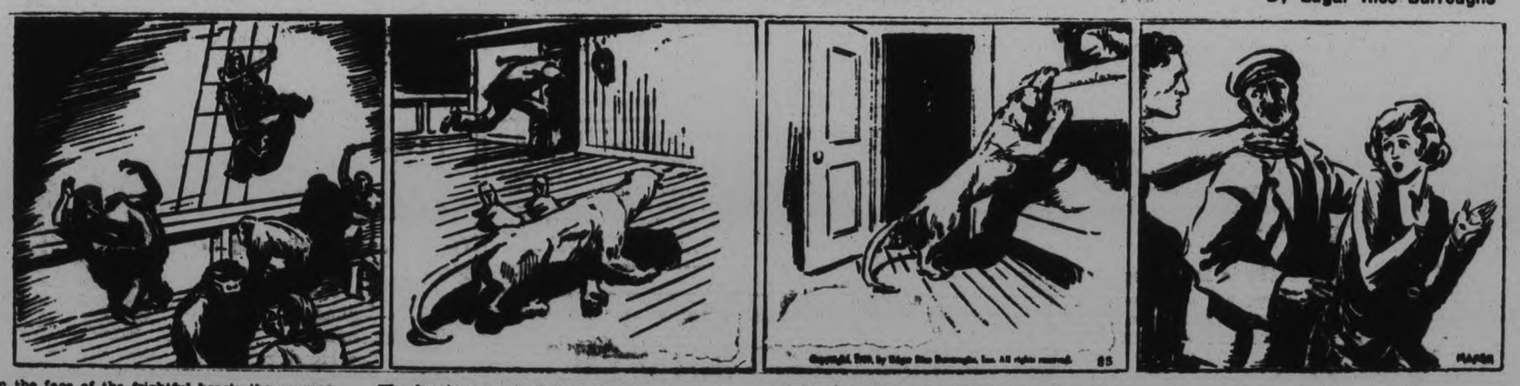
THE BEASTS OF TARZAN No. 83 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs



In the face of the frightful beasts the courage of the mutineers wavered and broke. Those with revolvers fired a few scattering shots and then raced for some place of supposed safety. Into the shrouds went some; but the Apes of Akut were more at home than they. Screaming with terror many of the half-breeds were dragged from their lofty perches. Others were pounced upon before they could even scramble aloft.

The beasts, uncontrolled by Tarzan, who had gone in search of Jane, loosed the full fury of their savage natures upon the unhappy wretches who fell into their clutches. Within the forecastle and on the deck there was a whirlwind of fighting. Sheeta in the meanwhile had been creating havoc with his great fangs. Then he spied Kai Shang, the craft ringleader of the sordid outfit, just as that Chinaman darted down the companionway to his cabin.

With a shrill scream Sheeta was after him. The scream awoke an almost uncanny cry in the throat of the terror-stricken Chinaman. But Kai Shang reached his cabin a fraction of a second ahead of the panther, and leaping within, slammed the door—just too late. Sheeta's great body hurtled against it before the catch closed, and Kai Shang felt the impact of the beast's fangs.

A moment scarcely had elapsed after the Kincaid's mate had leaped upon Jane Clayton and wrenched the revolver from her hand when the door of the cabin opened and a tall and half-naked white man stood framed within the portal. Silently he leaped across the cabin. The mate felt sinewy fingers at his throat. He turned his head to see who had attacked h'm, and frose with horrow when he saw the apeman's face close above his own.

KNOX CHURCH DRAMATIC CLUB

March 26 and 27 were the dates set by the officers of the club last evening for the presentation of their snappy play called "Yimmie Yonson Yob." The play is as bright and witty as any the club has had the pleasure to produce. And it is expected that a large crowd will agree with us on these two nights. 1d-501248

Recruits to the British Army in February numbered the lowest of any month in the last fiscal year.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

SILK NEEDED FOR DRESS

Please telephone us if you have any pieces of bright silk to give away, and we will get them. They They are for use in the sewing rooms of the Peterborough Relief Association, where Mrs. H. Dunsford is in charge of this work. They are needed to make collars, cuffs and ties for dresses for little girls which are being made up there.

A sleeve board is also needed, for use in pressing garments, when finished. Possibly one might be loaned to the society, or given outright.

Underwear for men is badly needed at the Relief Rooms. Please telephone 1600 and we will call for any parcels.

SLEIGHING POOR IN CITY

This is a bad time of the year for farmers who wish to bring their produce into the city from the country. This was proved by an incident which occurred near the intersection of Hunter and Aylmer streets this noon. A pair of horses were drawing a heavily laden sleigh load along Hunter street, and as the center of the street was bare and dry, they were attempting to make the best of it on the ice near the curb. However the horses were unshod and one slipped. The animal was evidently cut of wind for it was only after he was unhitched and coaxed with a few kicks and kindly words that it stumbled to its feet.

BREAKS HER ANKLE

Mrs. Albert Vass sustained painful injuries from a broken ankle when she fell down the cellar steps of her new home the other evening.

PUMPER IS RETURNED

Another patient has left the hospital. Only in this case the patient is the pumper of the local Fire Department who went to the tin and motor hospital of the La France Company in Toronto.

Word was received this morning that the pumper is again in excellent condition, and is ready for a continued career of service. The machine left the Queen City at 8.30 this morning. V. Carr master mechanic of the local Department, made a trip down to Oshawa to meet the pumper.

Pantomine Of Nature Enacted By Denizens Of Bird And Animal Life In Middleton Orchard

A somewhat unusual assembly of animal and bird life in her orchard this morning, attracted the attention of Mrs. J. E. Middleton of Monaghan Road. There seemed to be a great deal of chattering and quarreling among the animals, so she watched for a while from a window.

An old crow, perched on the top limb of an elm tree, was cawing loudly in a challenging tone. Three black squirrels tripped over the frozen crust in their stop-look-and-listen manner. About two dozen starlings hopped about among the branches beneath the crow and kept up a continuous racket. A flock of sparrows, under the elm, quarrelled bitterly over a piece of stale bread.

Then an unusually large grey squirrel came leaping from tree to tree and scolding steadily all the way. The other squirrels and the birds were suddenly quiet. The new arrival charged his black cousins who raced up among the starlings. He chased them all out of the tree and the sparrows took off from the ground in a whirring flight.

The crow kept up his defiant call until the grey fellow scampered up to the top of the tree after him. Then he too, hurriedly flew off, leaving the bushy-tailed beauty in possession of the elm. The victor balanced himself on a swaying branch and issued vociferous challenges to the world for seevral minutes. Finally, getting no answer he flitted away apparently in search of other diversions.

OBITUARY

WILLIAM G. WESTLAKE.

The funeral of William G Westlake held this afternoon from the family residence, 300 Wolfe Street, to Little Lake Cemetery, marked the passing of an old and greatly respected resident of this city, to whom eloquent tribute was paid by Rev. J. E. J. Millyard, pastor of George Street United Church, who conducted the funeral service, assisted by Rev. William McDonald of Knox United Church.

The deceased was born in Smith Township, the son of the late Mr. and Mrs. George Westlake, on July 5, 1858. He was educated in the local schools. In his early twenties he was married to Elizabeth Jane Macdonald, who predeceased him 24 years ago. By his first marriage he leaves two daughters, Mrs. S. P. McFadden of this city, and Mrs W. S. Campbell of Toronto, and also the following sisters-in-law, Mrs. S Cottingham, Mrs. J. T. Stenton, Mrs. A. Smeaton, and Mrs. W. A. Lewis, all of this city.

Some time after the death of his first wife, he was married to Minnie Pearson, who survives him. Also surviving are two sisters of his second wife, Mrs. J. H. Vallery of this city, and Mrs. H. Peters of Hastings, and brothers Fred Pearson of California and Robert Pearson of Walkerville. Deceased also leaves one sister, Mrs. Thomas Tindal of Smith, the last surviving member of a family of six.

The late Mr. Westlake was a lifelong Liberal. He was also a faithful member of George Street United Church for a great number of years. His interests also embraced activity in the Canadian Order of Foresters, Court Little John No. 91.

The deceased's parents were pioneer residents of Smith Township, having come to this country in the year 1840. They both lived into their nineties, and ended life in retirement in Bridgenorth.

MRS. J. G. PLUNKETT.

The funeral of the late Mrs. J. G. Plunkett, who met with an untimely death in a motor car accident on the Kingston Highway Wednesday evening, will be held from the family residence, 237 Prince street, to St. James' United Church at 1.30 p.m. on Saturday. Rev. A. E. Moorehouse will conduct the service and interment will be made in Fife cemetery, Otonabee.

Mrs. Plunkett is survived by her husband, two sons, Leslie (injured in the accident) and Dr. E. Plunkett, of Ottawa, a daughter, Mrs. H. Davis, of this city, five sisters, Mrs. C. Edwards and Mrs. A. McAdams of Peterborough, Mrs. James Shearer of Keene, and Lizzie and Bella Nelson of Toronto, and three brothers, Morley Nelson of Hoover, North Dakota, Herbert of Watson, Sask., and Albert of Stratford, Ontario.

BIRTH

DERRY—At. Nicholls. Hospital. on Friday, February 20, to Mr. and Mrs. Cecil Derry, a daughter, Phyllis Marie.

QUEEN MARIE RECOVERS FROM MEASLES.

BUCHAREST, Rumania, Feb. 27. (AP)—Queen Marie of Jugoslavia, who has been ill here with a mild case of measles, has recovered completely it was announced to-day. She will leave Bucharest Sunday for Belgrade.

IN MEMORIAM

SMITH—In loving memory of Gunner Jack Smith, 4th Battery, 1st Contingent, C.F.A., died 27th Feb., 1926.
Though five long years have past away
Since you were called from our mist
Yet your face, so dear, will always stay,
For your smiles were the warmest and best;
And to us dear dad this day brings again
The longing for that one at rest.
—Sadly missed by his Wife and Family.

MILL WORKERS RETURN TO JOBS

Police on Guard to Prevent Clashes With Pickets Stationed Outside.

STRIKE LASTED 5 DAYS.

LAWRENCE, Mass., Feb. 27. — Thousands of workers filed into the Wood, Ayer and Washington mills of the American Woollen Company as the mill gates swung open at 7.15 this morning.

It was impossible to determine immediately their exact numbers, but mill agents estimated that a majority of the 10,000 employees who have been idle since a strike silenced the looms five days ago were coming back.

Mounted police patrolled the vicinity of the Woollen Company's properties and rode the highways for some distance away. A force of 50 officers from Lowell were on hand to see that no willing worker was molested on his way to the mills.

Small groups of picketers were kept moving by the police officers and there were no signs of trouble, of any kind. To prevent any picketers from filing into the mills with the workmen, officers were posted on each floor of the mill buildings.

Bracebridge Pair Wanted In Lindsay

LINDSAY, Ont., Feb. 27.—(Examiner Correspondence.)—Officers Nelson and Porter left this morning for Bracebridge to bring back for trial two brothers, Chester and William Robbins, of Barkway, Ontario, who are charged with stealing fur pelts from the Longford Reserve Company, owners of the entire Township of Longford, in the north of Victoria County. It appears that the company has been missing pelts for some time and that the arrest of the Robbins brothers will likely clean up matters.

Platinum deposits recently found on the island of Chiloe, Chile, are declared to be the richest in the world.

Five-Power Naval Pack Looms as Reality

ITALIANS ACCEPT NAVAL PROPOSAL BY GREAT BRITAIN

Relationship of Italian Navy to That of Britain Specified in Scheme Advanced.

AWAIT FRENCH VERIFICATION

Agreement Eliminates For 5 Years at Least Threat of Franco-Italian Naval Race.

ROME, Feb. 28. —(AP)— The Italian Government this morning accepted proposals advanced by Great Britain which will permit its full adhesion to the London Naval Treaty. The proposals previously had been accepted by the French Government. Adhesion of the two Governments to the London Treaty, reached at conclusion of the Naval Conference almost a year ago, will make that pact a five power instrument instead of a three power treaty as it is now.

Negotiations which brought the Italian acceptance were carried on by Rt. Hon Arthur Henderson, Foreign Secretary, and Rt. Hon. A. V. Alexander, First Lord of the Admiralty for Great Britain and Dino Grandi, Foreign Minister and Rear Admiral Guiseppe Striani for Italy. Premier Mussolini himself carried on part of the conversations for Italy.

Relationship Specified

The proposals advanced by Great Britain, some reports said, specify a relationship of the Italian navy to that of Great Britain, and, inasmuch as France previously has accepted a specified relationship to the British navy, fix indirectly the relationship between the Italian and French navies. It is understood that the Franco-Italian parity controversy is in effect postponed until 1936 when the entire naval treaty comes up for review.

The accord reached with Italy will be presented to France tomorrow by Mr. Henderson and Mr. Alexander. If France verifies its tentative acceptance it will be presented the British Parliament, United States and Japan, for their approval, effecting finally the transition of the naval treaty from a three power to a five power pact.

No Tonnage Figures.

First word of the Italian acceptance, which was hel din abeyance all last night by Premier Mussolini, was given in a terse "communicato," which merely stated that Italy had agreed to the British terms. The communicato did not mention the

War is Declared On 1930 Markers

The period of grace has long since expired and the Highway Traffic Department has issued instructions to patrol officers to declare war on automobile owners and drivers who are still to be seen on the highways and byways flaunting their 1930 markers.

Traffic Officer Hinchcliffe intimated to The Examiner this morning that in accordance with instructions he will institute a ruthless check-up, commencing on Monday. He wishes to point out that traffic regulations also requires that the name and address of the owner shall be painted on both sides of all commercial and dual purpose vehicles, and that a rear reflector be carried on the left hand side of such vehicles. Furthermore, he states, any vehicle over 80 inches in width must carry clearance lights both front and back. There are numerous offenders in this district, he declared, and the check-up will include these also.

CUP TIE GAMES END IN A DRAW

In Fourth Battle Everton Defeated Southport Nine to One.

CELTIC 4, ABERDEEN 1.

LONDON, Feb. 28. (C. P. Cable).—Three drawn matches came out of games in the sixth round of the English Football Association cup competition to-day. In the fourth battle Everton alone emerged a winner, crushing Southport by nine goals to one. Sunderland and Exeter City each scored a goal. As did West Bromwich Albion and Wolverhampton Wanderers, while Birmingham and Chelsea both got a brace of counters. Replays will be staged in the deadlock game next week.

Nerves were in evidence early at Birmingham, where 60,000 saw the local team come from behind at half time to knot the count with Chelsea.

Chelsea worked hard for the equalizer but were well held. Birmingham resorted to kicking out and in a scramble Crawford's shot was deflected into their net.

West Bromwich Albion and Wolverhampton Wanderers, two historic teams, battled to their one-all draw on a rain-sodden field at West Bromwich before 45,000 fans. Both sides fielded their strongest teams. The Wanderers were dangerous at the outset when Deacon got through on a dribble but could not beat Pearson. Then W. Richardson headed over for the Albion. The excitement caused

Burnley Football Club Strives to Regain Lost Laurels

Burnley, which club was relegated to the Second Division of the English Football League at the end of last season, is slowly preparing for an assault to regain lost laurels, and expects to make a way back to the First Division, if not this season, then next. To-day they played a tie game with Plymouth. O'Dowd, the centre half-back, was formerly with Blackburn Rovers. Charlie Bates has been with the club 21 years, first as player and latterly as trainer. Burnley is the club Jerry Dawson kept goal for and the club which brought out Bob Kelly, now of Huddersfield. Burnley will probably be remembered best from the following team: Dawson, Bamford and Taylor, Bailey, Boyle and Watson, Nesbitt, Lindley, Freeman, Hodgson and Moscrop. Tommy Boyle was one of the greatest players ever. Those in the ABOVE picture are: Back row, left to right—A. Forrest (reserve), J. Brown, A. McCluggage, H. Conway, G. Waterfield, G. W. Beel, and Charles Bates (trainer). Front row—E. Jenkins, J. Mantle, H. Storer (captain), P. O'Dowd, T. Prest, and L. Page.

C.N.R. Flyer Hits Automobile, Man Instantly Killed

Archer Mariatt, 45 Year Old Farmer of Wicklow, Was Instantly Killed at Noon Saturay When His Automobile Was Struck By C.N.R. Express.

MARIATT WAS THE ONLY OCCUPANT OF THE CAR AND ACCIDENT OCCURRED 8 MILES EAST OF COBOURG

COBOURG, Ont., February 28 (Special to The Examiner). —Archer Mariatt, a 45-year-old farmer of Wicklow, eight miles east of here, was instantly killed at ten o'clock this morning when his car was struck by the C.N.R. west-bound flyer, at a level crossing two miles east of Cobourg.

Mariatt, who was the only occupant of the car, had, it is stated, been to Wicklow Siding to ship milk, and his failure to hear the warning whistle and the clanging bell on the locomotive is believed to have been due to the flapping of the side curtains on his touring car. The train, which was travelling at a good clip, struck the vehicle broadside, reducing it to a mass of scrap, while the body of the unfortunate victim was horribly mangled.

The deceased man was very highly regarded in the district, in which he has resided for the past nine years. He came from England and purchased the hundred acres on which he farmed. He leaves his widowed mother and one sister, whose only support he was. Mariatt was a member of Wicklow Baptist Church.

Coroner Dr. G. M. Ferris has ordered an inquest into the circumstances attending the fatality although the date has not yet been stated. Provincial Constable Kidd of Cobourg is investigating.

Sinclair Declares Hubbub is Being Promoted for Publicity.

TORONTO, Sept. 29.—Moving the ajournment of the Legislature in order to discuss "a matter of urgent public importance," H. C. Nixon, Progressive leader, yesterday afternoon demanded that the Government institute an independent and impartial investigation into the state of teaching and student-body at the University of Toronto in respect to atheism.

Taking as the basis of his complaint the recent article in student journal "The Varsity," for which A. E. F. Allan as editor assumed full responsibility, Mr. Nixon advocated that the Government apply to the university some of the "strong-arm methods which the Provincial Secretary has recently applied to the jails and institutions under his care."

The Progressive leader also declared that in his view the Attorney-General ought possibly to put Editor Allan in pail, prosecuting him because

Department Is Mum On Windsor Reports

OTTAWA, Ont., Feb. 28 (C.P.) — Hon. E. B. Ryckman, Minister of National Revenue, has not received Inspector Jackson's report on the Windsor, Ont., customs depot, and the Department refused to comment today on reports from that city that a reorganization was imminent. The Inspector investigated charges made by R. M. Sinasac that there was collusion between Canadian and United States inspectors to permit interchange of smuggled goods.

Upon receipt of the charges by the Department, Inspector Jackson was detailed to investigate them, but so far his report has not been received by the Minister.

RYCKMAN TAKES INITIAL ACTION IN CUSTOMS CASE

Orders Commissioner Breadner to Suspend Member of Windsor Staff.

IDENTITY NOT DISCLOSED.

Move is Outcome of Inspector Jackson's Report—More to be Censored.

OTTAWA, Ont., Feb. 28. (CP)—Acting on instructions from Hon. E. B. Ryckman, Minister of National Revenue, R. W. Breadner, Commissioner of Customs, to-day ordered the suspension of one member of the Windsor, Ont., customs staff. He refused to disclose the man's identity or the exact reason for his action but admitted he was acting on the report of Inspector Jackson who investigated allegations made by R. J. Sinasac, former customs agent in the Border Cities.

Charges Bribery

The Sinasac charges, which were made about three weeks ago claimed there was connivance between Canadian and United States customs officials to permit the smuggling of liquor across the Windsor-Detroit line. Bribery also figured in the charges.

Although Mr. Breadner refused to discuss the matter beyond the bare statement that one man had been suspended, it was understood the censoring of one or more of the members of the Windsor staff was under consideration. Mr. Ryckman was not in his office to-day but it was understood he had under advisement further action on the Jackson report. The exact nature of this was not known definitely.

Dog Spots Man Upon Upturned Boat; Barks Bring Rescue in Nick of Time

HALIFAX, Feb. 28.—The peculiar actions and loud barking of a police dog drew the attention of Herbert D. Keating at the east ship harbor early Wednesday morning and resulted in his saving the life of Frank Carter, whose dory was upset in the rough waters of the harbor, it was learned here last night.

After battling the icy harbor for three-quarters of an hour, Carter crawled onto the overturned boat and lost consciousness. Keating followed the dog to the water's edge and in the semi-darkness saw a body lying across the dory. He launched a boat and reached Carter as he was slipping into the water. Owing to the rough seas, rescue was difficult, but Keating finally brought the unconscious form to shore. After receiving medical aid, Carter recovered sufficiently to be taken home.

CEREALS PARLEY ADVANCES LITTLE AT SECOND MEET

See Solution Only Through Agreement Between European and Overseas Countries.

AWAIT SESSION IN ROME.

No Headway Made on Preferential Tariffs For Wheat From Danube Districts.

PARIS, February 28 (By George Hambleton, C.P. Staff Correspondent). — The European Cereals Conference closed to-day with the frank recognition that the wheat situation can be met only by agreement between European and overseas countries. And to that end the delegates are looking forward to the coming World Wheat Conference in Rome, in which it is expected Russia will participate.

"The special agreements contemplated here," said Francois Poncet, in concluding to-day's conference, "are only the beginning of a longer task, but the spirit of confident optimism which has been evident throughout is a guarantee of final success."

Little Headway.

As expected, the conference has been unable to make advance along the lines of preferential tariffs in favor of wheat from the Danubian countries. It is unable to go beyond the decisions of the Geneva economic conference of last November, which laid down that a preferential regime should not harm the interests of overseas exporting countries and could not be applied unless the countries enjoying most-favored-nation treatment with overseas nations were brought in.

The conference will report to the Inquiry Committee of the European Union that the present world surplus in wheat is not due to an increase in the acreage of land under wheat cultivation in the states of Central and Eastern Europe. The conference urges that the Danubian states should take steps to meet the needs of the buying countries of Europe. Agricultural credits will be discussed at Geneva in March.

BUSINESS MEN IN CITY REGARD COUNTY COUNCIL'S MOVE MISTAKE

Believe County is Sure to Benefit by Going on With Highway Work.

NEVER CONSULTED CITY.

That the action of Peterborough County Council in calling upon the Provincial Government to suspend work for this year on Peterborough-Tweed Highway, is a mistake and that the need for such a highway is an urgent one, is the general opinion reflected in a series of interviews which The Examiner obtained this morning from some of Peterborough's leading and most progressive citizens.

It is generally contended that in view of the present economic situation, public undertakings should not be curtailed, but rather fostered as a means of keeping this County in line with progress and in providing much needed work for the unemployed.

James Dutton, president of Peterborough Chamber of Commerce: "I think that in view of present conditions, the County Council is possibly justified in their stand, on the other hand I feel it would be a mistake to suspend operations on the Peterborough-Tweed or any other highway undertakings at the present time. The economic situation is showing little signs of improvement and it looks as if we shall have large numbers of men to take care of. To suspend work on any public undertaking is not going to contribute to the general well-being of the country. In order to help out the situation everything that can be done to further that end should be undertaken. The Government may even yet have to adopt measures of its own to relieve the present unemployment problems."

Gordon S. Matthews, member of the executive Canadian Manufacturers Association (Peterborough Branch)—"Work on this undertaking

SASKATCHEWAN FARMERS REJECT SECESSION AS THREAT TO GAIN AID

Members Claim Decision to Enter Politics Be High Spot in Western History.

CONVENTION CLOSES.

(By Gillis Purcell, C. P. Staff Writer)

SASKATOON, Sask., Feb. 28.—Most momentous convention in the history of United Farmers of Canada (Saskatchewan section), today had passed into history, and leaders of the 27,000-member farm body of the great wheat province contend that the conventions decision to enter politics will prove a high spot in the history of the west.

Refusal to endorse secession as a threat to gain extensive Government farm aid moves and outline of an extensive economic policy were coupled with the political move as the most important steps of the meeting. Entry was made into dominion as well as provincial political fields.

Most Important In Province

Result of the convention more than justified his forecast that the convention would be the most important ever held in Saskatchewan, stated George H. Williams, retiring President today. For all time he averred, the convention has cast the future trend of economic thought on the part of the Saskatchewan producer.

The next year, he went on, will be taken up in further crystallization of economic desires of Western Canada.

"Some may feel that the decisions of this convention are too far advanced," Mr. Williams admitted, "but I am convinced that the economic policies adopted will stand the test of time and will eventually be regarden as the wisest thing the farmers ever did in their struggle for economic freedom.

Shaw is Impressed By Chaplain Movie

LONDON, Feb. 28 (A.P.)—George Bernard Shaw, whose critical blast has withered more than one theatrical flower, was carried away by Charlie Chaplin's latest movie when it opened here last night.

"The little fellow is a genius," he was quoted as saying. "Now I know what comedy really means."

Not all the newspaper critics agreed that the new show is Charlie's best effort to date, but the usually sedate London Times devoted a column to its review, describing the comedian's performance as "masterly." The Manchester Guardian also gave it a column, asserting that "No one but Chaplin is as good as Chaplin."

Editor Of "Varsity" Hailed Before Caput

TORONTO, Ont., Feb. 28 (C.P.)—A. E. F. Allan, editor-in-chief of "Varsity," was summoned before the Caput of Toronto University this morning, following the suspension of the undergraduate paper last night in connection with his editorial on the alleged atheistic tendencies of the University. Mr. Allan was presiding at a meeting of his associate editors of "Varsity" this morning when he was asked to appear before the Caput. The meeting of editors was postponed in the meantime.

JURY ACQUITS LILA JIMERSON

Decision Made in Murder Case Against India Woman After All Night Session.

SECOND TRIAL.

BUFFALO, N.Y., Feb. 28. — Lila Jimerson, Cayuga Indian woman, twice tried for the murder of Clotilde Marchand last March, was acquitted to-day by a Supreme Court jury.

The jury brought in its verdict this morning after having been locked up over night. The case was given to the jury yesterday afternoon and at midnight no decision had been reached.

The trial began on February 16 and two and a half days were spent in obtaining the jury which brought in the verdict of acquittal to-day.

The State contended throughout the trial, at which Supreme Court Justice Alonzo G. Hinkley presided, that the woman once known as 'Red Lily' of the Cayuga Indians had instigated the murder of Mrs. Clotilde Marchand so that she might be more free to carry on her admitted intimacy with Henri Marchand, artist and husband of the murdered woman.

The defense introduced testimony to prove that Lila had no knowledge of the crime either before or after its commission and that others had motives at least equally strong for desiring the death of Mrs. Marchand.

GANDHI-IRWIN PARLEY HALTS

Point at Issue is Viceroy's Refusal to Sanction Inquiry Into Alleged Police Abuses.

PICKETTING COMES UP.

NEW DELHI, India, Feb. 28.—(A.P.)—Negotiations between Viceroy Lord Irwin and Mahatma Gandhi to bring about relaxation of the civil disobedience campaign reached an impasse to-day as opposition developed within the National Working committee to some of the Viceroy's proposals.

The point at issue is Lord Irwin's refusal to sanction an inquiry into alleged police abuses which Gandhi has requested, the Viceroy citing official statements which cite restraint of police in view of insults and abuse from mobs.

Two other major differences which remain unsettled concern the rights to picket shops and to manufacture salt.

In view of these differences it was believed to-day that Lord Irwin would find it necessary to confer further by cable with London. He, Tej Behadur Sapru, and M. R. Jayakar met this morning in a further attempt to smooth over the difficulties, while the working committee meets again this evening to discuss the subject further.

WALES DEFEATS FRANCE

SWANSEA, Wales, Feb. 28. Wales defeated France in their international rugby match here to-day, winning by 35 points to three. By to-day's victory Wales went out ahead in the international championship table and are picked to win the series in which Ireland, Scotland and England also compete.

Editor of Varsity

A. E. F. ALLAN

editor of The Varsity, which was suspended by the joint executive of Students' Administrative Council yesterday. Allan later expressed regret he had not been disciplined sufficiently to make him a martyr.

EX-FOLLIES GIRL BADLY WOUNDED

Miss Ethel Hughes Rushed to Hospital By Husband Who Claims She Hot Herself.

Tired of Spouse's Drinking.

BOSTON, Mass., Feb. 28 —Mrs. Ethel Alice Hughes, 24, a former Follies beauty, was carried into the City Hospital by her husband early to-day, dying, a bullet wound in her abdomen.

The husband, who drove his wife to the hospital said that she shot herself, police reported.

Police, called to the hospital, said that Hughes told them that his wife accused him of drinking and threatened to shoot herself if he continued. She went into another room, took a gun from a drawer, and shot herself, police said Hughes related, and telephoned a friend to tell her what she had done.

Hughes submitted to a blood test at the hospital preliminary to offering his blood in a transfusion in an effort to save his wife's life.

Hughes and his wife have been married for four years.

New Aid Channel Brings Quick Move From All Veterans

DETROIT, Feb. 28 (CP)—So great was the crowd of veterans waiting to file applications for loans on their adjusted compensation certificates that the staff handling the work at the Veterans' bureau office here was forced to move to larger quarters this morning. Additional clerks were hired to handle the crowd when the move was made to the National Guard armory on Larned Street.

Vocational Student Makes Sleeve Board

One doesn't usually associate small boys with such housewifey articles as sleeve boards for use in ironing garments. But one little lad of the city, Freddie Allison of Bethune street, saw in a sleeve board his opportunity to make a contribution to the work of the Peterborough Relief Association.

When the ladies of the Sewing Committee asked for a sleeve-board, he immediately made one in his Manual Training Class, and a workmanlike job it is, too.

Solloway In Toronto To Face New Charges

TORONTO, Ont., Feb. 28 (C.P.). — I. W. C. Solloway, former head of the defunct stock brokerage house of Solloway, Mills and Company, arrived here this morning in custody of Inspector Gurnett of the Criminal Investigation Department, Ontario Provincial Police. Solloway has just completed a four-month prison term imposed in the Alberta courts when he was convicted on charges of conspiracy in connection with the operation of his stock brokerage business. Harvey Mills, his partner, was sentenced to one month in jail and a $50,000 fine when he was convicted on similar counts.

The two brokers are now to go on trial here on new charges laid by the Attorney-General's Department of Ontario, after Solloway had been fined $200,000 and Mills $50,000 for "bucketing."

Solloway appeared in police court to-day before Magistrate Browne and was remanded till March 19 on bail of $50,000.

COUNTY COUNCIL ASKS MINISTER TO SUSPEND THE CONSTRUCTION OF HIGHWAY EAST OF PETERBORO'

Village Representatives Protest Against Action.

AMENDMENT MOVED.

Would Confine Expenditure to Maintenance for This Year.

Village voices were raised in vain Friday afternoon against the County Council's petition to Premier Henry to discontinue for this year the construction of the new provincial highway east of this city.

The rural representatives voted unanimously for Reeve Hawthorne's motion, which was seconded by Reeve McIntosh, to the effect that a strong appeal be made to the Hon. Mr. Henry to suspend the provincial highway construction this year, confining the expenditure to maintenance of the new road, part of which was begun last fall east of the Locks' Bridge.

Reeve Sanderson of Havelock, supported by Reeve Montgomery of Norwood and Warden Tanner of Lakefield, contended that the council should not be so precipitate in its decision to take immediate advantage of Premier Henrys' statement that the Government would not force a highway upon any county or township which protested that the cost would be burdensome.

Only Mr. Sanderson and Mr. Montgomery voted for their amendment that the Ontario Government be left to use its own judgment in regard to the completion of the new highway through this county.

Premier's Assurance

The special meeting of the council was called to discuss Hon. Mr. Henry's promise of temporary release from the county's share of this year's cost of highway construction. Apparently the Premier's concession to rural sentiment had been thoroughly predigested.

Reeve Hawthorne of Dummer introduced the main topic of the meeting after some correspondence had been disposed of.

"At the meeting of the Townships' Association on Tuesday," said Mr. Hawthorne, "a resolution was adopted urging the Government to bear ninety per cent of the cost of provincial highways instead of the present eighty per cent. We were informed that the Government might do something on this question during the present session of the Legislature. Mr. Henry said the government would comply with the wish of any county that didn't want any highway construction this year. This would relieve the rural section of the county of the cost of any work that might otherwise be carried on. If we can cut down any expenditure, we should do so, and especially on the provincial highway. It is better that we spend any money this year on our township roads."

Reeve Sanderson's Case

Reeve Sanderson of Havelock, in a rather comprehensive review of the whole question presented the argument that the county should not dis-

Cigar-Sick Boys Rob Doctor And Rector

NEW YORK, Feb. 28.—In Harrison, N. Y., three robbers were arrested yesterday. They stole some cigars, and they got very sick. One reason, perhaps the best, is that they are twenty-five years old—adding up all their years.

The boys got sick in school. Their pockets contained expensive cigars. It turned out that the cigars were stolen from a Harrison doctor.

Loot, starting at cigars, piled up to $1,800 in a few months. The Lads, two nine and another seven, admitted taking $1,400 from the rector's desk in St. Gregory's Church, Harrison. They boasted about taking $350 from a Harrison newspaper office. Police would not divulge their names because of their ages.

COUNTY COUNCIL DENIES REPORT

Breckenridge Never Requested Council to Cut Out Belmont Grant.

RESOLUTION PASSED.

The following resolution adopted by the County Council Friday afternoon explains itself:

To whom it may concern:

Moved by Mr. Hawthorne, seconded by Mr. Cavanagh, that this council in contradition of a report or assertion that Mr. Breckenridge during the year 1930, requested the county council to cut out the regular grant to Belmont and Methuen and hereby place on record the fact that Mr. Breckenridge did not individually request such, nor did he request such to the council as a whole.

Russian Wheat Cargo Is Sent To Tampico

MEXICO CITY, Feb. 28 (C.P.). — Excelsior said to-day that a shipment of 3,000 tons of Russian wheat arrived yesterday at Tampico aboard the Norwegian freighter Steinstad.

The paper's Tampico correspondent said that although the vessel came from a Canadian port, its cargo was known to be of Russian origin. The wheat is being unloaded and shipped by railroad for distribution in Central Mexico.

Indians Kill Officer Seeking Their Taxes

LUCKNOW, India, Feb. 28.—(A.P.)—An Indian revenue oficer was killed and five persons were injured in a riot which followed the revenue officer's attempt to collect taxes. Forty-six persons were arrested.

The mob met the collectors with a shower of stones and beat them with lathis, or staves. The All-Indian National Congress organization was blamed by police for the refusal of the villagers to remit their taxes.

Girl Bride On Trial For Husband's Death

NEW YORK, Feb. 28.—Pale and trembling, twenty-year-old Elva Bruno mounted the witness stand Friday in Jersey City and told of her life with her husband, Frank, whom she is accused of killing. He often beat her and threatened to get rid of her, she said. On the day of the killing he drove her to a deserted spot in North Bergen. She said:

"He put the gun into my ribs. He said, 'Have you anything to say before I give you the works?' He then put the gun down on the seat and took out a cigarette. I seized the gun and was starting to get out of the car when he grabbed my hand and the gun went off."

PUBLICATION OF VARSITY BANNED, FOXY SAYS ALLAN

Editor is 'Punished' By Suspending Students' Paper of Toronto University.

DOWNTOWN INFLUENCE.

Students' Council Executive and Caput Issue Statements.

TORONTO, February 28. — Suspension of publication of The Varsity, by mutual consent of representatives of both students and faculty, came as the climax last night to the furore into which the authorities of the University of Toronto have been pitched by the undergraduate daily's charges that "practical atheism" was rampant throughout the institution.

In brief statements issued last night, the joint executive of the Students' Administrative Council, representing the entire student body, and the Caput, the official disciplining body, comprised of the deans of colleges and heads of faculties, declared that The Varsity would be published no more this session.

A. E. F. Allan, the young editor of the paper, who takes responsibility for the condemned editorial, received the news of the suspension with indifference. "I'd hoped that they'd have made a martyr of me," he smiled, sardonically.

He characterized the action of the disciplining bodies as "a political move," "foxy," and "intensely amusing." "Downtown influence," by which he meant the wealth of certain university beneficiaries, and political forces were the roots of the suspension, he said.

The daily, a four-page paper of a size midway between tabloid and regular sheets, ordinarily ceases publication as examinations approach, and had only two more weeks to run. The Students' Council announced that the salaries of such of the 20 odd young writers who are remunerated would be paid for the full session just as if there had been no order of suspension.

Caput's Resolution

The Caput made public only a resolution. It was brief but to the point: "The Caput hereby determines that

T-R-C's TEMPLETON'S RHEUMATIC CAPSULES

SOVIET TRADE IS NOT IN NTEREST OF THE DOMINION

Premier Bennett Puts Virtual Ban Upon All Imports From Russia.

FORCED LABOR USED.

Government Convinced That Political Prisoners Are Being Exploited.

OTTAWA, Ont., February 28 (C.P.). — The Dominion of Canada is not at the moment disposed to do business with Soviet Russia. Without expressing this determination in so many words, the Government yesterday let it be known with great emphasis that Russian goods, produced under conditions of virtual slavery, will not be traded in there.

Several days ago, the nation was apprised of an offer made by the Soviets to Canada, through the agency of Colonel H. J. Mackie of Pembroke, Ont., wherein Russia was willing to purchase $10,000,000 worth of agricultural machinery and the like, if Canada undertook to buy Russian coal to the value of $3,000,000 as a "quid pro quo." Speculation as to what attitude the Government would take on this proposition was set at rest yesterday when Hon. E. B. Ryckman, Minister of National Revenue, announced the passage by the Cabinet of an Order-in-Council prohibiting the import of Russian coal, pulpwood, wood pulp, timber, asbestos, and furs.

Small Trade Volume

In actual trade value the embargo on these commodities does not affect any considerable amount of money. Last year imports from Russia did not reach the $2,000,000 mark, while Canadian exports to Russia had a very much smaller value. In some quarters the Soviet's offer to makep urchases in the Dominion had been received as a small contribution towards stimulating Canadian industry in the lines affected; in others, it was regarded as a subtle move with a somewhat ironical intet in that this machinery would be employed in the production of grain to the detriment of Canadian grain growers themselves.

Coupled with the Mackie proposal was an intimation of Russia's willingness to enter a conference with Canada respecting wheat. Whether this countrys' action in definitely banning Russia's main exportable products ((additional to wheat) from this market will cause the Russians to chanye their attitude towards any suggestion of a wheat conference has yet to be known. Colonel Mackie is of the opinion that the Soviets might still adhere to their willingness in this respect. The order-in-council of yesterday, however, is interpreted in political circles here to mean that the Canadian Government has little intention of proposing such a meeting.

PRINCES LEAVE FRIENDS IN CHILE

Start on Motor and Launch Trip That Will Take Them Into Argentine.

WALES GIVES INTERVIEW.

SANTIAGO, Chile, February 28 (C.P.). — The Prince of Wales and Prince George sped southward aboard a luxurious train to-day toward Osorno, Valdivia Department railhead and stepping-off place for the Chilean Switzerland and lakes region.

Arriving at Osoro at 6 p.m., they will motor to La Centinella on Lake Llanquihue to spend the night, and on Sunday morning will take a launch across the lake to begin an automobile trip to the frontier, where they will say good-bye to Chile and hello to the Argentine.

The two Princes were accompanied on their trip by only their own party and a few Chilean friends and officials. At their request newspapermen, even those who came with them all the way from England, proceeded directly to Buenos Aires, where early in March the British heir will inaugurate the British Trade Exposition.

Before leaving Santiago last night, the Prince of Wales granted an interview to the newspapermen and let it be known that his trip, while designed to give impetus to British trade, was not aimed at any particular country.

Both Princes made an indelible impression in Chile, both in Santiago and in Valparaiso and Vina Del Mar, where the elder brother led the social set a merry whirl with his polo, many dinners, dancing, and baccarat.

REV. ROBERT POGUE WILL SPEAK IN MARK STREET UNITED CHURCH

Congregation to Celebrate Second Anniversary of Dedication of New Building To-morrow.

CHURCH ACTIVITIES

(Contributed)

Mark Street United Church on the corner of Mark and Hunter abounds in activities. The Sunday School with an average attendance of well over 200 under the efficient leadership of Messrs. A. W. Gamble, superintendent, L. Agnew, assistant, and K. Throop, secretary-treasurer, not only finances itself but has within the last three years contributed $850 to the Building Fund and has assumed $100 toward installing the pipe organ which George Street United Church has donated to Mark Street.

The Women's Association (Ladies' Aid) with that faith and consecration so characteristic of Christian women had $1,000 saved up for the new church enterprise and at the time of its inception pledged another thousand which is being promptly paid as it comes due and in addition to this are materially helping in other financial obligations of the church. Mrs. E. Wand and Mrs. H. C. Benson are president and secretary for this year.

The W.M.S. and Y.W.A. have recently been merged into one Auxiliary and are diligently studying the work of the W.M.S. of United Church of Canada, and faithfully making their contributions to the same. Mrs. A. E. Thornley and Mrs. C. Andrews are the first president and secretary of the merged societies. Mrs. L. Cunningham and Ruth Ellis are the superintendent and president of a flourishing Mission Band.

The choir under the leadership of Mrs. W. A. Greenslade and the presidency of Max Pomeroy are not only furnishing excellent music but within the last two years have raised over $200 mostly by their popular "Old Tyme Concert" which they are putting on for the 14th time.

Dramatic Club

The Dramatic Club under the direction of Miss A. Crocker, last year put on the play "Mother Mine" on ten different occasions and this year have prepared and put on a number of times a still better and more popular play "No Account David," and have made contributions for the Building Fund and running expenses of over $240. L. Agnew and Mabel Reynolds are president and secretary.

Outside of their contributions through the Sunday School the "Gleaners Class" with Miss Mary Wilson as teacher and Mrs. Morrison as president have contributed $50 to various enterprises of the church. Their play "The Secret Society of Cabbageville," has met with an enthusiastic reception.

The Young People's League with Charles E. English as president and Miss Dorothy Armstrong as secretary are carrying on with growing interest and meeting all their financial obligations. A new departure under the department of Christian Fellowship with Cleve Robb as convenor, called the "Radio Hour" is deservedly popular. Be sure to hear "The Silver Flute," next Monday night.

The "U.B. One" Bible class with T. Hendry as teacher and Fred Stephenson as president is growing in numbers and interest. A Carpet Bowling Club represents mid-weekly activities. They entertained George St. Club in the S.S. auditorium on Februrary 18th, with 46 men present, including hosts and guests. The class in a body to the number of 40 attended last Sunday evening service. Under the auspices of this class the Georgian Minstrels are putting on a concert on March 6th.

Mrs. (Rev.) J. E. Moore's class of women, Mrs. A. J. Throop's class of young women, Mrs. A. E. Thornley's class of 'teen age girls and as well that of Mrs. C. H. Barringer are organized. L. Agnew is the leader of the Tuxis Square and John Hunter the leader of the Trail Rangers, all of which abound not only in Sunday but also in week day activities.

Mark Street will celebrate the second anniversary of the dedication of their new church next Sunday, March 1, with Rev. Robert Pogue of St. Enoch's Church, Toronto, and formerly minister of St. Paul's, Peterborough, as guest preacher.

Wheat Parley Seeks Lower Rail Rates

PARIS, Feb. 27 (A.P.)—Means of eliminating red tape in the shipment of wheat and securing lower rail rates and easier transit facilities were discussed to-day by delegates to the European conference meeting here to plan the marketing of future wheat harvests.

During the afternoon sub-committees were at work preparing resolutions for the final meeting of the conference which will be held to-morrow. These will be submitted to the meeting of the International Institute of Agriculture in Rome in March as well as to the committee studying plans for a European Union, which will meet in Geneva in May.

13 Stitches Needed To Close Up Wound

HASTINGS, Feb. 28 (Examiner Correspondence)—Edson Varty met with a very painful accident on Tuesday while engaged in cutting wood for P. L. Doherty when he hit his foot with the axe, almost severing it. Medical aid was summoned and the wound required thirteen stitches to close.

Mr. and Mrs. Harry Dodd received word on Wednesday that their son Edward had the misfortune to fall in Detroit and fracture his leg.

1931 Vacations Cost Americans $5,000,000,000

WASHINGTON, Feb. 28. — America's vacation this year will cost $5,000,000,000, the American Automobile Association estimated to-day.

More than half—$3,200,000,000—will be spent in motor tours in the United States, while about $400,000,000 will be used by Americans in touring the neighboring oasis, Canada.

Air travel in the United States is expected to reach $25,000,000 and rail travel $750,000,000.

Vacation travel by Americans in foreign countries other than Canada will touch $540,000,000, the association predicted.

BANCROFT RAPS SOVIET DEALINGS

Supplying Her Goods is Insane Act in Face of Russia's Admitted Economic War.

CANNOT BE TRUSTED.

MONTREAL, Que., Feb. 28 (C.P.) —Russia is confessedly waging an economic war on western civilization, and has given plain warning that military warfare will follow when Russian is ready, Hugh Bancroft, President and Publisher of The Wall Street Journal, said here yesterday in an interview.

"While I do not for one moment wish to butt in upon Canadian policies," said Mr. Bancroft, "I think that in broad outline the problem of the United States and Canada in the face of Russia is the same. The details, however, must be left to each country to decide.

"When Sir Herbert Holt, President of the Royal Bank of Canada, says that the Soviet cannot be trusted to abide by its contracts, I echo a hearty 'Amen.'

"In the larger aspect, Russia has declared war upon Canada, the United States, Britain and Western Europe generally. It is Russia's avowed purpose to destroy religion, home and property rights.

"From time to time, the Soviet hints that it looks forward to military warfare, also. But at the present time it is engaged upon a project to destroy all Western civilization by economic warfare. To be successful the Russians are obliged to obtain large amounts of goods and expert services from Western civilization. It is, in my opinion, as insane for the countries attacked, to supply Russia with goods, etc., as it would have been for the Allied nations to supply Germany during the World War. In principle, it is the same thing."

NIXON SUGGESTS

(Continued from page one)

his writings came under the definition of "blasphemy" in the Criminal Code.

Following discussion from both sides of the House, Mr. Nixon withdrew his motion after Hon. George S. Henry had declared his faith in the governing authorities of the University of Toronto and his aversion to having the university dragged into politics.

Sinclair Irks Nixon

In the course of the debate, taken part in by Mr. Nixon, W. E. N. Sinclair, William Newman (Lib. North Victoria), Hon. W. H. Price and Premier Henry, Mr. Sinclair drew the ire of Mr. Nixon by remarking that most of the fuss was kicked up, not to do the university any good, but chiefly that some people might obtain publicity.

Upon Mr. Nixon's warm protest Mr. Sinclair said: "My honorable friend cannot escape what he said in this morning's Globe, inviting people to send their sons and daughters elsewhere. What does he want—to close the doors of the University of Toronto and get it transferred to Hamilton like McMaster?"

The galleries were filled with students and some members of the university staff; the debate attracted the largest attendance of the session; party lines were discarded, a Liberal supported another leader against his own; laughter and applause from the galleries as well as the floor were frequent, and the press-gallery was jammed through a reporting staff turning up for Varsity.

Premier Henry closed the debate, pointing out that he had full confidence in the Board of Governors and the Caput of the university to deal with any impropriety effectively; the Government would step in at any time if it were invited by the governors, and, if the governing authorities fell into any conspicuous failure to check any tendency toward atheistic teaching the Government would not hesitate to take any action warranted.

Dairy farmers in New Zealand are trying to secure a moratorium on mortgages.

WIN a Canary!

100 Canaries FREE for the best Limericks, Jingles or Verses on Brock's Bird Seed

Can you write Something like this?

There was once a canary in Perth
Who was hatched on the day of his birth.
On Brock's he did feed,
Sure the finest of seed,
And he lived 'til his last day on earth.

Here is a simple, easy contest for every member of the family—a chance for every one to win a prize for each successful entry. Just a few lines, like the example verse at the head of this advertisement will help you in making yours.

For the best verses, Limericks or Jingles, as decided by the judges—the grand prize of Brock's Famous Bird Seed will award a CANARY to each of the first 100 successful contestants.

Send in as many as you like, but only one canary to each family. Read the simple rules and then start. *No entry fee required*

Win a canary for your family.

NICHOLSON & BROCK, LIMITED—Dept. 49
125 George Street—Toronto

BROCK'S BIRD SEED

Follow these Simple Rules

Write in ink on one side of the paper only, with your name and address clearly in the lower right hand corner.

Each verse must include the word "Brock's".

This contest is open now and will close March 31st. Start now.

Three competent judges will decide the 100 winning Limericks.

No discussion can be entered into. Contestants agree to accept as final the Judges' decision.

Send your limericks or verses to Nicholson & Brock, Limited, Dept. 125 George Street, Toronto, Ontario before March 31st, 1931

Her Monthly Love Letter

The first day of the month, and every month comes this love letter to her. For over two years now she has been receiving it, and it will come with the same regularity *as long as she may live.*

It was a thoughtful, loving husband and father who made this arrangement with The London Life to send his wife $100.00 a month as long as she should live.

A better plan could not have been devised. The home is preserved; the mother's love and care are continued to her little daughter, who is thus assured of proper surroundings, a good schooling, and every opportunity in life.

How simple the doing of a deed with such far-reaching effects. An annual deposit equal to $5.80 per week in a monthly income policy taken with this Company when he was 30, accomplished it all.

Our representatives are specialists in arranging Monthly Incomes. It pays to know!

TUNE IN TONIGHT

SPONSORED BY THE MAKERS OF KEEN'S MUSTARD

NOW we come to the second part of our story, "Matrimony and Palmistry," which has come to me, from Allan Neilson, through our mutual friend, John Plane. It will be remembered that William Papper's answer to Christopher Moon's question as to why he had left home, "Had some trouble—er—with the police?" was, "No, not with them. I fell out with my girl about palmistry."

"Doesn't she believe in it?"

"Too right she does," said he. "Lives on it, does Mary."

Christopher continued to finger his moustache. "And are you antagonistic to the subject?" he asked.

"I am. And so is Barbara—she's Mary's sister, you know."

A BRAIN-WAVE.

When luncheon was over Christopher leaned across the table and pointd to the concertina.

"Your musical effort pleased me much," said he. "And while I listened I had what is commonly called a brain-wave. It promises to be lucrative."

"That's something," agreed William.

"I'm a phrenologist," announced Christopher, and paused to allow the word to impress his hearer.

"A phrenologist! You read bumps?"

"They are organs, not bumps," explained Christopher. "In a little hall farther down the street," he went on, "I am billed to lecture on phrenology—to be followed by demonstrations. Why not accompany me and supply the musical part of the programme? We'll go fifty-fifty—to use a vulgarism. That's my brain-wave."

William said it was a brilliant idea, and they clinched the bargain by shaking hands across the table.

INSTRUCTING YOUNG MOTHERS.

"I also instruct young mothers," resumed Christopher, "how to feed their children, and I indicate, by the application of phrenological principles, what sort of occupation or profession should be theirs in after years."

"You and grandmother ought to have met," said William.

"Why?"

"She also has a prophetic soul."

His companion smiled and selected a toothpick. "I'm sorry you are sceptical of palmistry," he said slowly.

"How's that?"

"It's an interesting subject. I indulge in it a little. But not ostentatiously, you understand."

William frowned.

"I can prove it to you," announced the phrenologist.

"Bah!"

"Show me your hand."

William's eyes flashed. "I'm not a young girl," said he.

"Show me your hand," persisted Christopher.

A CHANGE OF MOOD.

William's mood suddenly changed. He swept the crockery aside, and laid his right hand, palm upwards, on the table. "There!" he snapped. "The only thing you can prove to me is that you're silly."

Christopher stared intently at his hand, and the musician sat eyeing the bald patch on the other's head.

"Your musical gifts will eventually bring you great joy," he said oracularly and tactfully.

William waited for him to continue, but he seemed to have finished. "Is that all?" he asked sarcastically.

"No," resumed the other. "Your hand speaks of a lady."

"Indeed?"

"Shall I tell you her age?"

"No, I've got that—she's twenty," said William.

"Does my hand tell you when she'll marry me?"

CATS AND CANARIES.

Christopher again inspected the hand before him. "This line running from the thumb towards the left," said he, pointing with his toothpick, "indicates that she loves you."

"Anything else?" He was still sarcastic.

"Those two marks there proclaim that she has brown eyes and dark hair," said Christopher, still looking downwards.

William eyed him curiously. "Go on," he said.

"And this small cavity tells me that she has a dimple."

William was interested.

"And those two lines crossing each other in the centre of your palm suggest that the lady is fond of cats and canaries."

"Hold on a bit!" said William. "That's true. But mightn't it apply to most girls?"

"The width of your palm," went on Christopher, "declares that she is fond of wide-brimmed hats with a drooping feather."

"Good heavens!" William drew his chair closer. "That's so," he agreed. "And when she's got on her best one she's just perfect!"

SHE FELL ASLEEP.

The phrenologist continued to inspect the musician's hand. "Perfect!" he echoed, pricking the hand several times with his toothpick. "Seven is the perfect number. She has the seventh letter of the alphabet in her name."

"The seventh!—which is it?" William tapped them out with his fingers on the table.

"It is 'G'," said Christopher, smiling—"unless you wish to count them from the far end."

"By the Lord!" cried the other excitedly. "She's got a couple of them in her name!"

Christopher pushed back William's thumb and peered at it closely. "The lady's not musical, is she? The tokens seem to point the other way."

"The token are right," confessed the other. "She may take a tumble to it herself some day. I took her to hear a great violinist in Sydney, and she fell asleep. Nevertheless, she's the dearest girl I know."

AN OBSTACLE.

"There appears to be an obstacle in the way of your marriage," intoned the phrenologist. "Your palm generally speaks of turmoil."

"Turmoil!" cried William, his thoughts flying back to his last visit to Mary. "That's the word. Mary and Barbara were in a devil of a stew when last I saw them."

"And the obstacle?"

"Is this: a promise keeps Barbara from getting married before Mary; and palmistry keeps Mary from getting married before Barbara. And there you are!"

Christopher leaned back in his chair, closed his eyes, and thoughtfully stroked his moustache. "William," said he, "I've already stated that your musical gifts will bring you great joy. I repeat my prediction. You'll be married soon. Already I can hear the sound of the bells and the wedding-march."

William grinned. "You're a wonder!" he cried, then added: "And you can see all that in my hand—eh?"

"Your hand is most interesting," said the other, smiling.

"If your second finger had been a fraction shorter, or your third finger a fraction longer, you would have made an excellent pickpocket."

YOU'VE BEEN DRINKING.

The following morning Christopher strode swiftly into William's room and dropped his suit-case on the floor.

"What's up?" asked William, putting on his collar.

"Time's about up," came the answer. "We are going on a train journey to-day."

William was surprised. "And what about the phrenological business?" he asked, adjusting his tie.

Christopher snapped his fingers. "It can go to the devil—for a month or so," he answered.

William stared. "You've been drinking," he said, reaching for his vest.

Christopher laughed and shook his head. "I'm going to see Mary," said he, "and I'll persuade her to marry you."

"You're worse than I thought," said William, reaching for his coat. "Besides, you don't know Mary."

Christopher stood watching him while he brushed his hair. "That's where you are wrong," he declared. "I knew Mary long before you ever thought of admiring her dimple!"

"Cripes!" William sat down on the narrow bed.

YOU'RE A BRICK!

"Fourteen years ago Barbara Gainsborough and I were engaged to be married. She broke off the engagement when her mother died, and she did so because her mother had asked her to promise that she wouldn't marry till all the others were settled in homes of their own."

"Ah!" William recalled his conversation with Barbara.

"Three times I renewed my offer to her," resumed the phrenologist, "but I always got the same answer. I said I'd wait for her."

"You're a brick!" cried William, reaching for his hat. "We'll make it a double event"—he sprang to his feet—"there'll be two wedding-marches instead of one. Come."

Twenty minutes afterwards they boarded the train. The musician grasped his concertina, and the phrenologist, lulled by the music, fell fast asleep.

Thirty minutes later he was wakened by the sound of a loud disturbance in the adjoining compartment. The next moment his companion, muttering and aggressive-looking, entered and flung himself into a seat.

"What's wrong?" asked Christopher.

William jerked his thumb over his shoulder. "A big-nosed bloke next door," he said.

"What about him?"

William scowled. "I gave him a swipe across the dirty mug," he answered.

Christopher looked astonished. "Why did you do that?" he inquired. "Did he abuse your religion?—or your politics?"

William nodded. "He spoke contemptuously of palmistry," said he.

• • •

Whether I please or whether I tease,
I'll give you my honest mind;
If the cap should fit, pray wear it a bit,
If not, you can leave it behind.

No offence is meant by anything I write. But if I should happen to say anything that comes home to a man—or to a woman either, for that part of it!—please don't send it next door with, or without, your compliments! Get a coop for your own chickens. There is something more profitable than either reading or hearing for other people—read and hear for yourself! You can neither eat nor drink for them: why then should you lend them your ears and not your mouths?

I'm sorry if anything I write makes anyone as mad as a March hare—I can assure you that it was not intended. I have discovered that although I am no hatter, I sometimes make a cap which somebody seems to think was made for them! Although I feel unworthy of the honour I shall keep right on at the business of making the best caps I can make. Those who have heads can try on my wares. In all probability those who have none won't touch them at any price!

Yours in the best of humour,
Allan Fairbairn.

The Hour Of Prayer

LORD of our life, we know not what a day may bring forth, what hurt to our bodies, what loss of fortune, what blow to family pride, what ravage of death. We only know that from these tests of life that none escapes, some return bitter and cynical or crushed and heartless, and some more gentle and more kind, crowned with thorns but crowned, and all their garments redolent with the fragrance of Gethsemane's flowers. Pain would we be as these, for we can ill afford to suffer our souls grow sour by any happening. To this end we would possess our minds with Christian truth and make daily practice of Christian devotion, we would buy our oil while yet it is day, we would trim our lamps before the darkness falls. So would we prepare ourselves for the great emergency. Amen.

A Romantic Relic

MANY people regard the Bible as an old ruin. They think there may be some chambers in it which might be made habitable, if it were worth the while; but they take it as a young heir takes his estate, who says, "I shall build me a modern house to live in, but I'll keep the old castle as a ruin"; and so they have some scientific or literary house to live in, and look upon the Bible only as a romantic relic of the past.

HAVE YOU HEARD THE CALL?

THE call to religion is not a call to be better than your fellows, but to be better than yourself. Religion is relative to the individual.

GEMS FROM SPURGEON

CROSS-BEARERS.

WHAT an honourable position was that of Simon, the Cyrenian, to be cross-bearer to Jesus Christ! We could almost weep that we were not there that we might have had the honour of carrying Christ's cross for Him. But we need not weep, for we shall have His cross to carry if we are His people. There are no crown-wearers in heaven who were not cross-bearers here below. There shall be none among the throng of the glorified who had not their cross on earth. Hast thou a cross, believer? Shoulder it manfully! Up with it! Go along thy journey with unshrinking footsteps and a rejoicing heart, knowing that since it is Christ's cross it must be an honour to carry it; and that while you are bearing it you are in blessed company, for you are following Him.

• • •

THE INFALLIBLE COMMENTARY.

Those who would best know God's Word, must study it in its own light.

• • •

INEXHAUSTIBLE PROMISES.

GOD'S promises are not exhausted when they are fulfilled, for when once performed, they stand just as good as they did before, and we may await a second accomplishment of them. Man's promises even at the best, are like a cistern which holds but a temporary supply; but God's promises are as a fountain, never emptied, ever overflowing, so you may draw from them the whole measure of that which they apparently contain, and they shall be still as full as ever.

• • •

NEEDLESS POVERTY.

Many a believer lives in the cottage of doubt when he might live in the mansion of faith.

Foolish To Try It

YOU might as well go to the catacombs of Egypt, and scrape up the dust of the mummies, and knead it into forms, and bake them in your own oven, and call such things men, and present them, as citizens and teachers, for our regard, as to bring old, time-worn institutions to serve the growth and the living wants of to-day.

THE UNITED CHURCH OF CANADA

George St. United Church

Services at 11 a.m. and 7 p.m.

BEGINNING TO-MORROW, This Church Inaugurates a New Policy in Two Very Important Particulars.

I.
All Sittings henceforth will be entirely Free and unallotted. No person will have more claim to any Sitting than any other person. The names that have been on the pews will be gone, and all who enter our doors will be on an absolute equality.

II.
An attractive new type of Evening Service will be introduced. A Song Sheet featuring the old Hymns everybody likes to sing will be used, and the Order of Service will not follow a set form as in the past, but will vary from week to week.

We are sure these changes will make a strong appeal, and we cordially invite all who are not attending church elsewhere, as well as our own people, to share in the privileges they make available.

Rev. J. E. J. Millyard, Pastor.

St. Andrew's United Church

Rev. Charles V. McLean, M.A., Ph.D., Minister.
11 a.m.—PUBLIC WORSHIP, conducted by the Minister.
Evening Subject:
"FORTITUDE OF THE CHURCH."
8.00 o'clock—Fireside Hour, under auspices of Young People.
Mrs. Ross A. Williamson, Soloist.

SATURDAY, FEBRUARY 28, 1931

LIABLE FOR DAMAGES.

At the meeting of the Ontario Motor League in Toronto on Monday a warning was given that should be noted by careless or discourteous motorists who race through slush and pools of dirty water at this time of the year and are indifferent as to what happens the unfortunate pedestrian who finds himself within splashing range.

A delegate to the conventions supplied the information that those guilty of such conduct are not only liable to be convicted of reckless driving but can be sued for damages by those whose clothes may be spoiled. This is likely to be news to a good many drivers—some of whom may have felt that the joke in these cases was on the pedestrian.

As a matter of simple justice it is only fair that persons who have sustained damages because of carelessness or indifference of others should have some redress and the announcement that drivers who needlessly splash people by fast driving on slushy or watery streets are liable for the damage they occasion may have the tendency of eliminating the practice.

THIS YEAR'S TAX RATE.

Peterborough's City Council, after weeks of slashing and trimming the appropriations for the current year, has succeeded in slightly reducing the tax rate as compared with last year.

The rate for 1931 will be 39 mills, which is two-tenths of a mill below that of last year—a small reduction it is true, but one that, having regard to the fact that many other municipalities have been forced to strike a higher rate, will be accepted as most satisfactory.

It is not an easy matter for a municipal government to keep its tax rate down, under the conditions that now prevail.

So comparatively small a proportion of the total expenditure is under the direct control of the council that the margin on which to work is necessarily contracted.

So far as the bulk of the revenues are concerned the city council is little more than a collecting agency; in other words it must provide the money that other bodies spend and yet have little or nothing to say as to how those bodies may do the spending.

Under the circumstances the city fathers have done well to scale a little off the rate this year; on the whole they have succeeded in adhering to the policy of economy they set themselves as a guide, and while there has been pressure for expenditures that would mean a higher tax rate the council has been steadfast in resisting that pressure.

THE ROCK PILE COMES BACK

The vigor with which Hon. Leopold Macaulay is tackling various problems in connection with Ontario's jail system should earn the new provincial secretary the thanks of the public.

Mr. Macaulay has lost no time in instituting reforms.

In his short term of office he has effected a shake-up in the management of several institutions and has set at work a most commendable policy by which first offenders alone are to be dealt with at Guelph, while the more experienced criminals will be housed at Burwash, a change that deserves hearty commendation.

And now the provincial secretary, it is announced, proposes to see that inmates of Ontario jails get a chance to do some of that hard labor that is supposed to go with their sentence, but that in recent years has meant little more than the labor of waiting for three meals a day.

In a word the modern jail in Ontario has become little else than a rest hospital.

That conditions is to be corrected by the simple expedient of restoring the old-time rock pile that once was a feature of every jail yard.

The prisoners will find in a short time that instead of a loafing place, the jails of the province have become a hive of industry in which a pile of rock and stout hammers will play an important part.

Hard labor as a part of a magistrate's sentence is going to mean just that, Hon. Mr. Macaulay has decided.

WANT THE HIGHWAY HUNG UP.

The Peterborough County Council has lost no time in acting upon the promise of Premier Henry in his speech to the Good Roads Association on Thursday that: "highways will not be built in counties, townships or other municipalities which have protested or may protest that their share of the cost will be a burden.

Returning from Toronto yesterday the county legislators hurried into special session and passed a resolution calling upon the Government to stop operation on the Peterborough-Tweed highway for this year.

Work has already commenced on a portion of this contract but the, county council is evidently of the opinion that the Premier had not mental reservations as to sections now under contract and that when he said no highways would be built contrary to the protest of the municipalities affected he meant exactly what he said.

Anyway the matter is to be put to the test and if the hopes of the county body are fulfilled the highway east of Peterborouh, part of the Sarnia-Ottawa highway which is being counted on to relieve the congestion on other main arteries, will be hung up for at least a year, which will not be welcome news to municipalities further east, or a source of joy to the motorists.

For years the construction of this link has been urged upon the provincial authorities and the announcement of the commencement of the work was generally well received; yesterday's action is therefore a new and surprising development.

Sr Hubert Wilkins is selecting the crew of the submarine he proposes to take under the ice to the North Pole. We have several candidates, one of whom we are not which.—Nashville Banner.

MR. LEGGE'S PILE OF WHEAT.

There are greater experiments on a large scale in the world today than at any previous time, and one of these is the operation of the Grain Stabilization Board of United States. Mr. Legge is the head of the organization, and prior to his participation in that work he was head of the International Harvester Co., to which position he intends to return.

It is intimated that by the first of July this Stabilization Board will find itself in possession of 200 million bushels of wheat, an amount equal to about fifty per cent of the Canadian crop in 1930. It has been bought in at a premium, that is, at a price higher than that being paid in the markets of the world, and the reason was to try and keep United States farmers from dumping their holdings at ruinous prices.

Mr. Legge must now seek the bringing about of the more serious part of his huge undertaking, viz., the disposal of the wheat. It really did not require a high-salaried man at all to do what he has done so far. It was not much of a performance to go out and buy up millions of bushels of wheat with government money and pay more than market prices for it. People would be around seeking a chance to sell to such a purchaser. Santa Claus could not be more popular than a man who is willing to pay more than an article is worth.

It is going to be interesting to see what Mr. Legge does on the last lap of his journey. Getting rid of his surplus is going to be something that will test the fibre and determine the calibre of this industrial giant. We notice that he has sent out another appeal to the farmers to quit planting wheat, and tha looks like a effort to shift the problem over to the agriculturists. If they come along with another great crop in 1931 Mr. Legge and his pile of 200 million bushels of wheat will be in a bad way, and our guess is that the farmers of United States will plant just as many acres in wheat as they ever did. The government helped them out with an artificial price once, and they will figure the same thing will be done again.—Stratford Beacon-Herald.

SASKATCHEWAN'S PROBLEM.

The province of Saskatchewan has just issued a report on Immigration and Settlement, a survey which is of more interest than the average government publication. It has to do with present conditions in that province and shows comparisons between east and west which are interesting.

We imagine it will come as a surprise to rural Ontario to learn that rural taxation in Saskatchewan is much higher than in Ontario. The figures on a per capita basis work out this way:

Rural Ontario	$26.88
Rural Saskatchewan	44.58

We find out, too, that there is considerable land in Saskatchewan which is in danger of becoming worked out. It has lost nearly all of its nitrogen and phosphorous from continuous cropping without being enriched by the use of fertilizer. In many of the older districts there is need to remedy this situation, but in too many cases the owners of the land have not the means to go ahead and carry out a campaign that would remedy the defect.

The report says there is "reasonable discontent" regarding the comparative price of machinery and wheat. All comparisons seem to be made on the basis of the 8 ft. binder. There are many charts to show the manner in which binders and wheat have moved apart in regard to price. Taking 100 as the base price for a binder in 1915, wheat then had a comparative value of 134.3, while in 1930, the binder was at 170 and the wheat at 69.5. That is, the buying power of wheat has receded from 134.3 to 69.5, while the price of the binder had gone up from 100 to 170. The figure would show an even greater spread today, as the wheat buying power was based on quotations early in June, since when there have been noted recessions.

The report does not see salvation in the combine, (harvesting and threshing machine) and believes if he can cut costs in Saskatchewan it can do so to a greater degree in competing countries. Neither is it possible to demand a higher price for grain than the world will pay. The report says this has been tried and has failed. Another interesting claim is that some method is necessary which will give the Saskatchewan farmer assurance that he is not going to lose his property.—Stratford Beacon-Herald.

EDITORIAL NOTES AND COMMENT.

The United States House of Representatives has over-ridden the President's veto on the Veterans' Loan Bill and the Senate is expected to do the same. Mr. Hoover is as badly defeated as if he were wrong on this issue.

A Port Ryerse man has been wearing a pair of socks for fifteen years, which must be one the slowest turn overs on record.

Apparently the .....motorists, according to those who speak for them, are quite ready to risk congestion in a crowded city when they come to a "stop" street, but unwilling to pause at a level railway crossing in the country even though menaced by a train that cannot stop quickly.—The Globe.

Relief money will be needed for months to come. If your donation has not yet been given it will be gratefully received now.

Better keep out of jail. Hon. Leopold Macaulay is planning to restore the old-fashioned rock-pile.

Will March come in like a lion or like a lamb? The best thing about it, however, is that it is coming in tonight.

Algoma reports many signs of summer, which is a pleasing variation from the usual run of Sault Ste. Marie wolf stories.

There is a wide amount of unemployment, but none for the police in centres where Communists try to stage parades.

As the Globe points out, there should be no difficulty in making Ontario-grown grapes popular with Ontario people. It should be a privilege to get these grapes and a duty to eat them.

Hon. H. H. Stevens has recovered from his operation, but must take a long rest. With so many problems demanding attention, his services will be greatly missed at this time.

Every cent of the Relief Fund will be required before the situation adjusts itself. The demand for help is just as urgent as ever—in fact, new names are being added to the list of those requiring assistance.

Feminine complexions often resemble small boys; they won't wash.—Detroit News.

News of Our Own Village

Chief Newhall wants 3 more coppers added to the village constabulary, the horseless carriage traffic and other problems keeping the lads on the force busy.

Reports is afloat in the village that Dick Bennet's Govt. is going to put up a new building. Not before it was needed we ventures to rise up to point out.

As per usual Geo. Gimblett, our bustling fire chief, has asked for a new bungalow fire hall in the south end of the village, but aint likely to get even a tar-paper shack.

Alex. Elliott, Doc Honey and others what appeared in the show, "Hay Fever," at the High School hall, Wed. p.m., aint as yet decided to accept offers from Hollywood, south of us, if any.

Quite a few of the lads from here was in the deputation what waited on Geo. Henry, our new premier, at Toronto, west of here. Tues., but Geo. didn't give them a great deal to cheer about, so to speak.

According to the calendar March is due to make its appearance in the village at mid-nite Sat. nite. Daylight saving don't however start until some time hence.

A show called "Strange Interlude" is booked for the Opry House week after next, starting at 5.30 and lasting until 11, with time out to lay in a little food. The bills don't say whether you can bring along a sangwich, if you prefer.

"Keep her down, boys," is the advice Rolly Denne, our worthy mayor, is giving the village councillors in regard to the estimates. And so say all of us.

Baseballer from all over this fair province is going to meet in the village in a few weeks. This is put in here so the village councillors can get a few boards nailed on the Riverside Park fence.

A hockey team from Lindsay, west of here, dropped into the village Mon. nite and took home the silver mug Harry Boyle put up for competition. So far, however, we aint lost no games to Red Rock or Nassau.

—F. D. C.

BETHANY

Lenten service was held at St. Paul's Anglican Church on Wednesday evening, when the rector, Rev. Mr. Fierheller, preached from the words, "Fear God and keep His commandments.'v' There will be a celebration of Holy Communion on Sunday at 1 o'clock and Sunday School will be held at ten o'clock.

Mr. F. C. Dawe went to Toronto on Monday, where he entered a hospital for an operation, which was performed on Wednesday.

Mr. Jakeman was a business visitor to Peterborough on Wednesday.

The members of the Young People's Society of the United Church took the service on Sunday evening owing to the illness of the pastor, Rev. Mr. Scott.

Mrs. Scott has been making an extended visit with friends at Oakwood and other points.

The many friends of Mrs Edna Beer, who is soon to enter training at Nicholls Hospital, Peterborough, met at her home on Tuesday evening and presented her with an appropriate gift, showing the high esteem in which se is held. The evening was enjoyably spent in games, music and dancing.

Mr. and Mrs. Cecil Argue spent the week end with friends at Millbrook.

Mr. and Mrs. Herbert Fallis were at home to a number of their friends on Monday evening.

Miss Lila Davis returned home on Wednesday evening from Lindsay where she had been visiting her sister, Mrs. Harry Rogers.

Mr. and Mrs. Roy McBride entertained on Wednesday evening at progressive cards games.

The Red-Headed Goddess

By ALICE ROSS COLVER

(Continued from yesterday.)

"But it can't be any worse," he thought grimly to himself, and then he turned at Lorraine's cry to see what she had discovered. She held up a piece of pottery in the shape of a bowl. It was grimy with dirt and age; its color was faded, and there was a jagged piece out of one side, but, as she joyfully pointed out, it would hold water. He nodded an agreement, but so absent mindedly that she came over to him.

"What is it?" she asked. Then, following the direction of his eyes, she gave a little gasp.

"Dirk! That next?" she queried in a small voice.

For an answer he put an arm about her shoulders and drew her close to him.

"Hark! he said. "Do you hear something? Or am I dreaming I do?"

Lorraine listened intently. The still world seemed not to hold even a breath. It was as empty and dead as the cave behind them, yet—surely there was a faint whisper somewhere! A tiny melody of music far below in the canyon's depths! She bent over the stone railing, trying not to let her imagination gallop. But distinctly she heard it, the grateful, sweet sound of purling water.

Dirk glanced up. It was early afternoon, but already shadows were thickening in the gorge below, as the sun stooped on its westward course. In a couple of hours, when it had dropped farther down the sky, it would be dark down there. They must make haste if they were to venture down, for there were many things to be done before night. They must find firewood and a safe resting place—

"Are you still game, Lorraine?" he asked her, holding both her hands in a tight grip. "It's our only chance. Are you still game?"

Her eyes travelled slowly along the narrow ledge, then came back to meet his. They were wide with fear, but she gave him her amused crooked little smile.

"Dirk," she said, "you're as comforting as the party who politely asked the condemned man if he preferred a hot stake or a cold chop. Only in this case it's a choice between a hot roast or a cold drop."

"There isn't even that choice, Lorraine. We couldn't get back to the comfort of a hot roast on the desert if we tried," he returned.

"Let's try the cold drop them. Honestly, I'm so thirsty that if I do fall into the water it would be a happy death to die. Here, tie up our kettle, coffee pot and frying pan in the tail of your shirt, and let's go."

She swung over the parapet behind Dirk, and, making a gallant, careless gesture to the universe, she waited for him to take the lead. He abondoned his little tree, as being of no further use to him, and left his stick; but his coat and shirt, carefully wrapped around the pottrey, he tied by the sleeves about his waist, then,with a hand stretched out to the girl, he moved ahead of her to the narrow ledge and stepped out on it. Pale but determined, she followed.

They crept along by inches, feeling for every finger hold, and clinging frantically when they found it; so they made their way slowly down to the place where the ledge curved around the wall. Here the surface of the sandstone was so smooth that not a crevice could be found for their searching hands, and, with bodies pressed close to the rock, they had to work their way around with only their palms touching the wall for a support. Just as Dirk rounded the corner, and saw before him a broad platform, he felt Lorraine's hand quiver in his, then grip it with a terrible tenacity, and, glancing back he beheld her face whitening, her eyes staring in horror as she felt her consciousness going.

"Lorraine! Lorraine! Only one step more and we're safe! Lorraine! Lorraine!"

His quick cool voice broke through the mist surrounding her. Her dazed vision cleared.

"All right," she gasped, "—but hurry!"

Holding the girl's hand with a grip of iron, Dirk sprang onto the platform and dragged her, half falling, after him. From the safe shelter of his arms, she looked up at him, her little smile twisting her mouth, and murmured: "Gee, Dirk! What a shame there wasn't a camera man around! That would have made a wonderful movie!"

They rested there a few moments, until Lorraine had recovered her composure, then they discovered that their descent had been greater than they knew for here they could clearly distinguish the sound of running water. And here, oh beautiful sight, grew trees. Oaks and pinions clustered thickly up the canyon walls, not more than twenty feet below them, and the intervening space showed the cliff walls broken, offering a comparatively safe passage for the rest of the way.

"We are lucky," Dirk announced after inspecting their surroundings. "Darned lucky. I'll say it now. Well, shall we go on? It's easy sledding from here."

"All right," Lorraine replied steadily. "Let's go."

So, with Dirk always ahead, testing the firmness of rock, the strength of limbs of trees, jumping from one shelf to another, sliding and scrambling until he secured a firm foothold and could reach up for her, they at last succeeded in reaching the bottom. By this time the sun had gone completely, and the narrow canyon held a grim aspect, with its high towering walls closing in over their heads. In spite of her relief at being on level ground, Lorraine could not restrain a slight shiver.

"Cold?" he asked.

"Yes—no—a little, I guess. Oh, it's not that. It's the walls. We're alive, Dirk, but, are we buried alive, do you think?"

"My dear! No."

Blindly, instinctively, she put out her hand to him.

"And the water,Dirk? I hear it still, but I don't see it. Where's the water, Dirk?"

"That's a little queer, I admit. But as long as we still hear it, it must be here. It's probably running underground. We'll follow along this passageway."

Half holding her, they moved on down the deep, narrow chasm, minute figures lost in an immense, unknown fissure of the vast desert. What was to be the end? Even Dirk wondered now, but he kept talking cooly and contentedly of the easy walking, the thick cool grass, the fragrance of the air and the riotous wild flowers clustering all over the rocks. Once they paused, and Lorraine rested while Dirk found some berries and nuts and acorns,-sweet as chinquapins, which they devoured hungrily. But the slowly gathering dusk, the drop in the thermometer and their own thirst drove them on to their search for water, and a place where they might make some kind of a camp fire for the night.

They seemed to have followed a twisting path through a labyrinth for endless hours,when, rounding an angle of rock, they came without warning onto a sight that left them speechless.

Before them the canyon abruptly widened out, and here, like a dream realized, spread out before their bewildered eyes, was a spacious cove, with high surrounding walls verdant with trees and bushes of every kind and gay with the noise of birds, with a meadow rich with the green-gold light of the late afternoon sun, with air sweet with the odor of wild grass, with startled rabbits and chipmunks rushing noisily to some safe retreat, and, finally, with a clear cool stream of water rippling over a beach of sand, tinkling over smooth rocks and winding away off through the field in a singing, laughing melody.

Hand in hand they rushed to it and, dropping down, plunged their faces into the water. At last Lorraine rose, stared all around and stretched out her arms with a great sigh.

"Why, Dirk," she breathed, "This is the 'something beautiful.'"

CHAPTER VIII

THE DANGER OF LIFE

The next ten days passed like a dream. In that space of time Dirk had constructed for Lorraine a primitive little shelter of boughs in which she had built up a bed of sweet grasses and leaves, that was both comfortable and warm. Together they had toiled to make a large fireplace where they did all their simple cooking and near which they drew as the sharp chill of evening descended. Beyond this was Dirk's own shelter with a resting place similar to the girl's, and for further comfort they had dammed up the hurrying brook to form a deep, clear, oval pool where they bathed.

They had been fortunate in many ways. The cove which gave them a safe retreat from the dangers of the open, parched desert, also offered many other things. There was plenty of dry wood lying about, which was easily gathered. There were berries and nuts in abundance which Lorraine picked every day, while Dirk occupied himself with more difficult feats, and, for a heartier diet of meat, there were quantities of birds and rabbits. These Dirk had become most skilled in killing with a sling shot made with his jack-knife and his rubber bands. Once they had found a large turtle, and had promptly made a feast of turtle soup, which they cooked in the Indian bowl they had carried down from the cliff dwelling. They had, Lorraine remarked, all the essentials of housekeeping, even to the "witchball" for luck. This she had strung on grass and hung from a tree in the sun.

She was supremely happy. Save for worrying thoughts of her father, whose anxiety and despair she could readily imagine, the days were unclouded for the procession of hours, half fanciful, half real, was always wholly touched with the magic of Dirk's companionship. They had managed to establish a relationship of gay camaradie, and, so long as it held movement and conversation, it was firm enough. Yet there were times—unexpected moments in the heat of the day, or that dangerous hour of relaxation in a still twilight—when the fabric of their friendship shook as though swept by a rude hand; when something unseen and delicate between them vibrated, and the whole of their little world lay hushed and listening with them for the deep, sweet sound of music as yet unsung.

On the morning of the tenth day, Lorraine tossed off her covering of thick grass and, emerging from her shelter of boughs, looked about their sylvan home with a smile of pleasure on her face. The air was filled with the music of wild birds that mingled pleasantly with the brook's murmur, and the clear air was as sparkling and invigorating as wine. She drew a deep breath of delight, then, as her eye fell on a diminutive pile of wood, she expelled it suddenly in exasperation, and, frowning, she gave through her trumpeted hands, an imperious shout.

"Hi! Dirk!"

Immediately a tousled head appeared in the opening of the second shelter on the other side of the fireplace.

"Hi, Lorraine! Breakfast ready?" he asked.

"I should say not! I'm going to need more wood. I told you last night"—he grinned at her scolding—"and the rabbit will not stick on that stick. You'll have to fix another."

"All right. But if you are going to develop into a nag and a scold, I'm going to desert you." He shuffled out, working his feet into his evening pumps as he came. "And I won't do a thing until I wash up." He stood and stared in mock defiance for a second, whereat she made an impish face at him and darted ahead of him to the place where they had dammed the water. Here a still little oval pool made an excellent bowl and mirror combined. She stooped as if to wash her own face but, as Dirk approached, she scooped up a handful and flung it at him. He made a playful, threatening gesture, but contented himself by growling: "You wait. When I make up my mind to put you in your place you'll be put for a life time."

"Oh, will I?" She plunged her own arms into the water with a shout of joyous pain. "Wow! Brr! There! That's done till to-morrow. And it's a silly waste of time. Eating broiled rabbit without a knife and fork is messy business."

"I'll make you a knife and fork today," he promised grandly, taking her place at the pool.

"Where's your comb? I caught a glimpse of myself in the looking-glass before I washed. And I thought——"

"Left pocket. Hip. Help yourself."

"That's a fine place to keep it," she shided, pulling it out. "Don't you ever dare put it there again. You'll sit on it and break it."

"Make you another if I do," he said recklessly, and straightened up to laugh in her amused, disgusted face.

"You're getting too unutterably conceited over your caveman stuff!"

"Well, I have done well." He caught her by the shoulders and shook her. "Admit it! You red-headed woman, you! With no experience, and only a jacknife to work with, I have done well!"

But she closed her lips firmly and would say no word, though he shook her more and more violently until she wrenched herself free with her eyes blazing.

"What do you think you're doing?"

"Say it!" He curved his arms over her threateningly. "Say it! I'll—I'll spank you if you don't."

"When you have to beat praise out of a woman—" she retorted scornfully.

"Say it!"

His eyes were bright upon her, playful but determined, and with a sudden little shriek she turned and fled. The chase was wild for a moment, but he soon caught her and pinioned her arms behind her with one hand, forcing her face up to meet his with the other.

"No wood—no breakfast—till you give me the praise that's due me."

She bit her lip and glared at him, furious, exultant at the battle and at her own imminent defeat.

"Oh!" she cried in mocking tones. "You're a wonderful caveman!"

Her hair, blown wild by the fun, touched his face as softly as a caress. Her cheeks were aflame, her breast, close against his, rose and fell with her rapid, excited breath. She was dear at that moment, and it would be easy to kiss her! In the half of a second his glance had swept from her angry eyes down to her red lips and on down her throat, rising so whitely from the collar of her brown aviation suit, and then up again, to meet her glance, this time, with one as burning as her own and from which all laughter had fled. In the next instant he had released her without a word, and she had run, stumbling, to her shelter. Dropping down on her fragrant bed, she put her hands to her face, conscious only of her hammering heart and a wild confusion of mind.

(To be continued)

Hull, England, will devote $27,230 of the profits from the municipally-owned telephone system to reduction of taxes.

FELLOWSHIP OF PRAYER

DAILY LENTEN DEVOTION

PREPARED BY THE REV CLARENCE H WILSON, D.D. FOR THE COMMISSION ON EVANGELISM OF THE FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA

THE WOMEN

"For she loved much."—Luke 7:47. (Read Luke 7:36-8:3.)

Meditation

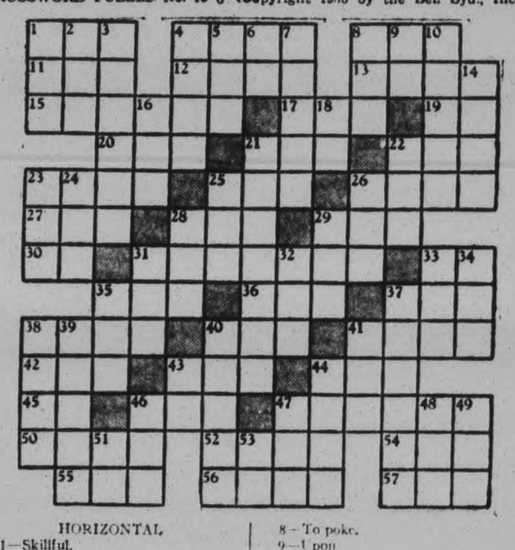
This word about the "woman who was a sinner" will apply to the devoted group who followed with the twelve and provided means for this preaching tour. We shall have a glimpse of them again at the very end. They loved much and their love was not chilled either by peril to themselves or by the apparent failure of Jesus. The deep affection and the faithfulness of women have been a treasure of the Christian Church from the beginning. The one religion that gives to women a proper recognition and a place, has had and still has large returns. If they were to fail us, our hope would grow dim. For the mothers of men are the guardians of the future.

THE REV CLARENCE H WILSON, D.D

Prayer

O God whose holy light has shone about us in the lives of good women, we pray that this light may not grow pale or go out in darkness; that the vanities of this present world may not have power to turn our women from their high calling. Amen.

CROSSWORD PUZZLE No. 19 6 (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL.

1—Skillful.
4—Deities.
8—Spot.
11—False.

CANADA CEMENT GAINS 4 TO 18

Toronto Stock Exchange Closes Firmer To-day Following Softer Opening.

PIVOT ISSUES UNCHANGED.

TORONTO, Ont., Feb. 28. (CP)—The market closed firmer on Toronto stock exchange to-day after having opened soft. Most pivotal issues closed unchanged to slightly higher while a few individual stocks made outstanding gains. On the other hand there were a number of losses scattered throughout the list, giving an irregular appearance.

Canada Cement was the outstanding actor, rising more than 4 points to a price above 18, the highest it has been in a long time. Atlantic Sugar held right up near yesterday's top price. Abitibi was down slightly from its recent record price selling under 12 this morning.

Nickel, Brazilian, the steels were unchanged to higher, Ford eased as did Bell Telephone, Loblaw and Dominion Stores. Liquor stocks were firm and unchanged.

BREAK IN RAILS CAUSES SETBACK

Closing Tone of Market Heavy With Day's Transactions Listed at 1,700,000 Shares.

ALLIED CHEMICAL DOWN.

NEW YORK, Feb. 28 (C.P.)—A sharp break in the rail shares carried the stock market substantially lower to-day, but in the final half hour, the list stiffened and recovered a little.

The rails appeared to have been the target of bear selling since their failure to follow the recent advances in the industrials and utilities with any vigor and placed them in a rather vulnerable position. Furthermore, with 50 roads now reporting net opating income for January, and showing an aggregate drop of 37 per cent., they were the more easily depressed.

The closing tone of the market was heavy, and the day's transactions were about 1,700,000 shares. Such issues as New York Central, Baltimore and Ohio, Union Pacific, Norfolk and Western and New Haven sold off about three to five points. Allied Chemical showed an extreme loss of four, and issues sagging one to more than two included U. S. Steel, General Electric, Bethlehem Steel, Westinghouse Electric, Dupont, American Water Works.

The late rally carried several up a point or two from the bottom.

Furrier Alone Kicks At Ban on Soviet Goods

OTTAWA, Ont., February 28 (C. P.). — Governmental action in banning several products of Soviet Russia from entering Canadian trade channels was widely commented upon by business leaders here. Of those who expressed themselves publicly theer was but one who offered criticism. F. D. Buckholder, president of the Furriers' Guild of Canada, expressed regret at the prohibition of Russian fur imports. There were many furs for which fashion called that were of Russian origin and not procurable in Canada, he said.

W. P. Bull Unable To Walk For Month

TORONTO, Ont., Feb. 28 (C.P.) — William Perkins Bull, Toronto barrister, who was injured in a motor accident at Coldwater, Michigan, more than a week ago, will not leave his room at the Toronto General Hospital for some months to come, according to the statement made by his attending physician.

Mr. Bull is suffering from a very severe fracture of the hip, according to Dr. Wootton, his attending physician, who said he would be confined to a plaster cast for two or three months.

IRELAND BEATS SCOTLAND

DUBLIN, Feb. 28. (C. P. Cable)—Ireland defeated Scotland in an international rugby match here today by eight points to five.

If you buy out of town, and I buy out of town, and all our neighbors buy out of town, what in thunder will become of our town? Ever think about it?

N. Y. STOCK PRICES AVERAGE 25 PER CENT. ABOVE DECEMBER

But Industrial Improvement Listed to Steel, Automotive and Cotton Shares.

SOME SLIGHT UNEASINESS.

(By John L. Colley, Associated Press Financial Editor.)

NEW YORK, Feb. 28 (C.P.)—The stock market, which likes to win its periodic races with business recovery, finished the second month of the first quarter so far ahead of its rival that many spectators are bewildered by the speed of the Wall Street entry.

Stock prices average about 25 per cent above their December lows. Tangible evidence of industrial improvement is still limited mostly to steel, automotive and cotton goods grades, causing some observers to feel a little uneasy, on the ground that with spring approaching there should be signs of broader gains. Intangible evidence of betterment is to be found in the stronger tone of sentiment, but this has been helped materially by the rally on the stock exchange.

The advent of March, with its income tax payment, treasury financing and theoretical peak of recovery in trade, brings the market closer to the point where it may be expected to justify the advance on the basis of commercial activity.

Also, the last of next month will see more or less accurate forecasts on first quarter earnings, which in many cases will compare unfavorably with a year ago.

Success of the first timed bull pools, organized early in the month, has stimulated expansion of professional maneuvers along the same line. Simultaneous with increasing public participation. Rapidly rising prices have drawn in shorts; there are, in fact, many who believe the greatest impetus to the rally has been covering. In support of this contention are the broker's loan figures which show that despite the rise in prices speculative borrowings have risen only 82,000,000 above the February 4 low of $1,716,000,000.

Bonds are dull, held back by the bonus and uncertainties as to the treasury financing.

NORDON HIGHER AT 44 FINISH

Issue is 7 Points in Advance—Oil Section Provides Most of Trading.

International Nickel Soft.

TORONTO, Ont., Feb. 28.—(C.P.)—The oil section provided some active specialties in a relatively light trading session on the mining market to-day. Balance of the list was mild with base metals easier in tone and golds firm.

Nordon, on buying reported to have originated in part across the border, continued strong, price finishing at 44 for a gain of 7. Chemical Research came ahead to close higher at $4.10 and Home Oil advanced 6 to $1.23.

International Nickel was soft on the opening, but recovered some ground to close off at $19. Noranda was unchanged, while Hudson Bay sold off 10 to $5.40. Pend Oreille 5 at $1.15. Lindsleys were firm with Ventures up a cent or so on end.

In the gold section Mining Corporation and Teck Hughes advanced 5 cents and Wright-Hargreaves moved up a couple. Other higher-priced golds were firm. Howey gained 2 to 30. Big Missouri and Eldorado were off a cent apiece.

AUSTRALIA IS USING FINE HOSPITAL PLAN

Victorian Bush Nursing Association Manages Numerous Community Hospitals.

MELBOURNE, Australia, Feb. 28 (By The Canadian Press)—Under the Victorian Bush Nursing Association a fine scheme of community hospitals is being carried out in the State of Victoria, and the 26th hospital established by the Association was opened at Edenhope recently, when Lieut.-Col. Sir James Barret, Lecturer on Physiology of the Special Senses, University of Melbourne, and member of the Council of the University, formally declared it open. The hospital at Edenhope is the first concrete structure erected in connection with the movement.

Built on a large allotment, overlooking Lake Wallace, the hospital conveys an atmosphere of spaciousness and brightness. Accommodation is provided for patients in three wards, which open on to a wide verandah, covered with wire netting. Ample window space allows the wards to be flooded with light. The hospital contains an operating theatre, nurses' quarters, a kitchen, and a laundry. The interior has been attractively planned, and many devices for the efficient working of the smaller type of hospital have been included in the design.

hospital have been included in the de-

Exclusive of land, the building cost $9,500 to erect, and, with the exception of $600 for additional equipment, the money is in hand. A large sum was made available on loan by the H. V. McKay Trust. The remainder of the money has been collected by residents, who bear the responsibility of the project. Sister E. Bayley is in charge of the new hospital.

Sir James Barret, at the opening ceremonies, announced that a 27th hospital would be opened in a few weeks. "This is not a charity," he said, "it is a co-operative community movement which provides a practical method of obtaining efficient hospital treatment at a reasonable rate."

Small Wheat Carry-Over From the Previous Year

(By John P. Boughan, Associated Press Market Editor.)

CHICAGO, Ill., Feb. 28.—Surprising indications, now apparent, point to decidedly smaller carry-over supplies of wheat in the United States on July 1 next year than a year previous.

Authoritative unofficial estimates made public today suggest that the 1931 end-of-the-season carry-over may not exceed 250,000,000 bushels, and will be probably below that total, compared with 275,000,000 bushels on hand July 1, 1930. The new forecasts take into account that the Federal Farm Board auxiliary the Grain Stabilization Corporation, will proceed to sell abroad during the next four months 35,000,000 bushels of wheat which cannot be used advantageously for domestic milling.

Largely as a result, however, of immediate market consequences of announcement of the Farm Board's export plans, wheat this morning ranged from 1-8 to 3¾ cents a bushel lower than a week ago, with corn 5-8 to 1 5-8 down, and oats at ½ to 2 1-8 decline. Provisions were 15 to 55 cents up.

CUP TIE GAMES END IN A DRAW

(Continued from Page 1)

by the Wolves' attacks caused mistakes on both sides. Pretty work by Glidden and Carter was ended by Sanford driving wide of the Wolves' goal. During a fierce hailstorm which swept over the ground W. Richardson scored for the Albion from Wood's centre. The Wanderers combined effectively and N. V. Shaw headed through the equaliser just before the interval. At the beginning of the second half the Wolves appealed vainly for a penalty against G. Shaw for handling the ball. Wood's low centre led to an exciting melee, and W. Richardson just missed the Wolves' goal. The Albion continued to press until ten minutes from time, when Wolverhampton staged a series of splendid raids, which, however, brought them nothing, the half and the game ending without further scoring.

Perfect weather prevailed at Sunderland where Exeter City played the local club to a draw, each side scoring a goal. The crowd was estimated at 55,000. Sunderland's guns came into action first and Leonard and Devine missed with early shots at the Exeter fortress. The Southerners replied vigorously, making frequent raids. Gurney, Sunderland, netted but was declared offside. Exeter had a spell of defence as the Sunderland right wingers launched attack after attack in typical cup tie manner. Conner put Sunderland ahead in the twenty-third minute after a scrimmage in the Exeter goalmouth. Exeter improved towards the end of the half. But Sunderland hun gon grimly to their lead. After the rest Sunderland played hard for another goal, but Baugh, the Exeter back, was a tower of strength. Exeter swung into an attack when Sundreland quieted down and the home team had an anxious time. The Southerners were at least rerewarded when Houghton equalized after some excellent forward work seventeen minutes from the finish.

Exeter kept it up, but Sunderland, who weakened badly towards the end, just had enough left to stave off defeat.

Church Societies Hold Pleasing Get-together

A very enjoyable get-together party under the auspices of the W.M.S. and the Women's Association of Trinity United Church was held in Reid Street Hall, with over seventy ladies present.

The program opened with the singing of "O Canada." Mrs. R. J. Kidd in a few well-chosen words welcomed the ladies, and Mrs. W. Allan of St. Paul's Presbyterian Church brought greetings. An excellent program consisted of delightful solos by Miss Bertha Hill and Miss Eleanor Brown, readings by Miss Margaret Pitchford. Mrs. W. P. Blackmore, Mrs. H. S. Huffman, and Mrs. Albert Barlow. The closing number took the form of a very amusing musical contest presided over by Mrs. A. B. Cunningham.

This was followed by the service of dainty refreshments. The tea-table looked very charming with its centre basket of spring flowers and bud vases, filled with red tulips and white narcissus.

Tea hostesses were Mrs. M. A. Morrison and Mrs. J. K. Moore.

Mrs. J. D. Carver expressed her appreciation at the good attendance of ladies.

POTATOES RETAIL AT 80 CENTS BAG

Nevertheless Demand For Same on Local Market This Morning is Slack.

Potatoes on the local produce market this morning dropped to a new low level, retailing at 80 cents per bag—even at this low price demand was very slack, and many of the farmers were obliged to transport them home again.

There was a good offering of vegetables, with cabbage selling at 5 cents a head, carrots 25 cents a basket and onions 50 cents a basket.

Eggs were still finding good sales at from 25-30 cents per dozen, according to grade, while butter is still firm around 33 cents a pound. Lamb was demanding 18-23 cents a pound; mutton, 12 to 15 cents; pork, 13-16 cents, and beef, 8 cents per pound.

CAPITOL HEAVES SIGH OF RELIEF AS BILL PASSES

Measure Enables Veterans to Borrow Up to 50 Per Cent of Bond Certificates.

RESULT IS UNCERTAIN.

Gov't Under Bill is Liable to Demand of From $400,000,000 to Over $1,000,000,000.

WASHINGTON, D.C., Feb. 28 (By Ken Clark, C. P. Staff Correspondent).—Now that Congress has passed over President Hoover's veto, the bill which will enable veterans of the Great War to borrow from the Treasury up to 50 per cent of the value of their bond certificates payable in 1945, some of the hysteria which surrounded the legislation while it was in Congress, has cleared off and a more definite assessment of its effect made be made.

Would Tax Treasury

The legislation makes the Government liable to a demand of from $400,000,000 to over $1,000,000,000. This amount may be raised in two ways, either by borrowing or by increasing taxes. With a decrease in income taxes impending and a probable deficit of $500,000,000 in the Treasury July 1st, a serious problem is thus raised.

On the other hand, the legislation is considered as being the lesser of two evils. For if the bill had failed of passage in its present form at this session, not only did an extra session of Congress—a thing which not even the veterans wanted—threaten, but it seemed probable that the new Congress might go a great deal further even to the point of permitting full payment of the certificates.

In the next Congress a proposal to forgive veterans the loans to be made will be put forward and since no legislation for the relief of veterans has ever failed of passage, it is assumed that this suggestion will be made law. It is further believed that success in these efforts to get money from the treasury will forward a plan already conceived, which would provide a pension for every veteran.

Result Uncertain

The actual result of the bill will be discovered only by time. President Hoover in his veto message to Congress said that only a minority of the 3,000,000 veterans affected were in actual distress. Perhaps smaller numbers of veterans may use their borrowing power than was expected with a consequent lessening of the drain on the treasury.

An argument used by the opponents of the bill was that borrowing by the Goverment at this time would flatten the bond market just when business needed easy money in order to get in on the expected upswing of returning normal prosperity.

The bond market in the face of this prospect has held up well whether by reason of better conditions generally or because the prospective borrowing was considered to be a lot lighter than it might have been, is a question.

Generally speaking, now the bill has passed, Washington accepts the inevitable and feels more cheerful.

13TH HYDRO BILL TOTALS $10,783

Utilities Commission Asks Hydro to Reduce Cost of Peterborough Power Five Per Cent.

$12,726 IN 1929.

The Peterborough Utilities Commission will be handed back $10,783.80 by the Ontario Hydro-Electric Commission under the Thirteenth Credit Power Bill. This will bring the Utilities Profits for 1930 up to a $20,-019.60 total as compared with the total profit in 1929 of $8,736.04.

The Thirteenth Bill provides for the adjustment in the actual cost of power as supplied by the Ontario Commission to municipal systems compared with the rate estimated at the beginning of the year and charge throughout the year. That is the Utilities Commission during 1930 paid the Ontario Hydro $10,783.80 more than the actual cost of the power and under the Thirteenth Bill the Hydro is merely returning the overcharge.

At yesterday's meeting of the Commission the members expressed satisfaction with the 1930 financial statement. The increased earnings over 1929 is accounted for by the reduction in operating expenses from $234,-803.78 in 1929 to $227,967.69 in 1930 and the increase in revenue from $297,583.14 to $302,990.61.

Last year's adjustment under the Thirteenth Bill to the local commission was $12,726.00.

The commission will press a request to the Ontario Hydro to reduce the power rate to Peterborough users by five percent. A motion to this purpose passed the Commission unanimously and the matter will immediately be carried before the Hydro.

BANK CLEARINGS

The bank clearings in the Peterborough clearing house for the month of February totalled $2,932,721.

DIARY SHOWS STRANGLED WOMAN FEARED LAWYER AND EX-CONVICT

Police Acting on Clue Arrest Two for Questioning in Vivian Gordon Case.

TAXIMEN CHANGE STORIES.

NEW YORK, N.Y., February 28 (C.P.). — Named in her diary as persons she feared, her own lawyer and an ex-convict were held for questioning yesterday in the strangling of Vivian Gordon, who is supposed to have been educated at the Convent of Our Lady of Loretta, Ottawa, Ontario.

John A. Radeloff, a Brooklyn attorney, and Sam Cohen alias Charles Harris, were taken into custody yesterday and examined as to their associations with her. An unnamed woman friend of Miss Gordon also was questioned and released.

One inscription in the diary, Police Commissioner Edward P. Mulrooney said, read as follows:

"I fear but one man, and he is Radeloff, my lawyer, who, if he wanted, could get Cohen and a couple of his henchmen to do away with me."

Intended To Testify.

Radeloff told the Commissioner that Miss Gordon informed him several weeks ago that she had made an appointment to testify concerning alleged graft on the part of the vice squad and that he had advised her not to.

"I will. I'm going to give McLaughlin the needle," she was quoted by him as replying.

Commissioner Mulrooney immediately sent for Patrolman Andrew B. McLaughlin, who arrested Miss Gordon on a charge of immorality in 1923, and was instrumental in sending her to Bedford Reformatory, but discovered that he had left on a five-day vacation Monday, presumably for Bermuda.

Three taxicab drivers, under questioning by Bronx police, recanted a story they told of the events leading up to the crime. Frank Ryan, Nathan Katz and Joseph Buell originally said that yesterday morning they pursued for four miles a taxicab in which a woman was struggling with two men, finally losing it in Van Cortland Park.

"Ryan, what did you see," asked Inspector Henry Bruckman.

"I saw nothing," he replied.

All Sent Home

Responding to further questions, Ryan and the others denied they had seen anything suspicious in the speeding cab, denied they had engaged in a chase, denied they had moved away from their stand. All were sent home without giving reporters a chance to conduct their own examination.

Miss Gordon's body was found at the foot of an embankment Thursday with a length of a clothesline wound about her neck. It was six days after the date she failed to appear as a volunteer witness in the Magistrate's Courts inquiry.

REPORT INCORRECT

OTTAWA, Ont., Feb. 28 (C.P.) — Reports that Vivian Gordon, who was found strangled to death in a ravine in the Bronx, New York, received her education in the Convent of Our Lady of Loretta, Ottawa, are incorrect. There is no convent of this name in Ottawa or district.

Dr. W. H. Fyfe Favors Teaching Of French

OTTAWA, Ont., February 28 (C. P.). — The task of the school teacher is not to chop up information in small pre-digested bits nor to drill children; it is to enliven them and release their latent powers, declared Dr. W. Hamilton Fyfe, Queen's University principal, in addressing the annual banquet of the Ottawa Teachers' Institute last night. The essence of a liberal education he held to be unfettered interplay of mind and character between teacher and pupil.

Mr. Fyfe made a plea that the French language be taught in Canada's schools in as early classes as possible.

SINGLE MEN ARE FOUND IN NEED

Six Youths Floated Into City This Morning Hungry and With Poor Clothing.

BIRDS OF PASSAGE.

They were six youths who floated in this morning to see if they could wangle a meal or two, before they floated out again, by ways that nobody enquires too much about, to see if they could get to Kingston. They admitted that Peterborough is not anywhere near Kingston and said they got on the wrong track. They were cheerful boys and very badly clothed. They wanted various things, if possible; pants particularly and also shoes. They eyed hopefully a pile of large-sized boots and said they might wear two or three pairs of socks with them. But they were of use only to one, whose bare toes showed plainly—all five of them—through the socks or parts of socks that he wore. They also wanted—a new request— handkerchiefs. But nobody sends in handkerchiefs so they had to be content with an old piece of white cloth, cut up in squares. And a third put on a suit over his ragged outfit. It was warmer, so he said. All had more than one worn sweater.

Three were from Wales. To-morrow is St. David's Day in Wales—"Hen Cymru Wen," or "dear, white Wales" as they call it," but they were five thousand miles from St. David's Land. Another hailed from Scotland and the other two were from Ontario. They are sailor lads and are trying for work on the lake boats at Kingston. They had white teeth, all of them, and flashed smiles under unkempt heads when they got a handout.

"We'll tell them back home that Canada isnt so bad," they promised, as they made off, a ragged and cheerful sextette.

He was a good-looking boy with a pair of brown eyes and a head of fair hair. He wanted, most of all, a pair of boots. The ones he wore were broken and a long slit decorated one toe. He said that toe was broken. A good-natured medico looked it over and offered to take it off—gratis. The walking, the lad admitted, wasn't so good when that toe started to pain and he feared it might lead to complications later. Arrangements could be made to put him up for a day or so until the wound is healed. His buddy thought it a good idea and he seemed to think so too. But he promised to come back for the job—and didn't come. He is still porobably walking along some road or hopping some freight train with that toe getting worse. He saved it, however. Perhaps he didn't want to leave it behind. He hailed from Halifax, and said he was a returned man. He looked much too young, but one never knows.

He was eighteen years of age and when he came in, he looekd sick. He didn't want food or clothing or anything but a place to put his head. He was getting a bad cold. He got some tablets and a place to stay for a week and now he intends to light out shortly and either stow away on a ship or get work on some freighter that will take him back to Scotland, where he was born.

They are birds of passage, these men, and many like them Walking over Canada, getting a bit here and a bit there, constantly moving on, dotting the roads and the countryside. Somewhere a mother or a father thinks about them in the quiet hours of the night.

Oldest General Store Closes In London

LONDON, Feb. 28.—(By Thomas T. Champion, C. P. Staff Correspondent.)— Schoolbreds, in Tottenham Court Road, believed to be the oldest large scale general stores in London, are closing down and a thousand employees will be dispersed. The company was obliged to meet its creditors last year, but the present liquidation is expected to reveal a surplus.

Early in the nineteenth century, when a volunteer force was formed, Schoolbreds maintained a complete company in the Queen's Westminster Volunteers, and in the Great War this company was commanded by Captain Alfred Schoolbred, his father, Lieut.-Col. Rupert Schoolbred, C.M.G., being Colonel of the regiment at the time.

See "The Princess and the Plumber" at the Regent Theatre, on March 4th, 5th and 6th.

BRITISH LEADERS VICTIMS OF WAR

Dr. Fyfe Claims Genius of Britain Been Withdrawn as Far as This Generation is Concerned.

Has Hopes of Rising Youth.

OTTAWA, Ont., February 28 (C. P.). — Those who might have been the natural leaders of the present generation in Britain were to-day at the bottom of the seas or in military graves, Dr. Hamilton Fyfe, principal of Queen's University, declared in addressing an Ottawa service club. He was often asked why there were not more leaders among the younger men of Britain—the war was the only possible answer.

Dr. Fyfe said not more than two per cent. of the young men at Oxford whom he had looked upon as natural leaders were alive to-day. "The genius of this generation has been withdrawn as far as Britain is concerned. It is a temporary setback, I hope, for I have the greatest confidence in the next generation."

The only real tie binding the far-flung parts of the Empire to-day were those of a common outlook and mutual knowledge. This should be strengthened by more coming and going between parts of the Empire. Dr. Fyfe suggested young Britons would be benefited by taking part of their studies in Canadian universities and also that the time had come when the young men from the Dominions should be given an opportunity to enter the British Civil Service and take on a share of the government of the dependencies and colonies.

Blair's Aruntius Wins Lingfield Steeplechase

LINGFIELD, Eng., Feb. 28.—(A.P.) Aruntius, owned by M. D. Blair, and second choice in the betting at 9-2 ran second to a long shot, Nearest, in the Lingfield Park three mile steeplechase to-day. The favorite, Donsancho, was third.

Gregalach, 1929 Grand National winner, was one of the field far back. Nearest paid off at the nice odds of 100 to 6. Donsancho was 4 to 1.

ARTICLES OF INTEREST TO THE FARMER

TOO MUCH STRESS CANNOT BE LAID ON PLANNING OUR FLOWER GARDEN

No Difficulties Too Great to Overcome in Achieving Plot to be Proud of.

VEGETABLE LOT HINTS.

Too much stress cannot be laid on planning. After all, anticipation is the big thrill of most adventures and we can have a lot of fun laying out our gardens now while enjoying a grate fire, and at the same time having the satisfaction of knowing that much better results will be achieved by making thorough preparations in advance. There may be some difficulty, or what the beginner would consider difficulties. Our ground may be very uneven, the soil poor, the plot very shady, or we may be faced with artificial barriers such as very narrow lot or one in which a rather unsightly garage is the dominant characteristic.

Perhaps it is essential that most of the land at our disposal be given over to a children's playground, or it is quite possible that some huge, but highly prized, tree takes up most of the room. But these are not difficulties. In fact we may turn them into actual assets and the praise of our friends over the results achieved under what they consider adverse conditions will be al the more gratifying.

Room to Show Skill

Gardening allows plenty of opportunities of displaying our skill and originality. Sloping ground offers an ideal location for a rock garden filled with alpine plants. If our plot is filled with boulders we are fortunate because the supply of these is essential in this type of gardening. Big trees which shade the ground more than is good for the average annual make conditions suitable for those special shade loving plants, of which there is really a remarkable variety, and also provides an ideal site for wild flowers.

Poor soil can be built up with fertilizer and perhaps artificial watering, making your garden a real oasis in the sorrunding neighborhood, or if we do not want to go to this trouble we can select from a substantial list of flowers those that thrive on poor soil and little moisture. A hedge either of permanent shrubbery or annual flowers, plus a few creepers, will soon screen any unsightly garage and turn it into a thing of mystery, while this same garage will give us just the opportunity we have been looking for in putting in a winding path leading up to some shaded nook where we can take tea on special occasions.

Trellis-Work Aids.

Trellis-work with climbing roses or, if we are more practical minded, grapes or melons and cucumbers make another splendid screen. Before we make our final selection of flowers, however, it is essential to go over the catalogues and a good bulletin such as that entitled "Annual Flowers", by Miss Isabella Preston, which is issued by the Dominion Experimental Farms. In these references we will find lists of all the flowers it is possible to grow in Canada. We will see that there are a large number of annuals such as the Alyssum, Candytuft, Clarkia, Godetia, Larkspur, Lupine, Nicotine, Verbenna, Phlox, Pansy and many others which actually do best in partial shade.

We will find others that are drought resistant, annuals which seed themselves, flowers of brilliant foliage for background such as the Kochia, Hemp, Castoroil Plant, Golden Feather, Centaurea and others, flowers like the Scabious, Nicotine, Sweet Scented Stocks, Carnation and Sweet Pea, the chief charm of which is their fragrance, unsual blooms for our bouquets of cut flowers such as the Salpiglossis, Schizanthus, Dianthus, Caledula, Cosmos, Calliopsis and half a hundred others, and other special lists under the heading of Edging and Border Plants, bedding, screens, winter bouquets and rare annuals of uncommon merit.

The Vegetable Plant.

Unlike our flower garden where informal clumps and gracefully curving edges are advisable, the vegetable garden should be laid out in prim, straight rows. Many of us might well adopt the Old Country idea of a permanent vegetable patch which may be surrounded by a hedge, artsitic fence, or even a wall. At one end we can have our fruit trees and along the edge our grapes and berry bushes. Here, too, we can have our permanent bed of rhubarb, asparagus, perennial onions and similar things. This is also a good place for our cutting garden in which we grow flowers for bouquet purposes.

Sometimes the regular flower beds are spoiled by cutting and many flowers used for this purpose such as Sweet Peas and Gladiolus, the foliage of which does not always work in with the regular flower garden, give much better results if grown under vegetable conditions. We should, however, in our permanent vegetable garden try to move the annual sorts around from year to year to prevent disease and the exhaustion of a certain element in the soil required by one particular variety. We can grow our beans and corn, for instance, on one side this year and on the other side next year. We may also imitate the English idea of a more elaborate vegetable garden than is usually found in Canada.

With many score of actual kinds at our command, whether we live in the Niagara District or in Northern Saskatchewan, there is as much scope for actual skill and satisfaction in vegetable gardening as there is in working with flowers. Instead of growing just a few standard kinds like potatoes, beans and carrots and planting all at one time, we should select early, medium and late sorts spread our planting over several weeks and try out something new every season.

Free Information On Rose Growing

With spring sunshine, flowers and gardens just around the corner, there can be no more useful or popular suggestion to the amateur gardener than that he obtain a copy of "Hardy Roses—Their Culture in Canada," prepared by the Dominion Horticulturist, W. T. Macoun, and Miss Isabella Preston, specialist in ornamental horticulture. This bulletin is a complete and attractive work on rose culture under Canadian conditions and is one of the many publications available to Canadians without charge through the Publications Branch of the Department of Agriculture at Ottawa.

ENTRIES POUR IN FOR SEED FAIR

Over $700 in Prizes to be Presented at Showing in Peterborough March 11 to 13.

EDUCATIONAL EXHIBITS.

Present entries received for Quinte District Seed Growers' Fifth Annual Fair, to be held in the Market Hall here from Wednesday, March 11, to Friday, March 13 inclusive, augers well for the success of the event, which is designed to encourage the production of better and more profitable crops together with the use of better cleaning machinery.

Over $700 in cash prizes will be distributed, and there are classes for grain, small seeds and potatoes. Seed cleaning demonstrations will be given daily in addition there will be many other educational exhibits, while addresses will be given by prominent speakers on fertilizers, seed, and other items of interest to agriculturists.

This is the first time this fair has been held in Peterborough. Last year at Napanee it drew very large entries from each of the six counties to which it is open. These counties include Durham, Northumberland, Peterborough, Hastings, Prince Edward and Lennox and Addington.

It is urged that entries for the fair be sent to J. B. Nelson, Department of Agriculture, Peterborough as early as possible and not later than March 9, on which date entries close.

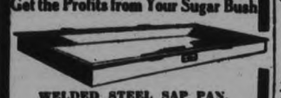
The Program

On the first day of the fair, the proceedings will open with a judging competition at 1.00 p.m., while on the 2nd day there will be a boys' judging competition in the morning followed by addresses from prominent speakers (some of them from O.A.C., Guelph) in the afternoon. In the evening of the second day the Seed Growers' banquet will be held, at the Empress Hotel. The final day of the fair Friday, March 13, will see an auction sale of exhibits and their removal.

The Fair President is C. H. Ketcheson of Belleville, with H. W. Pearson, seed inspector secretary and J. B. Nelson of the local Department of Agriculture, Fair secretary and treasurer.

The premium lists are now off the press and may be obtained on application to Mr. Nelson at Peterborough or to the respective agricultural representatives of each of the other five counties.

Get the Profits from Your Sugar Bush



WELDED STEEL SAP PAN.

This is the Pan for maple syrup making on a small scale. The welding makes it practically a one-piece pan—no solder to melt or leak if allowed to boil dry. Finished around top with heavy angle steel. A pair of handles each side for lifting off fire. Durable, efficient, economical. Many in use, giving great satisfaction. Write for further particulars.

160 Jarvis Street - Tweed, Ont.

LAKEFIELD CLASS IS WELL ATTENDED

Successful Livestock and Grain Judging Competition Held in Lakefield.

A successful livestock and grain judging competition was brought to a close Thursday afternoon in Lakefield. This contest was accompanied by lectures, and was under the supervision of J. B. Nelson of the local Department of Agriculture.

Twenty-three boys and young men entered the competition which was for the purpose of giving the competitors experience in judging. The livestock work was done in various farms in the Lakefield vicinity as follows: Beef cattle at Young Brothers farm; Jersey cattle at W. H. Down's; Ayrshire cattle at G. Mann's; Holstein cattle at J. Mann's; Clydesdale horses at the Garvey Brothers; sheep at C. Garbutt's; hogs at H. Dunford's farm. The judging of grain and clover seeds, work on the identification of weeds, and the feeding of cattle were subjects of demonstrations and lectures in the Town Hall.

PICK ACCORDING TO FAMILY TREE FOR DAIRY HERD

Ancestry Counts for Everything in Developing Valuable Stock.

STUDY RECORDS.

Choose Dairy Cow When She is Near Best Stage of Her Milking Period.

By Dr. L. D. LeGear

A favorite source of puns for our vaudeville humorists is the fact that mankind has no voice in the selection of its ancestors whether good branches or bad cling to it.

In dairying ancestory is a most important factor. And what's more, it is under the absolute control of the herd owner.

Having determined the breed of cattle you desire for your herd you next proceed to that very interesting task of selecting the foundation stock. Let us consider first the job of picking cows for the herd. We might as well make clear at the outset that there is no sure way of knowing how good an animal is from the standpoint of producing heirs. Two cows sired by the same bull may have four calves in four years. One mother will have four sons and the other might possibly have four daughters. In the first instance the result would be most disappointing and, in the other case, exceedingly fortunate.

Study Records

The most satisfactory test you can make in choosing cows for dairy purposes is to study the records and breeding of their ancestors and their individual records of production. You should know, for instance, what amount of milk or butterfat your cows should produce at a given age. It should be remembered that developers of dairy breeds have spent hundreds of years in careful selection for the purpose of increasing milk production. No matter what breed you have it is possible to secure judging cards which will assist you in buying your stock or in deciding what animals to keep in your herd.

You may be familiar with cattle in general, but once you become a dairy enthusiast you will quickly notice these points in the cow which is in the full flow of the milk. First a vigorous physical condition brought about careful feeding. Second, an unusual development of the udder and milk veins. Third, the proper development of the barrel in proportion to the size of the cow.

The barrel is that part of the animal's body between the fore and rear legs which houses the large digestive organs of the cow. The animal that produces a large amount of milk must necessarily have large capacity for feed.

An active blood circulation is important because the digested food must be distributed. A large girth where the heart and lungs are located usually indicates large organs. A soft, pliable skin is a pretty sure sign of good circulation. Clear, bright, prominent, staring eyes another.

Look at Milk Veins

Look also at the milk veins leading from the udder, under the skin, back towards an opening in the frame work which leads into the cavity of the body. They should be large, especially when the cow is at the height of her milking period.

The udder should be carefully examined. The size may fool you. A large udder does not necessarily produce a lot of milk. If it is practically the same size after milking as before, look out. It means an abundance of fatty tissue instead of secreting cells which contain the milk. A good udder has a long attachment to the body, in front and behind. After milking it shows plenty of loose flesh.

Remember a first-class dairy cow may not have much flesh in the milking season. The most of her food goes to the producing of milk. She may appear thin, but she will be vigorous, with soft, healthy hair and bright eyes. The cow that is thin in flesh because of the lack of food, has exactly the opposite appearance. We should keep in mind that dairy cows will naturally take on fat toward the end of the milking period and when dry. This fat is needed for the first few weeks which follows calving.

One Rule

One rule that should be followed invariably in selecting a dairy cow is to do the choosing when the cow is in milk and preferably near the best stage of her milking period. That is when her characteristics are easiest to judge.

Long experience has shown what physical characteristics in breeds usually indicate high production. For instance, the body of the dairy cow should be wedge shape as viewed from the front, side or top of the withers. The body should be deeper from the hip points to the bottom of the udder than it is at the fore quarters. All of this means that width at the hips, width of the chest and depth of the body are evidences of capacity. Unless these characteristics are present it is practically certain that the animal will not be a big producer of milk.

Among the exports from Montreal, Canada, last yearfi were 14 barrels of ashes.

PETERBOROUGH MARKET QUOTATIONS

RETAIL

Fruits

Oranges, 19-60c dozen; seedless, 23c dozen; navel, 29-40c dozen; bananas, 23-25c dozen; 4 pounds, 25c; red, 5c each; lemons, 23-27c dz.; grapefruit, 5c to 15c each; cocoanuts, 10-15c each; pineapples, 25-30 cents; honeydew, 20-40c each; pomegranates, 15c each; pears, 35-50c peck; Emperor grapes, 2 lbs. 19c; blue grapes, 6-qt. basket, 60c; apples, 25-40c peck; Jonathans, 50c peck; Snows, 40c; McIntosh Red apples 40c dozen; dates, 4 lbs., 25c; cooking figs, 3 lbs. 25c; rhubarb, 3 bunches 25c.

Vegetables

Potatoes, 19c peck, 90c-$1.00 bag; sweet potatoes, 3 pounds for 15c; carrots, 10c bunch; cooking onions, 10 lbs. 25c; green onions, 5c bun.; Spn. onions, 4 lbs. 25c; pick. 20c qt.; cabbages, 10c lb.; head lettuce, 2 for 23c; leaf lettuce, 5c bunch; parsley, 5c bun.; spinach, 15c lb.; tomatoes, 20c lb.; cucumbers, 5c to 15c each; beets, 10c bunch; celery, 15-25c bunch; celery hearts, 3 for 25c; cauliflower, 35c each; bunches, 25c; green peppers, 10 cents each; green peas, 10c qt.; shelled, 35-40c qt.; vegetable marrow, 10-20c each; mushrooms, 70c lb.; corn, 25c dozen; hubbard squash, 15-25c each; cranberries, 25c lb.; sage and savory, 5c bunch; pumpkins, 10c each; turnips 19c peck; parnips, 30-35c peck.

Nuts.

Mixed nuts, 23-25c lb.; shelled walnuts, 39-43c lb.; peanuts in shell, 20-25c lb.; shelled filberts, 45c lb.; almonds, 25-60c lb.; Brazil nuts, 25c pound; shelled, 59c lb.; chestnuts, 25c lb.

Dairy Products.

Butter, creamery, 30-35c lb; dairy, 30-32c; lard, 2 lbs. 29-32c; shortening, 15-17 lb.; eggs, 25-30c dozen; storage eggs, 18c; cheese, 33 cents lb.; clover honey, 5 lbs 53c; 10 lbs. $1.00; amber honey, 5 pounds 39c; 10 lbs. 75c; sections, 25c each; amber, 15-18c each.

Fish.

Salmon, 17-20c lb.; whitefish, 15-20 halibut 22c-25c; fillet haddie 15c-19c lb.; finan haddie, 17c lb.; fresh 15-19c lb.; finan haddie 17c lb.; fresh and smoked fillets, 20c lb.; pickerel 15c; flounders, 12c; fresh herrings, 10c lb.; oysters, 75c pint.

Meats.

Beef, 10-28c lb.; lamb, 15-30c lb.; veal, 15-30c lb.; pork, 20-32c lb.; bacon, 25-45c lb.; sausage, 20-25c lb.; chickens, 25c-40c lb.; geese, 24c lb.; turkeys, 38c lb.; ducks, 33c lb.

WHOLESALE

Flour.

Bread flour, 24 lb. bag, 79c, pastry flour, 24 lb. bag, 71c, 98-lb. sack bread flour, $2.89.

Grain.

Fall wheat, 67c bushel; spring wheat, 60c; oats, 27c; barley, 35c; peas, $1; rye, 30c; buckwheat, 40c; aslike, $6 bushel.

Hides and Wool.

Cow hides, 2-3c lb.; horse hides, $1.50-$1.75 each; veal skins, 6c lb.; 4c lb.; rejects, 6-7c lb.

lamb skins, 15-25c each

Wool, fine, medium and coarse, 8c lb.; rejects, 5c lb.

Hogs.

Live hogs, bacon, $5.50 cwt. and $1 a hog over for selects; dressed hogs, head on, $11.00; head off, $12.00 cwt.

Hay, Bran, etc.

Hay, baled, $14-$15 ton; straw, $8-$9 ton; bran, $21 ton; shorts, $24 ton.

PROTEIN MIXTURE GROWN AT HOME SEEN AS ECONOMIC FEEDING STUNT

Peas, Highest in Protein Yield, Harvested Easier by Sowing With Oats.

Short Strawed Variety Best.

The use of home grown protein as a means of economy in live stock feeding is apparently receiving more serious attention at this time than ever before. Any cropping system that eliminates cash outlay is welcomed by the producer and thus the growing of high protein crops to supplement, in part at least, the use of concentrates, must be considered in any attempt at lowering the cost of production.

Some experimental work was started by the Cereal Division at Ottawa in 1929 relating particularly to the use of peas for grain when grown in combination with oats and wheat. Different varieties of these crops were compared in various combinations. The yield of protein was determined in co-operation with the Division of Chemistry. Other observations were also made relating to from the standpoint of ease of harvesting. The use of peas in the grain crop always increases the danger of added expense to the cost of handling the crop, hence the importance of using short strawed varieties of other crops. The yield of a mixture of cereal crops is also affected as a result of using varieties that do not mature at approximately the same time.

Peas Are Highest

In actual yield of protein the results show quite naturally, that peas grown alone give the highest return per acre. Since peas alone are difficult to harvest however, the inclusion of oats or wheat to hold up the crop in order that it can be cut with the binder has been an interesting part of this work.

It has been shown from work thus far, that an early short strawed pea variety mixed with Alaska oats and sown at about 1¾ bushels of peas and 1 bushel of oats to the acre, not only gave the highest yield of protein per acre but also stood up fairly well at maturity. When wheat is included in the above mixture, the actual percentage of peas harvested is greater than in the pea mixture, but the total yield of protein is reduced because of the smaller quantity of oats and further, because of the smaller quantity of oats and further, because wheat did not develop normally when grown in mixture with peas. Alaska oats have proven very satisfactory in mixture with peas, since this variety is fairly strong in the straw and tillers rather less than later varieties. An early short strawed variety of peas called Early Blue which is not yet available commercially, has done exceptionally well with Alaska oats. Most of the common varieties of peas are rather long in the straw and tend to pull down the strongest oat varieties. Early seeding is important in growing mixtures with peas and quick maturity tends to reduce the chances of lodging.

Over 3,000 Ways Of Serving Eggs, Says Noted Chef

Fried, boiled and poached are the three ways eggs are most familiar to the average individual. But these are only three of the more than three thousand ways in which a famous chef asserts eggs are served.

In a northern climate an egg eaten in the winter time has greater food values than one eaten in the summer time. The present price of eggs, the lowest in years, is having the effect of increasing the popularity of eggs.

To preesrve the reduced numbers of lions, leopards, elephants, hippopotamuses, rhinoceroses and monkeys, Ethiopia has passed a law restricting the hunting of these animals.

Two chairs in chiropdy have just been installed in a university in Edinburgh, Scotland.

LARGER ACREAGE GRASSES, CLOVER LIKELY BE GROWN

Looks Like Sound Decision With Present Prices if Quality Good.

PERPLEXING PROBLEM.

Old Standbys Like Spring Wheat, Other Cash Crops No Longer Dependable.

During a period like the present the average farmer is somewhat perplexed regarding crops to grow. Old standbys like Spring Wheat in the West and Fall Wheat, as well as other cash crops in Eastern Canada, cannot be depended upon, apparently, to bring in the same revenue as they have in the past, and while such important cereals will always occupy a main place among Canadian crops it would seem good business, at this time particularly, to take into consideration other possibilities.

Prices Shade Higher

In the United States, where conditions are very similar to those prevailing here, President C. C. Massie of the Farm Association of North America, points out that clover and grass seed, in spite of the general depression, actually returned higher prices to the producers last season than the year previous. As a result Mr. Massie anticipates much heavier seeding of these crops this Spring than has been the case for some years back. With the exception of Alfalfa, of which seed production was negligible in Eastern Canada in 1929, prices to producers of clovers and grasses were, if anything, a shade higher last Fall than the year previous and undoubtedly indicated a cash crop that might be given more attention.

As a result of these good prices, and also because many old meadows suffered seriously from drought in certain parts of Canada, a big swing to clovers and grasses seems certain this Spring. In this connection, whether the crop be planted with seed or hay propects in mind, the old advice about good seed holds good. After all while a farmer may use his very best field and give this the very best of cultivation, if the seed is not right, the only factor in-

(Turn to Page 8, Please)

INTEREST IN GOOD BREEDING STOCK GROWING IN PETERBOROUGH COUNTY

Grade Bulls Replaced, Poor Cows Culled Out and More Herds Tested.

FIELDMAN DOES GOOD WORK.

The season 1930-31 is witnessing a greater interest in good breeding cattle in the County of Peterborough. Grade bulls are being replaced by pure-breds; ordinary pure-breds are being replaced by good ones; poor cows are being culled out; and more and more breeders are having their herds tested so that tubercular animals may be disposed of.

This condition has been brought about largely because of three factors: Low prices for livestock products make it unprofitable to keep any but the best stock; low prices for breeding stock make it possible for the man with a little cash reserve to improve his stock at a minimum cost; the Peterborough Livestock Improvement Association has been carrying on a definite campaign to eliminate poor breeding stock and particularly grade bulls.

Periods of low prices, like the presen one when the market is a "buyer's market," afford an excellent opportunity for farmers to obtain good foundation stock at reasonable prices. Many farmers are taking advantage of the situation and are purchasing better breeding stock.

Situation Studied

Realizing that the major source of farm income in the county is its livestock and that the county's livestock is not as good as it might be, the cattle owners with the co-operation of the County Council and the Ontario Department of Agriculture determined to study the situation and work out methods of improvement. A Livestock Improvement Association was organized in the fall of 1929, and active work was commenced at once.

A study of the incomes derived from the various branches of livestock showed that cattle provided over 55 percent of this income. The following are the average yearly returns for the county:

From cattle and cattle products	$1,608,000
From swine	711,000
From poultry	510,000
From sheep	123,000

Although the Association is interested in all of these branches, the

Annual Chick Bill Reaches Big Total

February is the month which marks the opening of one of Canada's largest seasonal occupations — baby chick production. A committee of experts of the Department of Agriculture at Ottawa which met recently, estimated that to maintain Canada's poultry flocks at their present total of over fifty million birds a supply of eighty million baby chicks will be needed. Experience shows that 30 per cent. of this huge total will of their existence, 25 per cent will not survive the first three weeks a further 5 per cent. will become be the victims of disease, while the prey of predatory animals or die from other causes. With an estimated value of $25 per hundred this means a chick loss of over $6,000,000.

WEEDS LIKE MICE SERIOUS MENACE

If Uncontrolled Will Run Up Great Annual Bill For Damages.

CLEAN UP LAND.

In illustrating the destructive potentialities of field mice if allowed to go unchecked, Stewart Thompson well known Canadian bird authority pointed out in a recent radio talk that the total progeny of a pair of these rodents in a single year, barring casualities, would amount to a million. It seems almost incredibable, but when we realize that the healthy mouse expects a brand new family about every three weeks and the daughter usually assumes maternal responsibilities at the tender age 45 days the ancestors would soon pile up if of course Nature did not step in with hungry hawks and owls. Weeds have a way of imitating field mice only in this case the farmer must assume the role of the birds and if

Stately Homes of Fashionable London Hold Romance of England's History

Hub of West End Reflects Culture of Three Centuries

Berkeley Square in Heart of Storied and Fashionable Mayfair had Many Interesting Memories Dating Back to Regency Days—Royalty, Politics, Society and Stage Furnish Famous Characters.

THERE is an indefinable atmosphere about London's Mayfair, with its old-world streets, its homes that have seen the glories of patches and powder and candlelight, and whose residents' Sedan chairs awaited them at the steps of their homes as regularly as do their automobiles at the pavement-edge today. The varying styles of architecture, the time-honored names of the thoroughfares and the torch-extinguishers, still to be found here and there outside the doorways, all tell the passerby that this is England; this is London; this is history, romance and the great unspoken story of a great people.

Hallowed by history, tradition and the writings of such immortals as Samuel Pepys and Sir Walter Scott, Berkeley Square, in the very heart of fashionable Mayfair, is a household word wherever the English language is spoken. No less so is Bruton Street, which debouches into it, and memories of Walpole, Beau Brummell and Sheridan, to say nothing of a myriad names of the British nobility and aristocracy, dating to the days of the Regency and before, are as intimately associated with these scenes as are the quaint old houses, which must now give way before the advance of modern requirements, in the forefront of which is the Canadian Pacific Railway's great new hotel.

ROYAL HOME

A Princess's birthplace. No. 17 Bruton Street, where H. R. H. the Duchess of York lived before her marriage, and where her daughter H.R.H. Princess Elizabeth was born four years ago. Inset: The golden-haired Princess, "third lady of the land".

Immediately adjoining the great hotels, shopping districts, parks and palaces of the West End, Berkeley Square remains one of the choicest residential quarters of the world's greatest metropolis. Here the peoples of the earth meet, in the homes of the British nation. Here stands, and has stood for years, the heart of the British Empire and magnet of the world.

Richard Sheridan

ROYAL ASSOCIATIONS.

Even Royalty is inalienably linked with this storied quarter of London town, for No. 17 Bruton Street was the home of H. R. H the Duchess of York, prior to her marriage, and was also the birthplace of her daughter, H. R. H. Princess Elizabeth, "the third lady of the land," four years ago.

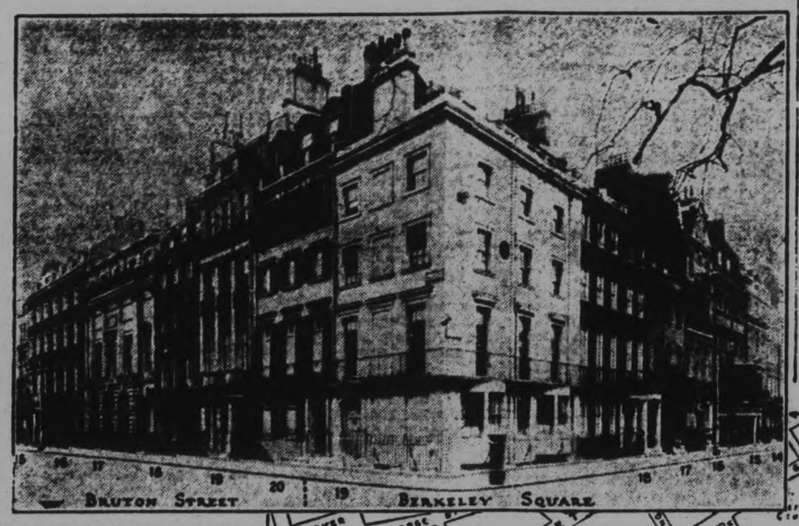
Thus one of the houses which now stand on the site of the new hostelry will ever be remembered when the name of Englands "smiling Princess" or her golden-haired eldest daughter is mentioned. This offers a striking example of present-day recollections centred on the stately homes at the corner of Berkeley Square and Bruton Street, and a brief survey, through the years, of the various buildings which are involved in the new development, offers some interesting sidelights on England's historic, political, artistic and social affairs.

Berkeley Square takes its name from Berkeley House, later Devonshire House and now a modern apartment block, which was well known to pre-war and immediate post-war travellers for its handsome forecourt and gates on Piccadilly, almost opposite the Ritz Hotel, facing the Green Park. This superb home was built by John, Lord Berkeley, on his return from Ireland in 1672, at a cost of £30,000, probably a sixth of what it would have cost to-day. Prior to that time the Berkeley family had occupied Hay Hill Farm, where Hay Hill stands today, adjoining and in rear of the projected C. P. R. hotel. On becoming ennobled, the family became the Berkeleys of Bruton and later of Stratton, both names remaining in the family, the former commemorated in Bruton Street, already mentioned.

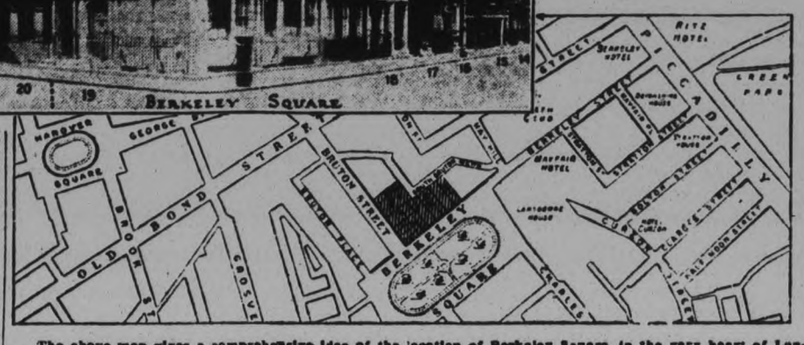
The name of Horace Walpole echoes around No. 11 Berkeley Square, which was his home for a number of years, as does that of Brummell through Bruton Street, where his adventures, to say nothing of his haunting by bailiffs and duns of all kinds, have long since become an important part of the history of the world's greatest dandy.

Reviewing the Canadian Pacific's purchases proper, starting on the Berkeley Square frontage, No. 14 stands out as the most symmetrical house in the square, with a remarkably fine entrance door and hallway. Nearly 150 years ago, this house was owned by the Dowager Duchess of Manchester, who lived in it for 40 years. For the following 40 years it was occupied by John Martin, M.P. for Tewkesbury. From 1900 onwards, No. 14 was occupied by the late Hon. Lewis Harcourt, familiarly known as "Lulu" and afterwards raised to the peerage. He was the only son of Gladstone's right-hand man Sir William Harcourt, and was himself a famous parliamentarian.

BERKELEY SQUARE AND BRUTON STREET TODAY



These beautiful old houses hold a wealth of the history of England, written and unwritten. Their walls have seen the events of three centuries, grave and gay, a brief survey of which is given in the accompanying article. Those who know their Mayfair will yet find something new; those who do not have a wealth of information in store for them.



The above map gives a comprehensive idea of the location of Berkeley Square, in the very heart of London's fashionable quarter. Such landmarks as Piccadilly, Bond Street and Hanover Square are readily recognizable. The shaded area is the site of the Canadian Pacific Railway's new hotel.

CROMWELLIAN RECOLLECTIONS

No. 15 Berkeley Square, originally two houses, but made into one so long ago that nobody remembers when, belonged in its early days to Sir Robert Cotton, believed to be a descendant of his namesake who was so prominent in Cromwellian days and founder of the Cottonian Library, now housed in the British Museum. It was later bought by Viscount Templetown, and after a comparatively uninteresting history, came into prominence of more recent years as the home of the late Frederick Lehmann, himself a painter, and father of Miss Lisa Lehmann, the composer, and of Rudolph ("Rudy"), well-known cricketer, poet, Liberal politician and member of the staff of "Punch."

Beau Brummell

Next door, No. 16, has the reputation of having suffered more changes of tenancy than any other house in the square. It passed through the hands of the fifth (and last) Lord Stratton (i.e., the Berkeley family, original owners of the estate) to a long line of occupants, including Sir Richard Barrow; the Dowager Lady Cawder (1830); Dr. Alexander Turnbull and Mr. Robert Crawshay. The last occupant of note was Lady Randolph Churchill (nee Sadie Jerome), mother of Rt. Hon. Winston Churchill, Conservative statesman of the present day.

The activities of Lord Randolph Churchill in connection with the Fourth Party, which he helped to found, in Gladstone's Home Rule days, are a matter of history and need no more than bare mention here.

A BEACONSFIELD MEMORY

Lord Rowton, otherwise "Monty" Corry, stands out in the recollections of No. 17 Berkeley Square. For many years the faithful friend and secretary of Disraeli and later his executor, Lord Rowton's name is forever commemorated in the Rowton Houses, which are London's classic cheap lodging for male vagrants.

The house also had a number of other prominent occupants, including Sir John Nelthorpe, Sir William Ord and Sir James Anderson president of the College of Physicians (1867) and physician extraordinary to Queen Victoria (1874). Nos. 17 and 18 were the same house until 1785.

Horace Walpole

No. 18, with its imposing pillars and portico and balcony, usually adorned with flowers, was one of the most beautiful residences of the square and in the early 18th century was owned by that famous old sea-dog, Sir Chaloner Ogle, Admiral of the Fleet, who was for some years commander-in-chief in Jamaica. After him came the Earl of Kinnoull, Admiral Sir John West and Lord Alfred Paget, who was Clerk Equerry and Clerk Marshal to Queen Victoria.

A GREAT ACTOR.

On their retirement from the Haymarket Theatre in 1883, Sir Squire Bancroft and his vivacious wife took the house. On her death, however, he went to live in the Albany and was long one of the favorites in clubland. This great actor and his neighbor, Lord Rowton, may be taken as typical figures of the old regime, mourned by Thackeray in his writings anent the footman, "Jeames, of Buckley Square.' Kipling, too, has immortalized the historic rectangle in "Tomlinson", whose "naked soul" went up to judgment after he "lay down and died, in his house in Berkeley Square."

One of the smartest houses in the square, is No. 19, at the corner of Bruton Street and with its entrance in that thoroughfare. It has always been a matter of dispute whether this house belongs to the street or to the square, with a general favor of the latter, as being more fashionable. In the time of the Regency it belonged to Mr. Andrew Barnard, and from 1850 to 1880 was owned by Sir William White Cooper, who was surgeon-oculist to Queen Victoria. He died in 1880 at the age of 70. Dr. Robert Cross, another eminent medico, succeeded him, and from 1900 onwards, the house was occupied by Mr. John Jameson, the well-known distiller.

In Bruton street, there is a direct link with Sir Walter Scott in No. 15, the furthest of the newly-acquired properties. This was the house of the Great (and second) Duke of Argyll, who was instrumental in suppressing the Jacobite rebellion in 1715, and having made himself mortally unpopular with his countrymen came to live in London and died in this house in 1745. Here it was that Scott set the scene of the pleadings of the intrepid Jeanie Deans, for her hapless sister, Effie, in his immortal "Heart of Midlothian", and it is by the pen of the romancer and certain of Pope's verses that Argyll's memory endures to-day.

Six years after the Duke's death, Horace Walpole stayed in the house. Later, the house passed, successively, into the hands of John Woolmore, Captain Hampden Turner and the Dowager Marchioness of Lothian. Sir Arthur Hobhouse, who succeeded her, was a kinsman of John Cam Hobhouse, and later was ennobled as Lord Broughton. He lived at No. 42 and is remembered by his strenuous championship of his dead friend Byron, against the attacks of the latter's wife, and also by his own lively memoirs. He is credited with having coined, during his own parliamentary experience, the now commonly-used phrase "His Majesty's Opposition".

NO. 17 BRUTON STREET ROYAL BIRTHPLACE.

THIS stately mansion was the home of H. R. H. the Duchess of York, "England's smiling Princess", prior to her marriage, and so came into special prominence. The interest of the British public reached its zenith, however, when the Duchess' first child, the popular Princess Elizabeth, whose golden-haired beauty and charming ways have endeared her to England's heart, was born at No. 17 Bruton Street, four years ago.

Next door but one is "Midlothian House", immortalized in the works of Sir Walter Scott, while many other interesting characters have left their mark on this section of fashionable Mayfair, the very hub of London's fashionable West End, through three centuries. The advent of the Canadian Pacific's new palatial hotel will be well in keeping with the best traditions of the historic site and will furnish London with an important contribution to its facilities for entertaining the travelling public.

SCOTT MEMORY

"Midlothian House," otherwise No. 15 Bruton Street, where Scott set the scene of the pleading of Jeanie Deans for her sister Effie, in his "Heart of Midlothian". It was for some years the home of the second Duke of Argyll. Inset: Sir Walter Scott.

"THE GROUCHER'S" HOME.

No. 16 Bruton Street was for many years one of the most stately town mansions in the West End of London. Behind a frontage of over 66 feet, it contained a wonderful series of imposing rooms, in the styles of the last three centuries, including a superb library in Louis XV style. It was for many years owned by the Earls of Granville, though they leased it at various times to Lord Cottenham, the Lord Chancellor and Charles Fulke Granville, author of the famous ten-volume Diary, and commonly known as "the groucher", on account of his saturnine temper. Latterly the house was owned by the Earls of Carnarvon, and later still by Mr. Henry Oppenheimer, the diamond-merchant.

Next door is Duchess of York's former home, No. 17, having been the property of the Earls of Strathnairn of Glamis Castle for some years. Here, too, Princess Elizabeth first saw the light of day. About 100 years ago, it was the property of the Dowager Duchess of Rendlesham, and later to Viscount Ebrington and Lord Strathden and Campbell.

Sir Squire Bancroft

The last three houses on Bruton Street require little mention. No. 18 was in the Berens family for several years and later owned by Mr. Vincent Vickers. No. 19 belonged to Lady Perceval, to Mrs. C. Richardson and the Hon. John W. Grey.

No. 20, nearest the corner, was tenanted as lately as 1840 by the redoubtable publicist, William Cobbett. Born a farmer's son, he crossed the Atlantic twice as a soldier, and by his busy pen and his eloquence in Parliament probably did more than any other English farmer to promote democratic Conservatism.

Many other famous names are associated with the Square, including those of Lord Rosebery, the Earl of Powis and Lord Northcliffe. The second Earl of Chatham, brother of "the bottomless Pitt", Lord Brougham; Charles James Fox, and Lord Clermont were also residents of the neighborhood.

Thus it will be seen that Berkeley Square is indeed one of the most historic sites in England, be it in the glowing 18th century at the height of its fame or during its latter, but no less interesting days.

Mayfair remains Mayfair, synonym for beauty and fashion, be it of the wig and sword period; the befobbed dandy days, the "gay nineties" or our own times. Madame is within a stone's throw of her shops and theatres; monsieur equally handy to clubland, and both are ideally situated for sightseeing and ready access to the shipping and transportation offices of the metropolis.

The arrival of the great new project, an hotel of some 600 rooms, all with baths, and modern public spaces fully efficient for the requirements of the Canadian Pacific's exacting standards, is typical of the march of the times. With a wide experience in hotel-building and management, the Canadian Pacific Railway will present London with something memorable in its hotel history.

Berkeley Square's story, as briefly outlined here, is one of the most interesting in civic histories of the world and the new hotel will just be another important phase of it.

COLLEGIATE CAST SCORES REAL HIT IN BROKEN DISHES

Annual Dramatic Presentation is Well Received By Large Audience.

REPEATED TO-NIGHT.

Appreciation of the Three-act Comedy Was Sincere and Most Generous.

(By Jeanette)

A large evening in the life of Cyrus Bunpsted was provided on the night that saw the action for the engaging three-act comedy entitled "Broken Dishes" that provides this year's vehicle in the annual dramatic presentation by members of the Literary Society of the Peterborough Collegiate Institute and Vocational School.

On that evening, which opened in precisely the same manner as hundreds of other evenings in the life of the henpecked and good-natured Cyrus, a domestic upheaval took place. His daughter left the paternal roof, his wife did a "volte face" which was calculated to change the current of his life for many years to come, and the Old Man of the Sea, in other words, Chester Armstrong, who had been riding Cyrus' shoulders for many a day, slipped off forever. It was a large evening.

The young people of the Literary Society who cleverly presented their play for the first time last night, with a second night promised for this evening, had almost a capacity audience in the large auditorium of the school. And appreciation of their interesting three-act comedy was sincere and generous.

Entre-acte numbers by the splendid school orchestra were also very finely rendered and much enjoyed, this group of talented young musicians plays with a verve and broad tone, a careful attention to rhythm and tempo that makes their bright music delightful. They played a Prelude an Air Varie, Nellie Gray, with a cornet solo by Harold Wilson; Arditi's famous Waltz, "Il Bacio", and, to send the audience home with brisk music ringing in their ears, the challenging cadences of a descriptive march, "Napoleon's Last Charge."

"Broken Dishes" is an amusing comedy of domestic life—that institution which is as old and universal as the human family. The cheerful, good-hearted husband and father, Cyrus Bumpsted, has married a scold who make his life miserable with her habit of harking back to regretful memories of the man she didn't marry, Chester Armstrong, whom she holds up as a piece of masculine perfection, possessed of all the qualities that her husband does not possess. She talks so much about this old suitor that she finally persuades herself and everybody else that she had made a dreadful mistake in her marriage. It is under the burden of this reiterated plaint on the part of his wife that Cyrus constantly labors.

But the kind gods intervene and on the evening in question, Fate brings to Cyrus a unique revenge.

The action of "Broken Dishes" revolves about the trials and loves and woes of the Bumpsted family and their friends. It is a domestic comedy in which the audience can see mirrored much of the everyday life of the ordinary family, but it brings into play many varied emotions.

The Ingenuous Cyrus

The cast is excellent and very well chosen. All show evidences of careful training and an enthusiasm in their own work that marks it with unbroken interest from the first to the last sentences.

Cyrus Bumpsted of course, has the stellar role, and Arnold Noftall shines in the part. He gives a wonderful portrayal of the little man with the tiny chin whisker and the spectacles, who strives to do everything right and whose constant bewilderment at the turn of events is expressed in the terms "Shucks!" and "Ain't that too bad?" His ingenuous remarks and his harassed appearance bring him plenty of merited appreciation. Events of great import play about the head of Cyrus Bumpsted that night, but always the spectre of the unwashed dishes in the pan dominates his mind.

Miss Adeline Rogow is a splendid foil for the good-natured Cyrus in her delineation of the role of the shrewish, good-looking Jenny, (Mrs. Bumpsted). She gives the part an air of unselfconscious sincerity that makes it outstanding.

Elaine, the heroine of the romantic episode that plays so large a part in the action, is the youngest daughter of the house. This charming role of the pretty and courageous maiden who finally sets things straight for her father, is in the very capable hands of Miss Helen Heffernan who gives it an atmosphere of appealing charm.

The two other daughters, somewhat of the "on the shelf' variety are very well portrayed by Miss Bertha Edmondson, as Myra Bumpsted, and Miss Irene Mark, as Mabel.

Then there is Elaine's suitor, Bill Clark, with Frank Sukloff giving a fine rendering of the role of the bashful swain who braves the wrath of the mother to see his loved one.

Sam Green, friend of Cyrus and a testy gentleman who follows the honorable profession of grave-digging, is James Turner, and the role of the Stranger (Chester Armstrong), is capably filled by Melville Robinson. Chester distributes century notes with great prodigality and departs as he came, with the valiant and courageous detective, Quinn, (Stuart Mackey) closely in pursuit.

Then, last but decidedly not least, comes that notable figure, the Rev. Dr. Stump, with Bert Munro in the part providing one of the high lights of the production. That very deaf and lugubrious gentleman, wearing a ramrod up his back and a pasty countenance, figures largely in the life of the Bumpsteds, but departs on his unhearing way without any regret. His appearance and demeanor sends the audience into spasms and he adds a ludicrous touch that makes the little scene between himself, Cyrus and the gravedigger, one of the best in the play. This occurs in the second act, which, contrary to precedent, has an extremely passionate denouement.

"Broken Dishes', which will see its second performance tonight in the Collegiate hall, is good fun and is splendidly presented by this cast of youthful amateur actors: It is a worthy successor to a long series of Literary Society successes.

The personnel of the school orchestra is as follows: A. M. Moon, B. A. Sc., conductor; A. J. Weams, B.Sc., assistant conductor; Miss Mildred Morphet, Maxwell Parnall, Gerald Dawson, Grant Breckenridge, secretary-treasurer; Stewart-Dawson, Percy Pickering, Burton McFadden, Bert Munro, George Mattice, Max Warne, Jack McKone, Keith Wightman, Robert Huffman, Jack Borland, assistant secretary-treasurer, Harold Wilson, David Wilson, Lloyd Wells, Vernon Armstrong, Edwin Wand, Hugh Waddell, Kenneth Kemp, Harold Kitney, assisted by Jack Thackeray and William Widdess (ex-pupils) and R. Beach (drums).

SEED FAIR TO BE RECORD BREAKER

Entry List is Large and Call For Prizes Has Been Heavy.

PLAN BIG BANQUET.

The annual Seed Fair which is being held in Peterborough the week fater next promises to be a record breaker, as the number of entries so far is great and the call for prizes is heavy.

The most important part of the convention will as usual be the banquet which will be held in conjunction with the Kiwanis Club, and will take place in the Empress Hotel at 7 p.m., Thursday, March 12.

The Fair will be interesting to the visitors not only because it is the largest exhibit of grain ever held in the district, but also because some seed cleaning machinery will be in actual operation for the first time in this part of the province.

A Greenwich, England, attorney has been appointed his Majesty's chief steward and bailiff in his district, the office carrying the right to act as official ale taster.

CHENHALL RESIGNS AS CONDUCTOR OF PETERBORO MALE VOICE CHOIR

Thomas Phillips Has Been Appointed as the New Conductor of Choir.

DUTIES START TUESDAY.

Martin Chenhall, A.R.C.O., has resigned as conductor of the Peterborough Male Voice Choir. He has had the matter under consideration for some weeks, and the members of the Choir, after prolonged discussion and efforts to induce Mr. Chenhall to reconsider his decision, finally and regretfully accepted the resignation at the last business meeting.

The executive has succeeded in getting a recent comer to the city to accept the position. The members of the Choir confirmed the choice, and unanimously elected Thomas Phillips, organist and choir master of St. Andrew's United Church, as conductor of the choir, and he will commence his duties next Tuesday.

Mr. Phillips is a Lanchashire man and has spent most of his life around Musical Manchester. For a period of twenty-one years he laboured as organist and choir master to advance the cause of music in this portion of the Old Country.

It is interesting to note that one of the present members of the Peterborough Male Voice Choir was surprised to find that Mr. Phillips had been organist at the church in which he was baptised, brought up, and was a choir and church member.

Mr. Phillips has been associated with church and choir work since he was a boy, and for twenty-five years has been organist and choir master in various centres.

In several of the churches where he held office, he organised choral societies and male voice choirs, and still has the programmes of the concerts then given.

The testimonials given to Mr. Phillips during all these years speak in the highest terms of his ability.

The choir is fortunate in securing such an experienced and capable leader, and it is certain the organization will maintain the high position it has obtained in the musical life of the city.

It is confidently believed that a bright future is in store for the choir and active steps are being taken to enrol new members. There is plenty of enthusiasm among the men, and a programm of splendid music is being rehearsed in view of engagements in the near future.

All old members and others intending to join are urged to be present at the Paragon Hall next Tuesday at 8. p.m. to meet the new conductor.

W.M.S. ENTERTAINED BY MRS. G. SAVIGNY

Stewart's Hall Young People Meet—Sunday School Banquet Held.

The W.M.S. of Stewart's Hall were entertained at the home of Mrs. Gordon Savigny on Thursday afternoon for their February meeting, when the program was in charge of Mrs. George Hanbidge, vice president of the Society.

A splendid and detailed report of the W.M.S. Presbyterial of the United Church held in Trinity Church at Peterborough was given by the two delegates, Mrs. W. W. Dawson and Miss Gertrude Thompson. A very instructive address on "Prayer" was given by the pastor, Rev. A. E. Thornley. This was followed by the service of refreshments.

Y.P.S. Meets

The members of the Y.P.S. met on Monday evening, when the members responded to the roll call with a verse from their favorite poet. Alex McNaughton sang a solo and Fred Deyell gave a reading, with Miss Helen Savigny contributing a piano solo. Mrs. W. W. Dawson gave the topic after which W. W. Dawson, Lyn Stewart and Mrs. G. Savigny gave a short address on some phase of the topic.

After the closing exercises, the social committee entertained with contests and games.

Annual Meeting

The annual Sunday School meeting was held in Stewart Hall recently, when a banquet was served at which a very liberal offering was received for the support of a Bible woman in Korea and a child in China.

During the supper hour music was supplied by Miss Helen Savigny, Miss Barbara Dawson and Stewart Dawson after which devotional exercises were conducted by Rev. Mr. Thornley and O. Stewart.

Mr. Pinnock field secretary of the Upper Canada Bible Society, gave an interesting address on the work of the Bible Society. Miss Gertrude Thompson and Miss Marion Muir sang a pleasing duet, bringing the meeting to a close with prayer.

Hoodlums Kill Negro Three Others Escape

NEW ORLEANS, La., Feb. 28. — (CP)—A group of hoodlums shot a Negro from Florida to-day and frightened three others who took to their heels under gunfire as the longshoremens' strike continued here.

The shooting occurred some blocks from the river front but police blamed strike sympathizers as the Negroes had just left a freight train arriving from Ocean Springs, Mississippi and were questioned by their attackers whether they had come here to work on the river front.

A little later Patrolman Andrew Gervais, on duty at front street near the wharves, reported a sniper shot at him from a vacant house. The bullet went wild and gunman escaped.

ACID causes Headaches

WHEN there's too much acid in your stomach, you must force yourself to work, and even pleasures are too great an effort. Appetite lags; the digestion is poor; the whole system suffers.

Laboratory tests show an acid condition is due to errors in our modern diet. But you need not wait to diet your way out of the trouble!

Take a tablespoonful of Phillips' Milk of Magnesia.

This will neutralize the excess acid instantly; make you feel like a new person in just a few moments.

Take a little whenever heartburn, sick headaches, nausea, flatulence, indigestion or biliousness show the digestive system is becoming too acid. Whenever you are taking cold or feel sluggish, weak, constipated. Phillips' Milk of Magnesia has a gentle, laxative action.

Delightful to take. Endorsed by physicians for 50 years and prescribed everywhere for men, women and children. The genuine is always a liquid; it cannot be made in tablet form. It always bears the name Phillips for your protection.

Made in Canada.

PONTYPOOL Y.P.L. MEETS IN CHURCH

Members of I.O.O.R. Hold Most Successful Social Evening.

PONTYPOOL, Feb. 28 (Examiner Correspondence).—The regular meeting of the Y.P.L. was held on Tuesday evening in the basement of the United Church, when the President, Miss Ilma Shea was in the chair.

After the usual devotional and business period, the fourth vice-president, Miss Laura Shea, took charge of the meeting, when the program consisted of community songs, reading of the life of Pauline Johnson by Muriel Fiske, two of her poems being recited by Miss Dawn Sloman and John Payne. A contest was enjoyed and candy was served to the members. The next meeting will be in charge of the Christian Citizenship Department, with George Simpson as leader.

I.O.O.F. Meets

The members of I.O.O.F. No. 296 held a successful social evening in their hall on Wednesday night, when dancing was enjoyed. The proceeds will be used for charity. The next dance will be held on March 11.

Celebrate Anniversary

More than one hundred friends of Mr. and Mrs. M. Bowens gathered at their home on Monday evening to celebrate with them their china wedding anniversary. The evening was spent in cards and dacing and during the evening, Mr. and Mrs. Bowens were presented with a set of dishes, clock and smoking stand. Both made suitable replies, thanking their friends for their kindness.

SUCCESSFUL BRIDGE IS HELD AT DELORO

Marmora Ladies' Aid Has Charge of Evening's Entertainment.

(Examiner Correspondence)

MARMORA, Feb. 28.—A most successful euchre and bridge party was staged at Deloro on Wednesday evening by the local circle of Marmora Ladies' Aid. The homes of G. O'Neill and W. Chrysler were placed at the disposal of the euchre entrants while bridge players were accommodated at the homes of F. A. Bapty, R. A. Elliott and H. R. Haacke and the Company House.

The play offs for bridge were staged in Deloro Hall, the following qualifying to enter: F. Leal, W. M. Regan, A. V. Yates and L. Bailey and Mesdames E. O'Connor, L. K. Crawford, and W. Brown and C. L. Quinn.

The successful players were: Ladies—1, Name omitted by request; 2, Mrs. L. K. Crawford; Gents—1, F. Leal; 2, W. M. Regan.

At euchre, T. E. Laycock and A. Loveless were winners in their respective series and upon drawing, A. Loveless took first prize and T. E. Laycock received second. Mrs. C. Nichol and Mrs. W. Chrysler win their respective series and upon drawing, Mrs. Chrysler was awarded first prize and Mrs. Nichol, the second. A dainty lunch was served at the close and round dancing was also indulged in.

PUBLICATION OF VARSITY BANNED

(Continued from Page 1)

The Varsity shall be suspended for the remaining part of the session and in so doing, concurs in the action already taken by the joint executive of the students' administrative council."

The council's statement read: "At the meeting of the joint executive, students' administrative councils, it was decided to suspend publication of The Varsity as from today. Salary cheques for the remaining issues will be sent to members of the staff on Saturday. The joint executive regards the matter as closed."

Reports during the day that Allan, who is in his junior year, would be expelled from the University, that he would be arrested on a charge of blasphemy, that he would be the principal witness in a probe, all seemed to be effectually scotched by the succinct termination of the council's statement.

From the sequence of the meetings of the council and the Caput and from the way in which their statements jibed, it appeared a logical inference last night that the Caput had done one of two things at its afternoon meeting. Either it had decided to take no action except what the students' council decreed or it had agreed that suspension of the paper was sufficient punishment but instead of so enacting, had unofficially suggested this course to the council as the most agreeable one to all concerned.

Whatever it did, the Caput adjourned and the students' council met shortly afterwards at 5:30 o'clock. The council then decided on suspension and, of course, communicated this decision to the Caput, as the latter's resolution shows. The Caput then passed its resolution confirming the council's decision.

It was a busy day at the university. The Caput convened 15 minutes after the bonfire that was intended "to purge the university" of the editorial comments of the Globe and Telegram. That was at 2:30.

See "The Princess and the Plumber" at the Regent Theatre, on March 4th, 5th and 6th.

An American company has just opened a tire factory ner Buenos Aires, Argentina.

More than 1,000,000 tons of coal were carried by rail from Kentish collieries in England last year.

Federal railways of Austria have just placed orders for 30 steam locomotives which will cost $1,000,000.

WEEDS LIKE MICE SERIOUS MENACE

(Continued from Page 6.)

for some reason or other he is unable to keep up continual vigilance the toll soon mounts up.

Enormous Loss

Enquiries just completed by the writer and covering every Province revealed the fact that weeds were responsible for a total loss of between $150,000,000 and $200,000,000 last year. There was a direct loss of well over a hundred million dollars, even at present low values for grain, in crop actually displaced or killed out by weeds, while the remainder of the bill was made up of freight charges for carrying weed seed along with grain, clover and other crops, loss of moisture, depreciation of farm values due to weeds, and the increase in the cultivation necessary where these soil robbers were present.

Two hundred million dollars is quite a respectable sum for a young country like this to spend on something we have no use for, something in fact we would much prefer to be without. This money would go a long way at present in relieving our present depression. In fact we might easily argue if this needless waste along with a few others had been eliminated Canadian agriculture might have been able to show a substantial profit even in a year like the one we have just come through.

Worse Menace at Present

During a time when business is booming the weed has no defender, but in a period like the present when efficiency must be pushed up to the highest pitch, when every acre must be worked to the limit if revenue is to show a margin over cost, the weed is still more of a menace. Fortunately this is one of the factors over which the farmer has control. Even if the field over the line fence is dirty, it is possible, through proper methods to keep your place free, according to W. G. Bell of the Kemptville Agricultural School, who has had a good deal of experience with this sort of thing.

In the first place, this authority and others point out, the land must be cleaned up. There is little object in sowing clean seed on weed infested land. Careful, pre-seeding cultivation will clean up ordinary fields, while partial summer fallow and the sowing of smother crops like buckwheat, rape and turnips are recommended for very bad patches of such tenacious things as twitch and sow thistle. From then on the practice is a simple one. Legally the Dominion Government only allows tested seed to be sold in this country and only seed that comes up to a certain very high standard of purity and germination. It is up to the buyer to make sure that he is getting this government tested seed.

Clean clover seed and clean seed grain, plus a clean seed bed, will give an increase in yield over the other kind of anywhere from ten to twenty five per cent at practically no more cost. This has been proven over and over again in experiments at Guelph and other institutions, and of course it is perfectly natural because instead of sowing a mixture actually containing weeds and a large proportion of off sized and off variety seed, only clean, plump, vigorous seed of one variety, tested and approved by Government authorities, is used.

COUNTY COUNCIL ASKS MINISTER

(Continued from Page One)

courage the government in the construction of the new highway.

"This is a serious matter that means a great deal to many ratepayers in the county and especially in the eastern section. If the work is stopped this year, it is hard to tell when it will go ahead again."

Reeve Sanderson then mentioned the employment which would be provided in the building of this road. He said he knew quite a number of men who were looking forward to the work which was expected on the highway this Spring.

"Everybody surely isn't going to drop hands and say we'll do nothing this year," Reeve Sanderson continued. "That is what this motion means, and yet deputations are going to the government asking that employment be started.

Mr. Henry said last fall that this highway might not be paved for ten years. The Department has planned to build a good gravel road with an oil-bound top like the road from Stirling to Marmora. That has not cost a terrible lot. A whole stretch of pavement is not going to be put down at once this year.

Money Will Be Spent

Later Mr. Sanderson said: "Do you think the Government is going to stop work everywhere this year? They are not. We will have to be content with driving over rocks and stones while the other counties will have the improved roads that we are helping to pay for, and that will be built this year. The other counties have been drawing the money from the Government. Are we going to keep on the way we have always been?

Reeves Hawthorne and McIntosh replied that the contract east of the city last fall on the new highway had provided very little work for local men. Machinery had left little work to be done by hand.

Reeve McIntyre of Otonabee said he agreed with Reeve Hawthorne. He wasn't satisfied to go on with the highway until the county's share of the cost was reduced to 10 per cent. from the present levy of 20 per cent.

Reeve Leahy was in favor of shelving the highway work "until times get better."

"We are paying around $28,000 a year now, and if the new job goes on the bill will be bigger," Mr. Leahy said.

"It is a good time to take a recess in spending money until there's a change, anyway," was Reeve McIntosh's comment.

Mr. Hawthorne remarked that hogs were down to six cents and cattle sold for half their price of last year.

Deputy-Reeve Waterman (North Monaghan)—You can't make the memorial to the government too strong because the Chamber of Commerce will jump right on to it."

Warden Tanner and Reeve Montgomery of Norwood endorsed the view expressed by Reeve Sanderson, that the council should take a broad view of all sides of the highway work. They were given an attentive hearing and then were disclosed as a conspicuous minority.

INTEREST IN GOOD BREEDING STOCK

(Continued from Page 6.)

wisdom of starting work with cattle is very evident.

Immediately after organization the Association secured the co-operation of the various townships of the county who obtained a census of the bulls being used. This census showed the breeding of these animals, and the totals for the county indicated a great source of efficiency in cattle production. The following figures show the percentage of bulls in the three main groups: Pure-bred registered bulls, 46.5 percent; pure-bred unregistered, 23 percent; grades, 30.5 percent. When it is realized that good cattle can only be produced from pure-bred animals and that in some counties the percentage of such bulls is well up to 100 percent, it will be seen that there was much work to be done in lessening the number of grades being used.

Fieldman Engaged

Through the Ontario Department of Agriculture, the services of William Knox, formerly a prominent cattle breeder of the county, were secured for the work of livestock fielding. The fieldman's services have since been available to any farmer in the county who desires assistance in securing a suitable bull. He has also spent considerable time visiting the grade bull owners in four of the townships of the county and has encouraged many of these men to procure better breeding stock.

The Bull Bonus Policy, which became effective after the organization of the Association, has enabled many to pay the extra price necessary to procure a good animal. The following figures give some idea of the amount of work done and the results obtained from the visits to the grade bull owners in the four townships referred to: Number of personal calls made by the fieldman, 101; grade bulls already disposed of, 18; Number of pure-bred bulls ordered, 40. Besides these results, some definite returns have been obtained from the work generally in the county: Bulls inspected and listed for sale, 80; bulls placed through fieldman's work, 33; grade bulls disposed of or replaced as a result of the work of the fieldman, 27.

Improvement Noted

Because of the publicity this work has given and from other causes, some definite moves toward livestock improvement is noted in the county. Because the Association's approval is only given to bulls of good quality and breeding, the breeders are paying more attention to the raising of cattle for sale. Several new pure-bred herds are being established. There is an increased interest in the eradication of tuberculosis and other cattle diseases.

It is hoped that in a few years the standard will be raised to 80 percent pure-bred bulls, when the county may be declared a "Better bull area." There is, however, considerable work to be done along this line yet, and the services of the Association and its fieldman are still available to the farmers of the county. The fieldman's services are free of charge, and are briefly as follows: He keeps a list of approved bulls of all breeds that are for sale. He will assist any farmer desirous of purchasing a bull to purchase an animal that will suit his needs. When an owner of cattle is purchasing his first registered bull and when that animal is of good quality, he will recommend that a bonus of 20 percent of the purchase price will be paid to the buyer. These services are available free of charge in connection with any breed and to any owner of cattle in Peterborough County.

ITALIANS ACCEPT

(Continued from page one)

tonnage figures or the category arrangements.

Mr. Henderson received the communicato, which apparently eliminates at least for five years the threat of an Italian-French naval race, at the British Embassy.

The London Naval Treaty, signed last April, prescribes limitation and reduction of naval armament for the United States, Great Britain, and Japan, and agreement on some phases of the naval armament problem among those three nations, France and Italy.

The first three signatories are parties to the limitation and reduction agreement. France and Italy signed only those sections relating to "humanization" of submarines, a capital ship holiday and certain other technical phases. December 31, 1936, is set as the terminating date of the Treaty.

Under the limitation clauses 8-inch gun cruiser tonnage is fixed at 146,800 for Great Britain, 180,000 for the United States, and 108,400 for Japan. Six-inch cruiser tonnage: Great Britain, 192,000; United States, 143,500, and Japan 100,450. Destroyers: Great Britain 150,000; the United States 150,000; Japan, 105,500. Submarine tonnage is equal at 52,700 for each of the three.

Safeguard Clause

There is a safeguard clause which, while it does not specifically mention France and Italy, was inserted to protect Great Britain against building by those powers. It proves that if, during the term of the treaty, the security requirements of any signatory are materially affected by new construction by powers other than the signatories, that party may notify the other signtories as to the increase required in its tonnage, and the other signatories thereupon may make proportionate increases in their own tonnage.

Italy declined to join a five-power pact unless France recognized the principle of Italian parity with her navy. France declined to meet this condition, which meant French inferiority in the Mediterreanean, since France is obliged to keep ships in colonial service, an obligation which does not rest upon Italy.

Henderson for President

PARIS, Feb. 28 (C.P.)—As a sequel to the apparent success of the Franco-British-Italian naval negotiations, Rt. Hon. Arthur Henderson, British Foreign Secretary, to-day was mentioned widely as a candidate for the Presidency of the International Disarmament Conference, to be held in 1932.

LARGE ACREAGE

(Continued from Page 6.)

cidentally over which he has absolute control, the results are bound to be disappointing and if dirty seed is used may entail endless labor on the part of himself and his children.

Grow Only the Best

"Weeds in market hay are regarded as so much dockage and the market grade and price are discounted in proportion to their predominance in the mixture," warns W. R. White of the Feed Division at Ottawa. With competition becoming keener in the commercial hay markets of this country, it is of vital importance in these days of low returns to have something of the highest quality. Poor hay, incidentally, is a drug on the market in most seasons. But hay grown for commercial purposes is not the only thing, by any means. That produced for feeding on the farm is just as important and not only is it advisable to keep this as lean as possible by using Government tested seed, a clean field and a clean crop, but the feeding value of the crop to be produced should also be considered. In this connection the common legumes, that is, Alfalfa, Red Clover and Ashke, should have a large place in any home hay mixture planned, and a particularly large place on dairy farms.

OBITUARY

ALBERT L. DUNFORD

LAKEFIELD, Feb. 28 (Examiner Correspondence). — The death occurred at Tory Hill on Tuesday of Albert L. Dunford at the age of 67 years. He was the son of the late Mr. and Mrs. Richard Dunford of Burleigh.

He is survived by his wife and one son, Fred E. of Peterborough; four brothers, W. J. Dunford of Lakefield, George of Dummer, Fred and Joe of Tory Hill, and four sisters, Mrs. Corkell of Hartney, Man.; Mrs. Walter Payne, and Mrs. Alex. Macrae of Essonville, and Mrs. George Miller of Wilberforce.

The funeral service was held on Thursday afternoon from the residence of his brother, Mr. W. J. Dunford on Chippewa street, with Rev. W. J. Creighton and Rev. S. A. Kemp officiating. The cortege proceeded to Lakefield cemetery for interment.

The late Mr. Dunford lived much of his life in Dummer township and there he married Harriet Lemay, who survives him. He moved about seventeen years ago to Lakefield and has resided in or near the village practically ever since. He was an Anglican and was for years connected with St. George's Church at Hall's Glen.

JOHN MACDONALD

CAMPBELLFORD, Feb. 28 (By Examiner Staff Correspondent). — The funeral of the late John MacDonald of Warkworth was held from the family residence on Monday, February 23, with interment being made in Mount Pleasant Cemetery, Campbellford, the Rev. H. Bell, United Church minister of Hastings, officiating. The pall bearers were six nephews of the deceased: William Clark, James Ross, George Walker and Wilson, Frank and Arthur MacDonald.

The late Mr. MacDonald, who died on Saturday, February 21, after an illness of only one week, was in his 77th year. His wife, Mary Elisabeth Clark pre-deceased him several years ago.

Surviving are two sons, William of Percy township and Allan at home; three daughters, Mrs. Charles Hill of Coral, Mich., U.S.A.; Mrs. Ezra Cornelius of Warkworth, and Verna at home, and one sister, Mrs. Charles Ross of Warkworth.

MRS. MATILDA LAMB

(Examiner Correspondence)

YOUNG'S POINT, Feb. 28.—On Wednesday morning the death occured at the Rectory, Young's Point of Mrs. Matilda Lamb, mother of Mrs. (Rev.) E. C. Moore at the age of 82 years.

The week previous while coming downstairs, Mrs. Lamb took a dizzy spell and fell a few steps. Owing to her great age the shock was so severe she never recovered.

Mrs. Lamb leaves to mourn her loss, five sons, and six daughters, a great number of grand children and several great grandchildren.

At the grandmother's party held by the Woman's Institute last October, Mrs. Lamb was the oldest grandmother and also had the greatest number of grandchildren. Since coming to Young's Point Mrs. Lamb has made many warm friends in the village who sincerly mourn her death.

The funeral left Young's Point at 8 o'clock Friday morning, motoring to Lindsay and on to Fenelon Falls and then to St. Peter's church and cemetery where the funeral service will be held. Her remains will be laid to rest beside those of her husband and son in the family plot.

CATTLE, GRAIN AND PRODUCE

CHICAGO GRAIN

CHICAGO, Feb. 28.—Lessening of nervousness over proposed large-scale export selling of United States wheat at present prices had a conspicuous steadying effect on grain markets yesterday. Wheat trade leaders emphasized that moves to dispose of American seaboard stocks of wheat would be helpful in averting congestion of storage facilities later. Announcements that banks were asking increased margins on wheat loans had no market effect, the rate changes being looked upon generally as a seasonal step toward a new crop basis.

Wheat closed firm, unchanged to ¼c higher, corn at ¾c decline to ¼c advance, oats ⅜c to ⅞c off, and provisions unchanged to a rise of 10c.

MONTREAL PRODUCE

MONTREAL, Feb. 28.—Butter and cheese prices declined on the produce and dairy market here yesterday, while egg and potato quotations were unchanged.

Regraded Eastern Townships and fresh Western No. 1 butter lost ¼ of a cent, at 31¾c to 32c a pound. To retailers, solids were 34c and prints 35c a pound. Receipts were 20 boxes.

Winter colored cheese declined ¼ of a cent, at 14¾c to 14⅞c a pound and winter white was unchanged at 13c a pound. Receipts were 40 boxes.

On the egg market, British Columbia fresh extras, in carlots, were quoted at 32c, firsts at 28c to 28¾c, and pullet extras at 27c to 28c a dozen. Western Prairie and Ontario extras were quoted at 31c, firsts at 28c, pullets at 26c and seconds at 21c to 22c a dozen. Storage firsts, in carlots, were 18c to 19c, and seconds 16c to 17c a dozen. Quotations to retailers were 701 cases.

New Brunswick Green Mountain potatoes in carlots were quoted at 75c per 90 pounds bulk, and to retailers 85c per 80-pound bag.

WINNIPEG GRAIN.

WINNIPEG, February 28. — Chicago interests commenced a heavy selling campaign on the wheat market here yesterday, forcing prices down 1c, but support appeared around mis-session, and heavy buying carried values up again until closing quotations were ¼c lower to ⅛c higher for the day.

Commission houses were responsible for the buying support, and it was believed that half a million bushels were purchased for export. The Chicago selling drive carried May wheat to 5.⅜c, but it came back to close at 60⅝c bid. July ended the day at 61¾c per bushel, and October at 64¼c.

Cash wheat figures were practically unchanged, with coarse grains following the trend in wheat.

Futures:

	Open	High	Low	Close	Prev. Close
Wheat—					
May	60⅝	61	59⅝	60⅝	60⅜
July	62	62½	60¾	60¾	62
Oct.	63¾	64⅝	63	64¼	64
Oats—					
May	30¼	30⅝	30¼	30⅜	30⅛

Oct.	31⅞	32¼	31⅝	32¼	31⅞

QUEENSBORO

Messrs. Bruce Leslie and Arthur Wyatt are in Belleville this week on the jury.

Mrs. John O'Rorke and Miss Jessie Delvea spent a few days this week visiting friends around Eldorado.

Miss Annie Thompson was in Tweed on Wednesday, on business.

Miss LillianGroves has gone to assist her sister, Mrs. Percy C. Reynolds settle in their new home near Foxboro.

The Leadership Training class met on Tuesday afternoon at the home of Miss Ida McCaw.

At a meeting of the Sunday School executive held on Tuesday evening at the home of Mrs. C. B. Hamm it was decided to purchase eighteen new Canadian Hymnals and to make a small reduction in the number of papers being taken, also to introduce the graded lessons in the primary classes.

See "The Princess and the Plumber" at the Regent Theatre, on March 4th, 5th and 6th.

NEW . . .

DE SOTO VALUES

. . a new six . . a new eight

The attributes of high quality, so long associated with De Soto automobiles, are more strongly emphasized than ever before in the new Six and Eight displayed for the first time this week. Even more than their illustrious predecessors, these latest De Sotos are distinctly the quality cars of the moderate-priced field. ¶ The new De Soto Six, now offered for public inspection and trial, is ahead of its time in all qualities that are in greatest demand. It is faster, smoother and more powerful; it is handsomer in line and appointments; it is durable and economical of fuel, and it achieves additional safety through a new double-drop frame that permits it to be built exceptionally close to the road, without sacrifice of interior roominess. This lowness adds to its beauty as well as its safety — it gives the car a lithe, swanky appearance that is unapproached in any car of corresponding price. Beauty of line is also enhanced by a slender-profile radiator, a longer hood and single-bar bumpers. ¶ Bodies are of steel, welded into one solid piece, without joints or seams to squeak and rattle. ¶ The new De Soto Straight Eight, companion car to the De Soto Six, also has been improved to meet present demands. The engine now develops 77 horsepower, insuring a supply of smooth power that is more than ample for the requirements of ordinary driving, with a generous reserve for the extraordinary demands of hill climbing and high speeds. ¶ A slender-profile radiator and longer hood give it an appearance of rakish lowness. Improved spring design, together with four hydraulic shock absorbers, provide exceptionally easy riding qualities. The many fine mechanical features that won this car instant success are retained, and the Unisteel safety body is unchanged in structure, with improvements in appearance and fittings.

NEW PRICES AND NEW VALUES

THE NEW SIX $965 and up | THE NEW EIGHT $1230 and up

All prices f. o. b. Windsor, Ontario, including standard factory equipment (freight and taxes extra)

CHRYSLER PLYMOUTH DESOTO

THE CANADIAN-BUILT DE SOTO FOR CANADIANS

WOMEN'S INSTITUTE WEEKLY COLUMN

A goodly thing it is to meet
In Friendship's circle bright,
Where nothing stains the pleasure sweet
Or dims the radiant light.
No unkind word our lips shall pass.
No envy sour the mind,
But each shall seek the common weal,
The good of all mankind.

MILLBROOK

In discussing the subject of home furnishings at an Institute gathering, one member, whose husband kept a music store, advanced a practical suggestion when she declared that the piano, in any home, should be placed with its back against an inside wall since the tones, strings, and mechanism are all affected by temperature changes, and naturally these differences are more directly communicated from an outside than an inside wall of the house.

Moreover, as another member strongly musical in her tastes, insisted, the instrument should be set where the light from a window falls as directly as possible on the music rack. A floor lamp, of course, is a convenience, almost a necessity, for evening playing, but especially in rural homes where electric light is not available it is advisable to have as much benefit from the daylight as can possibly be arranged for. Even in city and town homes central lighting, as a rule, is of but little use for the player as in almost all cases the piano occupies a corner of the living-room far removed from the central fixture.

As the discussion seemed to centre about music in the meeting referred to, with a bit about books thrown in, the president passed on an axiom she had been memorizing the previous week: "No home is ideal without music, good books, and pictures chosen with taste. Vision, culture, and good fellowship in the family circle are nourished by these important adjuncts to the home furnishings."

"A home without books is like a house without windows," another quoted, and yet a third added: "The gift of a book is always in good taste—an evidence of your own, and a tribute to your friend's."

The correct table linen to use, on various occasions, was a topic of absorbing interest to Institute women, the care and exactness with which the cloth is spread being strongly emphasized.

A slip-shod looking table, so far as its setting is concerned, can never be atoned for by any number of correct or expensive appointments, hence the need of having the centre fold exactly in the table centre, with all sides hanging evenly and of the same width. Of course, for formal dinners the damask cloth is the most appropriate cover, with dinner napkins for use with the same, while for less formal affairs such as luncheons, more of the polished surface of the table may be visible, with lace and linen cloths, luncheon sets in gay colors, and the luncheon-sized serviettes, according to personal taste and choice.

The small serviette, folded in quarters, is laid flat on the plate, or it preferred, at the left side beside the forks. It should match the cloth.

Most Institutes nowadays use the plan of having the table set at the meetings when discussions such as the above are on the program, the girls who belong delighting in the task of laying the cloth, etc., for the formal, and then for the informal, meal, and the practical demonstration fixes facts in the memory as no amount of talking will do.

WARSAW

For over fifty years there has been a few scattered local rural women's societies, which received a certain amount of state aid. Rural and urban women belonged to them. Domestic science was taught in the schools, and in 1920, the women teachers of Domestic Science themselves appealed to the housewives throughout the country to form an organization.

Denmark is an agricultural country. The country population far outnumbers the town, the farms are small, and even country people live close together. In nearly every village there is a sort of institute where all sorts of gatherings take place, mostly of a social nature. A people's high school is within the reach of nearly every one. This cultural or social side of life was fairly well looked after, for both men and women, the men seemed to lead, and the special needs of women as home-makers and housewives received but scant attention. However, the president of the Association of Domestic Teachers felt the need of something that meant more home to the women in the homes and through her lectures she succeeded in interesting many different circles of people which resulted within a year in the formation of an organization wholly for women, the Associated Danish Domestic Societies, which in nine years had seventy local organizations with about 7,000 members.

In 1928 six ladies were sent out to conduct classes. There were about 20,000 women and girls who attended. These consultants are recognized by the government which pays forty per cent of their salaries and necessary expenses. Public interest in domestic matters is steadily increasing among housewives and young women. When we realize the total population is only three and a half millions, we feel a good proportion of the women are already reached.

The organization has a set list of aims:

To guard the interests of housewives to further economy in the home and in the community by courses of study and lectures.

To promote home industry among young men and young women.

To buy co-operatively.

To work for the increased utilization of gardens.

To conduct food tests.

Thees aims are not merely written or spoken ideas to be talked about and dropped, but are acted upon. In fact they are but the national ideas of long standing, made stronger by the women's organizations and we can see how they succeed when we read so much of Danish products. If Canadians exerted themselves as do the Danes, not by hard labor, but by better labor, they would not need to fear Danish competition.

CAVAN

We are often told that "Agriculture is the great basic industry of Canada." Others may possess importance, but none reaches the same standing or affects so many people. It has always been the case that when agriculture suffers depression, manufacturing is similarly depressed. If those responsible for the direction of national affairs would bring back the prosperity of recent years, their first business therefore, should be to see that farmers are able to command better prices for their products and that their purchasing power is thereby increased. Until this is done, business will continue in a more or less depressed state, no matter how high tariff walls are raised or how many millions of dollars are distributed in unemployment relief.

Times are hard, and no persons realize it more than the members of the Women's Institute, who are, in the majority of cases, homemakers in a rural community. Dwight W. Morrow says: "It comes down to whether this generation can stand up the way their father and mothers did, or whether they are going to take the hard times buffeting, lying down."

Farmers should keep books and see to it that in normal times the farm does pay an income to the farmer, just as any other business is expected to pay an income to its owner. The income for most of us at the end of the year won't be any more in dollars and cents, than the income of a skilled laborer, but we have had much of our food at a minimum cost for which the laborer must pay hard cash. With income and outgo correctly balanced and due allowance made for home grown food consumed by the family there are not many workers better off than we are.

In many ways, we could face hard times, just as our pioneer forefathers did, by simply living on the produce of the farm. We could do it, and perhaps our health would be better instead of worse. Many of the manufactured luxuries in food are not as health-producing as some of the products of the farm despised because so common. Our good Canadian apples are as beneficial to our health as imported oranges. But with the advance of civilization there are many things for which we must have hard cash: taxes, telephones, cost of schooling for our families, insurance, and many other things too numerous to mention.

Ways and means must be found to meet these ever mounting current expenses. However we are anxiously waiting to see if the expenses may be cut down and better prices realized in 1931. One of the first lessons farm women have to learn is pride in our calling. Spring is just around the corner and with it our programs for regular meetings take on a more optimistic note. Soon our annual exchange of seeds, plants and roots will take place, and we will begin planning for our gardens, and the usual Spring improvements around our far homes.

Even though money is scarce we still have

"Riches"

The miser has his money;
The rich man has his car;
I've neither cars or silver,
But I am richer far,
For I own the gold of sunset,
And the rose-grey of the dawn,
And whatever bit of beauty
My gaze doth linger on.

Last night it was fair twilight
In her gown of silvery grey,
That set my pulses stirring
As she passed the end of day.
But ere her form had vanished
O'er the top of distant hill,
The beauty of the night-time
Had set my soul a-thrill.

Let the miser have his money,
His craven soul of fear:
I ask for nothing better
But that the skies be clear.
Ah, here's a vagrant breeze
Come to take me by the hand,
With my face towards the sunset.
I am king of all the land.

HAVELOCK

The following paper was given by Mrs. J. Seabrook at a recent meeting of the Belmont Women's Institute:

"St. Valentine was a Roman Bishop and before the tenth persecution rose ot its height in 303 AD he was very busy among his people, preaching and visiting and especially interested in work among the young people. He revived among the young people the "Feast of Juno's Tablets." We do not know on what day it was held. Juno was the Roman Goddess of marriage, all Roman brides making their wedding vows at her altars. Among the early Romans the boys of a community would write the names of all the girls on tablets which were put in a chest consecrated to Juno. Then each young man took one out without looking at it and then he went to see the girl whose name was on it, taking a small gift and it was consideerd the proper thing that they should remain friends for one year.

It was a kind of trial betrothal arranged as the early Romans believed by the gods of love and marriage. While some of these tablets came to nothing, the majority grew into real betrothals and happy marriages. The old Romans highly approved of lottery of love as it gave the plain girl too shy to show her many virtues, equal chance with her lovely, lively sister, for the young man who drew her name was bound in honor to seek her society for that year and very probably get to know her and appreciate her so that he would want to make their bethrothal real.

The custom was eagerly taken up by the young people of St. Valentine, even after the terrible edicts of Diocletian had made it death to believe in Christ and the Christians were meeting at night for worship in the gloomy Catacombs, the pleasant play of the love lottery was kept up.

Then came the dark year of 311 when so many martyrs died. St. Valentine was preparing the tablets when he was arrested and his last message to his friends was not to sorrow for him and not to drop the merry love lottery because he was dead. "For Godly mirth is good for the health of the body." He was beheaded on February 14, 311 AD, dying like the brave old Roman that he was.

Valentine comes from the same root as "valiant" and his friends not only kept up the old custom but they kept it on the day when according to the early church his real living did begin; he having gained release from this mortal flesh.

In 610 AD the beginning of those blank six or seven centuries when all Latin law and Art and Science were forgotten, when Europe was peopled only by mobs of superstitious savages surging to an fro across her blood stained lands. Then came the time when people began to settle down in their various countries. But they were savages because all civilization had been lost in these dark ages, only Christianity survived and the memory of a few childrne's games and St. Valentine.

In the dark ages men wrote nothing; in the middle ages they began with ballads and went on to history and romances, first in rhyme and then in prose but all through that oldtime literature is found allusion to St. Valentine and St. Valentine's Day.

The drawing of your sweetheart by the lot has gone, but a new plan is well described in Scott's Fair Maid, of Perth, a story of St. Valentine's Day (1402). The story tells of a young woman by the name of Catharine Glover and a lad Harry Smith, a handsome young blacksmith. At midnight on February 14, Harry Smith is patiently waiting under Catherine's window for if he is the first man she sees when he rises at dawn, as was the custom then, she will be his valentine and he hers for a year. These mock bethrothals were almost universal then, often leading to a bethrothal and marriage. As Catherine is a fair maid other young men come to oust sturdy Harry and there is what an Irishman would call some "elegant" fighting under Catharine's window. However, as Midivalism began to merge into modern time when printing was discovered, this fighting for valentines gave place usually to the sending of a gift, often gloves for they rhyme with love, by the young man to the maiden of his choice and if she wore his gift that day, it was a sign she accepted him as her valentine for that year. As a valentine gift was always sent anonymously and a popular girl might get several, she was liable to accept the man she did not want in this love lottery. But still a valentine was only a temporary lover and it is still much prettier to say as they still do in France, 'She or he is my valentine" instead of our awkward, "My lady friend or my gentleman friend."

Today among us a valentine has degenerated into a cheap card and sometimes a silly one too. At one time there was, it appears, a prevalent notion that this was the day on which the birds selected their mates.

"The good old Sain, who plods through drifting anow,
When February winds pipe loud, pipe low,
Comes laden with his gifts so quaint, so dear,
And tis his mission rare to bless and cheer.

He wakens tender hopes and visions start,
He sits to pulsing every quiet heart.
And like the springtime tells each wailing one,
Rejoice, for see the world is glad and young."

Heenan's Daughter And Husband

FORMER MINISTER OF LABOR'S DAUGHTER AND HUSBAND

In the above picture are shown Mr. and Mrs. Nelson D. Porter, Jr., of Ottawa. Mrs. Porter is former Miss Margaret Heenan, daughter of former Minister of Labor and prominent organizer in the Twentieth Century Club. Mr. Porter is son of Nelson D. Porter, former mayor of Ottawa, where the pair were married quietly September last.

Health Improved after First Box

"I have been troubled with my kidneys for a long time," writes Mrs. Hector Aitken, R.R. No. 2, Southwold Sta., Ont. "I had such terrible pains in my back it was agony for me to get around. At last I was advised to try Dodd's Kidney Pills which I did. After taking the first box I felt a different woman. Therefore I have nothing but praise for them."

Weak kidneys are not confined to grown people. They are too often found in children, sowing the seeds of future ills unless the kidneys are strengthened and put in condition to do their full work of removing the impurities from the blood stream.

Never accept a substitute. Insist upon Dodd's

What To-day Means To You

"PISCES"

If February 28th is your birthday, the best hours for you on this date are from noon to 2 p.m. and from 5 p.m. to 7:30 p.m. The danger periods are from 9 a.m. to 10 a.m. and from 9 p.m. to 10:30 p.m.

The astrological indications of February 28th presage a day marked by many unexpected events. Some thing or some person will come into your life, which will exercise considerable influence on your future actions. The evening atmosphere will be benign.

A child born on this February 28th will not be handicapped by either mental or physical weaknesses. It will be ambitious, persevering, and affectionate—but not demonstrative. It will be better adapted to outside pursuits than to those of a sedentary nature.

If born on February 28th, your disposition is an unusually suspicious one, and this rather embitters your whole life. Although endowed with ability, gifted with intelligence, and appreciative of artistic effort, you are lacking in that generosity of spirit which contributes so much to the amenities of life. A great deal of your time is lost in trying to dissect the motives that engender the acts of others, no matter whether they be friendly or otherwise.

You are fond of reading, more as a recreation than as a means to learn. In social life, your inherent reserve militates against congeniality. You, too, are caustic, and often wound where it would be more to your advantage to please. Your temper is more sulky than violent, and you know little, and practise less, of the divinity of forgiveness.

You are conscientious in all work entrusted to your care, and are no time server. A secondary position is more suited to one of your capabilities than one where control of others is involved. You lack that personal magnetism which, every time, and all the time, gets the best from subordinates. Your love attachments will not bring you the happiness that they could, and should. You are too jealous and too exacting.

If March 1st is your birthday, the best hours for you on this date are from 7:30 a.m. to 9 a.m., from noon to 2 p.m. and from 6 p.m. to 7:30 p.m. The danger periods are from 10:15 a.m. to 11:30 a.m. and from 3 p.m. to 4:45 p.m.

The planetary aspects of March 1st are benign and satisfying. Nothing startling is liable to happen, and the signs presage a period of calm and serene contentment, with new friendships formed or old ones renewed.

Children born on this March 1st will be bright and sunny, and this disposition will continue with them through life. They will have no special intellectual gifts or accomplishments. They will always, however, be a welcome addition to any good community.

If you were born on March 1st, your horoscope clearly denotes that you are a charming and an attractive person, no matter what your position may be in life. Your frankness, which never borders on rudeness, your sincerity, which is never influenced by circumstances, your appreciativeness, which never savors of fulsome flattery, and your consideration for others, regardless of their status, endear you to one and all.

Life will not reward you in any spectacularly material manner, yet your disposition will prove to be a source of wealth in currency of—happiness. You have no outstanding abilities. You are neither smart nor shrewd, nor are you brainy or talented. On the other hand, you are conscientious, industrious, and your integrity is unquestioned, and you will always find a niche in the world that you will be able to fill to the satisfaction of all concerned.

With your disposition, you will, of course, be happy in your work, but your home life will reap the greater benefit from your unselfishness and the steadfast qualities of your character. As husband or wife, and as a parent, you will always bring to the family circle a spirit of unalloyed felicity, and, when troubles come, yours will be the privilege to straighten them out.

DOGS ENJOY SUN BATHS

Canine pets of the rich in London are being given baths in artificial sunlight, and enjoy it as much as do the mongrels who sleep in the rays of the real Sol. The Royal Veterinary College is thus treating the pets for disease and for improvement of general health. The dogs are fitted with goggles to protect their eyes, and apparently enjoy the baths so thoroughly that they make no attempt to rub off the glasses.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy and good-natured. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

PONTYPOOL

Mr. Clifford Richardson is in Toronto, where he is taking a course in electric welding.

Mrs. W. H. Hooper is visiting her daughter, Mrs. T. W. Andrews, of Newmarket.

Reeve Bert Richardson and Deputy Reeve McNeil attended the Good Roads convention at Toronto this week.

Nip that Cold in the Bud

Grippe or pneumonia may develop. So, at the first symptom—ache, sneeze or chill—take a ZUTOO TABLET. They stop the pain and fever and help nature throw it off. Taken in time, they will bring relief overnight.

Margaret McKellar Will Visit Warsaw

WARSAW, Feb. 28 (Examiner Correspondence).—At the meeting of the Church held at the home of Mrs. Roland Payne, Mrs. Clysdale read a selection, "The Girl Who Won the Medal, Margaret McKellar" and it was announced that she would visit Warsaw to speak in the United Church on Friday, March 20.

Mrs. Arthur Edwards occupied the chair at this meeting. Mrs. Digweed reported the play cast is practising.

The next meeting will be an Easter one, when the roll call will be answered with an Easter verse. Mrs. Edwards was appointed to meet with representatives of other church organizations to arrange for the purchase of new hymnals. Mrs. David Miller read a selection on Lent and Mrs. McCauley read the parable of the talents and Mrs. Edwards read some notes on this.

Mrs. Wilkinson sang a solo, "The Swallows." The hostesses at this meeting were Mesdames R. Payne, J. Hawthorne, Stuart Clysdale, R. Matthews and A. Payne.

At a special meeting of the W.M.S. held to arrange for Dr. McKellar's coming, pleasure was expressed the story of Dr. McKellar had been read. Rev. Mr. Wilkinson offered to fetch and take Dr. McKellar to and from Peterborough. She will speak at Roseneath on Sunday, March 22.

A MOTHER'S ANXIETY

About Her Delicate Daughter.

"She seems to be fading away," said an anxious mother recently about her daughter. Thousands of mothers could say the same thing. Their daughters endure a trying life robbed of all vitality and brightness. Their cheeks are pale; their eyes dull; their step languid and every movement tells of shattered health. If neglected their suffering grows more acute till decline sets in.

If your daughter complains of weariness; pains in the side; weakness; headache or backache; her appetite is uncertain and her spirits low—anaemia is the cause. She needs new blood. Give her Dr. Williams' Pink Pills at once for these pills actually renew and enrich the blood. They make sickly girls well and happy; improve the appetite and bring back all the charm and brightness of perfect health.

Dr. Williams' Pink Pills are sold by all dealers in medicine or by mail at 50 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

ENSTEIN HEADS FOR BERLIN.

PASADENA, Cal., February 27 (C.P.). — Dr. Albert Einstein, having bade farewell to fellow-scientists here with a smiling "Till we meet again," leaves California to-day to return to Berlin.

Two months of intensive study at the Mount Wilson Carnegie Institution of Washington Astronomical Observatory, and the California Institute of Technology physic research work have given him much to think about, Einstein said.

The Einstein party will spend tomorrow at the Grand Canyon of the Colorado, in Arizona, continuing by train direct to New York.

MILLBROOK CLASS INSTITUTE COURSE

Many Women Plan to Hear Instructor in Arts and Crafts.

MILLBROOK, Feb. 28 (Examiner Correspondence)—Mrs. W. H. Armstrong, secretary of the local branch of the Women's Institute, has received word from Mr. G. A. Putnam, superintendent of Institutes for Ontario, that Mrs. M. L. Watts will be in the village to conduct her Arts and Crafts Classes on Monday, Tuesday and Wednesday, March 2, 3 and 4.

Practically all those present at the last regular meeting of the Institute gave their names as pupils for these classes, when Mrs. Watts will give instruction in making crocheted rugs; vases and jardiniers; boudoir pillows and other articles a nominal fee with the students buying their own material being the only requirement for those wishing to enroll for the three days' tuition.

Classes will probably be from nine in the morning until noon and from one-thirty until four each day and those taking instruction may see Mrs. Watts and make choice of the periods at which attendance will be necessary depending upon what particular line of work is being taken up.

Classes will be in the council chamber of the Town Hall and the course promises to be one of decided practical interest and value. Request was made to the Department for the instructor early in March in order not to conflict with the week of the Chautauqua Festival, March 26, 27, 28 and 30.

On March 9 the Institute is sponsoring an entertainment by the Echardt Family Bell Ringers.

St. Andrew's Lenten Series

A special series of Lenten services is being conducted each Sunday evening by Rev. W. W. Jones, B.D., pastor of Saint Andrew's United Church, with the general subject of "Freedom" as the basis for the sermons, and the text taken from John 8:36: "If, therefore, the Son shall make you free ye shall be free indeed."

The series began last Sunday evening, February 22, with a large and attentive congregation in attendance, the topic being "Freedom from Physical Slavery", as illustrated from the lives of Wilberforce, Pitt, Garrison, and Lincoln.

March 1 the theme will be: "Freedom from Ignorance and Poverty", as by Booker T. Washington, the colored temperance reformer, and Rev. Edgerton Ryerson. March 8 the topic is, "Freedom from Materialism", as by Saint Francis of Assisi, the Catholic monk of rare charm and amiability, and for March 15, the theme announced is, "Freedom from Church Bondage", and by Martin Luther, and Saint Paul.

The fourth Sunday of the month the topic listed is "Freedom from Moral and Spiritual Insensibilities", with John Wesley and General Booth as illustrations. There will be music by special choirs during the series, and particular emphasis laid upon congregational singing.

Trent River

TRENT RIVER Feb. 28. (Examiner Correspondence)—The members of the Women's Institute held a progressive euchre on Wednesday night at the home of Mr. and Mrs. Harry Seaborne, when six tables were played, the following being the prizewinners: Ladies' first, Mrs. Fred Scott; gents', Victor Scott; ladies' consolation, Miss Doris Scott; gents' consolation, John Garneau.

Lunch was served at the close of the games. A small admission fee was collected and the amount collected was $6 50.

Mrs. George Brooks president of the Institute, moved a vote of thanks to Mr. and Mrs. Seaborne for their generosity in opening their home for the occasion, also Mrs. James Mann, Mrs. Frank Pollock and Earl Greenly, of Campbellford, for donating prizes.

District Notes

Mr. and Mrs. Earl Greenly, formerly Annie Wight, and Mr. and Mrs. Victor Scott and children, of Campbellford, attended the progressive euchre given by the Women's Institute at the home of Mr. and Mrs. H. Seaborne on Wednesday evening.

Miss Ida McLaughlin, of Buffalo, N.Y., is visiting her mother who has been ill. Miss McLaughlin also spent a few days in Toronto with her sisters.

FAMOUS WESTERN INDIAN CHIEFS

In Alberta, the names of Crowfoot village, Chiniki lake, and Mekasto railway station are tributes to the worth of Indian chiefs who, on the coming of the white man, ceded their title to vast areas and forsook tribal warfare. Crowfoot, head chief of the Blackfeet, was a keen business man who kept his tribe at peace with the whites, while Mekasto, or Red Crow, head chief of the Southern Bloods, was loyal throughout the 1885 rebellion. Chiniki was a noted Stony Indian chief.

WHEN CHILDREN CRY

CHILDREN often cry for no apparent reason. Many times we can't guess what is wrong. The crying may mean a touch of colic; the little bowels may be sluggish—or some other upset. It may mean any of the common little ailments that children suffer. To bring quick comfort to your little one, give a few drops of Castoria. Most upsets of children are soon soothed away by this pleasant-tasting remedy that children all love.

In five million modern homes, Castoria is a mother's first thought when a child is out of sorts, feverish, cross, doesn't eat right or sleep right. When bad breath, coated tongue, or languor tells of constipation. These five million wise mothers know that children should never be given stronger medicines meant for the fully developed systems of grown-ups. Castoria is gentle—safe, yet always thorough and effective for a child of any age. It may be given to the tiniest infant for any little upset. When buying, look for the signature of Chas. H. Fletcher on wrapper.

Tired Nerves

Make you feel depressed down-hearted, discouraged

WHEN physically tired you rest and sleep and arise feeling refreshed and restored.

But when the nerves are tired it is different—you feel tired all the time—you cannot rest or sleep—you fail to regain energy and ambition—you are excited and nervous.

You dread the daily task—have not the energy and courage to meet people—you do not enjoy your meals—every day you feel more depressed and more discouraged.

It is impossible to get back your health and nervous energy without the assistance of medical treatment such as Dr. Chase's Nerve Food.

The elements which your system is lacking are supplied in condensed and easily assimilated form in Dr. Chase's Nerve Food and for this reason it is most certain to be of immediate and lasting benefit to you.

Dr. Chase's Nerve Food

Quickly Relieves Sleeplessness, Headaches, Indigestion

Mr. and Mrs. J. P. Roach of 561 Elm street celebrate to-day the twenty-sixth anniversary of their wedding day.

• • •

Mrs. Ada Craig of Rogers street, who has been very ill with an attack of bronchial pneumonia, is improving, but is still confined to her home.

• • •

Miss Annie Profit, a pupil of Miss E. Isobel McKee, has successfully passed the examinations in Junior Piano of the Toronto Conservatory of Music.

• • •

Mr. James J. MacPherson, who has been ill in St. Joseph's Hospital for over a month, is now progressing favorably.

• • •

Tomorrow, Mr. Chris G. Graham celebrates a birthday anniversary.

The many friends of Mr. Bill McKinley of Rose avenue will be glad to know that he has recovered sufficiently from his recent accident to return home from Nicholls Hospital.

• • •

Mrs. R. V. Dawson is spending the month of March in the South with her sister.

• • •

The many friends of Mr. Walter Peters of Reid street and of the Examiner staff will be pleased to know that he is recovering slowly from his recent serious illness, but is still in bed at his home.

• • •

Mr. and Mrs. T. G. Dawson of Chicago, who attended the funeral here on Thursday of the late Mrs. W. B. Robinson of Toronto, are visiting the former's sister, Mrs. Freeman of Bensfort, and his nephew, Mr. W. Henthorne of Maude street.

• • •

Mr. Thomas Brown celebrates a birthday anniversary to-morrow.

• • •

Master Norman Grieve, a pupil of Miss Mary Harstone, was successful in passing the examinations in Elementary Piano conducted recently by the Toronto Conservatory of Music.

• • •

Miss Mary MacPherson, pupil of Miss Mary Harstone, has passed with honors the examinations in Primary Piano conducted by the Conservatory of Music.

• • •

Miss Lorraine Jackson of Bethany, a pupil of Miss Helen A. Patton, has successfully passed the examinations in Primary Piano of the Toronto Conservatory of Music.

• • •

At the conclusion of the program of the Women's Art Association, held in the studio of the Conservatory of Music yesterday afternoon, tea was served. The room looked very attractive with grate fire, softly shaded floor lamps and numerous lovely leis of artificial flowers made by the Hawaiins, in the prettiest shades. A Tapa or Kapu cloth brought by Mrs. F. C. Neal, who spoke on her trip to the West Indies, was much admired. It was made from the bark of a tree. The table was charming with a filet lace cloth, a central silver bowl of yellow daffodils, and tall mauve tapers in silver holders. Mrs. H. Wightman and Mrs. G. N. Gordon poured tea and assistants were Mrs. J. E. R. Munroe, Mrs. G. E. Porter, Miss Grace Reinhart, Miss A. Wood and Miss S. A. Tomkins.

• • •

Mrs. R. Ross entertained at her home at 675 George Street for Mr. Adam Sands and his class of boys at St. Paul's Presbyterian Church. After dinner at Mrs. Ross' home, the guests were entertained at a theatre party. Miss Emma Lou Chenhall was present also.

• • •

Mr. and Mrs. Alex. Henthorne and Miss Beth Henthorne, of Buffalo, N.Y., attended the funeral here on Thursday of the late Mrs. W. S. Robinson of Toronto. Miss Henthorne is visiting her brother, Mr. W. Henthorne, of Maude Street.

• • •

Mr. Lyman Ball of Winnipeg has returned home after attending a convention in Toronto and visiting his parents, Mr. and Mrs. William Ball, of Bridgenorth.

• • •

It has been the custom of the Caledonian Club for some years past to hold a sleighing party at least once a season, although the same facilities for one of these old-fashioned parties which were so popular in the past cannot now be obtained. Nevertheless, two very comfortable sleighs were chartered last night and a most enjoyable time was spent by those members who took part, in what was to some of them their first experience of a Canadian sleigh-ride. The party, in the capable charge of Mr. R. Gilmour and Mr. A. Jackson, set out from the Y.M.C.A. at eight o'clock and went for a ten-mile drive out in the country by way of Jackson Park, and around the outskirts of the city. They afterwards returned to their usual meeting-place—the Woodmen of the World Hall—where they received a great ovation from some of their fellow-members, who are now past the outdoor sport age, and who were quietly enjoying games of carpet-ball and cards. The happy but tired sleigh party enjoyed the hot refreshments which were awaiting them, and afterwards the evening concluded with a few dances. Next week the annual election of officers will be the order, and a big meeting is anticipated.

• • •

Mr. and Mrs. H. O'Neil wish to announce the engagement of their eldest daughter Thelma, to Garnet Burns, the eldest son of Mr. and Mrs. Joseph H. Burns, of Otonabee—the wedding to take place early in March.

• • •

The contest of Intercollege Glee Clubs in connection with the New England Association of Glee Clubs last evening had an interest to local Male Voice Choir members who went to New York in May, 1928, and under Martin B. Chenhall, conductor, upheld the musical honor of our city. There were eleven college or university clubs; and it was music to the ear to hear the names of Ralph L. Baldwin, Mark Andrews, guest conductors on that memorable occasion, and Channing Lefebvre (alternate conductor), announced as adjudicators in last night night's contest at Hartford, Conn.

• • •

The following account from the Toronto press concerns the musical work of Miss Reta Swain, who is well known in Peterborough, where she has visited and also sung, on several occasions. Miss Swain is the niece of Dr. Prust, of Edmonton, Alberta, who is a brother-in-law of Mr. Walter Belleghem, and is studying vocal music in Toronto:

"A delightful song recital was given in the concret hall of the Toronto Conservatory of Music last evening by Mrs. R. B. Harkness and Miss Reta Swain, L.T.C.M., pupils of Miss Nina Gale. Mrs. Harkness was wearing a graceful gown of white crepe Romaine and Miss Swain was charming in red faille. They were assisted in their program by Mr. Clifford McCormick, pianist, and Miss Edith Foot was the accompanist for the singers. Miss Gertrude Ballantyne, Miss Marjorie Sweet, Miss Edna Little, Miss Amelia Hanna, Miss Catherine Boyle, and Miss Brenda Marshall acted as ushers. Among those in the audience were: Mr. and Mrs. E. P. Rowe, Colonel R. B. Harkness, Mrs. F. J. Moore, Mr. and Mrs. W. J. Blackhall, Miss F. Stewart, Mr. and Mrs. F. Watson, Mr. and Mrs. C. J. Hutchinson, Dr. D. Orr, Mr. and Mrs. Lehman, Miss Estelle Orton, Miss D. Waugh, Mr. Silvester, Miss Betty Kniseley, Miss Jessie MacDougal, Mrs. Thompson, Mr. and Mrs. Barton, Mr. and Mrs. O. Edwards, Mrs. Mercer, Mr. Paul Bal, Mr. and Mrs. Bank, Miss Oxley, Mrs. A. E. Frost, Miss G. Gladbach, Mrs. D. Findley, Mrs. J. C. Copp, Mrs. J. A. R. Mason, Mr. and Mrs. Coon, Mr. and Mrs. G. E. H. Booth, Mrs. Charles McCrae, Mr. and Mrs J. C. McKay, Mrs. Charles de la Plante, Miss Laura Brodigan, Mrs. Roy Whitehead, Mrs. G. Nasmith, Miss E. Boulton, Misses Tilden, Dr. and Mrs. C. H. Hay, Mlle. Juge, Mrs. R. Wilkinson, Mr. and Mrs. E R. Maloney, Mrs. Burke, Miss K. Whetham, Miss M. Wood, Miss Grierson, Mrs. James Dow, Mrs. Wynne Roberts, Mr. Weir, Mr. Gordon Hallett, Dr. and Mrs. Morris, Miss C. Watt, Mrs. Eugenie Montgomery, Mr. and Mrs. Gordon Harkness, Mrs. William Dyer, Mrs. D. B. Harkness, Miss Williams, Mrs. Van Dyke, Miss Costello, Miss Burke, Mr. and Mrs. Burke, Mrs. Cameron, Mrs. Winthrop Green, Mrs. Richardson, and Mrs. W. G. Rowe."

VETERANS' BILL PASSES.

WASHINGTON, D. C., Feb. 28. —(C.P.).—The Veterans' Loan Bill was enacted into law today over the veto of President Hoover.

See "The Princess and the Plumber" at the Regent Theatre, on March 4th, 5th and 6th.

FASHION SERVICE

It's very young with its jumper effect bodice. It's ideal for the high school or the college miss and the youthful type of woman.

It's a smart interpretation of the slightly fitted silhouette that belts its waist at normal. It's particularly slender throught the hips and concentrates its skirt fulness at the center-front, and at the center-back.

It can be copied at a marvelous saving. If fashioned of palin-colored flat crepe silk like the original model it can be worn all through Spring. The collar, cuffs and vestee favour the lingerie mode in batiste trimmed with lace. Eyelet embroidered cotton or pique could also be used.

Style No. 2950 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust. Size 16 requires 3¼ yards of 39-inch material with 5-8 yard of 39-inch contrasting.

Printed flat crepe with plain blending crepe is enchantingly lovely and wearable.

Wool jersey and lightweight tweed are exceedingly chic.

to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book, 15 cents, or 10c when ordered with a pattern.

Price of pattern, 15 cents.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

I know that all housewives in Peterborough desire to have their homes just as spick and span as possible, and very often they are at a loss to know what it is that prevents that look.

• • • • • • •

I have noticed that very often the rooms in the home didn't look just as well as they should because the frames of the furniture seemed to be in a bad condition.

• • • • • • •

The housewife herself hadn't noticed this probably or she might have remedied it, because it may be sent to some shop to be done over which may prove quite expensive, or the refinishing may be done at home.

• • • • • • •

If you are contemplating doing your furniture yourself, you must remember that it requires time even for an expert, and so you must be patient.

• • • • • • •

Before you start, resolve that you are going to make a good job, even if it does take more time than you would like to spend on it.

• • • • • • •

Perhaps you never stopped to think, but you are saving money or you would not do the work. It must be well done, however, or your time is wasted.

• • • • • • •

Start the work by removing all of the old finish whatever it may be. Use a varnish remover unless the wood is painted and we are not considering repainting, but refinishing furniture.

• • • • • • •

There are many varnish removers on the market which you may purchase, and you will find directions accompanying them. Apply the mixture to the wood and allow to stand for a few minutes until varnish is softened. Remove varnish by using steel wool.

• • • • • • •

It is wise to do the work out of doors and by all means do not do the work in the kitchen when the stove is going, or where gas is burning.

• • • • • • •

It is well too, not to allow the hands to come in contact with any paint or varnish remover.

• • • • • • •

If the wood is scraped, work with the grain of the wood and be sure the scraper has an even edge and does not gouge as you work. Wash the woodwork and sandpaper any rough places.

• • • • • • •

Wash the wood after using the sandpaper, which is a very fine sandpaper. Allow the wood to get perfectly dry before applying the liquid oil finish or dull varnish.

That Body of Yours

By James W. Barton, M.D.

DON'T WORRY ABOUT BLOOD PRESSURE

One of the things it took me some time to learn was that a little rise in temperature was not a serious matter in a patient. Like other young doctors, the first thought about temperature was that it meant that the patient was feverish, and that fever should be reduced.

I failed to realize that the rise in temperature showed that the individual was sick of course, but that Nature by increasing the heat was doing her best to fight the sickness. The extent of the rise in tempersture showed how serious was the trouble, and how strongly Nature was fighting for the patient.

Nowadays your family doctor always takes your temperature and measures in his mind the quality of your heart beat, but he is not usually anxious to give you medicine to lower your temperature and reduce the power of your heart beat until he sees some real reason for doing so.

And similarly with blood pressure. As you know, for the past twenty or more years you have been hearing and reading a great deal about blood pressure. It would seem that high blood pressure has become an every day expression in our language.

Now I'm not saying that high blood pressure is to be ignored. In these days of hard work, hard play, and high living, diseases of the blood vessels are more common than ever before and the deaths more frequent. But that any one should worry about high blood pressure where there are no other symptoms is most unwise, in fact worry is one of the things that can make a harmless blood pressure, a harmful one.

Drs. Alvarez and Stanley, Mayo Clinic, have studied the blood pressure of 6400 individuals who were not sick. They tell us that blood pressure is greatly a matter of heredity and is affected by nervous strain, excitement, the day's work, the amount of fat in the body, and the temperature of the surroundings.

Further, they tell us that, contrary to the general impression, thick set stocky individuals are apparently no more likely to develop high blood pressure, than tall, thin, weakly looking folk.

So forget about blood pressure, even if high, if your doctor assures you that you have no heart, kidney, or blood vessel trouble.

The Linen Industry Research Association of Britain is rejoicing over the announcement that the King will devote two or three acres of his Norfolk estate to experimental growing of flax.

What is the Message Below?

M 3 8 4 E 4 6 2 F 3 6
6 7 8 A 2 E 0 0 8 6 2
4 M 6 4 T 7 6 6 7 6 D

HERE'S HOW

There are six words in the message. The first word begins with M and the second letter is either R or A. (See chart directly above the puzzle. No. 2 may be either R or A. No. 3 may be either V or P. No. 4 may be either L or N, and so on.) Can you fill in the correct letters to make a message of six words?

Write your answer on a piece of paper and write your name and address at the bottom stating whether Mr., Mrs. or Miss. Handwriting and sentence are not considered in awarding the prizes.

Answers must be in the mail not later than 5 days after the date of this paper. Send your answer to

SHORT Wild Man's Land

Madoc Blanks Stirling 1-0 in First Game

WINNING COUNTER IS DEFLECTED INTO NET FROM LITTLE'S STICK IN FINAL MINUTE OF THE PLAY

Stirling Super Combination Nullified By Consistent Back-checking of Winners.

GOALIES OUTSTANDING.

Davis and L'Heureux Battle for Honors at the Pivot Position.

(Special to The Examiner)

BELLEVILLE, Ont., Feb. 28—Madoc took a stranglehold on the Trent Valley League trophy at the Belleville Arena last night, when they won a well-contested and at the same time lucky victory over Stirling by a score of one to nothing, the first two periods being scoreless. As the fans were leaving their seats in a mad rush for the special trains, the whole complexion of the situation changed. One minute, a stalemate was turned into victory, and Norm. Johnson of Madoc became the village hero and Little, the goat of the pastime. Stirling had sent all up on the attack and swiftly the break came. Johnson secured at his own defense and, darting for the centre laneway, carried through to the defense. He partly rounded the rearguard, but was steered in the corner still retaining possession of the gypsum. He passed out to his teammates but Stirling did the needful. "Ty" Little attempted to clear but the rubber hit his stick at the right angle and, Morton being out of position, the disc slid into the open twine. It was a good game to win and a tough one to lose, and neither team deserved a verdict on the play.

Goalies Are Good

Special trains were run from Campbellford and Madoc, bringing in large quotas with the many from Belleville entering the pastime. The game was wide open and many thrilling plays were seen. Joe Smith, who handled the bell, had an easy night, there being only four penalties evenly divided. Stirling were the more finished sextet but Madoc checked back better and their rushes were more timely. Madoc supporters can thank their goalie, Hulin, for finishing on the long end of the count, for his work during the whole game bordered on the sensational. He was cool, played every shot carefully and continually directed his team. Andrews and McGuire defensively were strong but their rushes did not have the zip that the pair on the other side turned in. L'Heureux was outplayed by Davis, while Little and Little had the edge on any pair Father Meagher sent out. Morton in the Stirling cage did not deserve to have the goal scored against him, as he turned in a swell effort, even though he did not have the work to do that Hulin was forced to bear. Madoc used their subs more than Stirling and on the whole were better than Coach Whitty sent out for battle. Davis was the best man on the ice with Norm. Johnson and L'Heureux close standings.

Play Even in First

Stirling had the first real chance when Davis broke clear and in a scramble, Hulin just cleared. Stirling had much the better of the play, their combination being better timed. Ingram listed with a hard drive and it looked if the rubber was in. Madoc had their first shot on goal after three minutes of play. Hulin, in the Madoc goal, was keeping his team in the running with sensational saves. Madoc missed the open net. Both teams changed lines and Beatty made a beautiful solo rush and nearly beat Hulin. L'Heureux made a nice rush and missed by inches. Ackers slid one across the front and Hulin just reached. Andrews was given a penalty for dumping Davis and Stirling took teh offensive. Morton nearly pulled one in and then made a perfect save from L'Heureurx. The period was scoreless with the play even. Madoc coming fast in the last half.

Brilliant Goal-Minding

MacQuire made the first dangerous rush and Morton saved. Madoc played a defensive game, waiting for the breaks to get the goals. Davis missed a beautiful chance when he shot into Hulin's pads after taking a pass from Ty Little. Johnson went through, only to be crashed by the defense. Ingram rushed often and everyone was dangerous, but Hulin had the "No Pass" sign out. Andrews was through when Beatty came from nowhere to snatch the disc. He went through again, only to be robbed by Morton. Ingram broke through and Hulin made a marvelous kick out. Davis was sent for a rest for boarding Watson and Madoc hemmed the Stirling team in again. The period was even with Stirling playing the more finished hockey, but their good work was nullified by the persistent and consistent back-checking of Madoc team, Johnson and L'Heureux being the most prominent.

Johnson Scores

Stirling killed time till Davis returned he getting three minutes for stick throwing. Madoc pressed but could not penetrate the defence. Ackers and Johnson collided. Stirling were boring in and Beatty sidestepped the defense to drive a hot one at Hulin. Andrews drew a penalty for tripping Ingram but Stirling did not seem to have the punch. Davis went for a rest for tripping Johnson and while he was away L'Heureurx nearly scored from a face-off the closing minutes was just a mad scramble but Stirling nearly scored. Madoc got a lucky break, when Norm Johnson rushed and going into the corner passed it out. Ty Little in attempting to clear deflected the rubber into the twine, Morton being flat footed on the play. The lineup:

Madoc—Goal, Hulin; defence, Andrews and McGuire; centre, L'Heureux; wings, Watson and Johnson; subs., Rupert, Moon and Hendren.

Stirling—Goal, Morton; defense, Ingram and Beatty; centre, Davis; wings, Little and Little; subs., Day, Ackers and White.

Referee—Joe Smith, Kingston.

National League.
Ottawa at Chicago.
New York Americans at Detroit.

International League.
Cleveland at Syracuse.

Canadian-American League.
Springfield at New Haven.
Philadelphia at Providence.

'DOGS TIGHTEN HOLD ON SECOND

Defeat Syracuse 4-2 to Increase Lead Over London Tecumsehs Five Points.

ROBINSON LEADS TO WIN.

TORONTO, Ont., Feb. 28 (C.P.)—Herbie Mitchell does not allow his hard-shooting Bulldogs of Windsor to pass up any "soft" spots in the International Hockey League schedule as the well-bunched teams make their final dash to the finish line.

After playing a hard game in Pittsburg Thursday, the Bulldogs returned home and last night entertained the last place Syracuse Stars. It was the only scheduled fixture and by winning, 4 to 2, the Border City representatives consolidated their hold on second place to the extent of five points over the third place London Tecumsehs.

Earl Robinson, who leads the league marksmen in total goals and points, started the second place holders to victory with one of his brilliant individual counters late in the first frame. Desy Roche and Andy Bellemer added another brace in the middle chukker before the Stars got their first tally through "Tubby" Moore. Each team got a goal in the final period, Frank Duncan scoring for the winners, and Holmes for the Stars.

Three matches are scheduled at the week-end and for the second successive week Cleveland Indians perform on successive nights. At present they are situated fourth in the standing, one point behind London and one ahead of Pittsburgh. To-night they meet the league-leading Buffalo Bisons and on Sunday the tail-end Stars. While chances of the Indians scoring a double victory seem remote there is always a possibility of this occurring. Third place will be the Clevelanders' reward should they accomplish this for while the Tecumsehs play Pittsburgh in the Smoky City 45 points is the best figure the Londoners can reach by winning.

The Yellow Jackets are still very much in the running and they can tie the Tecumsehs by beating Roy Brothers' men.

STRONG HAS JOINED MAPLE LEAF TEAM

Hard Hitting Players Will Add Much Strength to Leafs.

TORONTO, Ont., Feb. 28.—(CP)—In an effort to bolster up their hitting strength the Toronto Maple Leafs Baseball Club of the International League today announced the signing of Kenneth Strong, noted American football star, who played with Hazelton Club in the New York-Penn. League last year.

Strong, who is a hitter of some note, batetd .374 for 118 games played last year besides establisning a new league record. He will be used in the outfield in place of one of the weaker hitters who were with the club last season. Strong who turned professional with Hazelton last year was a star in college football having been seected for a place on the all-American team of 1928.

Inside Sportin' Dope—By A. Wise Cracker

Mister Sporting Editor:

Well, old dear, we've gone from worse to worst since my last word to the customers. We was all washed out of the O.H.A. a week ago, and since then we've took a bump on the chin by losing the Boyle Oup to the Lindsay intermediates. The lads went up to Dick Butler's ballewick last Fri. and come home 1 goal behind and certain of pulling that slender lead down in the return game here Mon. p.m. I imagine their embarrassment when the 2nd fixture wound up in a official 2-2 tie, which mean that the Boyle tinware will summer by the Scugog. We say official tie because our own Mister Shrimp McDougall, which refereed the battle, give 2-2 as the final score, although most of the customers figure 1 to nil in favor of the Petes was the real count. Both the Lindsay goals slid into the nets off the person of a attacker, and according to the 1931 edition of Bill Hewitt's hockey manuel, that ain't been done this year. On the other hand, 1 of the 2 goals credited to the Petes was as nice a demonstration of the N.H.L. forward pass system as has been glimpsed here since Ernie Wasson first played goal. And that, neighbors, wasn't yesterday. Our Mister Maudsley found himself in the general neighborhood of the Lindsay nets when a stray shot fired from a long way out on the other wing bounced gaily off the Midget goalie and dropped at Mister Maudsley's feet. "They can't hang you for trying anyway," murmured our hero as he picked up the rubber and slammed it back past the somewhat astonished Mister McClory and then got ready for a face-off near the Lindsay nets. The face-off, however, took place in mid-ice, for the marker was counted and everything was lovely—that is until Lindsay kicked in a couple and changed the whole complexion of the engagement.

Well, Mac, barring the E. P. wind-up, the winter sports is shot, so to speak. Mister Curtis' loop is producing some hockey and more excitement, and the final dash for the title oughta give the customers plenty of kick. The Lakefield lads is sitting pretty at the top of the heap, but anything can happen to the rest of the procession.

The O.B.A.A. magnates is going to meet here April 4 for their annual convention. It ain't likely James Stevenson Park will be included in the places the delegates will be took to see, for local baseball sharks ain't very proud just now of the civic ball yard.

Well, old-timer, they ain't nothing left to say, so we'll call it a day.

Sportfully yours,
A. WISE CRACKER.

NATIONALS RETAIN ONTARIO LOOP LEAD

Oshawa, Guelph and Stratford Win Minor Hockey League Fixture.

TORONTO, Ont., February 28 (C. P.). — Stratford Nationals remained at the head of the pack as a result of their 5 to 2 victory over Kitchener in the Ontario Hockey League last night, but their nearest rivals, Guelph Maple Leafs, kept pace with them by downing Galt Terriers 4 to 2. Oshawa Pats furnished the feature of the three-game program by emerging from their basement location to trounce Niagara Falls Cataracts 5 to 1.

The race has now developed into one of the closest ever recorded in minor league hockey. Only six points separate the leading Nationals and last place Pats. Kitchener and Galt are tied for third place, one point behind the Leafs, while the Cataracts are just a point further down the ladder.

KING TUT STOPPED BY BILLY PETROLLE

Bout Ends in Fourth Round—Commission Orders Investigation.

(By Herbert W. Barker, Associated Press Sports Writer.)

NEW YORK, N.Y., Feb. 28.—One of the few really spectacular battles Madison Square Garden has seen this indoor season was under investigation by the New York State Athletic Commission to-day.

The boxing solons cocked a somewhat suspicious eye in the Garden last night as Billy Petrolle floored his arch-rival, Henry Tuttle, otherwise King Tut, three times before knocking him out in the fourth round of their ten-round return scrap. When it was all over, Commissioner John H. Phelan ordered the purses of both fighters held up pending an inquiry. Tut had knocked out Petrolle in 34 seconds of the first round in their recent meeting at St. Paul.

"I don't care to say anything about it now," said Commissioner Phelan. "I will say that it looked to me to be the sort of a fight that deserves a little investigation. Our action speaks for itself."

"Tut himself was a patient in the Psyclinic Hospital where he was taken after the bout for observation. Friends said he had suffered an attack of appendicitis and that an operation might be necessary.

THE RING.

NEW YORK—Billy Petrolle, Fargo, N.D., knocked out King Tut, Minneapolis (4); Eddie Ran, Poland, stopped Billy Light, St. Paul (9).

DAYTONA BEACH, Fla.—Sammy Mandell, Rockford, Ill., knocked out Dick Gore, Jacksonville, Fla. (4).

CHICAGO.—Baxter Calmes, Wichita, Kas., knocked out Eddie Anderson, Detroit (2).

ST. PAUL.—Norman Brown, Chicago, defeated Frank Battaglia, Winnipeg, Man., foul (4).

SAN FRANCISCO.—"Battling" Dozier, Wichita, Kans., outpointed Andy Divodi, New York (10).

HOLLYWOOD, Cal.—Billy Townsend, Vancouver, knocked out Bobby Reister, Alhambra, Cal. (6).

DELORO DEFEATS BONARLAW TEAM

One Period of Overtime is Necessary Before Winner is Declared.

SCORE IS 2 TO 1.

MARMORA, February 28 (Examiner Correspondence). — Deloro defeated a Bonarlaw Combine team at hockey on the Stirling Rink the other evening by the score of 2-1. Ten minutes of overtime were necessary to decide the winner, Pete McCoy getting the winning goal with two minutes of play to go. The game was fairly clean, Bonarlaw getting the only penalties (two) which were handed out. Murray in the Deloro nets was in the spotlight all the evening, some of his saves being sensational. Fred Callery of Deloro was in goal for Bonarlaw. His play was excellent, and he had no chance on the shots which beat him. Thus Deloro obtained the last of three victories over Bonarlaw.

The following team did duty for the Smelters:

Goal, R. D. Murray; right deefnce, S. J. Sanderson; left defence, J. McCrodan; left wing, C. Clemens; left wing, S. McCoy; centre, C. R. Quinn; subs., M. Corrigan, J. O'Neill, E. Mantle, and E. Phillips.

Goal scorers for Deloro, J. McCrodan and C. McCoy; fo Bonarlaw, M. McGee.

Referee—"Happy" Day, Stirling. Timekeeper—H. Phillips.

Thus was the curtain run down for another season on local hockey.

NORWOOD BEATEN BY KEENE GIRLS

Bridgenorth Juniors Are Beaten on Keene Ice 17 Goals to 13.

KEENE, February 28 (Examiner Correspondence). — On Thursday evening the Keene girls' hockey team played a game with Norwood, the score resulting in 2-0 in favor of the Keene girls.

The following are the line-ups:

Norwood C Defence, Della Rogers and Georgina Beavis; right wing, Gena McNeely; left wing, Jean Webb; centre, Mildred Rogers; subs., Blanche Baker and Lena Rogers; goal, Rhoda Rogers.

Keene — Defence, Kay McCarthy and Mary McCarthy; right wing, Dot Gainor; left wing, Helen Nelson; centre, Marjory Brown; subs., Edith Nelson, Dot Chapman, Roberta Gainor and Jean Cameron; goal, Lois McCarthy.

Referee — Mr. Ware. Coaches were Lionel Nelson for Norwood and Andrew Shearer for Keene.

KEENE WINS.

On Thursday evening the Bridgenorth Juniors came to Keene, and in spite of soft ice, the two teams played a good game, Keene winning by a score of 17-3. The following are the line-ups:

Bridgenorth — Goal, Jimmie Cole; right wing, Len Forsythe; left wing, Bert Jopling; right defence, Ralph Jopling; left defence, Frank Jopling; centre, Jeff Hardill; sub., Don. Jopling.

Keene — Goal, Stanley Stillman; right wing, Ross Comrie; left wing, C. Nelson; right defence, F. Brown; left defence, Jack Gall; centre, S. Comrie; subs., Malcolm McFarlane and Ted Walsh.

GREYS ELIMINATE NEWMARKET 3-1

Owen Sound Juniors Overcome One Goal Lead of Opponents From First Game.

BRILLIANT HOCKEY.

OWEN SOUND, Feb. 28.—The Owen Sound Greys will go on in their quest for the O.H.A. Junior title of 1931, while the Newmarket lads will retire for the season as a result of sixty minutes of the most thrilling hockey this hockey-famous town has seen in years, when the Greys overcame the one-goal lead Newmarket had obtained in the first game on their home ice Wednesday evening. The Greys won last night by 3 to 1, while the Newmarket team tock the first game by 1 to 0.

The game was a terrific affair from the opening gong to the final bell, with both teams using every hockey trick they had. Not only was it a test of hockey ability, but it was also a great test of the condition of the players.

The crowd, which filled the old Riverside Arena, scene of many famous hockey matches, was kept on its feet until the final goal was scored. The game was never really decided until the sound of the final gong was heard. Though local fans had every confidence in the Greys, Newmarket's play was such that there was no feeling of assurance, even with a one-goal lead on the round.

SPENCE RINK WINS CASEMENT TROPHY

W. G. Morrison Loses Out By One Shot With Total of 12 Against 11.

LAKEFIELD, Feb. 28 (Examiner Correspondence).—With a one-shot lead Skip Spence's rink beat W. G. Morrison's squad in the finals for the Casement Trophy here on Tuesday last. The personnel of the rinks was as follows:—

W. Hamblin	E. W. Bailey
N. S. Osborne	Rev. T. N. Wesley
N. A. Moore	Dr. J. S. Gibson
P. Spence	W. G. Morrison
Skip.....12	Skip.....11

All Star Choice In National League

Following is the 25th of a Canadian Press series of all-star teams of the National Hockey League by Hockey editors in N. H. L. cities.

By Joe Williams, the Telegram New York city:

First Team—Worters, (N. Y. Americans) goal; Hitchman, (Boston), right defence; Johnson (N. Y. Rangers), left defence; Morenz, (Canadiens), center; W. Cook, (N. Y. Rangers) right wing; March, (Chicago) left wing.

Alternate Team—Gardner (Chicago, goal; Dutton, (N .Y. Americans), right defence; Shore, (Boston) left defence; Stewart, (Maroons), center; Conacher (Toronto), right wing; F. Cook, (N. Y. Rangers), left wing.

Desert Chief Wins Buckhurst Handicap

LINGFIELD, England, February 28 (C.P.). — J. J. (Jock) Witney's Grand National candidate Easter Hero, was defeated yesterday in the two - mile Buckhurst Handicap steeplechase by Major C. K. Davy's Desert Chief.

Easter Hero, an overwhelming favorite in the betting, made all the running and cleared the last fence four lengths ahead. Desert Chief, coming like a whirlwind, just nipped the United States horse at the wire.

The crowd was in a frenzy of excitement as the British jumper stuck his nose in front of Easter Hero.

Major J. B. Walker's Starbox was third. The purse was $750.

If you buy out of town, and I buy out of town, and all our neighbors buy out of town, what in thunder will become of our town? Ever think about it?

C.G.E. TOOLROOM DEFEATS COGS, NORWOOD IS ASSURED OF PLACE IN EAST PETERBORO PLAY-OFFS

Electric Outfit Are Now on Even Terms With the Clubmen.

SCORE 4 GOALS TO 1.

Teams Will Clash Again on Monday Night in Last Scheduled Game.

Getting down to business in the dying moments of their do-or-die battle with Cogs last night, C.G.E. Toolroom turned in a 4 to 1 victory, placing them on even terms with the clubmen in the race for a playoff berth in the East Peterborough Hockey League. As things now stand, Lakefield is in first place Norwood is sure of a playoff for second place and will meet the winner of the next game between Cogs and C.G.E. which is scheduled for next Monday night. In the event of the two local teams failing to break a possible tie score in three periods of overtime, they would each be credited with a point, allowing Norwood to slide into the championship finals with Lakefield, the Easterners having amassed a total of twelve points. Cogs and C.G.E. have ten points apiece.

Red Creighton and Hayden, each with a brace of counters brought about the downfall of the cogs. All four counters were cleancut and left no room for doubt. Ted LeBarr scored the lone tally for his team. Both goaltenders put in an active evening, "Red" Hollingsworth keeping his team in the hunt when the Cogs were going strong while Payne had plenty from the toolmakers.

Hayden got the only goal of the first period after twlve minutes of play with a beautiful shot from the boards the puck slipping through Payne's glove into the nets. Tedd LeBarr evened it up after the first faceoff in the second period when he went down alone and shot through the defense for a soft tally. It took the toolmakers fifteen minutes to turn the tide of battle in the final period, Creighton doing the trick with a hard shot from the side. That was one time the leftwinger had the puck dead on and knee high. Three minutes later Creighton snared the rubber at the Cogs' blue line and went in along with only Payne to beat to give the Toolmakers a two-goal margin. With less than a minute to go Hayden got the final counter.

The fans will be doing themselves a favor as well as helping along the cause by giving Monday night's contest a big house. The scenery is set for a highly exciting exhibition of the winter pastime with nobody asking or giving quarter.

The teams:

Cogs—Goal, Payne; defence, LeBarr and Williams; forwards, Dallin, Maudsley and Jones; alternates Wilson, Cripps Jarvis.

C.G.E.—Goal, Hollingsworth; defense, Lackie, Howe; forwards, Creighton, Epps, Hatton; alternates, Ellis, Williams, Hayden Epps.

Referee—Max Board.

"Y" Seniors Are Victors Over Westclox By Single Point

SENIORS IN TIE WITH ST PAUL'S FOR FIRST PLACE

One of Closest Contests in Ladies' Basketball This Seasons Ends in 6-5 Decision.

WESTCLOX PLACE SECOND.

Winners Take Early 4-1 Lead on Series of Fouls By Clockmakers.

By a one point margin the "Y" Seniors, last year's city basketball champs, were victorious over the Westclox quintet in the final contest of the first series played in the Ladies' Basketball League last evening.

The count was 6-5.

As a result of their win, the Seniors finished their schedule in a tie with St. Paul's for first place honours and the Westclox are now tied for second place with the Senior School Girls.

The contest was undoubtedly the most exciting and the most strenuous checking affair seen at the local "Y" this season.

On a series of fouls by the Clockmakers, the Seniors were able to take a 4-1 lead and it was not till Elda Bradley, who had been working nicely all night, scored a beautiful long shot to bring her team within one point of the opposition, that excitement reached fever height and when Bella Thirnbeck tallied another long shot to put her team in the lead for the first time, the Westclox supporters literally raised the roof.

Scores Winning Point

However, it was the "Y's" turn to cheer when Sybil Sharpe, with only three minutes left to play, tossed an underhand shot that found the basket and closed the scoring, giving the Seniors the game 6-5.

On the night's play the Clock makers deserved a win but the checking was so close that few scoring chances were given either team and referee Charlie McLeish had his hands full trying to make the teams play open basketball.

Where the Seniors really showed their superiority was in the matter of foul shooting. They scored four singles on six opposition fouls while the Westclox tallied only once in five free chances but would have had the game clinched if they had been successful in at least half their attempts.

Star for Winners

For the winners Sybil Sharpe Isobel Davidson and Hazel Jackson showed nice form and were very dangerous on the attack. Only high class defensive work on the part of the Westclox stopped these players from going on a scoring rampage. "Ibs" Davidson tallied twice on free chances and Sybil Sharpe brought the game out of the fire with her clever tally three minutes from full time.

As stated before, the Westclox played a better brand of ball than the winners but appeared weak in basket work. Leona Kingdon had several fine shots that simply refused to go in and Hazel Foster had some difficulty.

Dot Webb played a steady game on the rear guard, but her play was marred by three personal fouls that proved costly, and the other defence players broke up every "Y" attack that looked anyway dangerous.

All the forwards showed up well, Elda Bradley and Belle Thirnbeck scoring nice baskets, while Hazel Foster and Leona Kingdon scored singles.

The teams:

"Y" Seniors		Westclox
K. Haggart	forwards	H. Foster
I. Robinson		I. Thirnbeck
S. Sharpe		E. Bradley
I. Davidson	centre	L. Kingdon
H. Jackson	guards	D. Webb
G. Hewett		M. Mortimer
		S. Keown
		H. Joyce

Referee—Charlie McLeish.

Closely Matched.

Last evening's games marked the closing of the first series and left four teams closely matched for first and second place. The final standing at the close of the first series is as follows:

	Won.	Lost.
St. Paul's	5	1
Y Seniors	5	1
Westclox	4	2
Senior School	4	2
Y Elementary	2	4
Blue Petes	1	5
Wohelo	0	6

The first four teams, St. Paul's, Y Seniors, Westclox, and Senior School, will now be grouped in the Senior League and will play off for the Senior Trophy, emblematic of the city championship. The last three teams, Y Elementary, Blue Petes, and Wohelo, will be placed in the Junior League, and will play off for the junior championship of the city.

The first and second teams in both junior and senior groups will then play off in the final, allowing the second place teams another chance at the title. This is especially desirable in the senior group, where there is very little to choose between all four teams. The opening games of the second series, which will determine the city winners, will commence next Friday evening at 8.00 o'clock. All teams are requested to be present at least ten minutes before starting time, that the games may get under way at scheduled time.

At 8 o'clock St. Paul's and Y Seniors, the two teams tied for first place, will meet in what promises to be a fine exhibition, and at 9.15 Westclox and the Senior School team will fight it out. At 9 o'clock, in the only scheduled junior game, the Blue Petes will tackle the Y Elementary.

Next Friday's ladies' basketball bill should produce three fast and exciting contests, and the capacity of the Y.W. Gymnasium will undoubtedly be taxed to see these clever teams in action.

After Dominion Championship

SASKATCHEWAN CURLING CHAMPIONS

The rink above from the Saskatoon Curling Club will visit Toronto next week to try and capture the Macdonald's Brier trophy and the Dominion curling championship as representatives of Saskatchewan. The rink is as follows: Standing (left to right)—Percy Young, lead; W. (Billy) McArter, third. Sitting (left to right)—A. E. (Bert) Barbour, second; J. E. (Jack) Miller, skip.

THREE WEEKS OF CAMPAIGNING LEFT IN NATIONAL HOCKEY LOOP

Third Place in Both Divisions is Proving Bone of Contention to Contenders.

CANUCKS-LEAFS TO-NIGHT.

TORONTO, Ont., Feb. 28 (By George Maguire, Canadian Press Sports Writer).—Only three weeks of campaigning remain after to-night for the ten teams composing the National Hockey League. After that, come the play-offs and unless they strike an unprecedented slump four teams seem to have a dividend paying berth fairly well in hand.

Montreal Canadiens, dashing leaders of the Canadian section, have first place all to themselves and are looking forward to the championship series with Boston Bruins, leaders of the United States division.

The second place Toronto Maple Leafs are four points ahead of their nearest rivals, New York Americans. In addition the Duncanites have played two less games and are favored to finish just where they are. Their rivals in the junior loop are the speedy Chicago Blackhawks, who hold a one-point lead over New York Rangers.

Third place in both divisions is proving the bone of contention just now, Montreal Maroons, who are trailing the Amazing Amerks in the Canadian group by one point will probably occupy third place after to-night's schedule of two games. They meet the tail-end Quakers at the Forum and victory will hoist them into the coveted third place. The Munromen have beaten the Quakers once before, but on another occasion the Philadelphians won in overtime to the great disgust of the Maroons and their supporters.

Leafs-Canucks To-Night

The headline attraction brings together the Leafs and Canadiens at the Queen City. A sell-out was assured weeks ago and in addition to a record-breaking gate the colorful Habitants will be welcomed by movietone camera men who will endeavor to take the first complete picture of a big league hockey match with sound effects.

Five previous encounters between these speedy rivals resulted in three triumphs for the Flying Frenchmen and two for the Leafs. By a peculiar coincidence the losing team on each occasion has failed to tally more than once. Victory for the Torontonians tonight will even the series and at the same time strengthen their hold on the second rung.

The Montrealers have a safe lead and do not need the two points so badly, but out of sheer rivalry they will take the ice determined to down their speedy opponents.

On Sunday night the Americans return to the battlefront when they meet the Falcons for the third time. The game will be played at Detroit, which may help the Detroiters in their battle for third place in the southern section. They are three points behind the Rangers at present, their hope of President Frank Calder tossing out a recent Ranger victory over Chicago, due to a protest lodged by the latter team, having been squashed by the Commissioner's decision in favor of the New Yorkers. The Falcons will have to show their best form from now on. The teams have met three times before. Two of the tussles ended in stalemates, while the "A's" won the other contest.

Ottawa Senators travel to Chicago in the other scheduled fixture, and their recent undefeated record of four games may be halted by the Hawks, who have beaten them three times this season.

WINS FIRST CROWN.

ORMOND BEACH, Fla., Feb. 28.—(C.P.)—Martha Parker, Spring Lake, N.J., won her first Florida golfing crown here to-day, defeating Miss Kathleen Garnham, London, England, 4 and 3 in the final of the South Atlantic championship.

For radio communication with the South Seas area, a large station is being constructed at Koyama, Japan.

Orchestra, centre 12 rows	2.50
Balcony, first 2 rows	2.00
Balcony, next four rows	1.50
Balcony, remainder	1.00
Gallery, unreserved	.50

There are still many of the best seats left. ONLY don't put off getting yours another day. Send in your Mail Order NOW, with check or money order made payable to GRAND OPERA HOUSE

Don't neglect to inclose a stamped, self-addressed envelope so that your tickets may be mailed to you.

CHESS MASTER COMING TO CITY

Boris Kostich Will Take on All Comers on Thursday Night Simultaneously.

Peterborough will have an opportunity Thursday evening of next week, to see a world's chess master play chess. An effort is being made by a number of our local chess enthusiasts, through Secretary G. H. Roper, of the Y.M.C.A., to bring Boris Kostich that evening to play simultaneously all who desire to play with him. There is a possibility if time permits that Mr. Kostich may give an exhibition of blindfold play against several players. Mr. Kotich is in Toronto this week giving exhibitions in connection with the leading chess clubs of that city. Thursday night in an exhibition in the Toronto Chess Club, against 18 players, including Mr. Morrison who was for many years Canadian champion, Mr. Easton, the city champion, Mr. Kostich did not lose a game, having 15 wins and three draws.

A recent issue of the British Chess Journal gives a report of the Chess Masters' Tournament, held in the Mediterranean Palace, at Nice, last summer. In this tournament Mr. Kostich stood fourth, being only two points behind the winner, Dr. Tartakower. On one occasion Mr. Kostich played Capablanca for the world's championship.

Never before have the citizens of Peterborough had an opportunity to see such a player in action. It is proposed to make a slight charge for admission, possibly 15 cents and a slight charge for playing Mr. Kotich. Any surplus over and above the expenses will be given to the city relief association. Any citizen who would like the privilege of playing may make arrangements to do so by telephoning Mr. Vernon Cole, 'phone 3389 or 275.

Elisabeth Risdon and Leonard Mu dle in "Strange Interlude," at the Grand Opera House, Monday, March 9.

DELEGATES GATHER FOR C.R.U. MEETING

Discussion of Forward Pass One of Most Important Items on Agenda.

TORONTO, Ont., Feb. 28.—(CP)—Delegates representing every major football organization in Canada gathered here this morning for the opening session of the Canadian Rugby Union annual meeting.

There is much business on the agenda. In addition to the various routine reports to be read and discussed the delegates today are faced with the solving of the enigma of Canadian football—the forward pass.

Every organization affiliated with the parent body has recommended adoption of the play in all series during the 1932 session. Several unions, however, vary greatly in the form they desire the toss to be incorporated in the prevailing code.

The Canadian rules commission has never been noted for hasty decisions nor introduction of rules which have not been thoroughly tried. So it is considered unlikely the request of certain affiliated bodies for adoption of the forward pass in its entire United States form will meet with approval.

Several leagues in both eastern and western Canada have used the forward pass in various styles during the last few years with the consent of the C. R. U., and the play has grown more popular each season and most of the delegates here appeared agreed on one point and that is something definite should be done to either have the pass included in all series or abolish it altogether.

Two Toronto Cyclists In 50th Bicycle Grind

NEW YORK, Feb. 27.—(CP)—With all the elements which go toward making "sleepless week" a success, New York's 50th international six day bicycle race will get under way tomorrow following the customary preliminaries in the form of sprints and motor paced races at Madison Square Garden tonight. Two new names are on the listof riders along with 28 veterans of previous six day grinds. Seventeen foreign riders, representing seven nations, will compete with 13 from the United States. The two newcomers are Lew Elder of Toronto, Ont., who will pair with Torohy Pedden, also of Toronto, and George Kroschel of Germany, paired with Paul Beschenhagen.

THEATRES

AT THE REGENT

"THE PRINCESS AND THE PLUMBER"

Graustark and Ruritania, countries that never existed except in fiction, are nevertheless better known to millions of readers than many actual European states.

How many persons know of Andorra, that tiny little country nestling in the Pyrennes between France and Spain, or of Luxemburg, an independent grand-duchy on the Belgian-French-German border? For every individual who knows of these two, there are a dozen who recall the adventures of Rudolph and Queen Flavia in Zenia, and the tribulations of Beverly in her Graustarkian realm.

Who knows of Liechtenstein, 65 square miles of principality between Switzerland and the Austrian Tyrol, or the even tinier republic of San Marino, with its 38 square miles of territory, in eastern Italy? Ironically enough, the smallest state of all, Monaco, is probably the best known of the five, although even it must yield the palm of recognition to the mythical kingdom of Anthony Hope and C. E. McCutcheon.

These imaginary states have offered a haven to scenario writers as well as novelists, when the tender feelings of a foreign country might be brutally irritated were it to be called by name. Inventing a non-existent state avoids lacerated sensibilities and ruptured diplomatic relations and at the same time does no harm to the story, as the late O. Henry discovered when he created the fictional republic of Anchuria as the locale for his South American stories of intrigue.

The newest addition to the Gazetteer of Countries That Never Were is Daritzia. According to its own sign-boards, Daritzia is somewhere between Vienna and Budapest but to the southward, placing it in the region vaguely denominated as the Balkans.

Daritzia is the country Alice Duer Miller created as the background for her well-known story, "The Princess and The Plumber," which appeared serially in a national magazine, and which soon comes to the screen under the same title, with Charles Farrell and Maureen O'Sullivan in the title roles, and H. B. Warner also featured. Alexander Korda directed this picture which comes to the Regent Theatre on March 4th, 5th and 6th.

The picture is being sponsored by The Examiner Cheer Fund, which will receive 25 per cent of the gross receipts for its relief work.

AT THE GRAND

"STRANGE INTERLUDE"

"Strange Interlude," the Eugene O'Neill Pulitzer Prize play that the original producers, the Theatre Guild, Inc., will bring to the Grand Opera House on Monday, March 9, is said to possess to a marked degree, those qualities which lay hold of the imagination. The five hours and more that one must spend in the theatre viewing this extraordinary drama, are filled with interest-sustaining moments right up to the final curtain. Starting promptly at 5.30 in the afternoon, the final curtain does not descend until 11 o'clock, but there is a dinner intermission from 7.40 to 9.00 p.m.

"Strange Interlude" brushes away conventional play construction and brings back a heritage of the past known to the stage as the "aside" which was relinquished by playwrights years ago But those "asides" can almost be said to constitute the whole show with "Strange Interlude," for through them each character reveals his innermost thoughts, and as in all the O'Neill plays, there is no mincing of words.

From the wide publicity that "Strange Interlude" had had as the outstanding box office hit of the past theatrical decade, and its heavy sale in book form, said to the greatest of any modern stage play ever published as a book no doubt its story is pretty generally known. It relates how Nina Leeds, a neurotic maiden, thwarted in her desire to marry her aviator sweetheart before he went overseas to give his life, and obsessed by thoughts that she will never bear his offspring, marries Sam Evans under the advice of well-wishing friends But Sam is proven by his own mother to have a strain of insanity in his blood coming down through each generation on the paternal side. From there on, O'Neill has constructed a drama which will undoubtedly be provocative of more discussion than anything the local stage has had to offer in years.

A brilliant cast is promised five of whom were in the original production, including many notables of the stage, such as: Elisabeth Risdon, Leonard Mudie, Blaine Cordner, Richard Barbee, Maud Durand, Maurice McRae Ethel Westley, John J. Burns, Jack Grattan.

BIG BRITISH FIRM COME TO CANADA

Hield Brothers, Yorkshire Woollen Company, to Establish Plant at Kingston.

CAUSED BY TARIFF.

LONDON, Feb. 28 (C.P. Cable).—Negotiations have been practically completed for taking over the textile mill and property of the Dominion Textile Company at Kingston, Ont., by Hield Brothers, large serge makers of Crosshills, and Oxenhope, Yorkshire. This announcement was made to-day by Hugh Hield, managing director of the British firm.

The British company intends to eventually establish at Kingston a unit of 100 looms, employing about 150 workers.

The establishment of spinning plants in Canada is also contemplated by the British firm, Mr. Hield announced, work to start early next summer.

"Without taking such steps," Mr. Hield said, "the Canadian tariff revision would render it impossible for us to continue doing the same amount of trade with Canada."

Best Remedy for Cough Is Easily Mixed at Home

You'll never know how quickly a stubborn cough or chest cold can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It's no trouble at all to mix and costs but a trifle.

Into a 16 oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup or strained honey to make 16 ounces. This saves two-thirds of the money usually spent for cough medicine, and gives you a purer, better remedy. It never spoils, and tastes good—children like it.

You can actually feel its penetrating, soothing action on the inflamed throat membranes. It is also absorbed into the blood, where it acts directly on the bronchial tubes. At the same time, it promptly loosens the germ-laden phlegm. This three-fold action explains why it brings such quick relief even in severe bronchial coughs which follow cold epidemics.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

A BEDTIME STORY

By Howard R. Garis

UNCLE WIGGILY AND THE MAPLE WAX

Uncle Wiggily, with his forty sixteen bunny boys and girls, was out in the woods near a bonfire. Over the fire hung a large copper kettle in which was boiling some of the sweet sap from maple trees. Uncle Wiggily was making hot maple candy for his children.

Oh, yes, Baby Bunty, the little orphan rabbit, was also there. And it was Baby Bunty who made someting happen all of a sudden, which was where we left off in the story last night.

The fire was hot, the maple sap was bubbling and boiling so it would become thick, sweet and sticky enough to be made into syrup and candy and Uncle Wiggily had turned his back to see if Buster and Custer were bringing up more sticks to be tossed on the blazing fire when, all of a sudden, Baby Bunty said to Jingle:

"I'm going to get a taste."

"A taste of what?" whispered Jingle, for whispering was the way Bunty talked when Uncle Wiggily had his back turned.

"I'm going to get a taste of the maple candy," went on Bunty.

"Oh, it's so hot if you dip your paw in now, to take a taste, you will be burned," whispered Jingle, who was Jingle's twin sister rabbit.

"I'm not going to dip my paw in the kettle," said Bunty.

"What, then?" asked Jingle and Jangle both together as twins often speak.

"A stick," Bunty answered and she showed Jingle and Jangle a long tree branch she had picked up off the snow covered ground. There was no snow close to the fire, of course, for the heat had melted it. "I'm going to stick this stick in the kettle," went on Bunty, "and when I take it out some sweet hot maple candy will be on it."

"Oh!" exclaimed Jingle, "do you think you ought to do that, Bunty?"

"I'm going to, anyhow," answered the little orphan rabbit. "Unkie Wig won't see me because his back is turned."

Jangle was just going to say she thought Bunty ought not to stick the branch in the boiling maple candy to get a taste ahead of any of the others, but before Jangle spoke Bunty stepped close and held out the long stick.

"Be careful!" whispered Jingle.

"Oh, the stick won't feel the hot sap," said Bunty. "And I want to taste the candy so much I can't wait!"

Just then Uncle Wiggily turned and saw what Bunty was doing. Only he sid not know she was going to dip the branch in the kettle. He thought she was going to toss the wood on the fire to make the blaze hotter. So the rabbit gentleman called:

"That's a good little bunny child. Put some more wood on the fire, Bunty. The hotter it is the quicker the maple candy will be ready."

Then Bunty felt ashamed and not wanting Uncle Wiggily to think she was going to do something good when she was going to do something bad the little orphan bunny said:

"Oh, Unkie Wig! I wasn't going to put this stick on the fire. I was going to dip it into the candy to get a taste!"

"You mustn't do that, my dear!" said the rbit gentleman. "Not only would it make the maple candy dirty by putting an old stick in, but you would be badly burned if you tried to eat the syrup that stuck on your stick. Boiling maple sap is very hot."

"Al right, then, I won't do it," said Bunty. "But I can hardly wait."

"I know," said Uncle Wiggily, sniffing the air, for the maple candy smelled wonderfully good. "It is hard to wait, but it is worse to be burned. But I think the sap is boiled enough so I can make you a little sweet wax and you can tell how it is going to taste."

"Oh, goodie!" cried the bunny boys and girls. They knew what maple wax was. Before the boiled sap is thick enough for syrup if a little is taken from the kettle and poured on the clean snow to cool, it turns into a thin sheet of candy, called "wax," and it is very good to eat, but very sticky.

"Come on in, everybody!" called Buster, as if he were playing hide and go seek. "Daddicums is going to make maple wax!"

The bou and girl rabbits who had been gathering wood for the fire came running toward the blaze and boiling kettle. Uncle Wiggily took a tin dipper and lifted out some of the hot, boiling sap.

"Don't get in my way, please!" h called to the children as he ran toward a clean patch of snow beneath the trees. The rabbit gentleman was pouring the hot sap on the cold snow to make maple wax, when, all of a sudden, something else happened.

(Copyright, 1931, by Goward R. Garis.)

Mount Pleasant

This winter has been the mildest on record, with the least snow. The roads have been excellent the entire winter. Motorists have been able to reach the highway daily throughout the season, either by the 14th Concession or the 12th Concession.

The prevailing mild weather with the occasional thaw during the day has been a great help to the cisterns, many of which have been dry the greater part of the winter.

Mr. Harry Bland was a visitor in Peterborough on Friday last.

Mrs. M. Best spent Thursday at her home here.

The many friends of Miss Helen McLean will be pleased to learn that she is convalescing favorably in Wellesley Hospital, Toronto, after an operation for appendicitis. Mr. Eric McLean returned home from Toronto on Friday, Mrs. McLean remaining in the city for a few days.

Mr. and Mrs. B. Scott spent Tuesday evening with friends in the village.

Mr. Elmer Windrim attended the Winter Horse Show in Millbrook on Thursday.

Miss M. Thorn spetn Sunday with friends in the village.

Mr. and Mrs. T. E. Morden were visitors in Peterborough on Saturday.

Mrs. E. Windrim and children, Pearl and Billie, spent Thursday at the home of Mr. and Mrs. F. Eggleston, Ida.

Mr. and Mrs. R. Ruth were visitors in Peterborough on Friday.

FRUIT GROWING ON PRAIRIES

The development of fruit growing on the Canadian Prairies has been one of the features of agricultural progress in recent years in that part of the Dominion. Patches of native gooseberries, currants, and raspberries have evolved into orchards containing many varieties of plums, apples, cherries, and small fruits. This explanation has followed closely on the widespread planting of shelterbelts.

Paterson, Campbell Appeal Decision Held

TORONTO, Ont., February 28 (C.P.). — Donald S. Paterson and Austin R. Campbell, former Toronto mining brokers, had been sufficiently punished by "the loss of all their money," and were "not of a criminal mind," Peter White, K.C., pleaded before the Second Divisional Court at Osgoode Hall to-day, in terminating the argument on the brokers' appeals. Mr. White was speaking specifically of the sentence of three years against Paterson on conspiracy charges, but made his argument in the main general. D. L. McCarthy, K.C., spoke on behalf of Campbell late yesterday. Judgment was reserved, and the court immediately proceeded with the last of the brokerage appeals which have been before the Appellate Division for the past two weeks, that of Malcolm Stoble and Charles J. Forlong, of the defunct brokerage house of Stoble-Forlong & Company, Limited.

DEMAND PROBE.

WARSAW, Poland, February 28 (C.P.). — The Polish Charge d'Affaires at Moscow has delivered to the Soviet Government a demand for a thorough investigation of a burglary at the Polish Legation on the night of February 16, in which it is charged, a member of the Soviet secret police was found prowling through the offices in the absence of the Polish Minister.

Felt Tired Out All Day Could Not Sleep at Night

MILBURN'S HEART NERVE PILLS

Price 50c a box

Mrs. Aldamond Lalonde, 2481 St. James St., Montreal, Que., writes:—"After a spell of the grippe I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my heart and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your Pills to everyone."

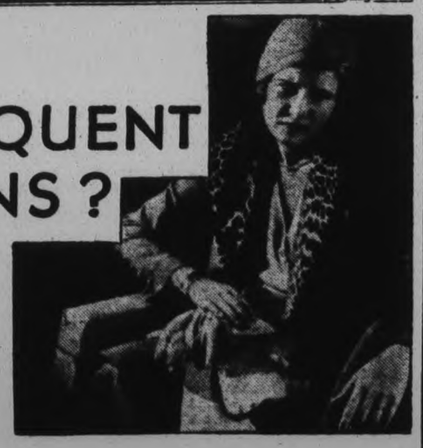
FREQUENT PAINS?



NEVER let a throbbing head interrupt your shopping! Or other pain that Aspirin ends so quickly. These harmless tablets are an antidote for the most acute pain. Relief is almost instantaneous. Taken in time, they will break up a cold and head off discomfort. They'll relieve your suffering from neuralgia, neuritis, or the like, at *any* time. Thousands of women depend upon Aspirin tablets every month to spare them from those pains peculiar to women. These tablets do not depress the heart; they may be used as frequently as there is need of their quick comfort. So, it's folly to endure any pain that Aspirin tablets could relieve so promptly. Get the genuine, which is always to be had at any drugstore.

EIGHTY PERSONS ATTEND ANNUAL ST. JAMES' CHURCH S.S. BANQUET

Sidney Turner Gives Address on Essentials of Successful Teaching.

PLEASING PROGRAM.

An annual event of great interest is the Sunday School banquet in St. James' United Church which was again tendered by the Church Board Last night the officers and teachers assembled in Wesley Hall to the number of eighty. During the supper hour the Sunday School orchestra provided a fine musical program. The efficient service at the tables made for the comfort and enjoyment of the guests. Community singing, accompanied by the orchestra, opened the program. A. E. Prest, superintendent of the school, presided. A short but pithy address was given by Ashton Fife of the Intermediate Department on the subject of sports in the Sunday School class. This question is one of extreme importance, which has been discussed from many angles. An instrumental trio by Miss Olive Prest, Mr. Searles and Mr. Rusaw was a pleasing interlude.

Essentials for Success.

The Intermediate Department was again represented on the program by Sidney Turner who spoke on "The Essentials of a Successful Sunday School Teacher." His talk was divided into four sections, Purpose, Plan, Practice, and Prayer, in which he outlined the part of the teacher in each of these respects. The purpose of every teacher should be first of all to impart the Word of God and to do this most effectively he should have a well-defined plan. He should practise in his own life all the truths he teaches. To crown or make possible our purpose in teaching, our plans and our practice, we must link up our work with God through prayer.

Mr. Prest and Ashton Fife gave a much enjoyed duet "May I come in?"

"It is a delight," said Rev Mr. Moorhouse, pastor of the church, "to get in touch with the youth of the Sunday School and to realize their potentialities. In this respect it is interesting to imagine what the future holds for these boys and girls and what their Sunday School training will mean to them. Even though reckless or careless, every pupil can be appealed to in some way. They all have their problems and want a solution as only a Christian teacher can give it."

A variation in community singing was brought about when each S.S. department contributed one verse of a hymn, "Trust and obey," while all joined in the chorus. This was followed by a piano duet by Misses Aileen Rose and Olive Prest. A series of impromptu addresses by members of the Bible Classes proved helpful and inspiring. These included William McLaren, teacher of the Cognawaga Class, who has had 26 years' teaching experience, Mrs. R. B. English, teacher of the Cheerful Workers' Class, W. D. Sargent, teacher of the Treasure Seekers, Mrs. Moorhouse, of the King's Own Class, Miss Mary Collins of the Primary Department, Miss Maude Collins of the Junior Department, and Mr. Church of the Brotherhood. Each testified to the privilege and joy that had been theirs in Sunday School work. Representatives from the Official Board were called upon and Messrs. C. F. Kitney, E. Frost, W. K. Sloan, and J. O. Fife responded, thanking the Sunday School as a whole for their co-operation and loyal support.

At the close of the program, a hearty vote of thanks was extended by Frank Kunst to the members of the Board and their wives who so generously tendered this banquet, and Mr. Moorhouse also expressed appreciation of the evidence of goodwill among the organizations of the church. The party joined in "God Save the King," bringing to a conclusion a very enjoyable evening.

See "The Princess and the Plumber" at the Regent Theatre, on March 4th, 5th and 6th.

"Now Able to Work"

Says Mr. K. A. Morrison, Breton Cove, N.S., who writes: "I have been troubled with a lame back and unable to do any work. I took a box of your Gin Pills and found them the best I have ever taken. I am now able to work. I keep Gin Pills in the house."

Gin Pills are very soothing to the kidneys. May save YOU from an acute kidney illness. Try Gin Pills, 50c a box.

National Drug & Chemical Co. of Canada, Limited, Toronto, Canada

F. D. MACKAY DIES IN NEW YORK CITY

Former Editor of the Peterborough Review Passes After Lengthy Illness.

RESIDED IN TORONTO.

F. D. MacKay, former Peterborough newspaper man, died in New York City on Thursday. Mr. MacKay came to Peterborough forty years ago as a young man from his home in Belleville. He started his newspaper career with the Peterborough Review, succeeding S. R. Armstrong as editor.

After more than ten years with the Review he became associated with Robert Neil in the Machine Telephone Company, and for some time worked earnestly in trying to introduce the Lorrimer teleuhone into this district.

Later he moved to Toronto where he has lived since, his home being at 22 Nanton Avenue. He had been in ill health for some time and several years ago made a trip to England for treatment.

Funeral arrangements will be announced later.

Ottawa Carpenter Victim Of Poisoning

OTTAWA, Ont., Feb. 28 (C.P.). — Apparently a victim of poisoning, Phillas Berube, 34-year-old carpenter of Ottawa, died in hospital early to-day. His wife found him in bed unconscious when she returned home last evening, following a brief absence. At hospital it was said the tongue of the deceased was badly burned, while an odor of carbolic acid hung over the body.

Mrs. Berube told police she could assign no reason why her husband should take his own life. After viewing the remains, the coroner said he would decide later as to holding an inquest.

TWO ROBBERS TO BE EXECUTED

BELGRAVE, Jugoslavia, Feb. 28.—(AP)—Two members of a band of robbers recently run down in Jugoslavia today were sentenced to death. Nine others were condemned to life imprisonment at hard labor and the remaining twenty-five were given sentences totalling 269 years. The specific charge on which they were tried was the murder of twenty men.

THE OUNCE OF PREVENTION

The old saying that an ounce of prevention is worth a pound of cure has no truer application than in the case of fire.

Carefulness costs nothing, yet thousands of dollars are saved every day, for instance, by the matches that are not thrown away while burning.

Every child should be taught to recognize and appreciate the dangers that lie in all exposed flames.

Of the ten thousand annual deaths by fire in the United States, one-third are children under ten years of age.

Mother Conception Prefers Cell Life

MEXICO CITY, Feb. 28 (AP) — Counsel for Mother Conception Acevedo de la Llata announced to-day that they would seek to have her transferred here from the Tres Marias prison colony, where she is serving a twenty years sentence after conviction as the moral author of the assassination of General Obregon.

Fernando Ortega, her attorney, said that she was being forced to serve as a waitress at the prison colony. She has served two years there, but rather than continue she would prefer, he said, to spend the rest of her days in a cell.

NOTICE TO CREDITORS.

IN THE MATTER OF THE ESTATE OF ROBERT FAIR, Late of the City of Peterborough, in the County of Peterborough, Merchant, Deceased.

NOTICE IS HEREBY GIVEN, Pursuant to the Trustee Act, that all Creditors and others having claims against the Estate of the said ROBERT FAIR who died on or about the fifteenth day of January, 1931, are required on or before the Thirtieth Day of March 1931 to send by post prepaid or deliver to the Toronto General Trusts Corporation, Bay Street, Toronto 2, one of the Executors of the last Will and Testament of the said deceased, their Christian and surnames, addresses and descriptions, the full particulars of their claims, a statement of their accounts, and the nature of the securities if any, held by them.

AND FURTHER TAKE NOTICE, That after such last mentioned date, the Executors of the Estate of the said deceased, will proceed to distribute the assets of the deceased amongst the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that the said Executors will not be liable for the said assets or any part thereof to any person or persons of whose Claim notice shall not have been received by them at the time of such distribution.

DATED the twentieth day of February, 1931.

PECK KERR & McELDERRY,
Solicitors for The Toronto General Trusts Corporation and Hugh Allen Fair, the Executors of the Will of the said Deceased.

No. 94—8.45 p.m. for Port Hope, Cobourg, Kingston, Montreal, New York, Boston. Carries through sleeper from Peterborough to Montreal Daily except Saturday and Sunday.

THE BEASTS OF TARZAN No. 84 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

When the battle was over only two of the pearl schooner's mutineers remained alive. They had found sanctuary in the forecastle. Tarzan brought them forth and without promises of immunity from punishment forced them to help work the vessel. A stiff breeze had risen with the sun, and with canvas spread the pearl schooner set in toward Jungle Island.

Here they picked up the fellow who had aided Tarzan, and here the ape-man bade farewell to Sheeta and the Apes of Akut. As long as their eyes could span the distance, Jane and Tarzan, standing upon the deck, saw the lonely figure of the shaggy anthropoid motionless upon the surf-beaten sands of Jungle Island. As the vivid tropical twilight faded, Tarzan of the Apes murmured wistfully: "Farewell—my faithful friends. I shall remember you always."

After several days the schooner fell in with H.M. Sloop of War "Shorewater." Through its wireless Lord Greystoke learned that which filled his and his wife's heart with joy and thanksgiving—his little son was safe at his town house. It developed that Rokoff had hidden the child in a low den where nameless infants were harbored, but a woman informant had enabled Lord Greystoke's solicitors to ransom him.

Lord and Lady Greystoke presently arrived in England for a joyful reunion with their child, but Tarzan of the Apes was not permitted long to enjoy his fancied safety and the comfort of his wealth and position. What made him forsake them—what befell him in his native Africa and how he overcame new perils is, as Kipling says, another story. That story is told in "THE SON OF TAZAN." WATCH FOR IT.

All members and their friends cordially invited to attend the open meeting.—Wm. J. Smith, Dictator. 1d-51-256

BELL TELEPHONE CO. ADDS NEW SERVICE

Accounts May Be Paid at 647 George Street N.

Local subscribers of the Bell Telephone Company will be pleased with the announcement by H. H. J. Johnston, District Manager, of the inauguration of an added customer service.

Effective March 2nd, subscribers living in the North End of the city will be glad to know that they may pay their telephone accounts without additional charge, at M. E. Finn's drug store, 647 George street.

As in the past, accounts may also be paid at the Royal Bank, George and Hunter street, as well as Vincent Sullivan, druggist, 61 Hunter street east; Bert McLeod, druggist, 55 Park street.

This makes the third addition to our agencies since August 1st, 1930, which service it is felt will afford a greater convenience to our subscribers in all parts of the city.

IN MEMORIAM

MILLS—In loving memory of George Mills, who entered into rest February 28, 1924.
—Sadly missed by Mothers, Brother and Sisters.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

MADE GOOD RECOVERY

Dr. Jonathan Goforth, veteran Presbyterian missionary and known by many citizens of Peterborough, has made a splendid recovery from his recent operation and expects to leave for his mission work in Manchuria sometime early in the spring.

"CYMRU AM BYTH."

To-morrow is St. David's Day, and the Welsh community in this city will observe the festival of their patron saint, by a corporate attendance at St. George's Anglican Church in the evening, when a sermon will be preached by Rev. J. L. Hughes, himself a native of that mountainous little principality across the seas.

On Monday evening the members of the Welsh Society of Peterborough will foregather at the Empress Hotel to do honor to the land of their birth in speech and song.

Of St. David himself little is known or written, beyond that he lived in the fifth century and founded the See of St. David, at that time known as the district of Menevia. He was a true Christian character, who on account of his exemplary life and devotion came to be regarded as its special benefactor and guardian.

CARNIVAL AT NORWOOD.

A masquerade carnival is being held at Norwood next Tuesday night. Its attractive program should appeal to some of Peterborough's skaters who can make the trip.

CHILDREN'S CLOTHING NEEDED

There is urgent need at present of clothing for all sizes of small children; also for women's dresses. The supply at the Relief Rooms is practically exhausted, but requests are being made constantly. A boy's suit has been asked for, also several houshold necessities, like cook stoves, double mattresses (three of these are needed), blinds for windows, a mattress for a baby's cot, a baby carriage. And there is a special request for dishes and for cooking utensils; pots and pans, in homes where it is impossible, through lack of funds, to buy them.

Examiner Cheer Fund.

The Examiner acknowledges with much gratitude donations to its Cheer Fund during several weeks past, of many useful articles for the home, also donations of cakes from the Old Tyme Club, on several occasions; of cakes and sandwiches from the Y's Men's Club, and from Miss Isabel Elcome's class of George street Church Sunday School; 6 bags of peas and beans from J. A. Dewart; Charles H. Huffman, $5; a Colored Gentleman (second donation) $1; a Friend, $2; M'ss M. Brown $1.50; Mrs. Anderson, $5; a Friend, $3; Knox Church Young People, $5; A Friend, $1; Mrs. S. A. Oke, $2; A Friend, $5; A Friend, $2; M. E. M. $2; a Boston Friend $5; Mrs. Leonard, Lake street, $1; potatoes from George Fairbairn of Lakefield; 2 bags vegetables from Mr. Thompson twenty-five miles out; $1 from the Sunshine Group of the C.G.I.T. of Knox Church; parcel of clothing from Miss Emma Brown, 191 Dublin street; a Friend, $1; Miss Emmerson ,parcel of comic papers; bag of potatoes from W. J. Lang, 690 George street; 2 bags potatoes from H. Cardwell; $2 from N.R.P.; sandwiches and cake from the A.M.O.S.; 28 yards flanellett, from girls of the Quaker Oats Company; baked pork and beans from ladies of St. Luke's Church; Miss A. Wood, $50.00.

The Examiner Fund is also indebted to Mrs. R. Pilling, who has made a large quantity of infants' outfits from flannellette.

We also wish to acknowledge gratefully, gifts of good, new and used clothing for children and infants in splendid condition from two Cavan friends: Mrs. Mary English and Mrs. Grace Sisson.

Citizens Responded In Very Noble Manner

The response to the campaign for funds for the Peterborough Relief Association has been exceptionally fine from all classes in the whole city and is very gratifying to those who are aware of the many forms of relief that are required in the city by those who are out of work at present. The prevalence of the bad colds and grippe in the city and district, makes it necessary for warm clothing, medicines, substantial foods and fuel to be on hand to take care of the sick so that no ill effects will be felt after.

The Relief Association is doing most effective work in conjunction with the City Charity Board through its relief offices and is not duplicating any of the work of other agencies.

IN MEMORIAM

WILSON—In loving memory of a dear father, Henry Charles Wilson, who died February 28, 1930.

I often sit and think of him,
When I am all alone,
For memory is the only friend that
Grief can call its own.

Like ivy on the withered oak
When all other things decay,
My love for him will still keep green
And never fade away.
—Sadly missed by daughter, Ethel.

See "The Princess and the Plumber" at the Regent Theatre, on March 4th, 5th and 6th.

BUSINESS MEN IN CITY REGARD

(Continued from Page 1)

should not be delayed", he declared emphatically, and proceeded to point out the advantages which the provision of a good highway means to the County in providing farmers in that territory a suitable avenue for the shipment of farm produce and livestock. From a tourist standpoint, he also declared the benefits of a through highway from Sarnia-Ottawa cannot be denied."

Harry C. Huffman, former chairman City Board of Works and ex-member of the executive of the Ontario Motor League—"I doubt very much whether the resolution of the County Council to the Provincial Government on this matter, will carry much weight. I hope it doesn't, he remarked in pointing out that Peterborough County is very late in its highway program as compared with surrounding Counties. He quoted as an instance the comprehensive highway program which has been undertaken in Northumberland County, adding that this county only possesses a stretch of highway from Fraserville-Peterborough and from here out to Fowler's Corners on the Lindsay highway. "This is the last County to squeal," he observed.

J. J. Duffus, executive member of Trent Waterway—Iroquois Trail Association—"The present need for economy is apparent; we have got to cut expenditures, and yet I consider it would be expedient to finish the work that was commenced last year on the portion of highway running out of this city for a distance of seven miles or so. I would like to see this completed, so as to provide another greatly needed approach to the city in keeping with its size and beauty. He was of the opinion that the municipalities concerned probably know better than anyone else whether or not they can shoulder the burden this year.

James Juby, Honorary President Peterborough Automobile Club: "I think it is a mistake for the County Council to take such action, and in view of the unemployment situation, believe the Government will be willing to go on.

City Not Consulted

Mayor Denne pointed out the benefit to the whole district of the construction of No. 7 highway east to Tweed and thence on to Ottawa. He expressed surprise at the hasty manner in which the County Council had reached the decision to petition Premier Henry to discontinue the construction of the new highway.

"They never consulted the City Council about it or even asked us for an opinion," stated the Mayor. "Before the Government decides to stop work on the highway it is likely that they will want to know the feeling of Peterborough citizens. The city shares the cost of the highway equally with the county and will certainly have a voice whether the road will be completed or not.

"Work started on this highway three months ago and the contract for the completion of certain sections of it have been let. I think it would be a mistake to endeavor to stop it now. The building of the highway will certainly aid in relieving unemployment by giving jobs to many in this district.

"There is another point, too. The locks' bridge has been condemned for some time and it is most necessary that a new bridge be built there immediately. One of these days a truck will go through the bridge. The Federal Government's share in the construction of the new bridge has already been placed in the estimates. This was done because the highway was being constructed, but if the building of the highway is stopped I doubt if the bridge will be built.

"Peterborough and district needs that highway. It will assist greatly in making Peterborough the marketing centre of a much wider district. A bigger Peterborough means a bigger market for the farmers' produce and a more prosperous farming community.

"Also, the new road would divert much of the tourist traffic that now goes along the lake front up into this district. It would aid in extending tourists into the lake district around Marmora and increase the tourist business throughout the Kawartha Lakes.

"Certainly," concluded Mayor Denne, "the Government will not be desirous to suspend construction of the road at this stage, after so much has already been spent upon it."

See "The Princess and the Plumber" at the Regent Theatre, on March 4th, 5th and 6th.

OVER $11,000 SUBSCRIBED TO RELIEF FUND

Fifty Per Cent. of This Amount Received in Cash According to Association Records.

SMALLER CONTRIBUTIONS.

The fund for the Peterborough Relief Association is still mounting upward. Over $11,000 has been subscribed to date, with over fifty per cent. of this amount received in cash. To-day's list shows the manner in which smaller contributions are coming in and these are just as welcome as were the large donations earlier in the campaign. From the Martin-Hewett Containers comes $109; from the staff of the Canadian Bank of Commerce, $23; from the National Grocers' employees, $50; and from the North Monaghan Ratepayers' Relief Association, $50.

The following is to-day's list:

Total reported previously...$11,053.56

Canadian Bank of Commerce Staff	23.00
Collegiate Staff (add.)	5.00
The Dickson Store	10.00
Martin-Hewett Containers	109.00
Wm. Leck & Sons, Ltd.	15.00
North Monaghan Ratepayers' Relief Association	50.00
J. A. Seger, North Monaghan	10.00
National Grocers' Employees	50.00
Magistrate O. A. Langley	7.00
J. H. Econs Luncheonette Shop	10.00
A Friend	7.00

Total to date.....$11,349.56

Of the above amount, a total of $5,937.97 has been received in cash; the balance in pledges.

OBITUARY

CHARLES REYNOLDS.

Charles Reynolds died in Whitby on Friday after an illness of 18 months. He was born in Kingston 82 years and 5 months ago, son of the late Mr. and Mrs. Thomas Reynolds He came to 570 Gilchrist street, Peterborough, from Ennismore, and lived in the city for 21 years. His wife predeceased him two years ago. Mr. Reynolds is survived by a daughter, Mrs. Albert Wease of New Toronto, and four sisters, Mrs. George Franks of Peterborough, Miss Reynolds of Ennismore, Mrs. S. McDonald of Rochester, N.Y., and Mrs. C. Maul of Batavia, N.Y.

The funeral will be held from Belleghem's Funeral Home at 2 o'clock Monday afternoon, Rev. G. H. Johnston of Bethany Tabernacle will officiate and interment will be made in Little Lake Cemetery.

WILLIAM ALBERT WRIGHT

The funeral of the late William Albert Wright took place from his home, 519 Bolivar street, on Wednesday afternoon, following a short illness in Timmins, Ont. Deceased was 27 years of age and is survived by his parents, Mr. and Mrs. Robert Armstrong; two sisters, Mrs. Charlie Forsythe of Bridgenorth, and Marjorie of this city; also two brothers, Robert and Keith, both of this city.

Service was conducted at Trinity United Church by Rev. D. Wren. Interment was made in the family burial plot at Little Lake Cemetery.

High Blood Pressure	Varicose Veins
HEART TROUBLE	ETC., ETC., ETC.

Good Health Restored

READ THESE TESTIMONIALS FROM GRATEFUL USERS OF THERONOID

CURED OF NEURITIS

Norwood, Ont.

Dear Sirs,—

I was suffering with Neuritis for twenty years and I got so bad my physician could not help me any more.

I decided as a last chance to try THERONOID, and after using it for one month I was completely cured. What THERONOID has done for me is more than I can express. It is simply marvelous, and I am sure that only those who have used THERONOID can really understand the due credit that I am trying to give it.

I feel that it is my duty to tell all the sufferers about it and to try and induce them to use THERONOID which will bring them Health and Happiness, for without health it is impossible to be happy.

Yours truly,

(Signed) HARRY GODIN.

STOMACH ULCERS BANISHED

Dear Sirs:

I suffered with ulcers of the stomach for about six months. Had doctored and dieted, in fact tried everything anyone told me to do, but without getting any relief.

A friend told me what the THERONOID had done for him and I decided to give it a trial. Believe me, gentlemen, I am thankful that I did, for I was getting relief in less than a month and in two months and a half I was completely cured.

Yours truly,

WHY NOT INVESTIGATE THERONOID. WHAT IT HAS DONE FOR OTHERS IT MAY DO FOR YOU.

PROVE AT OUR EXPENSE THAT THERONOID WILL BENEFIT YOU.

Toronto Man Kills Companion--Surrenders

MURDERED MAN IS FOUND SHOT ON OFFICE FLOOR

Ambrose Greenhill, Carrying .22 Calibre Rifle, Walks Five Blocks to Give Up.

BOTH MEN HAVE FAMILIES.

Prisoner Denies Domestic Troubles Were Cause—Gives No Reason.

TORONTO, Ont., March 2 (C.P.).—Walking five blocks through the downtown district early to-day with a 22-calibre rifle under his arm, Ambrose Greenhill, aged 29, of Scarboro Road, marched into Dundas Street West Police Station and announced to the desk sergeant that he had killed Montague Hamilton, a fellow-employee at the Reliance Engravers on Bond Street.

"It had been coming to him for a long time. I hope he is dead," said Greenhill, when he surrendered. Beyond that the self-confessed slayer refused to give the reason for the shooting, although he said he had a reason which he refused to disclose.

Shortly after he was placed in the police cells he was taken to the City Hall, where he appeared in Police Court, and after hearing the charge of murder read against him he was given a week's remand.

While under questioning by detectives, Greenhill made only one admission, and that was the murder had absolutely nothing to do with his domestic life. He went as far as to say that his family were not acquainted with Hamilton's. He told police he had bought the gun last week-end and had spent the greater part of yesterday in the basement of his home, where he was fixing it.

Greenhill, who is a married man, is the father of a two-and-a-half year-old child living in the East End of the city, while the murdered man leaves a widow and a 12-year-old daughter. Both men came to Canada from England about five years ago.

FIRE DESTROYS PAYNE SAW MILL

Cause of Early Sunday Conflagration South of Warsaw is Unknown.

ENGINE SALVAGED.

WARSAW, March 2 (Examiner Correspondence).—Fire which broke out early Sunday morning, practically destroyed a saw mill two miles south of the village and owned by Allan Payne. The engine was salvaged and Mr. Payne contemplates commencing work again this week, although his saw and a quantity of railway ties, lumber and trees were destroyed. The cause of the outbreak is unknown.

Captured Barrie Trio Be Tried Wednesday

BARRIE, Ont., March 2 (C.P.) — Unceremoniously, three prisoners of the county, who Saturday night enjoyed a short-lived liberty after beating the Governor, his wife, and the turnkey, were ushered into a crowded police court here to-day and told by the Bench to prepare for their defense on Wednesday. They will be charged with robbery with violence, it was decided to-day. They made their escape Saturday night in the Governor's car but were soon recaptured.

The trio, Alex. Manson, Leslie McLeod and William Moore, are under special guard in separate cells at the county institution.

Governor J. J. D. Banting, Mrs. Banting and Turnkey John Weymouth are about their duties as usual to-day, though feeling their injuries considerably.

16 Marriages Record In Month Of February

Weddings are again coming into their own in the city. For months back weddings have been showing a big decrease, but last month there were sixteen, just double the same month last year and seven more than January of this year. One couple braved all bad omens and paraded to the altar on Friday the thirteenth.

Births were below last year, however, there being 43 as compared with 56 last February. There were 36 deaths, 16 more than in the same month in 1930.

Bandits Arrested; Holdup is Foiled

DETROIT Mich., March 2.—Five men were under arrest today in connection with what police said was a plot to hold up the Fox Theatre for the week-end receipts, amounting to about $15,000.

Three of the men, police said, confessed the plot and admitted several robberies.

The arrests were made last night a few minutes before the time set for the hold-up, police said.

The prisoners are Frank Sapuro, Walter Teddy, Andrew Mistretta, Jerry Donigan, and Joseph Posa.

CITY BUILDING TOTALS $16,525

Five Permits For $9,000 Were Issued During Month of February.

TWO DWELLINGS.

Building in the city for the first two months of the year is only slightly below the 1930 level despite the business depression. According to figures given out this morning by the City Engineer's office, building for January and February total $16,525 as compared with $20,225 for the same month last year.

Five permits for a total of $9,000 were issued last month, including two dwellings valued at $2,500 each and miscellaneous permits to the value of $4,000. Both houses are being erected by Fred H. Rowan at 578 and 582 Sherbrooke street. At an estimated cost of $2,500 the Fitzgerald estate is putting in a new front and repairing to the roof to their property at the corner of Brock and Water streets. Repairs to 440 George street which was damaged by fire have commenced and are estimated to cost $500.

TRAIN HITS CAR—TWO KILLED

BUFFALO, N. Y., Mar. 2. — Two men were killed instantly Saturday night and their bodies burned beyond recognition when the automobile in which they were riding was struck by a Pennsylvania freight train at the Bullis Road crossing, Town of Elma. The victims are A. T. Klehm, 60, of Elma and Fred Ruess, 67 of East Aurora.

JACK N. BACON DIES SUDDENLY AT CURLING RINK

Curler Suddenly Collapses While Watching Game at Local Rink.

11 YEARS IN PETERBORO.

Deceased Was Born in Sunderland Fifty-five Years Ago.

Jack N Bacon one of the Dominion's foremost exponents of the game of curling, died this morning a few minutes after being stricken at the local curling club, where a mixed bonspiel for the Sturgeon Trophy was in progress. He was to have played on Mrs. D'Arcy's rink, but Feeling indisposed he obtained a substitute. As he sat watching the game which had progressed about four ends, he suddenly slumped in his chair. John Wiley who was nearby rushed to his assistance, and efforts were made to revive him; meanwhile Dr. H. V. Dobson was summoned but on his arrival could only pronounce that life was extinct.

J. J. Howden, president of Peterborough Curling Club, in deploring the death of his colleague, told The Examiner in voicing his own heartfelt sympathy and that of the whole membership of the club; "Jack Bacon was an ardent follower of the curling game" he said, "and was considered as one of the most expert curlers in Canada. He was also greatly interested in lawn bowling, and was perhaps as expert a bowler as a curler. He was always a good sport on or off, and one of the most robust of men, whom I have never seen laid up with illness." Discussing the funeral arrangements Mr. Howden said it may be taken as a foregone conclusion that the members of the Curling Club will attend in a body to pay their tribute to a good friend and sportsman.

The late Mr. Bacon who resided at 188 Reid street leaves his wife, formerly Mabel Crawford of Marmora; four daughters, Mrs. Ryan of New York City and Olive, Bernice and Wanda and son Ray D. Bacon all at home; three sisters, Mrs. Barber of Toronto, Mrs. Humphrey of Kisbey and Mrs. Brethour of Sunderland.

MOSLEY PREPARES HIS CAMPAIGN TO GET RECRUITS FOR NEW PARTY

Sir Oswald is Said to Have as Object, 400 Candidates in Next Elections.

APPEAL TO YOUTH.

LONDON, March 2 (C.P. Cable).—Dashing out of his offices to interview new recruits to "the Cause," Sir Oswald Mosley, brilliant young Socialist who has established a new political party, professed great delight today at the wide response he said had been received to his appeal to people to flock around the party banner.

"The campaign will be launched in London this week. We are organizing to blaze a trail through the Midlands and the North country, and finally Scotland, pressmen were told.

"The New Party," is the name of the party and its appeal is frankly to youth. Sir Oswald has bold plans to turn the "talk shop" of Parliament into a workshop, and his whole campaign will hinge on what he believes is the necessity of submitting the pressing problems to the administration of an inner Cabinet of five or six Minister as a natonal executive.

Sir Oswald is said to have set his heart on putting up 400 candidates in the next general elections.

Curtain's Barber Shop Entered By Burglars

Burglars sometime Saturday night forced an entry into Curtain's barber shop on Monaghan Road and ransacked the small shop of almost its entire stock of tobacco and cigarettes. During the past month several burglaries of small stores in outlying parts of the city have been made, and some of the shop keepers have been entirely cleaned out.

CURLING SUSPENDED.

In respect to the memory of the late John N. Bacon, who passed away with tragic suddenness during play for the Sturgeon Trophy this morning, curling has been completely suspended for to-day and will be resumed to-morrow morning.

Denies He is Dead, Dies 3 Days Later

NELSON, B.C., Mar. 2. (CP)—"Jimmy" Grant, famous prospector of the Rossland boom days awoke in his sick bed last Monday morning to read his own obituary. He vigorously protested the obituary and read a correction of it in the newspapers next day.

Friday night he died.

FINLANDER SHOT NEAR BROCKVILLE

Wounded By Transient Who "Wished to See How Close He Could Come."

ARREST MADE.

BROCKVILLE, Ont., March 2.—(C.P.).—Erik O. Polkolin, a Finlander, is in a local hospital with a bullet wound in the back as the result, so police allege, of having been shot last night by another transient, giving the name of James P. Lapierre, with Montreal as his address, at a transient rendezvous at the North Augusta Road, on the town's outskirts.

Lapierre was arrested by Provincial Police and is held on a charge of shooting with intent.

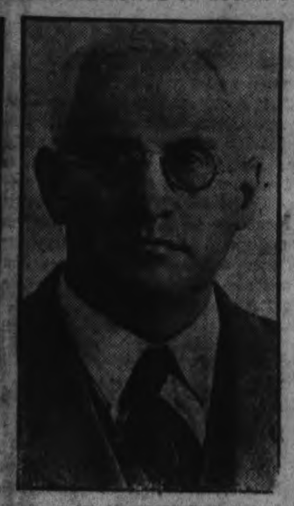
Lapierre, seeing a parcel under Polkolin's arm, is said to have asked if it contained food. On being answered in the negative, it is said that he borrowed a .22 calibre rifle from a boy who was passing, took a shot at a bottle set on the fence, and then, remarking "Let's see how close I can come to that guy," fired in the direction of Polkolin, the bullet entering his back. At the hospital it was reported that Polkolin was seriously injured, as the bullet penetrated one lung.

Works Manager Names Layfield As His Assistant

Carl A. Salmonsen, Works Manager of the Canadian General Electric, Appoints R. E. Layfield His Assistant and John A. Bell Takes Mr. Layfield's Post.

MR. LAYFIELD HAS BEEN WITH COMPANY SINCE 1890 MR. BELL IS A YOUNG ENGINEER GRADUATE OF QUEEN'S

JOHN A. BELL, B.Sc.



R. E. LAYFIELD

Carl A. Salmonson, works manager of the Canadian General Electric Company, announced to-day two important changes in the company's executive staff in Peterborough.

Robert E. Layfield has been appointed assistant to the works manager, and John A. Bell, B.Sc., succeeds him as works accountant.

Mr. Layfield has been with the C.G.E. Company since 1890, and for almost forty years has been a citizen of Peterborough, where his responsible connection with the company has been generally known.

John A. Bell is a young Canadian engineer, a graduate of Queen's University, Kingston, and a post-graduate product of the General Electric Company's huge plant at Schenectady, Pa., where his and Mr. Salmonsen's widening and ascending paths first crossed a few years ago in associations that are now to be renewed in the Peterborough environment and opportunity of the company's Canadian branch.

Plans of extensive physical alterations in the big office of the local works have been recently mooted, and presumably Mr. Bell's appointment as accountant, supervising the office staff and its operations, has been timed to coincide with these impending improvements.

Born in Prince Edward.

John A. Bell is a Prince Edward County Boy, a science graduate of Queen's in both electrical and mechanical engineering, with nearly six years' General Electric experience at Schenectady where he specialized in works accounting, an expert training which will no doubt enable him to apply the G.E. office methods wherever they may be of advantage in the local office.

In this change which took effect to-day Mr. Layfield has been retained in the position of assistant to the works manager, and in this capacity his knowledge of local plant conditions and his long experience here should be useful to Mr. Salmon-

Gold Rush In Yukon Like 1898 Stampede

VANCOUVER, B.C., March 2 (C.P.).—What promises to be an important gold strike is reported from White Horse, according to news received by E. J. Farr, agent here for the White Pass and Yukon Route. Rush for claims, the report states, is similar to an old-time stampede, although the country is still held in the grip of winter.

The report, originating from Carmacks, is to the effect that Fred Guder, a prospector, has discovered a gold-quartz ledge on a mountain above timber line, between Stoddard and Seymour Creeks. These streams are tributaries of Kitchener Creek, which flows into Big Creek, forty-five miles from Carmacks.

The ore brought out by Guder assays $80 to $360 per ton, free milling, and carries considerable values in silver. As yet the extent of the ore is not proved, but the discoverer claims to have followed the ledge for 200 feet. There are various outcroppings over a considerable area.

GOV'T IS SCORED BY WOODSWORTH

Claims West on Verge of Collapse Because of Policies Put in Force by Ottawa.

FAVORS RUSSIAN OFFER.

MONTREAL, Que., Mar. 2.—"With the West on the verge of utter collapse because of the policies that have been put in force at Ottawa, it is to be hoped that the Dominion Government will not deal a death blow to agrarian interests by refusing to take part in a wheat conference with Russia," declared Rev. J. S. Woodsworth, Member of Parliament for Winnipeg North Centre, during an interview here. The Government, in denouncing Communism and refusing to transact business with Russia, was "simply yielding to ignorant prejudice," Mr. Woodsworth said.

People in Eastern Canada did not understand that the Prairie Provinces were "so heavily afflicted" that to-day everything had come to a standstill, he said. The banks, which had a monopoly, on the people's credit had not been extending credit in the West, he went on. The recent discussions of a project for financing the farmers was "a damning indictment of the banks."

The East had formulated the policies of Canada without regard for the survival of the West. Tariffs passed against British goods went a long way toward shutting Canadian wheat out of the British market and further impoverished the farmers. The order-in-council forbidding trade with Russia was but the last of many Federal policies which Mr. Woodsworth held were inimical to the interests of Western Canadians.

No Labor Candidate To Contest St. George's

LONDON, Mar. 2.—(C. P. Cable).—The Labor party has decided not to nominate a candidate in the St. George's, Westminster, by-election necessitated by the death of Sir Laming Worthington-Evans, Minister for War in the former Baldwin Cabinet.

The Conservative party was discussing a nominee to-day while there is a possibility Lord Beaverbrook and his Empire Free Trade crusaders will again enter the fray.

Sir Laming was elected in 1929 with a majority of 16,164, in a straight fight with J. G. Butler, Labor.

THREE CONVICTS SLUG GOVERNOR OF BARRIE JAIL

Two Hours After Gaining Freedom Men Are Arrested.

TURNKEY ASSAULTED.

School Boy Gave the Alarm and Provincial Police Were Soon on Trail.

BARRIE, March 2. — Three convicted criminals, after allegedly attacking and beating the Governor, J. J. D. Banting, and the turnkey, John Weymouth, of Barrie Jail, made a desperate break for liberty shortly after 8 o'clock Saturday night, departed in Governor Banting's car, and were recaptured, near Thornhill, by Provincial Constable Samuel Irwin of Bradford and Police Chief Sydney Barraclough of Richmond Hill after a thrilling chase which lasted more than two hours. A gravel-stuffed leather mitten was employed in the attack on the Governor.

Schoolboy Gives Alarm

The desperadoes are: Alexander Manson, aged 20, of Barrie, serving a sentence of two years for burglary; Leslie McLeod, aged 21, a deserter from Camp Borden, later captured in Sarnia, and now serving two years for the theft of a car; and William Moore, aged 24, of Dalston, serving three months determinate plus six months indeterminate for theft.

To a schoolboy, Arthur Williams, aged 13, whose home is across the road from the jail, and who first espied Governor Banting as he ran out of the jail bleeding from numerous wounds, goes the credit of being the first of giving word of the attack to Police Chief Alex. Stewart of Barrie. Williams was assisted in summoning police by three of his playmates: William Port, aged 11; Dallas Lee, aged 13, and Robert Lee, aged 11.

At 8 oclock, according to his custom, Turnkey Weymouth went into the main corridor of the jail to lock the prisoners in for the night. Suddenly he was struck on the head from behind. Turning to grapple with his assailants, he recognized them as Moore and McLeod.

"McLeod held me while Moore hit me on the head," he said. "Then they locked me in a cell."

Sought Toothache Treatment

While Moore and McLeod were slugging Weymouth, their accomplice Manson, was in Governor Banting's

LINDSAY COLLEGIATE BROKEN INTO CARTONS OF AMMUNITION STOLEN

School Was Entered Some Two Weeks Ago in Similar Manner.

LOCKERS BROKEN INTO.

LINDSAY, March 2 (Special to The Examiner). — Early this morning Principal W. MacMillan, of the Collegiate Institute, reported to the police that the Collegiate had been entered by thieves and that a large amount of ammunition had been stolen. Chief Lawlor investigated, and believes that the thief carried away two or three hundred rounds of ammunition, all .22 shells.

Tracks were discovered leading to the fire escape at the rear of the school, and up the iron steps to the landing. There a window was lifted and the thief entered the top flat. The rifle alley is in the basement, and a number of lockers were broken into. The thief then found the ammunition lockers on the second floor, and broke into several. Most of the stolen ammunition was loose, while some was in cartons.

The school was entered some two weeks ago in a similar manner, but nothing was stolen. The caretaker claims that the entrance took place on Sunday night, as everything was in good shape on Sunday afternoon when he was looking after the fire.

FIJI STORM CLAIMS 164

SUVA, Fiji Islands, March 2 (A.P.)—With reports another hurricane was sweeping the Penang sugar district north of Suva to-day, authorities announced 164 persons were known to have been killed in a storm last week. The death toll included five Europeans. Many were still missing.

Einstein's Theory Gets Him New Name From Hopi Tribe

ALBUQUERQUE, N.M., Mar. 2. (CP)—The North American Indian, confronted with the theory of relativity, had to do something about it.

It happened Saturday at the Grand Canyon of the Colorado River in Arizona, where the Hopi Indians made Prof. Albert Einstein a Chief of the Tribe.

The Indian Council, which has honored Presidents and other notables, was unable to assign a name to a scientist of Einstein's calibre.

"What's his business?" the Redskin asked.

"He invented the theory of relativity," they were told.

"All right," the Red Men replied, "we'll call him 'Great Relative'."

Cars Collide—Driver Injured

LONDON, Ont., Mar. 2. (CP)—In a head-on collision on Maitland street between cars driven by Clarence Ager, 39, Chatham street, Hamilton, and Marshall Thomas, 63 Adelaide street, this city, the former suffered cuts about the head and nose. He was arrested charged with driving under the influence of liquor, and will appear in police court this morning.

Mr. Thomas escaped without serious injury.

Fire Breaks Out In Stage Curtain, 20 Are Injured

Firemen Rushing to Scene Rescue Chorus Girls Trapped Behind Screen of Fire on Blazing Stage—Many Are Badly Burned and Maimed.

VICTIMS BELIEVED TO BE PERSONS TRAPPED IN PANIC AS CROWD RUSHED FOR EXITS—BODIES BADLY CHARRED

Owner of Building, His Wife and Five Small Children Caught on Top Floor Have Close Call—Theatre Built By Monks in 1752.

MEXICO CITY, Mar. 2.—(AP)—At least fourteen persons were burned to death and a score or more were injured when the 178-year-old Principal Theatre burned at the end of a midnight performance today.

The ruins were still smouldering when firemen brought out the eight bodies and took them to a police station for identification.

By ten o'clock this morning ten bodies, all badly burned, had been taken from the ruins of the theater. At that time police reported that they had sighted four others in the debris.

There were scenes of despair at the fourth district police station where relatives of missing persons gathered in an attempt to identify the charred bodies, all of which were burned beyond recognition.

Among the victims were several women and children.

Most of those who died were believed to have been caught in the panic stricken rush of persons trying to get out of the theater and trampled underfoot. Then they were caught by the rush of flames before they could be carried out of the narrow theater doorways. The dainty pirouetting of a troupe of Mexican chorus girls performing when the fire broke out, became a scramble of horror with their lives at stake.

Trapped behind a blazing curtain and with other exits cut off by the flames the girls, screaming, believed themselves doomed when firemen fought their way through the blaze and saved them. Several were severely burned and maimed.

Twenty Injured.

Twenty persons were injured in the blaze, which occurred just as the crowd was leaving at 1 a.m. A stage hand lowering the curtain let it fall across an electric wire which short-circuited and ignited it. Unnoticing, he raised the curtain to allow the dancers to take a bow, and thus spread the flames to the loft. Then the lowered the cudtain again and completed the trap from which they barely escaped.

The owner of the building, his wife and five small children, trapped upstairs by the flames, were saved by firemen despite the fact that their ladders were five feet of reaching to the balcony on which they stood.

The firemen climbed to the top of the ladders and held out their arms to catch the children and their parents as they jumped.

Built by Monks.

The theatre was built in 1752 by monks to stage benefit performances. In those days Mexico City still had many canals for streets, and there are stories of the theatre-goers who, attending the performances, were brought up to the theatre door in gondolas.

Most of the injured persons were members of the Robert De Soto Vaudeville Troupe.

CANADIAN CREW BATTLES WAVES

Dramatic Battle is Waged by Officers and Men of Destroyer Champlain.

RIGGING WASHED AWAY.

PORT OF SPAIN, Trinidad, Mar. 2. —(By Gault MacGowan, C. P. Special Correspondent)—For the first time the story of the dramatic battle waged by His Majesty's Canadian destroyer Champlain against a hurricane and mountainous seas off the British West Indies was learned today. The destroyer suffered considerable above-deck damage; the crew stayed in their soaked uniforms for a day at a time and three stokers, Ontario men suffered slight injuries.

On a training cruise to the West Indies the Champlain left Halifax on Jan. 5, with 87 officers and ratings on board. Fifty percent of the crew had never been at sea before. Afterwards the officers were full of praise for the pluck and seaworthiness of the recruit crew.

Battled Hurricane

A blow started up in the evening watch of the first day. At midnight a moderate gale was blowing. Lifelines were rigged. On the sixth of January the wind mounted to hurricane force and the seas piled up mountainously, sweeping the decks.

The Champlain's foremast was carried away, the wireless apparatus and deck sidescreens were smashed and two boatsw ere wrecked.

Working heroically, soaked to the skin, the crew managed to rig up a temporary aerial and stump fore-

Tidy Sum Is Raised To Building Fund

The regular monthly meeting of the Ladies' Auxiliary of the Y.W.C.A. was held on Friday afternoon at the home of Mrs. J. F. Allin.

The treasurer's report was quite satisfactory showing the interest taken in securing money for the building fund to meet the subscription promised by the Auxiliary. About $25 had been raised by individual members in various ways during the past month. Arrangements were completed for holding a tea and sale of homemade cooking at the home of Mrs. M. A. Morrison, Hunter street, on Wednesday, March 11.

Canada to Redeem $25,000,000 Loan

OTTAWA, Ont., March 2 (CP) Canada will redeem the $25,000,000 loan falling due on April 1. Announcement that the loan would be redeemed was made today by Premier R. B. Bennett. Known as the "public service fund," the loan has been bearing an interest rate of five per cent but redemption will be made through the Dominion exchequer from funds obtained last fall by the government through a loan at only 4½ per cent.

AUTOMOBILE SKIDDED 27 FEET INTO PATH OF ONRUSHING TRAIN

Skidding Automobile and Driver Are Hurled 25 Feet Through Wire Fence When Train Hits Car 8 Miles East of Cobourg—Inquest is Called.

WICKLOW, March 2 (Special to The Examiner). — A coroner's jury will convene at Grafton on Thursday evening to inquire into the circumstances surrounding the death of Archie Marriott, Wicklow, who was instantly killed on Saturday morning at 10.59 when his car skidded 27 feet into the onrushing C.N.R. International Limited at the level crossing one-half mile south of here.

The skidding automobile and its driver were hurled by the impact through a wire fence 25 feet away, demolishing it, and the body of Marriott was dropped on the cattle guard ,82 feet distant. Portions of the shattered car were scattered for 300 feet along the right of way, the smashed framework of the automobile was hurled 92 feet away from the crossing, and the motor of the car was deposited 25 feet further distant. Flying bits of metal, like the fragments of a giant explosive shell, were scattered as far as 1,000 feet away. Provincial Motorcycle Constable I. R. Spencer of Colborne finding a part of the motor eight telegraph pole lengths from the scene of the crash.

The International Limited was stopped by Engineer J. Cook in its own length, and was delayed for one hour. Coroner Dr. A. C. McGlennon of Colborne gave Conductor J. Fallis necessary authority to continue the run.

Nearly every bone in the driver's body was broken and several bone-ends protruded through the skin the shoulder blades and spine were crushed, there was a deep gash over the right eye, the small finger on the left hand was amputated, and the second finger was ground to pulp. When the body was removed to J. M. Blacklock's undertaking parlors at Grafton, however, a pocket watch in the victim's trousers was continuing to keep time.

The coroner's jury empanelled by Provincial Constable Alexander Kidd of Cobourg viewed the remains and adjourned until 7.30 o'clock on Thursday evening, March 5. The jury is composed of J. E. Clarey, J. Thomas, J. W. Winney, W. H. Lawless, M. Drumm, G. M. Creighton, E. Lawless, and J. McMahon, all of Haldimand. Dr. A. C. McGlennon of Colborne is officiating coroner and Dr. T. C. Lapp of Cobourg is assistant coroner.

The Canadian Pacific and Canadian National lines closely parallel each other at the scene of the fatality, and the view of each company's rails is clear in both directions. Deceased was driving a curtained touring car, had motored over the tracks on an average of six times daily for several years, and was familiar with the local time-table of trains.

Funeral was held on Monday afternoon to Lakeport Cemetery, with the Rev. R. Roberts of Colborne Anglican Church officiating.

Deceased is survived by his mother, Mrs. Anna Marriott, and his sister, Miss Betty, 23, who made their home with him, and by four brothers, Thomas of 422 Northcliffe Boulevard, George of 15 Cain Avenue, Ernest of 212 Silverthorn Avenue, and Kenneth of Sherbourne Street, all of Toronto.

The crossing victim was born in Derbyshire, England, 37 years ago, and emigrated to Canada in 1913. He farmed near Ottawa and enlisted in the Canadian Forestry Corps there in 1916. He started farming in Wicklow ten years ago.

Argentine Country Welcomes Princes

BARILOCHE, Argentina, March 2 (C.P.).—This broad Argentine territory, Rionegro, or "Black River," had a holiday to-day in celebration of the visit of the Prince of Wales and Prince George, who with their party are spending to-day at the Huemel Farm, near here.

The Prince of Wales had his choice this morning of a deer hunt, tennis, fishing, horseback or automobile riding, but this afternoon the round of official Argentine welcoming functions begins. He will take the steamer Patagonia and come up the lakeside to Bariloche and attend a lunch at the Banco de la Nacion.

After the lunch the party will ride horseback to the Estancia of the Argentine Southern Company at Pilcaneu, where they will remain overnight.

STOVE EXPLODES WORKER KILLED

Blast, Occurring as Fire is Being Lit, Felt Over Niagara Falls.

MANY WINDOWS BROKEN.

NIAGARA FALLS, Ont., Mar. 2.—(CP)—Roccie Vere, 45, was instantly killed and his body terribly mangled this morning by an explosion.

The blast occurred in the Michigan Central toolhouse and its force was felt all over the city. Windows were broken within a radius of a hundred yards.

It is believed that Vere was lighting a stove using gasoline when the explosion took place. Vere leaves a wife and three children in Italy. He had been in Canada six years. Coroner McGarry has ordered an inquest.

Air Service Will Link Canada With Mexico

DETROIT, Mich., Mar. 2. (CP)—Organization of a new passenger air service, bringing Detroit on the Canadian border within 26 hours of Brownsville, Texas, on the Mexican border is announced here.

The company is to be known as the International Air Express. Its planes will connect at the two termini with passenger air lines extending to Montreal and to Mexico City. Plans call for inaugurating the service May 1.

Solloway Faces New Charges

MAKES HURRIED TRIP FROM WEST.

Here is seen Isaac W. C. Solloway, LEFT, multi-millionaire mining broker, with Col Richard Grier, K.C., his counsel, from Vancouver, to face new charges of conspiracy to affect the market value of stocks. His junior partner, Harvey Mills, faces the same charge and is now on bail. It is the first time Solloway has been in Toronto since he rushed West in October after paying a $200,000 fine here, and surrendered himself to the Alberta authorities, going to jail at Lethbridge for four months. He was released last week and taken to Vancouver, where charges laid by the British Columbia Government faced him. Solloway is fast setting new records for trans-Canada traveling and also has the distinction to date of having paid $475,000 in fines.

SNOW AND GALES TIE UP TRAFFIC ACROSS EUROPE

Highways, Railways Blocked in Sweden, Telegraph Lines Down in Denmark.

BRITISH ISLES SUFFER.

Trawler Turns Over Off Fraserburgh, Scotland—Sixteen Drowned.

LONDON, March 2 (C.P.). — The greater part of Europe and the British Isles were under snow to-day. A biting wind piled the white blanket high in places and in others swept the ground bare. Bitter cold prevailed.

Extreme winter conditions prevailed over most of the continent from Russia to France. Traffic was held up in many places, highways and railways were blocked in Sweden, and telephone and telegraph lines were down in Denmark.

The snowfall in the British Isles varied from two to three inches in the south to seven to eight inches in the north, with deep drifts in the mountain districts of Scotland, Wales and Ulster. Sheep farmers suffered severe losses of stock.

The gale which accompanied the snow raised dangerous seas in the Channel and North Sea, which claimed several victims. Sixteen were believed to have perished near Fraserburgh, Scotland, when a Dutch trawler turned over off shore and conditions were too bad to attempt a rescue. One body was washed ashore.

ROBBERS BLAST CHATHAM SAFE

Marauders Escape With $500 and Leave No Clue.

WEIGHED 4,000 LBS.

CHATHAM, March 2.—Early Sunday morning robbers broke into the plant of the Palmer Baking Company, wrecked a safe with explosives, and got away with approximately $500 in cash. Saturday night and the early hours of Sunday morning is the only time when workers are not at the plant. Indications are that the thieves gained access by forcing a door at the rear of the plant. They moved the safe, weighing approximately 4,000 pounds, from the office at the front of the building, to the rear, where the blasting was carried out. The explosive blew off the door.

Earnest Dunford Is Cut About The Head

YOUNG'S POINT, March 2 (Examiner Correspondent) — Earnest Dunford met with a painful accident on Tuesday, while operating a sawing machine. The saw in some way jumped, cutting him on the forehead. He was taken at once to Lakefield where Dr. Smith found it necessary to insert four stitches to close the wound.

Create Water Route For Coal Shipments

(Special to The Examiner. Copyright, 1931.)

WINNIPEG, Man., March 2.—Of interest to Ontario coal consumers is the plan to create an all-water barge route from Alberta coal fields to Winnipeg, which will mean a saving of $3.00 a ton of coal shipments to Ontario.

Broadly, the plan calls for diverting the Saskatchewan River into Lake Winnipegosis, diverting the spring flood waters of the Assiniboine River into Lake Manitoba, connecting these two lakes, erecting control gates and dykes at strategic points, and building a 400,000 to 500,000 power plant four miles down the Dauphin River from Sturgeon Bay on the west side of Lake Winnipeg.

The power scheme alone would be the largest Hydro-Electric development in Manitoba. The Legislature is asked to authorize preliminary engineering study of the plan this summer. The proposal is unofficially estimated to involve an expenditure of $40,000,000.

FIREMEN FIGHT STUBBORN FIRE

Driven Out by Fumes From Blaze and Collapse on Toronto Street.

DOORS SHATTERED.

TORONTO, Mar. 2.—Firemen were toppling over like "ninepins" from heavy smoke of burning paint and wallpaper in the basement of 406 and 408 Spadina Avenue last night. Veteran firefighters described the combat as the most difficult and hardest battle the "smoke-eaters" had in Toronto in the past thirty years.

As the firemen were forced to retreat from the building they would collapse on the curb. A call was sent in for extra men to relieve these until they recovered sufficiently to don their helmets and return to action.

Six firemen from No. 2 hose, Portland Street Hall, were caught in a backdraught that shattred the rear windows and doors of the building. They were hurled a considerable distance. So close were they when the back-draught following the explosion of oils and paints in the basement of the building occurred that the heavy helmets were blown from their heads.

Two Rescued

George Hayworth and his wife, living on the third floor of the building, were rescued by Fremen Cecil Booth and J. McCarrol of College Street Hall. Lieutenant Bell, in charge of the service truck instructed the men to fetch the couple down the ladders.

The damage to the building and contents was estimated after the fire by District Chief William Corbett at $21,500.

The fire, the cause of which was not known, broke out in the basement, the premises of the Royal Paint and Wallpaper Company. It was estimated by the owners of this firm that there was wallpaper and paint to the value of $40,000 in the basement. This was a total loss.

Bladder Weakness

If Getting Up Nights, Backache, frequent day calls, Leg Pains, Nervousness, Rheumatism, Acidity, Burning, Smarting, Bladder Irritation, or Kidney Weakness makes you feel tired, depressed and discouraged, try the Cystex Test. Works fast, starts circulating thru the system in 15 minutes. Praised by thousands. Don't give up. Try Cystex (pronounced Sis-tex) today, under the Iron-Clad Guarantee. Must quickly stop these conditions, improve restful sleep and energy, or money back. Only 75c at all drug stores.

FRANCE ACCEPTS BUILDING TRUCE PASSED BY ROME

Terms of Agreement for Five-year Truce Kept Secret for Present.

JOY IN BRITAIN.

Only Sanction of Japan and U. S. Needed to Complete Five-power Pact.

PARIS, March 2 (A.P.)—A Franco-Italian naval race, one of the most serious threats to the peace of post-war Europe, appeared to-day to have been eliminated with definite agreement of Great Britian, France and Italy on a naval relationship to be maintained during the next five years.

The terms of the agreement were withheld pending transmission to Washington and Tokyo, but it was understood to-day that they were constructed around the actual needs of France and Italy until 1936, rather than on the basis of specifying a ratio, parity or other proportion, between their two navies.

The agreement, if acceptable to the United States and Japan—and there was no doubt here on that score—will broaden the London Naval Treaty, which never was more than a three-power pact in its important phases, to a five power instrument, limiting until 1936 the navies and naval construction programs of the great maritime nations of the world.

Its conclusion, announced in a Foreign Office communique here yesterday afternoon, came as the culmination of a week of rapid fire diplomatic developments, in which the principal roles were played by Rt. Hon. Arthur Henderson, British Foreign Secretary, and Rt. Hon. A. V. Alexander, First Lord of the Admiralty. Those two Ministers, leaving Paris for London after French and Italian acceptance of their proposals, were overjoyed at the success of efforts which will eliminate the necessity of tax-burdened Britain building a navy so as always to keep ahead of France and Italy.

JAPAN PLEASED.

TOKYO, Mar. 2.—(A.P.)— Japanese official circles to-day welcomed advices of a British-Franco-Italian agreement on questions left outstanding by the London Naval Treaty.

While authorities here were unable to reveal the exact figures and categories specified in the agreement it was intimated that France was to be allowed a considerably higher tonnage in submarines than either Great Britain, Japan or the United States.

While Japan appears unlikely to protest against France being allowed superiority in submarines close observers consider that there probably will be a loud outcry on ground that Japan's demand at the London Naval Conference for higher submarine tonnage was overruled.

Tampico Raises Kick At Dumping Of Wheat

MEXICO CITY, Mar. 2. (AP)—Chambers of Commerce of Tampico and several other cities to-day petitioned the Government to take immediate protective measures to prevent dumping of cheap wheat on the Mexican market.

Unless a higher tariff is enacted, Mexican wheat growers and dealers will face ruin, the petitioners stated, pointing out that under the prevailing tariff, Russia is able to place her wheat on the market at a price which Mexican growers cannot meet.

MURDERER PAYS FOR HIS GUN PLAY

Victim Who Took Part in $34,000 Hold-up is Electrocuted at Rockview Prison.

TWO GIVEN LIFE.

BELLEFONTE, Pa., Mar. 2.—Thomas F. Martinof Philadelphia, "trigger-man" in the hold-up and murder of C. Cameron Cook, aged bank messenger, was electrocuted at Rockview penitentiary today.

As he went to his doom, Martin declared he and Thomas McCaffree were innocent and in no way connected with the slaying. He was pronounced dead at 7:05 after one contact at 7:01.

The crime for which Martin paid with his life took place in Philadelphia December 6, 1929 during the holdup of an armored car, which resulted in the theft of $34,000.

With the arrest of Martin and two of his three companions, Wilburt Mackenthun and Walter Maloney, both of Philadelphia, half of the loot was recovered. Mackenthun and Maloney were sentenced to life imprisonment.

McCaffrey is still at large.

Every day . . . husbands vote for COCONUT!

Three Styles:
BAKER'S SOUTHERN STYLE—moist—packed in the—delicately sweetened—deliciously fresh.
BAKER'S PREMIUM SHRED—in the familiar triple-sealed, stay-fresh cartons.
BY THE POUND—the same fresh, full-flavoured coconut in bulk.

EVERY day restaurants throughout the country find that coconut dishes—pies—cakes—puddings—are prime favourites with your menfolk. Please them at home with their favourite coconut dishes.

But make sure your coconut delicacies are made with Baker's! Because Baker's special process and packing gives you coconut with all the appetizing freshness and flavour of newly-grated nuts. Made in Canada.

A4-31

BAKER'S COCONUT

Growing Deaf With Head Noises? Try This.

If you are growing hard of hearing, and fear catarrhal deafness, or if you have roaring, rumbling, hissing noises in your ears, go to your druggist and get 1 ounce of Parmint (double strength) and add to it ¼ pint of hot water and a little sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy, and the mucous stop dropping into the throat. It is easy to take. Anyone who is threatened with catarrhal deafness or who has head noises should give this prescription a trial.

HEAT WAVE HITS ARGENTINE.

BUENOS AIRES, Mar. 2.—(A.P.)—The Argentine is sweltering in the worst heat wave of the season. Several sunstrokes were reported in the capital Sunday, when it was more than 100 Fahrenheit here. A soccer player, Arispe, suffered a sunstroke while playing and died later at a hospital here.

Flint tools said to be 80,000 years old were recently exhibited at the French Sorbonne in Paris to 80 French historians.

COMPANY DROPS DIVIDEND FIGHT

Steel of Canada to Make No Further Attempts for Preferred Share Rights.

SETTLE DISPUTE.

HAMILTON, Ont., Mar. 2.—(C.P.)—According to a circular sent out to the shareholders of the Steel Company of Canada by the directors and dated February 26, no further attempts will be made through the courts to secure the right to pay extra dividends on preferred shares. In this connection and referring to the recent decision of the Privy Council, the circular, signed by Ross H. McMaster says, in part.

"This judgment finally settles all disputed questions as to the dividend rights of the two classes of shareholders, and will govern the future action of your directors as to dividends.

"Although the profits of the past year have been sufficient to cover the dividend requirements, with a safe margin, the depressed state of business which has prevailed during recent months has naturally resulted in corresponding decline in current earnings.

Under such conditions and after careful consideration it is the opinion of the board of directors that the interests of all shareholders will be best served at the present time by conserving the company's resources and postponing consideration of any change in dividends until the business outlook has clarified."

Examiner Cheer Fund.

The Examiner Cheer Fund will profit to the extent of twenty-five per cent. of the gross receipts of "The Princess and the Plumber," which will be shown this week at the Regent Theatre, from Wednesday to Friday, inclusive. Your attendance will help to relieve distress in the city and ensure you a good time also, for this picture is said to be one of the best.

Mrs. Ellen O'Brien and Miss Laura O'Brien, R.N., graduate of St. Joseph's Hospital, left on Saturday for Bewlyn, Alberta, where Miss O'Brien has been appointed superintendent of the General Hospital. Before her departure, Miss O'Brien, who was a former president of the Alumnae of St. Joseph's Hospital, was presented by her associate members with a handsome purse.

* * *

Mr. and Mrs. Robert Glass have returned to their home at Cleveland, Ohio, after having been visiting with Mr. and Mrs. Clayton Telford of Burnham street.

* * *

Miss Cleo Fowler, 149 London street, spent the week-end in Toronto where she attended the Pharmacy dance held in the Royal York Hotel.

* * *

Mrs. Hugh Graham of Orillia was the week-end guest of Mr. and Mrs. Thomas Brown.

* * *

Miss Lillian Carroll, 399 Walton street, celebrated a birthday anniversary yesterday.

* * *

Mrs. C. H. Cheverill, Stewart Street, is in Toronto, where she is the guest of Mrs. Reg. Fox.

* * *

The young men of the Duo Class of George Street United Sunday School, of which Leo Copp is teacher, accompanied by their friends, enjoyed a theatre party on Friday evening, when they were afterwards entertained by Mr. Copp at the Y.M.C.A., where a jolly time was spent in games and a delicious supper served by Mrs. W. J. Copp. Before dispersing, a hearty vote of thanks to Mr. Copp and his mother was moved by Cecil Wasson and seconded by Bruce Yarwood. Among those present were Misses Evelyn Miller, Dorothy Wiman, Bernice Ferguson, Margaret Mutton, Mary Sedgwick, Birdie Pickering, Grace Cunningham, Margaret Campbell, Doris Ney, Marie Thompson, Enid Welch, Hazel Davidson, Ella Sisson, Marjorie Mutton, Ethel Horsman and Messrs. Leo Copp, Harry Northrop, Cecil Wasson, Kenneth Miller, Ted Kingdon, Allin Stevens, Howard Moyer, Bruce Yarwood, Carrol Evans, John Purdy, Rodney Theobald, Harold Barnard, George Cassie, Bob Hutton, Clare Northey, Garnet Dainard and Jim Goldie.

* * *

Mrs. A. R. Hoover, Park Street, has returned from Lindsay, where she assisted at the post-nuptial reception of her sister, Mrs. L. A. Race, formerly Jacqueline Wakelin, which was held on Thursday afternoon, at the home of the bride, 87 Glenelg Street. The house was decorated with a profusion of spring flowers and the bride received in her beautiful wedding gown of white satin, assisted by her mother, Mrs. Wakelin. The guests were ushered into the tea-room by Mrs. Donaldson. The table was charming with a Madeira embroidered cloth, centre silver basket of yellow daffodils, white narcissus and mauve tulips, tall yellow tapers in silver candleholders and little dishes of yellow mints. Mrs. A. R. Hoover poured tea, and tea-room assistants were Mrs. Marr and Miss Evelyn Race.

* * *

A charming tea and sale of home-made cooking was held at the home of Mrs. W. A. Richardson, Frederick Avenue, on Friday afternoon, under the auspices of Group A of the Ladies' Aid of St. Andrew's United Church. The rooms were bright and attractive with ferns and yellow daffodils in profusion. The guests were received by the hostess, assisted by Mrs. A. Moir, leader of the group, and Mrs. F. L. Robinson, president of the Ladies' Aid Society. Mrs. A. Pilling ushered the guests to the tea-room, where the table was very beautifully arranged with a Madeira cloth, silver basket of yellow daffodils and mauve iris, tall yellow tapers in silver candleholder. Tea was poured by Mrs. C. V. McLean and Mrs. A. McNabb. Assistants were Mrs. H. L. Beal, Mrs. W. Garrow, Mrs. Ketcheson, Mrs. Gordon and Mrs. H. Tremaine, while Mrs. W. Zeihr and Mrs. T. Emmerson had charge of a table of delicious home-made cooking. Mrs. A. M. Moon made an efficient treasurer.

* * *

Mr. W. H. Wolfe, of the R. H. Williams Co., Regina, Sask., while on a business trip east, was the guest over the week-end of his parents, Mr. and Mrs. A. J. Wolfe, 452 Donegal Street.

Rev. J. D. Paterson Gives Interesting Lecture

On Friday evening, the Rev. J. D. Paterson, of All Saints' church, gave a very intersting and instructive lecture on the "Scottish National War Memorial," explaining in a very able manner the various pieces making up the memorial, as a whole.

The address was well illustrated with lantern slides and was given under the auspices of the Ladies' Guild of All Saints' church, in the Parish Hall.

The following program was enjoyed: Vocal solos, Miss E. Young, Mr. Jarvis; reading, Miss Barbara Miller; vocal solo, Mrs. S. Willis; reading, Mrs. Connolly; violin solo, Mrs. J. Foster; vocal solo, Mr. H. Flowers.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Perhaps while shopping lately, you have noticed how elaborate tablecloths are in their ornamentation.

* * * * * * *

Some housewives do not like their tablecloths to be very elaborate while others want them just as elaborate as they can be purchased.

* * * * * * *

And so now it becomes a question whether or not to add to the decoration by initialing them. Napkins are not so puzzling in this particular since they have enough plain linen in them to letter.

* * * * * * *

Their purpose requires this, if the napkins are practical.

* * * * * * *

Tablecloths entirely of lace are not initialed, and one would not expect them to be, because there is no place on them for letters, and not only this, but they certainly would mar the beauty of the pattern.

* * * * * * *

Tablecloths with small linen centres and very wide lace borders can be initialed or not according to the preference. Any initial can be on a small oval, square or diamond of the same kind of lace and inset in one corner of the cloth.

* * * * * * *

An interesting way to mark a lace or embroidered table runners in refectory table style is to have one or more letters or a monogram and have them positioned on the linen just above the border at each end of the runner.

* * * * * * *

Never put a monogram or initial exactly in the centre of a tablecloth and runners. A centrepiece will hide it and eliminate the decorative value. Anything set on embroidered letters with their raised stitchery will not be firm, but wobbly.

* * * * * * *

For these reasons avoid having the initialing come where dishes would customarily stand. On a plain damask cloth in which the beauty consist in the woven design, embroidered monogram or initial lend decoration and so the one time fashion of having the embroidery where it would fall over the side of the table has gone out of fashion.

* * * * * * *

Position the marking where it will come on the surface of the table. Give due regard to the other matters of positioning.

* * * * * * *

Napkins are initialed so that the letters come in the centre of the square forming the outside corner fold. Embroidered medallions are often left bare inside for initials to be worked therein.

That Body of Yours

By James W. Barton, M.D.

REDUCTION OF WEIGHT OFTEN A SERIOUS MATTER.

You read and hear a great deal about stasis, or partial stoppage of the movement in the large intestine and the wastes therein. You are told that when this occurs together with constipation, that there is absorption of these wastes into the blood, and so every cell in the body is built up to some extent from this blood with these poisonous wastes in it.

You have read of how a famous British surgeon has taken out parts of the large intestine because of the "kinks" in the bowel which caused a partial stasis or stoppage and thus caused the blood to absorb a great amount of the waste located in this one spot.

Now it is generally admitted by the majority of physicians and surgeons that there can be, and often is this absorption of wastes into the blood. However many research men are now of the opinion that in many individuals the large intestine hangs too low in the abdomen and drags on the small intestine about it, thus interfering with the absorption of valuable food stuffs into the blood. This accounts for the fact that many of these cases are found in thin individuals and in a relatively large number of individuals who at one time had the proper amount of fat in and amongst their abdominal organs, but for some reason-illness or following some rigid system of fat reduction—have lost too much of this fat and the large intestine has dropped too low in the abdomen.

And so it has been found that if these individuals are "fattened up" somewhat, and while this fattening process is going on, an abdominal support or belt is worn, there is relief from constipation, from the pain of the dragging on the small intestine, and freedom from absorption of the intestinal wastes.

The thought then is that while overweight is a liability, its reduction should be very gradual so as to avoid this danger from dragging of large intestine on the small intestine.

Too rapid reduction has brought about the need of a surgical operation in some cases.

COULD YOU AT 30 RUN AS FAST AND AS FAR?

Not many men at 30 to-day, especially city men, can run five miles straight away, in any time. Yet, on January 28th, 1930, Dr. Robt. G. Jackson, at 72, did this in forty-seven minutes, before 6 a.m. It's only a matter of keeping the blood normally alkaline, or non-acid, which he does by eating alkaline Roman Meal, the only alkaline-forming grain food, because the only food containing flax-o-lin. Because of a diseased heart twenty-two years ago, Dr. Jackson was given only four months to live. Now he can suspend his body between two chairs, resting on heels and head, with 180 pounds on his abdomen—a great feat at any age, but at 72, marvellous! Write for free booklet, "HOW TO KEEP WELL," and other literature, also sample of Roman Meal and Kofy-sub, the new alkaline beverage, to ROBT. G. JACKSON, M.D., 102 Vine Avenue, Toronto 9, Ont.

See "The Princess and the Plumber" at the Regent Theatre, on March 4th, 5th and 6th.

REV. HUGHES BEGINS TRAVEL TALK SERIES

Interesting Travelogues to be Presented Every Week in Y.W.C.A.

The first of a series of Travel Talks was given at the Y.W.C.A. on Friday evening by Rev. J. L. Hughes, on England.

Mrs. E. E. Harvey, president of the Y.W.C.A., presided, and explained that this series included evenings on Alaska, Paris, the Holy Land, Hawaii and our Canadian West. Next Friday, Dr. H. M. Yelland will give a moving picture journey of a trip to Alaska, and the following Friday Miss Laura Wilson will speak on "Paris, Past and Present." Other speakers will be Rev. C. V. McLean, Dr. F. C. Neal, and Rev. A. H. Going.

Miss Mildred Hetherington opened the program with a delightful piano solo. In commencing his talk, Mr. Hughes said England had been his home until ten years ago, and last year he travelled to many of the familiar spots again. His lecture was most interesting, giving some of the geography and history and description of England as it is to-day.

England is naturally divided into three parts, often described as the Noisy North, or industrial part; the Midlands, and the Sunny South. England offers a great variety of interests, its mountains and lakes, rivers and valleys, poetry and drama. It is a land of short distances, only 423 miles from farthest north to farthest south, and 60 to 364 miles across, so visitors can easily manage to go sightseeing in the city, mentioning Liverpool Cathedral, which, when completed, will be the largest in the world. The beautiful lake district was described by one who did not follow the usual tour routes but who knew all the points of interest and who made his hearers see something of the appeal of the many lakes and mountains.

English trains seem small, but this is because the platforms are raised. These trains are among the fastest in the world. All the familiar points of interest, Warwick, Stratford-on-Avon, Oxford, and London were mentioned and interesting bits of history told as well as pictures shown. The appreciation of the audience was expressed to Mr. Hughes for his interesting talk.

BARN NEAR MILVERTON BURNS.

MILVERTON, Ont., Mar. 2— The barn occupied by Lewis Rolls, on the farm of Robert Bier, 5th line Wellsley township was destroyed by fire which broke out about 8:15 p.m., last night, it is said as a result of a lantern dropping to the floor and exploding. Mr. and Mrs. Rolos, who were in the barn at the time had difficulty in saving the livestock with the exception of a number of pigs and chickens which perished. The loss is estimated at $2,500 partly covered by insurance.

X-RAY CAN'T FIND CAUSE OF STOMACH GAS

"I had awful gas and stomach trouble. Even X-ray couldn't find the cause. I was nervous and dizzy. Adlerika has done wonders."—Mrs. T. A. Dercola.

Unlike most remedies, Adlerika does not act on the stomach alone. It washes out BOTH stomach and bowels, removing poisons which caused gas bloating, nervousness, bad sleep. Get Adlerika today; by tomorrow you feel the great effect. McDermid & Jury, E. L. Payne, and McDermid Drug Co.

MARK STREET CHURCH IS CROWDED TO HEAR THE REV. ROBERT POGUE

Former Minister of St. Paul's Conducts Special Services at Mark Street.

LESSONS FROM STEPHEN.

"There is much in Stephen, the model church member, which churchmen to-day should imitate. The anniversary of a church ought to mark real heart-searching upon the part of all church members. What Stephen was, all churchmen by the grace of God may become. The grace which saved him and sanctified him and made him the outstanding Christian can do the same for every member of this church, and can make you bright and shining examples of the faith you profess." This was the theme of a sermon preached by Rev. Robert Pogue of St. Enoch's, Toronto, and formerly of St. Paul's Presbyterian church, Peterborough, before the congregation of Mark Street United church on the occasion of the second anniversary of the dedication of their new church.

The preacher spoke first of Stephen as a man. He was not only a man of good and honest report but he had the reputation for these qualities. He was good timber for church membership to begin with, and he was all the more influential and useful as a member of the church because, before uniting with it, he had the reputation for goodness and uprightness of character. When, later, his name was mentioned as chairman of the board of deacons (a kind of food controller position) there was not a single aspersion cast upon him.

Full of Faith.

Then, secondly, he was no less famous as a Christian than as a man. He was full of faith because he was a student of the scriptures, the solvent of doubts. All Christian men have the spirit, but not all are filled with it, as Stephen was.

Stephen was just as outstanding as a church officer, a man "full of grace and power." He was a gracious man, a gentleman in the true sense of the world. Breeding and environment count for much in the life of a man, but no one can be a true gentleman without the fine old evangelical quality of grace which is found in all men who know the grace of God in a heart experience. Men of goodness are men of power.

It is said of Stephen that he did great mircales among the people. The unbelief of to-day has no answer to the miracles wrought by the Christian church, such miracles as lame men healed, blind men made to see, and sin-enslaved men delivered from the power of sin. Nothing could stand before men who performed miracles of this nature. "They were not able to resist the spirit of wisdom with which he (Stephen) spake."

The speaker referred in closing to Stephen's death, and the prayer which he offered for his murderers. Pagans have died heroically, but Christians alone die with a prayer for their murderers on their lips.

Rev. A. E. Thornley, minister of the church, conducted the service which was particularly adapted to the occasion. Special music included the following: "Praise ye Jehovah" (Ashford), full choir; "How Lovely are Thy Dwellings" (Liddle), Mrs. B. Babcock of Bailieboro; "Ye Gates, Life Up Your Heads," male chorus; "Romance" (Habebier), organ and piano duet by Mrs. W. A. Greenslade and J. Cuff; "March" (Handel), also an organ and piano duet.

Evening Subject

The subject of Mr. Pogue's evening sermon was based on the words of St. Paul in his epistle to the Philippians: "I press towards the mark for the prize of the high calling of God in Christ Jesus." The Christian ideal, the goal of all endeavors should be a likeness to Christ. It is to have Christ's spirit, think Christ's thoughts, be in the world as he was in it, and to be found at all times as he was, "going about doing good." The only way to live a Christian life is to begin to do so.

The energy needed in the race of life has several characteristics. It possesses decisiveness or quickness to decide what to do and then to go through with it. The man who thinks long before he acts seldom acts at all. The man who sleeps upon his resolutions forgets all about them when he awakes.

Another feature of Christian energy is singleness of purpose. The importance of concentration is seen in the sphere of business as well as in religion. Many a man fails in life not because he lacks ability but because he lacks concentration. In the business world, this is a day of consolidation and specialisation. What St. Paul means by doing one thing is having a purpose in life. The trouble with most people is that their lives are purposeless, they are pledged to nothing, they are mere nobodies so far as promoting or keeping any Christian cause is concerned. "The great work of winning the world for Christ should be the one passion of every member of the church" declared the speaker. "Whatsoever thy hand findeth to do, do it with all thy might."

"Christ wants us to give ourselves to him and his church in a wholehearted surrender, that we should make our religion the business of our lives" said Mr. Pogue in concluding. "Spare nothing, neither time, nor energy, nor money, but ever press on towards the goal of complete likeness to himself, who loved and served even unto death itself.

On towards the goal! Press on!
Blind, deaf and sometimes dumb,
Along the blood-marked, uphill way,
Hard after Christ, press on!"

Special music was also provided for the evening service as follows: "I Will Sing of Thy Power" (Sir A. Sullivan), full choir with solo work by Mrs. Hunter; "Fear Ye not, O Israel" G. Coleman, Jr.; "Ye Gates, Life up Your Heads", male chorus (repeated by request); "Reverie" (Lange) and "March" Clark), organ and piano duet.

MRS. F. C. NEAL IS POPULAR SPEAKER

Members of Women's Art Association Hear Talk on Hawaiian Islands.

The Art Association's meeting held in the studio of the Conservatory of Music on Friday afternoon was well attended. The President, Mrs. Blackwell, presided, and introduced the speaker, Mrs. F. C. Neal, who spoke on the Hawaiian Islands, which she described as "a glimpse into Paradise."

Situated as they are in the mid-Pacific Ocean they are often called the "crossroads of the Pacific," and have a bright and promising future as a world's port.

There are eight islands in the group—the four principal ones are Hawaii, Maru, Oahu and Kauai.

The islands are of volcanic origin and the native legend, substantiated by scientific observation, is very interesting as to the age of the various members of the group. The early inhabitants believed that "Pete," the fire godess, first took up her abode in Kauai and then moved on to others, as other islands emerged. Mrs. Neal described very graphically the appearance of the active volcanoes in the island of Hawaii, the largest crater being eight miles in circumference with the fire-pit 3,000 feet across.

The speaker was much impressed with the magic which surrounds these islands. Before landing at Honolulu the steamer was met, and passengers welcomed by their friends. Beautiful leis of flowers, or we would say long garlands of lowers, were thrown over their necks. These were woven of carnations, or gardenias, and Mrs. Neal had a large number of artificial leis decorating the room for inspection. These were ingeniously made in the most beautiful shades, which the inhabitants of the islands make and sell.

The curious customs and many monuments of heroes of other dates are also very interesting.

Captain James Cook, a British navigator, discovered the islands in 1778, giving them the name of the Sandwich Islands. At this time the islands were independent of each other, each being ruled by its own chief. Finally, Kamahamaha I conquered all the islands, and ruled from 1782-1819.

After his death the islands were in a very turbulent state, owing to the overthrow of the pagan religion. About this time a group of Christian missionaries from New England landed in Hawaii and made rapid progress in educating and converting the inhabitants. They put the languages in written form which before had been transmitted from one generation to another.

For a long time first one power and then another looked on the islands with a jealous eye. During the reign of the second King Liholiho, the people considered themselves under the protection of Great Britain and the King and Queen visited Queen Victoria. Afterward King Kamehameha IV. married Emma Rooke, who was educated in a private British family and again British influence was paramount. Between these times United States gained great influence by promoting the sugar industry and it was necessary to import foreign labor, hence the population of Chinese, Japanese, Filipinos and Portuguese, etc.

In 1891 Queen Lilmakalani came to the throne, but was deposed and a governor appointed, and in 1898 the islands were annexed to the United States.

Music is the very breath of the native Hawaiian and practically everyone can sing and play the ukelele. They are all expert hula dancers, and this dance in its purest form is entirely descriptive and very beautiful.

The history and traditions of the people were perpetuated in the language which the hula spoke to the people before the missionaries introduced the written language. In conclusion the speaker referred to the beautiful native music, to the profusion of flowers, where all the trees bear brilliant flowers. She spoke of some of the best-known varieties: oleander, hibiscus, orange, banana, poinciana, night blooming cereus, and bougainvilla.

Here in this land of beauty one can procure splendid hotel accommodation with all the advantages of shops, restaurants, churches, schools and sports of all kinds, with the best golf course in the world. Picture postcards of the statues, flowers, streets and important public buildings and numerous other views were shown by Mrs. Neal throughout her talk. Also a beautiful tapu or kapua cloth made in the form of a table cover decorated the wall.

At the conclusion of the meeting tea was served, and a social hour spent over the tea cups.

The table was very attractive with a filet lace cloth, silver bowl of yellow daffodils and tall mauve candles in silver holders. Mrs. G. N. Gordon and Mrs. Wightman poured tea, and assistants were Mrs. E. J. Munro, Mrs. Porter, Miss Grace Rheinhart, Miss S. A. Tomkins and Miss Wood.

SMALL FIRE IN ATTIC

A fire in a defective chimney on 178 Aylmer Street required the services of the Fire Department at 6:17 Saturday evening. The fire was soon checked and damage will not exceed $50. At 12:27 p.m. Sunday another alarm was sent in from 238 Weston Street for a chimney fire. A call was received from 319 Elias Avenue at 1:38 p.m. for a fire in the attic which spread upwards and made a hole in the roof. The 35-gallon chemical tank was used to extinguish the fire. Damage was not great, although it is not computed as yet.

LOST 47 LBS. IN 90 DAYS

A True Story of Weight Reduction

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of the abdomen and sides.

"Now I am glad to say I am a well woman, feel much stronger, years younger, and my weight is 170 pounds. I do not only feel better, but I look better, so all my friends say.

"I shall never be without Kruschen Salts, will never cease taking my daily dose, and more than glad to highly recommend it for the great good that is in it."—(Mrs. S. A. Solomon.)

"P.S.—You may think I am exaggerating by writing such a long letter, but, truly, I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

Kruschen Salts are different from other salts—Kruschen is six salts in one—the very same six salts that nature demands for your health.

When you take Kruschen Salts you not only stimulate your bowels, liver and kidneys to function naturally and perfectly, but you supply every internal organ, gland, nerve and fibre in the body with nature's own revitalizing and rejuvenating minerals.

Take Kruschen in a glass of hot water every morning before breakfast—do not over-eat—correct your diet—cut out the fat-forming foods—get some gentle, regular exercise—in just a few days, indolence changes to activity and life grows brighter.

Before the bottle is empty you'll feel years younger—eyes will brighten—step grow sprightlier—nerves steadier—you'll sleep sound, enjoy your meals, and after a hard day's work you'll be ready for wholesome recreation.

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

FREE TRIAL OFFER OF KRUSCHEN

Try Kruschen now at our expense. We have distributed a great many "GIANT" packages which make it easy for you to prove our claims for yourself. Ask your druggist for the new "GIANT" 75c package. This consists of our regular 75c bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorized to return your 75c immediately and without question. You have tried Kruschen free at our expense. What could be fairer?

NO NEED OF A PROBE.

Most people will agree that the Legislature was well advised not to proceed with an investigation into the editorial referring to atheism which appeared in "Varsity," the undergraduate journal of the University of Toronto.

If the governing body of the university is not capable of dealing with a question of that nature, it is certainly not worthy of the powers with which it is entrusted.

The whole affair has been unduly magnified and over-stressed, and it is fortunate indeed that the Legislature did not give it even more unnecessary prominence by being stampeded into a Legislature probe; it was bad enough to waste a couple of hours discussing the matter on the floor of the House.

The university has a board of governors, twenty-two of whom are appointed by the Government and twenty-two by the alumni, with several ex-official members, and, in addition, there is the Caput, which has control of discipline within the university.

Surely the issue can be safely left in the hands of these bodies; meanwhile the Legislature can go ahead with important business, and the Toronto newspapers shake off their hysteria and develop a new sensation.

By this time they have squeezed the last drop of interest out of the university incident.

SHOULD BE NATION-WIDE.

A great deal is being said these days about unemployment insurance, and the recent speech of Hon. James Lyons in the Legislature has been referred to by several newspapers as a Government "feeler" intended to test public opinion in the Province.

To The Examiner it would seem obvious that if and when a scheme of unemployment insurance is introduced it should be launched as a federal scheme.

The plan most favored is one under which the employee, the employer and the state would all contribute, and it should be apparent, therefore, that for any one Province to introduce such a plan on its own initiative would be to put its manufacturers under a handicap as compared with their competitors in other Provinces not so inclined to rush into paternalistic schemes.

Judging by history, Quebec would be the least likely of all the Provinces to establish a provincial unemployment insurance scheme, which would mean that manufacturers seeking locations would naturally choose Quebec in preference to other Provinces—say, Ontario—where they would be called upon to contribute to a plan of unemployment relief.

If Canada is to have unemployment insurance, by all means let it be nation-wide and apply to every section of the Dominion.

THE COUNTRY'S ACTION.

As might have been expected, the action of the County Council in endeavoring to stop operations on the Peterborough-Tweed highway has ran foul of a large amount of local opposition.

This highway is regarded as of great importance, not only to the city of Peterborough, but to the whole district, for it will provide rapid and comfortable transportation through a section that has not been well served with good roads, and will undoubtedly increase the volume of tourist traffic into this part of Ontario.

Its construction has long been sought, and the attempt of the County Council to throw a monkey wrench into the machinery at a time when the road has not only been authorized but when contracts have been let and work is acually under way is regarded in many quarters as a mistake.

It is felt that Premier Henry, when he made his statement last week that no more highways would be built through sections where the municipalities protested that their share of the cost would be a burden, was not referring to roads whose improvement had been authorized and work on which had been started, but had in mind new projects not yet accepted by the Government.

In any event he will doubtless be impressed by the fact that despite the resolution of the County Council there is a strong desire in this part of the Province for the completion of Highway No. 7, and that this road is a vital link in this most important artery from Sarnia to Ottawa.

NO BARTERING WITH RUSSIA.

Sir Herbert Holt's declaration that "the only way to deal with Russia is universally to stop trading with Russia," is so obviously sound that the announcement that the Dominion Government has decided to prohibit virtually all importations from Russia should be generally applauded in this country.

It is agreed that the ambition of the Soviet Government is to impose its will upon the whole world through the medium of an agricultural and industrial expansion made possible by controlled employment and under conditions not possible elsewhere.

Similarly it is accepted that the five-year plan is succeeding and that the Soviet will soon be in a position to upset trade conditions throughout the world unless other countries embrace the only defence that is certain of success, the defence stated by Sir Herbert Holt and now adopted as a fixed policy by the Government of Canada.

It is complained that the present action is more drastic than that taken by any other country; that is undoubtedly true, but surely the situation calls for drastic action, and in this respect Canada is giving the rest of the world a leadership that is sorely needed.

For the moment this country may be the loser by a decision to refuse to barter with Russia, but in the final analysis the policy decided upon by the Bennett Government is likely to be found not only sound from a patriotic viewpoint but equally sound as a business proposition.

Most Canadians will agree with Premier Taschereau of Quebec that if Canada were to negotiate and trade with the Soviets she "would be helping to spread the detestable principles and methods which are theirs and from which we are already suffering to a considerable degree."

THE CITY MAN PAYS.

While Premier Henry was probably justified in remarks to the Ontario Motor League at Toronto that both city and country were trying to get rid of their shares of the cost of highways and that the Government proposed to go ahead with its program as it is, he apparently made no answer, whatever, to statements which have been frequently heard, of late, as to the iniquity of the present system toward the urban motorist and the urban taxpayer.

It is pretty well apparent that the city man who owns a motor car is paying rather heavily toward the cost of pavements, in gasoline and license taxes, yet the entire cost of pavements in the cities falls on the unfortunate owner of land. This is not fair. Pavements of the expensive type demanded nowadays for the convenience of motor traffic were not needed and were not built to any great extent 30 years ago. Yet today the city taxpayer finds himself saddled with an enormous bill for construction and maintenance of pavements within the city limits, extending even to the alleys, that are unquestionably designed for the convenience of motor car users.

Perhaps it may become necessary for the government to spend less money on rural highways and to give some relief to the overburdened city property owner in that way. He's entitled to it.—Border Cities Star.

THE WAY OF NEWS.

A correspondent suggests that newspapers should pay more attention to "emphasizing the normal and healthy things in life," and refrain from giving "so much space to events which speak of strife, unrest and disorder."

Yes, mister, we have heard the same complaint before, and the trouble is that we can't remedy it. Perhaps it is that people who work around newspaper offices get the wrong kind of training. They always go chasing about, you know, to find unusual things, and then scamper back to the office to write them, hoping they will get on the front page.

This habit seems to be general. Yesterday morning, for instance, we were looking over the Toronto morning papers, and there were pictures of strike scenes there. The Globe showed a string of people on a sidewalk with a policeman riding a horse beside them, and in another place it had a picture of a young woman being carried away on a stretcher after she had been hurt in the mix-up.

Then the Mail and Empire had something the same, only that paper had the picture of a policeman, and the only reason for picking out this photo was that during the fighting some one had hit him with a brick. Then, too, the Mail and Empire had a picture of Jack Contorowitz, a striker who had been beaten up. John had a big plaster down his nose, a couple more on his upper lip and still another that moved in the general direction leading from the mouth to the ear. If John had been standing on the walk and had not been mussed up, his picture never would have been in the paper.

* * * *

It is not at all likely that people would be bothered reading about usual things. When two or three persons gather together they generally talk about something that is unusual. Even when they are indulging in gossip they seek something out of the ordinary.

Even the Bible contains stories that are unusual. To-day they would lend themselves to extended treatment on the part of newspapers. The story about Abraham taking his son Isaac up into the mountain is a spectacular event. Moses placing himself at the head of the children of Israel during the time of the exodus from Egypt relates one of the greatest mass movements of people under primitive generalship that the world has ever read. The adventures of Joseph, and his elevation to high office in Egypt, the subsequent visit of his brothers in quest of corn—that makes another story that is far removed from being usual.

And what of the exploits of Elijah when he was sent to tell King Ahab about three years without rain? There could be nothing more unusual imagined than his appearance at Mt. Carmel to challenge and defeat the prophets of Baal, and his subsequent order that they should be taken and destroyed. And if a story ever had an anti-climax it is the one telling of Elijah fleeing to the desert a short time after to escape the queen Jezebel.

We do not imagine our correspondent would say that these Old Testament stories were sensational, and yet they are filled with and founded upon the unusual, and that is what is sought out by the news-gatherers of to-day.

* * * *

Two women had trouble in Stratford the other day, and they came to the magistrate's court to have it settled. One had offered 25 cents to a neighbor to come and give evidence, but it was charged that this neighbor went and gave evidence for the other woman because she had been offered fifty cents and some old clothing.

If those women had stayed at home and minded their own business there would have been no need or occasion to put anything about them in the paper at all. It would have been very uninteresting to read that they rose at seven in the morning, prepared breakfast, and after that washed the dishes. That is what they are supposed to do.

But when they have trouble over the back fence and proceed to the police court and then narrate the basis upon which they sought to purchase substantiating evidence for their claims—then it becomes news because it is unusual.

Newspapers, we fear, cannot promise a change in their methods. It is within their power to eliminate objectionable things, bearing in mind always that children and adults read newspapers, but they cannot cease publishing strange and peculiar items, even if they do deal with events in which violence has played its part.

And it is a fact, too, that as soon as big things cease to happen for a day or so, readers start to say "there is nothing much in the papers now."—Stratford Beacon-Herald.

EDITORIAL NOTES AND COMMENT.

And now it's to be no truck or trade with Soviet Russia.

When it comes to getting excited over a tempest in a teapot, the Toronto dailies seem to be in a class by themselves.

Toronto newspapers were burned on the University of Toronto grounds and, according to the headlines, "with loud laughter," suggesting the students must have read them before applying the match.

Hon. Frank Oliver, advocating greater precaution at level crossings, declared that carelessness was a crime. And unfortunately a crime for which the death penalty is often enacted.

And now Toronto University should be able to get back to education and the Legislature to a consideration of important issues.

The Red-Headed Goddess

By

ALICE ROSS COLVER

(Continued from Saturday)

What has happened? Nothing—really. And yet everything had. In a breath everything had altered. And she was somehow, not surprised. Ever since that horrible time when she and Dirk had found themselves alone and helpless on the desert, she had been waiting for this moment, had seen it coming and had struggled against it with a blind, instinctive self defense. But it was no use.

"This is a jam, Dirk."

"Yes."

"We'll have to dig out of it—together."

"Yes."

That was as near as she had come to admitting her need for him, for the desert solitude and its dangers forbade more. But the sweet secret had lain between them, not hidden, and the knowledge of it had helped her bear her aches and pains her bruises, her cuts and swollen feet, and now her bruises and cuts were healed, but there were other aches and pains less easily mended. This intimacy in which they were living, an intimacy almost as close as marriage, would soon be unbearable, unless they bravely and honestly faced the fact of their love for eachother.

"You're a wonderful caveman!"

The moment the mocking words had fallen she had wanted to snatch them back, for they brought indisputably before them both the clear picture of their life together, the sharp realization of its primitive ways—and needs. Caveman-cavewoman. They were, indeed, in so many instances, just that. Unbidden, there had leaped to their minds the next question—why not in every instance? It was then she had rushed from him.

"And yet—" she thought. "He hasn't really been a caveman at all. No one could have been more careful, more considerate."

Ah! But that was it! She, who had wanted to be consumed in the fires of his passion, found, instead, that his tenderness of her helplessness was the fan to the flame of her love, that, day by day, in this enforced companionship, there had grown up in her heart a feeling too difficult to keep within bounds. And now that self-preservation in this sunlit Eden had become a game and pleasure, the hours, sweet with idleness, held a danger greater than any they had yet experienced—the danger of life itself.

She went out at last, pale, quiet, but with resolution in her heart.

Dirk was there waiting for her with breakfast ready. Avoiding each other's eyes they ate it in a constraint which they forced themselves to break by an attempt at normal conversation, but as soon as the meal was over Dirk left her side and went crashing off into the bushes. She watched him, her eyes bright with unshed tears, her heart trembling within her. And then she went about her own morning tasks of freshening the beds and picking berries and nuts for the day.

Her wanderings in search of food took her all over the cove, and when she returned, an hour or so later she found Dirk seated on a rock whittling, with a furious kind of energy, at a club he held in his hand. For a second she hesitated, then she approached him and stood behind him, assuming a natural, casual manner.

"What are you going to do with that? It's a fierce looking cudgel."

"I'm going hunting," briefly.

"Hunting? But Dirk——"

"The food in this canyon isn't going to last forever."

"No, of course not."

"What's more, we're not going to stay here forever."

"Oh! You're going to explore some more? All right." She hesitated again, hating her self-consciousness. Why shouldn't she go with him? She always had. She had never even asked before, but now her usual words, "I'll be ready in a moment," stuck in her throat, and she remained staring miserably down at his bare shoulders, bronzed in the sunlight. As she watched his muscles rippling and swelling under the satin skin, she almost put out a hand to touch him, but at that moment he sprang up, ran his fingers exploringly down the smoothed handle of his weapon, tested the sharp points on its heavy end, and, swinging it up over his shoulder, strode away. At her involuntary gasp, however, he whirled, and, across a little sunlit space of green grass, she saw the strained look in his eyes.

"I'm going alone," he announced, but it sounded so brutal in his own ears that he added a desperate, impatient, qualifying clause. "Don't you see I must?"

"Yes. But—" she was not conscious of having approached him until she found her hand on his arm. At the touch of his flesh there sprang into her lifted eyes a startled expression. But she went bravely on. "We've poked around a lot, Dirk, looking for ways out. And there's just canyon—and more canyon. It goes on and on, with little twisty side ones off from it. You know how nearly we got lost once. Please let me go with you."

But he put off her appealing hand.

"Don't be silly," he said gently but firmly. "A caveman always goes off hunting, you know."

"Yes, and the woman always sits and waits for his safe return," she replied soberly. "If anything happens to you—" Her eyes filled suddenly, and before she could stop herself she was sobbing with her face hidden in her arms as she leaned against a tree.

Dirk lowered his club and stared at her shaken form, longing to take her in his arms, but restraining himself to a touch on her shoulder.

"Why, my dear—"

She whirled about.

"Oh, Dirk! I can't help it!" she gasped. Her clasped hands twisted and untwisted pitifully as she stood before him. "I'm not myself! I'm not Lorraine Kent any more at all. I'm changed. You've changed me This life I—I—don't know what I am! I've lost what I used to be and I can't find—"

She tried to fight back the tears, to hold back the words that were crowding for utterance, then suddenly she flung up her head. It was disgusting, acting this way, but at least she could be honest. There was a proud humility in her face a curious expression of happy defeat in her eyes, as she ended quite simply, with the words:

"I think I'm brave enough, Dirk."

His club dropped with a smash and he caught both her hands.

"What do you mean? Lorraine, tell me! What do you mean?" he asked roughly.

She shook her head slowly, slowly closed her eyes and, lifting his hand that held hers, laid her cheek against it.

"To admit it. Don't you remember our bet, Dirk?" she asked softly. "You said if you could put me in a place where I'd need you—" Her lips pressed his hand gently. "I need you, Dirk. I need you every minute. I need you all the time and all the ways there are to need a man."

Dirk's face worked spasmodically for a moment, as he folded her little hands in his, folded and folded them in a gesture both violent and tender. But he came no nearer than he had been before and at last he put her from him, and stooping, picked up his club again.

"Now I am going," he said quietly. "And alone." He paused and his look turned the girl's bones to water, but his voice was steady as he went on: "And every day I'm going—alone—until I find a way to get you out of this—jam—and safe home again." He set his jaw. "Damn sweet knowing what you said, Lorraine. Beautiful of you to tell me—but it doesn't do any good—until then."

So ending, he swung on his heel and tramped off across the waving, green meadow. A few moments later he was lost to sight where the canyon walls narrowed into another gorge, and Lorraine was left, thrilled, shamed, exultant, sobered, and loving him more than ever.

The day wore away slowly enough. She spent part of it trying to mold bowls and dishes out of some clay she had found in a bank. During another hour she collected wood for the evening fire, which they always built roaring high as soon as dusk dropped its chill blanket on the canyon. Then she washed some of her clothes, and after that she forgot the passage of time in her effort to coax a wild squirrel to her hand. Even then, it was only noon, and her scanty lunch of berries and nuts and water was soon eaten. In the afternoon she tried her luck with the sling shot, which Dirk had made for her, like his own, but was sickened when she killed the mildly enquiring squirrel she had tried to tame in the morning.

"Oh, I can't bear it! I can't bear this life any longer! This silence, this solitude!" She cried it aloud, springing up. Then, turning her eyes from the little creature's dying kicks, she flung her sling shot away, and rushed across the cove to the opposite entrance, determined to go and meet Dirk.

But she only ventured a short way when a sound stopped her headlong flight. What was that? What was that? It sounded like music! Yet how could there be music in this lonely canyon? Mystified and somewhat terrified, she scrambled as fast as possible up into a tree and hid there as the sound grew nearer. What was coming? What was she going to meet—alone?

The wild music drew nearer, a lovely melody of bells and soft bleatings and tiny hoofbeats on the rocks. In a moment there came to her astonished view a flock of sheep, tumbling down the narrow grassy pathway of the chasm before her. She stared in silence, not daring to move until she saw who drove them. Could it be Dirk? No. But what shepard lived in this wilderness? Puzzled, she watched and waited until at last it became clear to her that no one had driven them here, that they had wandered at their own free pace. But where from? It was impossible to guess, though the sight of them was most reassuring. After an appreciable length of time she found that her fear had fled, and amusement and delight took its place, as she watched the frolicsome lambs at play.

Then an idea occured to her. If she could separate two or three from the rest of the flock, drive them back down the canyon into her cove, surprise Dirk! What fun! How she would crow over him with her capture, barehanded, of food enough for months! There was the wool, too, and sheepskins would make clothing. It was worth trying.

With a little excited laugh she sprang from her hiding place, startling the animals into a panic. They ran this way and that, trying to bunch, but she headed two—a mother and her lamb—away from the others, and started driving them down the path. Every once in a while they attempted to break past her, and get back to the others, but at last they gave it up and, bleating plaintively, they rushed ahead of her in wild fright until at last they came pell-mell into her canyon.

What to do with them now was another problem, but she thought that if she drove them to the farther end, near their little lean-tos, and then let them alone, the animals might be too bewildered to find their way back out again. They might begin grazing in the meadow, and she could go about building a little corral out of the wood she had so carefully gathered for their fire that evening.

So busy was she at this task, that dusk was upon her before she knew it and then, just as she looked about, becoming uneasy for the first time, she heard Dirk's shout ringing down the canyon to her.

(To be continued)

FELLOWSHIP OF PRAYER

DAILY LENTEN DEVOTION

PREPARED BY THE REV CLARENCE H. WILSON, D.D. FOR THE COMMISSION ON EVANGELISM OF THE FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA

SPRING

"The seed is the work of God."—Luke 8:11. (Read Luke 8:4-15.)

MEDITATION

There is a vitality in words. Plant them and they spring into life, growing to immeasureable harvests. Civilization, education, religion, they all come from the sowing of words in the fecund soil of the human soul. The turning points in life are where words fitly spoken take root. "In the beginning was the word"—at every beginning is the word. Jesus describes Himself as the sower of the word of God. His training of the twelve was to make them expert farmers of the spirit. So we are called to our task which is to be sowers of words. Many of our words will be wasted, no doubt, sown on rocky soil or among thorns. But we are to sow and spare not. Nature is lavish with her seeds, producing and scattering far more than will ever grow. So should we be with words. We do not know where the good ground is. Our mistake is in selecting the likely spots for our sowing.

THE REV CLARENCE H. WILSON, D.D.

PRAYER

O God whose word giveth life, grant unto us that we may be diligent and generous, sowing beside all waters. Govern our tongues that the divine gift of speech be not abused. In Jesus' name. Amen.

DISTRICT MARKETS

MILLBROOK, March 2.—Following are the week-end retail market prices:

Beef, sirloin, 28 to 30c; round, 22 to 25c; roast, 25 to 27c; stew, 18 to 20c; veal, 22 to 25c; pork, 28c; lamb, 35c; breakfast bacon, 45 to 50c; butter, creamery, 37c; dairy, 32c; eggs, fresh, 25c; chickens, 25 to 30c; stewing fowl, 20 to 25c; potatoes, 15c a peck; 75c a bag.

Oats, 25c a bushel; wheat, 68c a bushel; barley, 30c a bushel; hay, $15 a ton; buckwheat, 50c a bushel.

What To-day Means To You

"PISCES"

If March 2nd is your birthday, the best hours for you on this date are from 8:30 a.m. to 9:30 a.m., from 1 p.m. to 3 p.m. and from 7 p.m. to 8:45 p.m. The danger periods are from 10:45 a.m. to noon and from 5 p.m. to 6:30 p.m.

Astrological influences on this date favor those who are engaged in doing constructive work, and it will be an excellent time for negotiations and transactions which require brisk and forceful handling. It cannot be described as a "safe" time for speculation.

Children born on this March 2nd will be pliant, affectionate, and rather indolent. Their natures will be sweet, but their dispositions weak. In order to do any good for themselves, they will have to experience the urge of necessity. So long as they can exist, they will not be very anxious to live.

If you were born on March 2nd, you possess an indomitable spirit, and when there is a "ghost of a chance," never give up until you "give up the ghost." Your horoscope foretells that you will suffer many reverses. There, however, instead of damping your ardor, will only make you more determined to go in and win. Many of your difficulties will be caused by poor vision and the inability to weigh "pros" and "cons." You become imbued with an idea and can only see the successful termination of your efforts and never give a thought to what might happen if the unexpected should occur. Excessive optimism is your besetting weakness.

You have an engaging personality, tolerant views, and a generous outlook Backed as these qualities are with sound knowledge, you could go much in life if you could look upon both sides of the picture, and reach an impartial decision. You have great confidence in your own ability to succeed where others fail, but you do not take long enough time to find out why they failed.

Your disposition always charms, and never alienates. Your temper is under control at all times. You never bear a grudge, and are charitable—even to those whom, in justice, you could claim to be your enemies. If mated with one born either in the month of December or August, your home life holds out a prospect of considerable happiness, as such a union will bespeak mutual affection and forbearance.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner office on the day before it is desired to have them inserted

CONFUSION GETTING WORSE

To The Editor of The Examiner,

Dear Sir,—The sudden economic collapse of the western nations including Canada has set everybody asking, "What's going to happen next? What's to be done about it?"

While business is hanging in extreme critical suspense along comes an offer from Russia to buy enough machinery from Canada to keep our mills going for two years at full blast if we will accept in payment two-thirds gold and one-third anthracite coal of the highest quality in the world and which we do not mine in Canada at all.

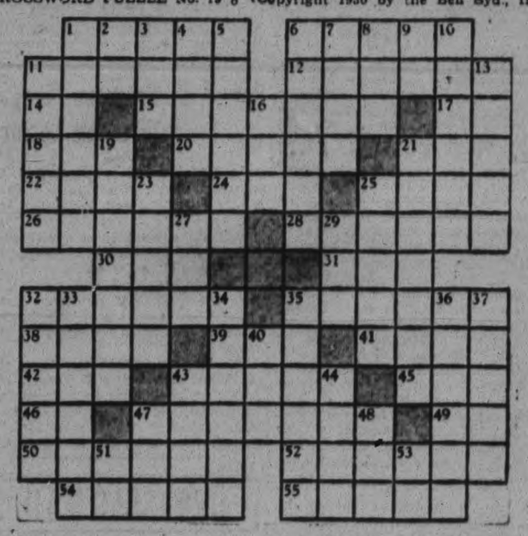
Most people would say and are saying that it ought to be accepted. But Sir Richard Holt, a very great financier and head of the Royal Bank says, "No" because if we encourage Russia, help her to settle her affairs and to develop her five-year plan which begins to look like a success then she will rise up and put us out of business altogether, unless we do as she is doing.

Why does he say that? Because the Soviet plan takes all its profits and puts them back into the business or puts them to the credit of the people as a whole capitalism appropriates all profit to itself with the result that when the demand for products is light employees have no work and no money (the profits all having gone to the employers). Hence as Sir Richard Holt would say, if the Soviet system wins and the profits all go to the people, where will the banks and other great trust and financial organizations be? They will go out of business altogether. Hence his alarm.

Economically the Soviet system provides first for the workingman and last for the private employer (in fact the private employer will disappear). There is no necessity of fearing that their system of employment and distribution for the people need have tacked to it as in Russian a hatred of religion. If we are compelled to adopt the Soviet system or insurance or some other substitute it need not interfere with us otherwise and it might improve our religious opportunities. Certainly we are on the ragged edge of a chasm at present refusing good business is not the way out. Personally I cannot see why our banks and employees cannot adopt the Russian system to our and their own needs. It simply means that if business is bad and exchange of trade light as at present Labour will work for itself and for its own support and thus can never come to its present poverty and want, while under the present system you see a most alarming condition of Labour looming up and no remedy under our present system possible. That there will be an election on this issue this summer is beyond doubt.

J. H. Burnham.

CROSSWORD PUZZLE No. 19 6 (Copyright 1930 by the Bell Syd., Inc.)



HORIZONTAL

1—Gowned.
6—Weapon.
11—To crave.

CANADIAN CREW

(Continued from page one)

mast 37 hours later. The destroyer hove to for 24 hours the weather showing little signs of abating while stormy seas swept the decks continually. The pumps were manned day and night.

Three stokers, all Ontario men, were injured. Hamilton was caught by a heavy sea and swept against a stanchion, suffering a broken collarbone. McDerby's back was hurt and Speck's nose was smashed.

Reaching Bermuda in sunshine on the morning of the ninth, the crew had become hardened sailors. They were able to don white uniforms and 14 days were spent repairing the damage wreaked by the storm. It was estimated to cost $2,810, and all the rigging was renewed.

The latter part of the cruise was of the happiest nature. When the destroyer arrived at Martinique the French received them with lavish hospitality, entertaining the Canadians on board the war sloop Alderbaran and also an official parties ashore.

RAIL SHARES LEAD N.Y. DOWN TREND

Number of Issues Advance Temporarily Following "Bull" Movement to Gain Control.

NEW YORK, March 2. (CP)—The rail shares again rolled down grade in to-day's stock market, dragging practically the entire list with them.

Bulls struggled to regain control of the price movement during the morning, and managed to lift a wide assortment of issues a point or two, temporarily, including several of the motor, utility, merchandising, food and miscellaneous manufacturing issues. After mid-day, however, bears worked the brakes lose in the rail group.

Particularly unsettling was the appearance of a private estimate that New York Central would earn little more than $1 a share, or half its current dividend rate, in the first quarter. This stock dropped about 5 points. Atchison, Baltimore and Ohio, Union Pacific, Worthington Pump and American Smelting soon showed losses of 3 or more, and shares off a point or two included U.S. Steel, Radio, Johns Manville, Pennsylvania, Missouri, Pacific, North American, American Telephone, Bethlehem Steel, Eastman American Can and International Harvester. Most of the morning advance was cancelled. Auburn, after surging up 12 points, broke sharply.

Viau Biscuit Firms On Montreal Exchange

MONTREAL, Que., March 2 (C. P.). — A drop of 2¼ points in Atlantic Sugar was the greatest change in security prices on the Montreal Stock Exchange to-day. Viau Biscuit showed strength, moving up rapidly to 20. A full two points higher than Saturday's close.

Royal Bank shares advanced a point to 268, and Dominion Steel and Coal B sold at 8, a gain of 1½. Foundation Company of Canada was up a point at 16.

Brazilian lost ⅝ at 25¾, Cement lost ⅝ at 17½, and Power Corporation slipped down ⅝ to 55. McColl-Frontenac and National Steel Car each lost a half. Nickel was up ¼ at 19¼, Dominion Bridge up ½ at 51, and Canadian Pacific up ¼ at 44.

Old Country Soccer Games

LONDON, March 2 (Canadian Press Cable). — Blarkburn Rovers defeated Leicester City by three goals to nil in an English League, First Division, soccer match to-day.

RUGBY UNION MATCHES.

LONDON, March 2 (Canadian Press Cable). — In Rugby Union matches played to-day, Llanelly defeated Plymouth Albion by 14 points to 0, and Pontypool beat Swansea by 11 points to 3.

Thief Makes Away Sunday Collections

GUELPH, Ont., March 2 (C. P.). — Evidently using a skeleton key, a thief entered the home of A. L. Bouch, treasurer of Norfolk Street United Church, in the absence of the family yesterday afternoon, and got away with the morning service collections, amounting to $100 or more.

TORONTO ELEVATORS PROVIDES INTEREST WITH 4 POINT GAIN

List Prices Harden Around Mid-day Following Sluggish Opening This Morning.

NICKEL SLIGHTLY HIGHER.

TORONTO, Ont., March 2 (C.P.)—Moving sluggishly most of the morning, the Toronto Exchange market quickened its pace around mid-day with prices hardening.

Opening firm, the market held throughout the first hour, slipping a little as it turned into the second hour of trading. The recession was very light and was the result of a falling off in purchasing rather than an increase of offerings.

The outstanding stock on the board from the standpoint of price movement was Toronto Elevators, which shot up nearly 4 points to 14. Lately the stock has been accumulated in large quantities at 10 or slightly better and last week it was reported that the company regarded the present outlook better than at this time last year.

Nickel was up slightly at mid-day, as was Noranda. Bell Telephone gained ¼ point, Ford of Canada cut down a ½ point loss, the foods moved higher and Walkers held at 8½. Brazilian was easier under 26 and some of the oils dropped a small fraction but losses were not such as to alter the character of the market.

FOREIGN EXCHANGE.

NEW YORK, March 2 (C.P.)—Prime merchantile paper 2½ to 2¾ per cent.

Foreign exchange steady, demand rates (Great Britain in dollars, others in cents): Grea Britain 4.85 5-8, France 3.91 ¾, Italy 5.23 ½, Germany 23.76.

Canadian dollars at par.

CHATHAM MAROONS PUT STRATFORD OUT

Two-goal Lead Obtained in First Game Suffices to Win Round.

STRATFORD, Mar. 2.—Holding the Stratford intermediates to a 3-all tie, and thus retaining their two-goal advantage gained in the first encounter at home Thursday evening, the Chatham Maroons Saturday night earned the right to advance into the next round of the O.H.A. intermediate series by a 5-3 score, and the Stratford Indians, who have made a splendid showing throughout the season, winning the group honors, and defeating Walkerton, Goderich and Acton in the playdowns, hang up their sticks for another season.

A BEDTIME STORY

by Howard R. Garis

UNCLE WIGGILY and the HUNGRY FOX

"What's the matter?" asked Uncle Wiggily.

Duster, one of his little boy rabbits, who had been a long way off in the woods gathering wood for the fire over which was boiling the kettle of maple sugar candy, came running up to his father, all out of breath.

"What's the matter?" asked Uncle Wiggily again. "And where is the wood you went after, Duster?"

"I—I—now—I dropped it!" panted Duster, who was Buster's twin brother.

"Why did you drop the wood when we need all we can get to make the fire hot to boil the sap from the maple trees into candy and syrup?" asked Uncle Wiggily standing near a patch of snow with a dipper in one paw. Out of the dipper the rabbit gentleman had just poured some of the hot, sweet sap on the patch of snow so the syrup would cool into maple wax.

"I dropped the wood because I was—now—sort—of—scared!" said Duster, sniffing hard. For the maple wax, which can be made just before the sap turns into syrup, smelled so good.

"Scared! Nonsense!" laughed Uncle Wiggily. "I don't want any of my bunny boys and girls to be frightened. It is silly to be frightened, even in the dark. For there is nothing in the dark that wasn't there in the light, and no one is afraid in the light."

"I - I - dropped it."

"Oh, no, I'm not scared of the dark," said Duster.

"Then of what were you frightened?" asked his father, lightly touching the yellow maple wax as it spread out on the snow patch. He wanted to see if it was coling enough so his bunnies could taste it.

Duster looked all around before he answered. Then he whispered:

"I was scared of the Fox!"

"The Fox! Oh, my goodness!" screamed Jingle.

"Let's run!" cried her twin sister Jangle.

"Nonsense! Don't be silly!" spoke Uncle Wiggily. Do you mean you would run away and leave all this lovely maple wax, which is almost ready to eat, though very sticky on your teeth, so you must be careful not to open your mouths once you take a taste. You surely aren't going to run and leave this maple wax?"

"But, Daddicums,' spoke Jangle "didn't Duster say he was scared of the Fox?"

"Well, what if he did?" asked Mr. Longears. "The Fox isn't here."

"Oh, but he is coming this way," said the boy rabbit. "I forgot to tell you that. When I was gathering wood for the fire I saw the Fox sneaking along between the trees, so I dropped my sticks and ran here fast to tell you. The Fox is coming this way."

"Well, that is a litlte different," said Uncle Wiggily, twinkling his pink nose slow and thoughtful-like. 'Still, there is nothing of which to be frightened, I have fooled the Fox more than once; yes, and the Wolf and the Bob Cat as well. I am not afraid of the Fox!"

"Not even if he is hungry?" asked Jingle.

"No, not even if he is hungry!" said Uncle Wiggily bravely. "So don't any of you run away. Maybe the Fox won't come here. But if he does, well, we shall see what happens."

Baby Bunty picked up a stone.

"Don't put that stone on the fire as you did the stick you were going to put in the kettle to get a taste of candy," said Uncle Wiggily.

"I'm not going to put the stone on the fire," said the little orphan rabbit, laughing. "I am going to put this stone on the nose of the hungry Fox if he comes too close, and I will put it on his nose hard!"

"Good for you!" cried Uncle Wiggily. "But the Fox may not come!"

"Yes, he will! Here I am now!" a voice suddenly growled. "And I'm hungry, too! Gurr-r-r-r!" Into the midst of the rabbits jumped the hungry Fox landing close to Uncle Wiggily and the maple wax on the snow.

"Oh, so you are hungry; are you, Mr. Fox?" asked Uncle Wiggily, smiling. "Well, have a bit of nice maple wax candy before you bite any of my little rabbits. Here, take a taste of this!" Mr. Longears lifted from the snow a sheet of the sticky, warm mapl wax. The Fox opened his mouth and took in the wax and then he couldn't open his mouth any mo re, for the sticky wax stuck his teeth tightly together.

"Glob! Wob! Glug!" was all the Fox could jabber, not being able to open his mouth. "Glob! Wob! Glug!"

"Ha! Ha! laughed Uncle Wiggily. "You may be a hungry Mr. Fox, but you can't bite now until that candy wax melts in your mouth. And that will take some time. Now run away!" The bunnies pelted the Fox with sticks and stones and he couldn't harm them at all., for he couldn't bite, so away he ran. Then Mr. Longears gave his children the maple wax candy, telling them to suck it and not bite their teeth on it, and all was well.

MINING BRIEFS.

TORONTO, Ont., Mar. 2 (Special to Examiner)—Nordon was the feature of trading on the mining market from the opening today, price adding considerably to recent advances. Buying is reported to be coming from several sources with the southern Pacific coast taking some large blocks of stock. It is reported the stock will be called for trading in Los Angeles in the near future.

The annual general meeting Tashota Gold Mines Ltd. will be held in Montreal on Wednesday March 11.

The vein in the eastern tunnel at White Lake Mines is stated to have widened out to over seven feet at a point between 900 and 1,000 feet from the portal. Ore is said to be high grade. The Matachewan property recently acquired by White Lake consists of six claims in Powell township and it is planned to start work on them immediately after the breakup.

Bobjo Mines Ltd. interests have secured a good gold prospect in the eastern section of the Goudreau field, it is learned The claims were staked by Alex Price, veteran prospector, on behalf of the Jowsey group of Toronto, and it appears some excellent values in gold have been obtained in the preliminary work carried out last summer. Further work is to be undertaken after the breakup it is understood.

World restriction on tin output, providing for production of 125,700 tons by four leading producers annually, effective today, has been agreed upon by leading tin producers.

Captive Gets 3 Years For Theft In Cobourg

COBOURG, Ont. Mar. 2.— Pleading guilty to the theft of a car, Thomas Quinn was sentenced to three years in Kingston penitentiary by Judge L. O'Connor this afternoon. Quinn, with James Sullivan, stole the car in Cobourg, Feb. 14, and wrecked it when they crashed into a T.T.C. pole on St. Clair avenue the following day. Sullivan, who has pleaded guilty is in Cobourg hospital suffering from injuries received in the crash at Toronto.

17-Year-Old Youth Held for Assault

HAVERHILL, Mass., March 2 (C.P.). — As his alleged victim hovered on the brink of death, Russell Noble, 17, honor High School student and Sunday School teacher, was to-day held in $5,000 bail, charged with assault with intent to murder Mrs. Clara E. C. Ellis, wealthy widow. The youth remained outwardly unconcerned during his brief arraignment.

Tudor Rule Starts Spirited Battle As Heckler Disputes Throne Claimant

HEREFORD, England, March 2 (By Thomas T. Champion, C. P. Staff Correspondent). — The claim of Anthony Hall of Hereford, that he is the rightful King of England, descendant of the Tudors, was vigorously disputed when one of his open-air meetings yesterday broke up in a free fight.

Hall, a man of some distinction in education and appearance, was speaking in the Market Square of this pleasant old cathedral town, outlining his descent from Henry Tudor, who won the crown from Richard III., and became Henry VII. This Henry consolidated a doubtful claim by acknowledgment of his first Parliament and then by marrying Princess Elizabeth, absorbing the Yorkist claims.

But Hall was rudely interrupted by a saucy varlet who cried: "The people under the Tudors were nothing but serfs."

"You're a liar," responded the descendant of the long line of regal Henrys.

Unabashed by the display of royal displeasure, the interrupter jumped on the platform. For some time the ancient Market-place witnessed a sort of Bosworth Field in miniature.

Finally, however, some of King George's puissant constables persuaded Royalist and serf to go their different ways.

Plaintiffs Awarded $3,000 In Civil Case

BELLEVILLE, March 2. (Special)—In an action before Mr. Justice Jeffries here in which George Pinnie and his wife of South Monaghan and Andrew Finnie of Peterborough sought to claim the sum of $3,000 which had been paid on the purchase of stock in the Greater Toronto Realties Limited, judgment was given against the defendant D. W. Walls bondsalesman and secretary-treasurer of Greater Toronto Realties.

The action was settled by mutual consent part way through the hearing of the action, judgment being given against Walls for $3,000 and $150 costs, which payment is guaranteed by D. W. Gordon, president of Greater Toronto Realties and defendant Walls, who agreed to deposit with Imperial Trust Company Limited as security all their shares of common stock in Greater Toronto Realties Limited, with the exception of one share each; such securities to be reassigned on payment of judgment.

G. N. Gordon, K.C., represented plaintiffs while G. S. Saunderson of Toronto acted in the interests of defendant.

It transpired that plaintiffs purchased $3,000 worth of stock in Greater Toronto Realties in the year 1928 on the understanding that Walls would repurchase the stock and pay the interest on demand. Repayment was demanded in 1930 but defendant refused, it was alleged.

The action was to have been heard at Peterborough Assizes in February, but at that time a declaration was filed certifying defendants inability to attend, on account of tonsilitis. The case was traversed to Belleville.

CAUCUS PASSES THEODORE PLANS

Call For Tax of 17 Per Cent. on Interest Payments to Holders of Gov't, Public Loans.

TWO MINISTERS TO RESIGN.

CANBERRA, Australia, March 2 (Wireless to the C.P., via Central News).—The rehabilitation proposals of Hon. E. G. Theodore, Commonwealth Treasurer, were endorsed by the caucus of the Commonwealth Labor Party to-day.

The plans call for a tax of 17 per cent. on interest payments to Australian holders of Government and public loans; reduction in the salaries of public service workers; and an issue of $90,000,000 in fiduciary notes.

The special currency issue is designed to provide $5,000,000 monthly for constructive works to relieve unemployment, a total of $60,000,000 in the next 12 months; and a fund of $30,000,000 to provide bounties to wheat-growers and to relieve distress in agricultural communities.

The caucus decision meant that two extremists in the Cabinet of Prime Minister James Scullin are called upon to resign. They are Hon. Frank Anstey, Minister of Health and Repatriation, and Hon. John Albert Beasley, Assistant Minister of Industry and External Affairs. Mr. Beasley is the youngest member of the House of Representatives.

POLICE ARREST ALLEGED GANG

Four Youths Were Rounded Up By City Police at Noon To-day.

FACE BURGLARY CHARGE.

A gang of alleged burglars were rounded up at noon to-day by local police. Chief Newhall stated that with the arrest of the gang most of the recent robberies of small stores in outlying points about the city have been cleaned up.

Four arrests were made and police say that more will follow. All the alleged burglars are youths ranging in age from 18 to 20.

Police state that when they made the round-up they found the young men in possession of stolen articles proved to have come from stores. They will remain in custody and will appear in police court tomorrow charged with burglary.

STANDARD FIRMS IN LATE TRADING

Nordon Corporation Advances 11 Cents to Provide Speculative Interest at Opening.

NORANDA UNCHANGED.

TORONTO, Ont., March 2 (C. p.)—After an irregular opening, the market took on a firm front on the Standard Stock and Mining Exchange today. Volume continued on a moderate scale.

Nordon Corporation provided the speculative interest in the first hour, jumping 11 cents to sell at 56 in the first fifteen minutes, and then dropping just as fast to 51 under heavy profit taking.

International Nickel and Noranda were unchanged, while Hudson Bay showed a small gain at $5.50. Improvements in the price of copper brought about gains in the base metals issues. Sherritt Gordon, Central Petricia, Ritchie, Sudbury Basin and Bunker Hill had gains ranging from 1-8 to 3 cents.

Golds did nosing out of the ordinary and price changes gave little indication of the possible trend of the group. Kirkland Lake was up 1, Hollinger, 5, and Big Missouri, 1. Wright Hargreaves lost 3, Barry Hollinger a small fraction and Sylvanite a cent. Teck Hughes and Dome failed to change.

Lindsay Couple Have Close Escape in Crash

(Special to The Examiner)

LINDSAY, Mar. 2.—Roy P. Wilson proprietor of the Lindsay Daily Post and his wife had a narrow escape from injury Sunday night as they were passing through the village of Manilla on their way home from Toronto. Their motor car skidded on the icy road and piled into the ditch. Luckily it struck a snow bank, which lessened the force of the impact. The car was damaged, but the occupants escaped.

RETIRED GENERAL IS PAID $21,500

Pershing and Hoover Head Salary List of Those in U. S. Gov't Pay.

HUGHES GETS $20,500.

WASHINGTON, Mar. 2.— (C.P.)—By way of explanation of the old song which encourages the youth of the United States to never say die because some day 'you may be President or General of the Army,' it is discovered here that General John J. (Black Jack) Pershing gets a larger salary, although retired, than any other officer of the Government except the President.

General Pershing, who commanded the army in the Great War, gets $21,000 a year, this being made up of $13,500 base pay and $8,000 allowance for commutation, light, heat and quarters.

Next to the General in salary rating comes Charles Evans Hughes, Chief Justice of the Supreme Court, who gets $20,500.

The Ambassador to the Court of St. James, Charles G. Dawes, gets only $17,500, while the Vice-President and all the Cabinet members are forced to subsist on $15,000.

Derelict Torpedoes Cause Of Uneasiness

CONSTANTINOPLE, March 2 (Wireless to the Canadian Press via Central News). — Derelict torpedoes of Russian origin are causing great uneasiness to shipping using the narrow passages between the Black Sea and the Sea of Marmora. The number of these torpedoes are turning up in increasing numbers, and although the Turkish authorities are taking prompt steps to remove them when discovered, all vessels are proceeding cautiously.

14 SOCIAL DEMOCRATS CONFESS DETAILS TO WRECK SOVIET GOV'T

Move Comes After Leaders Had Pleaded Guilty at Moscow Trial.

LITTLE PUBLIC INTEREST.

MOSCOW, March 2 (A.P.)—Fourteen leaders of the Russian Social Democratic Party to-day began detailed confessions on the witness-stand after pleading guilty yesterday to plotting overthrown of the Soviet Government by means of sabotage and foreign intervention.

There seemed little interest in the proceedings and there were many vacant seats in the court room. This was attributed partly to the dry program outlined by the famous Soviet Prosecutor, N. B. Krylenko, who spent most of the session examining the defendants on the organization of the Social Democratic Party, questions of class ideaslogy and other related subjects.

Vladimir Gromen, Soviet economist; Boris Berlatsky, of the Soviet State Bank, and Abraham Ginsburgh, Member of the Supreme Council of National Economy, defendants, told of Social Democratic Party Politics, their plans to slow down industry and their belief that the Soviet scheme of government would not work in Russia.

Appointed From Germany

Vasily Sher, Manager of the State Bank, said that he had been appointed by "Herr Dann, prominent Social Democrat in Germany," to represent the party in Russia. He said he had invited Groman and Ginsburg to join and that the party had then got under way.

"We thought we were right and the Soviets wrong then, but now I know we were wrong," he said.

Berlatsky, who was once Finance Minister of the Far Eastern Republic, said that he had been convinced that the Bolshevik scheme would never save Russia.

"I joined the Mensheviks (Social Democrats) in 1924, resigned, and rejoined them again in 1927," he said, "because I felt that the policy by the Soviet Government and Communist Party was going from bad to worse."

The defendants to-day all wore ear phones and listened intently to Krylenko's questions and the answers to them.

There was little cigaret smoking among the prisoners, but the judges smoked constantly except the woman jurist, Judge Artukhina, who chewed lozenges. The trial was not broadcast except in the courtroom corridor.

Mills Is Remanded To March 19 For Trial

TORONTO, Ont., March 2. (CP)—Harvey Mills, junior partner in the now defunct stock brokerage firm of Solloway-mills and Company, was remanded until March 19 when he appeared in Police Court to-day to answer charges laid by the Attorney General's Department in connection with the operation of his stock brokerage business.

I. W. C. Solloway, partner of Mills, who was released from Lethbridge jail more than a week ago after he had served a prison term of four months imposed by the Alberta Courts when he was convicted on charges of conspiracy was remanded until the same date when he appeared in local police court Saturday. Solloway was released on bail of $50,000 while Mills' bail was renewed at $35,000.

Decision In India Expected By Thursday

NEW DELHI, India, March 2. — (A.P.)—Mahatma Gandhi, exhausted and hoarse from his long conversation last night with the Viceroy, was more cheerful to-day than at any time since the two men began their conversations regarding Indian policies.

The tide has turned, he said, expressing a hope that developments at last were leading to a definite settlement of India's complicated problems.

To-morrow he is to see Sir George Schuster about financial and other safeguards to an Indian constitution proposed at the Round Table Conference, and thereafter he will see the Viceroy again.

It is likely that there will be a definite decision by Wednesday or Thursday whether India is to have peace or to continue in the present unsettled state.

VIVIAN GORDON LIVED IN GUELPH

Victim of Strangle Murder in New York Last Week Attended Loretto Convent.

IN THE YEAR 1906.

NEW YORK, March 2 (C.P.)—Vivian Gordon, pretty young woman, whose murder last Thursday was a sensational development of the current vice investigation, attended Loretto Convent, Guelph, Ont., police investigators announced to-day. The special investigator in charge of the case said Miss Gordon was at Guelph in 1906. Her name then was Benita Franklin.

Asked if the police investigation could be carried to Guelph, the investigator said he did not think so. She resided in Guelph so many years ago that he not believe anything of value in solving the mystery of her death would be found.

Miss Gordon's body was found in Van Cortland Park a few days after she had written the prosecutor in charge of the vice enquiry that she had some information of value which she wished to give him. She had been strangled.

MAY FORCE MINISTER TO TESTIFY

PARIS, Mar. 2.—(AP)—Raoul Peret, former Minister of Justice who refused to waive immunity and testify in an investigation of the Oustric Bank scandal will be compelled to do so if the Chamber approves a request made today by the Parliamentary investigating committee to cancel the right of immunity for him and other witnesses.

BAILIEBORO

A rare sight was enjoyed by the residents of South Monaghan, when the Bewdley hockey team as well as the citizens of Bewdley were motoring to Gore's Landing to play hockey on Wednesday evening, when a long line of cars following closely one after the other could be seen travelling down the centre of Rice Lake.

The bright lights on the smooth white surface made a beautiful landscape, which caused many of the people living close to the lake to make special mention of the long procession of bright lights.

The Bewdley boys carried off another victory by defeating the team from the Landing by a score of six to two.

Up to date the Bewdley boys have been playing a good brand of hockey and have rarely been defeated.

Cutting Wood

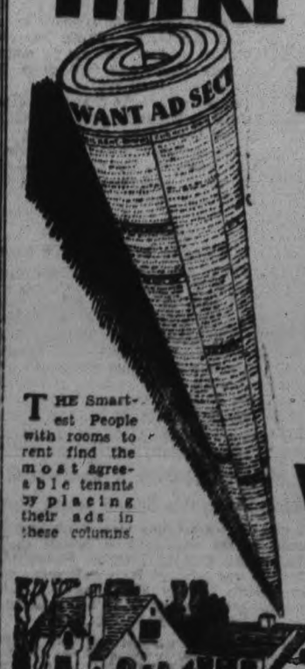
Signs of approaching spring are numerous throughout the township. One sign that seldom fails is the fact that the residents are busily engaged in getting their wood circled and split.

The township roads are being opened for motor traffic, while the men employed on the highway are digging out drains and culverts and preparing them for the spring freshets.

Has Purchased Business

R. P. Harper, who has for the past ten years been a popular merchant in the village and who sold his store, business and residence to Mr. Plews last December, and moved with his family to Port Hope, has recently purchased a hardware business in Brighton and has gone there to carry on business in that town.

THERE is another nicely furnished ROOM!



WHEREVER the most desirable rooms are available the Want Ad columns of THE EXAMINER will direct you. No need to ring endless doorbells in your search, for your quest is simplified by the daily list of desirable locations, with features noted, so that you pick and choose before you start on an inspection.

Colour combinations include pink and opal rose, champagne and wavecrest, black and red, sunny and leaf bud. See the windows! Get your supply of Woods' Lavender Line Underwear now during this Sale.

RICHARD HALL LIMITED

WELSH SOCIETY ATTENDS SERVICE AT ST. GEORGE'S

St. David's Day is Fittingly Observed by All Welshmen in Peterboro.

WHAT IS A NATION?

That nationalism should not be regarded as an end in itself, but rather as a channel through which nations may preserve their ideals and traditions to contribute to the building of the city of God, was the theme of an appropriate sermon preached by Rev. J. L. Hughes at St. George's Anglican Church last evening on the occasion of the observance of St. David's Day.

Members of the newly formed Welsh Society attended the service in a body, and were welcomed by E. Tucker, people's warden, while John Perry gave a sacred solo, sung in his native Welsh tongue. He was accompanied by Mrs. Blower at the organ. During the course of the service the Welsh National Anthem was also sung in Welsh by the members of the Society. Daffodils the Welsh floral emblem graced the altar.

Previous to preaching his sermon Rev. Mr. Hughes read a message of congratulation on the formation of a Welsh Society, from Rev. J. Price the first rector of St. George's Parish and who ministered there from 1912-30. He is a native of Wales and at present resident there, and it is largely as a result of the foundation which he laid while ministering here that the present organization of his countrymen has come into existence.

The first lesson from Genesis 28: 10-22 was read by P. T. Moseley, while the second lesson taken from Hebrews 11:32 to 12:2 was read by G. Davies, vice-president of the Welsh Association.

The following is the program of music rendered by the choir and congregation, each hymn being sung to a Welsh tune: "How Firm a Foundation" (Joanna); "Guide Me O Thou Great Jehovah" (Bryn Calfaria); "Jesus Lover of My Soul" (Aberystwyth); "Glorious things of Thee" (Ton-y-Botel); "God that Madeth Earth and Heaven" (Ar Hyd y Nos).

"The ultimate will of God is that humanity shall be saved and regenerated with God in the midst, but when that plan is consummated nationality will still remain," said the reverend preacher who took his text from Revelation 21:24 and 26. He wished, he said, to pay particular attention to verse twenty-six, "And they shall bring the glory and honor to the nations into it."

"What is a nation?" he asked. "Obviously a nation is not a state, nor is a state a nation. To provide the complete answer he did so by answering the question as to what the word nationality implies. "Nationality he thought was a psychological thing, so well expressed in the Welsh word "Cymru," which means a compatriot; a sense of belonging together. The working out of common ideals; common aspirations, that is nationality, while nationalism is the belief that one's nation and its prosperity is in itself the ultimate goal."

"We have seen in recent years where a high sense of nationalism naturally leads. One group of people were obsessed by it and it lead to the outbreak of the Great War," he observed. Nationalism, he contended, is essentially part of the whole world, as is the family, and we should not look upon our nation as being the final goal, but the welfare of humanity."

"The idea is abroad to-day that a nation must constitute a state with absolute sovreignty. If that is the idea of nationalism, it has become a fighting slogan. In India Gandhi is the embodiment of this idea. Mussolini is the incarnate self-confident nationalism of Italy, while Mustapha Kemel stands for the same idea with the Turks."

"We are faced with a strange paradox. On one hand we have a growing sense of nationalism and on the other a move towards inter-nationalism, as expressed in the League of Nations. Internationalism stands for fellowship, and we also find it growing up among the nations in the form of service clubs such as Rotary. In developing this point, the preacher showed how big a part radio and facilities for more extensive travelling have contributed to the growth of internationalism, and clinched the thought with the exclamation that, "The one needful thing for the welfare of humanity, is the spirit of Christ. That spirit must permeate it and must come from above out of the heavens from God."

STOMACH SORE AS A BOIL

TANLAC Brought Relief

Indigestion bothered him all the time. After every meal, gas almost choked him and between the constant nagging pain and the pressure of gas, he became so weak and nervous that he could neither work nor sleep.

Then Mr. Noah Pare, 330 Albert St., Windsor, Ont., heard of TANLAC. He tried it—and, as he writes, "After the third bottle, I was well. Now I eat and sleep well; never have a pain, and have never had a day's sickness since using Tanlac."

This is only one of thousands and thousands of cases of stubborn Indigestion, Gas and Pain after eating and other distressing Stomach Troubles that TANLAC has promtly relieved. This wonderful tonic not only corrects digestion ills, but also builds up new health and strength.

More than 55 million bottles of TANLAC have been used; and over 100,000 endorsements have been received.

Get a bottle today at your druggist's—your money back if it doesn't help you.

OBITUARY

ERIC LAMBERT ABBOTT

MILLBROOK, March 2 (Examiner Correspondence)—An error was inadvertently made in the death notice of Eric Lambert Abbott, eldest son of Mr. and Mrs. John Abbott, Millbrook, when the cause of decease was ascribed to spinal meningitis; instead the statement should have read simple meningitis, or a local irritation of the brain. Eric was born in England just prior to the close of the world war and the floral tribute mentioned in the obituary as from the head office of the Toronto Daily Star was a mistake, the local subscribers to that paper providing a beautiful wreath in appreciation of the faithful service given by the deceased as a messenger boy for a considerable period of time.

MRS. JAMES L. IRWIN

CAMPBELLFORD, March 2 (By Examiner Staff Correspondenet). — The funeral of the late Mrs. J. L. Irwin was held on Saturday, February 28, from the family residence, Front street, Campbellford, to Zion Church, Petherick's Corner, where service was conducted, interment being made in Zion Cemetery, the Rev. Mr. Hynde, assisted by the Rev. F. G. MacTavish, officiating. The pallbearers were: George Gibson, William Gibson, Willie Irwin, Victor Irwin, Richard Morton and Ernest Irwin.

Mrs. Irwin, who before her marriage was Miss Eliza Scarlett, died on Thursday, February 26 in her 53rd year, after an illness extending over some years.

Surviving are her husband, James L. Irwin; one son, Carl of Montreal, and two daughters, Frances and Naida at home.

MRS. GEORGE THIRD

CAMPBELLFORD, March 2 (By Examiner Staff Correspondent).—The funeral of the late Mrs. George Third was held on Saturday, February 28, service being conducted at the family residence, Alma street, Campbellford, with interment in Burnbrae Cemetery, the Rev. J. C. Robinson officiating. The pallbearers were: George Fry, James Stewart, George Bennett, Robert Fox, Thomas Varcoe, and Salem Hoard.

Mrs. Third, who before her marriage was Margaret Jane Eagleson, died on Thursday, February 26, at the age of 75 years and 11 months. Born in Ireland on March 13, 1855, she came to Canada fifty-eight years ago. She has been a resident of Campbellford for the past eight years.

Surviving are her husband and five sons, J. H. Third, Seymour; Neil of Seymour; Thomas of New Jersey, U.S.A.; Alfred of Kenaella, Alta, and Henry of Bridgeburg, Ont.

Neuritis—Lumbago Sciatica

You Can Expect and Get Instant Relief When You Rub in Joint-Ease

One man wrote a letter and in it he stated: "Joint-Ease knocked out my lumbago over night." Yes! Joint-Ease is like that—it has knocked out thousands of lumbagoes over night—it has brought speedy relief to tens of thousands of fine people who have suffered with Sciatica and Neuritis.

Joint-Ease is something splendid to always have in the house—great for backache, strained or sore muscles, lameness, stiff neck, sore inflamed feet, chest colds and swollen knuckles.

And of course everybody knows that for joint troubles such as stiff swollen, painful, creaky joints its influence for good is marvelous.

But rub it in good—Joint-Ease is made in Canada and sold by all stores that sell good medicines—a generous tube 60 cents.

KING'S WHARF

Mr. Robert Sullivan had a very successful auction sale on Wednesday when cows brought from $45 to $75; two year olds, $34; calves, $20; brood sows, $40; oats, 34 cents and barley 40 cents a bushel. George and Ted Jackson, of Port Perry, were the auctioneers.

Mr. and Mrs. P. Perdue were guests on Thursday of Mr. and Mrs. John Whalen, of Ops.

Mr. William Herlihy, of Lindsay, spent Wednesday the guest of friends here.

Mr. and Mrs. Frank Hickey and family were recent guests of Mr. and Mrs. Thomas Morrissey.

Mrs. Patrick Perdue was the guest on Tuesday of her sister, Mrs. Frank Cavanagh, of Ennismore.

HAVELOCK YOUTH INJURED SKIING

Three Stitches Required to Close Gash in Jack Mathison's Head.

SURPRISE PARTY HELD.

HAVELOCK, March 2 (Examiner Correspondence).—Little Jack Mathison met with a rather painful accident on Friday evening last, while ski-ing in the field north of the village. He fell when passing a rough spot, and was thrown on his head, receiving a nasty gash, which took three stitches to close. Dr. A. S. Thompson gave medical assistance, and no further trouble is expected.

Surprise Party

Mr. and Mrs. James Gilbert of Belmont, who were married recently, were surprised at their home when a number of friends and neighbors dropped in for a social evening, and presented them with a miscellaneous shower on Thursday last. A very enjoyable time was had by all present and the newly-married pair received the warm congratulations, and best wishes of their many friends. Mrs. Gilbert was formerly Mrs. Charles Easton.

Has Aunt Injured

Miss Mary Seeney of Toronto, who was seriously injured in an auto mishap near Highland Creek on Wednesday last, is the aunt of Mr. Carmen Coon of town. Mr. C. W. Coon journeyed to Toronto to see Miss Seeney, who is said to be progressing favorably. Miss Seeney is a former resident of Havelock, and was employed for a number of years in the general store of Mr. James Thompson.

Mrs. Plunkett, who lost her life in the same accident, was a sister-in-law of Mrs. R. Plunkett of Havelock, who with Mrs. Alex. Plunkett, also a sister-in-law of the dead lady, attended the funeral on Saturday.

Nomination Date

Nominations for the Townships of Belmont and Methuen Council, will be held in the Township Hall, Belmont, on Thursday, March 12th, from 1 to 2 p.m. If more than the required number are nominated, an election will be held on Thursday, March 19. The same officers as presided at the last election will act, in the event of their being an election.

The newly-elected council resigned in a body last week, when an appeal against the election on the grounds of irregularities at some of the polling booths were sworn to, by F. F. Fry, an elector of Belmont.

REFRESHMENT SERMON THEME

St. Andrew's Church Well Filled to Hear Rev. I. E. Robinson Sunday Morning.

AT CAMPBELLFORD.

(By Examiner Staff Correspondent)

CAMPBELLFORD, March 2.—Services in St. Andrew's Presbyterian Church, Campbellford were well attended on Sunday when the minister, the Rev. G. C. Robinson delivered two instructive and inspirational addresses. Special music was rendered by the choir under the direction of the organist and choir master, W. A. Newcourt, A.L.C.M., at both services, the morning anthem being "Rejoice, the Lord Is King", Mrs. Wynn taking the solo part.

At the morning service Mr. Robinson took for his text, Phileman, verse 7, "For we have great joy and consolation in thy love, because the hearts of Christians are refreshed by thee, brother". "He wanted," he said "to bring one simple idea to the congregation, this being the benefits of helpful Christians. Paul used the idea of refreshing, and this was correct. We are refreshed by drink, food, sleep and spiritually by the services of the church on Sunday. Paul knew that Christians could be refreshing to weary souls around them, and with this same idea the preached pointed out four types of people.

In the first place Mr. Robinson said there was the sympathetic Christian, that class of Christian without which a minister's work is so greatly handicapped. It was easy to criticize but it takes men with the greatest grace to be sympathetic and see all the beauty and good in the human make-up instead of the bad.

Then there were the prayerful Christian and at this part the preacher stressed the fact that prayer was as contagious as a disease, and helped more than any other thing. Paul always asked the prayers of the saints, feeling the need of them, stressing the fact that the finest things would only come to the congregation when every member was a student in the school of prayer and so bring down showers of grace on the heads of all.

Thirdly there was the optimistic Christian the speaker pointed out, stressing the fact that complaining, faultfinding people were not assets, the need being for those who could see the bright side of things as Paul saw them.

And lastly Mr. Robinson stressed the need of responsive christians. The need of the church today he said, was a sense of repentence. With the exception of Christ there was yet to live a man who did not sin every day of his life, either in thought, word or deed. Sin was the great enemy of the souls and called for confession and repentence on the part of Christians, the practice of these Christians is refreshing along the road of life.

DACK'S "Bond Street" Shoes
$10

Send for Illustrated Folder!

MONTREAL HAMILTON WINDSOR WINNIPEG CALGARY

LIMERICK WINNER

Michael Corrigan's Entry Judged Best in Marmora Contest.

MARMORA, March 2 (Examiner Correspondence). — Twenty entries making judging difficult were received in the first of a series of Limerick contests sponsored by the Deloro Safety Committee. Michael Corrigan was declared the winner on Saturday for the following entry:

A certain young man at Deloro,
Was taught at his work to be thorough.
Said he, "They are cranks,
I'll use broken planks,"
Now he's home full of slivers and sorrow.

CATTLE, GRAIN, PRODUCE

WINNIPEG GRAIN.

WINNIPEG, March 2. — Weak cables and heavy rains in the United States winter wheat belt weakened the Winnipeg wheat market on Saturday, forcing values 1¼c to ⅞c under Friday's close. Export sales of half a million bushels overnight failed to have a bullish effect on the prices.

Offerings were heavy with Chicago interests doing the bulk of selling, checking several attempts by the market to rise. Trading was fairly active during the short session.

Dullness marked cash wheat and coarse grain dealings. The former market was unchanged in price, but coarse grains dropped fractionally.

Futures:

Wheat—	Open	High	Low	Close	Prev. Close
May	.59⅞	.59⅞	.58⅝	.59¼	.60⅜
July	.61⅝	.61⅝	.60⅜	.60⅝	.60⅞
Oct.	.63¾	.63¾	.63⅛	.63⅛	.64⅛
Oats—					
May	.30⅝	.30⅝	.30¼	.30½	.30⅝
July	.30¼	.30¼	.30	.30¼	.30⅜
Oct.	.31⅞	.32	31⅝	.32	.32⅛

MONTREAL PRODUCE.

MONTREAL, March 2.—There was a slightly easier tone on the butter, cheese and egg markets at the week-end here, occasioned by the month-end lull in buying. Potatoes and pouultry held steady, light demand being balanced by light offerings in the former commodity.

Car-lot prces of butter were 31¾c to 32c a pound for No. 1 stock at the close Saturday. Solids were 34c and prints 35c.

Current colored cheese sold at 14½c to 14¾c a pound; current white at 12c, wth no trade in summers.

British Columbia fresh eggs were quoted at from 32c for extras odwn to 27c to 28c for pullets' in car lots. Prairie prices were slightly lower.

New Brunswick Green Mountain potatoes sold at 75c per 90 pounds, in bulk. Small lots quotations were 85c per 80 pound bag.

Wheat was reduced another cent a bushel on the cash grain market, following the decline at Winnipeg.

Egg receipts last week totalled 7,537 cases, butter arrivals were 2,136 boxes, and cheese receipts were 654 boxes.

CHICAGO GRAIN.

CHICAGO, March 2.—New tumbles carried wheat quickly down Saturday to 7c under last week's top level, and corn to a fresh bottom record for the season. Big deliveries of wheat Monday on Chicago March contracts were threatened, beneficial snowfalls and rains overspread much domestic wheat teritory, and foreigners showed increased anxiety relative to entrance of the United States wheat into active competition with wheat from other countries. Receipts of corn in Chicago totalled nearly double those both of week and a year ago.

Wheat closed irregular, 1¼c lower to 3-8c advance, corn 1 1-8c off to ¼c gain, oats ½c down to 1-8v up, and provisions at a rise of 5c to 17c.

THREE CONVICTS

(Continued from Page 1)

office, whither he had gone with the ostensible purpose of obtaining treatment for an aching tooth. Governor Banting is a physician; and often renders medical attention to prisoners. Suddenly the Governor heard the turnkey's screams of anguish and ran quickly toward main corridor. He also was slugged on the head from behind by Manson, who had been left in the office. Scarcely had he turned to face his assailant when he was also attacked by Moore and McLeod, who had by this time succeeded in locking up the turnkey. They knew that the Governor, although past middle age, was a man of powerful physique and possibly more than a match for the youthful criminal who had undertaken to overpower him alone.

Then followed a melee in which the elderly but vigorous and courageous jail Governor was attacked from all sides by the three youthful desperadoes. Making use of the skill at boxing he had acquired in his youth, and employing every weapon that chance put to his hands, Governor Banting defended himself, although beaten on the head and bleeding profusely. Two hours after the struggle an observer could see by the disorder inside the jail what a frightful scene had been enacted there.

Mrs. Banting Threatened

Mrs. Banting, wife of the Governor, drawn to the spot by the noise of the struggle from her home, which adjoins the jail, was pushed into the office beside her well-nigh unconscious husband, after she had been threatened by Moore, McLeod and Manson with immediate violence should she attempt to interfere with what was taking place. She was told, Governor Banting said, to get out of the way or she would be hit on the head, too.

With Governor Banting and Mrs. Banting locked in the office, and with Weymouth locked in a cell the jailbreakers ransacked the Governor's living quarters, which adjoin the jail building. While searching for valuables, the uninvited guests took time to turn on the radio and listen to dance music. After leisurely gathering up whatever they fancied, they decamped, taking Governor Banting's car, a blue sedan.

Faced Revolver Muzzle

When accosted and told to surrender by Constable Irwin and Chief Barraclough, the three men offered no resistance, possibly because Constable Irwin kept the muzzle of his revolver trained upon them until Chief Barraclough had them manacled. They maintained a brooding silence on the trip back to Barrie, especially after the police officers, fearing some sort of ruse, refused to accede to their insistent demands to be provided with food. Upon reaching Barrie, the three were locked up in the town jail for the night.

When sentenced recently by the Barrie Magistrate, Chief Stewart said, Manson had addressed the Bench defiantly and disrespecfully, asking why he had not been sent to Portsmouth Penitentiary, and declaring he would go there next time.

So far as could be learned at the jail Saturday night, none of the other prisoners were involved in the escape. In fact, some of them had assisted the turnkey out of teh cell in which he had been locked and helped convey him down the corridor.

Why Let Your Skin Age

Protect your skin with this new wonderful Face Powder and let MELLO-GLO give you that youthful bloom. Made by a new French process—stays on longer, prevents large pores, beautifies your complexion. Does not irritate the skin or give a pasty look. Purest face powder made. Try MELLO-GLO and you'll love it. Sold at all Druggists and at Toilet Good Counters.

Glad She Took Neighbour's Advice

Dodd's Kidney Pills Helped Aching Back

"I had such a terrible lame back that I could hardly straighten myself up," writes Mrs. Stanley Jackson, Plainfield, Ont. "I was advised by a neighbour to try Dodd's Kidney Pills, which I did, and was greatly relieved, so now I recommend them to all my friends."

It is statements like this that have made Dodd's Kidney Pills a household remedy all over Canada. For more than a third of a century people have been telling each other of the benefits received from Dodd's Kidney Pills. They are purely and simply a kidney remedy. If your kidneys trouble you, take Dodd's Kidney Pills. They are the remedy you need. 666

Pimples On Face Humiliated Her

BURDOCK BLOOD BITTERS

Miss Frances Lodge, R. R. No. 8, Dunnville, Ont., writes:—"I used to feel very humiliated whenever I would go to town, on account of the breaking out of pimples on my face, caused from impure blood. Now all that has vanished and I have not been bothered since I took part of a bottle of your wonderful medicine Burdock Blood Bitters."

Leafs Tie Canadiens 5 to 5 in Overtime Battle

SMYTHEMEN RALLY IN OVERTIME TO TIE THE CANADIENS 5 TO 5 IN SEASON'S MOST HECTIC TILT

Leafs Rise Twice to Heights of Hockey Brilliancy to Overcome Two Goal Lead of the Habitants—Burke and Jackson Draw Majors for Mixing it on Ice and in Penalty Box.

AMAZING AMERKS REGAIN POSSESSION OF THIRD PLACE AFTER SHORT LOSS TO MONTREAL MAROONS

TORONTO, Ont., March 2 (By George Maguire, Canadian Press Sports Writer). — The see-saw battle for third place in the Canadian group of the National Hockey League to-day finds New York Americans victorious temporarily at least. The four-game program over the week-end saw Montreal Maroons easily beat the tail-end Philadelphia Quakers, 4 to 1, at the Forum, and ascend to the much-disputed third rung for the brief period of 24 hours. Last night the Amazing Amerks regained their lost possession by nosing out Detroit Falcons, 2 to 1, after 10 minutes' overtime.

While these games provided the highlights from a mathematical point, the headline attraction occupied the interest of more than 8,000 wild-eyed fans at Toronto, where the Canadiens and the Maple Leafs clashed for the sixth time during the current schedule. The game ended in a 5-all deadlock after 70 minutes of nerve-wracking hockey.

The fortunes of hockey wars changed with almost kaleidoscopic suddenness. Twice Montreal's red-jerseyed speed artists found themselves possessors of a two-goal lead which seemed sufficient to annex the tw points without further struggling. The Leafs, however, displayed rare fighting spirit, fistically and otherwise, and on occasion rose to the heights of hockey brilliance to knot the count. The first time they accomplished the task with little more than two minutes remaining in the third frame, and the second time with barely three minutes remaining of the overtime period.

It was the first time a complete film has been taken of a major fixture and this may have been responsible for the nervous temperaments of the players. Harvey Jackson, Toronto's turbulent left winger, and Marty Burke, hard-hitting Habitant defenceman, climaxed a series of personal contacts by a neat display of fisticuffs on the ice and in the penalty box. They were given match fouls and will probably be fined by President Frank Calder. Jackson stands automatically suspended owing to incurrence of two previous major penalties. His place in the Leafs lineup on Tuesday will be taken by Bob Gracie, left winger of Toronto Marlboros, who were eliminated from the Ontario Hockey Association Senior "A" series play-offs by Port Colborne.

The Detroit-American and the Ottawa-Chicago clashes ranked close behind the match at Toronto for sustained speed and hard checking. Normie Himes, polished centre player, proved the hero of the game in Detroit when he converted a pass from Bill Bryden into the winning marker after four minutes of the extra session had elapsed.

As Rangers were idle, the Falcons now find themselves in an almost hopeless position. They have played as many games as the New Yorkers and are three points behind in the struggle for third place in the American division.

More than 13,000 fans saw the Blackhawks strengthen their grip on second place behind the Boston Bruins by defeating the Senators, 5 to 0, in a rough, speedy game at Chicago. The score fails to indicate the aggressiveness shown by the Ottawans who, led by the dashing Hec Kilrea, literally pumped the rubber at "Chuck" Gardner, league leading goal-keeper, in a fruitless effort to break their goose-egg.

Maroons were masters of the Quakers at all stages of the game and only the masterful goalkeeping of Wilfred Cude, Philadelphia's brilliant recruit, kept the score down. The old master, Nels Stewart, opened the scoring in the first frame, after being thrwarted on numerous occasions, and "Hooley" Smith increased the lead in the second session before the Quakers got their lone goal, through Sid Howe. Dave Trottier and "Baldy" Northcot completed the Montreal scoring in the last session.

WESTCLOX WINNERS FIRST GAME 32-21

Superior Combination and Accurate Shooting Accounts For Clockmakers' Victory.

Westclox won the decision over C.G.E. (Test) only after a fast tussle, with the final score 32-21, in a basketball game played in the Y. M.C.A. Gym. on Saturday evening. Despite the fact that Curry had been eliminated for incurring four fouls, and that the Westclox had to carry on the game with only four men for most of the second half, they forged ahead and won the game after a hard struggle.

The main features of the game are that it was fast and comparably clean. The Westclox combination was unusually good, and their shots infallible. However, C.G.E. did some excellent checking, and forced their opponents to some tricky plays. A few minutes before the end of the game, Mahood was sent off because of four fouls. This made the Test men furious, and a fierce battle ensued. But there was not enough time left for C.G.E. to consummate their hopes, and the bell for time ended the fastest game in the City League.

For Westclox, Kingston did the most scoring with 17 points to his credit. Kitchen tallied 9 points. Emery was the major scorer for the C.G.E. quintette, and equalled Kingston's score of 17 points. McKeagan was the only other scorer for the Test men.

The teams:

Westclox — Kingston and Smith, forwards; Kitchen, centre; McLeod and Curry, guards.

C.G.E. (Test) — Emery and McKeagan, forwards. Holgate, centre; Lawrence and Mahood, guards.

Referees—Sturgeon and Cooper.

DECISIVE VICTORY FOR WINDSOR TEAM

Belleville Senior "B" Team is Beaten on Round 9 to 3.

WINDSOR, Mar. 2.—As far as Belleville Cheerios are concerned, March certainly came in like a roaring lion here on Saturday night. Stan Burgoyne's Belleville horde bounced clean out of the 1930-31 O.R.A. playoff picture as they bowed before the sensational sweep of Windsor seniors by a score of 7—1 in the second game in the senior "B" Group championship series. As the teams had played a 2—2 tie in the first game, Windsor captured the senior "B" title by 9 goals to 3.

Coach "Pick" Hines, former Toronto hockey and baseball luminary, handled the Windsor players in a highly efficient manner, and got the most out of the team that was not picked to go any place at all in O.H.A. competition this winter. It was the first O.H.A. championship of any kind, ever captured by a Border Cities amateur hockey team.

Mulvihill accounted for Belleville's only goal late in the second period. Windsor led 2—0 in the first period and 5—1 at the end of the second. Seven Windsor players figured in the scoring. Bert Foote got two goals, Drouillard (junior recruit) one, Anderson one, Sullivan one, Fauria one and Robson one. Belleville made little headway against Windsor's solid defense at any time. Leachman and Mulvihill were easily the best for the visitors, Smith had two fine scoring chances and blew them both.

Wellman Is Winner Of Tip-Top Trophy

HASTINGS, Mar. 2.—The play-off for the handsome Tip-Top trophy for winners of the double schedule of the local curling club took place on Thursday night before a large gallery. Wellman won the first half and Coughlan the second half. The play-off brought out some good shots and the game was hard fought. Coughlan held the lead till the eleventh end when Wellman got a five to take the lead.

LEADERS HOLD BIG ADVANTAGE

Spurt of Boston Bruins Cubs Comes Too Late in League Race.

GAUDREAULT ADVANCES.

BOSTON, Mass., March 2 (C.P.)—Two victories and a tie during the week enabled the greatly strengthened Boston Bruins Cubs to pull up a few points in the Canadian-American Hockey League standing. This spurt, however, came too late to overhaul the leaders, the Springfield Indians and Providence Reds. The Indians now have a 7-point lead over the Reds, and the latter club has an even six games advantage over the Cubs.

The official standing including games of February 28, follows:

	W.	L.	T.	F.	A.	Pts.
Springfield	24	7	2	134	78	50
Providence	19	8	5	102	65	43
Boston	13	18	3	31	93	29
Philadelphia	9	20	4	63	91	22
New Haven	8	20	4	51	104	20

Leo Gaudrealt of Providence, during the week, regained second place on the high scoring list and Eddie Burke, Boston centre, who was runner up to Heximer of Springfield last week, dropped back into a tie for third place on the select list.

Heximer, who has been leading the league most of the season, has been credited with 29 goals, 21 assists for a total of 50 points, 16 more than the Providence centre man. Hart and Burke each have 32 points to their credit.

Eddie Convey of New Haven, and Bud Cook, Providence winger, continue as the league's bad men. Convey has served 96 minutes in the penalty box and Cook has been punished a minute less. Coulter of Philadelphia, with a total of 91 minutes of idleness, is third, the same position he held last week.

The Faculty of Arts, the largest art association in Britain, has awarded its gold medal for "the greatest film of 1930" to "All Quiet on the Western Front."

Dukes Are Eliminated in Senior "A" Race

TWO GOALS IN OVERTIME GIVE SAILORS 3—1 WIN

Senior "A" Classic Lacks Thrills Because of Close-checking Tactics.

WINNERS ON ROUND 4-2.

TORONTO, March 2.—Port Colborne Sailors, who have been travelling over heavy seas in their quest for the O.H.A. senior honors, passed a dangerous reef by downing the all-star Toronto Marlboros by 3 to 1 before a capacity crowd at the Arena Gardens Saturday afternoon. The game necessitated ten minutes of overtime before the Sailors could take the verdict, but it gave them the round by 4 to 2, the other two fixtures ending in 0-0 and 1-1 draws. The Sailors will now meet Hamilton Tigers in home-and-home games for the Senior "A" series title.

Saturday's game was by no means a display of good hockey, and although interesting owing to its closeness, did not supply any real thrills owing to the cautious and close-checking tactics the teams were using. On the play the Sailors were the better team. They out-skated and out-checked the locals the majority of the time, and should have been easy winners without the necessity of overtime. Claude Harris, in the local goal, was enjoying another of his good games, and much of the good showing of the Dukes must be credited to him, as he turned aside many shots which would have ordinarily been good for goals. But then again it must be said that "Dinty" Moore, who guarded the net at the other end of the rink, also gave a sensational performance, the Dukes being through many times but finding an unsumountable barrier.

COGS AND C.G.E. MEET TO-NIGHT

Winner of Fixture Will Go Into Tie With Norwood for Second Place.

FAST GAME PROMISED.

Cogs and C.G.E. hook up at the Brock Street Arena to-night in an important E.P.L. battle. The winner of the game will go up into a tie with Norwood for second place, while the loser will pass out of the hockey picture.

Both outfits will be at full strength for the contest, and it promises to be one of the tidiest encounters of the season. Good ice is promised the teams, and they will be thrown the puck sharp at 8.15.

St. Francois Xavier Are Eastern Champs

MONTREAL, Que., March 2 (C. P.). — For the third successive year St. Francois Xavier are champions of the Mount Royal Intermediate Hockey League of Montreal. The Saints yesterday played a two-goal tie with Lafontaine and captured the round and the league championship by three goals to two.

Two years ago St. Francois reached the final of the Allan Cup competition, only to lose to Port Arthur. Last year they lost in a play-off with Montreal Amateur Athletic Association for the city championship.

The Saints are rated by many observers as the best amateur team in the province this year.

Lakefield Teams In Exhibition Fixture

LAKEFIELD, March 2 (Examiner Correspondence). — Chaplan's Pels (a school team) and Lennox's Pheasants played a good game of hockey on Tuesday night with a score of 2-2. 'Babe" Wannamaker was the referee. There is a good deal of promising junior material in Lakefield, and the game on Tuesday displayed it.

Bowling Alley Gossip

By Pin Boy

City League five pin games last week produced some whirlwind battles together with a general shake-up in the team standing although there was really only one radical upset, this being the drop of the drop of the Westclox outfit from second place to a fourth place tie. The high standard of pin toppling set up by these heavy hitters is being consistently maintained and this week saw ten triples over 700 chalked up together with an 814 score by Tommy Holyman the Belmont Club's mainstay.

The Rangers climbed into a tie for the leading position with the Cognawagas this week by whitewashing the Night Hawks in a rather one sided argument despite the sterling display by Steve Elliott for the latter team which resulted in a 704 triple. The South Enders undoubtedly deserved their victory as they socked the maple for a team total of 3265 against their opponents' 2658. Ranger and Playford topped the 700 mark while Marsden was close behind.

The Cogs, the surprise team in the league, toppled 3219 pins to take a 3-1 decision from the Westclox. Signor Cupoli, reliable 600 man for the latter team surprised his teammates by turning in the lowest score of the game. Joe Robertson showed a reversal of his last week's form by topping the list this week. Johnny Wilson and George Williams joined the 700 class in this combat and together with Bill Prest sewed up the verdict for the Clubmen.

The Lucky Strikes mounted one rung nearer the top of the standing by downing the Belmonts 4-0 in the closest argument of the night. The tip-top exhibition by Tommy Holyman for the Belmonts threw a scare into the winners who took the second game by 2 pins when Holyman had clipped off a single of 329. The Strikers were only 99 pins up in pinage. 610 pins mad. Fred Scates second high to Holyman, while Vince O'Connell and Bill Prindible with triples of 713 and 709 led the winners.

The Big Five found their match this week when they tangled with the consistent Bowlrites to battle to a 2-all tie. Only the steady work of curvin who whacked the hardwood for a triple by Art Thomas saved the day for the "Big Fellows." Shiner Johnson turned in an exceptional card for Vince Anthony's team hitting 733 which included a single of 293. Frank Wood was well up with 676 and V. Anthony worked in a 296 single at an opportune time.

A 312 pin single by W. Curtis gave the Brinton Carpet one point out of four in their hook-up with the Canadians who by virtue of the 3 point gain are now perched in second place one point behind the tied leaders. Freeman provided the fire-works for the winners by upsetting 320 pins in one game and finished up with 709. Roy Lewis was next with 667 while A. B. Delahaye made the acquaintance of "Old Man Slump" and chalked up a triple of 499. G. Anderson's three game total of 643 made him second highest for the Carpet Makers.

Night Hawks	899	989	933	—2658
Rangers	999	1192	1074	—3265
Westclox	903	1026	1041	—2970

Automobile League

The tightest battle waged so far this season in the Motor league was enacted this week when the Hudson Essex team took on the Willys-Knight and battled to a 4-all decision. The Knights started off strong and scooped in the first two games, but their opponents came back with a rush in the third and when the total was made the last minute rally had given pinnage to the Hudson-Essex crew. Mrs. Carney led the attack on the Knights with a single of 254 and Carl Duck helped to swell the total with 224. Hutchinson and Shields kept the Willys-Knight in the fight with high triples.

Bowling four men against five the Pontiacs slipped along to a 6-2 win over the Buicks who slowed down after taking the first game hands down. Art Ralph was the most dangerous man for the Pontiacs, battering the maples for a three game total of 608. H. Bidwell and W. Hickey were also well up for the winners. J. J. Duffus, H. Dorsett and J. Darwin were going great guns for the Buicks and only bad luck on the single pins kept their totals down.

CLEVELAND INDIANS ADVANCE INTO 3RD PLACE BY REASON OF TWIN WIN OVER WEEK-END

Aggressive Ohio City Club Dominates Limelight By Downing Bisons 3 to 1.

TECUMSEHS IN SLUMP.

State Troopers Called to Protect Referee in Rough Melee at Cyracuse.

TORONTO, Ont., Mar. 2 (C.P.)—What with state troopers protecting a referee and last season's champion Cleveland Indians entering the circle of championship contenders in no uncertain manner activities in the International Hockey League at the week-end just about reached the peak in excitement.

The aggressive Indians dominated the limelight completely. After handing the league leading Buffalo Bisons their most decisive defeat of the season by a 3 to 1 count the Ohio city squad visited Syracuse on Sunday and merged with a 2-1 victory which hoisted them into third place in the standing just two points behind the second place Windsor Bulldogs.

Success in the Bisons' arena was attained through the spectacular playing of little Ken Doraty who stickhandled through the Buffalonians for two goals in the first frame and completed the hat trick by notching the clinching marker in the second 20 minutes.

The Bisons' lone tally came late in the final period from the stick of Carl Voss.

In Syracuse the Indians encountered even sterner opposition than from the pace setters. The Stars scored the opening goal halfway through the initial session and it was not until late in the second chukker that the Clevelanders knotted the count.

Stewart Dunning notched the winning marker in the early minutes of the overtime and when the Stars scored what the fans believed was the equalizer, bedlam broke loose throughout the arena and the feeling was intensified when the referee disallowed the goal ruling "Tubby" Moore offside. The official was escorted to the dressing room under protection of state troopers.

The game was exceptionally rough throughout and three players were carried off for repairs. Penalties were few, however.

Going down to a 2 to 0 defeat in Pittsburgh cost the Tecumsehs valuable ground in the final drive for a play-off berth. Their defeat coupled with the Indian's double triumph slumped the Londoners down to a tie with the Yellow Jackets for fourth place, three points behind the titleholders.

The standing to date follows:

Team	P	W	L	T	F	A	Pts.
Buffalo	41	25	11	6	95	63	55
Windsor	42	21	15	6	121	99	48
Cleveland	41	20	15	6	106	91	46
London	41	19	17	5	81	91	43
Pittsburgh	41	17	15	9	87	92	43
Detroit	40	15	24	9	77	103	31
Syracuse	42	9	29	4	93	140	22

Niagara Falls Wins Round From Midgets

Stratford Juniors Capture Second Game But Lose Round by Odd Goal.

NIAGARA FALLS, Ont., March 2. —Gene Fraser's Falls juniors, though suffering a 2-to-1 defeat at the hands of Stratford Midgets here Saturday night, take the O.H.A. play-off by 4 to 3 on the round, having beaten the Midgets 3 to 1 in the first game of the series at Stratford, Thursday night.

The contest marked the first reverse of the Frasers in a league game this season, while it also served to eliminate the Classic City entry, and again qualify the Frasorites for the O.H.A. junior finals.

Railway stations on closed branch lines in England are being used as dance halls, saloons, stores, offices, garages, sports clubs and lodging houses.

Bobcaygeon Juniors Win From Fenelon Falls 1-0

BOBCAYGEON, Mar. 2.—The nineteenth annual tournament of the Bobcaygeon Hockey Club concluded with the Bobcaygeon juniors taking first in the primary event against their old rivals, the Fenelon Falls seniors, in the best and fastest game of the tournament by a score of 1 to 0, the goal being scored by Conway on a pass from Ken Kelso in the first period.

The Fenelon Falls juniors surprised by their fine combination play when they defeated Dunsford and Omemee to win first in the consolation.

The prizes were presented to the winners at the conclusion of the tournament.

GEARMEN BLANK OFFICE SEXTET BY 2 TO 1 COUNT

Visitors in Second Consecutive Fixture Making Third Game Unnecessary.

SETS LEAGUE HISTORY.

Saturday's Tilt Sparkling Contest Featuring Much Brilliant Hockey.

The Switchgear "Bruins" crack group two entry in the C.G.E. Interdepartment Hockey League, won the Works' championship on Saturday afternoon at the Brock street arena when they defeated the Office No. 1 team 2-0 staging the second consecutive win of the final three game series, thus making a third game unnecessary.

This is the first time in the history of the league that a team outside of the senior group have been able to win the Social and Athletic Club silver cup emblematic of hockey supremacy among the teams composed solely of C.G.E. employees.

The league this season consisted of 12 teams which were grouped in three sections according to the strength of the respective teams. The Switchgear sextet were located in Group two, the second strongest in the league, and won every scheduled game without having a goal scored against them while in the semi-final they eliminated the Punch Press team, group 3 champions, allowing but one goal. These results with two straight victories in the finals leaves them with a perfect season, having no defeats, no ties and only two goals scored against them.

Sparkling Contest

The game on Saturday was a sparkling contest from start to finish and after a scoreless first period of torrid battling, the Switch-Builders took the lead and were never headed, securing the second marker in the final stanza, while Hope in goal held the Office scoreless. The fast ice was conductive to clever hockey and in the initial period both crews unleashed some furious attacks while they vied with each other in backchecking tactics honours being about even. Gray, Tuck and Playford were the most aggressive for the Pen Pushers, the latter staging some clever individual rushes.

Both goal-finders were showing to advantage, Miller in the Office net having a little more to do than Hope but in the second period Miller's guard was pierced by Whatley who beat him with a low shot on a pass from Cadd after five minutes of play. The game was scoreless for the remainder of the period but the "Bruins" were crowding most of the time and had a decided edge on the play. Maudsley, Routley and Heal on the forward line worked in close on Miller repeatedly with clever combination plays, but found him unbeatable.

Third Opens Fast

The third period uncovered the fastest hockey of the game with the Office trying hard to even the count, but most of their attacks went to pieces before the sturdy defence work of Cordery and Whatley, the husky Switchgear rear guard. Whatley was also the most dangerous player on the winning team and uncorked several speedy solo rushes, which carried him to the Office doormat, where Ken Miller and Tuck staged some effective blocking. Paggett sunk the second and last goal of the game for the winners midway in this stanza when he took a pass from Maudsley at the goal-mouth and beat Miller easily. O'Toole and Payne were the outstanding players for the Office in this period, Payne's playing at centre being a feature of the game.

The teams:

Switchgear Dept. — Goal, Jack Hope; defence, C. Whatley and W. Cordery; centre, Maudsley; wings, Cadd and G. Routley; subs, Paggett and C. Heal.

Office No. 1—Goal, Tommy Miller; defence, Ken Miller and Tuck; centre, Ron Payne; wings, Joe O'Toole and Jack Playford; subs, Jack Gray and Daniels.

Referee—"Waddy" Kenneally.

Penalties—Whatley (2), O'Toole, Gray, Cordery.

Summary

(First Period)

No score.

(Second Period)

Switchgear, Whatley (Cadd) 5.00

(Third Period)

Switchgear, Paggett (Maudsley) 7.00

Burke's Nasty Remarks And Odd-Butt End Not Welcomed By Jackson And Conacher

TORONTO, Mar. 2.—Charley Conacher redeemed himself for his questionable tatics in the penalty box by scoring two goals in Saturday's Leaf-Canadien tangle at Toronto. The feud between Burke, Conacher and Jackson dates back to the last game in Montreal, when Burke kept informing the Leaf youngsters they could not stomach coming through the Canadiens' defense. Marty is a quiet, unassuming chap off the ice, but he is entirely different during a game. He doesn't back up from anybody, but neither do Conacher and Jackson, and they only took exception to Burke's conversation, but they objected strenuously to the odd butt-end to which he treated them. Jackson says he received a butt-end from Burke's stick before the fight started, while at the same time Burke mentioned that Harvey had no stomach for taking hard bodychecks.

"How would you like to stomach that one?" exclaimed Harvey, as he let drive, straight from the shoulder. And then the fight was on.

Further remarks from Burke led to the renewal of the battle in the penalty box, the Canadiens' defence man declaring that both Conacher and Jackson were "yellow." The referees made a mistake in letting Burke sit between the two Leaf players. He should have been put at one end, or separated from them entirely. During the melee that occurred in the box Conacher struck Constable Buchanan of the Dundas Street Station, who was one of the officers endeavoring to separate the combatants. Fortunately, the constable viewed the matter in the right light, and laughed it off afterward when Conacher apologized.

CANADIAN HOLD MAY BE BROKEN IN HOCKEY WORLD

Harvard University By Supremacy Over McGill and Blues Show Strength.

CONDITION TELLS.

By LOU GOLDEN

(Special to The Examiner—Copyright 1931)

TORONTO, Ont., March 2—When the Johns of Harvard University sent McGill under at the Montreal Forum by two goals, the cry of, "What is wrong with Canadian college hockey?" boomed across the Dominion. There is nothing more wrong with college hockey in Canada than there is with other hockey in Canada. Some cannot seem to wake up to the fact that the Americans have not only adopted the Canadian winter sport, but have become so proficient at it that it will take an all-star team to win the Olympics next winter.

The critics seem to think that because the Blues were second to the last place in the Ontario Hockey Association, that Harvard is not much of a hockey team, for McGill did not show much better style than Toronto Varsity in the college playdowns.

They seem to forget that the team that Harvard has beaten twice is not the one the Toronto men lost to, but that nucleus, plus four real hockey players who have aided in keeping the flaming red of old McGill in the playdowns with Montreal Amateur Amateur Hockey Association title.

Those who saw the M.A.A.A. win the Allan Cup last year, will certainly admit they had a fine team. This year's is not as good, but it is of high calibre. The reds of McGill are their equals. Harvard is a much better team than McGill.

There is no doubt about the fact that the Canadian players are much the better stick handlers and the more natural hockey players. Of couse they are. They have been on skates since they have been able to stand, while the Americans have had to learn their hockey after attaining a comparatively ripe age.

But the American teams have condition. They have the best of coaching, they have size and they carry the same spirit into their hockey games that they carry on to the football field in the fall of the year. McGill is the best college team in Eastern Canada. But how many are sixty-minute men? How many of them have any intensive training in varied plays?

Of course the Bostonians, to take the example of the American teams, lack the finish of the Canadian ice men, but they have much else that can make up for the lack of natural aptitude of the game.

The Harvard team is not made up of Canadians studying over the line, but every man on the team is American-born, and every man has learned his hockey on the southern side of the line.

What is more they have the speed that is essential to the game and can maintain a steady pace at that speed. They have learned the game from the chalk board and from the charts arranged by their coaches and any supercilious attitude taken by the Canadian will have no effect on the result. Yes, a short time ago it did seem that it was an impossibility that an American team could be the equal of a Canadian, but the time has now arrived. Not merely just as good, but better.

There is no doubt in the minds of those who have seen the system under which the Americans study and play their hockey, that a Canadian team could play just as good hockey as the Yanks. Given the same coaching and conditioning and they will beat any American outfit that can put on skates, but under the present conditions, nothing of the sort can happen.—(Copyright by Star Newspaper Service)

Bobby Jones Starts On Golfing Picture

HOLLYWOOD, Cal., March 2 (C.P.)—Motion pictures' newest star looked out this morning to say:—

"So this is Hollywood."

Robert T. Jones, Jr., winner of 13 major golf championships, four of them making up the only grand slam the game has known, was on a new course to-day, teeing up for an additional series of 12 pictures.

Starting at the green with a picture on putting he will stand before the camera until he has made chip shots, niblick shots, mashie niblick, spade, mashie and four iron combined, three and two irons, two iron and spoon compared, brassie, driver, trouble shots, practice and finally, to ring down the curtain, a complete round.

Canadian-American Play-Off Dates Set

NEW HAVEN, Conn., March 2.—Delegates to the Canadian-American Hockey League meeting Saturday approved the transfer of the league franchise from the new Boston Arena corporation to the Boston Madison Square Garden corporation and the transfer of the Boston Tigers hockey team to the Bruin Cubs organization.

The delegates also approved the dates and rules for the play-offs, and extended to James W. Dooley of Providence, president of the league, the authority to change the dates if any club participating finds it impossible to comply.

The semi-finals will be played on March 23 and 26, each game to run to 70 minutes if necessary. The finals will be played March 27, 30 and 31 and April 2 and 4, each game to go to a conclusion. The best three out of five will determine the league champion.

President Dooley was authorized to study the feasibility of an interlocking agreement with the International Hockey League, the two leagues to work together in a manner similar to the two divisions of the National Hockey League. It was said that no official steps toward such an agreement have been taken.

Kansas City Splits Points With Hornets

CHICAGO, Ill., March 2 (C.P.)—No mercy is blended in the make-up of Tulsa Oilers, who stand to-day eight points in front of their foes in the American Hockey League. Over the week-end, Tulsa heeled the prostrate St. Louis Flyers farther down into last place, winning 3 to 2 and 5 to 3. Meanwhile, Kansas City Pla-Mors and Duluth Hornets, runner-up squads, split a pair of games.

HOCKEY PLAY-OFFS ON WINNIPEG ICE

REGINA, Sask., March 2 (C.P.)—Besides witnessing the final games for the Allan Cup, Canada's Senior hockey title emblem, fans in Winnipeg will also "sit in" on the Western championship series, in both Senior and Junior playdowns, according to the dates and scenes of strife announced by President Jack Hamilton of the C.A.H.A. over the week-end.

On March 17-19, Juniors will hold the spotlight in the Manitoba Capital, while later in the month, on March 26 and 28, the Western finals in the Senior sphere are billed and will be followed by the greatest series of all, the Allan Cup finals. Dates follow:—

Junior

(1)—British Columbia at Alberta (Calgary or Edmonton), March 7 and 9.

(2)—Manitoba and Thunder Bay (home-and-home series), March 11 and 16, or prior if arranged; second game to be played at home of Thunder Bay winners.

(3)—Winners of Series 1 at Saskatchewan (Regina or Saskatoon), March 12 and 14.

(4)—Winners of Series 3 vs. winners of Series 2 at Winnipeg, March 17 and 19 (Abbot Cup finals).

Senior

(2)—Manitoba vs. Thunder Bay (home-and-home series) prior to March 16, dates to be mutually arranged between clubs, first game to be played in Winnipeg.

(3)—Saskatchewan vs. winner of Series 2. Home-and-home on March 17 and 19, or 18 and 20 if Manitoba wins, but if Thunder Bay wins both games will be played in Winnipeg on March 21 and 23.

(4)—Winners Series 1 and Series 3 in Winnipeg on March 26 and 28.

Emil St. Godard Favored To Capture Fourth Race

THE PAS, Man., March 2 (C.P.)—Out on a 200-mile trail of ice and snow, unseasonable dotted with spots of bare, hard muskeg, Emil St. Goddard tomorrow will drive a half-dozen sturdy, cross-bred huskies in a race to complete his "grand slam" of dog racing. With three major triumphs in the East behind him, the French-Canadian youth starts the non-stop grind from here to Flin-Flon Mines and return a strong favorite to regain his Northland supremacy.

A dozen male mushers and one girl, Ida Carriere of York Factory, Man., were ready to battle King Emil.

RYLSTONE

Mr. and Mrs. Willis Irwin, Mr. and Mrs. Victor Irwin and family and Mr. and Mrs. George Gibson were guests of Mr. and Mrs. Andrew Thomson on Thursday evening.

Guests of Mr. and Mrs. Sanford Meiklejohn on Wednesday evening were Mr. and Mrs. Charles Stewart and daughter Pearle, Mr. and Mrs. Melville Finch, Mr. and Mrs. John Stewart and family.

Mrs. James Irwin and Miss Ethel Fiske visited Mr. and Mrs. Edward Reid and Mr. and Mrs. T. Reid on Wednesday.

Mrs. A. Jones and her sisters visited Mrs. William Finch on Thursday.

Mr. and Mrs. James F. Finch and family were guests of Mr. and Mrs. Mark Morton on Thursday evening.

Mr. and Mrs. Arthur Burkitt and family were the guests of Mr. and Mrs. Robert Mumby on Tuesday evening.

A very successful play, "The Secret Society" was presented at the church on Tuesday evening, the play being given in three acts, and presented by the Ladies' Aid of Springbrook.

FIRST PETERBORO TROOP.

With the Scoutmaster in charge the weekly meeting of the 1st Peterborough (St. John's) Troop was held in the Parish Hall. An excellent turnout of boys was on hand for a very enjoyable and profitable evening.

During the last few weeks a number of recruits have been added to the roll of the troop. Thus the second class Scouts have had an opportunity of training these as part of their first class work. During the evening much of the study period was given to this work.

A change was made in the order of the program. The camp fire period was advanced by half an hour and the game period was put in the camp fire's place.

During the evening Dr. Blagrave paid a visit to the troop and spoke briefly at the camp fire. Another welcome guest was Scoutmaster Ingram of Oshawa, who also made a few remarks to the troop at camp fire.

At the close of this the patrol leaders were given sealed orders for an outdoor game. These orders were to be read when the troop was dismissed and were to be carried out then. The patrol leaders were to report at the next meeting how their game turned out.

At the camp fire the nucleus of a troop "orchestra" was present. All the boys who play any suitable instrument have been asked to bring them next week.

During the last few weeks the relative position of the patrols in the inter-patrol contest has remained practically unchanged. The Buffalo patrol has 35½ pts., and the Bulldogs have 29¼ pts., while the Wolves are third wiht 21 pts. The Seals are trailing with only 16 points.

The annual father and son banquet sponsored by the troop is to be held on Friday, April 17, 1931. Tickets are to be on sale shortly.

LINCOLNSHIRE ODDS.

LONDON, March 2 (C.P. Cable).—Betting odds on the Lincolnshire Handicap, first feature race of the 1931 flat racing season, showed Sargasso, The Masher and Rivalry together at comparatively long odds of 100 to 1 to-day. Massai, Telasur and Lion-Hearted were next at 20 to one, with Fleeting Memory and Eyes Front 25 to one.

The race will be run over the one-mile course at Lincoln March 25.

THEATRES

AT THE CAPITOL

"THE BIG TRAIL."

Anyone who thinks that modern life alone can show them thrills should see this reincarnation of the type of pioneer existence that our forefathers faced generations back. It is the story of an epic drama in the life of this continent, a portrayal of the long trek over the Oregon Trail, when prairie schooners made their cumbersome way over mountains and deserts, when bull wagons lumbered over stream and ford and when men and women fought with savage redskins for the right to go where they wished.

"The Big Trail" abounds in spectacular moments. In the manner of the best products, its opening is quiet and talkative, while the red hot action comes later. Before those hardy men and women, "crossed with hickory and bred from granite rock," reach their goal, that lost, verdant valley between high white mountain peaks, they have braved the terror of Indian attacks, of storms and snow blizzards, of high cliffs where the animals and outfit have to be let down with ropes, of rushing rivers, where horses and men are swept away. The hazards pile up until one wonders how any of the people who started on that long trek ever reached their objective. Just why the producer chose to use whirling snow and bitter cold for their arrival, is a mystery. They had better conditions than that back home.

The sound effects is one of the strongest ever filmed. Much of the action resembles that of the "Covered Wagon."

The cast, with the exception of an inane heroine and her brother, is very good. The villains of the piece, the gorilla-like Flack and the slick Thorpe, and the greaser, Lopez, are just as melodramatic as possible; and the hero, John Wayne, in the role of the scout, Brett Coleman, is a real he-man and very effective.

Just why a drama of this type should lose much of its effectiveness by the sound background of music throughout is a mystery also. There could hardly have been a hidden orchestra playing appropriate music while that Indian attack on the settlers was staged, for instance.

But it plays valiantly throughout, giving an artificial atmosphere to a production that is one of the strongest, in other ways, that has ever been shown here.

The shrill ululations of the Indians on the warpath has to be heard to be adequately realized. It is a fearsome and blood-curdling cry.—Jeanette.

AT THE REGENT

"THE PRINCESS AND THE PLUMBER."

"Keeping the spirit of romance alive" is the way Charles Farrell, popular star of Fox movietone pictures, answers the question of what his newest vehicle, "The Princess and the Plumber" is all about.

"In the good old days," Farrell says, "to judge from the old books, the knights spent all their spare time in dashing about the countryside and rescuing imprisoned damsels from perilous places. And regardless of modern cynicism, most people still entertain a secret liking for that sort of thing, a liking that is amply demonstrated by the wide sale of romantic books and magazines.

"In 'the Princess and the Plumber,' we have a princess and a castle and all those trimmings, but completely up-to-date, since I met her in a car and we leave in an airplane. But the essential part of the story, the romance itself, is practically unchanged; with no great alteration, it might have been laid in the fourteenth century instead of the twentieth, although in that case I'd have to be an arquebusier or something instead of an engineer."

Maureen O'Sullivan has the feminine lead as the lonely Balkan princess, with H B. Warner as her father and a distinguished supporting cast that includes Joseph Cawthorn, Lucien Prival and Bert Roach. Alexander Korda directed the film from Alice Duer Miller's well-known novel of the same name. The picture opens at the Regent Theatre next Wednesday and continues for three days.

Church Play-Off Is Slated For Tuesday

The final Junior play-off game in the Church Hockey League is slated for to-morrow night at the Brock Street Rink from six to seven. The two teams, Mark Street and St. James', have met in two championship tussles already, the first ending 2-2 and the second ending 3-3. Both outfits are very evenly matched and play a hard, fast brand of hockey.

The ice should be in good shape to-morrow night, and there will be no quarter asked or given in the fight for Junior honors. "Gamey" Jarvis will be the referee.

Gala Program Of Fistic Entertainment Honors With Second Battle Of The Palms

NEW YORK, N.Y., March 2 (C.P.)—The palms of Miami again beckon to the right faithful this week, calling them to witness the writer's second battle of the southland with Primo Carnera of Italy and Jimmy Maloney of Boston as the principals. But for those who must remain in the North there is no lack of fistic entertainment. Battles in Boston, Philadelphia, Detroit, Chicago, and Oakland, Cal., share the spotlight with the Miami scrap.

Carnera is scheduled to take his highly publicized cracked rib into the Miami ring Thursday night to face Maloney, who gave him his one American defeat in Boston last summer. With nothing in particular depending upon the outcome, the financial success of the show still is in as much as was that of the year's first battle of the Palms last week. The Walker-Rinke fight brought few profits.

The week's heavyweight campaign opens in Philadelphia tonight with another oversize Italian, Roberto Roberti, facing Big Jack Gross of Salem, N.J., in a ten rounder. Detroit and Chicago continue it Friday. At Detroit, Charlie Retzlaff of Duluth faces the aging hard rock of New Zealand, Tom Heeney. The Chicago show brings together a pair of young midwestern favorites, Tuffy Griffiths of Sioux City, Iowa, and King Levinsky of Chicago. Both are ten rounders.

SCOUT TROOP IS ORGANIZED IN HAVELOCK

Provincial Field Secretary Edgar Jones Takes Charge of Meeting.

SPLENDID TALK GIVEN.

Boys Are Congratulated Upon Fine Showing Under Sergt. J. Kinnaird.

HAVELOCK, March 2 (Examiner Correspondence).—"The Scout movement is a business organization for the purpose of developing character in boys and making them rise to the true heights of citizenship." Such were the words of Edgar Jones, Provincial Field Secretary of the Scout movement, who was in town Thursday evening to organize a Boy Scout troop.

Presiding over this gathering was Sergeant John Kinnaird, acting for Rev. M. E. Wilson, who was unavoidably absent. There were about thirty Scouts and Cubs present along with a few of their parents. Mr. Kinnaird has been training the boys for the past four weeks and when called upon to go through some of the drills they displayed a fine knowledge of the work.

Praises Boys

Opening his remarks, Mr. Jones praised the boys for their splendid showing and discipline. He explained to them the different stages of Scouting from a Tenderfoot to a Leader. He went on to say, how twice a Scout troop had been organized in Havelock but had fallen through, always for a good reason, he said; "but if at first you don't succeed, Try, try again. I am sure it will be a success this time." He stressed characterforming, declaring that it meant more in the lives of people than brains, for it helps all to play a larger part in the happiness of life than brain power.

The parents should know the purpose and objective of the Scouts. "It is not a military movement, but to teach obedience courtesy, and how 'to play the game.' When the three fingers are used in saluting, it reminds the Scout of the three laws: a Scout's honor is to be trusted, a Scout is to be loyal and to be useful and to help other people. There are many ways of doing 'a good turn every day.' Thrift with money, time and clothes is demanded, also cleanliness in thought, word and deed."

The fundamentals or pillars of the Scout laws are promising and obeying. We are members of a great movement consisting of more than 80,000 in Canada; 17,000 of these are in Ontario alone.

Asks Parents' Support

In conclusion, Mr. Jones asked for the support of the parents and populace, declaring that the best way to judge scouting was by the results, saying that these results were showing in the hearts of Canadian boys to-day.

Mr. Jones was tendered a hearty vote of thanks, followed by a short talk by J. Kinnaird. He said he was willing to do anything to help the boys. He is capable of giving them physical training, signalling, field telephone work, telegraphy, first-aid and many other useful things.

WEDDINGS

WALKE—WOODBECK.

APSLEY, March 2 (Examiner Correspondence). — A quiet but pretty wedding was solemnized in St. Andrew's Church, Owenbrook, on Wednesday, February 25, by the Rev. C. A. G. Spence, when Hilda Adeline, eldest daughter of Mr. and Mrs. Charles Woodbeck, became the bride of James Leslie, second son of Mrs. Walke. The bride, attired in a becoming dress of Copenhagen crepe back satin, was attended by her sister Edna, the groomsman being Harold Landon. After the ceremony the bridal party was entertained to a dainty luncheon at Mrs. Walke's residence. The young couple will reside in Owenbrook. This is the first wedding that has taken place in St. Andrew's Church in twenty-five years.

Chinese of Manila, P.I., have organized a Chinese-American basketball league.

Norwood

Mr. Sam Buck was in Toronto last week.

Mr. and Mrs. W. H. Griffin were in Lakefield on Sunday.

Mr. Wellington Burgess is having a sale at his residence on March 4.

Mr. T. E. Rorabeck has resigned his position as janitor of the Public and High Schools.

Mrs. H. A. McColl was a visitor to Peterborough last week.

Mr. Laidley, of the Royal Bank staff has returned after spending his vacation at his home in Kingston.

The friends of Mr. G. A. Barton will regret to learn of his illness at his home on Spring street.

Mrs. James Buck is visiting Mr. and Mrs. James Brown for a few days.

Mrs. N. C. Porter has returned after visiting friends in Campbellford.

The Women's Association of the United Church held afternoon tea at the home of Mrs. W. T. Carberry on Thursday afternoon when a pleasant afternoon was spent in sewing quilt blocks for a quilt for the mission bale. Tea was served later in the afternoon.

A carnival is being held at the rink on Tuesday evening.

Cavan

Mrs. Will Tinney is visiting her sister, Miss Jennie Swain, going on Tuesday.

Mrs. Robert Hootan, Fairmount is spending a few days with her sister, Mrs. James Douglas.

Mrs. Margaret Staples is visiting her granddaughter, Mrs. Darling, Peterborough.

Mr. Donald Tinney is able to be out again after his recent illness.

Mrs. Forder, Nestleton is with her daughter, Mrs. Harry Tinney since her illness in Nicholls Hospital, Peterborough.

St. John's Church, Ida, of the parish of Cavan, expect to have the new rector, the Rev. Mr. Simpson, of Calgary, with them on Sunday, March 8, for his initial service.

Mr. and Mrs. R. M. Howden, spent Monday and Tuesday guests of ex-Reeve Stewart Fallis and Mrs. Fallis.

The scarcity of water is an acute problem with the farmers. There will not likely be much relief to the situation until a real spring thaw comes. Water on the surface does not help the wells when the ground is frozen.

Wages in Belgian coal mines are being cut.

FREE FROM THE MEDICINE HABIT

SUFFERERS from constipation will be interested in Mrs. Van Horn's letter below. She wrote us voluntarily to express her appreciation for the wonderful results Kellogg's ALL-BRAN brought.

"I have been using ALL-BRAN for one year and have a movement every morning. Before I was taking medicine every three or four days. Now I never take any. Many thanks to ALL-BRAN. I can't praise it too much."

Sincerely,
MRS. C. W. VAN HORN
(Address on request)

Don't let constipation sap your health and strength. Guard against it—now. Just eat two tablespoonfuls of Kellogg's ALL-BRAN daily—in chronic cases, with every meal. Relief is guaranteed. At all grocers—in the red-and-green package. Made by Kellogg in London, Ontario.

Kellogg's ALL-BRAN

STIRLING Y.P.S. HEARS FINE TALK

Miss Whitley Describes Work of Upper Canada Tract Society.

NEW ENGINEER NAMED.

STIRLING, March 2 (Examiner Correspondence).—The regular meeting of the Y.P.S. was held on Monday with an attendance of 74. Rev. E. W. Rowland was in thec harge of the service.

Mrs. J. Butler gave a solo. Miss Whitley, representative of the Upper Canada Tract Society, gave an interesting talk, tracing the work of this organization through the Great Lakes and the Northwest.

Miss Helen Jones gave a temperance reading, "The Two Glasses."

Mrs. Arthur Pyear spoke on "The Good Old Days and Now," comparing the days of our grandmothers to the present generation.

Mary Hulin put on a national flower contest.

New Chief Engineer

Clifford Baker has been appointed Chief Engineer of the Stirling Fire Department, succeeding Mr. F. A. Sprentall.

Mr. Baker is well qualified, as he has for some time been in charge of the engine during fires. He will also look after the motor in the pumping house during a fire.

John Ashley, teller of the Bank of Montreal here, has been transferred to the Elgin branch, east of Kingston. Mr. W. Duff has taken his place here as well as the responsibilities of accountant.

High School Notes

The boys have started rifle practice for the shooting competitions which are held every year.

The girls are competing in a health contest. Ten boys of the Cadet Corps have organized a semaphore signalling squad, and practise signalling every day in physical training period. The government is offering $5 as a prize to every boy who can signal six words a minute.

The oratorical contest will be held in the Assembly Hall of the High School on Thusday evening, March 5th, at 8 o'clock.

A play entitled, "The Travellers' Companion," is being staged by Form I. The main feature of the evening will be the speeches prepared by the students.

Lakefield

Mr. James Gillespie, of Peterborough, attended the hockey match on Wednesday night.

Miss Yvonne Stuart returned to Toronto on Friday after several weeks' visit at her home in the village.

Mr. and Mrs. Fred Brown attended the performance of 'Hay Fever" in Peterborough on Wednesday night.

Miss Helen Stewart leaves next week to enter Grace Hospital, Toronto, as a nurse-in-training.

Mrs. F. J. Burgess attended the performance of "Hay Fever" in Peterborough on Wednesday night.

Mr. S. Wood, of Hall's Bridge, attended the hockey match on Wednesday night.

Mr. George Dormer, of Peterborough, was at the hockey match on Wednesday night.

Miss Lilian Stuart, nurse-in-training in the Sick Children's Hospital, is visiting at her home in the village.

Mr. Fred Garvey has returned to Toronto after spending a few days with his parents, Mr. and Mrs. D. Garvey, Maplegrove Farm.

Mr. J. R. Hill was a delegate to the Good Roads Association Convention last week in Toronto, representing the Municipal Council.

Mr. H. Kemperling, of Dundas, was in the village last week on business.

Mrs. Waterbury, of Hamilton, is visiting Mr. and Mrs. E. J. Millage.

Mrs. J. A. Johnston and Miss Veronica Johnston are visiting friends in Ottawa.

Dr and Mrs. J. C. Smith attended "Hay Fever" in Peterborough on Wednesday night.

Miss Mary Mackenzie leaves next week to enter St. John's Hospital, Toronto, as a nurse-in-training.

Dr. and Mrs. J. C. Smith entertained five tables of bridge on Tuesday evening in honor of Dr. Smith's birthday. Mrs. Frank Erskine and Elwood H. Northey won the first prizes and Fred Brown the consolation prizes.

Mrs. H. M. Stewart entertained at the tea hour at Uplands on Thursday for her daughter Miss Helen Stewart, and Miss Mary Mackenzie, who are entering the nursing profession in Toronto hospitals next week.

Mrs T. W. Chaplin entertained four tables of bridge at her home on Reid Street on Thursday afternoon. Prizes were won by Mrs. W. W. Leonard and Mrs. A. B. Burrows.

Establishment of two more penal farms in Mindanao and another in Luzon, has been recommended by Rafael Alunan, Secretary of Agriculture in the Philippines.

FAREWELL PARTY.

Norwood Friends of Mr. and Mrs. J. O'Shea Present Them With Two Chairs on Eve of Departure.

NORWOOD, March 2 (Examiner Correspondence)—A large number of friends and neighbors of Mr. and Mrs. J. A. O'Shea of Asphodel gathered recently to bid them farewell from their home where they have resided for many years and are leaving to take up their residence in Hastings. The presentation took the form of two beautiful chairs. Mr. and Mrs. O'Shea are highly esteemed residents of this community and will carry with them the best wishes of their many old friends here.

FUND NEARING $12,000 MARK

Subscriptions Being Received From Business Places Uptown.

TOTAL AMOUNT $11,557.84.

The Peterborough Relief Association fund is well on the way to $12,000.00, and returns are being received now from business places uptown. Returns are also expected from several groups that are getting their contributions in shape for the fund. Excellent work is done daily by the organization. Every legitimate case of relief that can be handled by the city is turned over to the Charity Board at their request, but all the loose ends are taken care of by the Association so that every case of distress in the city and district is being taken care of.

The voluntary gifts to the fund are from many sources. New subscribers to-day may be mentioned:—

St. Anthony's Society of Otonabee; Warne Bros. Store; Murray Street Women's Auxiliary; T. Brightman & Co., and additional subscriptions from the Canadian Nashua Paper Co.

Total previously acknowledged	$11,349.56
Teachers of Confederation School (additional)	9.00
St. Anthony's Society of Otonabee	15.00

Can. Johnson Motor Co. (additional)	1.00
J. J. Turner Co., Ltd. (additional)	18.51
T. Brightman Co.	12.00
Metropolitan Life Insurance Co. (additional)	5.00
Total to date	$11,557.84

Of the above amount, $6,226.75 has been received in cash; the balance pledged. Several contributions are expected in time for report on Tuesday from the business section and others.

FIRE DESTROYS SEYMOUR HOME

James Seymour of Havelock Road Suffers Heavy Property Loss.

FURNISHINGS SAVED.

CAMPBELLFORD, March 2 (Examiner Staff Correspondence). — Fire of an unknown origin this morning razed the home of James Seymour on the Havelock Road, in the Township of Seymour. Answering the alarm sent in about 8 a.m., the Campbellford Fire Brigade rushed to the scene, but despite every effort they were unable to save the house, which burned to the ground.

As the residence was a mile from the nearest hydrant, the fire fighters were handicapped for a water supply. There was also a steady wind blowing, which fanned the flames.

The fire was first noticed by neighbors gathering at a sewing bee at a nearby farm. After sending in the alarm, they hurried to the spot and saved much of the house furnishings.

The house was vacant at the time, Mr. McAvilla having left for his work at the pulp mill, and Mrs. McAvilla for her employment at the Campbellford Cloth Company. The residence is only partially insured.

MINE WORKERS EX-CHIEF SLAIN

PITTSTON, Pa., March 2.—Samuel Licata, 35, one-time fiery leader of the mine workers in the Pittston area, was slain early to-day near his home.

He was on his way home after spending several hours in a poolroom when three men stepped out of an automobile and fired six bullets into him. He was first shot in the chest and as he attempted to arise five more shots were fired.

THE BEASTS OF TARZAN No. 85 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Down the broad Ugambi river a small boat floated with the ebb tide and current. Her crew were lazily enjoying this rest from their toil of rowing up-stream. As they neared the sea, where waited the mother-ship, ready to sail back to England, their attention was suddenly attracted to a strange apparition appearing on the jungle shore. With skinny arms outstretched it screamed at them in a wild, cackling voice.

"A white man!" exclaimed the mate. "Man the oars, boys; we'll just pull over an' see what he wants." As the boat neared the shore they beheld an emaciated creature with matted hair and a long beard. Tears rolled down his sunken cheeks as he jabbered in some alien tongue. "Speak English?" questioned the mate. He did. Brokenly, and with seeming effort this human wreck told his rescuers a weird tale.

It rambled over years of privation, hardships, and torture in the awful jungle. He was a Russian, but how he came to Africa and his name, he would not say. The men concluded he had forgotten the incidents of his former life because of the frightful ordeals he had experienced. Ten years had he been a slave in the cannibal village, beaten and stoned by the women, slashed and disfigured by the warriors.

Yet somehow he had managed to live and at last found his way to the coast—a human derelict, mentally and physically. When he finished his almost unbelievable story, he begged the sailors to take him away with them—anywhere. And so, moved by pity, they took him aboard the "Marjorie W." nursed, fed and partly restored him to health. Thus came Alexis Paulvitch out of a living death and again into the life of Tarzan of the Apes.

IN A RUNDOWN CONDITION FOR TWO YEARS

WILLIAM CADEAN

Victoria Harbor, Ont.—"I had been in a rather rundown condition for about two years. I tried different medicines, also consulted a doctor but nothing helped me in the least. I had one of Dr. Pierce's Advisers and read where one similarly afflicted had been relieved by the use of **Dr. Pierce's Golden Medical Discovery.** I tried two bottles of 'Irontic (irontonic) tablets' and used four bottles of the 'Golden Medical Discovery' and I felt like myself once more. Anyone who wishes to write me direct for further information may do so if a stamped addressed envelope is enclosed."—Wm. Cadean, Box 170.

Sold by all druggists.

Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., if you want a trial package of any of Dr. Pierce's medicines.

Samuel Taylor Gives Interesting Address

In the Legion Hall on Lord's Day evening Samuel Taylor gave an address on "Current History in the Light of Divine Prophesy."

In the course of his remarks the speaker touched upon Commercial, political, ecclesiastical and doctrinal matters. He read some incidents that happened in Russia to show the diabolical character of Communism. The speaker's object was to impress upon his hearers the truth that "The Lord is at hand" (Phil. 4:5) and to endeavour to lead unsaved ones to rest in the merits of the precious blood of Christ.

BIRTH.

CRAWFORD.—On Monday, March 2nd, at Nicholls Hospital, to Mr. and Mrs. D. T. Crawford, a daughter (Jean Elizabeth).

IN MEMORIAM.

MURPHY—In loving memory of my dear husband, John Stewart Murphy, who died March 2, 1930.

Beside your grave I often stand,
With heart both crushed and torn;
But in the gloom the sweet words come:
"Not lost, but gone before."

God knows how much we miss you
He counts the tears we shed,
And whispers: "He only sleeps—
Your loved one is not dead."

So I'll be brave, dear husband,
And pray to God each Day;
And when He calls me home to you,
Your smile will guide the way.

—Never to be forgotten, by his Wife and Family.

PILES ALL GONE

Without Salves or Cutting.

Itching, bleeding, protruding Piles go quickly, and don't come back, if you remove the cause. Bad blood circulation in the hemmorrhoidal veins causes Piles by making the affected parts weak, flabby, almost dead. Salves and cutting fail because only an internal medicine can actually correct these conditions. Dr. J. S. Leonhardt discovered a real Internal Pile remedy. After prescribing it for 1,000 patients, with success in 960 cases, he named it HEM-ROID. McDermid & Jury, Bond's Drug Store, any one bottle of HEM-ROID Tablets must end your Pile misery or money back.

Late Want Ads.

"THE MADRIGAL SINGERS"

"The Madrigal Singers", directed by Dorothy Allan Park will give their annual concert on Tuesday evening, March 24 in the Collegiate auditorium. The assisting artists will be Margaret Brown, pianist of Toronto, who has gained much recognition for her beautiful and finished playing, and Bobby Spergel, of Toronto, the wonderful boy cellist, who is expected by foremost authorities to become one of the truly great exponents of his instrument. "The Madrigal Singers" are giving a program that will interest every lover of beauty, and their refined and exquisite singing will be given every chance to be heard and appreciated by the discriminating listener. Tickets may be obtained from the singers, and are ninety-five cents, plus five cents tax. 1d-52-276

To lessen the danger of plague in Manila, P.I., the Philippine health service has offered a bounty of two and one-half cents a rat, dead or alive.

FINN EXPELLED AT MASS TRIAL BY COMMUNISTS

Convicted By Jury For "White Chauvinism" in Treatment of Negroes.

HELD IN HARLEM.

Victim Must Cherish Negro on All Occasions for Year to be Admitted to Party.

NEW YORK, March 2 (C.P.). — Expelled from the Communist Party for "white chauvinism" in the treatment of negroes, August Yokinen, Finnish janitor, trod the weary road to redemption to-day.

In the first mass trial staged by Communists in the United States, Yokinen, who speaks and understands but little English, was convicted yesterday by a jury in spite of an impassioned plea by his negro counsel. The jury was composed of seven negroes and seven white persons, including three women. The scene was a dance hall in the heart of Harlem with 2,000 members of both races in attendance.

Yokinen's trial was based on the charges that he discriminated against three negroes at the Finnish Workers' Club ball some weeks ago—"failing to jump at the throats of those who would eject the negro comrades." "White chauvinism," it was explained, is the violation of complete political, economic, and social equality of negroes and whites.

Admits Client Guilty.

Admitting that his client was guilty of a "grievous crime," Richard B. Moore, Communist candidate for Attorney-General in the last election, pleaded that Yokinen should not be "destroyed," declaring that "expulsion is worse than death at the hand of the bourgeoisie."

When the proceedings had been interpreted for him, the defendant submitted a full confession.

"I refute and condemn my former attitude and I want to prove it," he read in Finnish. "I appeal to you not to deprive me of an opportunity to work for the full equality of the negro and the solidarity of negro and white workers."

Nevertheless, the jury returned a unanimous guilty verdict, but offered to readmit him to the party in a year if he waged a crusade against "white chauvinism" and cherished the negro on every occasion offered him.

"I will do it. I did wrong the club," said Yokinen with a repentant nod of his head.

Bosworth Services Are Well Attended

The Bosworth evanelistic campaign which has been in progress at Bethany Tabernacle, George Street, for the past two weeks, entered its third week yesterday with three interesting services. The pastor, Rev. G. H. Johnson spoke to a splendid audience Sunday morning, his subject being: "The Valley of Ditches". In the afternoon evangelist Bosworth presented "Divine Love" as the greatest thing in the universe.

A large and attentive audience heard the evangelist last night as he spoke on "Man's Greatest Possession" which he declared to be "salvation", or deliverance through Christ from the guilt, bondage, and power of sin. A gratifying response to the gospel invitation was made at the close of the sermon. A thirty minute song service in which the audience and chorus choir took part, was augmented by orchestral accompaniment. An offertory trombone solo by Mr. Bosworth, and a vocal trio "Lead Me to Calvary" preceded the evening sermon.

Evangelist Bosworth will speak tonight upon "Paul's Thorn in the Flesh" in the light of divine healing" at which time the Bosworth trio will sing another of the "Negro Spirituals" which have so often delighted their audiences.

The services will continue nightly at 7:45 except Saturday.

By a new law in Ireland attorneys are required to keep a separate bank account for money received for, and on behalf of, clients.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

CLOTHING NEEDED

The supplies at the distributing bureau of the Relief Association, over 435 George street, are almost depleted. Any type of clothing for seniors or juniors, men or women, would be welcome. Telephone 1600 and we will call for parcels.

28 YARDS OF FLANELLETTE

The Examiner wishes to acknowledge the kind gift of 28 yards of flanellette from the employees of the Bag Department of the Quaker Oats Company.

CONTRIBUTES SILK

Keeping up the tradition of interest in charitable affairs which has been a notable element this year among the Jewish citizens, Mr. Grafstein of the Uptown Silk Shoppe contributed on Saturday a quantity of bright silk pieces, in answer to a request by the Sewing Committee of the Peterborough Relief Association for such aids in finishing little dresses for children.

PLEASING PROGRAM PRESENTED BY BAND

Members of George Street United Church Society Take Part in Concert.

The Fidelis Mission Band of George Street United Church presented a splendid concert on Friday evening in the Sunday School auditorium, which was well filled by parents and friends, who were enthusiastic in their applause of these young entertainers. The various numbers, particularly choruses and dialogues, showed careful training on the part of the leaders, Mrs. E. G. Wellwood, Mrs. J. B. Nelson, Mrs. J. E. J. Millyard and Mrs. Don Munroe, and exceptional ability of many taking part.

Rev. J. E. J. Millyard acted as chairman, making a few congratulatory remarks on the good work being done by the Band.

The following is the program:

Chorus, by the whole Band, "We're a Little Mission Band."

Reading, Burton McBride, "He Loves Them All."

Mouth organ solo, Kenneth Burnham (encored).

Solo, Pentland Wellwood, "I'm Going to Try."

Piano solo—Wilda Saunders.

Dialogue, "A Missionary Visit," June Graham, Corrine Coons, Frances Smith.

Duet, Marion and Marjory Foster (encored).

Chorus, "Be a Hero," Henry Winslow, Teddy Freeman, Kenneth Rose, Bobbie Parnell, Jack Kenmuir, Stewart Gilgour.

Piano solo—Loreen Wellwood.

Duet—Helen and Velma McQuarry, accompanied by Margaret Fairbrother.

"The Bee Song" (with motions), members of the Band nine years and under.

Violin solo—Alex. Carlisle.

Reading—Howard Tretheway, 'Boys Like Me.'

Chorus, "Under the Snow," Rosamond Burns, Helen Delahaye, Lenore Lewis, Effie Saunders, Wilda Saunders, Madelyn Gilgour, Dorothy Boyle, Merrill Smith.

Dialogue, "Why Do You Smile?" Jean Kerr, Ruth Parnell, Dorothy Smith, Muriel Symonds, Joy Walker, Loreen Wellwood, Helen Delahaye.

Piano solo—Merill Smith.

Vocal duet, "Ye Banks and Braes," Ruth Parnell and Lenore Lewis.

Chorus by the whole Band, "We are Heralds of the King."

God Save the King.

JACK N. BACON

(Continued from page one)

Ontario and one brother, Wesley of Weyburn, Saskatchewan.

Born in Sunderland

The deceased was born fifty-five years ago at Sunderland, Ontario. He had lived a varied and industrious life, having worked on the Great Lakes steamers out of Owen Sound for two years and afterwards having homesteaded in Saskatchewan and later owning a harness, boot and shoe business in Weyburn. At the time of his death he still owned a considerable amount of property in the West. Coming to this city eleven years ago he has lived in semi-retirement, and was wont to travel West each summer to look after his business interests, filling in the reminder of his time as groundsman at the local bowling club. He was married twenty eight years ago at Weyburn.

Ever since coming to this city he had been identified in all activities of the Curling and Bowling Clubs, and skipped rinks in all the important events Three years ago he was a member of the executive of the Curling Club.

The wonderful freshness and evenness of the bowling greens, at the new plant on McDonnel street and Monahan road were due to Mr. Bacon's untiring efforts and skill, and in the words of a fellow bowler who was in conversation with The Examiner this morning, "he will be greatly missed."

Angus McIntosh caretaker at the Curling Club said that as recently as Saturday afternoon last the late Mr. Bacon was curling. He was apparently in his usual health although earlier in the week he had complained of indigestion. He also curled in the recent bonspiel at Lindsay.

Besides his sporting interests the late Mr. Bacon was a very active member of the local lodge of the I.O.O.F.

The funeral will be held on Wednesday afternoon from the family residence to Little Lake Cemetery. Arrangements are in the hands of A. Comstock and Sons.

J. H. Burnham Issues Debate Challenge On Government Soviet Trade Policy

J. H. Burnham issued to-day a "friendly" challenge to all-comers to meet him in a debate on the Russian trade question, any receipts from the entertainment to be used in unemployment relief.

"I should be very glad to contribute my little mite to the Distress Fund of Canadian Labor by maintaining in a debate that Canada should have accepted the offer of trade with Russia when it helps Canadian labor as is done by this proposal," states Mr. Burnham.

He maintains the Canadians would not be influenced to accept Soviet ideas by such trade, stating: "I am not afraid that by contact with the heathen our religion and morals are endangered, but think that it is our duty to make ourselves friends and companions to them to the end that we may influence them for their own good and ours."

The subject of the debate as drawn up by Mr. Burnham is to be "The allegation that Canada will not deal with forced labor is unwarranted and capital is very unwisely precipitating a difference of opinion with Canadian labor which may prove disastrous."

OBITUARY

MRS. WALTER THORPE

The death occurred on Sunday of Mrs. Walter Thorpe of 142 Cameron Street. Mrs. Thorpe (nee Florence Ann Gilpin) was born in England 58 years ago, and has lived in Peterborough for the past 18 years. The deceased is survived by her husband, two daughters in England and one in western Canada, and one son, of this city.

The funeral will be held from her late residence at 2 o'clock Wednesday afternoon Rev J. L. Hughes of St. George's Anglican Church will officiate, and interment will be made in Little Lake Cemetery.

WALTER KITNEY

Walter Kitney, caretaker of Nicholl's Oval passed away on Saturday night at the age of eight-one years. The late Mr. Kitney had not been in good health for some time. He leaves four daughters, Mrs. James of Toronto, Mrs. J. Harrison, Mrs. R. Walsh, and Mrs. Whitnell of this city, and three sons, Harry of Toronto, and George and Samuel Rainham of Kent, England.

The funeral will be held from the home of his daughter, 702 Ross street at 2 p.m. on Tuesday. Rev. Dr. R. C. Blagrave of St. John's Church will conduct the service. Interment at Little Lake cemetery.

MRS. JOHN G. PLUNKETT

The funeral took place on Saturday afternoon of Mrs. John G. Plunkett, from the late residence 237 Prince St. where a short service was held for the immediate family thence to St. James United Church where a large concourse of friends had gathered to pay their last respects to her memory.

The many beautiful floral tributes bore testimony to the love and friendship in which she was held.

Burial took place in Fife's Cemetery, Otonabee, the pall bearers being Fred Bickell, Morley Wilkins, Harry Moncrief, James Shearer, Albert McAdams, John Waldie and H. A. Bonney.

Her pastor, Rev. A. E. Moorhouse, officiated at all services. Besides her husband, John G. Plunkett, she leaves one daughter, Mrs. Alvin H. Davis (Hazel), of Peterborough, and two sons, Leslie at home and Dr. J. E. Plunkett, of Ottawa also five, sisters and three brothers, Mrs. (Dr.) C. H. Edwards, Mrs. Albert McAdams, of Peterborough, Mrs. James Shearer, of Keene, Misses Lizzie and Belle Nelson, of Toronto; A. E. Nelson, B.A., of Stratford; Morley Nelson, Hoople, North Dakota and Herbert Nelson, of Watson, Sask.

Jennie Nelson was born on May 19, 1870, was the eldest daughter of the late William and Mrs. Nelson, of Keene and the greater part of her life was spent in or near Peterborough.

She was married on June 8, 1898 to John G. Plunkett and in 1914 they came to make their home in Peterborough, where they have since resided. Mrs. Plunkett was a woman of happy disposition and was highly esteemed by her associates in the many worthy objects to which she lent her aid. Her name is found in connection with St. James W.M.S. Auxiliary in its first annual report as president, and of which she was an earnest promoter and a charter member. She has been continuously in office in some capacity since the inception of this Society. Her work was further honored by an office in the Peterborough Presbyterial as secretary of Temperance education. Her great interest in Temperance issues made her an active member of the local W.C.T.U., of which she was Evangelistic superintendent. Mrs. Plunkett was identified with the Local Council of Women, in which she represented St. James W.M.S. This year she was also engaged in the work of the Ladies' Aid of St. James' United Church, a member of the Treasure Seekers' Bible Class and deeply interested in all departments of Church life.

Girl Found On Street Dies From Injuries

DETROIT, Mich., March 2 (C.P.). —The case of a 15-year-old High School girl who was found unconscious at the side of the pavement at an East Side intersection Friday was described to-day by police as a homicide.

The girl, Anna Gabriel, died yesterday afternoon shortly after an X-ray showed that her skull was fractured in such a manner as to indicate that she could not have been the victim of a hit-and-run automobile driver, as police at first thought.

Two youths were detained in connection with the investigation, police announced.

Witnesses were found who told of the girl entering an automobile in which two young men were riding on Friday morning near her home a mile from the place she was found. Her schoolbooks lay beside her when she was found.

WORKS MANAGER NAMES LAYFIELD

(Continued from Page 1)

son. Mr. Layfield's many friends in Peterborough will be glad to learn that his long service has been appreciated by this promotion.

Mr. Bell's Preparation

John A. Bell was born at Hillier, Ontario, June 11, 1900, and received his primary education at the Picton public school and Picton Collegiate Institute. His Collegiate studies were interrupted for one year, four months of which were spent with the Dunlop Tire and Rubber Company as a clerk in the sales department at head office, and the rest of the year with the Canadian Fairbanks Morse Company as a machine operator in the manufacture of munitions. Mr. Bell resumed his collegiate course in the following year, won his matriculation, and entered Queen's University on a combined course of electrical and mechanical engineering.

During his undergraduate years Mr Bell found ample scope for his many and varied interests. Interfaculty and varsity sports were a special attraction. He was twice a member of the interfaculty champion soccer team; for two years he played on the School of Science hockey season, and during one season he won a place on the senior intercollegiate hockey team. These diversions were probably an influence in shaping his future and also his personality, strengthening his self-reliance and enriching his experience with the kinship that binds athletic teams with enduring sentiments and memories.

With Picton Ball Team

Mr. Bell made good use of the summers of his student years. One of those summers was spent as an assayer with the McIntyre Porcupine Gold Mines and another with the Picton Public Utilities Commission. Incidentally, during that season he was a member of the Picton Baseball Club that shattered the aspirations of the C.G.E. team and finally won the intermediate championship of the Ontario Amateur Baseball Association. That was in 1921. Two summers were spent with the eastern division of the Canadian Canners on the installation of power and lighting equipment, and one summer with the Norther Electric Company in Toronto installing power equipment.

In may 1925 Mr. Bell entered a new phase of his extensive education and preparation when he first became an employee of the General Electric Company at Schenectady. There he spent one year in the Electrical Test department on general test work and six months as assistant in a large motor and generator test. Following that were a year and three months estimating costs and issuing instructions for tests of large apparatus, a year and six months in charge of students, including those on general test course, factory training course and electrical apprenticeship course; and nine months in the general planning section of the General Superintendent's staff.

Mr. Bell acquired his training in accounting through the classes given by the business training course. His keen and enterprising interests cropped out again during the last two years as a member of the Board of Directors of the Edison Club and chairman of the membership committee.

Mr. Layfield's Career

Robert Edmund Layfield was born in Owen Sound, Ontario, in 1872, and spent his early days in St. Johnsburgh, Vt., and Sherbrooke, Que. When he was eleven years old he went to work in a lawyer's office, but eventually he severed a rather tenuous connection with the honored profession as office boy, and turned to a less dignified and more robust job on the construction of the C.P.R. through Maine.

In 1890 Mr. Layfield transferred his allegiance from the great Canadian railway to the Edison General Electric Company at Sherbrooke, Que. In that change some of his friends shook their heads and told him he was making a great mistake leaving such a good company to go into the electrical business, which, they predicted as a warning to their young friend, would never amount to anything more than a toy and had no future for the industry in general and R. E. Layfield in particular.

In the following year, 1891, Mr. Layfield moved to Peterborough, and has lived here during the intervening years except for two short periods. In 1892 the company was changed to the Canadian General Electric Company, and in 1900 Mr. Layfield was appointed works accountant. In 1908 he was transferred to the company's subsidiary plant, the Canadian Foundry Company, Toronto, and acted as superintendent for three years, returning to Peterborough as works accountant in 1912.

Enlisted in 1915

During the war years he was secretary of the Speakers' Patriotic League and in his first flush of patriotic fervor was commander of the home guard. In 1915 this enthusiasm was translated into active service when he joined the colors in 1915, and served two and one-half years, first as Captain-Quartermaster of the 80th Battalion C.E.F., and when that battalion was broken up overseas he was transferred to headquarters, Bramshot Training Camp, England, as officer in charge of ordinance inspection. He served in Aldershot, Borden Whitby, Bramshot and Seaford, England. On his return home he immediately resumed his duties with his old company. Mr. Layfield has taken a keen interest in the ex-service men's organization, and his energy and administrative ability were a distinct and valued asset in the financing and rebuilding of the Canadian Legion Hall in this city, one of the most complete and spacious club quarters for returned men in the whole Dominion of Canada. He is a member of the Chamber of Commerce, the Ontario Motor League and was an active officer of the West Peterborough Conservative Association.

Mr. Layfield has succumbed to golf and on rare occasion at the Beaver Meadow Golf Club has been known to turn in a card that was actually better than a hundred. He has bowled for several years in the Shop Bowling League, and in the mellowness of his years he is considerate of the pin boys. He acknowledges his fondness for motoring and with Mrs. Layfield has explored many a beauty spot in Old Ontario.

Semi-Finals Draw In Association Cup

LONDON, March 2 (C.P. Cable).—The draw for the semi-finals of the English Football Association Cup competition was made to-day and announced as follows:

West Bromwich Albion or Wolverhampton Wanderers versus Everton at Manchester United grounds.

Birmingham or Chelsea versus Sunderland or Exeter City. If Sunderland wins their replay the semi-final will be played at Leeds, but if Exeter City wins the semi-final will be staged at Arsenal grounds.

The semi-final matches will take place on March 14.

WEIR ARRANGES FOR SEED GRAIN

Farmers in West Who Are Unable to Supply Needs Will Be Cared For.

PRICE IS SET.

WINNIPEG, Man., March 2 (C.P.). Provincial Ministers and Dominion Minister of Agriculture today had set machinery in motion that will provide seed grain this spring to farmers "who cannot obtain it through their own resources." At a meeting here on Saturday Hon. Robert Weir, Dominion Agriculture Ministers, and Hon. Albert Prefontaine, Hon. W. C. Buckle, and Hon. George Hoadley, from Manitoba, Saskatchewan and Alberta, agreed on financing of the relief plan.

Distribution of the seed will be carried out by municipalities, it was decided, and farmers will be charged the market price of No. 1 Northern for wheat seed, plus five cents a bushel for cleaning and ten cents for dockage.

Cecil Williamson In Charge Of Census

OTTAWA, March 2 (Special to The Examiner).—The following Ontario Commissioners have been appointed in Central Ontario for the 1931 census:—

Durham.—Major Arthur V. Thorne, Millbrook.

Hastings-Peterborough. — Colonel Birdsall, of Birdsalls.

Northumberland.—Milton E. Maybee, Renton.

Peterborough West.—Cecil Hector Williamson, 347 George street, Peterborough.

Victoria.—Stanley P. Beal, 21 Francis street, Lindsay.

VOL. LXVI., No. 52 — PETERBOROUGH, ONTARIO, CANADA, TUESDAY, MARCH 3, 1931 — PRICE THREE CENTS

CITY WANTS HIGHWAY WORK CONTINUED

Two Cobourg Bandits Committed

REMAND IS GIVEN TO THIRD YOUTH UNTIL MARCH 9

Special Session is Held For Clifford Who is Ill With Tonsilitis.

BANK ROBBED FEB. 17.

Forbes and Blanchard Plead Not Guilty—Be Tried March 12 and 13.

COBOURG, Ont., March 3 (C.P.).—Charged jointly with holding up and robbing the Dominion Bank of about $2,000 on February 17, Leslie Forbes alias Leonard Forrest, aged 21, of London, Ont., and Harold Blanchard, aged 15, of Montreal, were committed for trial by Magistrate Floyd to-day. Forbes appeared in Police Court and Blanchard in Juvenile Court

Special court session was held in the County Jail this afternoon when Harry Clifford, aged 21, of Bras d'Or, N.S., alleged to have been the third member of the bandit trio, was remanded until March 9. Clifford is ill with tonsilitis, and was unable to appear in court with his alleged confederates.

Evidence Describes Chase.

Evidence related to the chase of the bandits by members of the bank staff, who, armed with their revolvers, caught Blanchard in Jex's lumber yard, Forbes in a shed behind Denlone's greenhouse, and Clifford in the basement of Cobourg Public School, the latter putting up a hand-to-hand struggle with Cobourg citizens who joined in the chase.

Police stated the stolen money was recovered from the pockets of both Forbes and Clifford.

Both Plead Not Guilty

Arraigned before Judge L. V. O'Connor in chambers this afternoon Forbes pleaded not guilty and elected for trial by judge without a jury. He will stand in the afternoon of March 12. Blanchard also pleaded not guilty, and elected to appear before a judge without jury. His trial will be held in the morning of March 13.

TORONTO SLAYER TO BE EXAMINED

Greenhill Taken to Psychiatric Hospital—Maintains Stolid Indifference.

NO CLUE AS TO MOTIVE.

TORONTO, Ont., March 3 (C.P.)—A medical examination of A. D. Greenhill, 29, self-confessed slayer of his foreman, M. J. Hamilton, early yesterday, is being made to-day by Dr. W. W. Parry, physician at the local jail. If Dr. Parry finds it necessary he has the authority to request for Greenhill's re-appearance in police court, and his remand to the psychiatric Hospital for examination.

Since his confinement in the local jail yesterday Greenhill has maintained the stolid indifference which characterized his attitude when he walked to the police station and announced to the desk sergeant that he had committed murder.

The slayer has remained perfectly calm and and consistently has refused to amplify his explanation of the shooting. Motive for the murder also remains a mystery to Mrs. Greenhill. Police lean to the theory that Greenhill believed Hamilton, his foreman at the Reliance Engraving Plant, where the murder occurred, had treated him unfairly.

Says Buckley Killers Aided Bowles Fund

DETROIT, Mich., March 3.—Prosecutor Harry S. Toy to-day charged that the three men indicted for the slaying of Radio Announcer Jerry Buckley were members of a gang of gunmen and vice-leaders who contributed $11,000 to the campaign fund of former Mayor Charles Bowles.

This charge was made in Toy's opening statement to the jury in to-day's session of the trial of Angelo Livecchi, Joe Bommarito and Ted Pizzino, indicted for the slaying.

Buckley, the political commentator of Station WMBC, carried on complaints against organized vice and gambling in the Detroit area, and also took an active part in agitating the recall of Bowles last summer.

Lady Wins Hold-Up, Robber is Convicted

LOS ANGELES, Calif., March 3. (CP)—Charles M. Eldridge, probably the most humiliated man in town, was convicted of second degree robbery yesterday and will be up for sentence Thursday.

Eldridge, the testimony showed, attempted to hold up Mr. and Mrs. L. A. Kemp last December 27. Mrs. Kemp seized his pistol, threw him to the ground and sat on him while her husband watched aghast. Then Kemp discovered the weapon was a rusted toy pistol and helped with the sitting until officers arrived.

ONTARIO BEATS MONTREAL 14-5

First Round Run Off This Morning For Macdonald Brier Trophy.

DOMINION CURLING HONORS.

GRANITE CURLING CLUB, Toronto, Ont., March 3 (C.P.)—Manitoba, represented by R. J. Gourley of Winnipeg, winners of the Dominion title for the last three years, had little difficulty in getting over the first hurdle of the Macdonald-Brier Tankard to-day, defeating Jack Miller's Saskatchewan rink, 16 to 12, in the first round of the national tournament. The Winnipegers got an early lead and were leading 7 to 0 at the third end.

Alberta, runners-up last year, also started out well by defeating Northern Ontario, 15 to 11. A big five on the eighth end gave R. B. Welliver's quartette the lead over J. M. Nicholson's Northern Ontario rink.

The Ontario representatives, Eddie Brower of Toronto, defeated Willie Brown of Montreal, 14 to 5, the Brower rink getting a four on the first end and keeping the lead throughout.

Peter Lyall's Montreal rink, representatives of the Province of Quebec, defeated Nick Thibodeau of New Brunswick, 11 to 9, while the Toronto Bonspiel winners, S. Meredith of Barrie, had no difficulty in winning their first round match against H. M. MacLeod of Nova Scotia, 18 to 9.

TROUBLE IN DRUG BUSINESS.

LONDON, Mar. 3.—(C.P.)—Trouble looms ahead for a drug and chemical firm employing 20,000 persons, mostly in the London area. The employers propose to reduce wages and have given notice the existing schedules will terminate June 20. Workers in the London district passed a resolution directing their executive committee to formulate a new agreement, embodying reduction in hours of work, and an increase in wages.

ST. BART'S WON 16-3.

LONDON, Mar. 3. — (Canadian Press Cable.)— St. Bart's defeated King's College by 16 points to 3 in a hospital cup semi-final Rugby match to-day.

DEFICIT OF C. N. R. BE $30,000,000 MANION EXPECTS

Earnings of $24,000,000 Be Applied to Interest Due Public on Securities.

$53,000,000 INTEREST.

Owing to Financial Conditions No Legislation For Refinancing Be Introduced This Session.

OTTAWA, Ont., March 3 (C.P.).—The deficit of the Canadian National Railways during the year just closed would be around $30,000,000, Hon. Dr. Manion, Minister of Railways and Canals, stated to-day. "I am hopeful it will be somewhat less than $30,000,000," he added.

The Canadian National will earn in the neighborhood of $24,000,000 to be applied to interest due the public on securities. The interest totals around $53,000,000 annually, or over $1,000,000 a week. The balance has to be supplied by Parliament. Dr. Manion's announcement of the approximate deficit was in response to inquiries as to certain forecasts that the deficit would run as high as $40,000,000. This forecast was too high, he said.

Owing to the financial conditions of the country, no legislation for the refinancing of the Canadian National will be introduced this session, the Minister stated. Such refinancing has been under consideration for several years.

In a recent speech Dr. Manion stated he had received requests approaching a total of $200,000,000 for the extension and betterment of the Canadian National. Needless to say, with the impending deficit, Parliament would give serious consideration to all applications which meant increases in the capital indebtedness of the system.

The Canadian National report will be referred to a special committee of Parliament as heretofore and will doubtless be gone through very carefully.

Rich Gold Strike Is Made At Moss Mines

FORT WILLIAM, Ont., March 3.—(CP)—One of the richest strikes of gold ore ever made in this mining field was reported today from the Moss Mines, South of Kashabowie. The information was given to Norman M. Paterson, President of the Thunder Bay Chamber of Mines, by J. G. Harkness, M.E., who is in charge of the operations at the Moss Mines.

The strike has been made in the drift of the lowest level, 400 feet down and is described as being almost in nuggets and sensationally rich, and likely to average several hundred dollars to the ton.

Lord Kirkley Declares Empire Trade Would Jeopardise 70% English Exports

LONDON, March 3.—(CP)—Addressing the Royal Empire Society today Lord Kirkley formerly Sir William Noble, leading industrialist, delved deeply into the question of trade within the empire. He concluded that many inescapable factors must be dealt with before the United Kingdom perhaps jeopardized 70 per cent of her total export trade in the hope that trade with the rest of the empire would make it up.

"It is probably true that the British Empire can provide what we require in the shape of food supplies and raw materials," said Lord Kirkley, "but it is not so clear the empire can absorb the necessary exports to pay for them. The dominions are anxious to sell their products to the United Kingdom, but at the same time they are naturally developing to an increasing extent their own manufacturers. Their tariffs tend to prevent the entry of the very goods by which this food and raw material must be paid for."

A. B. C. LEADERS PREFER TRIAL WITHOUT JURY

Officers Separately Indicted to be Tried by Some Judge, With Jury.

SEVENTEEN DEFENDANAS.

All Accused Plead Not Guilty When Charges Are Read to Them.

WINDSOR, Ont., March 3. (CP)—The alleged leaders in the A.B.C., conspiracy in restraint of trade cases will be tried by Mr. Justice Wright without a jury, in the Ontario Supreme Court. The officers who were separately indicted, will be tried by the same judge with a jury.

This was decided by the defence to-day after true bills had been returned on two indictments, one against the leaders of the alleged conspiracy, the other against the plumbing operators. There will therefore be two trials with that of the leaders first.

Five Defendants Dropped

Five defendants were dropped from the charges to-day, leaving 17. The Grand Jury found "no bill" against G. W. Wilkins, H. F. Leonard and W. N. Burnet, three border tinsmiths who had been accused as members of the sheet metal workers' section of the A.B.C. They were therefore dismissed.

It was also decided that in the true bill against the leaders of the alleged conspiracy, which named Louis M. Singer, K.C., commissioner of the A.B.C., Roy E. Belyea, president Harry Weinraub secretary, W. F. O'Connor, K.C., counsel, all of Toronto, and Charles E. Paddon and Herbert Ward, of Windsor, officers of the border organization, and the Canadian Plumbing and Heating Guild and the Dominion Chamber of Credits, the latter two defendants should not be proceeded against.

KITCHENER SPENDS $6,217 IN MONTH FOR RELIEF.

KITCHENER, Ont., March 3. (CP) The Family Relief Board spent $6,217.13 during February in relief work. That amount being the largest ever paid out in this city for that purpose in one month. There are now 593 families on the relief list, the bulk of the calls being due to unemployment. In another month it is anticipated that the peak will be reached and the expenditures will decline.

LEVINSKY CONFIDENT

CHICAGO, Ill., March 3.—(CP)—King Levinsky, the ex-fish peddler, predicted today he would defeat Tuffy Griffiths, by a knockout when they meet in their scheduled ten round engagement at the Chicago stadium Friday night.

Meanwhile, the advance sale has passed the $30,000 mark, with indications that the gate will exceed $65,000.

PLANE CRASHES—PILOT UNHURT

VANCOUVER, B.C., March 3 (C.P.)—A Royal Canadian Air Force seaplane piloted by Sergt. Fleming of Jericho Beach Air Station, crashed into the waters of English Bay yesterday. The pilot escaped injury but the plane was badly damaged, it was reported. A passing tug rescued the pilot and the plane was beached.

ARMY OFFICERS RELEASED.

LIMA, Peru, Mar. 3. (C.P.) — Twenty-two army officers taken prisoner after an unsuccessful uprising at Lima and Callao Friday, Feb. 20, against the Sanchez Cerro administration, have been released by the new provisional government.

Baggy-Kneed Trousers Tabood For Workmen

CHICAGO, Ill., Mar. 3. — Baggy-kneed trousers for workmen are not in good taste. So decreed the International Garment Manufacturers' Assocaton in convention.

The delegatees displayed cotton suits, tailored and with trousers creased, to supplant overalls and ordinary work pants.

And the shirts, they added, should be of the same color as the trousers.

RADIO HEARING SET FOR APRIL

Ontario and Prince Edward Island Join Quebec in Disputing Federal Claim.

TWO QUESTIONS ASKED.

OTTAWA, Ont., March 3. (CP)—April 9 has been set as the date for hearing by the Supreme Court of Canada of the reference to decide the respective jurisdictions of the dominion and the provinces on radio broadcasting. This was fixed to-day on application of the dominion.

Ontario and Prince Edward Island will join with Quebec in disputing the contention that the dominion has jurisdiction to regulate and control radio communication. These three provinces were represented in court to-day. After the application was heard, counsel for Ontario and Prince Edward Island indicated their argument would follow the lines taken by Quebec. E. P. Varcoe, of the justice department, who made the application told the court that all provinces had been notified. Manitoba and Alberta had replied they were not interested in the application at the present time but might take part in the argument later on.

The dominion's case is to be printed and fyled in the court within the next four or five days and April 1 was set as the last day to fyle factums.

The questions which the supreme court will be asked to decide are:

1. Has the parliament of Canada jurisdiction to regulate and control radio communication, including the transmission and reception of signals pictures and sounds of all kinds by means of Hertzian waves, and including the right to determine the character, use and location of apparatus employed?

2. If not, in what particular or particulars or to what extent is the jurisdiction of parliament limited?

BLAZE DESTROYS TROTZKY'S NOTES

Loss Irreparable to Russian Exile and History Secretary Claims.

PART OF VOLUME SAVED.

ISTANBUL, Turkey, March 3 (C.P.)—Destruction of private papers of Leon Trotzky, exiled Russian Bolsheviki leader, when his villa on Prinkipo Island burned Sunday was an irreparable loss both to Trotzky and history, his secretary, Jan Frankel, said to-day.

The secretary, Trotzky, Mme. Trotzky and their son struggled desperately while the ceilings of the burning villa crashed about them, and managed to save the manuscript of the completed first volume of a history of the Russian Revolution and notes for the succeeding unwritten volumes.

The flames, however, devoured all the material for a projected book on contemporary European and Asiatic statesmen. This material consisted largely of Trotzky's private correspondence with the statesmen, letters which cannot be replaced.

200 UNEMPLOYED HALT ASSEMBLY BY WILD YELLING

State Troopers Seize Demonstrators and Eject Them From Albany Session.

GENERAL MELEE ENSUES.

Many Officers Injured—Agitators Foiled in Chambers Parade Down Street.

ALBANY, N.Y., Mar. 3 (CP) — Shouting and tumult amounting to a virtual small riot by two hundred demonstrators for the unemployed brought the Assembly session to a halt shortly after the session began to-day. State troopers seized demonstrators by the dozen and ejected them from the chamber while others in the galleries shouted and waved their arms.

The uproar showed no signs of abatement at the end of five minutes with State troopers still striving to quiet the noise and eject the more violent demonstrators.

A group milled about on the steps of the Capital.

When troopers started to clear the galleries some of the demonstrators showed fight. Troopers swung their clubs vigorously and at the end of ten minutes had evicted everyone from the gallery over the Speaker's rostrum and had forced the exit of those who were in the rear of the chamber. One or two troopers were knocked down in the melee. Members of the Assembly and spectators who had thronged the chamber applauded vigorously when the demonstrators were ejected.

Parade Down Streets

The steps were cleared and the agitators scattered about Capital Park. Later they formed at the front of the park and paraded down State Street while spectators lined the sidewalks.

Captain S. F. Keely of the troopers was cut about the face and head during the scrimmage. It is believed his assailants were wearing brass knuckles.

After the main body of demonstrators had paraded away from the Capitol grounds, small groups began filtering back toward the steps, but were kept at a distance by the troopers.

A squad of troopers was detailed to surround the executive mansion.

William Bell, a Page in the Senate was a casualty. During the fighting in the assembly gallery he went to the assistance of a trooper who had been knocked down and was, himself, struck over the head with a stick carried by one of the rioters. Senator William Lathrop Love, who in private life is a Brooklyn physician, attended to Bell's injury.

MISSING ACTRESS FOUND INJURED

Puzzled Monterey Police Attempt to Trace Wanderings of Edna May Cooper.

REMAINS IN HOSPITAL.

MONTEREY, Cal., March 3. (CP) Edna May Cooper, actress and endurance flier found injured after having been missing mysteriously a week from Hollywood, remained in a hospital to-day while puzzled police attempted to trace her previous movements.

At the orders of Dr. Hugh Dormody, called by hotel employes, Miss Cooper was removed yesterday to a hospital. She was suffering an abrasion on the back of her head and bruises on her body. Her injuries were not considered serious. The actress told authorities she thought she was in Santa Monica because she started for that city when she left Los Angeles. She was unable to account for her injuries.

Descendant Of Drake Passes In Toronto

TORONTO Ont., Mar. 3 (CP) Mrs. A. M. Corbell, 70, wife of Samuel L. Gorbell, local representative of the British Sailor's Society, died at her home here yesterday. She was a direct descendant of Sir Francis Drake, who routed the Spanish Armada. She was born in Newfoundland. To hundreds of sailors visiting Canadian ports she was known as "mother." Her whole life being devoted to the welfare of sailors in the Royal navy.

CITY COUNCIL PASSES MOTION ASKING MINISTER TO CONTINUE WORK ON HIGHWAY EAST OF CITY

Alderman Phelan Maintained County Council Showed Short-sightedness.

OPPOSE INCOME CHANGES.

Bus Company is Losing $1,000 a Month Owing to the Depression.

Contrary to the resolution passed last Friday by the County Council petitioning Premier Henry to disontinue operations on the Provincial highway east of Peterborough, the City Council last night unanimously voted to petition the Ontario Government to continue work on the highway and have it completed with due speed.

The action of the County Council was brought to the attention of the aldermen by Alderman Phelan, who maintained that the county representatives were showing short-sightedness in passing their resolution.

"We have consistently urged upon the Government the need for such a highway and we were overjoyed when work upon it commenced," he stated. "It would be poor policy to ask that it be discontinued now. The highway must come, since it is needed and will prove a great asset to this district. The city has already arranged to pay its share. I move a resolution that this Council urge the Hon. Mr. Henry to continue work on the highway and have it completed as soon as possible."

The motion passed unanimously, and without further discussion.

Oppose Income Changes.

Firm opposition to the movement in certain quarters to have the Income Tax Law amended was voiced by the Council and a motion was passed unanimously expressing opposition to any changes in the law making for the exemption of incomes.

Alderman Macdonald started the discussion when he read from a report submitted by Assessor W. J. Henry in which it was pointed that exemption in Income Tax would mean that the city would lost an assessment of $815,906 and such a loss would have to be met by an increased assessment on realty and business.

Mr. Henry's report read: "During February the Assesment Department has been engaged in inspecting new buildings erected since the 1930 assessment, and preparing personal Income forms to be sent out for the 1931 assessment.

Henry's Opinion.

"In this connection I would like to bring to the attention of the Council the fact that there is an attempt by a small but influential portion of the public throughout

Wolves Are Visiting Populated Areas

PORT ARTHUR, Ont., March 3. (CP)—Mrs. C. Whittaker shot a wolf at her home in Oliver township last Wednesday it was learned to-day. Other wolves have been seen in farm neighborhoods. Snow is scarce in the woods and the usual prey of wolves has a better chance on the solid footing this accounting for the wolves, visits to populated areas.

CHICAGO GUNMEN KILL ONE VICTIM WOUND ANOTHER

Throw Wounded Man With Bomb, Which Fails to Explode, Into Cellar.

Caretaker Fleeing Is Shot.

Attack Believed an Attempt by Gambling Syndicate to "Muscle Into" New Territory.

CHICAGO, Ill., March 3.—Five machine gunners shot and killed one man and wounded another early to-day, but failed to explode a huge bomb which they tossed, with one of their victims, into the basement of a gambling establishment conducted by James Hackett in suburban Blue Island.

The victims were William Mayer, 45, a caretaker at the Hackett place, and Hilario Rodriguez. Mayer was shot to death as he ran out of the place when his attention was attracted to shots fired at Rodriguez after Rodriguez escaped from the basement. Rodriguez was wounded and was taken to a hospital.

The police viewed the affair as an attempt by a Chicago gambling syndicate to "muscle into" Blue Island gambling territory.

Asked for His Money

Rodriguez was standing on a street corner, waiting for his wife when the five men arrived in an automobile. One of them demanded his money and when he pleaded he had none he was struck in the face with a pistol, which shattered his jaw bone. Another of the five lighted a fuse of the bomb, which contained 15 pounds of dynamite and which was made of a steel pipe, and tossed it into a coal chute of Hackett's place. Two others seized Rodriguez and threw him in after the bomb.

The bomb, however, failed to explode. Terror stricken, Rodriguez climbed out in time to see the five get into their car. They saw him and two of them fired. One bullet inflicted a slight wound. Then a fusillade of bullets felled Mayer and the machine gunners sped away in their cars. Firemen filled the basement with water and retrived the bomb which they said probably did not explode because moisture in the cellar extinguished the fuse. Had it done so, it would have wrecked the building.

Hackett said he knew of no reason for the attack, but the police held the theory that it resulted from his refusal to join a powerful gambling syndicate.

Submarine Valleys Reach Great Depths

NEW YORK, N. Y., Mar. 3.—Narrow canyons beneath the ocean, which represent continuations of the great Atlantic river valleys, are described by Dr. J. W. Gregory, who says they sometimes reach an astonishing depth.

Dr. Gregory made his observations in a paper on "the earthquake off the Newfoundland banks of November 18, 1929," published by the Royal Geographical Society, London.

Explanations of these submarine valleys vary. Some have attributed them to glacial erosion. The Hudson's canyon is pictured as 75 miles long and attaining at one point a maximum depth of 4,000 feet. It appears off Sandy Hook, then turns eastward.

An undersea canyon lying along Cabot Strait was described as playing an important part in the cause of the earthquake. Fractures on each side of the valley, says Dr. Gregory, indicate that the earthquake was due to a fresh movement along its sides.

London now is one of the best recruiting centers for the British Army.

PROF. CUNCLIFFE QUITS HIS OFFICE

C. W. Ackerman Takes School of Journalism Directorship at Columbia University.

BEGAN AS REPORTER.

NEW YORK, N.Y., March 3 (C.P.).—Professor John W. Cunliffe, at one time Professor of English at McGill University, Montreal, will retire as director of the School of Journalism, Columbia University, June 30, it was announced to-day. He is retiring at his own request, and will be succeeded by Carl W. Ackerman, author and journalist.

Professor Cunliffe was born in England and began his career as a reporter at the age of 17. He gained a reputation as one of the most successful teachers of written English in North America. While serving at McGill University he was a member of the editorial staff of the Montreal Gazette.

Afternoon Tea Habit Saves Girls' Lives

MELBOURNE, Australia, March 3 (A.P.).—Devotion to the afternoon tea ritual saved the lives of many girl employees at the Nobel Explosive Works at Deer Park to-day.

During a storm an acid tank in the mixing room was struck by lightning and exploded. Windows were shattered for miles around but there was no loss of life since the girls working there had left the room a few previously for lunch.

COMMUNIST GOVERNMENT CLAIMS 8,250,000 FAMILIES COLLECTIVIZED

Figure Represents 33 Per Cent. of All Poor and Middle Class in U.S.S.R.

CAMPAIGN GAINING.

MOSCOW, March 3 (C.P.). — The Communist Government will announce to the All-Union Soviet Congress on March 5 what it considers one of the most important victories of its history when it will present figures showing that 8,250,000 peasant families have been collectivized up to February 20.

Summary of the report which will be read by the Commissar of Agriculture, Yakubley, was published today and disclosed the assertion of the Soviet authorities that 33 per cent. of all the poor and middle-class peasantry of the U.S.S.R. had been converted to the collective farm movement, and that the campaign to eliminate individual landholders was gaining momentum daily.

The growth of the movement was shown by figures for the last three years. It was declared that in 1928 400,000 families had been collectivized, in 1929 there were 1,000,000, and in 1930, 6,000,000. According to the report the principal grain producing regions, the North Caucasus, the lower Volga River Valley, the Middle Volga, the Urkaine, and the Crimea, had been collectivized 67 per cent., with other regions 35 per cent.

LEVINE BEING SUED FOR DIVORCE

CHERBOURG, France, March 3 (A.P.)—Charles A. Levine, American aviation enthusiast and former scrap metal dealer, arrived to-day aboard the liner Paris and took an automobile for Paris, where his wife has entered suit for divorce. He refused to discuss her suit.

High Commissioner Attends King's Levee

LONDON, Mar. 3.— (By Thos. T. Champion, C. P. Staff Correspondent.) — Hon. G. Howard Ferguson, Canadian High Commissioner to Great Britain, attended the King's levee at St. James' Palace to-day. The High Commissioner wore what is known as a first-class civil uniform, compdising a levee coat such as is worn at the Royal courts, but with trousers instead of knee breeches.

Squadron leader George Waite of the Canadian Air Service, and Captain Basil Saunders, formerly of Lord Strathcona's Horse of the Canadian regular forces, also attended the levee.

His Majesty, wearing an Admiral's uniform, drove from Buckingham Palace in a closed State landau with an escort of the Horse Guards. The Duke of York was at his father's side during the levee.

Vivian Gordon, Expert Racketeer, Say Police

BLACKMAIL RING CAUSE OF DEATH LATEST THEORY

Claim Murdered Woman Supplied Pretty Girls For Gay Parties.

Learned Escorts' Standing.

Diaries Revealed Names of 40 Men Listed Supposedly For Future Extortion.

NEW YORK, N.Y., March 3 (C.P.). — The theory that Vivian Gordon, vice graft tipster, was slain because she was operating a blackmail ring was held by Police Commissioner Edward P. Mulrooney to-day.

Miss Gordon, he said was an "expert racketeer," who supplied pretty women for gay parties with instructions to determine the social position and financial rating of other escorts for future extortion. The names of about 40 men were listed in her diaries, he said.

Two Arrested.

Notations made public by District Attorney Charles B. McLaughlin and read before the Bronx Grand Jury accused John A. Radeloff, her lawyer, and Samuel Cohen, an ex-convict, of designs on her life as early as two years ago. They are held in $50,000 bail each.

Miss Gordon wrote in her diary in January, 1929:

"It's best to put down things as they happen concerning John A. Radeloff—he is not to be trusted—would stoop to anything."

Ensuing entries indicated that the author and the lawyer were involved in an affair and were given to quarrels and reconciliations.

An undated entry read: "Sam Cohen, a client of J. A. R, in a case has brought the thugs (2) to J. A. R.'s office—so J. A. R. told me—and he refused to let them do the trick...??

"The above information was conveyed to me in my apt. after a reconciliation on Feb. 23—but still I list this information—in case his man does according to his plans as he is supposed to have said, 'We'll take her out somewhere—no one will know what happened to her. Every mark of identification will be missing, especially that ring—meaning the $2,500 ring I wear."

Ring Was Missing

Miss Gordons' body, bruised and garroted, was discovered in a Van Cortlandt Park thicket last Thursday—stripped of all material identification, including the diamond ring mentioned. She had previously conferred with vice graft investigators.

Referring to Radeloff as her "only real enemy" Miss Gordon wrote:

"It wouldn't surprise me a bit if he tried to grab that money. No one close to me to put up a squawk if anything occurred. Anything I have done to him — he deserved 100 per cent. more."

The Grand Jury, the District Attorney and Referee Samuel Seabury of the Magistrates' Courts inquiry heard the stories of Leonore Halsey, a Cuban housemaid, who claimed to have ridden with Miss Gordon on the night before she was slain, and Miss Cassie Clayton, Erie, Pa., waitress, to whom she wrote her last letter telling of her intention to expose the "truth" of her conviction on a vice charge in 1923. Neither presented clues of any value, it was said.

Victim of Grim Immigration Farce

As a sample of a grim farce that might have been conjectured by the pen of Hugo or Balzac, John Radunske, a German youth raised in Ontario and father of two American-born children, languishes in a Detroit jail, a victim of an impossible web of immigration red tape with two adjacent countries refusing to claim him as a citizen. Left, Radunske, aged 24, as he appears in Wayne county jail, Detroit. He has been in custody since Oct. 1, 1930. Right, Radunske's two motherless children, American-born, now in Canada, separated from their father by jail bans and a legal farce.

CAMPBELLFORD COUNCIL SETS OPEN NIGHTS

Wednesday and Saturday Will be Late Closing Nights According to By-law.

FIRE BRIGADE POLICY.

Councillor H. N. Carr Outlines Proposal to Meet Cloth Company Demand.

CAMPBELLFORD, March 3. (By Examiner Staff Correspondence). — Wednesday and Saturday will be the late closing nights for the town of Campbellford in the future according to action taken last evening at the regular meeting of Town Council held in the Public Library, Campbellford and over which Mayor J. M. Bygott presided. All members were present with the exception of Reeve N. Stone and Deputy Reeve N. Alex MacColl who were both absent through illness.

The climax of this much discussed question came to a head with the presentation of two more petitions to the council; one was signed by forty-four merchants of the town and called for the alteration of the late night from Thursday to Wednesday, the second, signed by thirty-three merchants, called for the late night to remain as it was last year. This matter went into discussion by the council.

J. Irwin, speaking to the council on the first petition pointed out that it was more a question of law than anything else, stating that the law required three fourths of a majority in each line of business to enable the council to act, and this the petition had, he thought.

D. J. Lynch, the town solicitor asked for his opinion, pointed out that the council can act on the late night only, without the said majority but that a three fourth majority was needed to declare a half holiday. He stated that he thought the council could pass what by-law it liked with regard to the matter.

After much discussion it was moved by Councillor F. Long that all existing late closing by-laws be revoked and that a new one be drawn up ruling that on Monday, Tuesday, Thursday and Friday the stores be closed from 7 p.m. to 5 a.m. and on Wednesday from 9.30 p.m. to 5 a.m. and on Saturday from 11 p.m. to 5 a.m. Monday morning, allowances being made for special holidays and Christmas week. Councillor N. Thompson seconded this motion which was carried.

Recommend Action

Councillor E. McKeel, reporting for the Fire Committee, stated that the blanket policy covering the fire brigade had been examined and that the said committee recommend action.

RINGLING MUSEUM OPENED

SARASOTA, Fla., March 2.— The John and Mabel Ringling art museum was opened to the public here today.

The museum is filled with collections gathered over a period of 30 years by John Ringling, circus magnate, and others. Mr. Ringling built the museum several years ago but had never opened it to the public. It cost $20,000,000 to build and fill.

Julius Boehler, curator, had been working three years, cataloging the exhibits.

Deaths from street accidents in London have doubled in the last 10 years.

Mice Hordes Invade Australian Plains

MELBOURNE, Australia, Mar. 3 (C.P.).—Millions of mice suddenly have invaded the Nullabor plains along the trans-Australian Railway.

The stationmaster at Loongana to-day reported that miles of the country served by the railway were infested with the rodents. While he was attending a passenger train thousands entered his office and some began eating a roll of pound notes.

He said that every house in the district had been invaded by the pests, which were attacking even the furniture and the bedding.

HENRY REQUESTS WITHDRAWAL OF NESBITT MOTION

Government Will Consider Electoral Registration Reform Bill at Later Date.

REVIEW PRESENT SYSTEM.

TORONTO March 3. — Upsetting opinions and causing obvious surprise in the House, Premier George S. Henry yesterday requested the withdrawal of the Nesbitt electoral registration reform motion after Mr. Nesbitt had spoken on the resolution and the Legislature had been offered the co-operation of the chief electoral officer's office and the Attorney-General's department by Hon. W. H. Price. The motion was withdrawn on the statement of the Premier that the Government would consider its suggestions for presentation at a later session.

The disposal of the motion followed a 20 minute address by the member for Bracondale, Toronto, and an address by the Attorney-General in which he reviewed the development of the present system of registering voters. No opinion on the measure was offered by the well-filled opposition benches which envinced a keen interest in its discussion by the Government side of the floor. The Premier spoke briefly on the motion, suggesting that it be withdrawn because the Government was already giving the subject thought.

The sponsor of the motion, A. Russell Nesbitt, opened discussion after the Premier had called for the order. In asking the acceptance of the resolution calling for the appointment of a select committee of the Legislature to consider reformation of the system of electoral registration, Mr. Nesbitt read an editorial written by Arthur Ford of the London Advertiser commenting favorably on the proposals.

"This is probably one of the best reasons for placing this motion on the order paper" stated Mr. Nesbitt. "It is the opinion of a writer who has also studied the matter and is aware of the condition into which voters' lists in this province have drifted."

ACCORD REACHED ON SALT MAKING ALONG SEA COAST

New Agreement Will Not Interfere With Indian Gov't Salt Monopoly.

MAJOR OBSTACLE SOLVED.

Abandonment of Disobedience Campaign Expected to Follow Gandhi's Talk With Irwin.

NEW DELHI, March 3 (A.P.) — Mahatma Gandhi and Sir George Schuster, Indian Finance Minister, conferring to-day at the Vice-regal Palace, reached an agreement on the salt question, one of the outstanding problems in the way of abandonment of the civil disobedience campaign.

Almost exactly a year ago the Indian Nationalists, led by Gandhi, initiated a campaign of violation of the Salt Laws.

Two Hour Parley

The agreement between Gandhi and Sir George was reached after a two-hour conference. After taking an hour's rest, Gandhi proceeded to the Viceroy's quarters to resume his talks with Lord Irwin which, it was expected, would lead to-day to a formal agreement, permitting abandonment of the civil disobedience campaign.

It was understood that the agreement provides that people living on the seacoast will be allowed to manufacture and sell salt, which will be regarded as Nature's gift to them.

Acknowledgment of this principle, it was thought, will not interfere materially with the Government salt monopoly, which will still supply salt to the major part of India.

Much satisfaction was expressed here at conclusion of the agreement which clears the way of one of the most important obstacles to settlement of Nationalist demands and participation of the Congress Party in a Round Table Conference to work out a new constitutional status for India.

Solve Final Issues

It was confidently expected by close observers that Gandhi and Lord Irwin would find formulas or compromises during their conversations to-day on other points at issue. These include Gandhi's demand for an investigation of alleged police brutality, picketing of shops and the boycott of foreign goods.

Although the Mahatma declared this morning that he was determined to close his conversations with Lord Irwin to-day it was considered possible that discussion of final details of the settlement might be extended until tomorrow.

This was indicated when Gandhi this afternoon ordered his special meal of dates, brown bread and goat's milk brought to the Viceroy's Palace before sunset so that he would not have to interrupt the great volume of work still confronting the two negotiators.

Two Kindly Thugs Make Victim Loan Till He Gets Paid

CHICAGO, Ill., March 3. — (C.P.).—Joseph Tablik was singing the blues as he rode along yesterday in his automobile. Pay day was still a day away.

As he halted for a traffic light two men jumped on the running board. One of them had a pistol.

"Get out," said the robber, "but before you do, give me your money."

"That," said Tablik, "is just what I haven't got. To-morrow is pay day and I only have enough to buy a little gas to-day."

"In that case," said the bandit, "here's something to tide you over."

Tablik looked into his hand. He saw a quarter.

CAR DAMAGED IN CROSSING CRASH

Howard Jeffrey Narrowly Escaped Injury in Accident Near Millbrook.

ON DAWSON'S HILL.

MILLBROOK, March 3 (Examiner Correspondence).—What might have proved a very serious accident was narrowly averted on Saturday evening when a car driven by Howard Jeffrey struck the C.N.R. train at the crossing north of the village, the driver and the other passenger in the car miraculously escaping without injury other than the nervous shock incident to such a happening.

Mr. Jeffrey was driving down Dawson's hill toward the village, and apparently only noticed the train in time to use his brakes quite suddenly, the car swerving almost on to the track as the train reached the crossing. The engineer had evidently seen the danger of an impending collision, applying the emergency brakes with such force that the engine was detached from the rest of the train; hence the peculiar circumstances that the car struck the train, with extensive damage as a result, rather than as so often happens in such accidents, that the collision impact was the other way round.

OBITUARY

MRS. JAMES IRWIN

PETHERICK'S CORNERS, March 3 (Examiner Correspondence)—The funeral service of the late Mrs. James Irwin was held in Zion Church on Saturday afternoon, burial taking place in the cemetery here.

The late Mrs. Irwin was well known in the community and her husband is official cheese grader for the Belleville district, being a native of the Petherick's district.

MRS. WILLIAM MOONEY

HALL'S BRIDGE, March 3 (Examiner Correspondence)—The funeral of the late Mrs. William Mooney, who passed away in Nicholls Hospital on Friday, was held on Saturday in Peterborough at 2:30 p.m.

The late Mrs. Mooney, whose maiden name was Louisa Irwin, was the daughter of the late Allan Irwin, of Rockcroft, by his first marriage.

Left to mourn her loss besides her husband, are four daughters, Mrs. Reginald Pearson, of Smith, Mrs. Reginald Madill, of Hall's Bridge, Mrs. Howard Spoffard, of Harvey and Viola at home, also one son Percy, at home.

RUBBER PRODUCERS TO CONFER

AMSTERDAM, Holland, March 3.—The entire Dutch rubber committee planned today to proceed to London within a day or so for serious discussion with British producers on restriction of production.

ROYAL BROTHERS VISIT RANCHES

Prince of Wales Stays at Huemul, Where His Hostess is the Former Leonora Hughes.

CROWDS WELCOME ARRIVAL.

BARILOCHE, Argentina, March 3 (A.P.)—The Prince of Wales and his brother, Prince George, spent last night on different ranches; the Prince of Wales remaining at Estancia Huemul near here, and Prince George going to Estrancia Pilcaneau.

The Estancia Huemul is the property of the Ortiz Basualdo Brothers and is one of the largest and richest of Western Argentina. That at Pilcaneau is the property of the Argentine Southern Company.

The Prince of Wales originally intended to go on to San Antonio to Estancia Huemul with Prince George, but changed his plans and remained at Huemul, where his hostess was the former Leonora Hughes, dancer, who as the partner of the late Maurice Mouvet, once thrilled millions. She is now Sra. Leonora de Ortie Besualdo, wife of the Carlos Ortiz Basualdo.

Hundreds of persons greeted the two Princes as they arrived aboard the lake steamer Patagonia and landed, amid deafening whistling of lake craft and tooting of horns of automobiles ashore. The Prince of Wales wore a flannel suit, yellow chamois shoes, a basque cap, and a light overcoat.

He apologized for his hesitancy with Spanish irregular verbs, although he seemed proficient enough in the language to newspapermen.

TITLE OF BABY HUNGARY PUZZLE

King Alfonso Prepared to be Godfather to Child Expected Soon in Albrecht Family.

Archduke Renounced Throne.

VIENNA, Mar. 3.—(A.P.)— Rene Von Lehlbach, wife of the Archduke Albrecht who gave up his rights to the Hungarian throne to marry her, was said to-day to be expecting an accouchment soon.

King Alfonso of Spain, who is Albrecht's uncle, was understood to be prepared to be godfather to the child. It was widely discussed here to-day whether the baby would be an Archduke or Archduchess since Hungarian laws do not recognize morganatic marriages.

The marriage of the former pretender and Mme. Von Lehlbach, who was the former wife of a Hungarian diplomat, generally however is regarded as having been in conformance with Hungarian law. The ceremony was performed in a civil registrar's office in Brighton, England, Aug. 16, last.

TWO NEGROES SHOT IN STRIKE.

NEW ORLEANS, La., March 2 (C.P.). — Two negroes were wounded to-day in a renewed outbreak of violence in the strike of longshoremen along the New Orleans waterfront.

Frank Henry, a porter, was shot in the shoulder by one of a group of negro strikers who questioned him as to where he was going to work, he told police. Thomas Jackson was beaten by a crowd of negro and white strikers as he approached the river.

In another outburst of firing several wharf workers narrowly escaped pistol bullets fired at them.

TRAPPED ASLEEP FIVE DIE IN FIRE

One Child Only Escapes Death By Leaping From Bedroom Window.

BREAKS LEG IN FALL.

PITTSBURGH, Pa., March 3 (C.P.). — Trapped in their beds, a man and his wife and their three children were burned to death when their home at Russelton, a mining town, was destroyed by fire early to-day.

The dead:

Frank Daniel, his wife, and Patsy, Frank, Jr., and Mary, the latter three children under 10 years of age.

Another child saved her life by leaping from a second storey window. Her left leg was fractured as she fell to the ground.

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Orlex Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken scrubbed, faded or gray hair and make it soft and glossy. Orlex will not color the scalp, is not sticky or greasy and does not rub off.

FALSE TEETH ARE A GREAT INVENTION but KEEP YOUR OWN AS LONG AS YOU CAN

FALSE TEETH are worn in thousands of mouths today because these simple rules of health were almost unknown a few years ago

Most people can now *escape this penalty!*

ANY dentist will tell you what infected teeth and unhealthy gums will do to the human body.

When gums are spongy, swollen, inflamed, there is almost certain to be a germ-laden discharge into the mouth—virulent germs which travel with food through stomach and intestines, spreading infection along the way.

Then, of course, teeth must come out, and the dental profession deserves high recognition for its crusade against infected teeth in recent years.

But why invite this condition? Half the adult teeth lost are pulled because of pyorrhea—and most pyorrhea can be prevented if you start in time.

Start now to brush your teeth with Forhan's. This famous dentifrice was originated by a specialist in pyorrhea. Use it twice a day to clean the teeth—its safe, gentle action removes discolorations and deposits, and gives teeth the sparkle of their natural beauty.

But Forhan's does more—it tones up the gums. Every time you brush your teeth, massage the gums (full instructions with every tube)—and feel the health-bringing tingle of circulation which helps to keep gums snug and firm.

Do not delay until gums are spongy, tender. Many people have pyorrhea for ten years before they see the symptoms. Visit your dentist twice a year—and begin, at once, the use of Forhan's. The whole family needs this protection. Forhan's comes in two sizes, 35¢ and 60¢—just a few cents a tube more than ordinary toothpastes, and exceedingly well worth it. Forhan's Ltd., Montreal.

FORHAN'S
FOR THE GUMS

Any mouth may have Pyorrhea and at 40 the odds are 4 out of 5

"... My! your new Pontiac is a beauty..."

YOU will find that everyone applauds your taste and respects your judgment, if you drive the 1931 Pontiac. The 1931 Pontiac is a larger car, a fine car, although it sells at lower prices. Observe, at our showrooms, Pontiac's distinctive V-shaped radiator. See the sweep and flow of its long, modern lines and the luxury of its spacious Fisher Bodies.

There are over 40 points of rubber insulation throughout the chassis to blanket engine noise and vibration, and to absorb road shocks. Such notable Pontiac features as Lovejoy shock absorbers, cross-flow radiator and big brakes are retained.

Let us show you the new Pontiac and allow you to drive it. Let us explain GMAC, General Motors' own time payment plan and the generous provisions of the General Motors Owner Service Policy.

COST OF BREAD IS HIGHER IN U.S.

Less Charged to Overhead, Selling Delivering Senator Explains for Canadian Price.

CHEAPER IN BRITAIN.

WASHINGTON, D.C., March 3 (By Ken Clark, C.P. Staff Correspondent). — It costs less to eat in Canada than it does in the United States, at least the staff of life is cheaper. This was revealed in a report on the prices of food products made by Senator Capper of Kansas to the Senate yesterday.

Mr. Capper's committee investigating the prices of bread, dairy products, and meat, made a comparison in its findings between the price of bread in Canada and the United Kingdom and that in the United States. Bread prices in the United States have been higher than those in Canada by from 1 to 2 cents per pound; higher than those in the United Kingdom by about 4½ cents a pound over a period extending from 1924 to 1930. The difference has recently increased.

An interesting feature is the fact that flour and other ingredients which in the United States cost 2.89 cents per pound loaf, in Canada cost 3.19 cents. The labor cost of baking in Canada is also higher than in the United States. The report says, "With higher material and labor costs and with a lower total manufacturing cost, it is evident that a reason why bread in Canada is sold for less than it is here is that in Canada less is charged to overhead, to selling, delivery, and advertising."

In The Legislatures

TORONTO Ont., Mar. 3. (CP)—To-day debate on the speech from the throne will continue.

Yesterday in the Legislature:

Motion for appointment of a committee to study revision of methods of compiling voters' lists was withdrawn on Premier Henry's suggestion.

First reading bill to amend Registry Act.

Committee of whole passed bills to amend Lightning Rod Act and to amend Dog Tax and Sheep Protection Act.

IN ALBERTA

EDMONTON, Alta., March 3.—Alberta's Legislature approves the principle of unemployment insurance and believes that "steps should be taken by the Federal Government for the immediate inauguration of such a scheme."

Following the drafting of an amended resolution to which all parties in the House subscribed, members went unanimously on record to this effect, at sitting last night. In this way were both the motion by Andrew Smeaton, Labor, Lethbridge, which asked that steps as described be taken "in conjunction with the Federal authorities," and an amendment by D. M. Duggan, Conservative Leader, Edmonton, calling for "further study of this important matter" disposed of.

Bandit Is Identified By Bank Teller

REGINA, Sask., March 2 (C.P.).—Identification of the man arrested last night as a suspect in the Royal Bank of Canada hold-ups as William Grumey, was stated to-day by city police to have been made by David Slinn, teller in the Albert Street branch of the bank, from which two armed men escaped Saturday morning with $13,345. Grumey has been living in Saskatoon, but was a former Regina resident.

Police declared the prisoner had in his possession a list of Royal Bank branches in Saskatchewan, with a map attached. They are now on the lookout for a second man alleged to have been implicated in the robbery, as well as a woman companion.

MARMORA

Mr. and Mrs. Philip Cummings and family moved to Marysville on Saturday, where the former has been transferred to the C.N.R. section.

Mr. and Mrs. John Cross were called to Havelock on Monday, owing to the serious illness of their daughter, Mrs. F. Vincent.

Mr. and Mrs. Irwin Eggleton and family and Mr. Hector Eggleton of Stirling were Sunday guests of Mr. and Mrs. S. W. Narrie.

Born on Monday, March 2nd, to Mr. and Mrs. Fred Wiggins, a son.

Mr. Roy Gray was admitted into Belleville General Hospital on Monday.

Mrs. N. Keating of Trenton is visiting at the home of Mr. and Mrs. Abe Smith.

CAVAN

Miss Iva Smith returned from Guelph on Saturday after taking a two weeks' short course in horticulture and landscape gardening.

Mr. Ray Staples spent the week end with friends in Manvers.

The W.A. and W.M.S. of Cavan United Church will meet on Thursday afternoon in the basement of the church.

Mr. G. E. Staples has returned to work after spending two weeks with his parents.

Mr. and Mrs. Bell, Toronto, recently motored to Cavan and visited Mr. and Mrs. David White.

REVENUE COLLECTION DROP.

MONTREAL, Que., March 2 (C.P.). —February, 1931, will do down as the lowest February for the collections of national revenue in Montreal since the war. Only one other month, January, 1925, had lower collections than did February of this year.

The collections for the month just past amounted to $5,511,406, compared with $6,302,860 for the corresponding period of last year.

Edward Guest Night Is Held By Society

Pleasing Program of Poet's Works Read at Quenesboro Y.P.S. Meeting.

QUEENSBORO, March 3 (Examiner Correspondence)—The program at the Young People's Union on Friday evening took the form of an evening with Edward Guest. Miss Jessie Lynn occupied the chair and opened the meeting with singing, "Rock of Ages." The scripture lesson from Acts. 8, 27-39) was read by Miss Margery Delyea. A number of poems written by Edward Guest were read or recited among which were, "Bill Pays a Call"; "Fishing"; "Our House"; "A Plea"; "Worry"; "Accomplishing"; "A Girl Problem"; "Don't be a Drifter"; "Things mostly happen for the best"; and "When I am called away." Those taking part in the program were, Margery Delyea, Jessie Lynn, Margaret Leslie, Ileen Sager, Mrs. John O'Rorke, Jessie Delyea and Mr. Everson. A duet "Listen to the voice of Jesus" was sweetly rendered by Marion Hamm and Jennie Sager. Miss Jessie Delyea had charge of the topic. Other hymns used were, "For the beauty of the earth" and "Day is dying in the west."

To Hold Concert

The February meeting of the Ladies' Aid was held at the home of Mrs. C. B. Hamm, on Thursday afternoon with a large attendance. Mrs. Harry DeClair, the president had charge. The meeting was opened with singing "Soldiers of Christ Arise." Psalm one was read for a scripture lesson.

Mrs. George Glover distributed the pieces of needlework in preparation for the bazaar to be held in the fall. The program committee which had been previously appointed, Mrs. John O'Rorke, Mrs. Bruce Leslie and Mrs. Everson reported that arrangements had been made to hold an old time concert in the hall on the evening of March 13, when the items on the program will be songs, music and readings of long ago. All those taking part in the program will be dressed in old time costumes. Six members paid their dues. The receipts of the day amounted to $12.25. A delicious lunch was served by the hostess.

CAMPBELLFORD COUNCIL SETS

(Continued from Page 1)

This policy covered a rate of $6.80 a year per man with a weekly indemnity of $20.00, the principal being $2,000. It also covered recruit firemen up to the strength of the brigade. On motion of Councillors J. R. Battisby and F. Long it was decided to take out this policy covering the twelve men now comprising the Campbellford fire brigade.

Councillor H. N. Carr, reporting for the Industrial Committee, stated that he had again heard from the Campbellford Cloth Company in regard to a fixed assessment, and that he had written them to the effect that when they were employing from 200 to 250 at full time for eleven months of the year that the Council would be ready to meet their wishes and present their proposal to the citizens, as the Council was as eager to see the plant running profitably as was the company.

On motion of Councillors Carr and Thompson, the auditors' report was accepted and authorization given to pay the auditors and the order granted for the printing of 100 copies of the said report.

The Rev. N. Clark Wallace, vice-president of the Campbellford Branch No. 103, Canadian Legion, waited on the Council with the request for the annual grant of $100.00 for relief purposes. He pointed out that the Legion was not only looking after its members, but all returned men and was working jointly with the relief committee of the town council. On motion of Councillor McKeel, this grant was voted, Councillor Battisby seconding the motion and pointing out that the Campbellford Legion was doing fine work in looking after the returned men of the town.

Mr. James Farrell again waited on the Council in connection with his water tax. Mr. Lynch, speaking for him, pointed out that he objected to the water rate because he was paying a double assessment being situated on two streets and that no notice had been served him when one of the water mains had been put in. The amount of this tax was $6.67. The Council as a whole was sympathetic, and it was suggested that Mr. Farrell pay the tax and come back for a rebate when the Council considered those matters, which he agreed to do.

Theatre Proposal

The culmination of much talk and speculation came to a head when H. S. Perry of Belleville address the Council with regard to the building of a picture theatre in Campbellford. He pointed out that the old theatre was condemned by the government and would cost as much to pull down and rebuild as it would to build a new house.

What he wanted to do das to build a new house in conformity with the government regulation, but stated that he was not in a position to carry all the expense. He asked that the Council, if interested enough, carry the cost of the building, and he was willing to rent the same at a set rate for a number of years or buy it at a set rate. He also asked if a cheaper rate could be granted on electric power and tax. Being questioned by members of the Council he said he had a site in mind. The building he had planned would accommodate 552 people, would be up-to-date with all modern conveniences, would measure 48 feet 6 inches by 100 feet, and would cost in the neighborhood of from $12,000 to $13,000.

On the motion of Councillors Long and Thompson, this matter was handed over to the Finance Committee for investigation.

In the correspondence two letters were read regarding the town advertising, these being from the Ontario Motor League and Ackerman's Sporting Guide, both of which were laid on the table. A motion was presented in regard to this matter by Councillors McKeel and Thompson, that all advertising matter be handed to the Industrial Committee for consideration and report, this being passed.

A letter was also read by the clerk from the town engineer, Robert Scott, stating that the relief work on Frank Street, Booth Street, and the Grand Road was now finished, and that the rate was ready to be fixed. On motion of Councillor Carr, seconded by Councillor A. D. Bennett, it was agreed that the assessment by-law be drawn up and presented to the next meeting.

The matter of the selling of the town's old weigh scales was brought up by Councillor Battisby. This was discussed, and motion of Councillors Thompson and Carr, it was left to the Parks Committee to investigate and report to the Council.

Councillor Long presented a motion that the road foreman, Robert Fox, be paid $100 a month for one year, this being a decrease in his salary. This was seconded by Councillor Battisby and carried.

Accounts to the amount of $1,047.02 were presented and passed.

Girl Guides Practice For Marmora Concert

MARMORA, March 3 (Examiner Correspondence).—Besides the usual routine at Thursday's meeting of Marmora Girl Guides, two games were played and the rest of the evening devoted to practice for the forthcoming concert.

The winners of the games were: rope game, Forget Me Not and Pimpernel patrols; Morse game, Lily of the Valley patrol.

Before the meeting closed, a story called, "A Score for the Swallows" a Guide story, was begun by Lieutenant E. Rice. Then "Taps" was sung and the Company dismissed.

For the future, meetings will be held on Monday instead of Thursday, the girls finding it hard to attend when the following day was examination day at school.

Mrs. Walter Moncrief Heads Ladies' Guild

EAST EMILY, March 3 (Examiner Correspondence)—The annual business meeting of the Ladies' Guild of St. James Church, East Emily, was held in the parish hall, Thursday, February 26, with the president, Mrs. Loyd Boate in the chair.

The treasurer, Miss Jean Franks gave an encouraging financial report of the past year's work.

The secretary, Mrs. Milton Clarke read a very interesting letter from Miss Greta Clark, missionary in Kaifing, China, in which she expressed her appreciation of the kindly interest manifested in her and her work in the mission field.

The following officers were elected for the ensuing year: president, Mrs. Walter Moncrief; 1st vice-president, Mrs. Loyd Boate; 2nd vice-president, Mrs. Wilbert Clarke; secretary, Mrs. Vincent Franks; treasurer, Miss Jean Franks; organist, Miss Marion Franks.

Arrangements were made for a play to be given by the Guild in the near future.

Refreshments were served at the close of the meeting.

World Day Of Prayer Observed In Madoc

MADOC, March 3 (Examiner Correspondence)—The World's Day of Prayer was observed in Madoc by a united meeting of the women of the W.M.S. of the congregations of St. Peter's Presbyterian Church, St. John's Anglican Church, and Trinity United Church, in St. Peter's Presbyterian Church.

Mrs. McCaffrey presided, and after a few words explaining the meaning to the world of the day of Prayer, the program which had been prepared by Miss Kathleen Walker McArthur, vice-president of the College of Churches of Christ in Canada, was used. Mrs. P. Gatley Reynolds, of St. John's Anglican Church, was the leader of the first part entitled, "Ye shall be my witnesses." The second part, "A witnessing church" was led by Mrs. S. S. Ashley, of Trinity United Church, and the last portion, "Witnessing in a new age," was in charge of Mrs. McCaffrey, president of St. Peter's Presbyterian W.M.S. Twelve women led in prayer. The collection from this service went towards providing Christian literature for women and children in many lands.

MADOC

The date for the Madoc Old Boys' Reunion has been fixed for August 1, 2, 3 and 4, at a special meeting of the Madoc Community Club held on Monday evening last.

Mrs. Malcolm, of Toronto, is the guest of her daughter, Mrs. McRae, for a few days.

On Monday, the funeral of the infant daughter, Joyce, of Mr. and Mrs. John Armstrong, was held from the family residence on St. Lawrence street.

TRENT RIVER

The many friends of Mr. Stanley Carnrite will regret to learn of his suffering from the effects of a fall on ice at his residence one day recently, resulting in injury to the spine.

Mrs. Cook, Sr., has returned from Round Lake where she spent the winter with relatives.

The Ladies' Aid of the United Church hold their ten cent tea Wednesday afternoon at the church. A program will be provided. The Ladies' Aid have been responsible for securing new books for the choir which were in use Sunday at the afternoon service.

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK

TORONTO, Ont., March 3. (CP)—The opening market on the Toronto exchange yesterday was very slow, with packers bidding .25 lower on butcher cattle. There were a few early sales on butchers making $5.50 to $6.00 with an odd lot at $6.25. Fed calves were steady at $7.50 to $8.00 for the best. Good butcher cows brought $4.00 to $4.25 with the odd lot of koshers higher.

Steers up to 1,050 lbs. good and choice, $5.75 to $6.25; mediuf, $5.25 to $5.75; common, $4.50 to $5.20; steers over 1,050 lbs., good and choice $6.25 to $6.50; medium $5.75 to $6.00; common, $5.00 to $5.50; Heifers, good and choice, $5.75 to $6.00; medium, $5.25 to $5.75; fed calves good and choice, $7.50 to $8.00; medium, $3.50 to $4.00; cows good, $4.00 to $4.50; medium, 3.50 to 4.00; common, $3.00 to $3.50; canners and cutters, $1.50 to $2.50; bulls, good, $3.75 to $4.25; common, $3.00 to $3.50; stocker and feeder steers; good, $5.00 to $5.25; common $4.25 to $4.75; stock cows and heifers, good; milkers and springers, $50.00 to $85.00.

Calf receipts 210. The bulk of good calves brought $8.50 to $9.00 with a few tips at $9.50. Common stock sold downward to $6.00. Good and choice veal, $8.50 to $9.50; common and medium, $6.00 to $8.00; grassers, $3.50 to $4.50.

Hog receipts 700. Hogs were unsettled with bids a_t from $6.40 to $6.60; off car for bacons.

Sheep receipts, 280. Lambs were steady at $9.00 for the best ewes and wethers. Western lambs made up the bulk of the supply. Culls and bucks brought 7.00. Top sheep made $5.50 with culls downward to $1.50.

Good ewe and wether lambs $9.00; medium, $8.00 to $8.50; bucks, $7.00; culls, $7.00; good light sheep, $3.00 to $5.50; heavies $4.50 to $5.00; culls $1.50 to $3.00.

MONTREAL PRODUCE

MONTREAL, March 3.—Butter and egg prices were lower, cheese quotations were higher and potato prices were unchanged on the produce and dairy market here yesterday.

Regraded Eastern Townships and fresh Western No. 1 butter, in carlots, lost ¼c at 31¾c a pound. Broken lots sold up to 32c a pound. To retailers solids were 34c a pound. To retailers solids were 34c and prints, 35c a pound. Receipts were 23 boxes.

On the egg market carlot prices were mainly lower. British Columbia fresh extras declined ½c at 31½c to 32c and first were unchanged at 28c to 28½c a dozen. Pullets were up ½c at 27½c to 28c. Ontario fresh extras and firsts were unchanged at 31c and 28c respectively and seconds lost 1c at 21c a dozen. Prairie fresh extras, en route, were quoted at 30½c, firsts at 27½c and seconds at 20½c a dozen. Storage eggs, in carlots, lost 1c, firsts being quoted at 18c and seconds at 16c a dozen. To retailers fresh seconds were off 1c at 24c a dozen. Receipts were 1,165 cases.

Winter colored cheese advanced ¼c at 14¾c to 15c a pound and winter white was quoted at 12c a pound. Receipts were 23 boxes.

New Brunswick Green Mountain potatoes, in carlots, were quoted at 75c per 90 pounds bulk and to retailers, 85c per 80-pound bag.

CHICAGO GRAIN.

CHICAGO, Mar. 3.— Bigger farm stocks of wheat than expected, and another increase of commercial visible supplies, with primary receipts persistently above noraml, pulled wheat prices downward yesterday. Monthly unofficial estimates indicated that forecasts of heavy use of wheat as live stock feed had been much exaggerated, and that 35,000,000 bushels more wheat than a year ago was now available in the United States. Assertions that Gulf of Mexico export sales of wheat by Government-sponsored agencies had been made at satisfactory prices in competition with Canadian wheat failed to act as a counterbalance.

Close Is Irregular.

Wheat closed irregular, 1c lower to ¼c advance; corn, ¼c to ¾c down; oats, unchanged to 5-8c off, and provisions showing a rise of 5c to 27c.

SMITH IN HOSPITAL.

OTTAWA, Ont., Mar. 3. — Alex Smith, star defence man of the Ottawa Senators, was operated on for appendicitis late last night and will be out of the game for the rest of the season. Smith was taken ill following the game against Black Hawks in Chicago on Sunday night and was rushed to the hospital after his return home here.

WINNIPEG GRAIN.

WINNIPEG, March 3. — Thinly supported, the wheat market went into reverse yesterday after advances of a cent had been stablishd at the end of the first hour. Liberal offerings accentuated the decline and values at the close were ¾ cent to 1¼ cent lower than Saturday's close.

Export business over the week-end and during the morning amounted to less than a quarter million bushels. Volume of trading was moderate, but mostly local in character with spreading operations confined to the various months.

Although demand for cash wheat was fair, trading was restricted to a few odd car lots at spreads fractionally better than Saturday. Coarse grain trading was fair, confined to various grades of oats and barley for domestic use. Values in the futures market moved within a narrow range:

Futures:

	Open	High	Low	Close	Prev. Close
Wheat—					
May	.59	.60¼	.58⅝	.58½	.59¼
July	.60¼	.61⅞	.60	.60	.60⅝
Oct.	.62⅝	.63⅞	.62¼	.62¼	.63¼
Oats—					
May	.30¼	.30⅝	.30¼	.30¼	.30½
July	.30½	.30⅝	.30	.30¼	.34¼

TUESDAY, MARCH 3, 1931

BE BUSINESSLIKE ABOUT IT.

With two months of the present year passed into history, warfare has now been declared upon motorists who have not yet taken the trouble to provide their automobiles with 1931 license markers.

Why the Department of Highways has let itself drift into this unbusinesslike method of giving car owners several months' grace each year in this matter of licenses is difficult to understand.

The markers are supposed to be carried from the first day of the year, and there is no reason other than a lackadaisical attitude on the part of the Department why that date should not be looked upon as the deadline.

Surely the new markers could be distributed throughout the Province in ample time for them to be issued before the new year, and a businesslike policy that no car should be driven after December 31 without the required license plates put into force by the Government.

Under the present system there are always those who will continue to use old markers until they feel that the danger point has been reached and any further delay will mean an appearance in police court.

THEY ARE ALL DANGEROUS.

The suggestion has been brought forward that some of the menace might be removed from level crossings were these danger points to be suitably marked by warning signs, graded into three classes, the first designating those crossings which because of their surroundings are considered most dangerous, the second marking crossings where conditions are better and the third merely signifying a railway crossing.

This scheme seems to ignore the very crux of the problem, which is simply that every grade crossing is dangerous.

Why try to classify them?

Why seek to set up the idea that some crossings are practically fool-proof, when even the least used spurline may carry death to the motorist who carelessly drives over a crossing thereon?

To The Examiner the attempt to differentiate between crossings is merely inviting disaster.

The Safety League and other bodies should instead concentrate their efforts upon educating the public that every crossing is dangerous and is to be approached with caution.

Better markings for railway crossings, by all means, but let them be uniform so that every driver will be warned in ample time to exercise the necessary care.

Nothing could be more foolish than a system that would give motorists the impression that some crossings were harmless and might be approached with no thought of danger.

MR. WOODSWORTH'S COMPLAINT.

Mr. Woodsworth, Labor member for Winnipeg North Centre, is quite excited because he says that the Canadian Government has declined to enter a wheat conference with Russia.

In the first place, it might not be amiss to point out that there has been no official offer from the Soviet to discuss the wheat situation, and, in the second, Mr. Woodsworth should know that the majority of Canadians have no faith in the willingness of the Russian Government to adhere to any agreement they might make either in regard to wheat or upon any other question.

Surely the experience of the British Government in its relations with the Soviet has been enough to convince even the Labor member from Winnipeg North Centre that the pledged word of Russia's rulers is not to be relied upon.

That staunch Canadian, Col. W. G. MacKendrick, says "Russia's suggestion re conferring about pegging the price of wheat is just as reliable as has been her conferring about paying her debts. The men who befooled Britain Labor rulers into believing that they would quit propaganda are utterly unreliable, and no good or profit can come of trying to do business with those who repudiate their debts and break their plighted word to the Motherland; no spoon is long enough for Premier Bennett to use in dealing with such pledge-breakers."

And that is a much more accurate sizing up of the situation than that made by Mr. Woodsworth, who declares that refusal to trade with Russia is "ignorant prejudice."

524 SLAIN BY MOTOR CARS.

According to figures issued by the Ontario Safety League, 524 people lost their lives in Ontario last year as the result of motor accidents.

The causes of these fatal accidents have been summarized by the league, and are deserving of earnest consideration not only by all drivers but by the public generally.

More deaths were caused, the table shows, by automobiles skidding or running off the highways than from any other cause, ninety-nine people being killed during 1930 by cars going into the ditch.

The next two most fruitful causes of traffic death were collisions between two motor vehicles and pedestrians being run down on city streets, each of these accounting for seventy-four fatalities.

In addition, sixty-seven other pedestrians walking on the highways were struck and killed, and forty-seven children playing on the street lost their lives in similar accidents.

Eight people who were hit getting on or off street cars increase the list.

Altogether out of the 524 slain by the automobile last year no fewer than 197 were not motorists, but were victims of the motor car—many of them indeed victims of careless or reckless driving.

Level crossings claimed the lives of thirty-seven Ontario people, while forty-six more were snuffed out in collisions between automobiles and other vehicles, a large proportion of these latter victims being undoubtedly occupants of horse-drawn vehicles whose names might be added to the list of the 197 non-motorists who were killed by motor cars.

The more a man gets left, the more he talks about his rights.—Chicago Daily News.

CUTTING MILLIONS FROM THE ESTIMATES.

What little news filters through from Parliament Hill tells that Premier Bennett is slashing the estimates, expects to cut by at least 20 per cent. the Dominion's controllable expenditure. If Mr. Bennett can do anything approaching that he will succeed in doing something that no other Prime Minister or Finance Minister has never been able to do in the history of the country.

A cut of 20 per cent. in controllable expenditure would mean a reduction of about $35,000,000. It would mean, further, that Mr. Bennett would escape the necessity of imposing that much extra taxation upon the country in his forthcoming budget.

Thirty-five million dollars looks like a lot of money to be stricken from the estimates. Yet anybody who knows anything about estimates knows that they are usually padded with items representing millions which could be cut out without the slightest permanent injury to the country. This, true of the past has been more than ever true during recent years. With the country growing and prospering, we got into the easy habit of building a post office in every village, almost at every country cross-road. We got into the habit, too, of thinking that it was the Government's duty to dig up cash and help out a multiplicity of things that had no more claim upon the national treasury than the maintenance of canals in Mars. The supplementary estimates, often, were an outrage.

It will take courage on Mr. Bennett's part to eliminate such items. But Mr. Bennett may well steel himself in the knowledge that the best elements in the country expect him to exhibit courage, are hoping that at this juncture he will impose the minimum of taxation. Certainly to go on with reckless expenditure at a time like the present, paying for the expenditure through taxation that would divert capital from its need for industry and development, would be to delay the recovery that the whole country is striving for.

Increased taxation is inevitable, inescapable. The country is in a mood to expect it. But what common sense dictates is that taxation, inevitable though it be, shall be as light as possible. And the only way to keep it light is for the Prime Minister to do what he is reported to be doing, namely: taking his courage in both hands and slashing expenditure heartily. It is a task in which he deserves the co-operation of the entire country.—Ottawa Journal.

MUCH ADO ABOUT NOTHING.

The governors of the University of Toronto, members of the Legislature and other Toronto greybeards are all "het up" because "Varsity," the student newspaper, recently published an editorial in which it contended that atheism and other forms of unbelief were rampant throughout the university, extending to the staff as well as to the undergraduate body. The governors have met in solemn conclave and equally solemnly condemned the editorial, while the leader of the Progressive group in the Legislature has called for an investigation into the whole affair. Moreover, the Toronto newspapers are publishing editorials on the subject, people are writing letters to them and everybody is thoroughly worked up.

All of which is, of course, exactly the effect that the boys who are running "Varsity" hoped would be the result of their little editorial. Be it known that there is nothing that gives greater delight to an undergraduate, especially one connected with a student newspaper, than to outrage his elders and to spread the impression that he is living in very sordid and naughty surroundings. If he can create such an impression in a sensational manner, leading to action on the part of the governors or the committee on morals and discipline, the better pleased he will be. The students on the staff of "Varsity" are probably in high glee that their plans have succeeded so well. To have the provincial leaders who sit on the Board of Governors of the university wholeheartedly condemn them is no mean achievement. To have the leader of one of the groups in the Legislature demand an investigation is even a greater achievement. There must be high times these nights in the "Varsity" sanctum.

When will the people who are periodically outraged by the outbursts of this or that student newspaper or this or that student society learn that the doings, the sayings and the writings of undergraduates are not to be taken seriously? For the governors solemnly to discuss their action and to condemn it, for the matter to be aired on the floor of the Legislature, is exactly what the undergraduates want. Poor though their joke may be, the action of the members of the staff of "Varsity" is not to be regarded in any other light, and people who are lying awake nights worrying about the morals or the religious beliefs of either the student body or the staff of the provincial university are simply wasting a great deal of time that might be put to much more profitable purpose.—Brockville Recorder and Times.

EDITORIAL NOTES AND COMMENT.

It is said that the sap run this spring will be light—but automobile accidents indicate that the usual crop of sap drivers is operating motor cars.

Times do change. Thus Mr. Burnham, who was once elected on a platform of no truck or trade with the Yankees, is now a champion of trade with Soviet Russia.

Surely the worst feature of the controversy over atheism has been reached in the Globe's declaration that "Varsity" has been "decapitated."

Four people were struck down in Toronto and vicinity over the week-end by hit-and-run drivers. An example should be made of motorists of that type if the offenders can be located.

A Toronto fan threw an open jack-knife at one of the officials in Saturday night's professional game. An individual like that should be placed where the only sporting event is a daily visit to the rock-pile.

Ontario collected $10,750,000 in gasoline taxes last year. It ought to be possible to build a lot of roads with that money.

Mr. Raskob, having denied that he ever was a Republican, has not yet explained how Who's Who in America happened to list him as one.—Detroit Free Press.

A radio engineer predicts the development of a new musical instrument capable of shattering the ears. May be a sort of super-saxophone.—Kitchener Record.

A Panama dispatch says the Prince of Wales spent most of one evening dancing with one girl. It is to be hoped that this is an exaggeration. Why not make a dozen girls happy instead of making one conceited?—London Advertiser.

The slogan for those who are interested in organizing a horticultural society should be, "My dollar to make my city more beautiful."—Oshawa Times.

The Red-Headed Goddess

By ALICE ROSS COLVER

(Continued from yesterday.)

In great excitement she rushed to meet him, to find that he too, was filled with news, and in their discussion of it, and their joy at his discovery and her capture of the sheep, their self-consciousness of the morning was forgotten.

He had not, it seemed, killed any game, nor had he found a way out of the canyon, but he had, during the course of his wanderings that day, come upon another cove similar to this one, which, to his amazement, was under cultivation. Here there were little patches of melons, of beans, of corn, and a tiny orchard of peach trees. He tumbled a goodly supply of the vegetables and fruit onto the ground at her feet to prove his words, having carried them home in his shirt slung like a sack on his back.

"Indians!" he explained excitedly. "Indians, of course! They are the only ones that live down here. And these are their sheep! They probably let them run wild except when they want the wool or some meat. I saw their moccasined tracks, Lorraine. I didn't have time to follow them, it was getting so late, and the place is so far from here—five miles at least. But we will follow them. We will find them. Tomorrow! Oh, Lorraine! If we can find those Indians—" He flung both arms wide and shook clenched fists in the air. "If we can find those Indians, my dear—"

His look finished for him what he could not say, and beneath it Lorraine's heart plunged down, with a feeling of panic curiously combined of joy and fear. If they could find those Indians—what? Help? Friendliness? A way back to civilization? Life, real life, with Dirk? Possible. But her father's words came back to mind, a haunting fear, a shadow that she could not bear to cast on Dirk's happiness, and, in that moment, this pastoral, this idyll they had been living became unbearably precious. She did not want it to end.

"I'm being silly," she told herself sensibly, as aloud she agreed with him that this was an occasion deserving of a celebration. So he strode to his shelter and returned in a moment, with his half packet of cigarettes, cherished, up to this moment, as carefully as his life. In a solemn, grave kind of jubiliation, they each lit one, and smoked it to its last fraction of an inch.

"Now," said Dirk, rising at the end of that ceremony, "I will build a fence across the opening at the other end of the cove, which, if you will allow me to say so, is a more economical procedure than trying to build a barn."

"Dirk! Of course! How stupid of me. But please put your shirt and your coat on. It's cold and dark, and you mustn't catch cold. Dirk, do you ever stop to listen to our conversation? It's too funny, really." She tipped back her head and laughed with him, her lids drooping to hide her eyes, deep with a sweet, mysterious regret. "And now, while you're doing the fence, I'll fix supper," she went on gaily, "a real supper, Dirk! Beans, corn, and oh,—fruit for desert!"

CHAPTER IX
DISASTER

As soon as the first sunlight touched the upper edges of their little Paradise, Lorraine and Dirk were up busily getting breakfast and making plans for the day. They decided, in view of their uncertainty of locating at once the place where the Indians dwelt, and in view of the possible hostility they might encounter, to make today's journey more of a reconnoitering trip than a final departure. They would, therefore, leave a supply of wood ready for their probable late return, and they would leave all their food—the melons, beans and corn—hung up in an improvised sack in a tree, where it would be safe from the continuous appetites of the sheep, and fairly safe from all but the marauding squirrels. For their own lunch they thought they could rely on picking up berries and nuts, to which they were accustomed, along the way, and water they believed they were certain of finding, as they intended to follow the course of the stream along the canyon. For their own protection, they decided to take Dirk's heavy cudgel and the little slingshots with a supply of stones in their pockets. Thus lightly equipped, they figured that they could make rapid progress.

Dirk was as eager and impatient as a boy.

"I can smell home!" he laughed, and catching her hand he raced with her across the sunlit space of meadow to the rude little fence he had constructed the night before. Here they paused for a moment.

"Can you climb over without knocking it down? Wait! Don't let's take a chance of a delay. It's too rickety and we don't want to chase Pearl and Mother-of-Pearl. I'll lift you."

So saying, Dirk put his hands under her arms; Lorraine gave a little spring and in a second she had landed on the rocky, uneven path on the other side.

"Now I'll jump it," said Dirk, tossing his cudgel over to her, and running backwards to get a little start. "I could jump over the sun this morning! Whoopeee!"

His long, lean figure shot toward her, rose easily into the air and cleared the fence without apparent effort, but, as he landed beside her, a stone beneath his foot turned, sending him crashing to the ground with his head against the sharp-toothed cudgel. For a dazed moment Lorraine stared at his inert figure, then, with a cry of alarm, she sprang to him and turned him over. His eyes were open, but his face was set in pain, and blood poured from a nasty cut on his forehead.

"What daum luck!" he groaned.

"Oh, Dirk!" the girl cried. "For a moment I thought you were killed!" She caught his head close to her in a fever of emotion, but at sight of his wound she controlled herself and, aghast at its appearance, she began sopping it with her handkerchief.

"The dirt's ground in," she murmured. "Oh! Oh! And the edges are so ragged—"

"Never mind that. It's nothing. My foot, that's what hurts. Can you pull off my shoe, Lorraine?"

He propped himself up on one elbow and gazed miserably at his ankle. "I guess we don't find our friends and neighbors today, Lorraine. Look at the darn thing swell."

But she was already looking, with eyes of pity and horror, as she moved to work his shabby pump gently from his injured foot.

"Do you think you've broken any bones, Dirk?"

"I don't know. I feel as though I'd broken them all."

She probed the swollen limb with light fingers but was not experienced enough to make any diagnosis.

"Anyway it'll lay you up for a week I'm afraid."

"A week! I'll be lucky if I can move around in a week. I've torn ligaments before. Hell, Lorraine, what an ass I was to take a chance."

But she laid a cool, decisive hand over his mouth, refusing to let him reproach himself.

"I'm just glad it didn't happen farther from home than this. And that I caught the sheep yesterday. Why, Dirk! We have food enough for months, and clothing too. There's nothing to worry about."

He laughed shortly.

"I'm not worrying. I'm raging. Give me a hand up, will you?"

"You're ankle may feel the worst, but your head certainly looks it," she said, steadying him, as he stood on one foot. "And when we get back to camp I'm going to give it a grand washing. It's—"

"—not so good, eh?" Dirk's smile was a grimace as he tried to manoevre the step or two to the fence. And when they actually did get back to camp, he was so exhausted, by the effort and the pain and the loss of blood, that when he sat down on the bank of the brook to plunge his foot into the icy water, in order to reduce the swelling, he quietly fell over in a faint and lay sprawled on the ground. This alarmed the girl frightfully, and, by the time he had recovered consciousness, she thought it best to get him into his shelter and onto his bed before anything more happened. Once there, she tightly bound up his ankle with strips of his evening shirt, and then at last turned her attention to the gash in his head

Its looks disturbed her more than she would reveal, so, after washing it out to the best of her ability with cold water, she went outside to build a fire and procure some boiling water, in lieu of a disinfectant. While she was waiting for this, she sprang across the brook and ran into the meadow, where the grass was knee deep, and pulled great armfuls of it which she scattered in the sunshine to dry, as extra covering for Dirk during his period of enforced inactivity. By this time the water was ready, so she returned with it to Dirk and knelt down by his side.

"You're going to have to do everything around camp, besides taking care of me." His tone was bitter with self-reproach.

"It's going to be just enough work to keep me out of mischief," she retorted lightly. "Besides—think of the power it puts in my hands! You helpless. Myself, the Big Boss! Oh, but you'll have to be good!"

"And you'll have to be sure not to abuse your power."

"If I can take as good care of you as you've taken of me—" She broke off, tremulous in spite of herself, and became briskly professional. "Dirk, I'm going to wash out this place every hour. I don't like the looks of it."

"I shall never complain of the touch of your hands, my dear," he replied in a low voice, and, turning his head he swept a swift kiss across her palm.

FELLOWSHIP OF PRAYER

DAILY LENTEN DEVOTION

PREPARED BY THE REV. CLARENCE H. WILSON, D.D. FOR THE COMMISSION ON EVANGELISM OF THE FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA

HOLY HOURS

"And when they were awake, they saw his glory."—Luke 9:32. (Read Luke 9:28-36.)

MEDITATION

Mountain tops are never crowded. There is nothing to do there but look. Our holy hours are found high up, away from the throng, isolated from our common tasks. Then the mind is free to become receptive. There is nothing to do but look. In our busy life we need these retreats in the company of a few kindred spirits in order that we may become aware of our higher relationships. Only Luke gives us the incident of the disciples' sleeping. And what a place for their awaking! Then they saw what they had never seen before. If we were truly awake, might we not also see what we have been missing? If we would climb to where mere things do not obstruct the view, we too might catch glimpses of glory never seen in the thick of life's affairs.

THE REV CLARENCE H. WILSON, D.D.

LTwZFT

Our Father, wilt Thou guide us to the places where we may see life transfigured? Comfort us, we pray Thee, with renewed assurance that the great spirits of the past are of our company. Amen.

It was queer, she mused, as she went outside, how this accident to Dirk had made them feel safe again, permitted them to lower the bars of their restraint, and give some little expression of their love. Every cloud certainly had its silver lining. Even their shipwreck, terrible as it had been, had afforded them the opportunity of struggling shoulder to shoulder through danger and difficulties. It was what she had always wanted. It was what Dirk might have always prevented her from doing, but if she could show him, in this experience, that she was able to do her part, their happiness for the whole future was assured. He would be willing, after this, not only to let her divide the safety of his life but the risk of it as well.

Her reveries were interrupted by the discovery that the sheep were nibbling her precious gatherings of grass, and, when she had chased them away and turned it over in the sun, it was time to bathe Dirk's wound again. All day she faithfully washed his cut, but, in spite of her efforts, by noontime the ragged edges were swollen and angry looking, and Dirk's face was slightly flushed with fever. When she went in to him after lunch, she found him asleep, and she debated for some moments whether or not it would be best to waken him, but she finally decided to let Nature take its course and left him undisturbed.

For the next four or five hours she busied herself about camp, too concerned over Dirk's condition to give much thought to anything else, until the persistent bleating of little Pearl finally caught her attention. It was then she discovered that Mother-of-Pearl was gone. Puzzled, but not greatly alarmed because the fence was still rebuilt, as she had left it after helping Dirk through, she found occupation in searching for the lamb's mother, and her discovery of the sheep's hiding place gave her such excitement that when Dirk at last gave a call for her she was too filled with the news she had to impart to be anxious about him for the first few moments. She hurried to his shelter and dropped down beside him speaking breathlessly.

"Dirk! What do you think! Mother-of-Pearl disappeared! I hunted and hunted, I was sure she hadn't jumped the fence. And where do you suppose she was? Dirk, guess!" She leaned toward him, her brown eyes ablaze. "Mother-of-Pearl has found a new path up to the desert!"

"What!" Dirk roused himself at that and lifted heavy eyes to the girl's excited face. She nodded in elation.

(To be continued)

What To-day Means To You

"PISCES"

If March 3rd is your birthday, the best hours for you on this date are from 9:15 a.m. to 10:30 a.m., from 3 p.m. to 5:15 p.m. and from 8 p.m. to 9 p.m. The danger periods are from 8 a.m. to 9 a.m. and from 6 p.m. to 7:30 p.m.

March 3rd is, according to the planetary aspects, a good day for attending to correspondence, and the arrangement of social matters. Financial loss is threatened if speculation or investments are made. Trouble may be anticipated at home either through opposition or uncongenial conditions.

A child born on this March 3rd will have a combative spirit, and, though easily led, will never be driven. It will have a strong will and a commanding personality. If not browbeaten, it will achieve maturity with an unconquerable ambition to succeed—and, probably, will do so.

If you were born on March 3rd, you are very energetic and industrious. You not only do what is expected of you—but always a little bit more. You never grudge the extra effort or the extra time that is often inconveniently asked of you. You always realize that in life it is the little extra bit that counts. This desire to do so much makes up, in a large measure, for what you are lacking in knowledge and learning. Your memory is, unfortunately, not a very retentive one, and this factor has handicapped you in all your studies.

You are not visionary. On the other hand, you are intensely practical. Common sense, in your case, has to serve as a substitute for intellectuality. You are, in addition, a keen judge of "humans," and can analyze their motives, thereby often avoiding the pitfalls that cause trouble to others. You are a fairly good conversationalist, and a good "mixer." You never put on airs, and make many friends by your non-pretentious manners and your candour. Your horoscope indicates a fair amount of success, achieved as a result of hard work and painstaking endeavor.

Loyalty to your family and home will always be one of your outstanding virtues and, never flirtatious or changeable in your affections, your home life promises contentment, happy companionship, and enduring peace.

Voice of the People

Letters to be printed in the "Voice of the People" column must be received at The Examiner office on the day before it is desired to have them inserted

ANSWERS MAYOR DENNE

To The Examiner:

Dear Mr. Editor.—The Worthy Mayor takes issue at the County Council passing a resolution to request the Government to slow up on construction (not maintenance) of the Highway running east from the City through the County. The City did not consult the County prior to sending deputations to Toronto to request the Government to relieve the City of any payment towards Provincial or Sub-Area roads, although he says the County should have consulted the City with regard to their action before such was taken. It it were declared that all City autos confine their driving to the City streets, the market would be glutted with autos for sale on the following Saturday, for 95 per cent of such driving is done on roads outside of the City. True the City now pays half a mill towards Sub-Area roads, but the Villages and the Townships pay three mills towards County and Sub-Area roads and have paid an equal amount toward Provincial highways, to what the City paid, save one year, the County paid $13,000.00 more.

He draws attention to the fact that such roads draw trade to the City and divert tourist traffic this way. But what about the Villages that are contributing so much towards those roads that are drawing so much to the City. Sometimes a runt that appears in a litter of pigs is snuffed out because he would only be tramped to death by the stronger ones, but it will not be necessary to act so rashly with the poor little Villages, for in the not-far-distant future the only sign of activity in such Villages will be the odd retired farmer sitting on his gate post awaiting the BIG BUS at 8 a.m. to take him up to the City to do his buying.

With regard to the present road: has the City got the right idea of what it will cost the City? As the Act now stands on Boundary roads between two Municipalities, as this road is, the Urban Municipality pays half of the cost of construction and subsequent maintenance, the Government pays 60%, the County 20%, and the City 20% of the other half; so you see the City pays half to start with all along Lansdowne street and on out to Mr. J. T. O'Connell's farm in Otonabee including the Lock's Bridge. But the Mayor intimates that the Government will hearken unto the City, and would it be possible that the City would pray to be relieved of the first half referred to; but the County is not trembling much judging by the fair and decisive manner that he, the Hon. Mr. Henry, has answered all such deputations that have been besieging him from the cities (Peterborough included), during the last month with regard to being relieved of all expense on Provincial and Sub-Area roads.

You will have to approach the farmers with stronger arguments to make them believe that they are getting rich paying for elaborate Provincial highways and knowing the great cry the Cities put up when asked to pay anything towards said roads.

The farmers are well aware that prior to the appearance of those elaborate roads numerous farms in the County sold from 80 to 126 dollars per acre and at the present time one-half cannot be obtained; in fact, buyers are practically an unknown quantity.

The anxiety of the Mayor is appreciated and say to him "Cheer up," for we know his big heart is throbbing in anticipation of his day dreams being realized in a "BIGGER PETERBOROUGH."

If you compare the budget of the City with the budgets of the Townships adjacent to the City, you will find that the rural ratepayers are paying a higher rate and a greater amount per capita for the upkeep of the roads and bridges than the amount paid by the City ratepayers for the upkeep of their streets and bridges.

Yours sincerely,
ED. M. ELLIOTT.

IDLENESS BREEDS VICE.

To the Editor of The Examiner,
Dear sir:

Since Mr. W. Howard has taken the trouble to reply to my letter re Unemployment Insurance, which appeared in your paper on the 21st instant, I would like that gentleman to read my letter again.

I said that if the amount of money had been spent in making work instead of keeping men out of work as it is doing, that country would be in a better position than it is at present.

Mr. Howard states that the most likely antagonists are those who have never experienced unemployment.

I have experienced unemployment at one time for a period of eighteen months so I should know a little about it. Certainly we realized that something has to be done to aid the present distress but I believe that there are better ways than unemployment insurance. Could not this money be spent on construction work, anything at all to keep a man occupied. For it is well known that idleness breeds vice and we have plenty of that now.

Mr. Howard reminds me that David Lloyd George sponsored this policy in the Old Country and Stanley Baldwin and Ramsay MacDonald endorsed it. None of these gentlemen have ever made claims to infallibility; and I firmly believe that if there were any way to dispose of this policy, they would dispose of it more quickly than they endorsed it.

Trusting Mr. Howard will give my first letter another perusal and thanking you for your valuable space, Mr. Editor, I remain,

Yours sincerely,
MAURICE J. McCARTHY.

300 FACING TRIAL.

MADRID, March 3 (C.P.).—More than 300 persons, accused of having taken part in the unsuccessful revolutionary attempts of last December, will be brought to trial during the last two weeks of March, it was announced to-day.

One group, composed of those who signed a revolutionary manifesto proclaiming a Spanish republic, will be tried before the Supreme Court for the army and navy.

CANDIDATE FOR GOVERNOR.

CAMDEN, N.J., March 3 (C.P.).—David Baird, Jr., of Camden, to-day announced his candidacy for the Republican nomination for Governor of New Jersey.

Mr. Baird was United States Senator by appointment during the interval between Senator Walter Edge's resignation and the election of Dwight W. Morrow.

ST. THOMAS' BILL APPROVED.

TORONTO, Ont., Mar. 3.—(C.P.)—A bill respecting the city of St. Thomas was approved in the Private Bills committee of the Legislature to-day. It will enable the city to establish a gas commission and authorize the issue of debentures for certain improvements.

Where time is money

BUSY executives have proved the advantage and wisdom of having all their Insurance placed with one Company.

It is a saving in time. In the event of claims arising one agent can successfully handle every item. One enquiry over your telephone will put you in immediate touch with details regarding your policies without recourse to several agencies or companies.

Any agent of "The Dominion" can give you a complete picture of your insurance needs and suggest policies to cover all.

The Dominion of Canada General Insurance Company offers complete protection in—

Fire, Life, Accident and Sickness, Automobile, Guarantee Bonds, Burglary, Plate Glass

THE Dominion of Canada GENERAL Insurance Company

An All-Canadian Company writing all forms of Insurance for Protection of Canadians

PIVOT STOCKS HOLD STEADY AT NEW YORK

But Utilities and Several Industrials Under Considerable Pressure.

PRICE TREND LOWER.

Traders Rather Apprehensive Over To-morrow's Weekly Steel Trade Reviews.

NEW YORK, N.Y., March 3 (C.P.)—The stock market was a pale and unimpressive affair to-day.

Speculative enthusiasm appeared to have been squelched by the sharp decline of the previous session, but bears as well as bulls were cautious. Price trends were in the main lower, but changes were narrow, and principal shares held fairly steady.

Traders were rather apprehensive over to-morrow's weekly steel trade reviews.

Utilities, amusements, chemicals and several industrial specialties were under considerable pressure.

North American, United Carbon, Columbia Carbon, Purity Baking, Western Union, Case, Johns Manville, Remington Rand, and Montgomery Ward were among issues losing 2 to 2 points. Losses of a point or so were numerous, embracing such issues as U. S. Steel, General Electric, American Telephone, Radio Corp., Warner Brothers, Paramount, Baltimore and Ohio, American Water Works, and National Power and Light.

Dividend omissions by Remington Rand and United Carbon were responsible for selling of those issues, while Johns Manville's report showing 1930 net of only $3.66 a share against $8.00 in 1929, brought some selling into that issue.

Credit conditions were still a little firmer, with the month-end settlements taking up the slack in the call loan market.

MINOR CHANGES ON MINE MARKET

Bulk of Issues Hold Around Last Night's Closing Levels To-day.

MINING CORPORATION UP.

TORONTO, Ont., March 3. (CP)—Only minor price changes appeared in a dull forenoon session on the mining market to-day, bulk of issues holding around last night's closing levels when taken at midday.

International Nickel, Noranda and Hudson Bay registered small recoveries and Sherritt Gordon sold up 3 at $1.18. Balance of the Lindsleys were steady. White Lake dropped a couple to 20 while Amulet sold up a fraction at 37½.

Mining Corp. was up 5 to $2.25 on reports of further favorable drilling results at the Ashley property in Matachewan. Siscoe regained a cent to 45, but Granada was off 3 to $1.75, and Teck Hughes and McIntyre a few cents a piece.

Nordon opened soft but recovered to stand off a cent at 46 at noon. Acme was slightly firmer, Chemical Research steady and Petrol off a cent or so to 27.

Trades Disputes Bill Withdrawn From House

LONDON, March 3 (Wireless to the Canadian Press, via Central News).—The question of relations between the Labor Government and the Liberals holding the balance of power in the House of Commons again came to the fore when the Government withdrew the Trades Disputes Bill from Parliament to-day. Through the action of the Liberals and Conservatives who combined to defeat Labor in standing committee, and thereby effected an important amendment to the bill. The bill had been rendered practically useless for the purpose it was intended for.

B.C. WILL ATTEND PARLEY.

VICTORIA, B.C., March 3.—British Columbia will be represented at the Dominion-Provincial Conference to open at Ottawa on April 7, it was stated here by Premier S. F. Tolmie, after setting of the date by the Ottawa ministry. All Provinces will be represented at the gatherings which it is unofficially understood will discuss a wide range of subjects, including Dominion and Provincial rights in taxation, development of Canada' snorthern lands and possibly revision of the British North America Act.

HOSPITAL LAUNDRY BURNED.

ROBERVAL, Que., March 3 (C.P.)—A building housing the laundry of the Hotel Dieu was destroyed by fire here to-day with an estimated loss of $10,000, half of which is covered by insurance. The loss included the damage to the machinery caused by water. The main building of the hospital was not damaged.

QUEEN'S PARK IN DRAW.

GLASGOW, Scotland, Mar. 3.—(Canadian Press Cable.)—Queen's Park and Aberdeen played a two-all draw in a Scottish Soccer League First Division, fixture to-day at Hampden Park.

MINING BRIEFS.

TORONTO, Ont., Mar. 3. (Special to Examiner.)—Nordon and Mining Corporation provided about the only interesting action on the mining market to-day, balance of the list moving irregularly in dull turnover. Nordon sold off at the opening but recovered towards noon when renewed buying appeared, the prospect of the stock being listed on the Los Angeles exchange still receiving bulk of the credit for current activity.

The street is awaiting additional official information on results of drilling on the Ashley property of Mining Corporation in the Matachewan area. In the meantime, visitors from the north report the ninth hole has been completed and gives a length of over 900 feet on the vein. The property is said to be a scene of bustling activity with machinery and supplies coming through in regular deliveries.

According to local gossip Acme Gas and Oil whose annual general meeting of shareholders will be held on March 11, is slated for a reorganization of some kind. A change in directorate is mentioned as a possible outcome of the forthcoming gathering.

Interests close to the company report there is nothing particularly new in the affairs of Central Patricia, which yesterday was one of the most active stocks on the board. Officials are planning a capital reorganization and refinancing and efforts in this direction are expected to get under way in the comparatively near future.

The annual report for the year 1930 of Falconbridge Nickel mines is expected to appear in the course of the next few weeks. The company still is operating steadily with production around 300 tons per day. During the shut-down period changes were made in the furnace which will permit a substantial increase in production with only a slight rearrangement of equipment.

Wider distribution of the shares of the Moss Gold Mines Ltd., operating a gold property in the Thunder Bay District, north West Ontario, is being effected through recent listing on the Montreal curb market. Through present financing arrangements, the company will ultimately receive about $500,000 to finance erection of a mill and further development.

Smelters Advance 5½ Points At Montreal

MONTREAL, Que., March 3. (CP)—Smelters had surged up 5½ points to 181½ by noon to-day on the Montreal Stock Exchange, while Viau Biscuit showed a three-point gain at 23 after selling as high as 23½ in early trading.

Atlantic Sugar was up ½ at 32½, Brazilian was up 5-8 at 25¾, and Nickel was unchanged at 18¾. Steel of Canada lost ½ at 38½, McColl Frontenac was off 5-8 at 19¼, and Canadian Pacific was down ¼ at 42¾.

A. B. C. LEADERS

(Continued from page one)

The two indictments therefore, are now directed at individuals only. No companies or organizations are on trial.

Mr. O'Connor made a reqquest for an adjournment on the ground that Belyea and Weinraub, who had previously been represented by him and Mr. Singer as counsel, were not now so represented and were without counsel. Mr. Justice Wright said that there had been plenty of time to arrange that and left the matter with prosecution counsel, who demanded that the trial of the leaders proceed.

O'Connor Defends Self.

It was so ordered, and after a conference between defence counsel it was announced that Mr. O'Connor would defend himself, Mr. Singer would defend himself, Belyea and Weinraub, and Major James H. Clark would defend Paddon and Ward, in the non-jury case. The accused in this case elected non-jury trial. The accused on the second indictment elected jury trial with Major Clark as defence counsel.

All the accused pleaded not guilty to the charges as read to them.

After these preliminaries had been disposed of, Mr. Singer asked Mr. Justice Wright for a recess until two o'clock this afternoon so that he might have time with other counsel to examine the indictment. He said the defence had never ben able to determine whether they were charged as members of the Guild or not, and he wished to study the indictment to clear up this point. This was granted.

L'Heureux's Name Dropped.

Edward J. L'Heureux, vice-president and general manager of the L'Heureux Plumbing and Heating Company, was among those remanded for trial in the preliminary hearing, but his name was dropped from the list before the indictment was placed before the grand jury.

Included in the second charge of conspiracy, which are to be heard after the alleged leaders have been tried are: Alexander White, Arthur Cook, Herbert Pargnell, Albert J. Brian, John T. Collins, B. E. Service, F. W. Burford, Frank J. Tanaley, J. E. Murphy, J. R. Lynn, H. W. Cunningham. The other three named in the preliminary hearing were not indicted by the Grand Jury as indicated above.

THIRD LANARK BEATEN

GLASGOW, Scotland, March 3.—(C.P.)—In a replayed match from the fourth round of the Scottish Football Association Cup competition to-day St. Mirren defeated Third Lanark by three goals to nil. The match was played at Paisley.

BUTCHER STEERS IN GOOD DEMAND

Load of Choice Steers Brings $7.40 on Toronto Live-stock Exchange.

BETTER COWS STEADY.

TORONTO, Ont., March 3. (CP)—Trade continued slow to-day. Good butchers and heavy steers are in demand. The bulk of the offering is common to medium in quality. One load of choice 1,300 pound steers brought $7.40. Light butchers sold mostly at $5.25 to $5.75 with odd tops. At $6.50 cows were steady at $4.00 to $4.25 for the best. Good to choice fed calves brought $7.50 to $8.50. Milkers and springers are not wanted.

Quotations—Steers up to 1,500 lbs., good and choice, $5.75 to $6.25, medium, $5.25 to $5.75, common, $4.50 to $5.00, steers over 1,050 lbs., good and choice, $6.25 to $6.50, medium, $5.75 to $6.00, common, $5.00 to $5.50, heifers, good and choice, $5.50, to $6.00, medium, $5.25 to $5.75, common $4.50 to $5.00, fed calves, good and choice, $7.50 to $8.00, medium, $6.50 to $7.25, cows, good, $4.00 to $4.50, medium, $3.50 to $4.00, common, $3.00 to $3.50, canners and cutters, $1.50 to $2.50, bulls, good, $3.75 to $4.25, common, $2.50 to $3.25; stocker and feeder steers, good, $5.00 to $5.25; common, $4.25 to $4.75; stock cows and heifers good. Milkers and springers, $50.00 to $80.00.

Calf receipts, 400.

The market was weak. Most good vealers brought $8.00 to $8.50 with odd tops at $9.00. Common tock sold downward to $6.00.

Quotations—Good and choice veal, $8.00 to $9.00, common and medium, $5.50 to $7.50, grassers, $3.00 to $4.50.

LIQUOR ISSUES ARE UNCHANGED

Early Dealings on Toronto Exchange Marked With High Degree of Irregularity.

IN LISTED STOCKS FIRM.

TORONTO, Ont., March 3, (CP)—Stocks made little progress one way or the other on the Toronto Stock Exchange during the forenoon to-day. Early dealings were marked with a high degree of irregularity, but nearing noon the list leveled off and a firmness predominated.

Toronto Elevators continued to strive for higher levels and near noon the issue touched a new high for the current year of 15.

Oils were generally weak early in the day but like the rest of the list were fir around noon. Steels were fractionally higher. Liquor issues were practically unchanged.

Interlisted stocks followed the lead of New York and all issues hardened after reactionary tendencies prevailed through out the first hour or so.

Among those to register losses to any degree were Goodyear Tire common off 2 points to 103, Rogers Majestic off ¾ to 15, Service Stations a like amount to 34¼ while C.P.R. and Canada Cement dropped fractions.

Cutter Sent To Aid Disabled Freighter

NEW YORK, N.Y., March 3 (C.P.).—A coastguard cutter arrived alongside the disabled Shipping Board freighter Seminole off Cape Henry, Virginia, to-day, and awaited favorable weather to tow the vessel to Hampton Road, the Shipping Board office here was informed.

Messages said the No. 4 piston rod of the Seminole was broken off.

The Seminole, under charter to the Roosevelt Line, left here last Friday with a general cargo for Australian ports by way of Port Arthur, Texas.

Four-Year-Old Child Reunited With Parents

TORONTO, Ont., March 3 (C.P.).—Four-year-old Elsie Wylie was reunited with her parents to-day after travelling alone from Belfast to Toronto. Because of a misunderstanding as to the time of the train's arrival, her father was not at the station last night, but when he saw the child's photograph in the newspapers this morning he went to the Children's Aid Shelter, where the child spent the night, and took her away.

FOREIGN EXCHANGE.

NEW YORK, N.Y., March 3, (CP)—Prime mercantile paper 2⅛-2¼ per cent.

Foreign exchange easier, demand rates (Great Britain in dollars, others in cents): Great Britain 4.85⅛, France 3.91 11-16, Italy 5.23½, Germany 23.75½, Canadian dollar at par.

FARMERS PROTEST 100 PER CENT. POOL.

KILLARNEY, Man., March 3.—More than 500 farmers of this district, many of them wheat pool members, have entered protest to Premier John Bracken against establishment of a 100 per cent. pool. Meeting here, farmers voted almost unanimously against the plan and refused to allow R. F. Chapman, director of the Manitoba Wheat Pool, to speak to the gathering.

CONTRACTS LET IN HAMILTON.

HAMILTON, Ont., March 3 (C.P.).—The Piggott Construction Company which has the contract for the erection of the addition to the Royal Connaught Hotel here, to-day awarded to the Hamilton Bridge Company the contract for structural steel required for this job, the order amounting to $80,000. A few days ago the Bridge Company secured orders from the T. H. and B. Railway Company for $400,000 worth of steel required for the grade separation scheme here and $60,000 worth of structural steel for the Canadian Industries, Ltd., plant extension.

AUTO KILLS LAD LYING ON STREET

VANCOUVER, B.C., March 3 (C.P.)—Hudson Ryrie, 9, was instantly killed yesterday when he was struck down by an automobile allegedly driven by Farquhar Macrae. It was stated the boy was lying in the street peering down a sewer manhole for a lost marble when the accident occurred.

Macrae rushed the victim to the hospital where he was found to be dead. A technical charge of manslaughter was placed against Macrae and he was released on $5,000 bail.

BROKERS' DEALS RAISE TROUBLE

Fraud Charged in Warrant Sworn Out For C. A. Foulger of London.

OFFICIALS IN OKLAHOMA.

LONDON, Ont., Mar. 3.—The first of an expected avalanche of complaints against the operation in oil royalties of C. A. Foulger and Sons, stock brokers, of this city, was received by Inspector H. Gardner early today.

The latest complaint is a well known London businessman, who alleges that he paid $1,000 for royalties, which he never received. He came forward with this information after publicity was given the case of an elderly Simcoe, district farmer, who claims to have been swindled out of $500 by the London brokers.

Late yesterday local Provincial Police officers visited the office formerly occupied by Foulger and Sons. They found it empty of all records or books, and learned that it has been vacant for almost a month. Officials of the brokerage had left for Oklahoma, the officers were told.

A warrant was sworn out yesterday for the arrest of C. A. Foulger, supposed to be the President of the firm. He is charged with fraud by John A. Gehrig, of Lyndoch, near Simcoe, in the sale of $500 in "deeded oil royalties". Legal officials stated that the broker could not be extradited from the United States, if he is there, on such a charge.

Wright and Guest Will Not Contest At Henley

TORONTO, Ont., March 3 (C.P.)—Jack Guest, of the Don Rowing Club, will not defend the Diamond Sculls, emblematic of the world's single sculls supremacy, at the Royal Henley regatta next summer. In making this announcement to-day, Guest confirmed an impression that had been abroad for some time.

Joe Wright, Jr., of the Toronto Argonauts, winner of the Diamond Sculls in 1928, also has announced he will not go to Henley this year. Canada's hope, therefore, lies with Bobby Pearce, former Australian, now residing in Hamilton, Ont., who has been in training for some time preparing himself for the English classic. Pearce won the Olympic title in 1928.

THIS IS WHAT HAPPENS WHEN TRUCKS DON'T OBEY THE LAW!

Official WARNING

The Law Says:

ONTARIO

The Highway Traffic Act declares that during March and April on roads, both paved and unpaved, outside cities and towns:

Solid tired trucks and trailers shall be limted to *half a load.*

Pneumatic tired trucks and trailers, with a carrying capacity exceeding three tons, shall be limited to *half a load.*

Horse drawn vehicles with a carrying capacity exceeding one ton *shall be limited to 250 lbs. per inch in width of tire.*

Heavy Penalties:

The penalty for overloading during March and April is a fine, imprisonment or both. Licenses also may be suspended. Highway Traffic Officers have been directed to be especially vigilant in apprehending all who disobey.

Caution:

Speed limits all the year round are 15 miles an hour for solid tired vehicles and 20 miles an hour for pneumatic tired vehicles of more than 8 tons gross.

Ontario's Millions Invested in Good Roads Must be Protected. We ask the co-operation of every truck owner and driver.

Ontario Department of Highways

Cold in Head, Chest or Throat?

RUB Musterole well into your chest and throat—almost instantly you feel easier. Repeat the Musterole-rub *once an hour for five hours* . . . what a glorious relief!

Those good old-fashioned cold remedies—oil of mustard, menthol, camphor—are mixed with other valuable ingredients in Musterole to make it what doctors call a *"counter-irritant"* because it gets action and is not just a salve.

It penetrates and stimulates blood circulation and helps to draw out infection and pain. Used by millions for 20 years. Recommended by many doctors and nurses. Keep Musterole handy—jars, tubes. All druggists.

Wins First Prize AS SKINNIEST MAN

It's just as dangerous to be too thin as too fat—and there's just one logical way to put on flesh where flesh is needed.

No man wants a prize for being the skinniest man in town—not even a purse of gold.

For years McCoy's Cod Liver Extract Tablets have been helping people who are willing to be helped to gain needed flesh and while doing so gain in vigor, strength and physical attractiveness.

It's a great tonic tablet is McCoy's—small—sugar coated—easy to take. You can get a box of 60 tablets for 60 cents—a fair enough price. Take them for 28 days and if you do not gain at least 5 pounds get your money back from McDermid & Jury, McDermid's, Bond's Lynch, and Payne's, or any drug store anywhere. Just ask for McCoy's.

CITY COUNCIL PASSES MOTION

(Continued from page one)

Ontario to have the assessment of income abolished. This year the attempt is to be made to have the Act made optional, which if successful would mean that next year the Act would be abolished. If this is done it will mean that in this City we would lose an assessment of $816,905.00, which would have to be made up by an increased assessment of realty and business. Many of our factories have a fixed assessment, so that the large part of the increase would fall on the home owner and the merchant, those least able to pay. In this city last year there were 235 persons assessed for income, one third of whom are not otherwise assessed. The other two thirds are in receipt of incomes of from $3,500.00 up to $100,000.00 and are surely more able to pay than the householder whose income in many cases does not exceed $1,400.00 or $1,500.00 a year.

"I would suggest (if approved by the Council) that a resolution be passed and copies sent the Premier of Ontario and our local member opposing any change in the Act."

Change Sunday Service.

It is likely that the operation of the busses will be discontinued on Sunday except for several hours morning and evening to accommodate those attending church. A letter from Frank Mitchell, president of the bus company, outlining the decrease in the company's business and the need of curtailing expenditure was read.

Mr. Mitchell pointed out that under existing conditions due to industrial depression the company was losing $1,000 a month in Peterborough. Besides that, he stated, the company last Fall had started a program of re-building the busses and every bus had been thoroughly ovrehauled at a total cost of over $12,000.

On Sundays the company loses about $40 and it was because of this that Mr. Mitchell asked permission to reduce the operation of the busses on that day to church hours.

The Council unanimously voiced appreciation of the manner in which the bus company was serving Peterborough's citizens and willingness to co-operate with the company to the fullest extent.

Relief Officer's Report.

Relief Office A. C. Metheral reported that during February he issued 445 orders for provisions 187 orders for fuel, 14 orders for indigent patients and made 49 inspections and investigations.

The subject of Daylight Saving came up but was held over for another month. The general feeling as expressed by the Council was that Peterborough adopt fast time on June 15 and continue to September 1 as in other years.

Alderman McNabb brought in a resolution that each committee hold a meeting monthly and submit a report to each Council meeting. The motion passed unanimously.

Clouds Roll Away

The mortgage was due. The old couple were worried sick about it. "If John were only home to talk it over with us!" Then the telephone rang. John had remembered, busy as he was. A few words of wise counsel and a promise of immediate help from him—and the sun shone again, the burden was lifted. Long Distance had rolled the clouds away.

ICE CARNIVAL SCORES BIG HIT

Lakefield Carnival Shows Keen Competition in Various Classes.

PRIZE WINNERS.

LAKEFIELD, March 3 (Examiner Correspondence). — The fancy dress carnival was the premier event of Friday evening last, and while the number in costume and of spectators was not up to expectations, nevertheless the carnival scored a real hit. There were several original costumes, a larger percentage than usual and in some cases the judges found it difficult to make a choice between several almost equally clever impersonations. The judges were Mrs. H. E. Moore, Mrs D. H. Webster, and Mr. J. F. Harvey, and the prizes were presentd by Mr. J. A. Porter.

The best ladies' fancy costume was awarded to Mrs. Millage as a mystery pierrot, a very attractive impersonation set off by her graceful skating. Other costumes worthy of mention were Peter Pan and the daffodil. The prize was a beautiful rose-pink ivory toilet set. Mrs. Gillman, in a cleverly carried out costume representing two-in-one shoe polish received the prize (a mirror) for the best comic costume worn by a lady. The Southern mammy and grandma with her knitting were runners-up in this class. The gentleman's fancy costume was awarded to Dr. J. C. Smith, who was representing a Spanish cavalier. His prize was a smoking stand. Frank Payne as an old lady of the old school won the prize for men's comic costume, and was exceptionally good The award was a travelling set. Cora Charlton as a cupid won the prize for the best girl's fancy costume. Hans Brinkner and the rosebud were also worthy of mention. The prize was a dainty toiletry. Jean Blewett's clever impersonation of Dame Trot won the writing case which was the prize given for best girl's comic costume. Joe Blewett as Megambi won the prize for the best boy's fancy costume, a scarf and neck tie; and Douglas Smith, who had a very amusing representation of the Knight of the Bath, won the sweater offered as a prize for the boy's comic. Several small boys and girls skated in competition for the special prize to children of ten years and under for an original costume, and George Tanner as a donkey won the hand sleigh. If another prize had been given it would have been won by little Birdie Lennox, who was a dainty carnival queen undoubtedly as her costume was one of the prettiest on the ice.

The Citizens' Band supplied music of fine quality, and everybody had a good time skating or looking on.

The following were among those in costume:

Mrs. J. C. Smith, Peter Pan; Mrs. Gillman, Two-in-One Shoe Polish; Mrs. Yale, Southern mammy with baby; Mrs. Francis McFadden, as grandma; Mrs. W. J. Millage, mystery Pierrot; Misses Merle Webster, Madame Queen; Madeline Abrams, Turk; Mary Webdale, boy; Bella Hamblin, tramp; Miriam Brown rosebud; Phyllis Webster, rooster; summer man; Bobbie Brown, lamp Blewett, Dame Trot; Lois Yale, baby; Phyllis Charlton, the Old Battle Axe; Lilian Mason, daffodil; Patricia Earnshaw, pierrot; Dr. J. C. Smith, Spanish cavalier; Harry Sherin, grandfather; Kenneth Morris, bat; Joe Blewett, Megambi, the Beast of Tarzan; Carmen Payne, summer man; Bobbie Brown, lamp shade; John Brown, Amos; Frank Payne, old lady; Donald Yale, gondolier; Harry Hunter, Bobby Susie; Jack Chappell, old man; Bob Lennox, the old woman in the shoe; Charlie Tanner, Japanese geisha girl; W. W. Yale, pierrot; Bernard Johnston, gipsy; Percy Payne, clown; George Tanner, donkey; Patricia Wannamaker, Spanish girl; Madeline Charlton, Hans Brinker; Frances Young, Hallowe'en girl; Mary Tanner, little girl; Grace Watson, Miss Homespun; Colleen Junkin, sailor girl; Jean Kingdon, toreador; Cora Charlton, cupid; Ralph Mason, grandpa; Allan Mason, grandma; George Chappell, girl; Douglas Smith, Knight of the Bath.
